This will help align all the parts at all the joints.
Then carefully leave the sofa and tighten all the bolts in sequence.
When tightening bolts, tighten them in sequence.
Do not tighten any bolts completely and proceed to the next bolt.
This can lead to distortion of the frame.
If there is still shaking, loosen the bolt and perform the same procedure.
If the sofa is unstable, the product may be damaged.
Note: this step is best done with the help of a second adult.

Step 8

Put the seat cushion (E) and cushion (F) on the love sofa.
