This page lists all the contents included in the box. Please take the time to identify the hardware as well as the individual components to this product. As you unpack and prepare for assembly, place the contents on a carpeted or padded area to protect them from damage.

- 1** Place the Chair Back (A) upside down on the smooth carpeted surface. Attach the Seat (B) to the Chair Back (A) using Bolt (D), Lock Washer (G) and Flat Washer (H) into the middle holes, and using Bolt (F), Lock Washer (G) and Flat Washer (H) into the corner holes, tightening with the Allen Wrench (I).

Take the Allen Wrench, and turn the bolts until the legs are secured. DO NOT TIGHTEN COMPLETELY. Stop when you feel you are adding force to tighten the bolt.

- 2** Attach the Front Leg (C) to the Seat (B) using Bolt (E), Lock Washer (G) and Flat Washer (H) with the Allen Wrench (I).

Stand the chair on an even surface and check for balance. If the chair wobbles slightly, apply downward pressure on the uneven leg and tighten the bolts to correct the imbalance. Once the chair is balanced, apply downward pressure evenly in the center of the chair and tighten all bolts, being careful not to over-tighten beyond the hole depth.

Helpful Tip:
While tightening the bolts from underneath, have someone sit in the chair.
