Hybrid Mattress INSTRUCTIONS

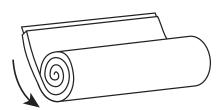

Move mattress to your desired room location.
Lay box on its side. Clear an area on the floor large enough to allow the mattress to lay flat.

STEP 2

Remove bagged mattress and carefully cut the outside PE bag on the red line making sure you do not cut into the inner plastic wrap.

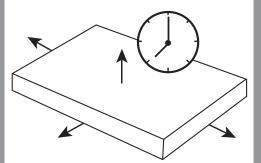

STEP 3

Completely unroll the compressed mattress onto a clean flat surface.

4

Cut open a small section of the plastic in one corner. The mattress will inflate to full size and the mattress can be removed. STEP 5

Your mattress is now ready to use. Please allow 48 - 72 hours for complete expansion.

Have a question, concern or simply need a hand? Let us help! We know our mattresses inside and out, and will help get you straight to the ZZZZs in no time.

- * Your mattress has been compressed for easy and efficient delivery and setup. We know you are excited to put it to use!
- * Please unwrap it carefully, as your mattress is eager to get out of this small box.
- * And, give your mattress time to decompress. It just needs a moment to relax and recharge itself into an optimal position.
- * Lastly, it is natural to sense a subtle odor once unpackaged, so no hard feelings. This too shall pass and you both will be like peas in a pod in no time.
