Maintenance Guide

To maintain long term performance and easy gliding of your solid wood drawers, we recommend applying wax to the wooden guide rails.

1. Bee's wax is recommended or Paraffin wax from a standard candle can be used.
2. Apply the wax by rubbing it on the wooden guide rails where there is wood-on-wood contact when opening and closing the drawer. (Wax should be room temperature, do not melt the wax onto the wood).
3. Wax should be applied every few months for the first year and then only when needed after that to keep the drawers sliding smoothly.

WARNING

Serious or fatal crushing injuries can occur from tip-over. To help prevent tip-over, install tip restraints per instructions. If using to support a television or monitor:

- For use with televisions weighing 35lbs (15.8Kg) or less and no wider than this product. Use with heavier televisions may result in instability causing tip over resulting in death or serious injury.
- Death or serious injury may occur when children climb on audio/or video equipment furniture. Remote control or toys placed on the furnishing may encourage a child to climb on the furnishing and as a result the furnishing.
- Do not place TV near front the edge of the product.

To further reduce the risk of serious injury and death from tip-overs:

- Place heaviest items in the lowest compartments or drawers.
- Never allow children to climb or hang on drawers, doors or shelves.
- Never open more than one drawer at a time.

The use of tip-over restraints may only reduce, but not eliminate the risk of tip-over.

For safe mounting, it is essential to use wall anchors appropriate to your wall type (i.e., plaster, drywall, concrete, etc). Mount to wood studs whenever possible. **Note: if you are unsure about your wall type or what mounting the method you should use, consult a qualified professional or your local hardware store.**

Attach screw (C) into washer (L), securing wall anchor (N), in the frame of superior panel unit.

Drill your wall with a 6mm drill (not included) and insert hardware (M), securing wall anchor (N) with washer (L) and screw (C) in the wall.
