Assembly Steps

Overview

This Swing has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Swing, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Unpack and place all parts on a clean, non-marring surface.

Step 2

With the assistance from your adult partner, attach the Backrest Panel (A) to the Seat Panel (B) using Screws (①) and the Allen Wrench (⑩) as shown above. **Do not fully tighten the Screws.**

Step 3

Insert the tenons of the Seat Panel (B) into the mortises of the Left Arm Panel (C) and the Right Arm Panel (D), then attach all three parts by using Lock Nuts (④), Washers (⑧), and Eye Bolts (⑤), with the Wrench (⑨) as shown above.
Do not fully tighten the Bolts.

Step 4

With the assistance from your adult partner, turn the Backrest Panel (A) in the assemble part of step 3 up as shown above.

Continuously attach the Backrest Panel (A) to the Left Arm Panel (C) and the Right Arm Panel (D) using Bolts ((2)) and Sleeve Nuts ((3)) with the Allen Wrench ((10)) as shown above.

Do not fully tighten the Bolts.

Step 5

Step 5.1: Unscrew the connection on the Carabiner ((7)), then loop the Chain ((6)) onto the Carabiner ((7)), and screw the connection shut as shown above.

Note: The distance from the Carabiner ((7)) to the back of the Left Arm Panel (C) and the Right Arm Panel (D) is shorter than the distance from the Carabiner ((7)) to the front of the Left Arm Panel (C) and the Right Arm Panel (D).

Step 5.2: Align the Chain ((6)) through the holes of the Left Arm Panel (C) and the Right Arm Panel (D). Then lock the end of the Chain to the Eye Bolt ((5)) on the Left Arm Panel (C) and the Right Arm Panel (D) using the Carabiners ((7))
Repeat the same process for the remaining Chain ((6))

Step 6

Then carefully sit onto the Swing.

This pressure will help the swing reach full alignment at all joints.

Then get off the Swing and proceed to tighten the Bolts and Screws in a sequential manner.

When tightening the Bolts and Screws, tighten sequentially.

DO NOT tighten any Bolt or Screw fully and then move on towards the next one.

Your Swing is ready for use.

This Swing can only be used on a flat, level surface.
