CHIC DIAMOND GARDEN TRELLIS HBM-635

Read this manual carefully before use and save it for future reference.

Location

Be sure the installation location provides the adequate amount of sunlight required for your climbing plant (not included). Ensure there is adequate space for the trellis and for the plant that will be climbing on it.

Potted Plants: To ensure proper stability, choose a pot that is large enough to support the weight and height of the trellis. The soil must also be firm enough to support the trellis.

Preparation

Clear any debris that may prohibit the trellis stakes from being fully pressed into the ground, such as mulch, pine, straw, stones or pavement.

Installation

Press the trellis securely in the ground by pushing near the base of the stakes. Never press on the trellis with your foot as it may bend or break the unit. If the ground is too hard, slowly saturate the soil with water to help soften it.

General Use & Care

INSTALLATION: Ensure proper stability is obtained when installing the unit.

CLEANING: Use a slightly damp, soft cloth to wipe away dirt and debris.

WINTER CARE & STORAGE: After the growing season has ended, remove the trellis from its growing spot and store in a dry, indoor location to ensure no damage occurs.

Any modification to the product or failure to follow recommended care will void the product warranty.

⚠WARNING:

Manufacturer and seller expressly disclaim any and all liability from personal injury, property damage or loss, whether direct or indirect, or incidental, resulting from the incorrect attachment, improper use, inadequate maintenance, or neglect of this product.
