

CARE INSTRUCTIONS FOR DECORWONDERLAND MIRRORS

1. Use an ammonia free window cleaner
2. Spray directly on soft lint-free cloth
3. Gently wipe mirror with cloth

WHAT DOESN'T WORK...

- Wiping your steamed-up mirrors with a towel post-shower
- Using newspaper; this may have been true years ago, but today's ink will leave behind residue
 - Paper towels leave behind small piece of residue, making your mirror look dusty
- Using a general cleaning product that is not labeled specifically as a window cleaner
