- Read instructions, cover to cover-

- Have 2 adults on hand for assembly-

- Do not assemble on flooring or carpet-

- Assemble on a clean non-marring surface (packing foam)-

- Save all packaging until finished-

Assembly Steps

OVERVIEW

Recliner Backrest(A)

Recliner Base Body(B)

Leg(C)

FRONT FACING

This Double Recliner has multiple parts and may require up to some 30 minutes to assemble. To give you an overview of the Double Recliner parts, the above picture is to help you put the various parts into perspective. Please read through the instructions here below to familiarise yourself with the parts and steps before assembly.

Step 1

Position the Double Recliner Base Body(B) on a clean non-marring surface (Preferably on a surface that won't scratch the upholstery.)
Take the inner box form the back of Recliner Base Body(B) then remove Legs and Hardware from inner box as shown.

Step 2

Position the Recliner Base Body(B) on its back as shown above. Install the Leg(C) to the Recliner Base Body(B) by placing a Plastic Washer(①) on the stem of the leg, then turn the leg clockwise as shown. Repeat the same step with the remaining three Legs(C).

Note: The use of Plastic Washer(①) are OPTIONAL and are especially useful to help alleviate slight wobbleness. Some Legs may need more than one Plastic Washer(①) whilst some Legs may not need any.

Step 3

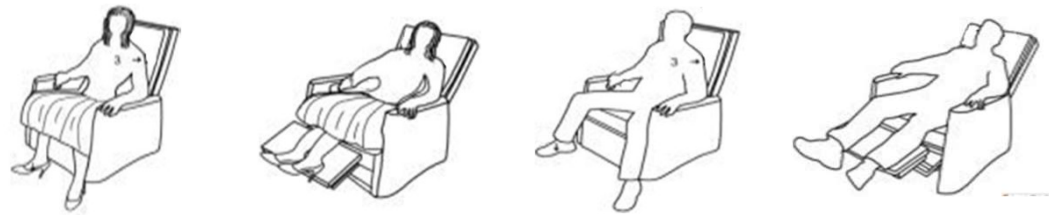

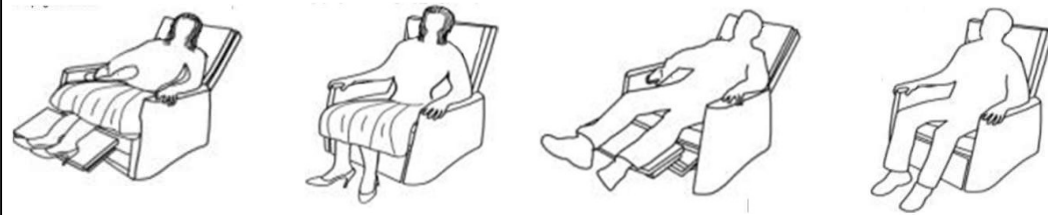

With assistance from your adult partner, hold up the Recliner Backrest(A) and stand behind the Recliner. Insert the small metal arms on the sides of the Recliner Backrest(A) into the prefabricated slide lock gadgets on the Recliner Base Body(B) as shown above. Firmly but gently, push the Chair Backrest(A) downwards until the Backrest is fully slotted and locked into position.

Step 4

Your Recliner is ready for use.
This Recliner can only be used on a flat, level surface.

User Instructions.			
Recliner Chair			
Please read the Instruction Manual below carefully before use.			
This is a Recliner Chair. At anytime in a reclined seat position or in the upright position. You may enjoy the rocking motion by using your body weight in a back-front rocking motion.
