# The goods

## IMPORTANT

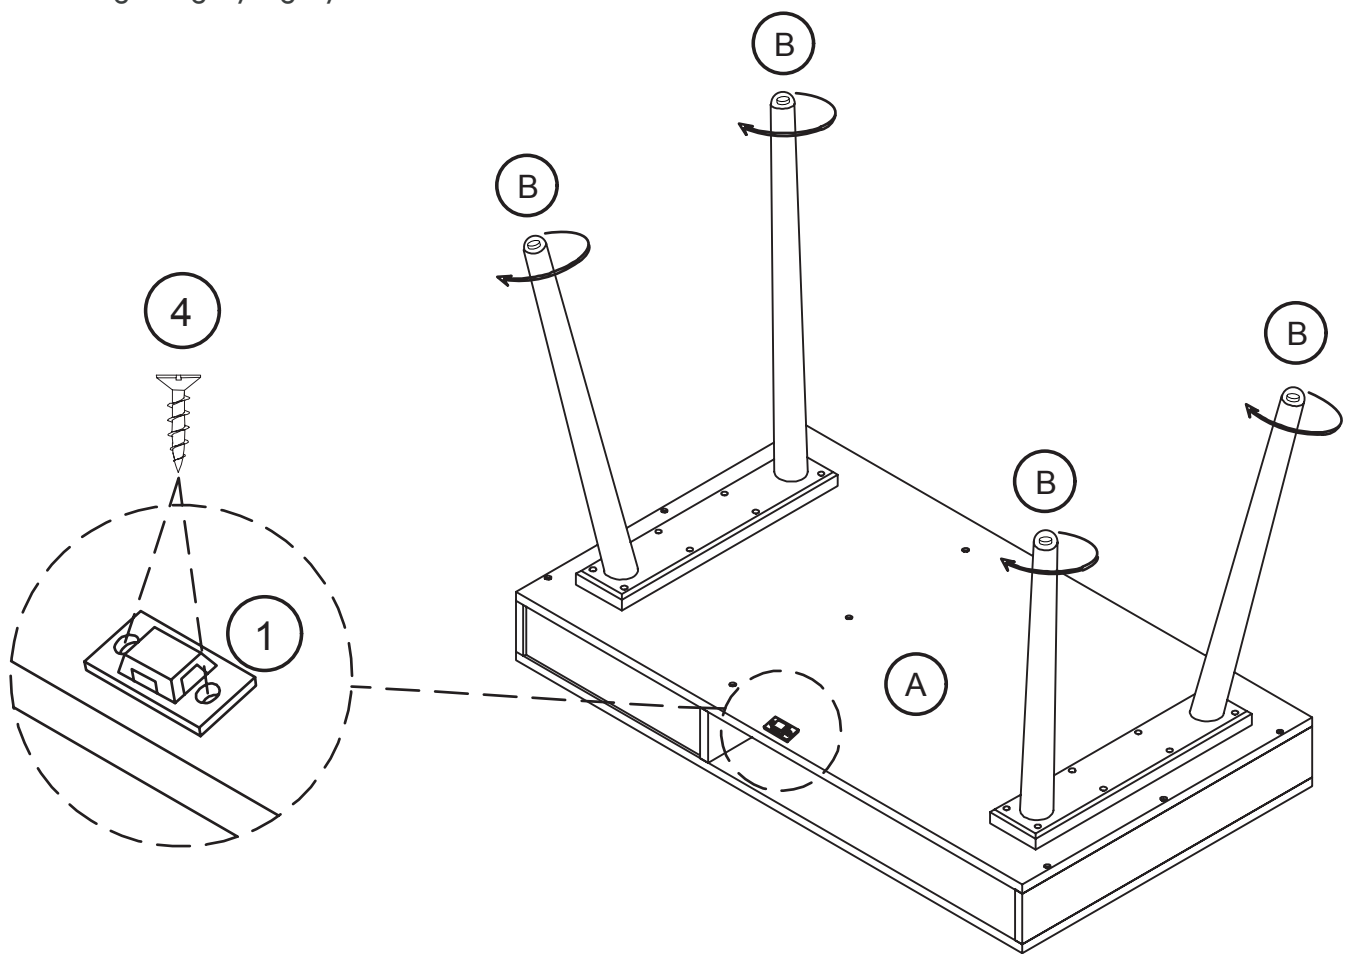

1. Do not tighten bolts / screws completely until all bolts / screws are lined up and inserted into holes.
2. Do not over tighten screws and bolts to avoid stripping.
3. Please use hand tools to assemble this product. Do not use power tools.

# Step 1

Let's get this thing fired up! Lay down packaging carton or use carpet as a working surface.

With the desk upside down, simply twist the legs on to tighten and secure the Plastic Connector (1) to the bottom of the desk, at the back of the desk.

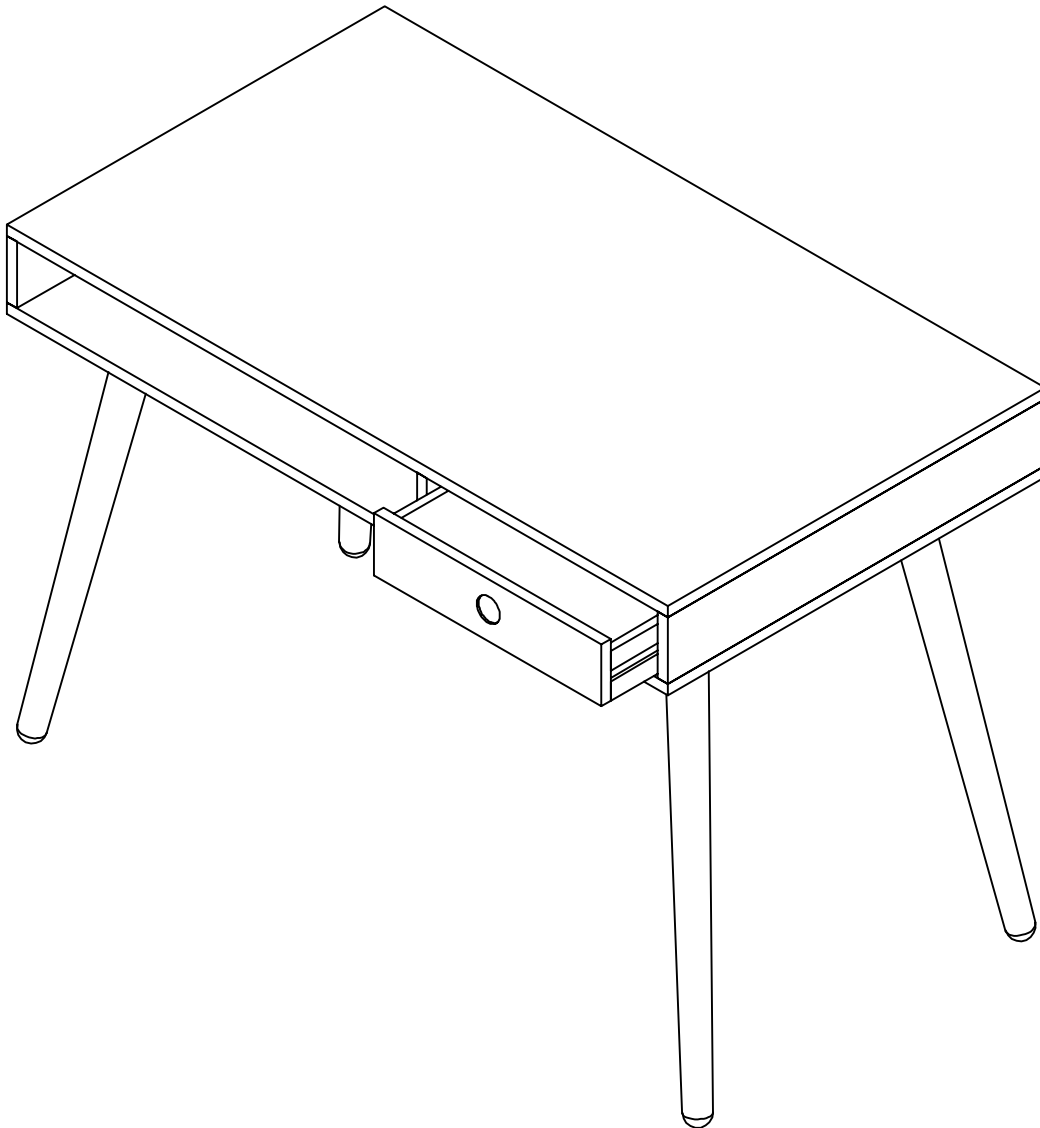

Don't forget: righty-tighty!

# Step 2

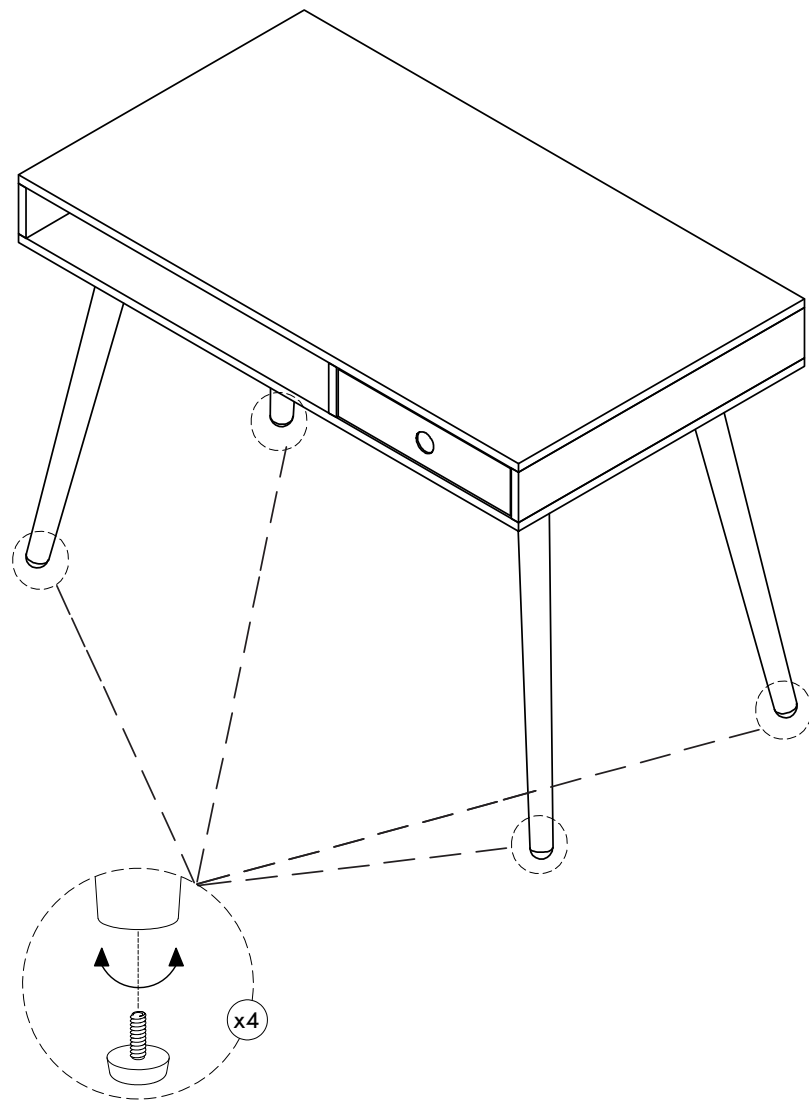

Grab a friend (and put the bubbly down) and carefully flip the desk over.

We told you it was going to be easy!  
All that's left to do is secure it to the wall.

# Step 3

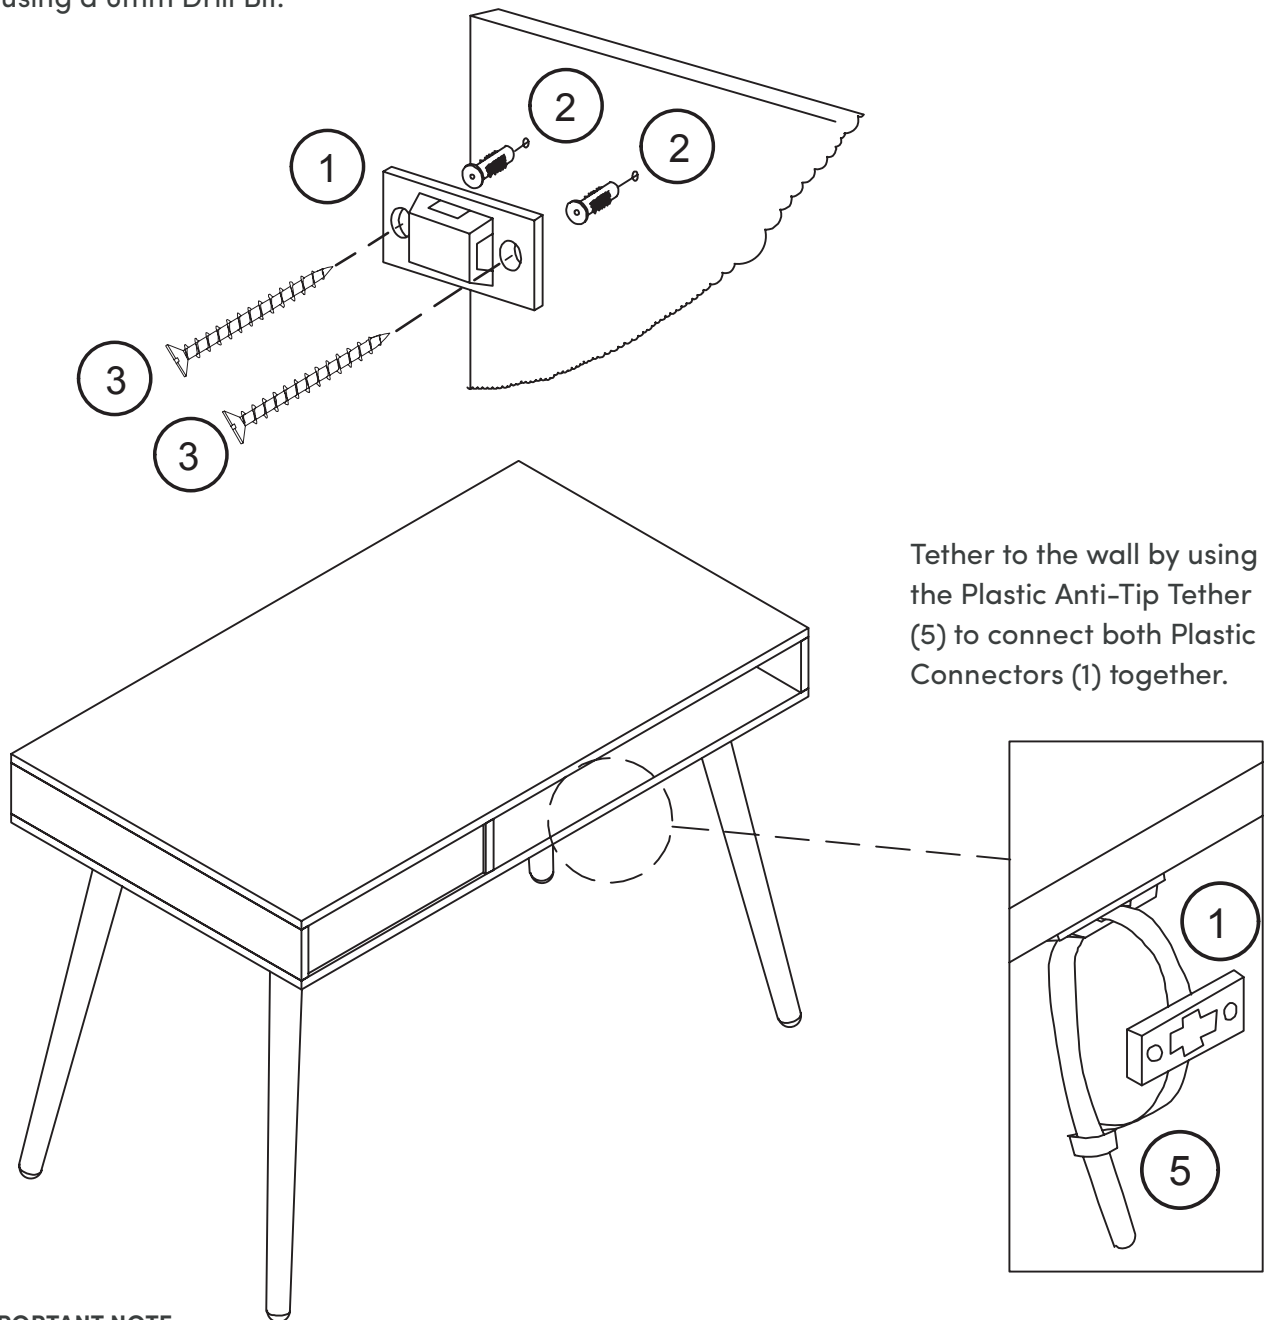

Now go ahead and check that your desk is level. If it's looking a little unlevel, adjust the levelers on the feet until it's nice and level.

**HELPFUL TIP:**  
Adjust feet to balance Desk.

# Step 4

Mount the other Plastic Connector (1) to the wall using the provided Wall Anchors (2). We recommend using a 6mm Drill Bit.

## IMPORTANT NOTE:

Young children (and/or pets) can be seriously injured by tipping furniture units.

You must install the provided anti-tip kit hardware solution, as instructed, to prevent the furniture unit(s) from tipping over - which could possibly lead to injuries or damage.

The provided anti-tip kit hardware solution is intended only as an additional safety measure & deterrent; it is not a substitute for proper adult supervision.

The provided anti-tip kit hardware solution is not an earthquake restraint. If you wish to add the extra security of earthquake restraints, they must be purchased & installed separately.
