# Mystflame Series Wi-Fi Setup Guide

## Setting Up Tuya Smart App and Account

1. On your mobile device, download the Tuya Smart App from the appropriate app store or click the QR Code provided to download the app.

2. Once the TuyaSmart App is installed, click on the app icon to open the app and create a new account.

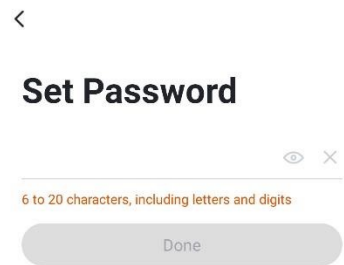

3. Once a new user name has been created, you will be sent a Verification Code. Enter the Verification Code.

### Enter Verification Code

A verification code has been sent to your email

4. Setup account password.

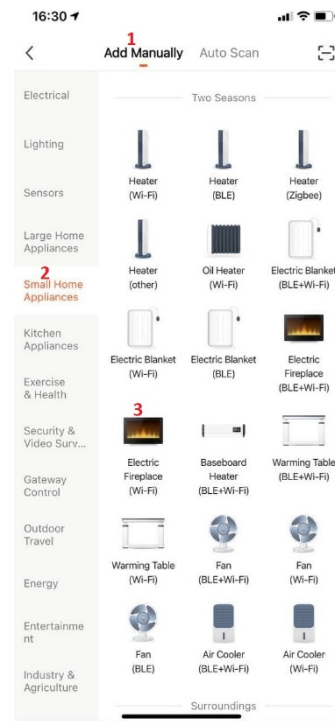

5. After account is created, log into account and select the Add Device button.

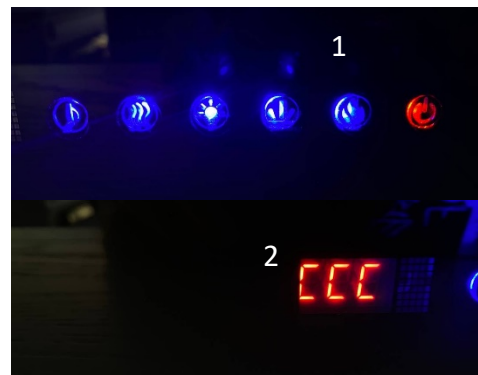

6. To add your Fireplace, select the Add Manually option (1) at the top of the screen and select the Small Home Appliances tab (2) on the left side of the screen.

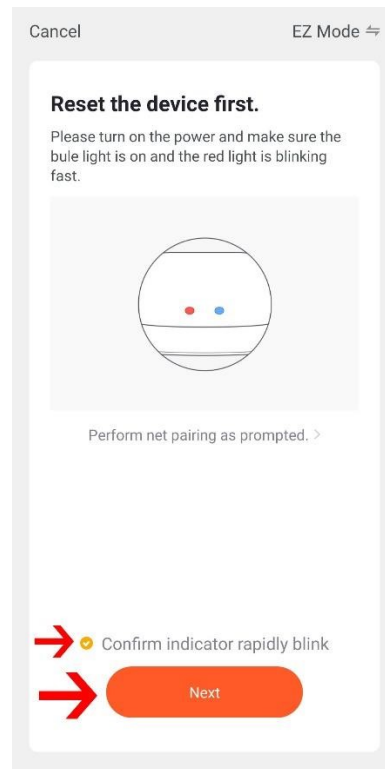

Scroll down and select the Heater (other) (3) icon.

7. Place the fireplace in Wi-Fi Pairing Mode by powering on the fireplace and pressing and HOLDING the FIRE BUTTON on the fireplace control panel until the display reads "CCC"(2).

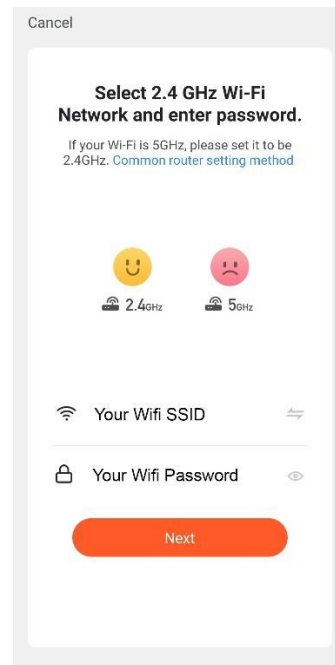

8. Once the fireplace is in Wi-Fi Pairing Mode, click the CONFIRM INDICATOR RAPIDLY BLINK box and click the NEXT button.

9. Enter Wi-Fi Access Point information to connect to your Wi-Fi Network. Enter your Wi-Fi SSID (Network Name) and Your Wi-Fi Password and click the NEXT button.

**NOTE:** *The 2.4GHz band on your Wi-Fi router must be enabled in order to connect the fireplace to your network*

10. The fireplace will now be added to your network and the TuyaSmart app.

11. When complete, your Mystflame Fireplace will now be successfully added to your network and the TuyaSmart app.

You can rename your fireplace by clicking the edit icon next to the FIREPLACE name.
