## INSTALLATION

# LED BATHROOM MIRROR Lighting and Defogger

## TOOLS REQUIRED FOR ASSEMBLY

Electrical Drill

1/8" Drill Bit

Pencil

Phillips  
Screwdriver

Tape Measure

Level

## PARTS INCLUDED

Mirror

SCREW

WALL PLUG

WIRE CONNECTOR

HANGING BAR

**NOTE:** Determine overall mirror dimensions before proceeding to installation.

\*All dimensions & specifications are approximate and subject to change without notice.

\*Accessories and parts may vary from the picture above. Depends on the product model and size.

## INSTALLATION

# LED BATHROOM MIRROR Lighting and Defogger

## ELECTRIC CONNECTIONS

### **ALL WIRING SHOULD BE DONE BY A QUALIFIED LICENCED ELECTRICIAN**

**WARNING:** Shut off power before wiring the mirror.

**WARNING:** An Electrical option mirror must be wired to a 20 Amp GFI (Ground Fault Interrupter) protected circuit when used in bathrooms and all other locations required by the National Electric Code.

**WARNING:** This mirror must be connected to a grounded, metal permanent wiring system or an equipment-grounding conductor must be run with the circuit conductors and connected to the equipment grounding terminal or lead on the mirror.

**CAUTION:** Requires 120 VAC 20 Amp GFI protected circuit.

### vertical hanging

### horizontal hanging

**Electric wiring:** Be sure to provide enough wire to make the proper and safe connection to the Field/Power.

### MIRROR FEATURES

- 5mm copper free silver mirror
- High output LED lighting:  
CRI 90+, 3000-6000K CCT, IP44
- Color Temperature changing touch switch for surface LED
- Vertical and horizontal mount options
- Defogger

# INSTALLATION INSTRUCTIONS

**1**

## PLACEMENT

Select the desired position of the mirror.  
Level and mark the location.  
(vertical and horizontal mounting options)

**2**

## SUPPORT LOCATION

Measure the hanging bar holes and mark the drilling locations ensure marking are leveled.

**A**

**B**

**3**

## INSTALL SCREWS

Using a drill, make holes on solid wall, and fill with supplied plugs and screws into hanging bar holes tightly.

**A**

**B**

**4**

## POWER OFF

Please turn off all the power before the mirror wires connection.

Power Off

## INSTALLATION INSTRUCTIONS

**5**

### CONNECTION

Use the wire connector connect to external power supply, and pusung the power supply wires into the junction box.

**Warning:** Strip wires to a suitable length. DO NOT connect the hardwire to a plug & socket outlet

**6**

### Turn on the power

Hang up the mirror stable then turn on the power.

## FINAL ASSEMBLY

### How to use Defogger Switch and Dimmer Switch:

#### Left touch Sensor

ON/OFF Anti-fog(The defogger power will automatically turn off after an hour)

#### Right Touch Sensor

ON/OFF Lighting

Quick Tap-tap(two times) light color change, brightness control by holding

"Switch" sign

#### OPERATION

- 1.Touch the sensor button to turn ON the light. Quick tap-tap twice to change the light temperature from 3000K, 4000K to 6000K.
- 2.Touch and hold the Light ON sensor button to dim the light. Release the button when the light reaches the desired brightness setting.
- 3.Touch the sensor button to turn OFF the light.

The mirrors are equipped with a memory feature to preserve the previous brightness setting.
