BEFORE INSTALLATION

This product has been inspected and debugged by the factory to the best condition. Please do not disassemble and assemble it yourself.

Before installing the product, please be sure to remove sundries and sludge from the water pipe to prevent sundries from blocking the product.

1. Please read the manual firstly before installation;
2. Please check the condition of all the parts, and the installation tools are not included, please prepare it by yourself;
3. User manual includes matters needing attention during installation, please keep it properly;
4. The size chart in the manual is for reference only, please refer to the actual product that you receive.

Recommend Tools :

PTFE Tape

Hex Key

Slotted Screwdriver

Phillips Screwdriver

1. The sundries at the connection area must be cleared before installation to avoid blockage or leakage;
2. Connect the inlet pipe correctly as shown in the figure;
3. The maximum temperature of hot water is not higher than 80°C (176°F);
4. Please contact seller for consultation if you need to install in other method.

INSTALLATION STEPS

1. First bury the main part in the wall.

Mark the location of screw holes on the wall, drill holes and install the water intake body

Note: depth of embedded body excavation thickness of tiles to be reserved.

Embedded depth
1 1/2" MIN 38mm
1 8/9" MAX 48mm

In the process of burying the wall, please do not remove the protective cover and avoid touching the copper sleeve.

2. Please install other parts in the order as shown in the figure below when the valve mounted to the wall:

1. Remove the lid of the Embedded Box;
2. Place the trim plate;
3. Mount the handles.

3. Install the shower arm and shower head. (Wrap the PTFE tape on the thread.)

INSTALLATION DIMENSION

The picture is for reference only, you can install it according to your own requirements.

CLEANING CARE

In order to keep the appearance of product clean, bright and good performance, please take care of the product as follows;

1. Rinse with water only and dry with soft cotton cloth;
2. Use mild liquid and colorless glass cleaner to remove surface dirt and scale film, or use polish without abrasive effect;
3. Do not use abrasive detergent, polish, emery cloth, paper towel or scraper, etc;
4. Do not use acid cleaner, or cleaner and soap with insoluble gran etc;
5. In the process of use, mud may accumulate in the bubbler and make the water flow show, The bubbler can be unscrewed, rinsed with water, and then installed back in place.
