

Bathroom Vanity Top Back Splash Installation

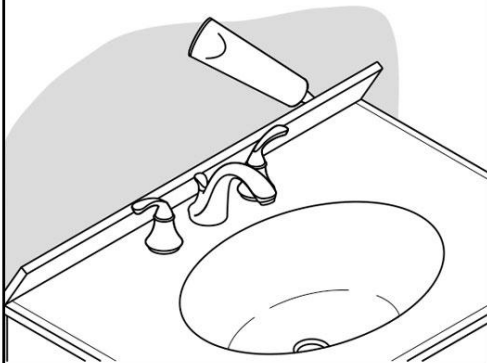

1. Position the backsplash on top of the vanity and flush against the finished wall.

2. Verify the sides of the backsplash are aligned with the sides of the vanity top.

3. Secure the backsplash using a bead of siliconized acrylic caulk on the back surface.

4. Apply a bead of caulk along the seam of the wall and backsplash.

5. Apply a bead of caulk along the seam of the backsplash and vanity top.
