Setting Up Your Lamp

Placement: Choose a suitable location for your lamp. Make sure it is near a wall plug for power.

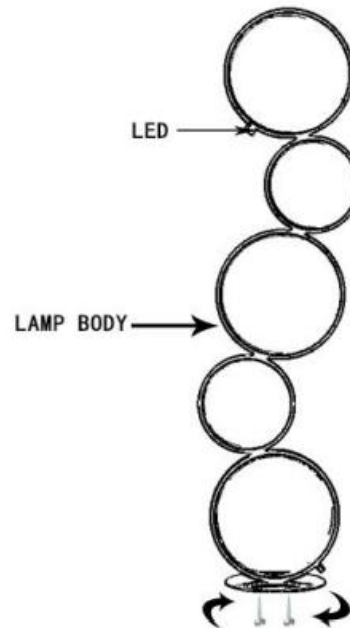

Assembly: Follow the included assembly instructions to set up your lamp. If you wish to mount the lamp on a wall, use drywall screws and super glue to hold it in place.

Power Connection: Connect the lamp to the power source using the wall plug.

INSTALLATION INSTRUCTION

PRECAUTIONS:

1. Please keep the lamp away from acid and alkaline solvents, otherwise it will cause serious damage to the surface of the lamp;
2. This lamp is suitable for 100V-240V voltage;
3. Please turn off the power switch before installation;
4. Do not let children touch it casually;
5. Do not use in places with harsh humid environments;
6. Please read this manual carefully before installation, otherwise you will be responsible for the consequences.

1. Tighten the two screws upwards from the chassis to connect the chassis and the lamp body together.
2. Connect the foot switch to the power plug and connect to the power.

NOTE

Please do not fully tighten the first screw before screwing in the second one, otherwise the second screw will not fit due to misalignment. Gently screw in the first screw, then align the second screw with its position and tighten it first, then fully tighten the first screw

Troubleshooting

If you encounter any issues with the lamp, please contact our customer service team. We strive to solve your problem as quickly as possible.
