

Motorized Adjustable Bed Base Frame

Before You Begin:

Please identify all component parts and hardware pieces required before you begin. Carefully remove all of the components from the packaging and set aside for assembly. Assemble on a soft surface to prevent scratching during assembly.

Caution:

Tighten all components securely before use. Failure to do so may result in personal injury.

DO NOT use any sharp objects to open plastic wrapped components as damage to product or components may result.

Warning:

CHOKING HAZARD - Small Parts. Adult Assembly Required.

DO NOT ALLOW CHILDREN TO CLIMB ON FURNITURE

Serious or fatal injuries can occur from furniture tipping over. You must install Tipping Restraint Hardware (where included) to help prevent the unit from tipping and causing accidental injury, instability, death or damage. The tipping restraint is intended only as a safety measure, it is not a substitute for proper adult supervision.

To help prevent furniture from tipping over it must be permanently attached to the wall. Anti-Tip Safety Wall Straps suitable for the unit weight and wall materials (if not included) should be purchased and installed.

Congratulations!

You just purchased a piece of happiness. At Belnick, we believe you can transform your spaces into the most inspired places with furnishings that are the perfect combination of form, function and style. Read this manual before using this product. Failure to follow the instructions and safety precautions in this manual can result in serious injury or death. Keep this manual in a safe location for future reference.

Safety Precautions

PLEASE READ THE FOLLOWING INFORMATION CAREFULLY BEFORE USING THIS PRODUCT

If unable to understand warning, cautions, and/or instructions, contact the dealer or technical personnel if applicable, before attempting to use the equipment. Otherwise, injury or damage may result. This product is intended for household use only.

- Use this product only for its intended purpose.
- Close supervision is necessary when this product is used by or near children or handicapped individuals.
- Never operate this product if it has a damaged cord or plug, or is not working properly. Keep the product, remote control, wires and power supply away from heat.
- Do not use this product in a humid environment. The connector part of the wire, and the gap between the motor and the control box, cannot be exposed to liquid or high humidity.
- Never use this product as a substitute for medical attention or treatment.
- Consult your physician if you have any questions regarding the use of this product.
- Do not use this product to treat any unexplained pain before consulting your physician. Stop using the product if you experience pain or swelling.
- Always unplug the product before attaching or detaching any parts or cleaning it.
- Unplug the power cord and remove the remote control battery when the product is not used for a prolonged period of time.
- Do not let children play with or operate this product.
- Do not allow children or pets underneath the bed.

RADIO FREQUENCY: 2.4 GHz FCC COMPLIANCE:

The wireless equipment of this product conforms to the FCC certification standard.

Parts List

		
PART A: Bed Platform X 1 pcs	PART B: Mattress Rail X 1 pcs	PART C: Legs X 6 pcs
		
PART D: Remote Control X 1 pcs	PART E: Power Supply Box X 1pcs	PART F: Power Cable X 1pcs
		
PART G: DC Extension Cable X 1 pcs	PART H: AAA Batteries X 2 pcs	PART I: User Guide X 1 pcs

Assembly

1. Lay the carton flat on the floor and carefully cut it open.

2. Take off the carton and place the Bed Platform (Part A) on the floor.

3. Remove and discard the plastic bag then unfold the bed platform.

4. Cut the zip ties, take out all the part boxes and the mattress rail, and check that you have all the necessary parts according to the parts list.

5. Insert the (6) Legs (Part C) into the appropriate receiver holes and turn clockwise to tighten.

6. Connect the DC Extension Cable (Part G) to the control box on the bed platform then connect the other end to the Power Supply Box (Part E). Connect the Power Cord (Part F) to the other side of the Power Supply Box and plug the other end into a nearby power outlet.

7. Insert (2) AAA Batteries (Part H) into the Remote Control (Part D) and press any button. If the motor begins to run, unplug the power supply and turn the bed over to the right side-up position. If the motor does not run, re-match the code.

Matching Code:

Method 1: Unplug the power cord, wait 10 seconds, then plug in the power cord again. The blue light on the control box (see first image below) should light up. Simultaneously press and hold the head up and head down buttons (see second image below) on the remote control. When the white backlight flashes, release the buttons. If the code matches, the blue light on the control box will turn green. If this method does not match the code, please try method 2.

Method 2: Press the "PAIR" button on the control box to light up the blue light (see the first image below). Simultaneously press and hold the head up and head down buttons (see second image below) on the remote control. When the white backlight flashes, release the buttons. If the code matches, the blue light on the control box will turn green.

8. Insert the Mattress Rail (Part B) into the holes at the foot of the bed.

Remote Control and Functions:

Button	Operation	Button	Operation
	Press and hold to raise the backrest. Let go when the desired position is reached.		Press and hold to raise the footrest. Let go when the desired position is reached.
	Press FLAT button to flatten bed.		Press and hold to lower the footrest. Let go when the desired position is reached.
	Press and hold to lower the backrest. Let go when the desired position is reached.		Click to set a zero gravity position. Position Angle: HEAD-16°, FOOT-35°
	Click to set a user-defined position.		Click to set a Anti Snore Position. Position Angle: HEAD-10°
	Click to turn the LED flashlight on top of the remote on and off.		

Memory Setting:

Setting a custom memory position.

1. Press the FLAT button to flatten the bed.
2. Adjust the bed to your preferred position by pressing the head and foot up/down buttons.
3. Press and hold M button until the light flashes indicating the setting has been successfully programmed.

Split King/Dual Twin XL Sync Instructions

Method 1:

1. Place (2) Twin XL bases side by side.
2. With one remote, match the code for one bed. Follow the steps in matching code section. Press and hold the head up/head down buttons (see image 1) simultaneously.
3. Use the same remote to match code for the other bed. Follow the steps in matching code section but press and hold the foot up/foot down buttons (see image 1) simultaneously.
4. You can now use one remote to control both beds.

①

②

Method 2:

1. Place (2) Twin XL bases side by side.
2. Using a sync cable (Not Included) connect one bed to another.
3. Make sure that you plug the crystal head of sync cable into the port marked on "SYNC" on the control box.
4. With one remote, match the code for one bed. Follow the steps in matching code section. Just code for one bed.
5. You can now use one remote to control both beds

*** NOTE: The Sync Cable (Not Included) is only for the Split King Model.**

Troubleshooting:

If you experience problems with your adjustable bed, please follow these steps:

1. Press any button on the remote control to see whether the blue backlight is bright. If it's dim or does not light, check the battery.
2. Check the green power indicator light on the power supply. If it's not lit, check the power outlet.
3. Check for loose wires or connectors.
4. Check if the adjustable beds assembled according to the above steps.

If your problems cannot be solved by the above steps, please contact us.
