DIMENSIONS

Width - 67.32"
Depth - 15.75"
Height - 13.58"

ASSEMBLY INSTRUCTIONS

PRECAUTIONS

Because our products may be challenging for beginners, we deeply understand that you may encounter some difficulties. To avoid discouragement, we have provided some useful tips, as follows.

Enough Open Space -

Ensure that there is enough space for movement during assembly.

Prevent Scratching -

When assembling furniture, use cardboard, blankets or a carpet areas to prevent scratches.

More than two people -

Always have at least two people to help transport and assemble the product to avoid potential injury and/or damage.

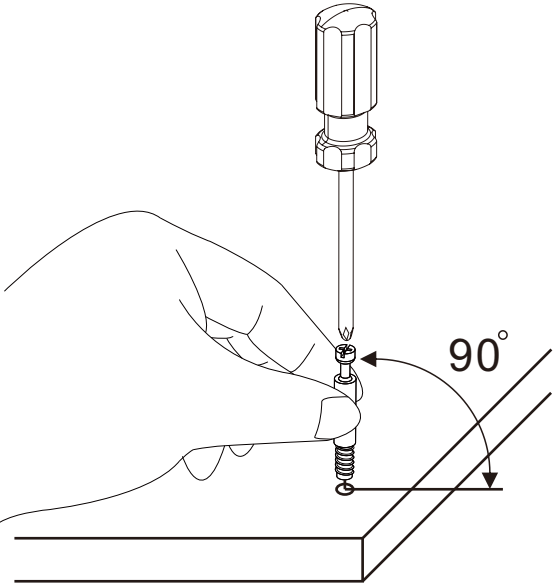

Question -

If there is any problem with the assembly process, you can call us.

ASSEMBLY INSTRUCTIONS

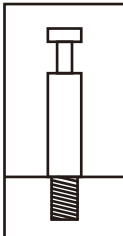

CAM LOCK FASTENER

Every cam bolt must have a cam lock connector to hold the parts together.

1.

When assembling, the hardware parts and the wooden board must be kept vertical, and the tools must be in full contact with the hardware groove.

Caution:
Do not use excessive force to avoid over-fastening, or even exceed the entire board.

2.

Insert the cam lock pin into the hole of joint panel.

3.

The cam lock nut opening side (or arrow) aligned with the cam lock pin.

4.

Slowly rotate the cam lock clockwise until it stops rotating.

Caution:
When assembling the cam lock, do not use an electric screwdriver to avoid damage to the board or hardware due to excessive force.

ASSEMBLY INSTRUCTIONS

SLIDE RAIL

The holes of the slide rail are in the same direction as the following page.

DOWEL

ATTENTION

Inserting wood dowels is likely to be tight, so wood dowels may not easily touch the bottom and damage the side panels during installation. It is recommended to slight hit the wooden pins with a hammer to eliminate the gap between the wood dowel and board.

It is recommended to use white glue to increase the safety of the product. If you are worried about assembly errors, you can temporarily not add it, and then add it after confirming.
