# Using Camlocks

## Step 1

Connect the male camlock as directed in the assembly instructions using a screwdriver.

1

DO NOT OVER TIGHTEN.  
NE PAS SERRER EXCESSIVEMENT.

## Step 2

Push the male camlock into the entry hole.

2

## Step 3

Insert the female camlock as shown in the instruction.

Note: ensure that the arrow on the top of the camlock points towards the entry hole for the male camlock.

3

## Step 4

Turn the female camlock clockwise with a screwdriver.

You should feel a click when the camlock is locked in place.

The joint is now secure.

# LED Light

If you can't let the lights work successfully, please check the following:

1. Please check the direction of the connect, try it in the opposite direction, according to the following picture .
2. Please check the remote control. it need you to tear down the plastic septum before use it.
3. Don't let the remote control too far from the receiver, make sure there is no obstruction between them.
4. When using the remote control, please make sure to aim at thereceiver, not the light strip.

**Remark:** These two buttons are invalid because the product cannot adjust the brightness of the light.

Please note that for transportation safety, the remote control does not contain batteries; the attery model is: CR2025
