IMPORTANT

1. Do not tighten bolts / screws completely until all bolts / screws are lined up and inserted into holes.
2. Do not over tighten screws and bolts to avoid stripping.
3. Please use hand tools to assemble this product. Do not use power tools.

Step 1

Let's get this thing fired up! Secure the L Bracket (6) to Seat Cushion (A) with 1/4 x 3/4" Hex Button Head Bolts (5). Tighten with the Allen Key (7).

Step 2

It's as easy as it looks! Secure the Seat Cushion (A) to the Seat Frame (C) using the 1/4 x 2 3/8" Hex Button Head Bolts (1). Tighten using the Allen Key (7).

IMPORTANT NOTE:

Locate the arrow label on the Seat Frame (C) and be sure it is pointing towards the underside of the Seat Cushion (A).

Step 3

You're within minutes of pressing play on Netflix!

Secure the L Brackets (6) to the Chair Back Sub-Assembly (B) with the 1/4 x 3/4" Hex Button Head Bolts (5). Tighten with the Allen Key (7).

Step 4

Now take a moment to match the sticker on the bottom of the Chair Back (B) with the sticker on the corner block.

Attach the Chair Back (B) to the Frame Seat (C) using the 1/4 x 2 3/8" Hex Button Head Bolts (1). First, place the 1/4" Flat Washer (3), then the 1/4" Lock Washer (2), then finally the 1/4 x 2 3/8" Bolts (1). Tighten with the Allen Key (7).

Step 5

You know what they say, never skip leg day! Let's secure those Legs (D)(E) in place.

Consider this your workout of the day.

Tighten only to 75% for now.

Step 6

Now flip the stool over on a flat surface and make sure all of the legs are touching the ground before tightening everything to 100%.

We told you this was going to be easy!

If your dining chair feels a little wobbly or unstable, re-address all fasteners to ensure they are 100% tightened.

If your dining chair STILL feels a little wobbly or unstable, try loosening some of the fastener connections slightly in order to allow yourself to re-level all the legs on a flat surface before going back around & re-tightening everything back to 100%.

We want your dining chair to last as long as possible, so we recommend that you tighten the fasteners 2 weeks after assembly and for added safety check the tightness of all fasteners every 2 months.

Step 7

You made it to the last step! Insert the Wood Plugs (8) into the holes in the back of the stool.

Last but not least, time to order a pizza and enjoy your new chair!

HELPFUL TIP:

It is recommended to use a Rubber Mallet or something similar to tap the Wood Plugs securely into place.

Step 7 continued

If you haven't already noticed, we affixed 2 extra Wood Plugs to the underside of your seat frame for your convenience.

No heartburn, when we handle the return
