Step 5	Step 6
	

Warm Tips:

1. Please check the mirrors firstly after you receive it and make sure the led mirror is intact and no damage. The accessories are hanging behind the mirror, please recheck the packing box if you did not find it.
2. Please power the mirror with plug to test the mirror and each functions before installation. If it can not be powered, please open the cover of the power supply on the back of the mirror to test the power cables, tighten the cables if they are loose. (Please cut off the power firstly before testing the power supply and cables)
3. For any questions or problems, please feel free to contact us.
