Let's build the

Andrew Storage Cabinet

SKU 37806

nathan james

Ok, let's get rolling

This should be easy, just follow our instructions and you will be back to Netflix in no time.

Estimated time for assembly

90:00

What you need

- Some bubbly or your preferred relaxant
- Use the packaging carton as a working surface to prevent product damage during assembly
- Phillips head screwdriver

Do not use a drill

Weight Limitation

Top Max. Capacity: 100lbs

Shelf Max. Capacity: 33lbs. per shelf (x5)

Toll-free at 1-866-619-1004 Help@nathanjames.com Nathanjames.com/help

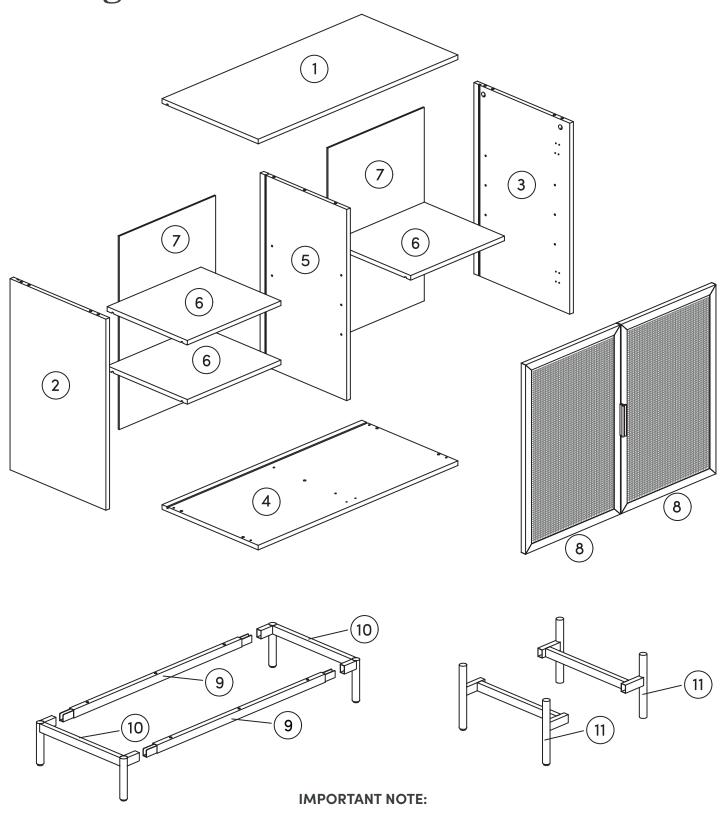

What's included

	Description	Qty
1	Top Panel	1
2	Left Side Panel	1
3	Right Side Panel	1
4	Bottom Panel	1
5	Middle panel	1
6	Shelf	3
7	Back panel	2
8	Doors	2
9	Top Metal Stretcher	2
10	Short Leg Frame	2
11	Long Leg Frame	2

The goods

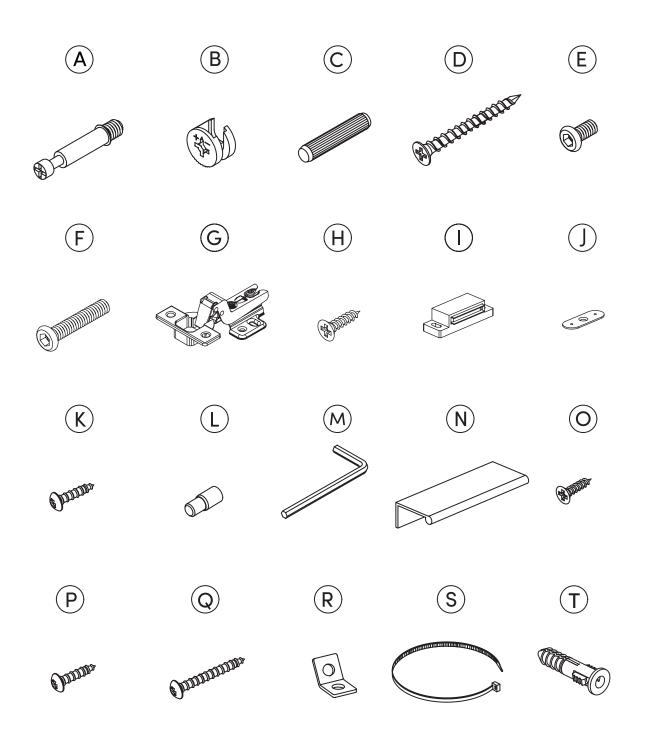

You will have extra leg components depending on the leg configuration(s) you choose during Step 6

What's included

	Description	Qty
А	M6*35mm Cam Bolt	6
В	15 x 9.5 mm Cam Lock	6
С	M6*30 mm Wooden Dowel	10
D	M4*50 mm Screw	6
Е	1/4"*12 mm Bolt	8
F	1/4 "*40 mm Bolt	6
G	Hinge	4
Н	Ø4*14mm Screw	24
I	Magnetic Door Catch	2
J	Door Catch Plate	4
K	Ø3*14mm Screw	4
L	Shelf Support Pin	12
Μ	Allen Key	1
N	Handle	2
0	Ø3*12mm Screw	8
Р	Ø3.5*12mm Screw	1
Q	Ø3.5*35mm Screw	1
R	Metal Bracket (for Anti-Tip Kit)	2
S	Plastic Tether (for Anti-Tlp Kit)	1
Т	M6*30mm Wall Anchor	1

The goods

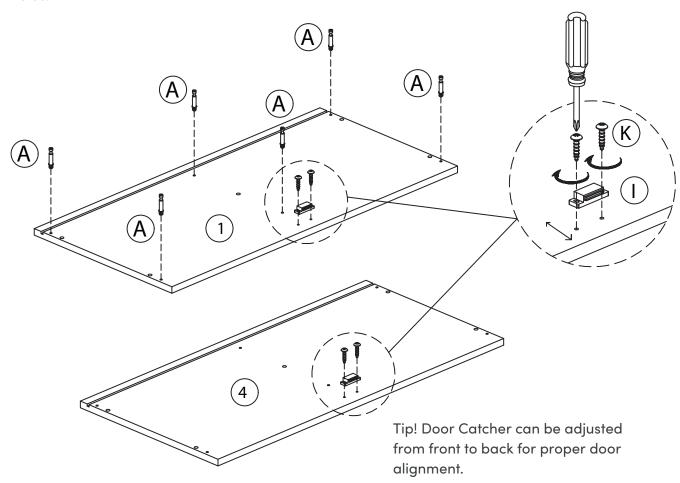

A X 6pcs

K amo

X 4pcs

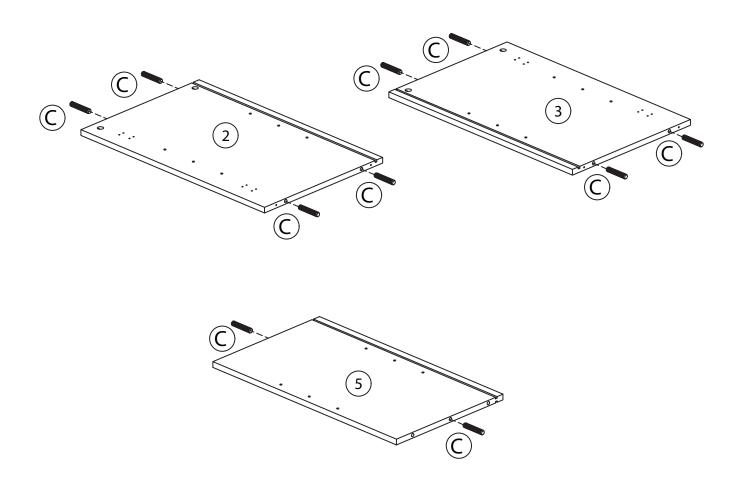

X 2pcs

Let's begin! Start by grabbing the Top Panel (1) and the Bottom Panel (4) and laying them on a soft surface. Use the Ø3*14mm Screws (K) to screw the Magnetic Door Catch (I) onto both pieces. Next screw the M6*35mm Cam Bolts (A) into the corresponding holes.

X 10pcs

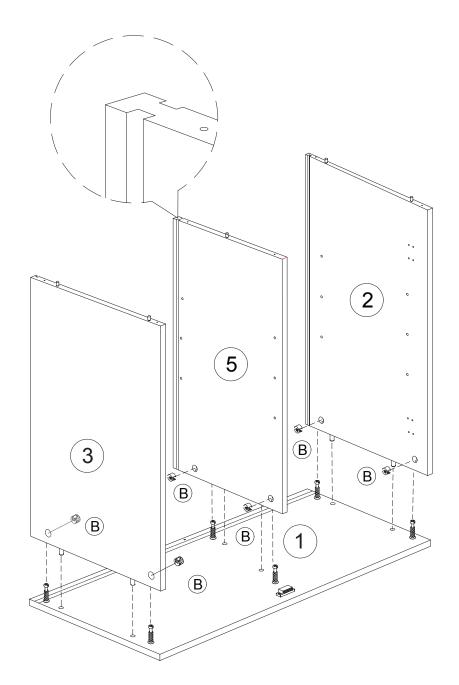

Following the image below, insert the M6*30 mm Wooden Dowels (C) into its corresponding holes on the Left Side Panel (2), the Right Side Panel (3), and the Middle Panel (5).

В

X 6pcs

With the Top Panel (1) laying flat on the ground, slide the Right Side Panel (3), the Middle Panel (5) and the Left Side Panel (2) into place then secure with the 15 x 9.5 mm Cam Locks (B).

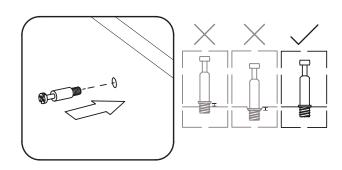

How to use cam locks

Did you know?

Cam locks are used to join two panels together, usually the edge of one to the flat side of another.

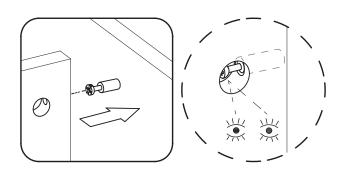

First, your cam bolt (or cam pin) will need to be properly inserted into the flat side of the board.

Important Note: Only tighten the cam bolt until it is secure. Do not over-tighten.

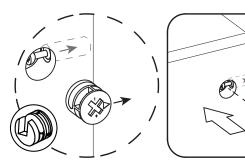

Next, you will fit the proper hole on the edge of the associated joining panel over the cam bolt.

Important Note: When installed properly, the head of the cam bolt will be visible through the larger hole on the side of the joining panel.

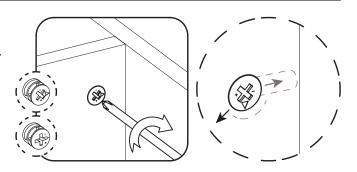

Next, you will notice the cam lock has a "C" shaped back. Commonly, an arrow on the front of the cam lock points in the same direction as the open section on back.

Using these as your cue, insert the cam lock into the large hole so the opening of the "C" fits over the head of the cam bolt.

Using a screwdriver, you will turn the cam lock until it stops, usually between 130° or 180°. You will feel the panels pulling closer until they are secured.

Important Note: Only turn the cam lock until the panels are fully engaged & feel secure. Turning too far may lead to hardware failure.

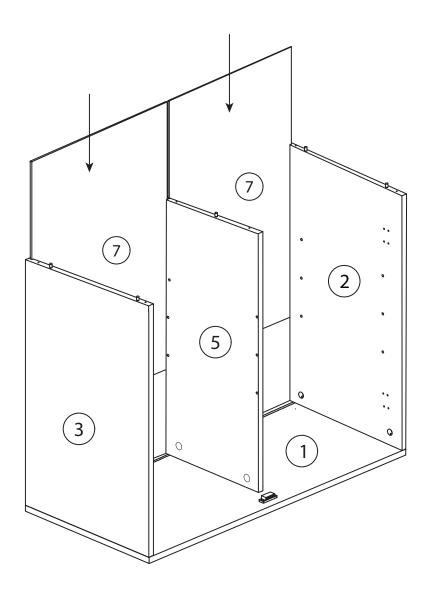

Still having issues?

If a cam lock seems to be spinning in place or is not "catching" or pulling the panels together as expected, first remove the cam lock & try again while making sure that everything is properly positoned & oriented.

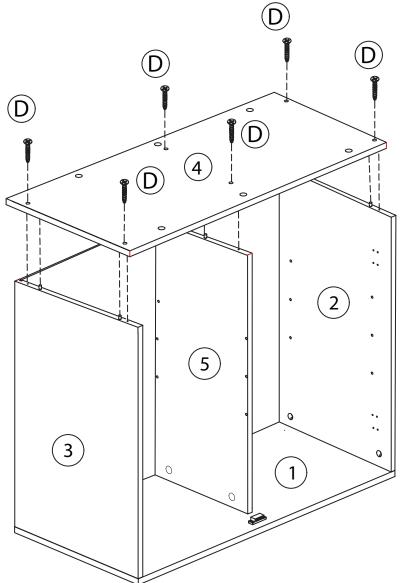

If you are still having issues getting things working as expected, first remove the cam lock then unscrew the cam bolt slightly (less than 1 complete turn) to see if that helps with the alignment of the cam lock & bolt .

Carefully unfold the Back Panel (7) and slide it into place on the assembly unit you have been working on.

D growing X 6pcs

We're making progress! Grab the Bottom Panel (4) and lay it on top of your assembly. Use the M4*50 mm Screws (D) to secure it into place.

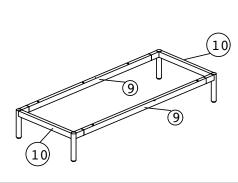

Install the legs according to your need

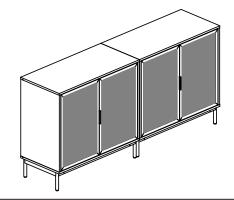

Option 1

use the guide below to determine which components you will need to configure your unit(s) to your preferred style / setting

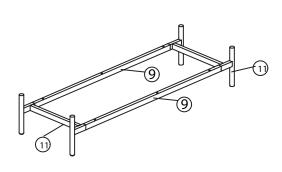

"you will have leftover components"

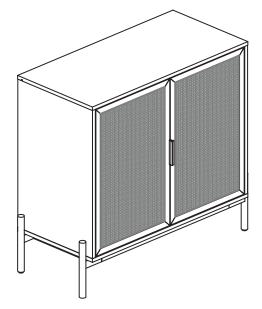

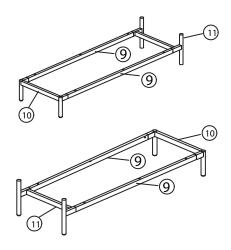

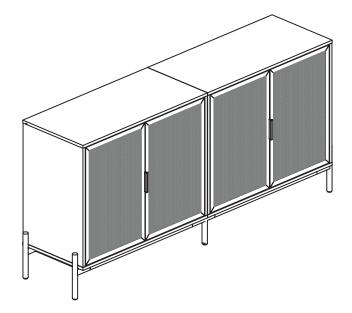

Option 2

Combination

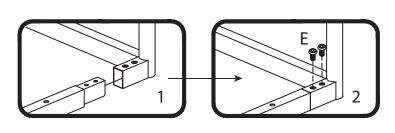

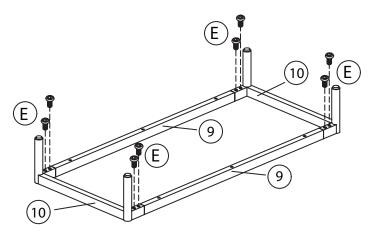

Step 6 (cont.)

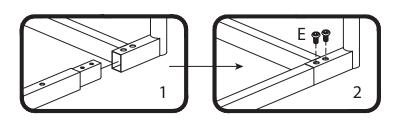

Option 1

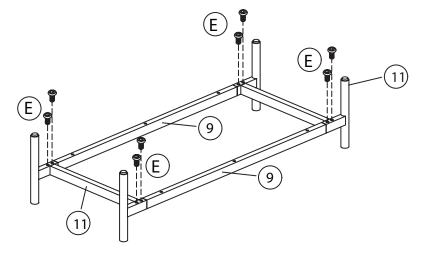

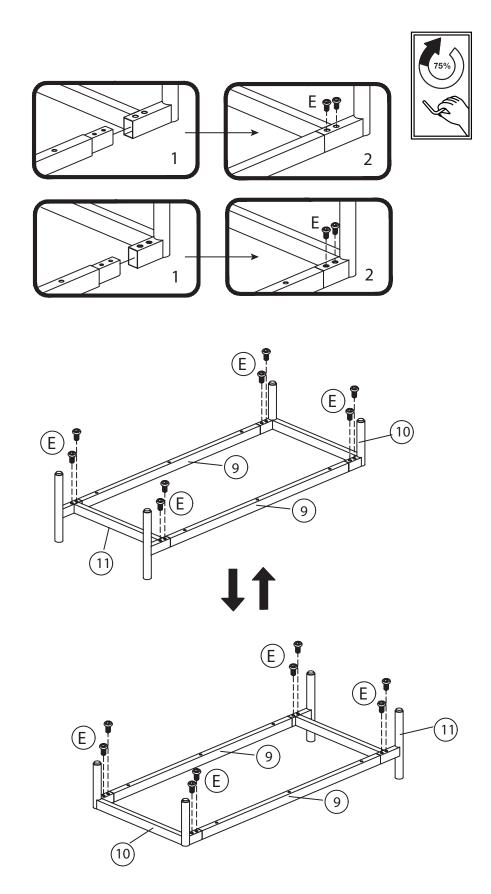

Option 2

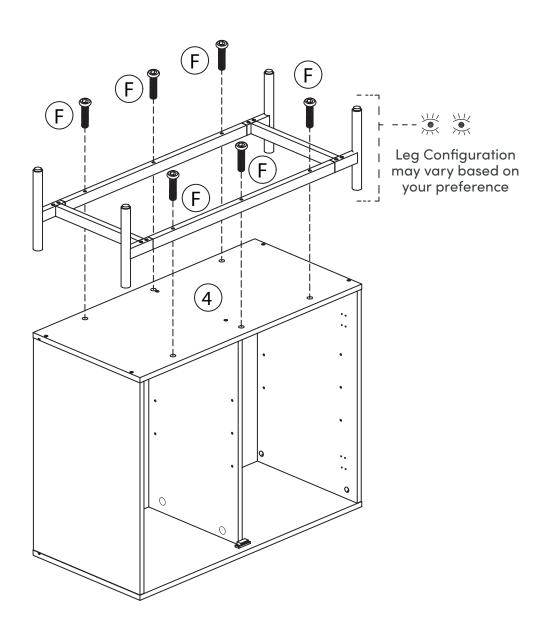

Step 6 (cont.)

Option 3

Now it's time to attach the legs! Use the 1/4 "*40 mm Bolts (F) to secure the two parts together, tightly!

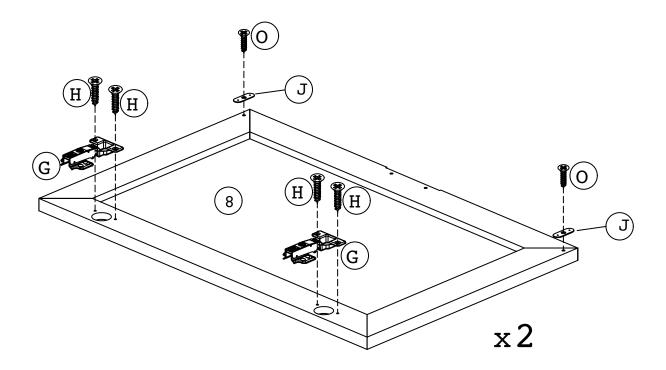

Once all hardware is lined up in their respective holes, be sure to tighten all fasteners to 100%, including those from Step 6

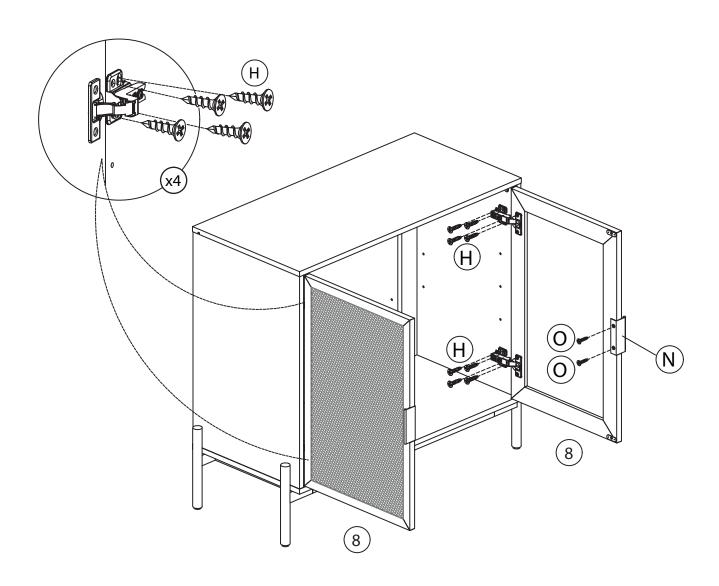

Grab the Doors (8) and attach the Hinge (G) using the Ø4*14mm Screws (H) to the two corners with the larger holes. Next, attach the Door Catch Plate (J) to the other two corners using the Ø3*12mm Screws (O).

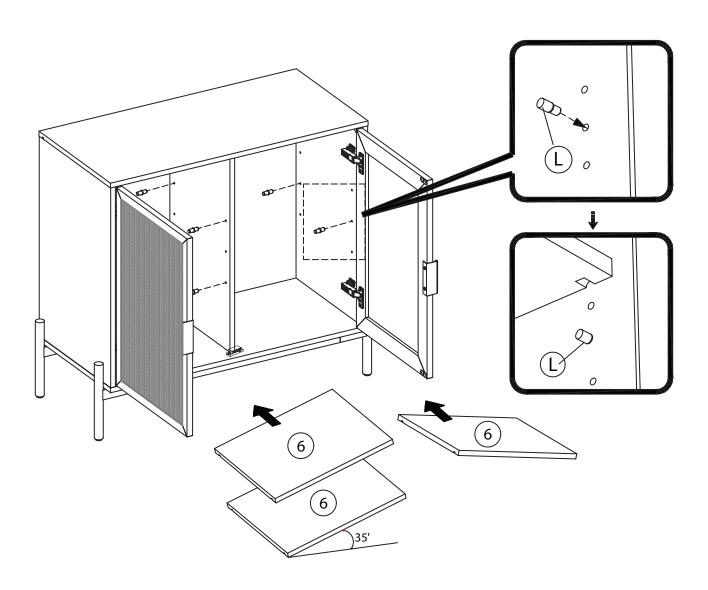

Carefully flip the unit over (grab a friend if you need help!) Grab both of the Doors (8) and use the Ø4*14mm Screws (H) to secure them into place. Once complete, grab the Handle (N) and secure them into place using the Ø3*12mm Screws (O).

L X 12pcs

We're getting closer to the finish line! Insert the Shelf Support Pins (L) where you want your shelves to rest. Next, place the shelves (6) right on top of the Shelf Support Pins (L), you can tilt it to get it into place.

Step 11 X 1pc X 2pcs X 1pc Our favorite step! Because it's X 1pc X 1pc the last step! Take your beautiful cabinet and secure it to the wall by looping the Plastic Tether (S) through the Metal Bracket (R) and screwing it into the unit using the \mathbf{Q} Ø3.5*12mm Screw (P) and the wall using the Ø3.5*35mm Screw (Q) R and M6*30mm Wall Anchor (T). P Leveler

IMPORTANT NOTE:

Young children (and/or pets) can be seriously injured by tipping furniture units.

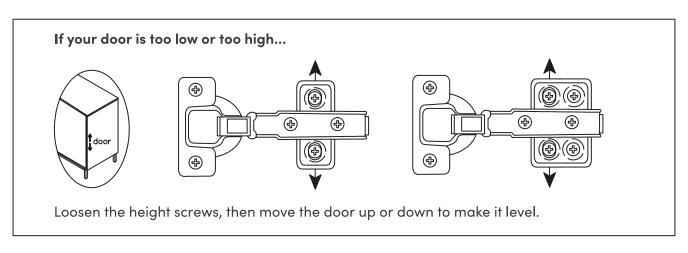

You must install the provided anti-tip kit hardware solution, as instructed, to prevent the furniture unit(s) from tipping over - which could possibly lead to injuries or damage.

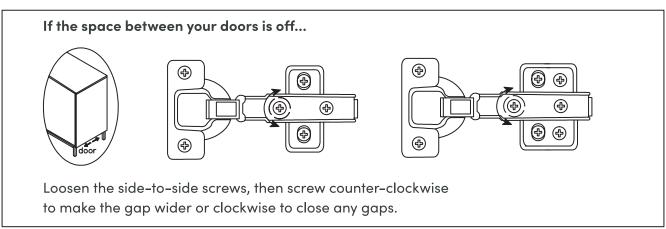

The provided anti-tip kit hardware solution is intended only as an additional safety measure & deterrent; it is not a substitute for proper adult supervision.

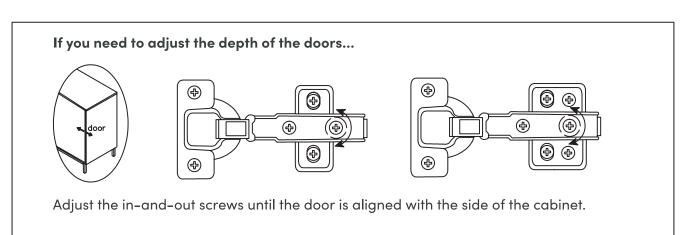

The provided anti-tip kit hardware solution is not an earthquake restraint. If you wish to add the extra security of earthquake restraints, they must be purchased & installed separately.

Is your cabinet door looking crooked or unevenly spaced?

Then you've come to the right place. Follow the illustrations below to get your cabinet door aligned and ready for action.

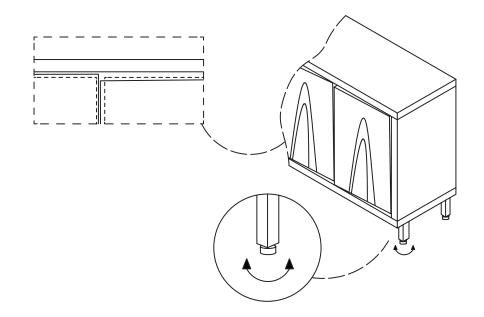

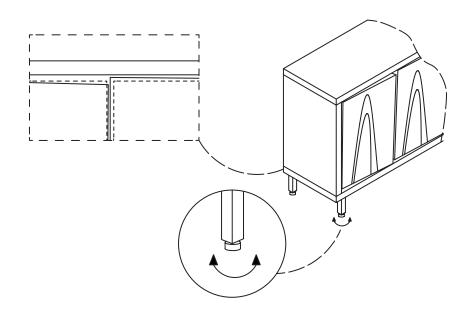

Is your cabinet door looking crooked or unevenly spaced? (Cont.)

If you're still having trouble lining everything up, your next step should be to adjust the leveling glides to square up the cabinet and doors and make sure things are level. Follow the instructions below:

If the right door appears to be hanging low, you can adjust the adjustable leveler on the front right until the door is better aligned.

If the left door appears to be hanging low, you can adjust the adjustable leveler on the front left until the door is better aligned.

No heartburn, when we handle the return

Give us a call **1-866-619-1004** or shoot us a message at **help@nathanjames.com** we will issue you a free replacement with **zero hassle**.

Our way	Their way
Give us a call	Re-package item
Replacement	Schedule pick up
You	Track package
	Replacement
	You

We really don't want you to go through the hassle of re-packaging your item and sending it back, because let's be honest...nobody has time for that.

Safety first, fun later

We want your product to last as long as possible, so we recommend that you tighten the screws 2 weeks after assembly and for added safety check the tightness of all screws every 2 months.

For proper care and treatment, please check our website at Nathanjames.com/products

Safe use of this product starts with you.

Use this product responsibly with the primary concern for your safety. Follow assembly instructions carefully and inspect product upon receipt and each use.

Nathan James and its parent companies cannot be held legally responsible for any injuries or death resulted from failure to follow instructions or improper use of this product.

Do not modify the structure of this product in any way.

Our products have been tested to meet specific safety measures as they were originally intended to be sold. Any modifications will present the risk of creating significant safety issues which NJ will not be responsible for.

Proper use

DO NOT	use for commercial purposes
DO NOT	frolic on storage cabinet
DO NOT	use storage cabinet as foot stool
DO NOT	leave spilled liquid on storage cabinet
DO NOT	use storage cabinet if damaged
DO NOT	make temporary repairs
DO NOT	use outdoors

We are only in business if you're happy

For starters, thanks for being you.
