

Installation steps:

1. Put the lampshade on the lamp head
2. Pass the lamp head wire through the hole in the canopy
3. After the lamp head line passes through the canopy, let the lamp head line pass through the figure 8 buckle (anti-pull effect)
4. Fix the wires with plastic screws
5. Fix the mounting bracket to the junction box with screws
6. Connect the main wires of the lamp body to the wire reserved on the junction box
- 7-8. Cover the canopy on the mounting bracket and fix it with screws
9. Install the light source (bulb not included)

Notice:

1. Before installation, please check whether the parts are complete and whether the lamps are in good condition.
2. Cut off the power supply before installation, and then perform wiring.
3. Install the lamp body first, and then install the power supply.
4. Installation and maintenance must be carried out by professional and technical personnel.
