HOW TO SWITCH THE LIGHTING FUNCTION

The fence lights has 8 lighting modes to fit different occasions--combination, in waves, sequential, slo-glo, chasing/flash, slow fade, twinkle/flash, and steady on. Just switch the lighting modes by quickly pressing the button on the adapter.

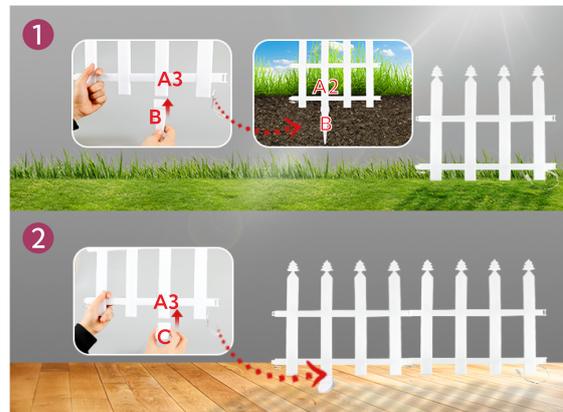

HOW TO USE?

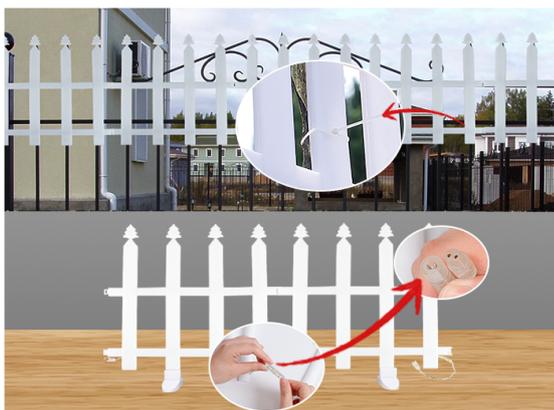

The advantage of fence lights is that they are durable, not easily broken, deformed, or faded, It has been used solely in accent lighting, back lighting, task lighting and decorative lighting applications. Water resistant string light can protect the circuitry from direct contact with water, highly expanding its range of uses.

1. Parts List

2. On the lawn, B can be installed on A2 or A3 and inserted into the ground; On level ground, C can be mounted on any pole to ensure that the fence can stand smoothly

3. Use of a cable tie: Tie the fence light to the fence with cable ties. Each fence light should be connected to the female and male interfaces.

4. Fence light display
