
PRECAUTIONS AND INSTRUCTION

ATTENTION

Please read all instructions thoroughly before using.

Serious injury may result if ignore the following warning and instruction.

Best precautions should always be followed when using this electrical equipment.

DANGER

To avoid the risk of causing burns, fire, electric shock, or other hazards

- Connect the power cord to a properly grounded outlet.
- Using only for its intended use as described in this manual.
- Don't use accessories not recommended by the manufacturer.
- Please disconnect the power after using.
- Please keep the electrical cord away from heated surfaces.
- If the source is faulty, the supply cord or plug is damaged, please stop using it immediately.

WARNINGS

- Don't stay longer than one hour.
- Don't put the sauna on a flammable environment.
- Don't touch the heater directly with hands or body for a long time.
- Don't use any sharp tools on or near the heaters (serious damage may result).
- Placing the sauna on a flat surface.
- Unauthorized disassembly of the sauna is prohibited.
- People with health problems should consult a physician for prior to using the sauna, including acute diseases, malignant tumors, high blood pressure, heart disease, allergy (dermatitis, pregnancy, etc.).
- This product is not intended for use by person (including children) with reduced physical, sensory or mental capabilities, or lack of adequate experience, knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

- To be on the safe side, children should not use the sauna.
- Using a sauna after taking alcohol, drugs, or medication can lead to hyperthermia and increase the risk of death.
- If you are feeling uncomfortable, exit the sauna immediately and consult a doctor.
- Children should be supervised to ensure that they do not play with the appliance.

HYPERTHERMIA

Prolonged exposure in the sauna may cause hyperthermia. Hyperthermia occurs when body's core temperature rises above 103.6°F. Symptoms of hyperthermia include a rise in body temperature, dizziness, lethargy, drowsiness, and fainting.

The effects of hyperthermia may include:

- ❗ Failure to perceive heat / Unawareness of impending heat
- ❗ Failure to recognize the need to exit the sauna
- ❗ Fetal damage in pregnant women
- ❗ Physical inability to exit the sauna
- ❗ Unconsciousness

INSTALLATION GUIDE

Each panel is heavy, especially the top panel. Be careful to avoid injury when installing. This sauna requires at least 2 adults to complete assembly.

The panels should be installed in the following order:

Floor Panel → Rear Panel → Left and Right Panel → Installing Door Handle → Place the Bench Support Panel and connect wires → Back Surface Panel → Install Ceiling Panel → Waterproof strip → Enjoy your Sauna

Step 1: Fixation for Floor Panel

Place the floor panel on a flat surface. Before assembly, make sure the floor is flat so that you can maintain a comfortable subsequent installation. (image1)

(image1)

Step 2: Position the Rear Panel

(image2)

Lift the Rear panel into position wedging the bottom of the panel into the channel in the floor panel. If your sauna is next to the wall, you can gently rest the rear panel against the wall of your home. (image 2)

Step 3: Position the Left Side Panel and Rear Panel

(image3)

There is difference between the left and right side panels. The one with the control panel is the left side panel, another is the right side panel. Put the side panels into the slot of the floor panel and push it towards the rear panel. At the same time, open the glass door of the side panels. The side panels are little heavy, please pay attention. (image 3)

Step 4: Installing Door Handle

Unscrew the matched door handle, insert the door handle into the hole on the glass door, and finally rotate and tighten it.

Step 4: Place the Bench Support Panel and connect wires

Place the Bench Support panel (image4) and connect the wires behind (image5). Each two wires have corresponding unique interface shape (image6), hear a click to indicate that the connection is completed (image7).

(image6)

(image7)

Step 5: Place the Bench Surface Panel

Place the bench surface panel (image8), and connect the connecting wire of the light strip on the bench surface panel with the wire behind the bench support panel (image9).

(image8)

(image9)

Step 10: Install Ceiling Panel

Place the ceiling panel on top of the sauna (image10). Make sure that all panels are in the slots in the ceiling panel. Make sure that all wires on the side panel pass through the holes (image11). Finally, connect all the wires in the ceiling panel.

(image10)

(image11)

Step 11: Waterproof strip

Install the matching waterproof strip on the glass door, please be sure to install it in place.

Step 12: Enjoy your Sauna

WARNING: Pay attention to the risk of electric shock. Don't connect the power supply until all wires are properly connected.

Congratulations!

Installation completed! Plug in and power on to enjoy your sauna!
