PRODUCT DESCRIPTION

Ergonomic backrest provides unparalleled support, perfectly fit your body outline, relaxing ur back while you use this chair.

Please note that the hardware pack, backrest left and right side patches are located at the bottom of the chair and can be accessed by opening the zipper.

The four chair legs are constructed from solid wood, ensuring durability and longevity.

Featuring a robust solid wood and engineered wood frame, these chairs showcase a seamless wingback design that adds a touch of classic elegance.

This chair is upholstered in high-quality linen fabric, making it a timeless fashion piece.

HARDWARE

TOOL LIST

NOTE: Designated with (★) We provide additional spare parts in the hardware package

G*12

★ Bolt

H*1

Allen key

Please make sure all hardware&packing material fitting the list.
Especially some small accessories may be missing during transportation. Please contact us if you have any question.

step 1

Take out the right wing and left wing (C & D) from the bottom of the seat frame (B) as shown.

step 2

Install all four legs (E & F) onto the seat frame (B), use the allen key (H) provided to tighten the bolts (G). Make sure all the bolts are aligned before fully tightened.

step 3

To assemble the Backrest and the Seat frame, place the backrest between the two armrests. Align the metal connectors at the lower sides of the backrest with the corresponding metal connectors on the inner sides of the armrests, then press firmly on the top of the backrest to ensure the metal connectors are fully inserted. If there is a visible gap between the backrest and the Seat frame, apply pressure on the top of the backrest or place a book or wooden block on either side of the top and tap gently with a hammer to fully secure the connectors.

If the distance between the armrests is too tight or too loose, making insertion difficult, gently push the armrests apart or pull them closer together to adjust. This is a common variation in handcrafted products and not a quality issue.

During installation, handle with care to prevent the metal connectors from damaging the fabric.

step 4

To install the wings on both sides of the backrest, align the metal connectors on the inner side of each wing with the corresponding connectors on the upper sides of the backrest. Press horizontally toward the backrest while simultaneously pressing down on the top of the wing to ensure the connectors fully insert into place.

step 5

Install the right wing (C) to the backrest (A) by sliding the connector into the slot on back as shown, simultaneously press down from the top of wing until it is fully assembled.

step 6

Please note: the legs of the chair can be adjusted by twisting the leveler on the tip of the legs as shown, it can help you use this chair on ground that is not flat, please check before you use the chair.

step 7

The assemble is complete! Thank you for choosing our product! Please enjoy!
