- 1 . Go to Your Orders.
- 2 . Find your order in the list.
- 3 . Select Problem with order.
- 4 . Choose your topic from list displayed.
- 5 . Select Contact seller.

QUESTION & ANSWER

Q: After powering on, my lamp doesn't work . What should I do?

A: First, make sure your bulbs are working well. If your bulbs work, you need to check

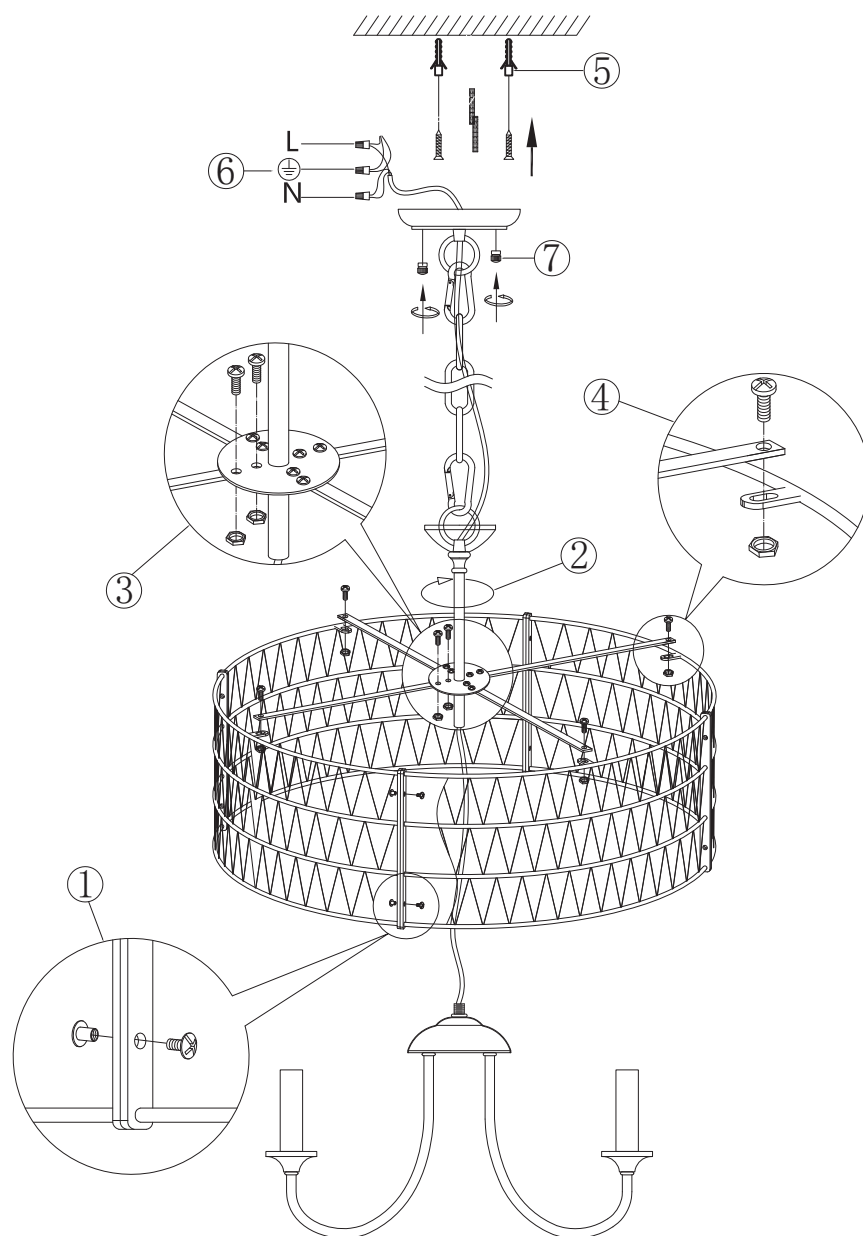

if the wires are connected incorrectly. If you can't find the reason, please contact us

and we will try our best to solve it for you.

Wattage	Max 40W
Bulb Type	LED/Halogen/Incandescent
Certification	Bulb Socket(s) is UL Listed
Warranty	2 Years

Installation Diagram

Accessory List

			
Lamp Shade 4pcs	Butt-lock screws 8pairs	Lamp Base 1pcs	
			
Light Pole 1pcs	Iron Bar 4pcs	Black Screw 12pcs	Black Nut 12pcs
			
Ceiling Plate 1pcs Hanging Chain 1pcs	Bracket 1pcs Phillips Screw 2pcs	Expansion Screw 2pcs Self-tapping Screw 2pcs	

Installation Steps

1. Put the butt-lock screws through the round holes on the metal frame of the lampshade, tighten the butt-lock screws with a screwdriver to form a round lampshade.
2. Run the wires through the light pole and tighten the pole to securely mount it to the lamp base.
3. Secure the 4 iron bars to the round piece of the light pole with screws and nuts.
4. Secure the iron bars to the round lampshade with screws and nuts.
5. Use the screws to mount the bracket on the junction box. (If you don't have a junction box, you can drill two holes in the wall and put in two expansion screws, and finally fix the bracket with self-tapping screws)
6. Lock the latch on the hanging chain to the hanging ring on the top of the light pole, pass the wires through the hanging chain and the ceiling plate in turn. Connect the "L" wire to your "live" wire by terminal caps and the "N" wire to your "neutral" wire, the copper wire needs to be wrapped around the green screw or connect to your earth wire.
7. Secure the ceiling plate to the ceiling with phillips screws.
