Assembly Preparation

| | | |
|----------------------------------|---|--|
| Before Beginning Assembly: |  <p>Diagram showing parts A (top frame), B (bottom frame), C (left side rail), D (right side rail), E (left end cap), F (right end cap), and H (middle support rail).</p> |  <p>① L-shaped bracket ② Bolt X 2 ③ Bolt X 5 ④ Bolt X 5 ⑤ Washer X 12 ⑥ Washer X 12 ⑦ Screw X 7</p> |
|----------------------------------|---|--|

- Read instructions, cover to cover-

- Have 2 adults on hand for assembly-

- Do not assemble on flooring or carpet-

- Assemble on a clean non-marring surface (packing foam)-

- Save all packaging until finished-

Assembly Steps

Overview

This Bar Stool has multiple parts and may require up to some 30 minutes to assemble. To give you an overview of the Bar Stool parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Place all Parts on a clean and flat surface.

Step 2

Install the Seat Cushion (B) using the Allen Wrench (①), Bolts (②), (④), Spring Washers (⑤) and Flat washers (⑥), as pictured above.
Do not fully tighten the Bolts at this time.

Step 3

Insert the Connecting rod (E), (F) into the tenon groove of the Chair Back (A) .
Do not fully tighten the Bolts at this time.

Step 4

Connect the Leg (C), (D) to the connecting rods (E), (F),(H)and then lock them with the Allen Wrench(①), Bolt (③), Spring Washer (⑤), and Flat Washer (⑥).

Do not fully tighten the Bolts at this time.

Step 5

Use the Screwdriver (⑧) and Screws (⑦) to affix the Connecting rods (E), (F),(H)as shown in the picture above.

Finally, tighten all the bolts and screws sequentially.

Step 6

Place the Bar Stool on a level Surface to check for wobbles.

If it wobbles, lift the Bar Stool some 30cm to 50cm high from the ground.

Keep your feet and toes well away from the drop zone.

Drop the Bar Stool freely and vertically, with all four legs hitting the ground at the same time.

This Drop Test will help to ensure that all Bolts and gaps reach full alignment status.

Test again for evenness on a Level Surface.

If no wobbles are found, proceed to tighten all the Bolts.

When tightening the Bolts, tighten sequentially.

Do not fully tighten any Bolt fully and then move on towards the next one. This may cause the frame to warp.

If there are still wobbles, loosen the Bolts and execute this same drop test.

Step 7

Your Bar Stool is ready for use.
This Bar Stool can only be used on a flat, level surface.
