## Assembly Steps

### Overview

This chair has multiple parts and may require up to some 30 minutes to assemble. To give you an overview of the 4 parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

1

Before installation, insert the screws into the holes and tighten them, but do not tighten them to 100%, 70% to 80% is sufficient. Finally, if all four legs of the chair can touch the ground without shaking, tighten all screws to 100%. If you encounter these issues, such as if the holes cannot be aligned or some parts cannot be installed, please check if the screws are used correctly and adjust the tightness of the screws.

3

\* When installing, the screws are perpendicular to the seat cushion frame!

\* Use shorter screws ④ in this step

\* Do not fully tighten only to 80% at this stage!
