Assembly Instruction

Note: The diagram illustrates the installation of your new luminary. This is a representative drawing and is not intended to match the style of your luminary.

CAUTION: TURN OFF ELECTRICITY BEFORE PROCEEDING! Recommended contact a qualified electrician to install this lamp! PREPARE THE FIXTURE & OUTLET BOX. Refer to as below diagram:

1. Carefully layout all parts in a line on a smooth surface.
2. Screw the nipple to lampholder, then screw the whole lampholder nipple to the canopy, and secure with nuts.
3. Install the mounting bracket to the outlet box, and fix by screws.
4. Connect the bare or green grounding wire of the supply to the bare copper wire of the fixture
5. Connect the white supply wire to the common lead wire of the fixture. The common lead wire is identified in fixtures as the wire with a ribbed edge.
6. Connect the black supply wire to the power lead wire of the fixture. The power lead wire is identified in fixture as the wire without a ribbed edge(smooth).
7. Place the canopy to mounting bracket, and screw by the decorative nuts.
8. Place the square metal piece to nipple, then place the shade and secure with finial. (Do not over tighten)
9. Install Bulb E26*Type A* 2* 40W Max (Not Included) or E26*CFL*2*9W (Not Included)

Caution: Refer to the wattage caution label located near the lamp holder for recommended maximum wattage, do not exceed recommended wattage.

Note: This stained glass product has been protected with mineral oil as part of the finishing process. Please use a soft dry cloth to remove any excess oil.
