Label	Picture	Description	QTY
A		Left Armrest/Leg	1
B		Right Armrest/Leg	1
C		Seat Frame	1
D		Left Fence	1
E		Back Fence	1
F		Right Fence	1

- Read instructions, cover to cover-

- Have 2 adults on hand for assembly-

- Do not assemble on flooring or carpet-

- Assemble on a clean non-marring surface (packing foam)-

- Save all packaging until finished-

Assembly Steps

Overview

This Chair has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Chair parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Unpack and place all parts on a clean, non-marring surface.

Use Bolt+Washer (M6*20MM)(③) and Allen wrench connect the Seat Frame(C) to the Left Armrest/Leg (A) and the Right Armrest/Leg (B) to the seat frame(C) as shown in the above picture.

Do not fully tighten the Bolts.

Step 2

2.1) Connect the left fence(D) and seat frame(C) using Bolt+Washer (M6*35MM)(②).

2.2) Insert the circular tube of the back fence(E) into the circular tube of the left fence(D).

Do not fully tighten the Bolts.

Step 3

3.1) Insert the circular tube of the right fence(F) into the circular tube of the back fence(E).

3.2) Connect the right fence(F) and seat frame(C) with Bolt+Washer (M6*35MM)(②).

Do not fully tighten the Bolts.

Step 4

Place the Chair on a **LEVEL SURFACE**.

Inspect it and make sure all parts are adequately connected.

Gently and carefully sit onto the Chair.

This will help to align all parts at all joints.

Then get off the Chair, and in a sequential manner, proceed to tighten all Bolts.

When tightening the Bolts, tighten sequentially.

DO NOT tighten any Bolt fully and then move on to the next one.

This may cause the frame to warp.

If there are any wobbles after tightening, loosen the Bolts and execute this same process.

Note: This step is done best with the assistance of a second adult.

Step 5

Place the back cushion(H) in front of the back fence(E).

Place the seat cushion(G) on the seat frame(C).

Place the handrail cushion(I) on the left and right fence.

Your Chair is ready for use.

This Chair can only be used on a flat and level surface.
