- Read instructions, cover to cover-

- Have 2 adults on hand for assembly-

- Do not assemble on flooring or carpet-

- Assemble on a clean non-marring surface (packing foam)-

- Save all packaging until finished-

Assembly Steps

Overview

Front Facing

This Sideboard has multiple parts and may require up to 35 minutes to assemble. To give you an overview of the sideboard parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Install the Wooden Tenons(①) into the sides of the Top Panel (A) as picture above.

Step 2

Attach the right side board(B), left side board(D) and middle clapboard (C) to the top panel(A), use long bolt(②)and flat washer(③) align with board hole position,Allen wrench (④) is used to assist rotation tightening. ATTENTION: All the grooves must be stay in one side(backside). The short distance from the edge to the hole is upside for middle clapboard(C).

Step 3

Insert the back board of the top(E), slot(F) and the back board of the bottom(G) to the grooves.

Step 4

Install the bottom panel(H) as the above picture, use long bolt(②) and flat washer(③) align with board hole position to fix the bottom panel(H).

Step 5

First, attach the right foot(I) and left foot(J) to the bottom panel(H), use short bolt (⑤); Second, Connect the right foot(I) and left foot(J) with bar iron(K), use short bolt (⑤); Lastly install the middle foot(L) with screw(⑥). ATTENTION: The middle foot(L) may adjust the height.

Step 6

Stand the mounted sideboard up, and insert shelf support pin(⑦) into each panel hole.

Step 7

Put the Shelf Board(M) on the shelf support pin(⑦).

Step 8

Install the connecting curved door hinge(⑧) on the hole side of the left door(N) and right door (Q), and the straight door hinge(⑪) on the hole side of the middle door 1(O) and middle door 2(P) with screw(⑥). Install the handle(⑩) on the front of doors' predrilled hole position with bolt(⑨).

Step 9

As shown on the order of picture , use the screw(⑥) to connect the curved door hinge(⑧) and the straight door hinge(⑪) to the sideboard body.

Step 10

Align with the pre-drilled hole on the back board of the top(E), screw the expansion screw (13) in to the wall. Install the short side of Anti-Tipping sheet iron(12) on the wall with screw(14), then using the long side of Anti-tipping sheet iron (12) connected to the inside of the right side board(B) and left side board(D) by screw(15)

Step 11

The sideboard is ready for use.
This cabinet can only be used on a flat and level surface.

Questions & Answers about Proposition 65

- What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

- What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

- What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals.

By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

- Where can I get more information on Proposition 65?

If you have specific questions on the administration or implementation of Proposition 65, you can contact OEHHA's Proposition 65 program at P65.Questions@oehha.ca.gov, or by phone at (916) 445-6900.
