step 2

Align the connectors on the seat frame (C) with the slots on the armrests (D & E) as shown, and push down the seat frame until they lock. Then push the edges of the seat frame to make sure they are fully interlocked.

step 3

Place one flat washer on each bolt (1), and then use the allen wrench (5) provided to install the L-shaped locking plate on pre-drilled holes of the armrests (D & E) as shown.

step 4

Install the Front panel (F) onto the seat frame and armrests as shown. Place one flat washer(3) on each bolt (2) &(1) first, then make sure all three bolt holes on armrests and seat frame are aligned with the front panel.

Notice:

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

step 5

For convenience, lift up the seat frame and slide in the back panel (G) as shown.

step 6

Install the back panel (G) onto the seat frame and armrests as shown. Place one flat washer(3) on each bolt (2)&(1) first, then make sure all three bolt holes on armrests and seat frame are aligned with the back panel. Then make sure all the bolts are fully tightened.

Notice:

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

step 7

First place one plastic washer (6) on each leg as shown, then twist them into each pre-drilled holes under the armrests.

step 8

Align the connectors on the backrest frame (H) with the slots on the armrests as shown, make sure they are correctly aligned before pushing down.

step 9

Tear off the Velcro stripe covers on both backrest frame and the seat frame as shown.

step 10

Place the seat cushion (A) onto the seat frame as shown.

step 11

Place the back cushion (B) on the backrest frame as shown.
