30"X48"	1.14"	3	2835 3 colors 120LED	3000k/4000k /6000k	2970	≥90 Ra	≥50000 hours	36W	120V, 50/60HZ	24V	12.7

Installation Instruction

Power Method 1	Power Method 2
	
Step 1	Step 2
 Draw a straight line with a ruler to keep the mirror horizontal	 Drill 2 holes on the wall
Step 3	Step 4
	

Step 5	Step 6
	

Warm Tips:

1. Please check the mirrors firstly after you receive it and make sure the led mirror is intact and no damage. The accessories are hanging behind the mirror, please recheck the packing box if you did not find it.
2. Please power the mirror with plug to test the mirror and each functions before installation. If it can not be powered, please open the cover of the power supply on the back of the mirror to test the power cables, tighten the cables if they are loose. (Please cut off the power firstly before testing the power supply and cables)
3. For any questions or problems, please feel free to contact us.
