ASSEMBLY TOOLS REQUIRED (NOT INCLUDED)/OUTILS D'ASSEMBLAGE REQUIS (NON INCLUS)

Important information to read before starting the assembly.
Keep this information for future reference.

IMPORTANT WARNINGS

Risk of serious injuries if the wall bed tips over.

To prevent wall bed from tipping over, mount it permanently to the wall.

Only a qualified person* must carry out the installation and any possible adjustment of the wall bed (including disassembly). If the wall bed is not firmly mounted (anchored) to the wall, it might tip over and cause serious injuries to the installer, users of the bed as well as the people near the bed.

The choice of wall anchoring depends on the type of wall. Use wall anchors suitable for the wall material.

*Qualified person: it is necessary to have a good understanding of the wall structure where the bed is anchored, including the positioning of the wall studs and structural components in the case of a wood or metal structure. If you do not have the necessary skills, make sure that the installation is done by someone who has the qualifications and required knowledge. When you choose the installer, make sure to comply with all applicable regulations in the province, state or country where the furniture is installed.

WALL ANCHORING INSTRUCTIONS

- 1** Determine the position of the bed in the room

- 2** Put the bed back in its place. Please keep it vertical and horizontal

- 3** Mark 6 drilling hole positions on the wall corresponding to the pattern (W).

- 4** Move the bed again, then use a wall drill with an 8mm drill bit to drill into the marked positions, ensuring the hole depth exceeds 40mm.

- 5** Insert plastic stopper (S) into the drilled holes on the wall.

- 6** Put the bed back in its place. Use screws to securely attach the bed to the wall.
