# PRODUCT DESCRIPTION

The material of the wooden frame is rubber wood, which is polished smoothly and designed with composite ergonomic armrests to increase comfort.

After all the attempts, the covering fabric of this chair is chosen from cotton and linen, which is soft and skin-friendly to the touch, and the padding material is high-density foam, which is flexible and not easily deformed.

Easy to install: The product box comes with detailed installation instructions and all the parts and tools needed for installation, so even a single person can install it quickly.

Retro and exquisite design: Wooden frame plus cotton and linen material surface, the overall color scheme is beige, with a rustic atmosphere, the overall design is not complicated and easy to match.

The chair should be assembled on cardboard or carpet for ease of handling and to avoid collision with the floor.

# EXPLODED VIEW

The product's left and right are determined by sitting posture

Please make sure all hardware&packing material fitting the list.

Especially some small accessories may be missing during transportation. Please contact us if you have any question.

# step 1

Using allen key provided to remove the armrests (C & D) from the wooden board, the wooden board is for fixing the armrests during the transportation, not part of the product.

\* You may place a rug or some covers underneath the seat frame, in order to protect your floor and the product.

# step 2

Connect back (A) and the seat cushion (B) with the bolts (1) and washers (2), using allen wrench (3) provided to tighten the bolts, make sure all the bolts are fully tightened before next step.

# step 3

Insert transom (G) into the right arm (C) as shown, and align the arm to the frame, make sure all the holes are correctly aligned.

# step 4

Use the bolts (1) to tighten the right arm (C) and transom (G) with the frame as shown, use the allen wrench (3) provided to tighten the bolts.

## Notice:

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

# step 5

Repeat the step 3 for the left arm (D) by inserting the transom (G) into it.

# step 6

Use the bolts (1) to tighten the left arm (D) and transom (G) with the frame as shown, use the allen wrench (3) provided to tighten the bolts.

## Notice:

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

# step 7

Insert the vertical nuts (6) into the front transom (E) as shown, make sure the holes on vertical nuts are aligned with the holes on the sides of transom. Then install the transom to the seat frame as shown, use the bolt (1) to tighten the transom to both arms, use the allen wrench (3) provided to tighten the bolts, make sure all bolts are fully tightened.

# step 8

Use the allen wrench (3) provided to tighten the bolts, make sure all bolts are fully tightened.

## Notice:

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

# step 9

Stick on the antislip pads (5) onto the bottom of the legs as shown.

# step 10

Insert the plastic covers (4) into each holes of the bolt as shown.

# step 11

Place the waist pillow, the assembly is complete
