OPTION 1:

1- Determine the position of the bed in the room.

1- Déterminez la position du lit dans la pièce

2- Put the bed back in its place. Please keep it vertical and horizontal.

2- Remettez le lit à sa place. Veuillez le garder vertical et horizontal.

- 3- Mark the points drill holes according to actual products  
 3- Marquez les points de perçage en fonction des produits réels.

- 4- Drill the positions marked in STEP 3 and secure the plug.  
 4- Percez les positions marquées à l'ÉTAPE 3 et fixez la cheville.

Wall attached item only:

## A guide to wall mounting and fixings

### Warning

Wall fixing screws are not included, since different wall materials require different types of screws / fixings. Please ensure you use the correct screws / fixings for your type of walls and seek professional advice if you are not sure.

Failure of the product due to incorrect fixings is the responsibility of the installer.

**Important:** When drilling into the walls always check that there are no hidden wires or pipes etc.

### Types of walls

You can use one of the following types of wall plug if your walls are made of brick, breezeblock, concrete, stone or wood.

#### 1. Genral Purpose wall plug

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general - purpose wall plugs can be used.

#### 2. Plasterboard wall plug

For use when attaching light loads on to plasterboard partitions.

#### 3. Cavity Fixing wall plug

For use with plasterboard partitions or hollow wooden doors.

#### 4. Cavity Fixing - Heavy Duty wall plug

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

#### 5. Hammer Fixing wall plug

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

#### 6. Shield Anchor wall plug - Heavy loads

For use with heavier load such as TV and HI-Fi speakers and satellite dishes etc.

### Care and maintenance

**Safety:** Periodically check all fittings and wall fixings to ensure they have not come loose and retighten as necessary.

MINH HANH CO., LTD  
LOT B2 - 36, ROAD NO. 2, TAN DONG HIEP B INDUSTRIAL ZONE,

Meets ASTM F3096-23

Article à fixer au mur uniquement :

## Guide de montage mural et de fixation

### Attention

Les vis de fixation murale ne sont pas incluses, car différents matériaux de mur nécessitent différents types de vis / fixations.

Veuillez vous assurer d'utiliser les vis / fixations correctes pour votre type de murs et demander conseil à un professionnel si vous n'êtes pas sûr.

L'échec du produit en raison de fixations incorrectes est de la responsabilité de l'installateur.

**Important :** Lorsque vous percez dans les murs, vérifiez toujours s'il n'y a pas de fils électriques ou de tuyaux cachés, etc

### Types de murs

Vous pouvez utiliser l'un des types de cheville murale suivants si vos murs sont en brique, parpaing, béton, pierre ou bois.

#### 1. Cheville murale polyvalente

En général, les blocs aérés ne devraient pas être utilisés pour supporter des charges lourdes. Dans ce cas, utilisez un dispositif de fixation spécialisé. Pour les charges légères, des chevilles murales polyvalentes peuvent être utilisées.

#### 2. Cheville pour plaque de plâtre

Pour une utilisation lors de la fixation de charges légères sur des cloisons en placoplâtre

#### 3. Cheville de fixation pour cavité

À utiliser avec des cloisons en placoplâtre ou des portes en bois creuses.

#### 4. Cheville de fixation pour cavité - à usage intensif

À utiliser lors de l'installation ou du support de charges lourdes telles que des étagères, des armoires murales et des porte-manteaux.

#### 5. Cheville de fixation à marteau

À utiliser avec des murs recouverts de placoplâtre. La fixation à marteau permet de la fixer au mur plutôt qu'au placoplâtre. Vérifiez toujours que la fixation est bien sécurisée au mur porteur.

#### 6. Cheville à ancre de protection - Charges lourdes

À utiliser avec des charges plus lourdes telles que des téléviseurs, des enceintes hi-fi et des antennes satellites, etc.

Entretien et maintenance

**Sécurité:** Périodiquement, vérifiez tous les raccords et fixations murales pour vous assurer qu'ils ne se sont pas desserrés et resserrez-les si nécessaire.
