1. pull out the small rails in the slide rails on the side walls completely. with two people lifting each side of the drawer, align the four divots on the bottom with the two rail clips on the rails on each side and insert them into the rail clips.

2. After placing the drawer on the rail, press the drawer base down hard enough, paying attention to check the position of the four clips inside until you hear a click four times, which means the drawer is in place
