The goods

IMPORTANT

1. Do not tighten bolts / screws completely until all bolts / screws are lined up and inserted into holes.
2. Do not over tighten screws and bolts to avoid stripping.
3. Please use hand tools to assemble this product.

Step 1

Let's get this thing fired up!

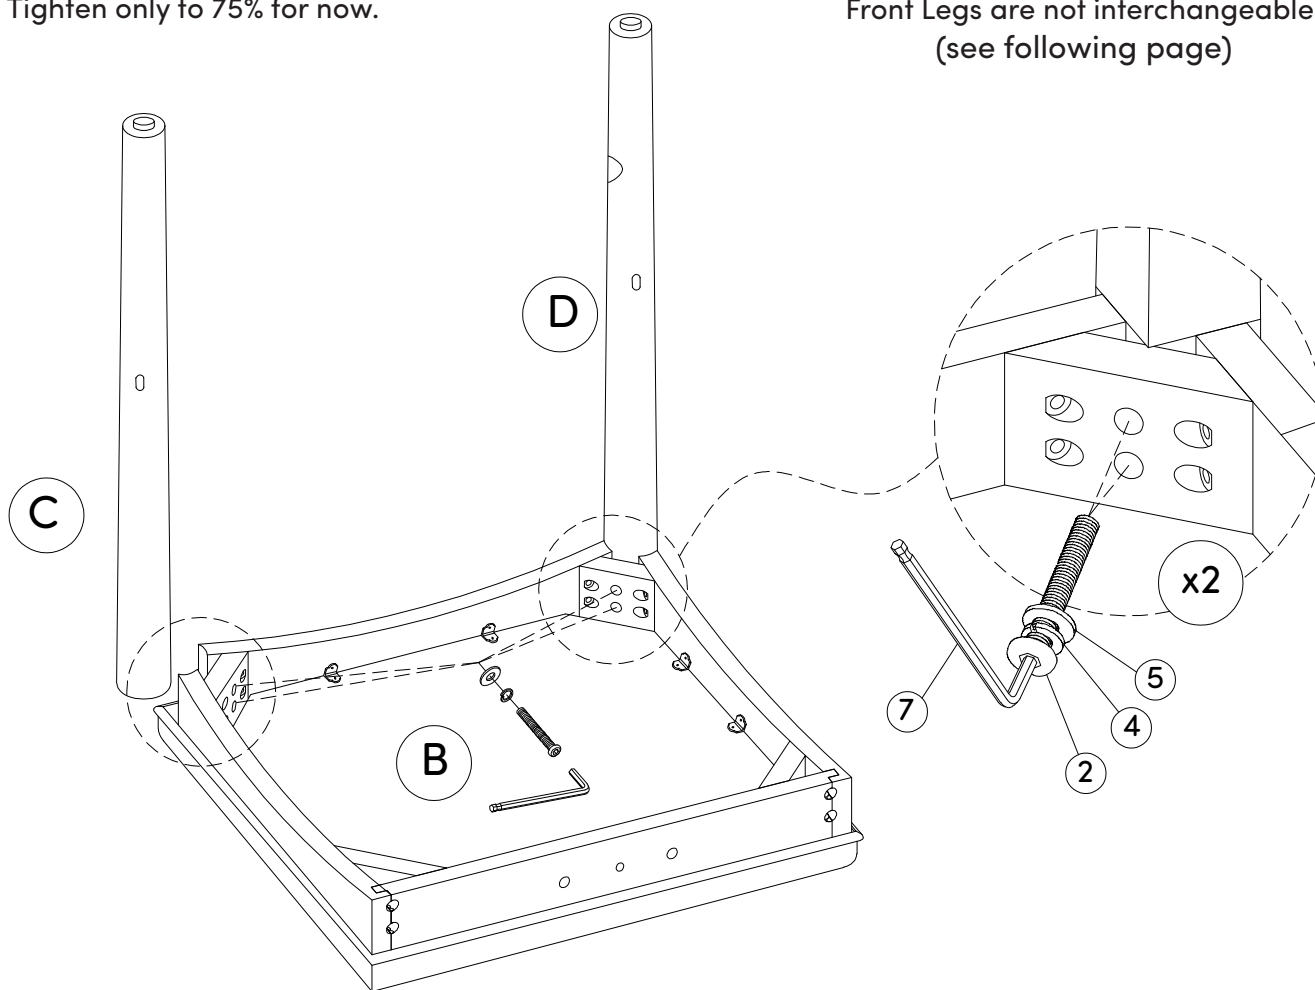

Secure the Seat Cushion (B) and the Front Legs (C)(D) together using the Hex Button Head Bolts (2), Lock Washers (4) and Flat Washers (5).

See, we told you this was going to be easy!

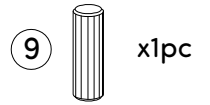

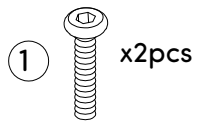

Do NOT overtighten hardware.
Tighten only to 75% for now.

IMPORTANT NOTE:
Front Legs are not interchangeable.
(see following page)

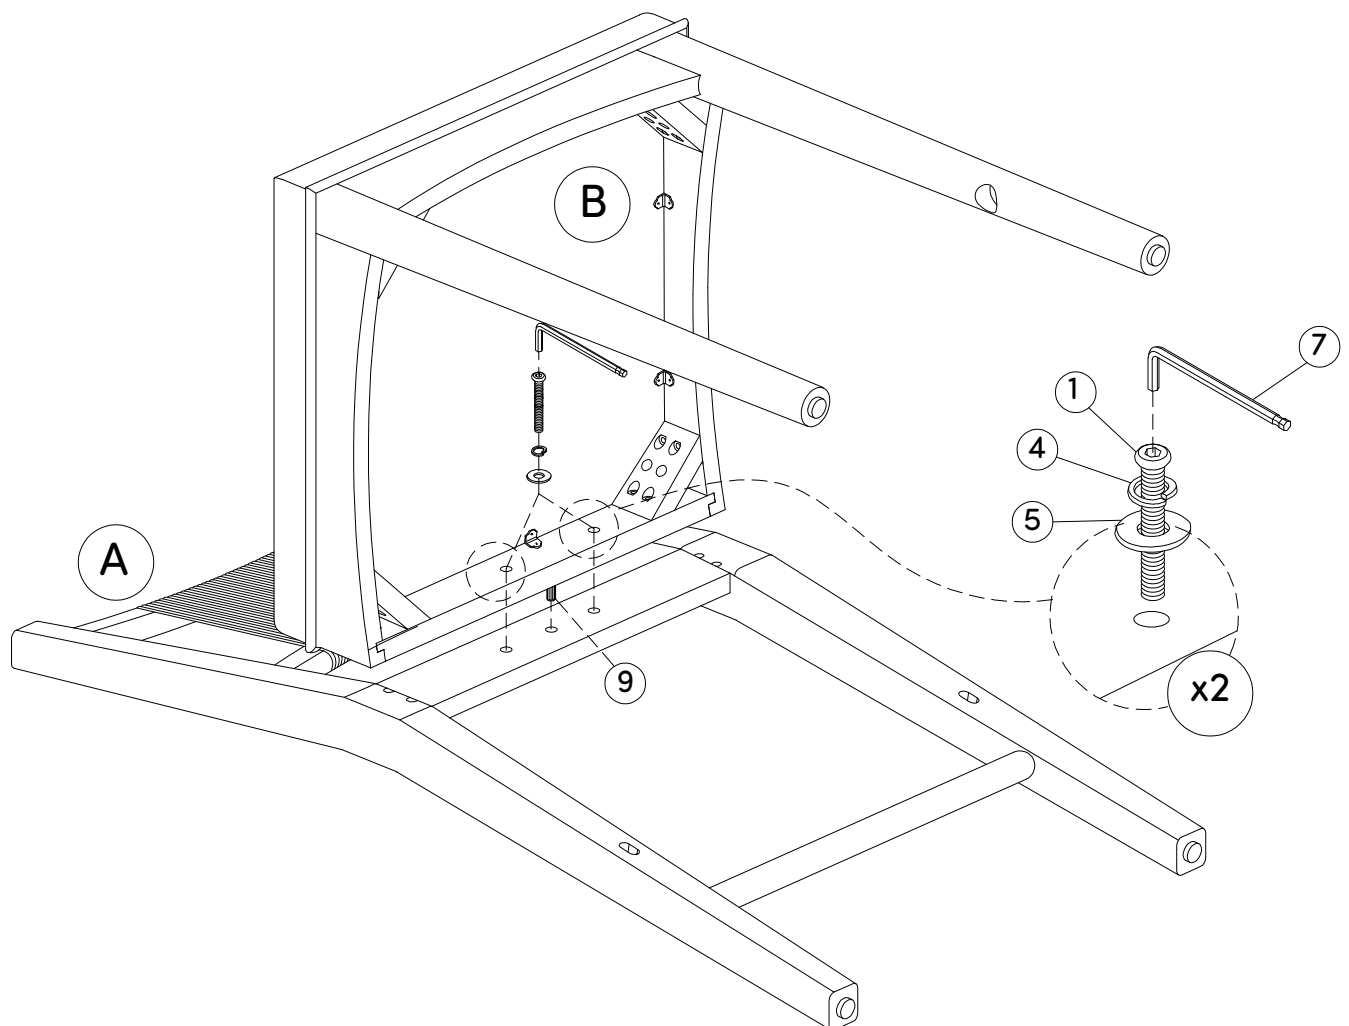

Step 2

Secure the Chair Back (A) and Seat Cushion (B) using the Wooden Dowel (9), the Hex Button Head Bolts (1), as well as both washers (4)(5).

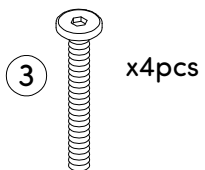

Do NOT overtighten hardware.
Tighten only to 75% for now.

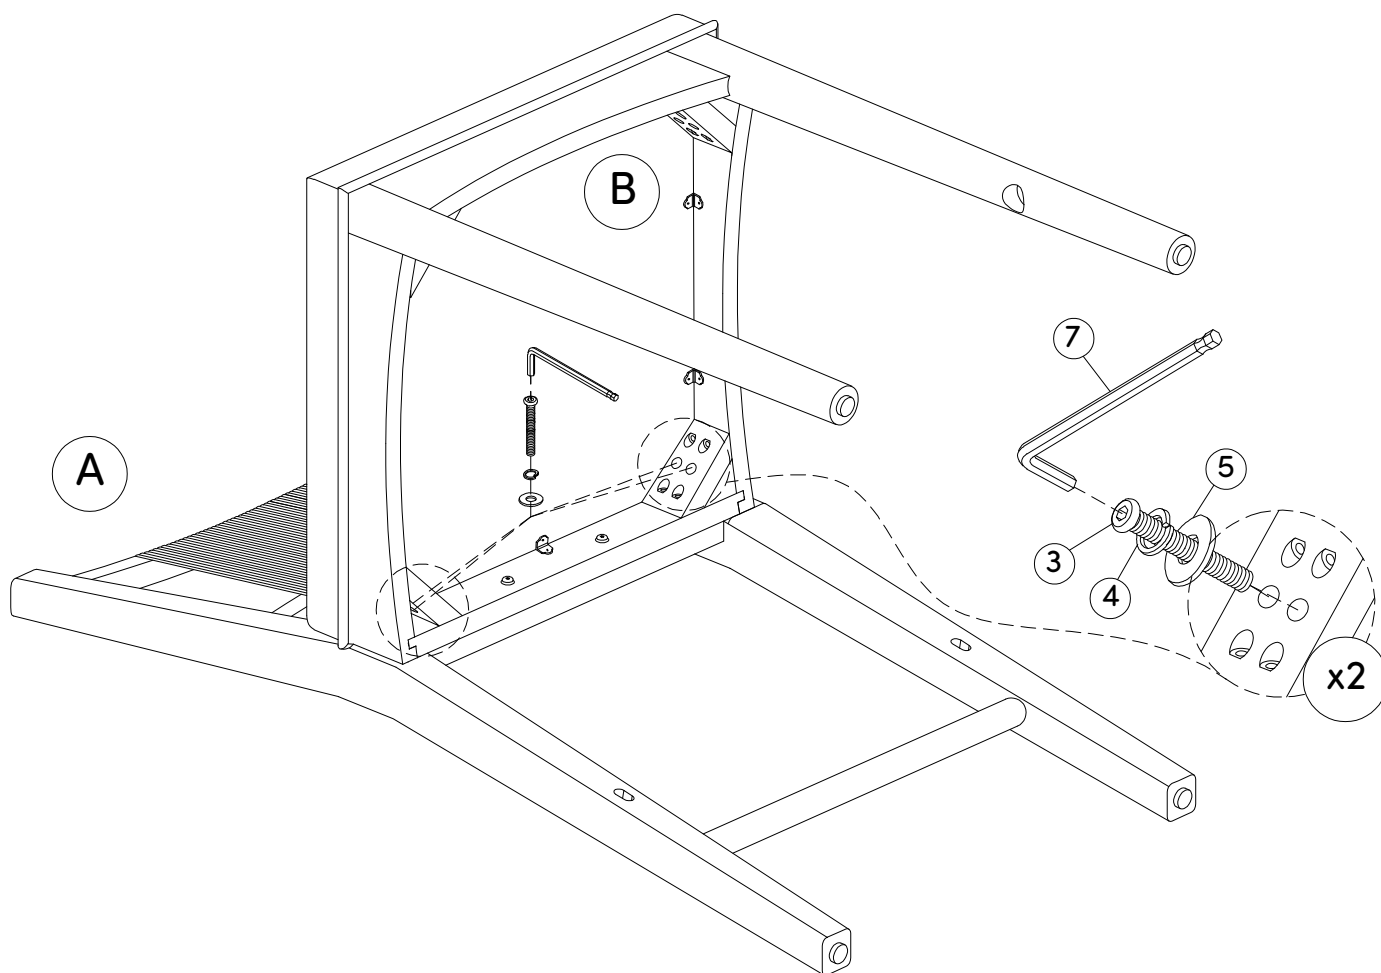

Step 3

Match the sticker on the bottom of the Chair Back (A) with the sticker on the corner block. Then, secure the Seat Cushion (B) using the Hex Button Head Bolts (3), as well as both washers (4)(5). Tighten using the Allen Key (7).

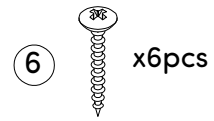

Do NOT overtighten hardware.
Tighten only to 75% for now.

Step 4

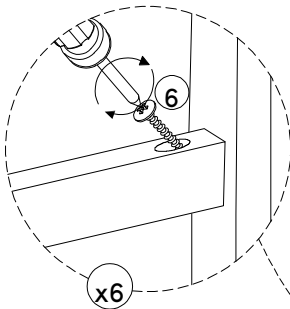

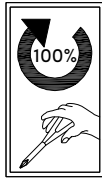

Now, screw on the Front Footrest (F) and Side Stretchers (E) using the Phillips Head Screws (6).

If you are having trouble getting the screws to catch, it is recommended to carefully use an electric screwdriver or drill with necessary bit for this step.

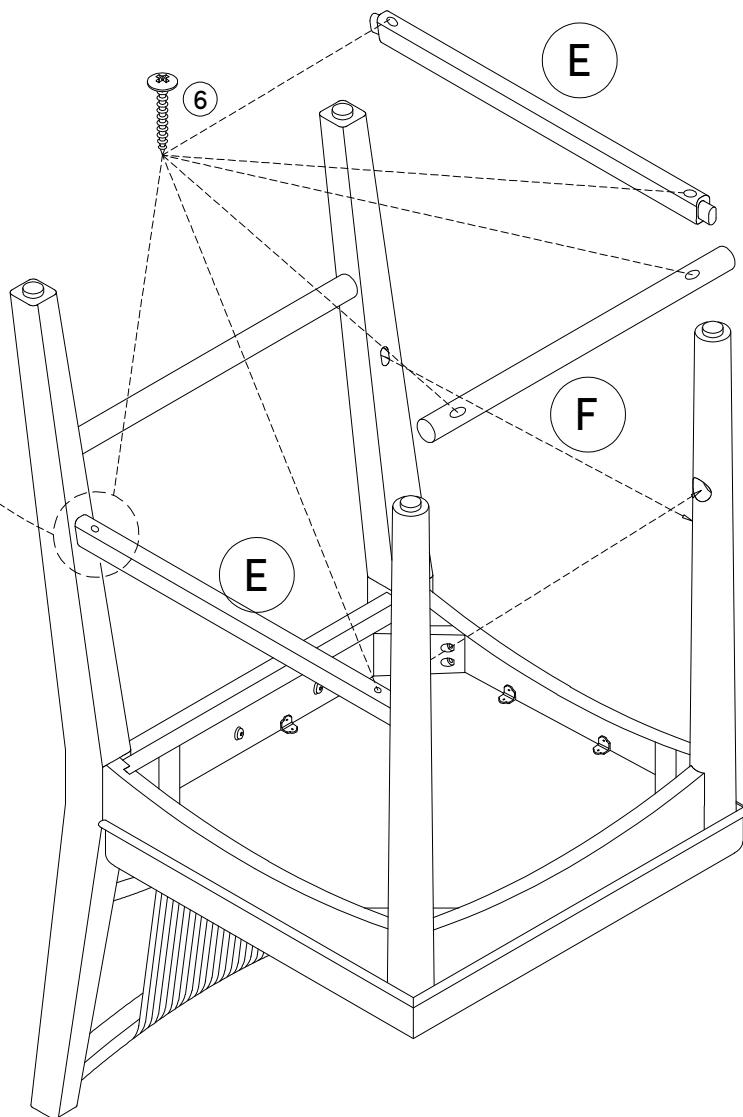

Do not over-tighten; holes may become stripped.

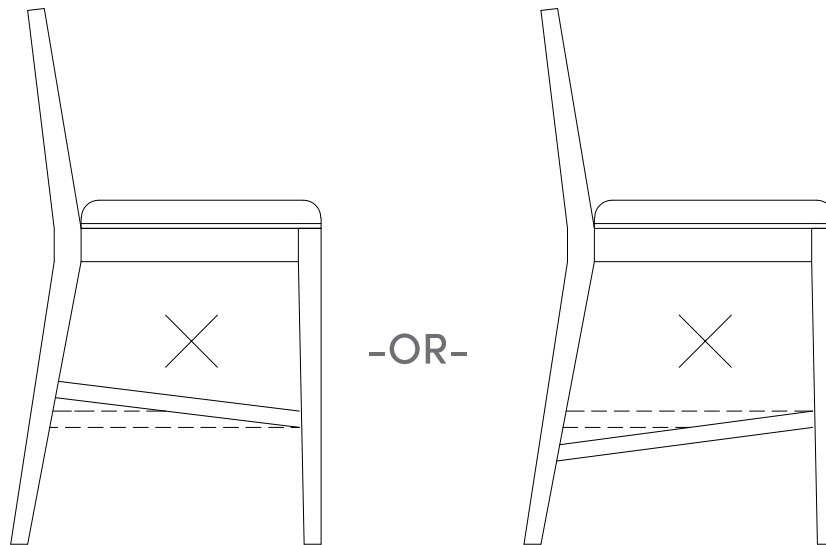

IMPORTANT NOTE:

Screws are installed through the footrest & stretchers into the legs at an angle.

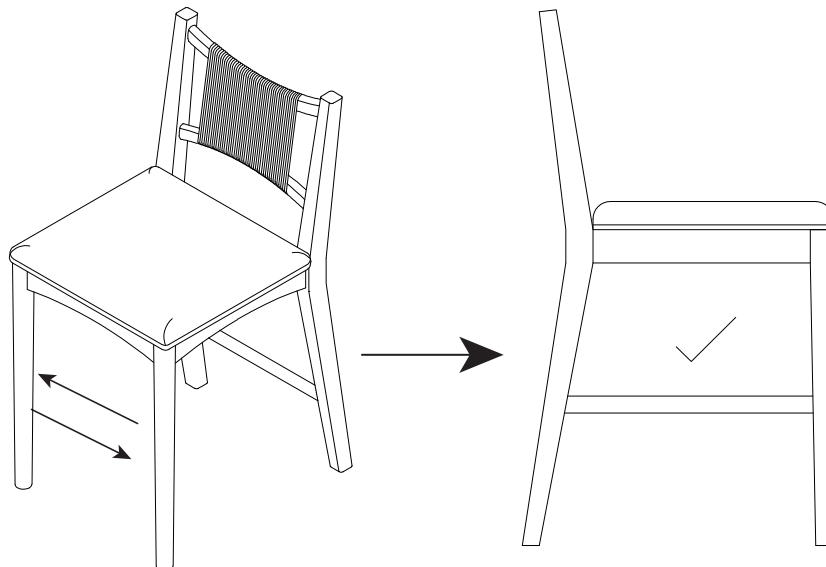

Issues with stretchers aligning at an angle?

If the stretchers are set at an angle when you are aligning them with their respective holes on the front & back legs, **you have likely assembled the front legs incorrectly.**

Re-check to confirm that the proper legs are installed in their intended position on the proper side of the stool.

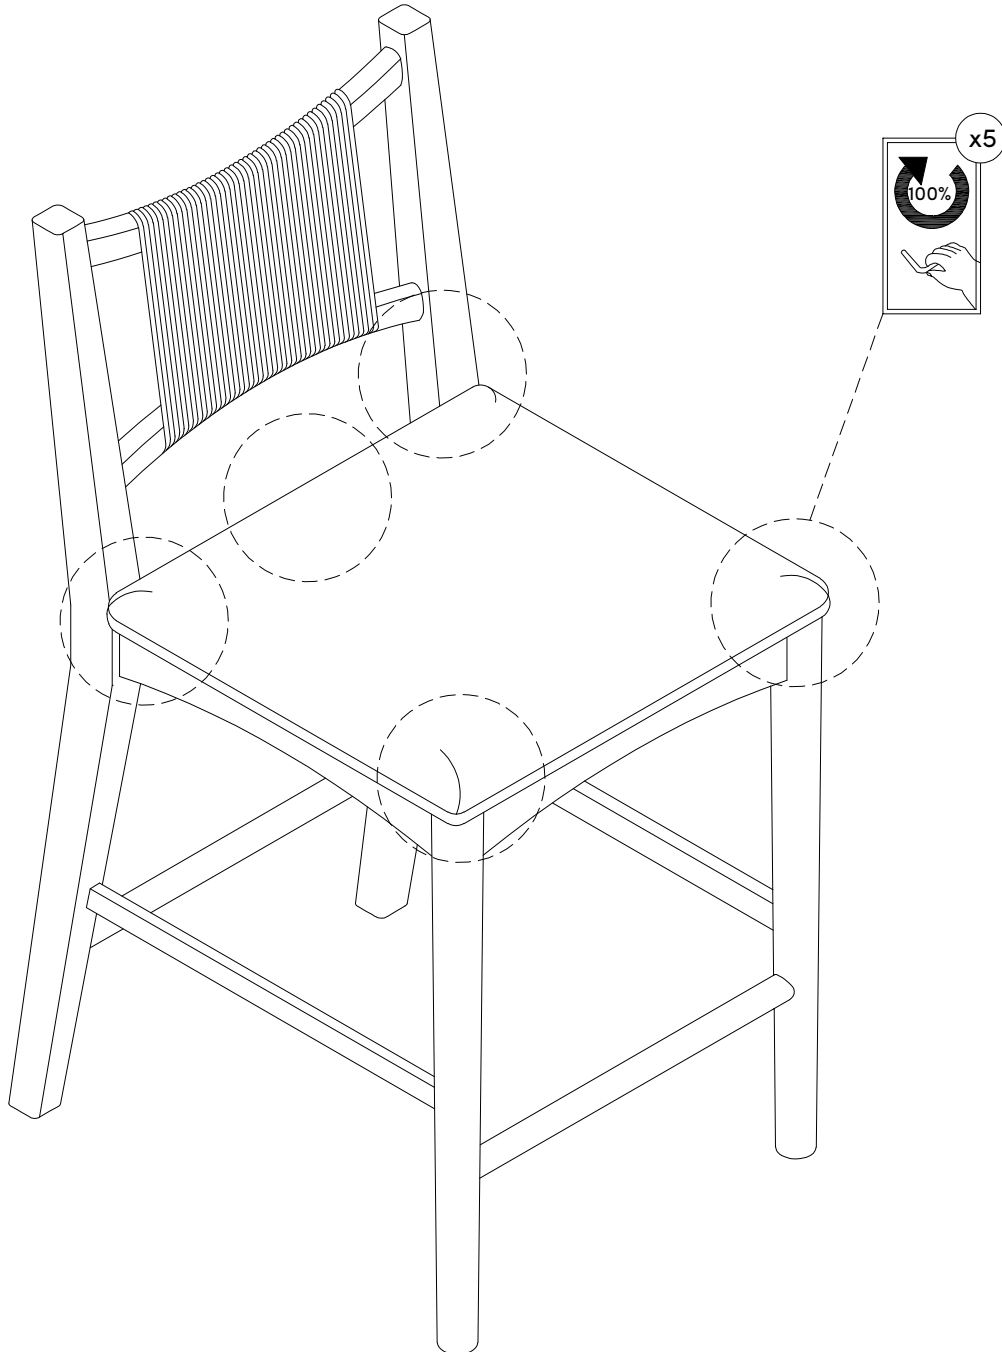

The front legs are not interchangeable; therefore they may need to be rotated and swapped to the opposite side.

Step 5

Carefully flip the stool over on a flat surface and make sure the legs are touching the ground evenly before tightening everything to 100%.

You did it! Go tuck your bar stool into your kitchen island and celebrate with some pizza!

No heartburn, when we handle the return

Replacement

You

We really don't want you to go through the hassle of re-packaging your item
and sending it back, because let's be honest...nobody has time for that.

Safety first, fun later

We want your Cove Bar Stool to last as long as possible, so we recommend that you tighten the screws 2 weeks after assembly and for added safety check the tightness of all screws every 2 months.

For proper care and treatment of fabric & metal please check our website at NathanJames.com/products

Safe use of this product starts with you.

Use this Cove Bar Stool responsibly with the primary concern for your safety. Follow assembly instructions carefully and inspect product upon receipt and each use.

Nathan James and its parent companies cannot be held legally responsible for any injuries or death resulted from failure to follow instructions or improper use of this product.

Do not modify the structure of this product in any way.

Our products have been tested to meet specific safety measures as they were originally intended to be sold. Any modifications will present the risk of creating significant safety issues which NJ will not be responsible for.

Proper use

- DO NOT** use for commercial purposes
- DO NOT** place on uneven floor
- DO NOT** use as a step-stool or stand on
- DO NOT** put hot serving liquid directly on the stool
- DO NOT** leave spilled liquid on stool
- DO NOT** use if damaged or broken
- DO NOT** make temporary repairs
- DO NOT** use outdoors

We are only in business if you're happy

For starters, thanks for being you.
