# Assembly Steps

## Overview

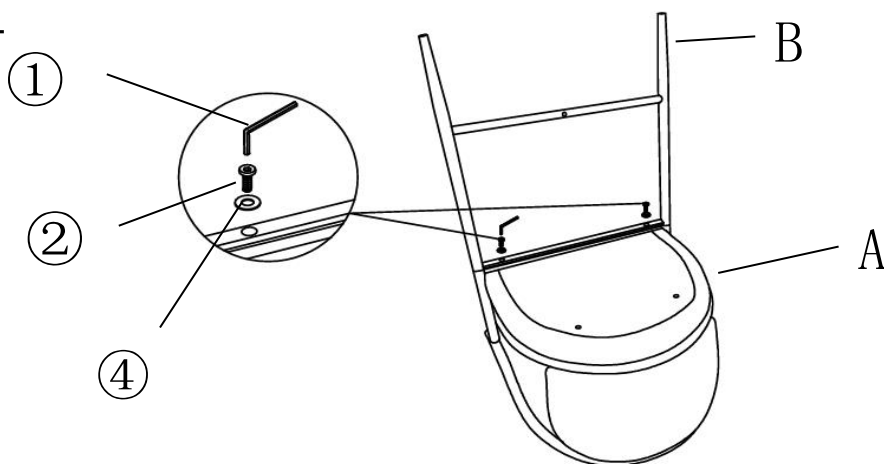

This Counter Stool has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Counter Stool parts, the above picture is to help you put the various parts into perspective. Please read through the instructions herebelow to familiarise yourself with the parts and steps before assembly.

## Step 1

Open the carton and place all the parts onto a clean, non-marring surface. Place Seat Panel (A) on the ground, as shown in picture above.

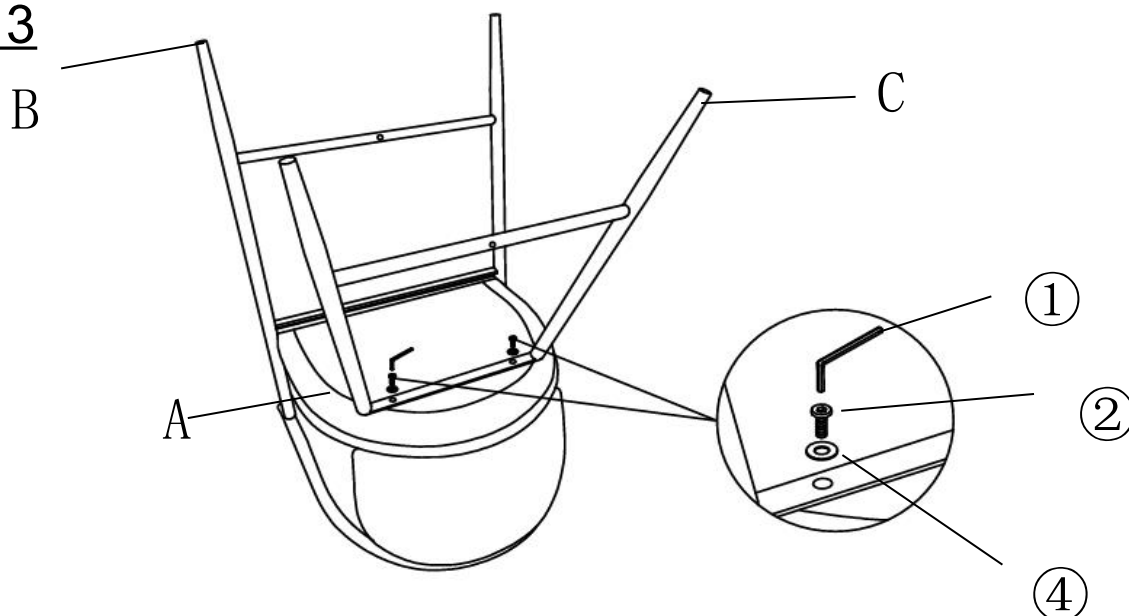

## Step 2

Using Bolts (②) and Washer (③) with Allen Wrench (①) to connect the Front Leg (B) and the Seat Panel (A).

**DO NOT FULLY TIGHTEN THE BOLTS.**

### Step 3

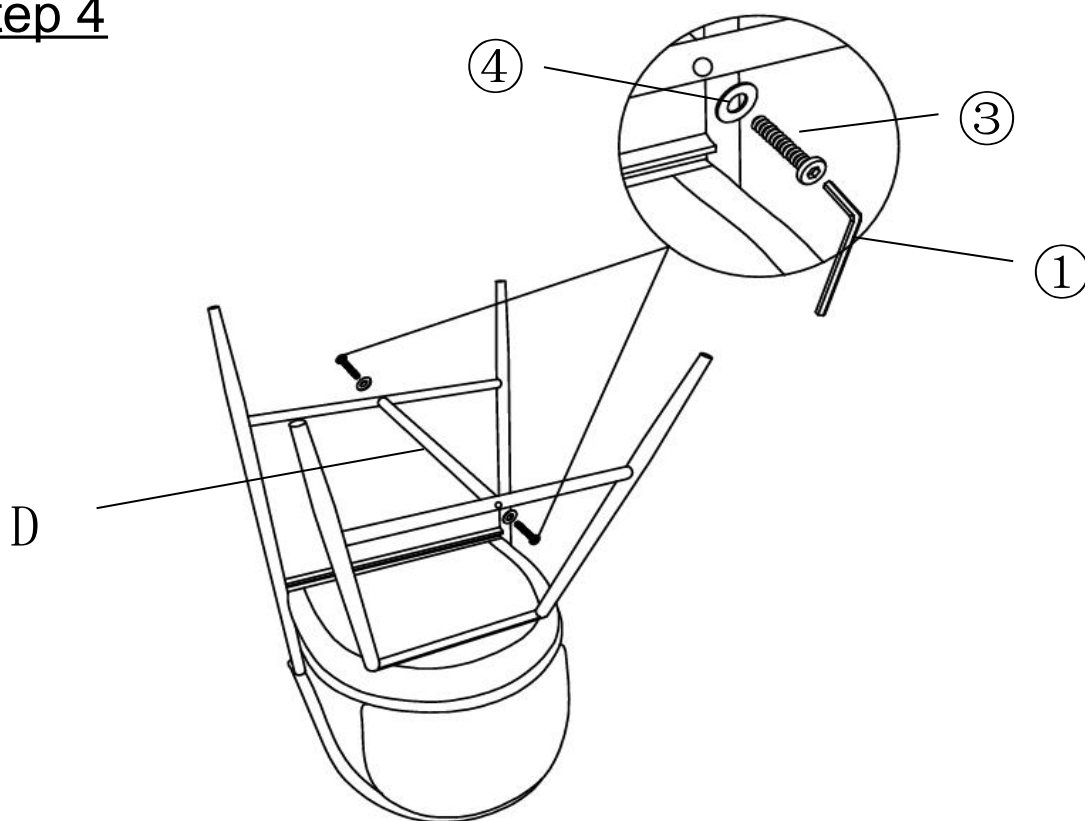

Attach the Hind Leg (C) to Seat Panel Frame (A) using Bolts(②) and Wahser (④) with Allen Wrench(①).

The bolt mounting positions are on the Seat Panel.

**DO NOT FULLY TIGHTEN THE BOLTS.**

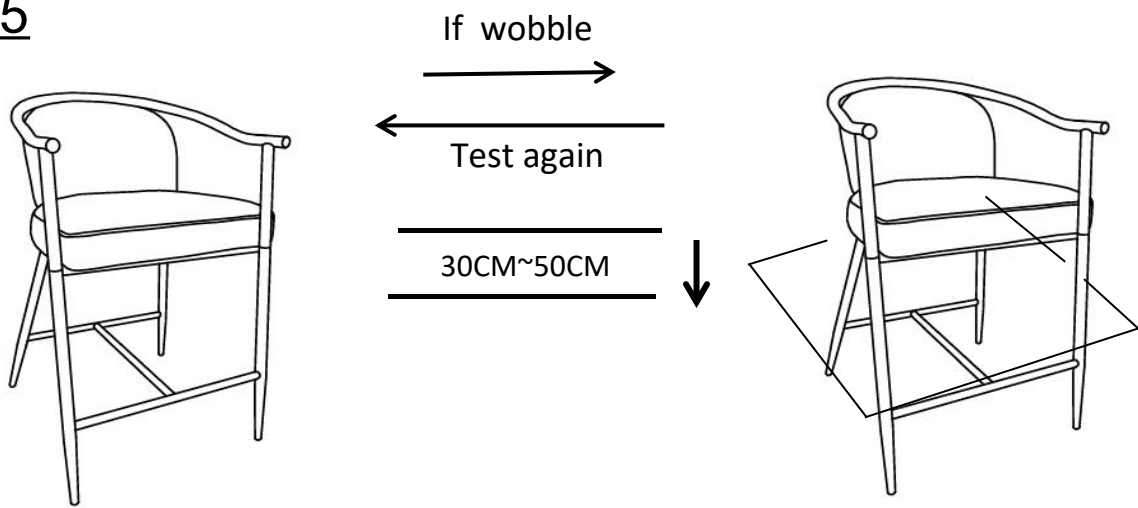

### Step 4

Using Bolts(③) and Wahser (④) with Allen Wrench(①) to connect the Stretcher (D) to the Front Leg (B) and Hind Leg (C) as shown above.

**DO NOT FULLY TIGHTEN THE BOLTS.**

## Step 5

Place the Counter Stool on a **LEVEL SURFACE** to check for wobbles.

If it wobbles, lift the Counter Stool to some 30cm to 50cm in height from the ground.

Keep your feet and toes well away from the drop zone.

Drop the Counter Stool freely and vertically with the four legs, hitting the ground, all at the same time.

This Drop Test will help to ensure that all the bolts and gaps all reach full alignment status.

Test again for evenness on a **LEVEL SURFACE**.

If no wobbles are found, slowly and steadily turn the Counter Stool upside down.

Then, proceed to tighten all bolts in a sequential manner.

**CAUTION:** When tightening these bolts, tighten sequentially.

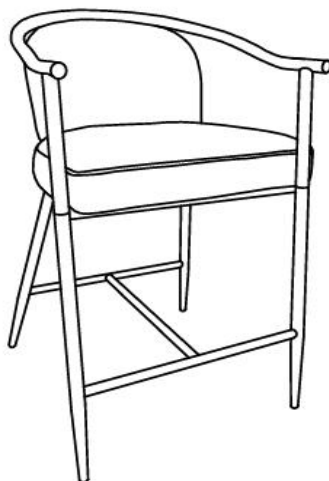

**DO NOT** tighten any screw fully and then towards the next one.

This would cause the frame to warp.

If there is still wobbles, loosen the bolts and execute these same drop tests.

**WARNING!! IF Counter Stool IS NOT STABLE, IT COULD LEAD TO DAMAGING THE PRODUCT.**

## Step 6

Your Counter Stool is ready for use.

The chair can only be used on a flat, level surface.
