# Assembly Steps

## Overview

This Reclining Chair has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Recliner Chair parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

## Step 1

Position the Chair on its back as shown.(Perferrably on a surface that won't scratch the upholstery.)  
Open the inner box and take out the 4 wooden legs provided.

## Step 2

Install the legs into the chair by putting a Washer Ring (improves tightness and security of leg) on the threaded stem, adding a Rubber Washer on Hind Legs(E), (The use of Washer Rings/Rubber Washer are OPTIONAL and is especially useful to help alleviate slight wobbliness); and then insert the threaded stem into the threaded hole at each corner of the bottom of the chair. Tighten by turning leg clockwise. Repeat the same procedure to install the other remaining legs.

## Step 3

With assistance from your adult partner, hold up the Chair Backrest(A), standing behind the Recilner Chair. Insert the small metal arms on the sides of the Chair Backrest(A) into the prefabricated slide lock gadgets on the Chair Base(B) as shown above. Firmly but gently, push the Chair Backrest(A) downwards until the Backrest(A) is fully slotted and locked into position.

## Step 4

Smooth down the fabric flap on the Chair Backrest(A).  
Run your hands down both sides of the flap, from top to bottom, allowing the magic tape to adhere to the flap under the seat of Recilner Chair.

## Step 5

Make sure all parts are connected and securely locked into position.  
Your Recliner Chair is ready for use.

**This Recliner Chair can only be used on a flat, level surface.**

## Step 6

**Disassembly Note:**

Open the flap on the Chair Backrest(A), then with assistance of you adult partner to keep the Chair Base(B) in place, use a screwdriver (Don't use fingers) to press outward on the metal ear of the preattached Metal Bracket on one side of the Chair Base(B), while at the same time, pulling the Chair Backrest(A) upwards. Repeat the same step for the other side. Then the Chair Backrest(A) can be taken out.
