☒ Read instructions, cover to cover.

☒ Have 2 adults on hand for assembly.

☒ Do not assemble on flooring or carpet.

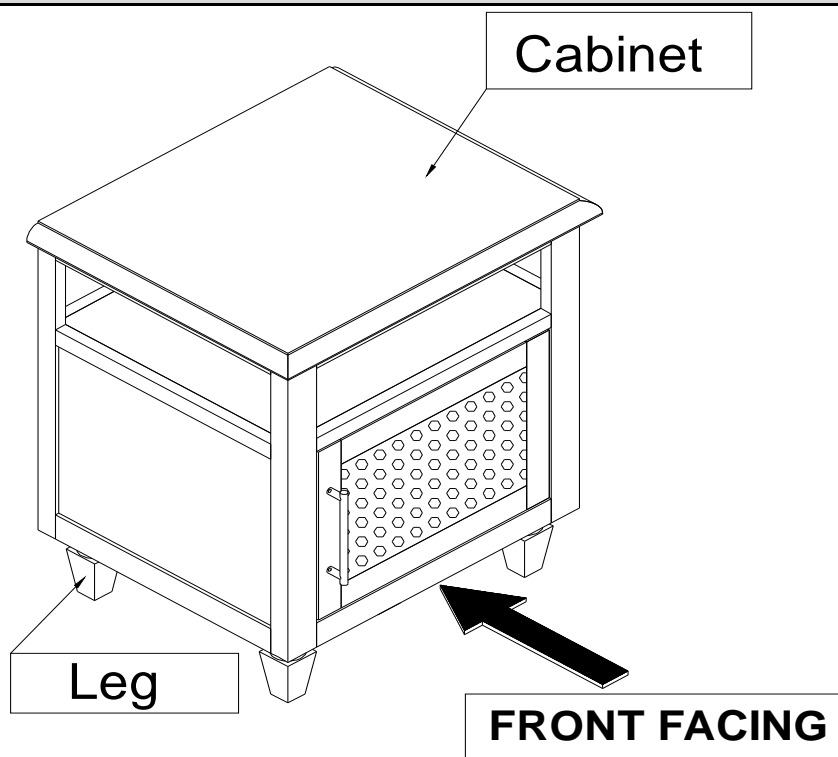

☒ Assemble on a clean non-marring surface (packing foam).

☒ Save all packaging until finished.

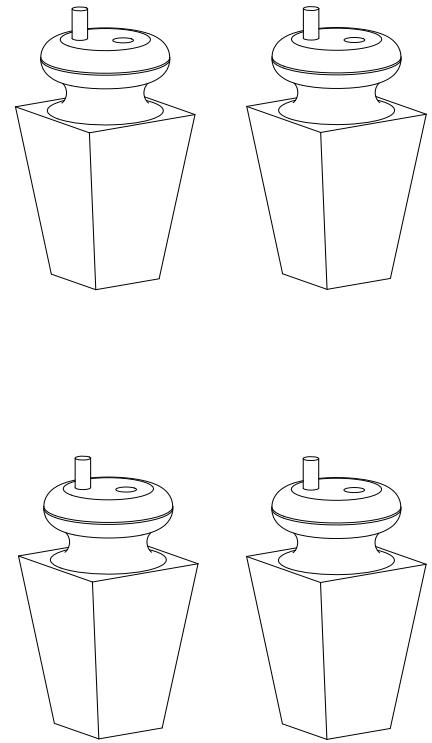

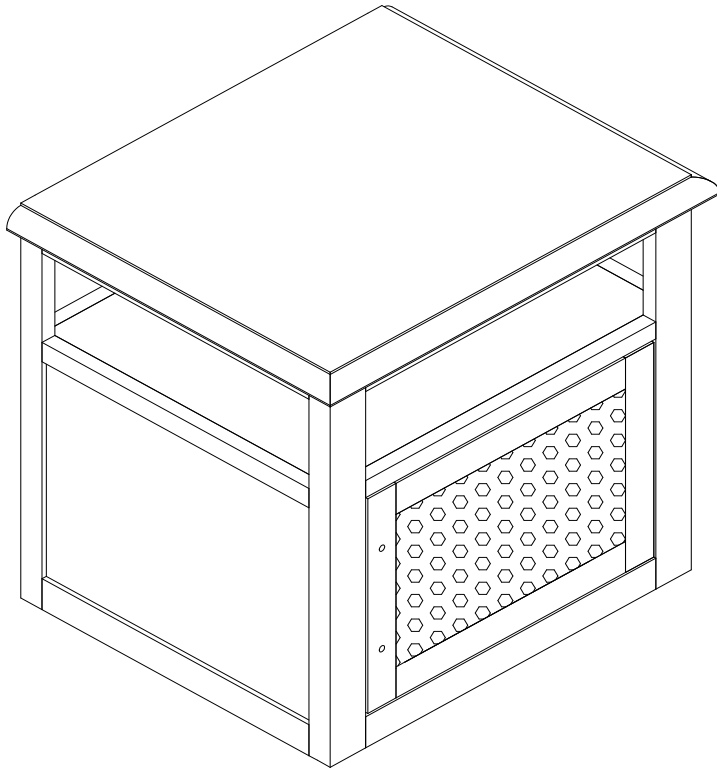

Assembly Steps

OVERVIEW

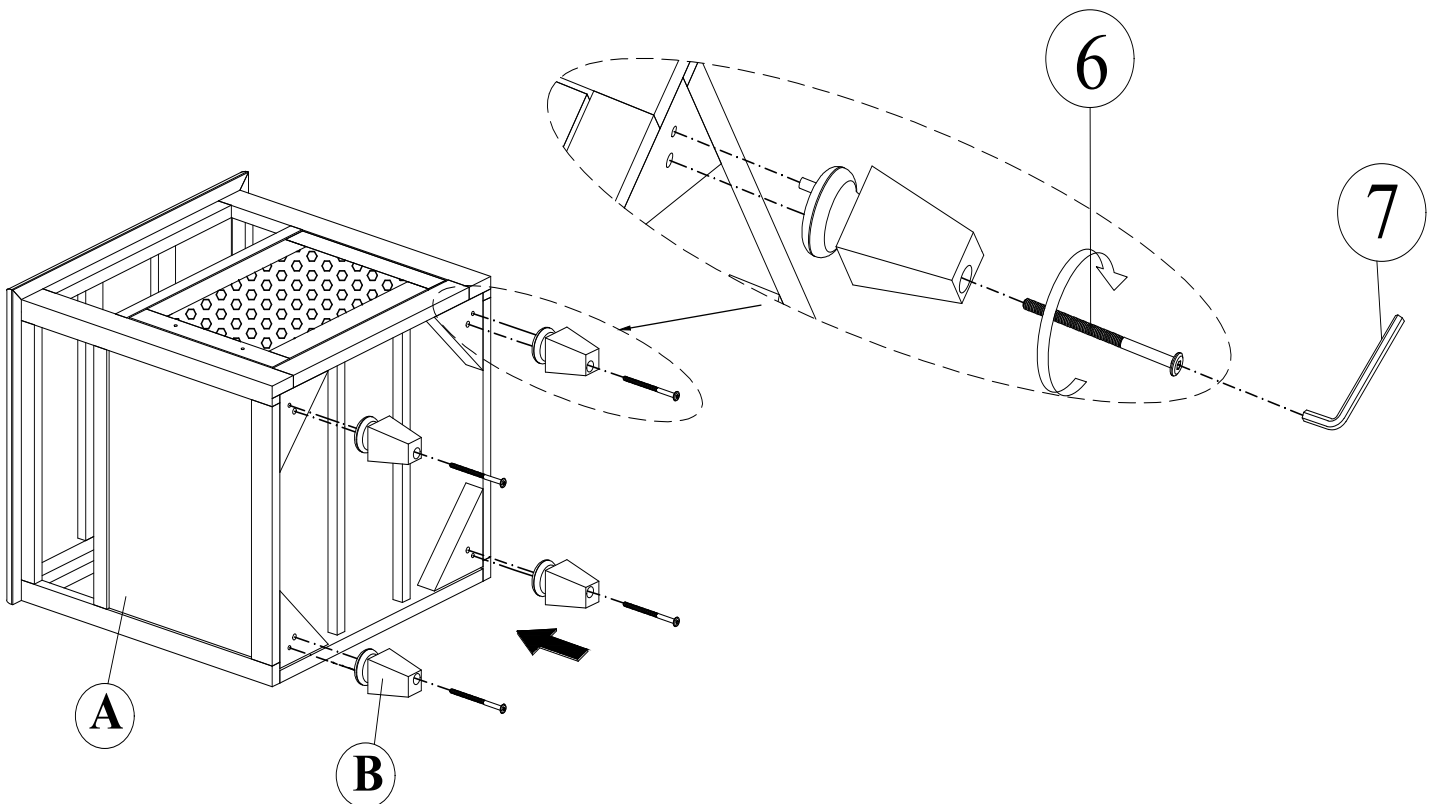

This Nightstand has multiple parts and may require up to 45 minutes to assemble. To give you an overview of the Nightstand parts, we've provided the above picture to put the various parts in perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Unpack and place all parts on a clean, non-marring surface.

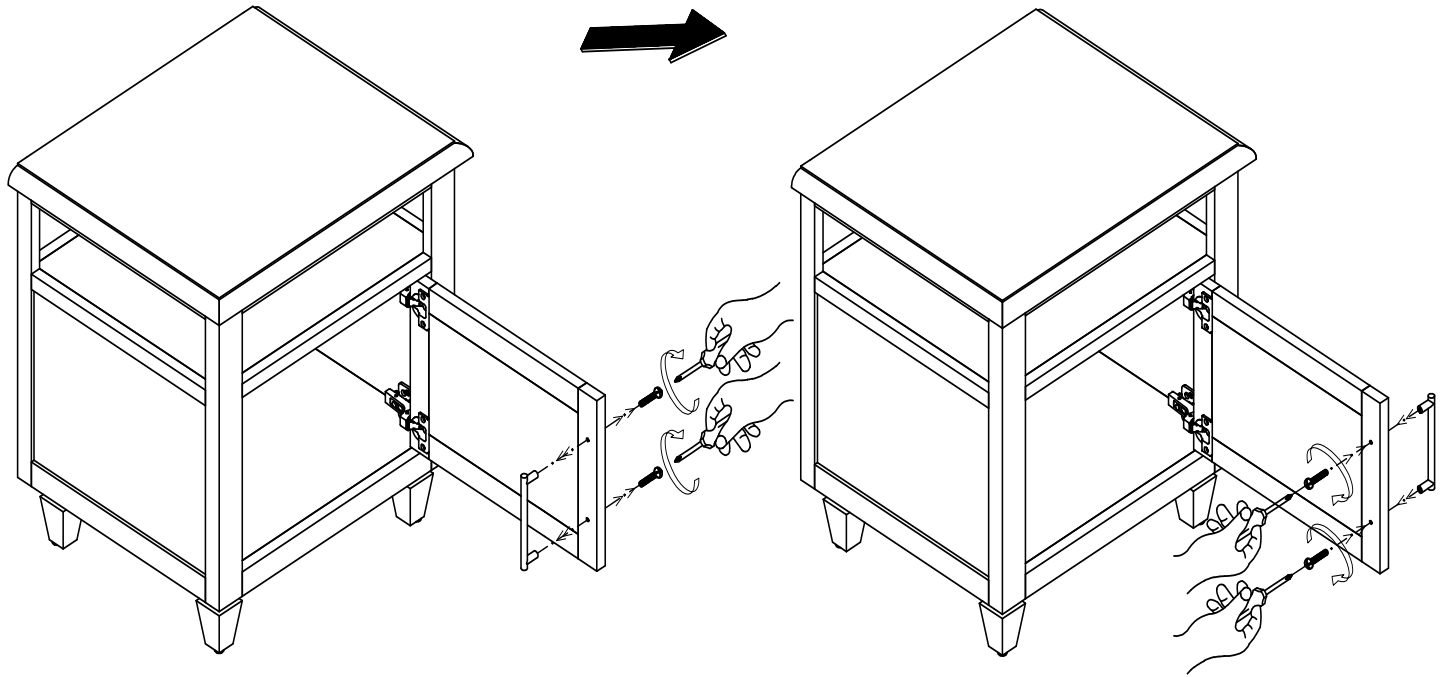

Step 2

With assistance from your adult partner, carefully lay the Cabinet (A) down with the door faceup on a clean, non-marring surface as shown above.

Attach the Legs (B) to the Cabinet (A) using Bolts (⑥) and the Allen Wrench (⑦) as shown above.

Step 3

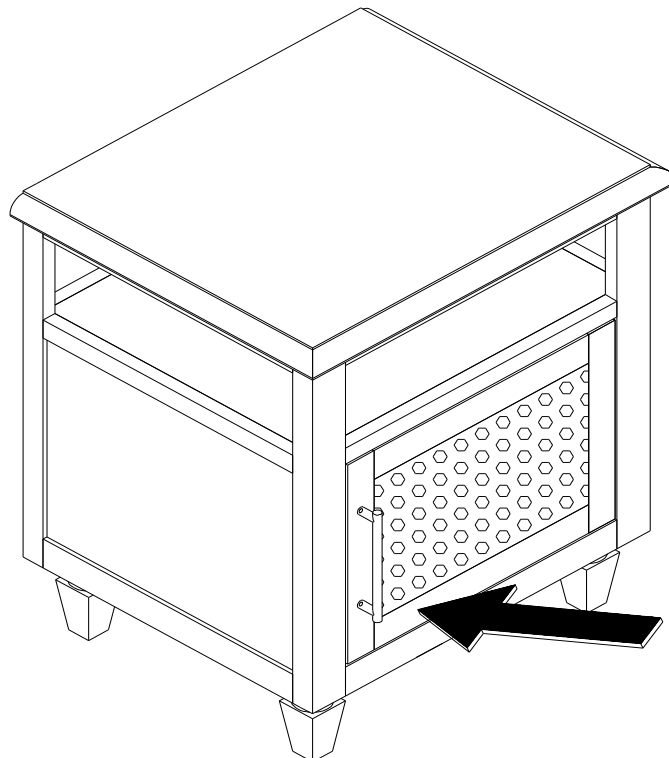

Step 3.1

Step 3.2

Step 3.1: Using a Philips Screwdriver (Not Provided), take the Handle which can be found behind the door.
Step 3.2: To affix the Handle, align the positioning of the Bolts and the Handle to the mounting positions on the Door.

Insert the Bolts through the mounting positions and affix the Handle by using a Philips Screwdriver (Not Provided), as shown in the above picture.

Step 4

Close the Door of the Nightstand
Ensure that all bolts and the Handle of the Nightstand are fully driven in and locked in.
The Nightstand now is ready to be used.

Caution: This Nightstand can only be used on a flat, level surface.

Nightstand Restraint Device Installation Instruction

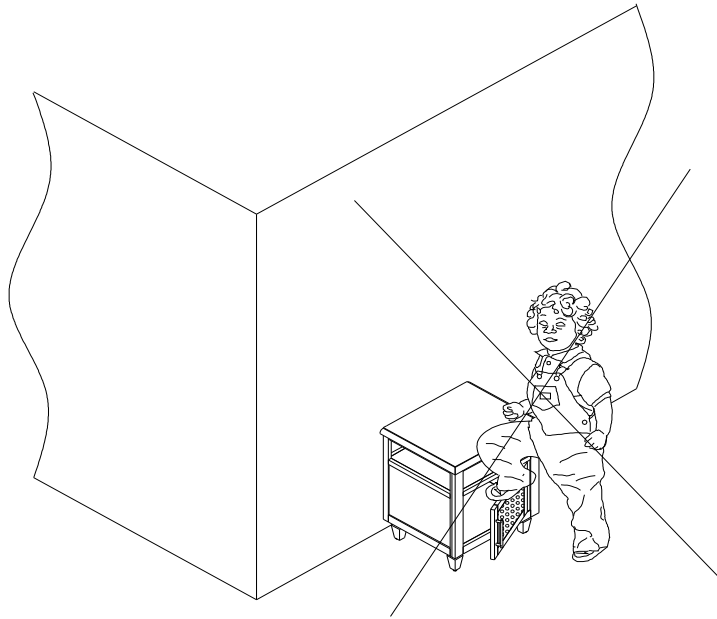

WARNING

Serious or fatal crushing injuries can occur from tipping furniture.

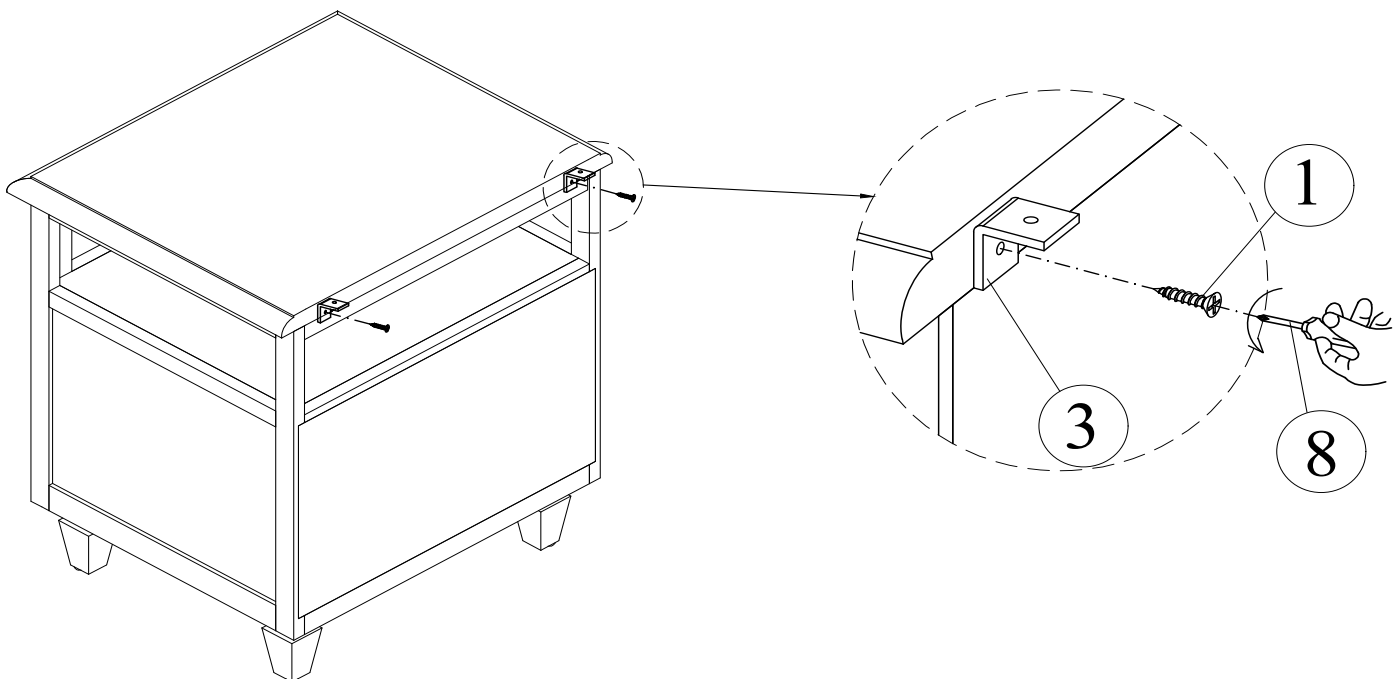

To help prevent tip-over: **ALWAYS** secure this furniture to the wall using Nightstand Restraint Device.

See product instructions for more ways to help prevent furniture tip-overs.

Usage For Nightstand Restraint Device :

To secure the Nightstand against the wall, affix 2pcs Metal Brackets (③) to the wall and 2pcs Metal Brackets (③) to the Nightstand. Then, use the Nightstand Restraint Strap (④) to connect the Metal Brackets (③) on the wall to the Metal Brackets (③) on the Nightstand. Find details as below:

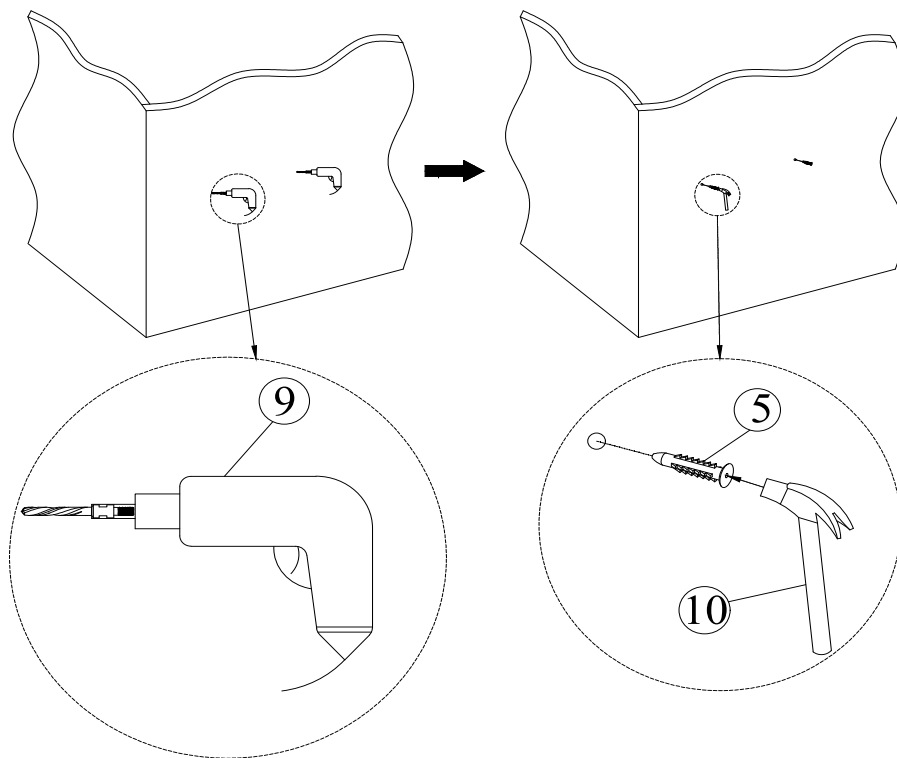

A: Turn the Nightstand around as shown above.

Then affix one Metal Bracket (③) to the back of the Nightstand using the 2.0cm Self Tapping Screw (①) and Screwdriver (⑧) (not provided).

The distance of the screw mounting position to the two edges is about 1".

Repeat this step to affix another Metal Bracket (③) to the Nightstand, as shown above.

B : Determine the location where the screws should be inserted into the wall.

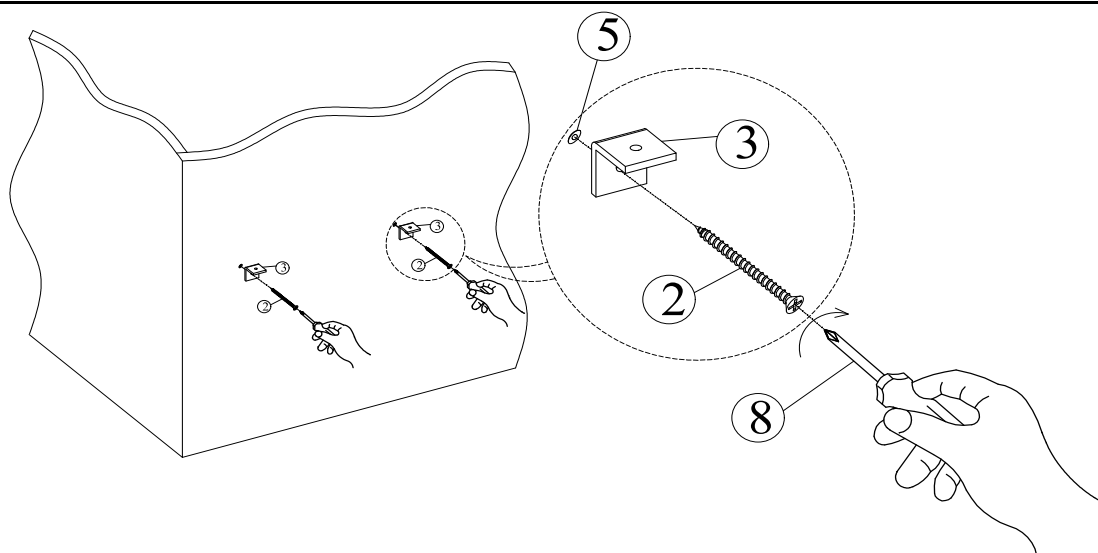

First, mark the point at the same height on the wall as the L-shaped Metal Bracket (③) on the Nightstand. Here are two helpful ways to find these points:

1. Move the Nightstand back against the wall, and mark the wall, ensuring the points on the wall are at the same height as the metal brackets on the Nightstand.

2. Using a ruler, measure the height from the floor to the Metal Bracket (③) on the Nightstand, and then measure the same height from the floor up the wall, and mark the wall at that same height.

Using a Power Drill (⑨) (not provided), drill a hole in the wall, then insert a Plastic Anchor (⑤) into the hole using a Hammer (⑩) (not provided).

Repeat this step to affix the other Plastic Anchor (⑤) into the wall, as shown above.

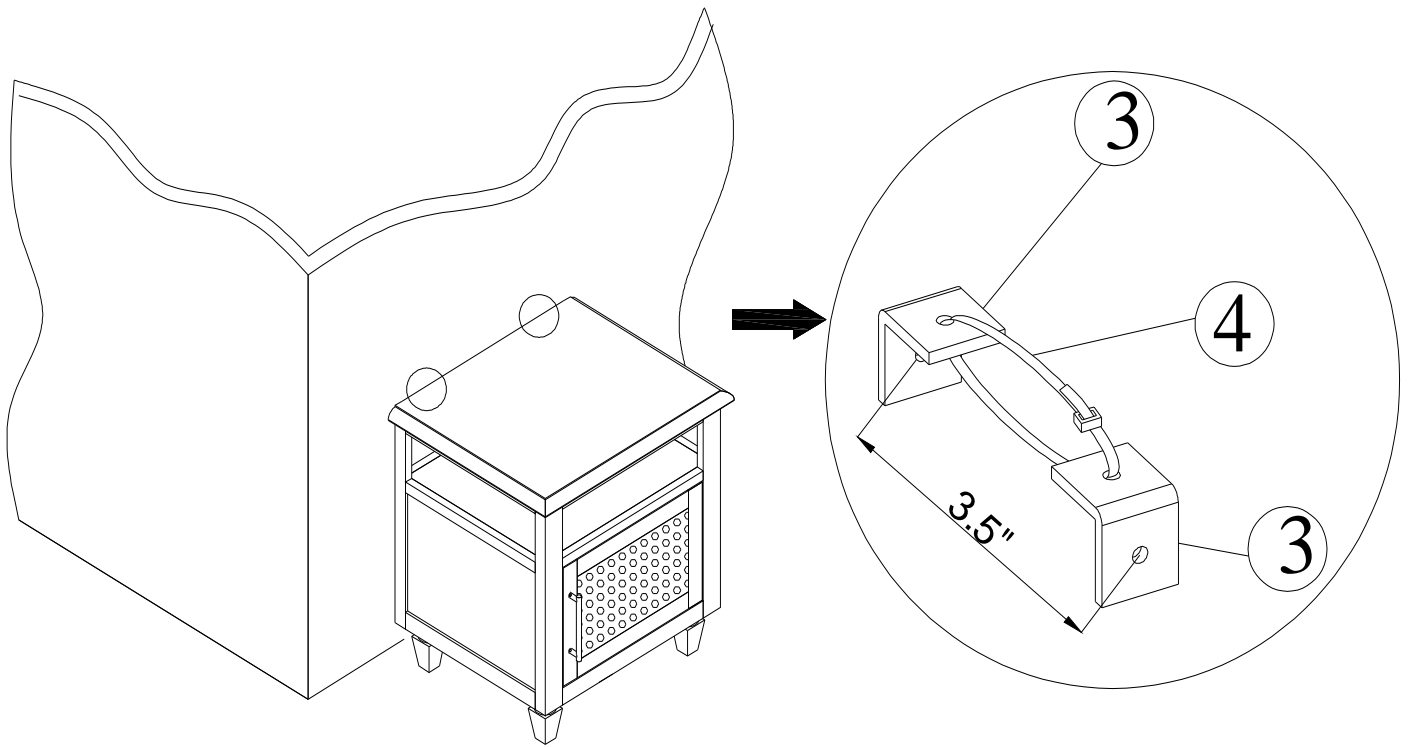

C: Affix the L-shaped Metal Bracket (③) to the wall.

(Caution: The space between the Nightstand Restraint Strap (④) and the Metal Brackets (③) on the Nightstand and the wall should be a maximum of 3.5".)

Then affix one L-shaped Metal Bracket (③) to the hole in the wall using the 4cm Self Tapping Screws (②) and Screwdriver (⑧) (not provided).

Repeat this step to affix the other Metal Bracket (③) to the wall as shown above.

D: Move the Nightstand against the wall. Then pull the Nightstand Restraint Strap (④) through the two Metal Brackets (③), one by one, and lock the Nightstand Restraint Strap (④) tight, as shown above.

The Nightstand Restraint Device is now installed and is ready for use.

Care & Maintenance

- ☐  ☒ Do not put hot items directly on furniture surface.
- ☐  ☒ Do not clean furniture with harsh cleansers or polish.
- ☐  ☒ Do not place furniture under direct sunlight.
- ☐  ☒ Do not place furniture near heating or cooling vents.
- ☐  ☒ Do not write on furniture without a padded barrier to protect the surface.
- ☐  ☒ Do not place furniture outside. For indoor use only.
- ☐  ☒ Not for commercial use. For residential use only.
- ☐  ☒ Stains may be removed with mild soap solution and damp cloth.
- ☐  ☒ Children should not climb or jump on the furniture.

- ☒  ☒ Dust and pick-up spills using a clean, non-colored, lint-free cloth
