Attach Stretcher (C) to the Leg (B) by using Screw (5) .

Step 3

Attach Stretcher (C) to the Leg (B) by using Screw(5) .

Step 4

Attach Leg (B) to the Seat Frame (A) by using Bolt(1), Spring Washer(2), Flat Washer(3) Allen Key(4) .
Attach Stretcher (C) to the Leg (B) by using Screw(5) .

Completed

Turn the Stool 2 right side up.

Place the Stool 2 on a **LEVEL SURFACE**.

Inspect it and make sure all parts are adequately connected.

Gently and gracefully, sit into the Stool 2.

This would help to align all the parts at all the joint areas.

Then get off the Stool 2, and in a sequential manner, proceed to tighten all screws.

To tighten the Screws at the base of the Backrest, do secure assistance from your adult partner(s).

You may be required to turn the Stool 2, to gain easy access to the secure points.

Turn the Stool 2 in a synchronised manner.

CAUTION 1: When tightening these screws, tighten sequentially.

DO NOT tighten any screw fully and then towards the next one.

This would cause the frame to warp.

If there is still wobbles, loosen the screws and execute this same process.

WARNING!! IF STOOL 2 IS NOT STABLE , IT COULD LEAD TO DAMAGING THE PRODUCT.

Ensure all screws are fully locked into position.

The Stool 2 is ready to be used.

Caution 2: This Stool 2 can only be used on a flat, level surface.

Questions & Answers about Proposition 65

- What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

- What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

- What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals.

By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

- Where can I get more information on Proposition 65?

If you have specific questions on the administration or implementation of Proposition 65, you can contact OEHHA's Proposition 65 program at P65.Questions@oehha.ca.gov, or by phone at (916) 445-6900.
