### Assembly Preparation

Read instructions, cover to cover-

Have 2 adults on hand for assembly-

Do not assemble on flooring or carpet-

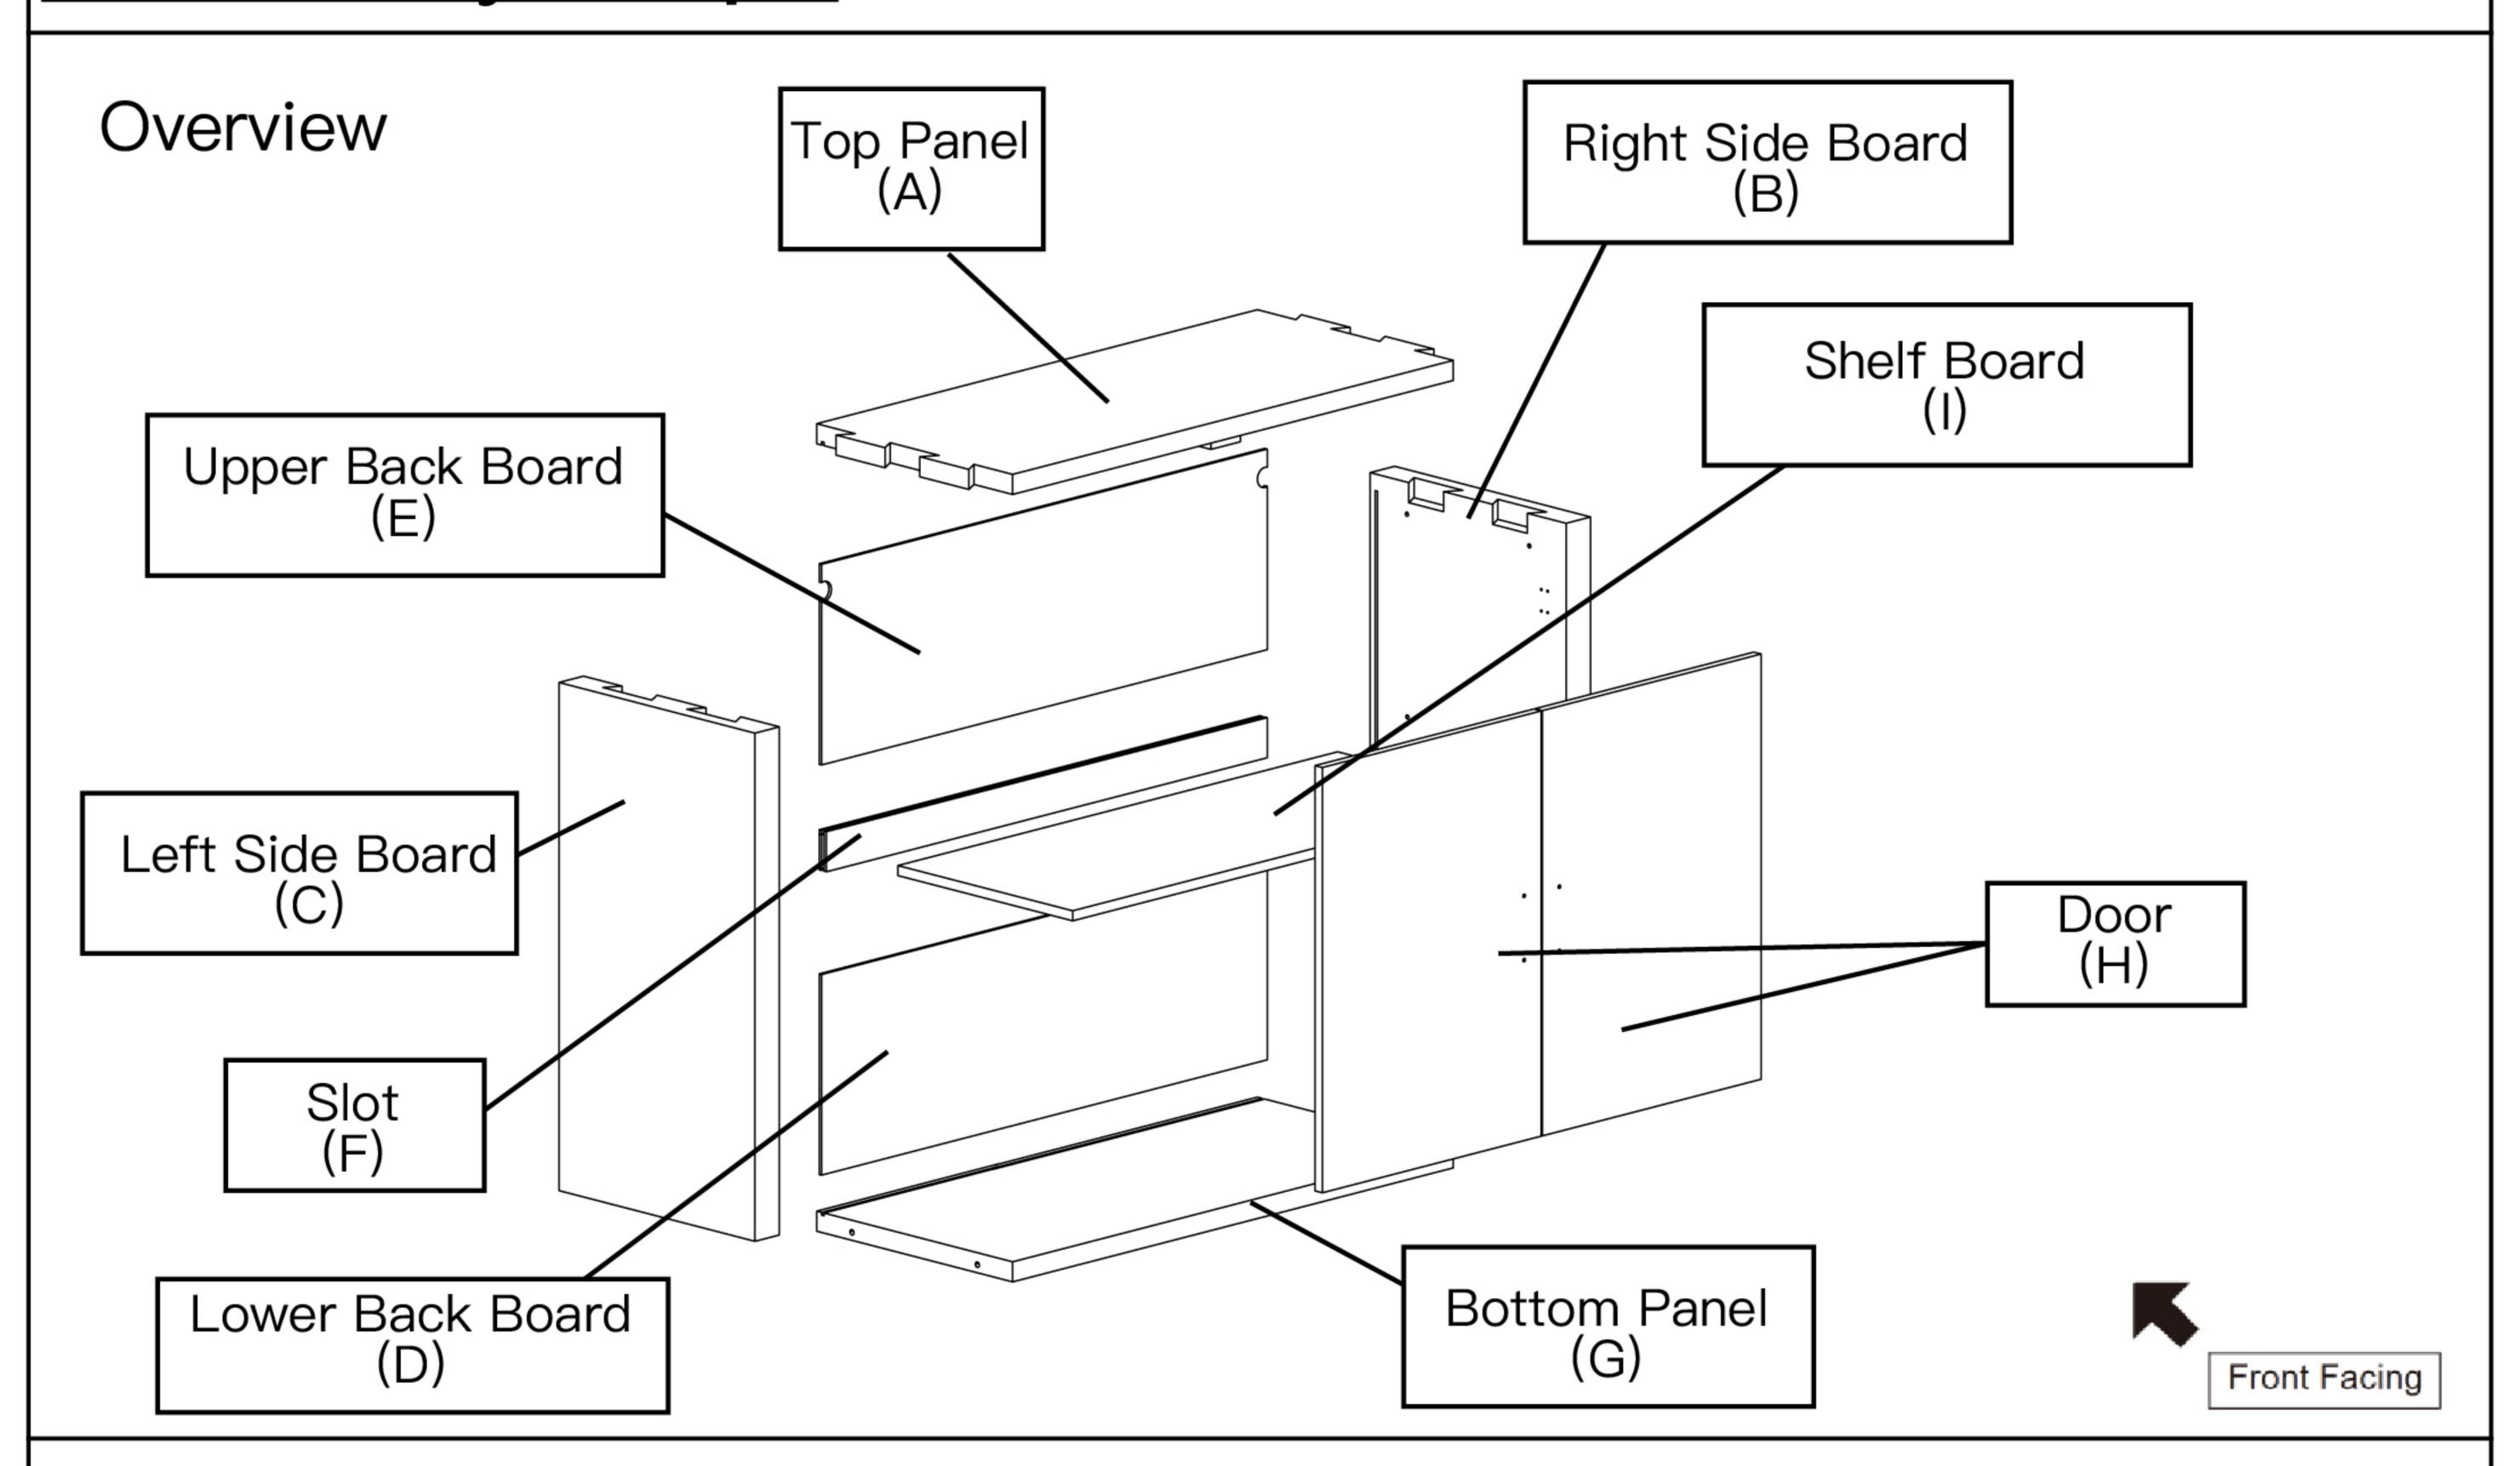

Assemble on a clean non-marring surface (packing foam)-

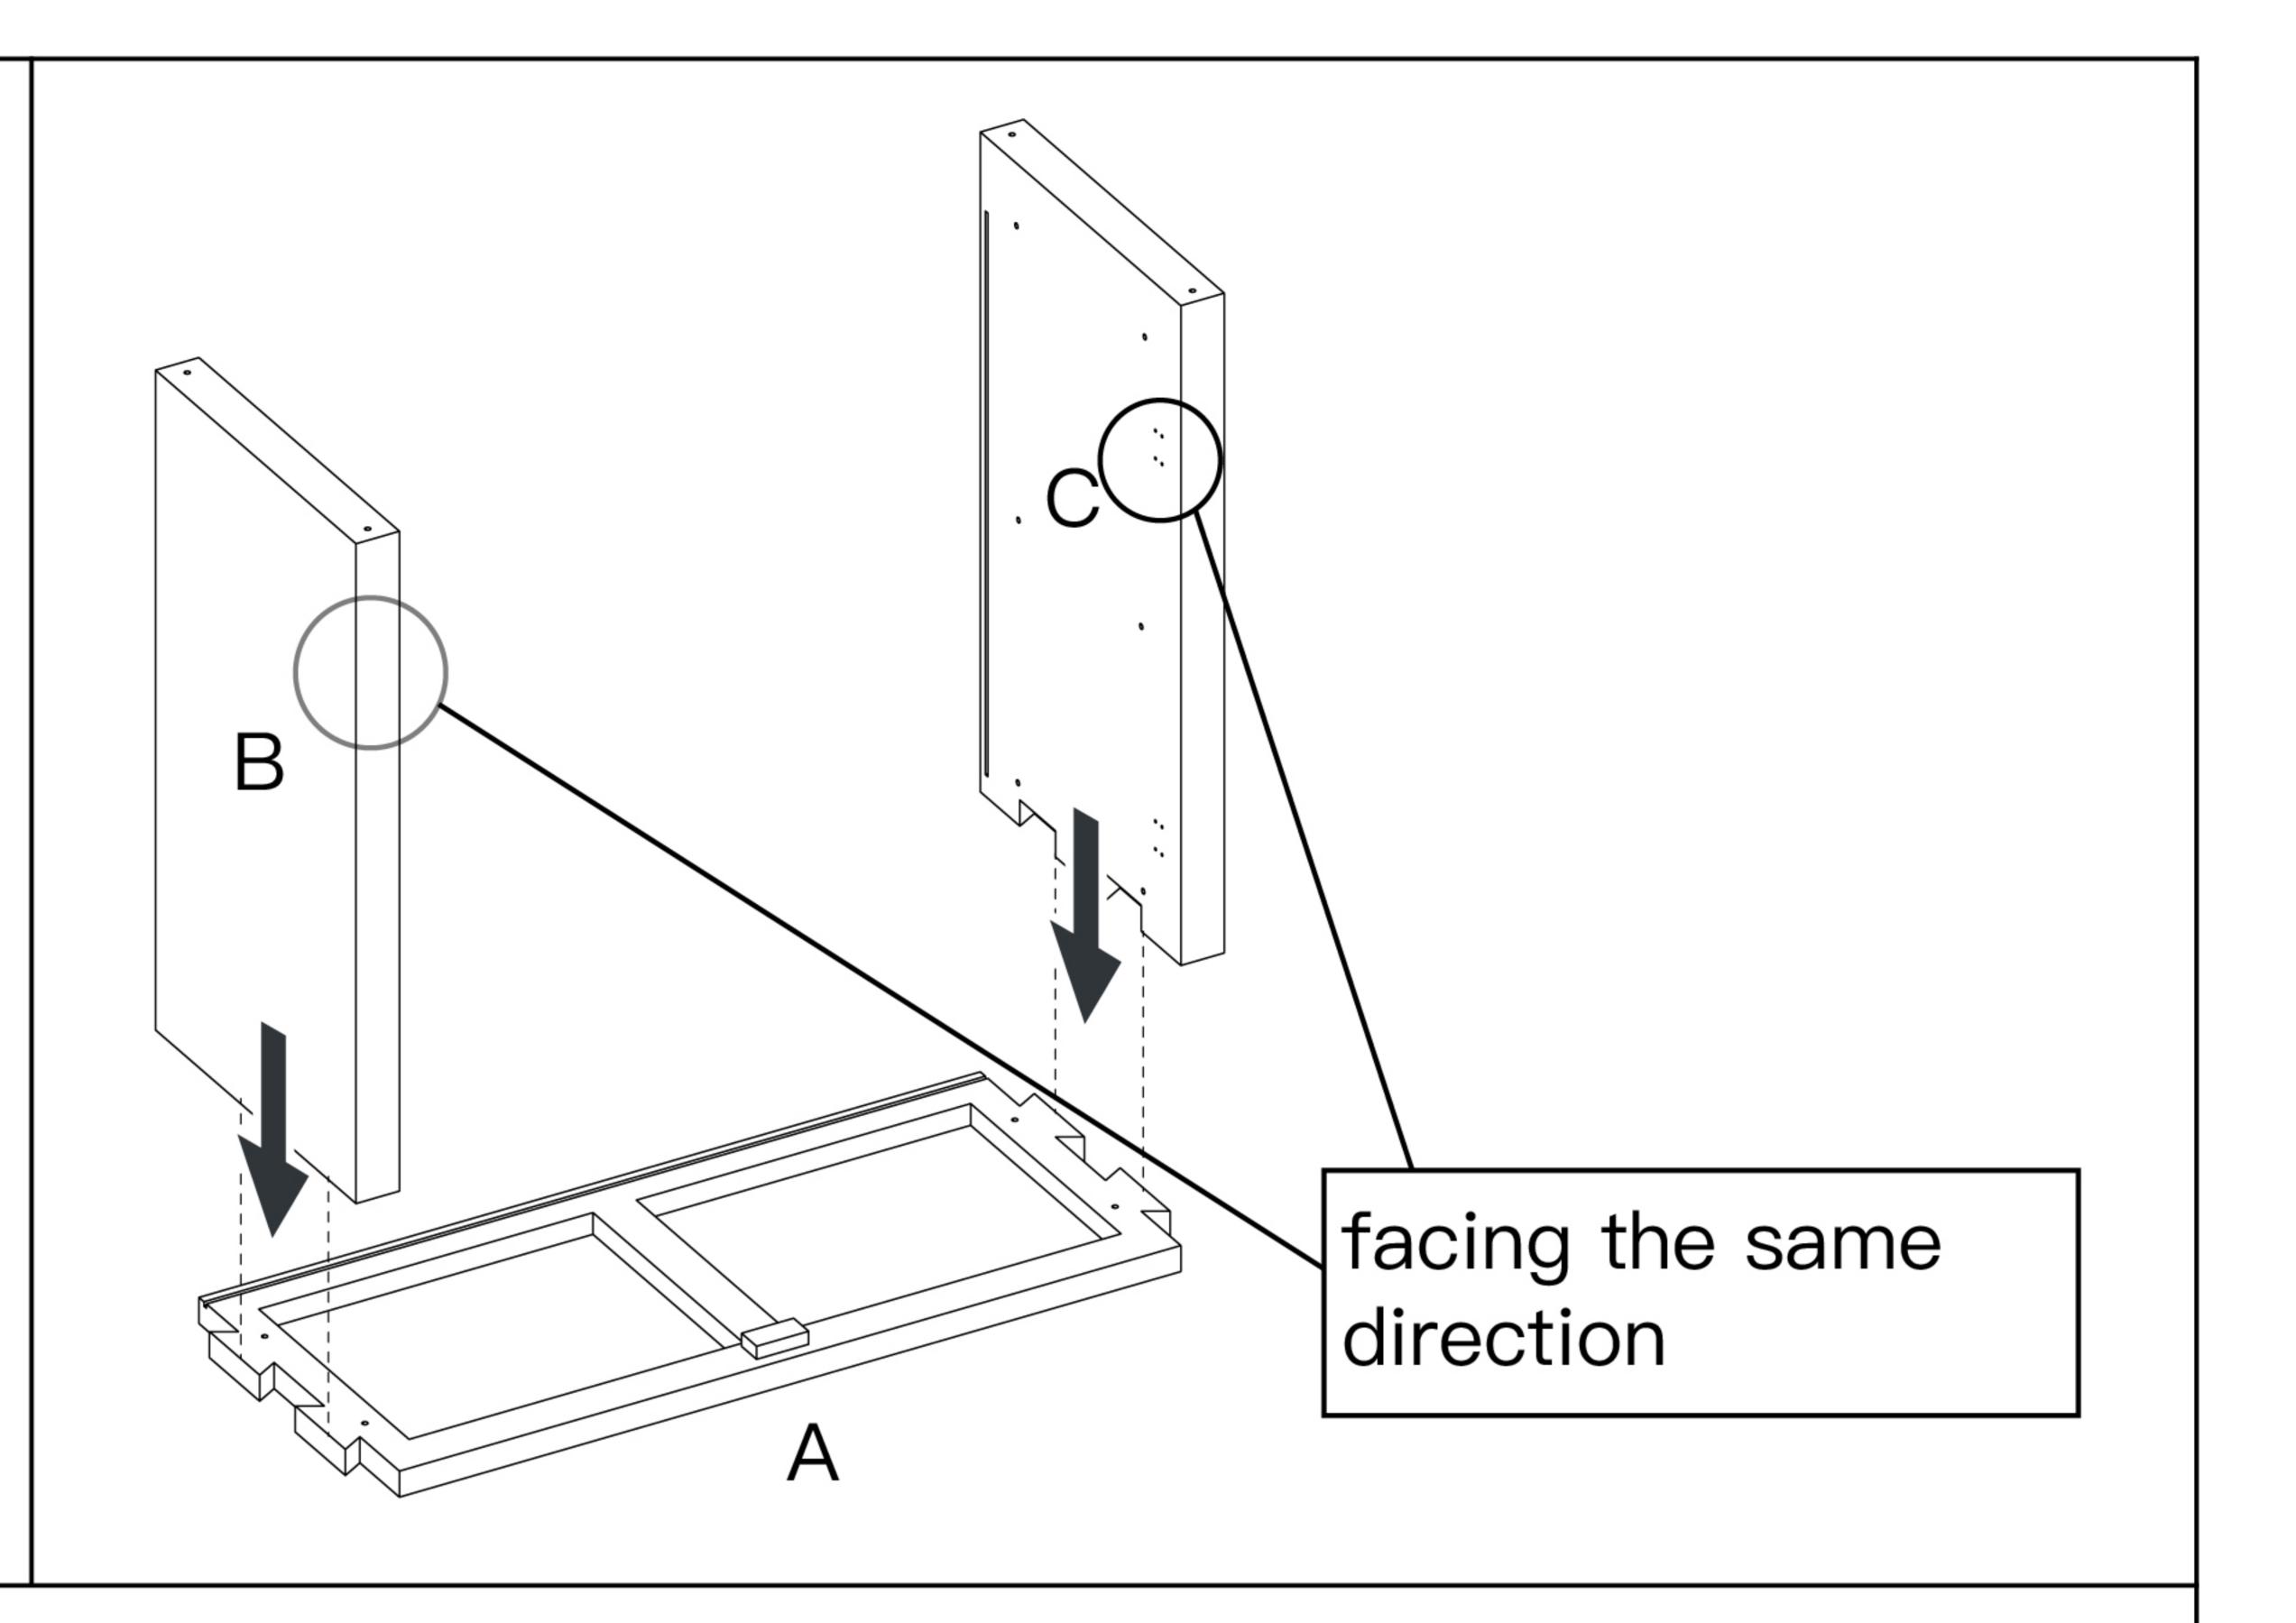

Save all packaging until finished-

### <u>Assembly Steps</u>

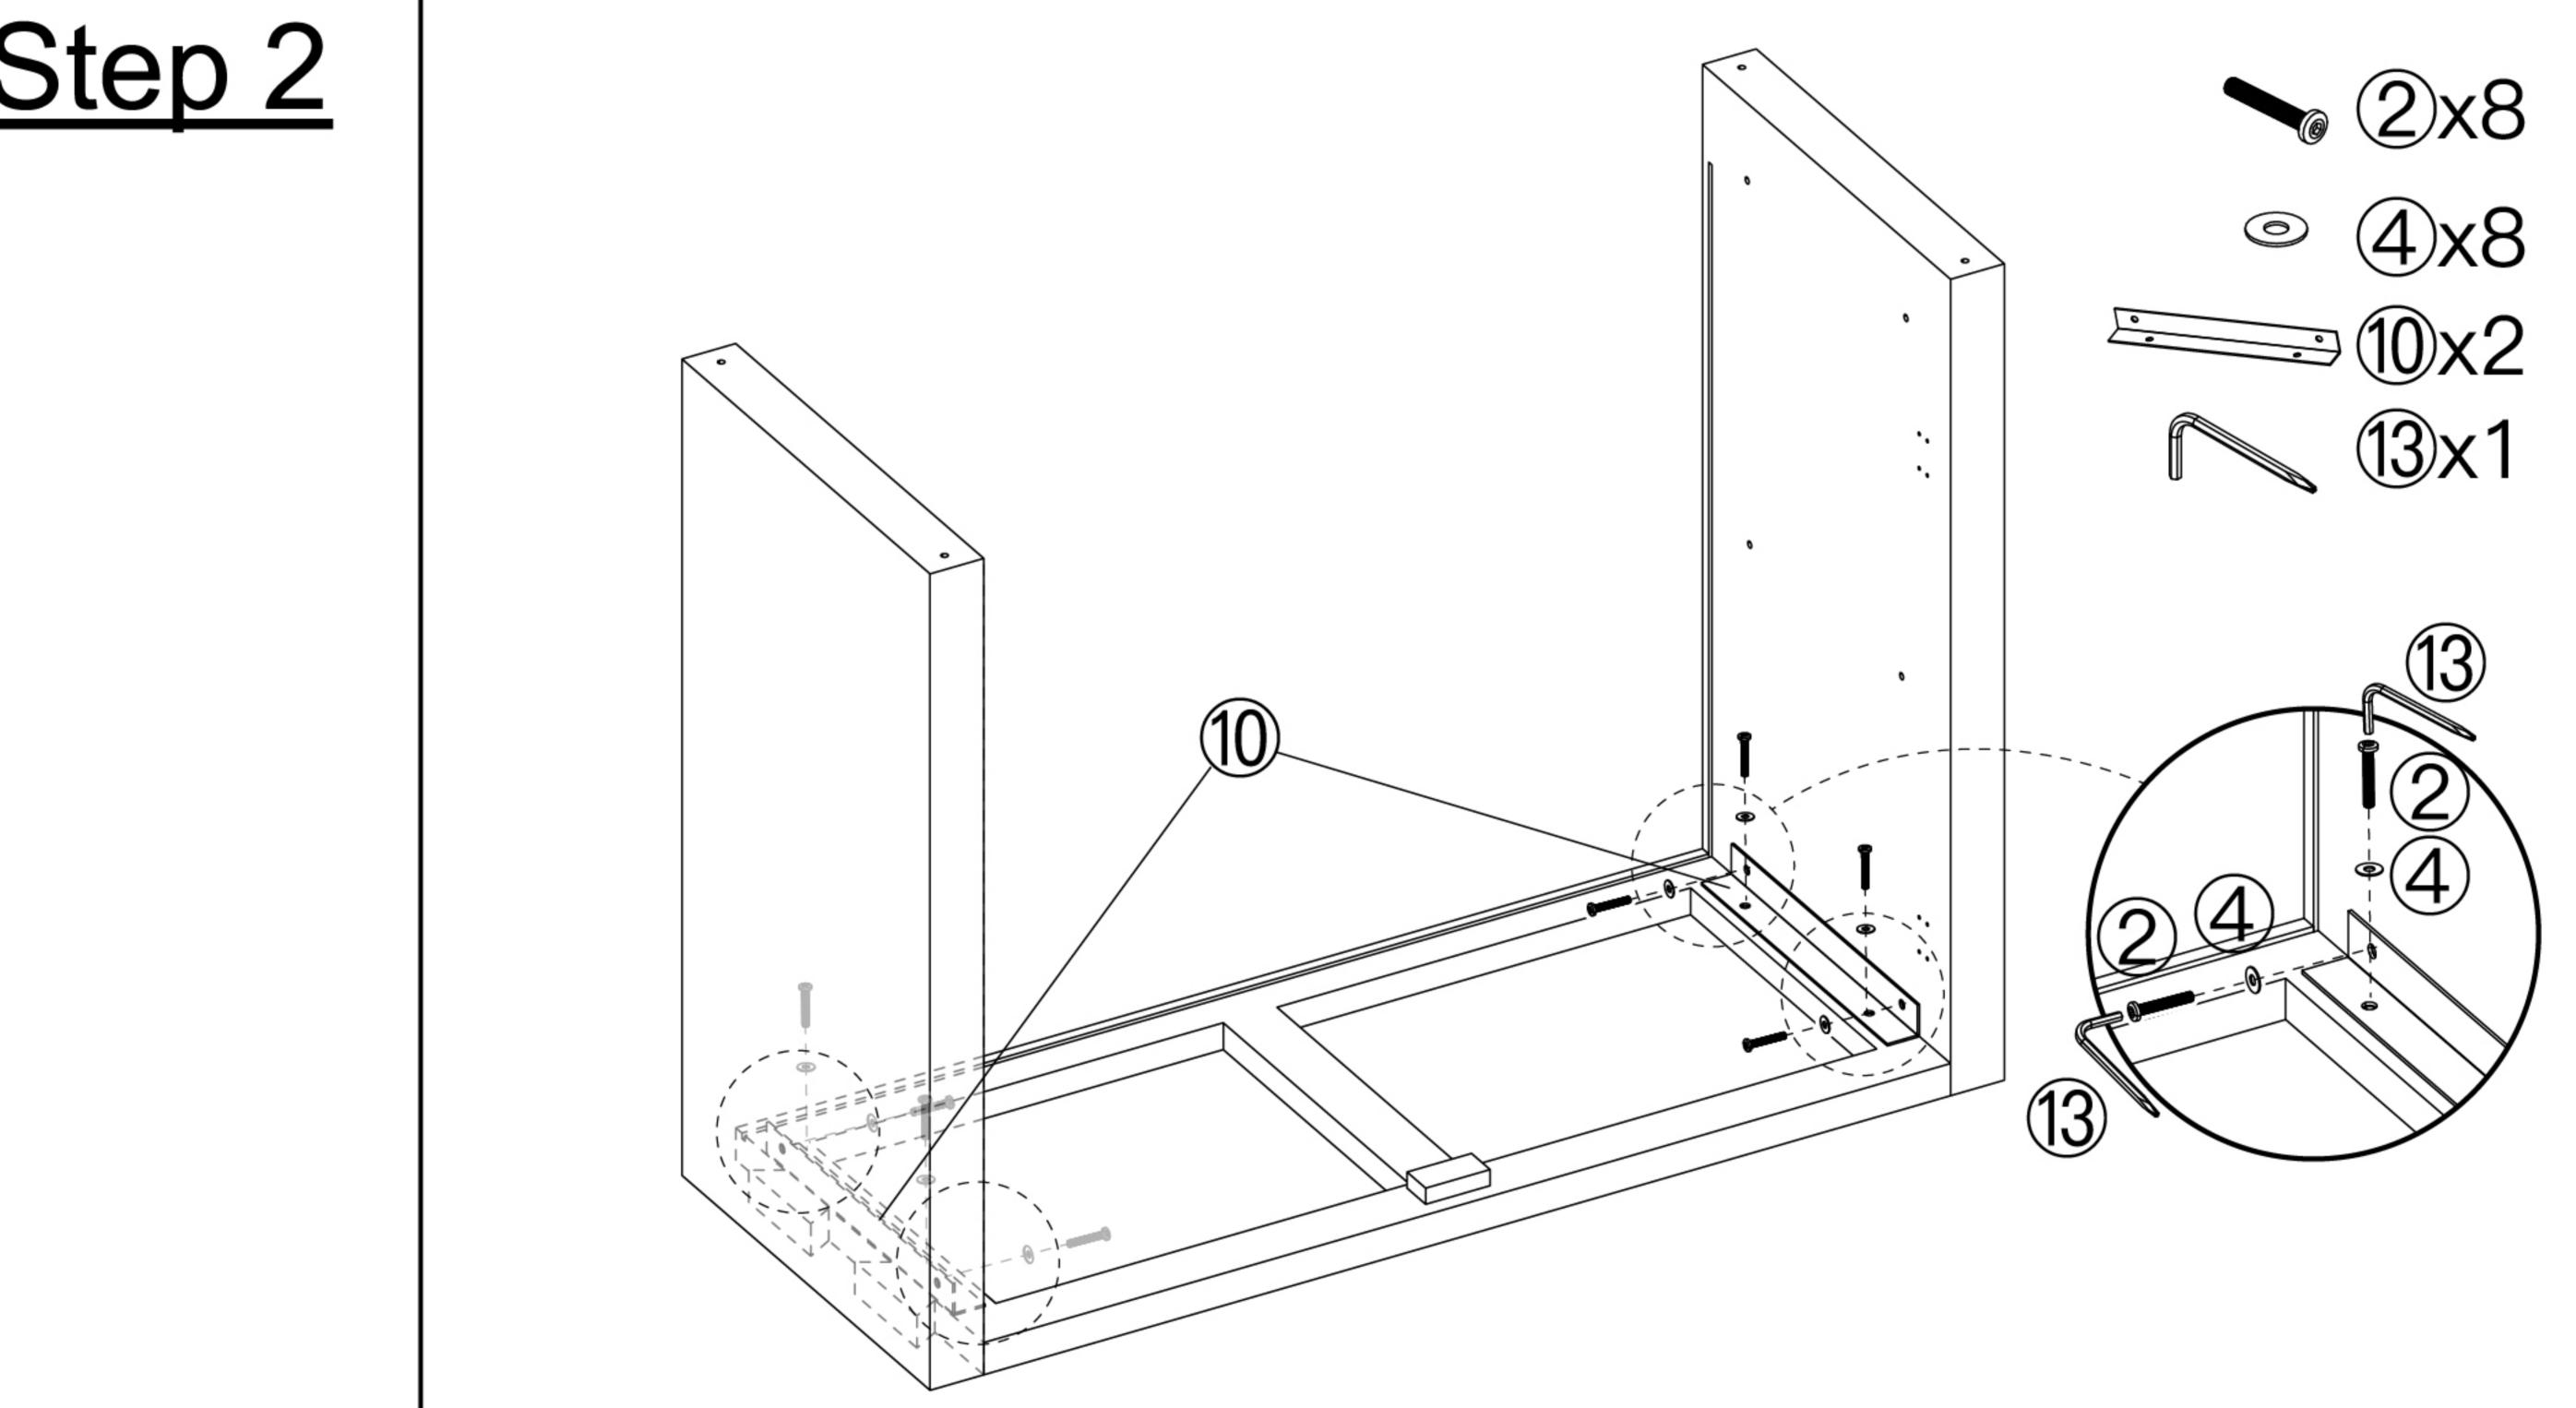

This cabinet has multiple parts and may require up to some 45 minutes to assemble. To give you an overview of the cabinet parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

### Step 1

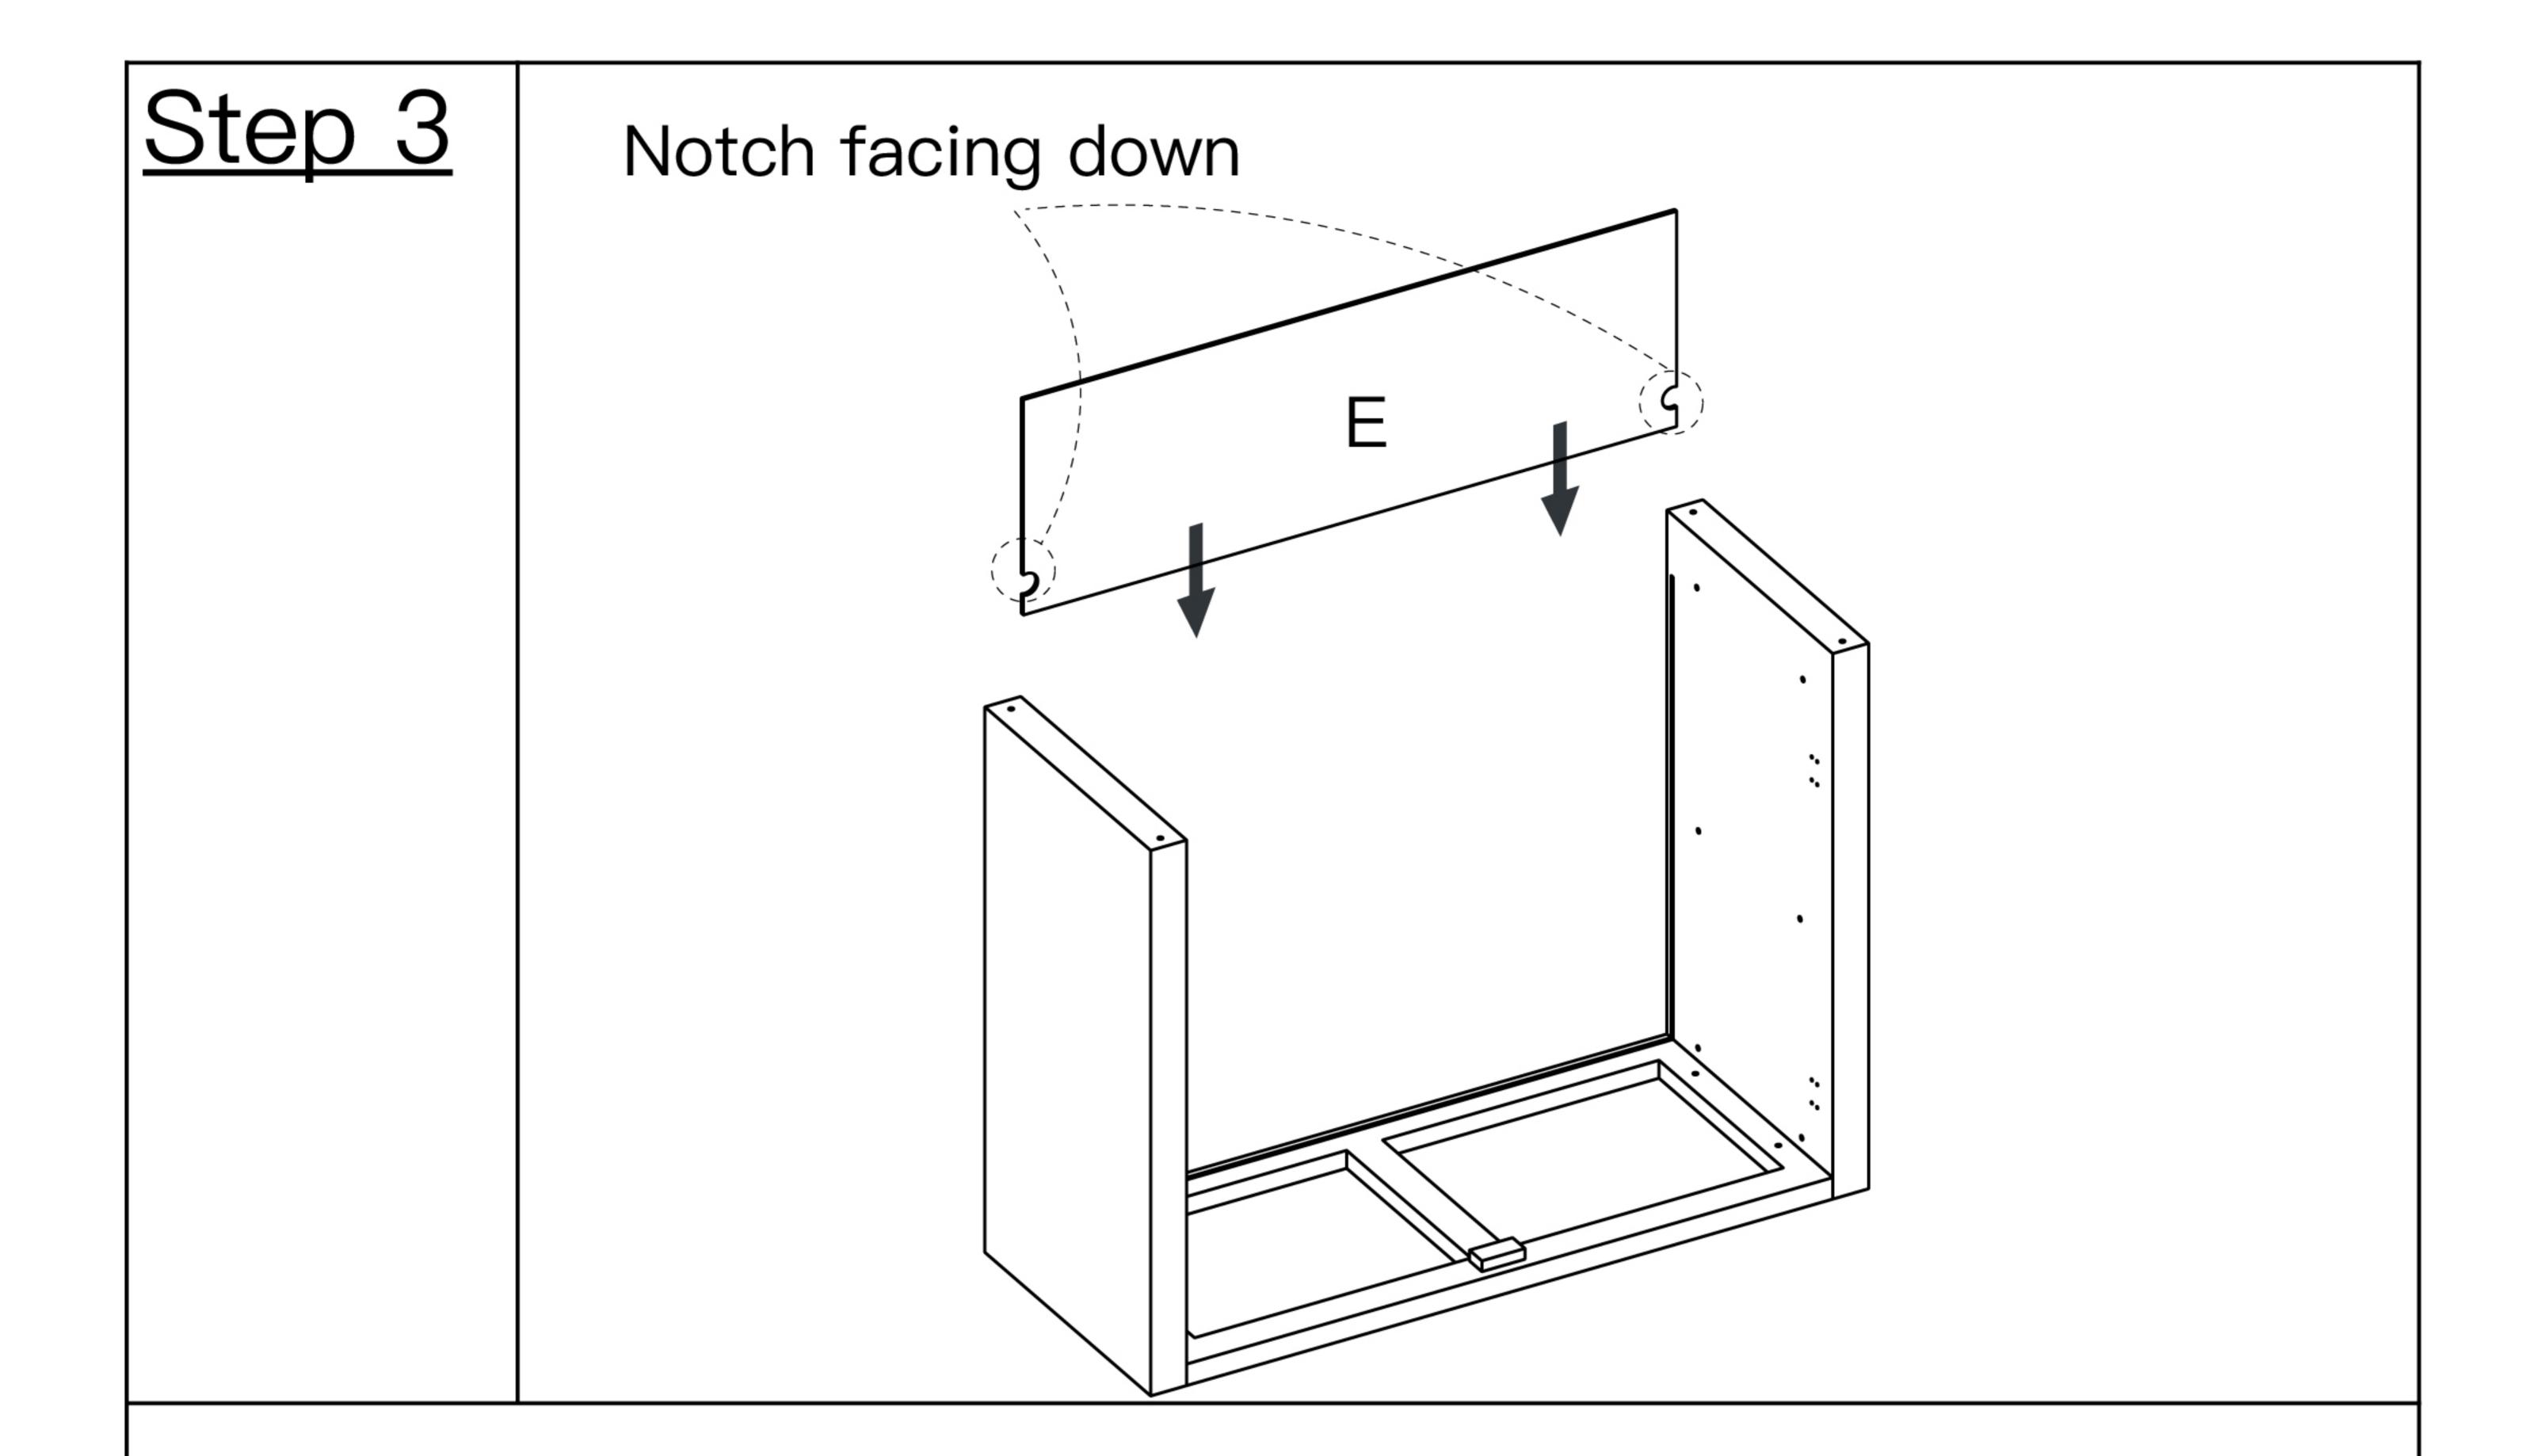

Align right side board (B), left side board(C) to top panel(A). ATTENTION: All the grooves must be stay in the same side (backside)

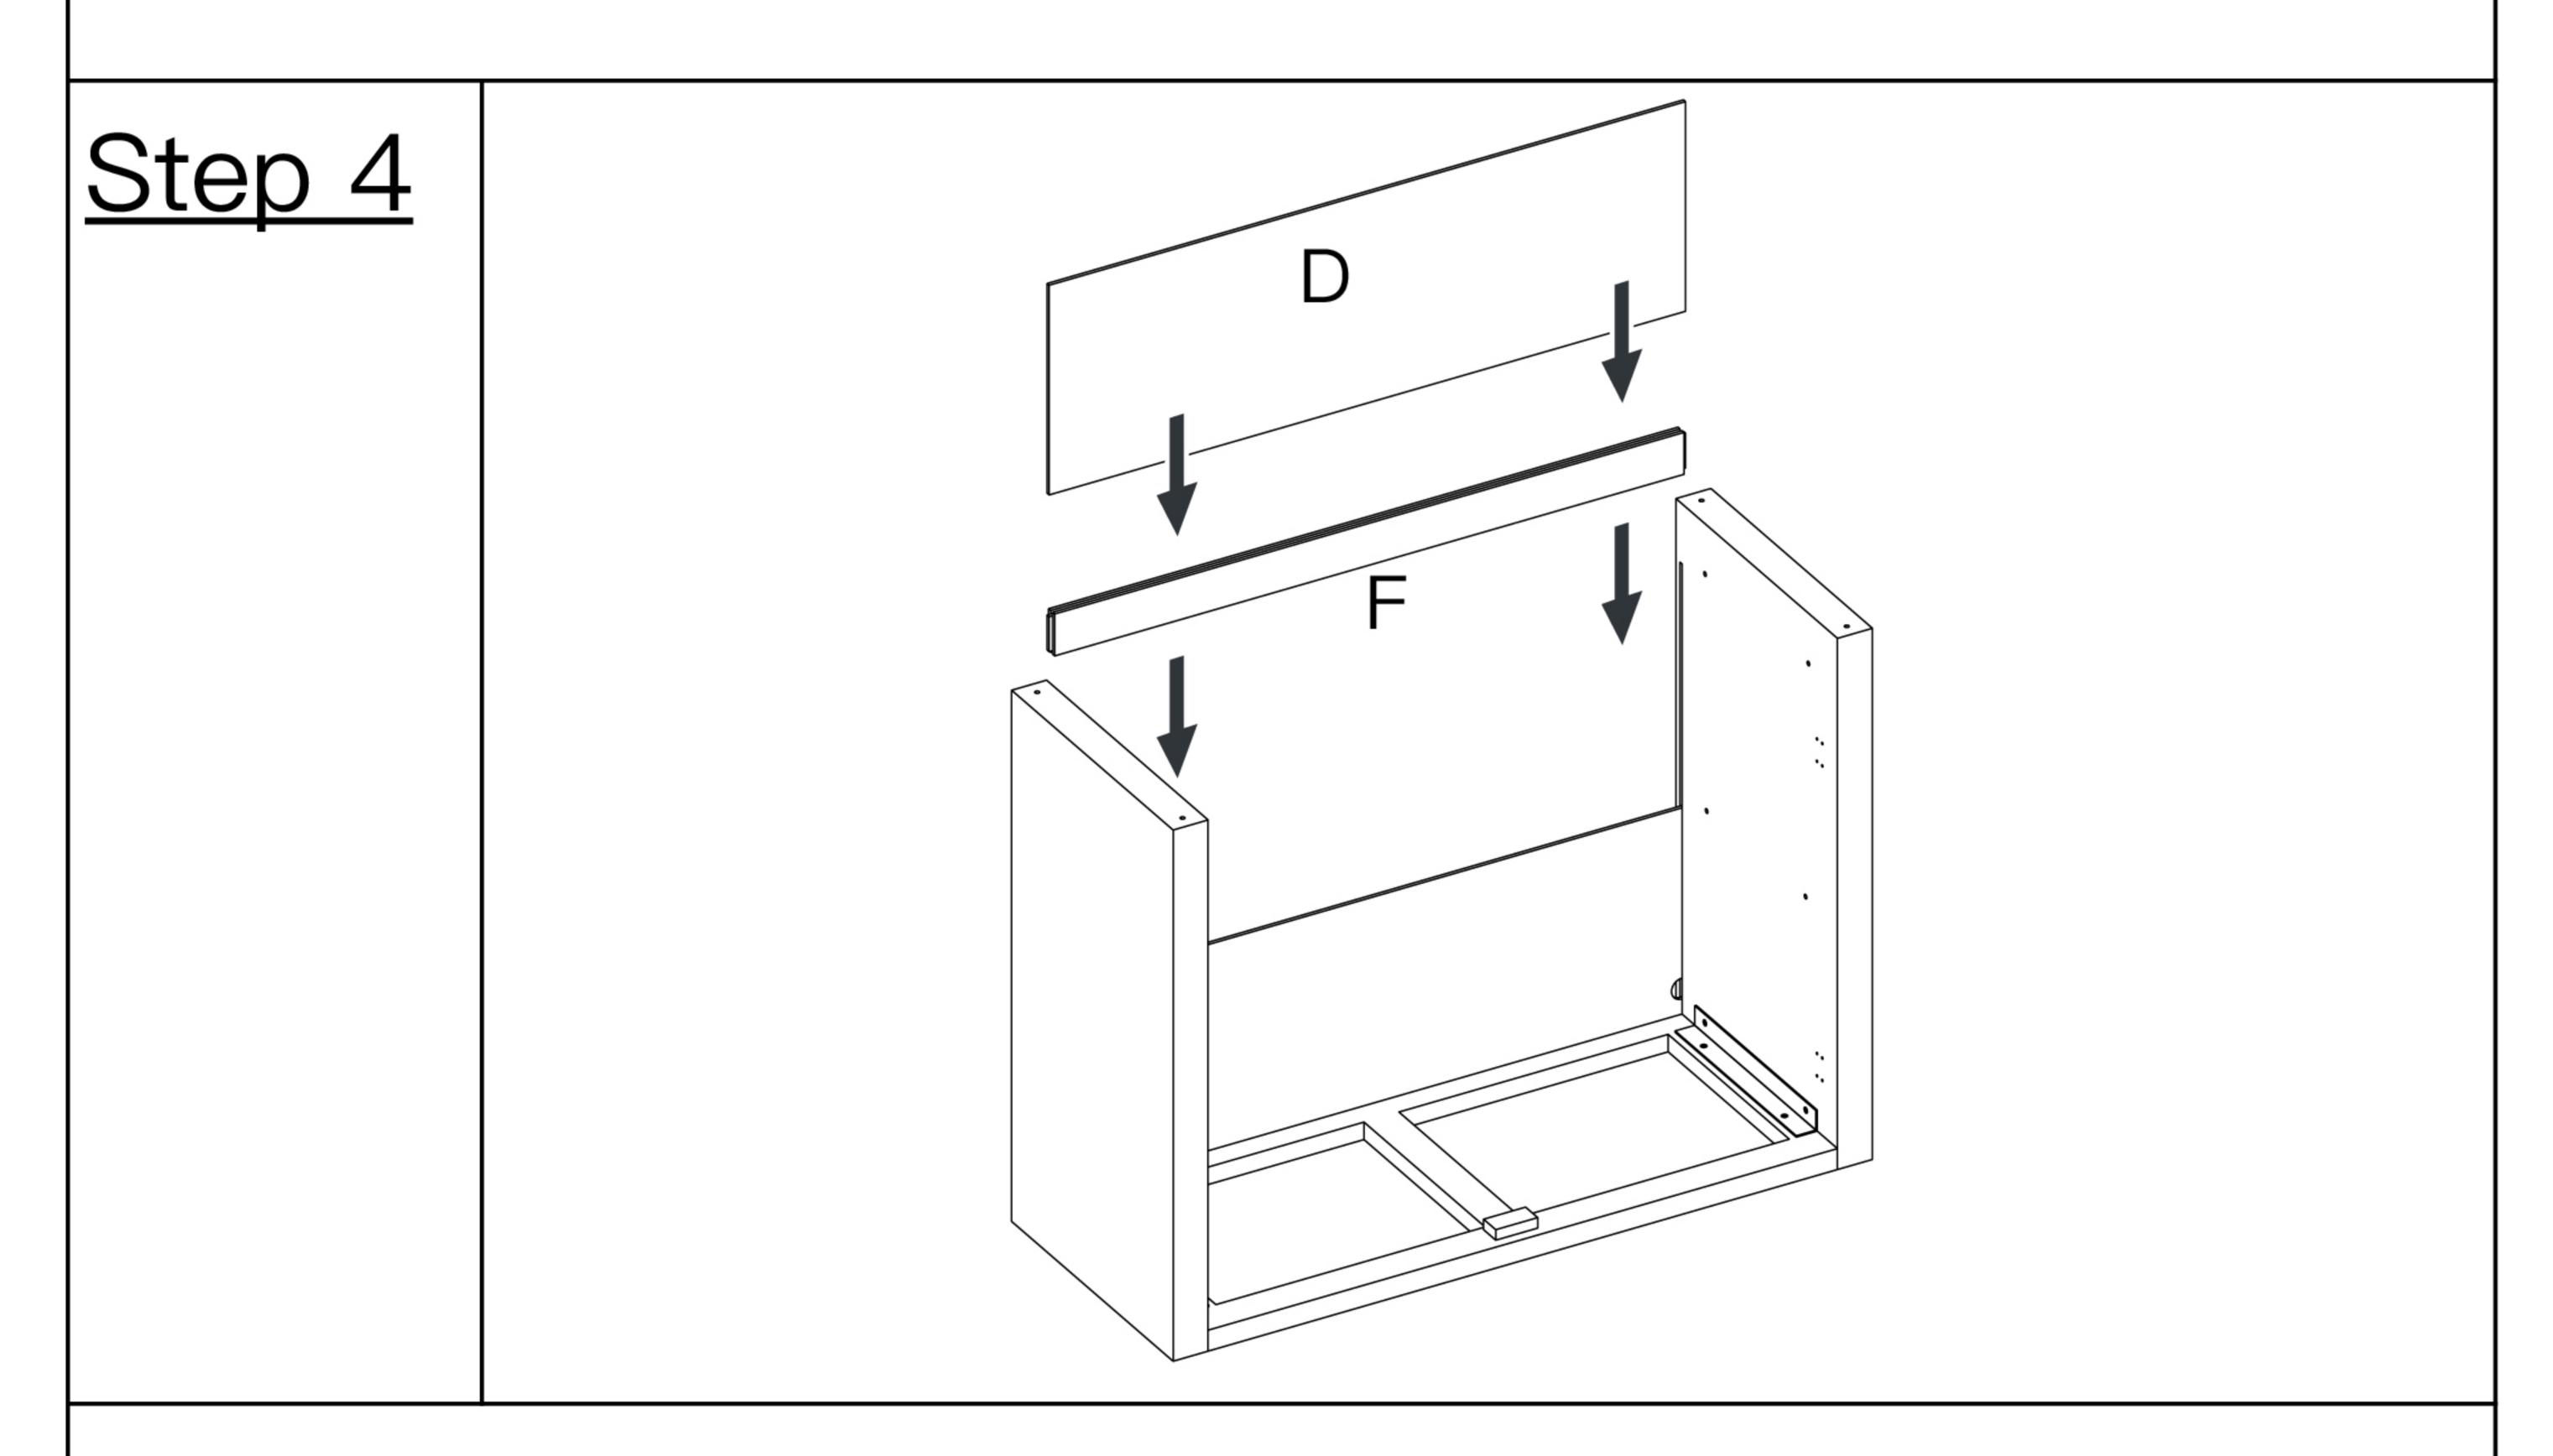

### Olep Z

Attach right side board(B), left side board(C) to top panel(A) with corner bracket(10), bolt(2) and flat washer(4). Attention: Don't tighten up until the step 3 and step 4 done.

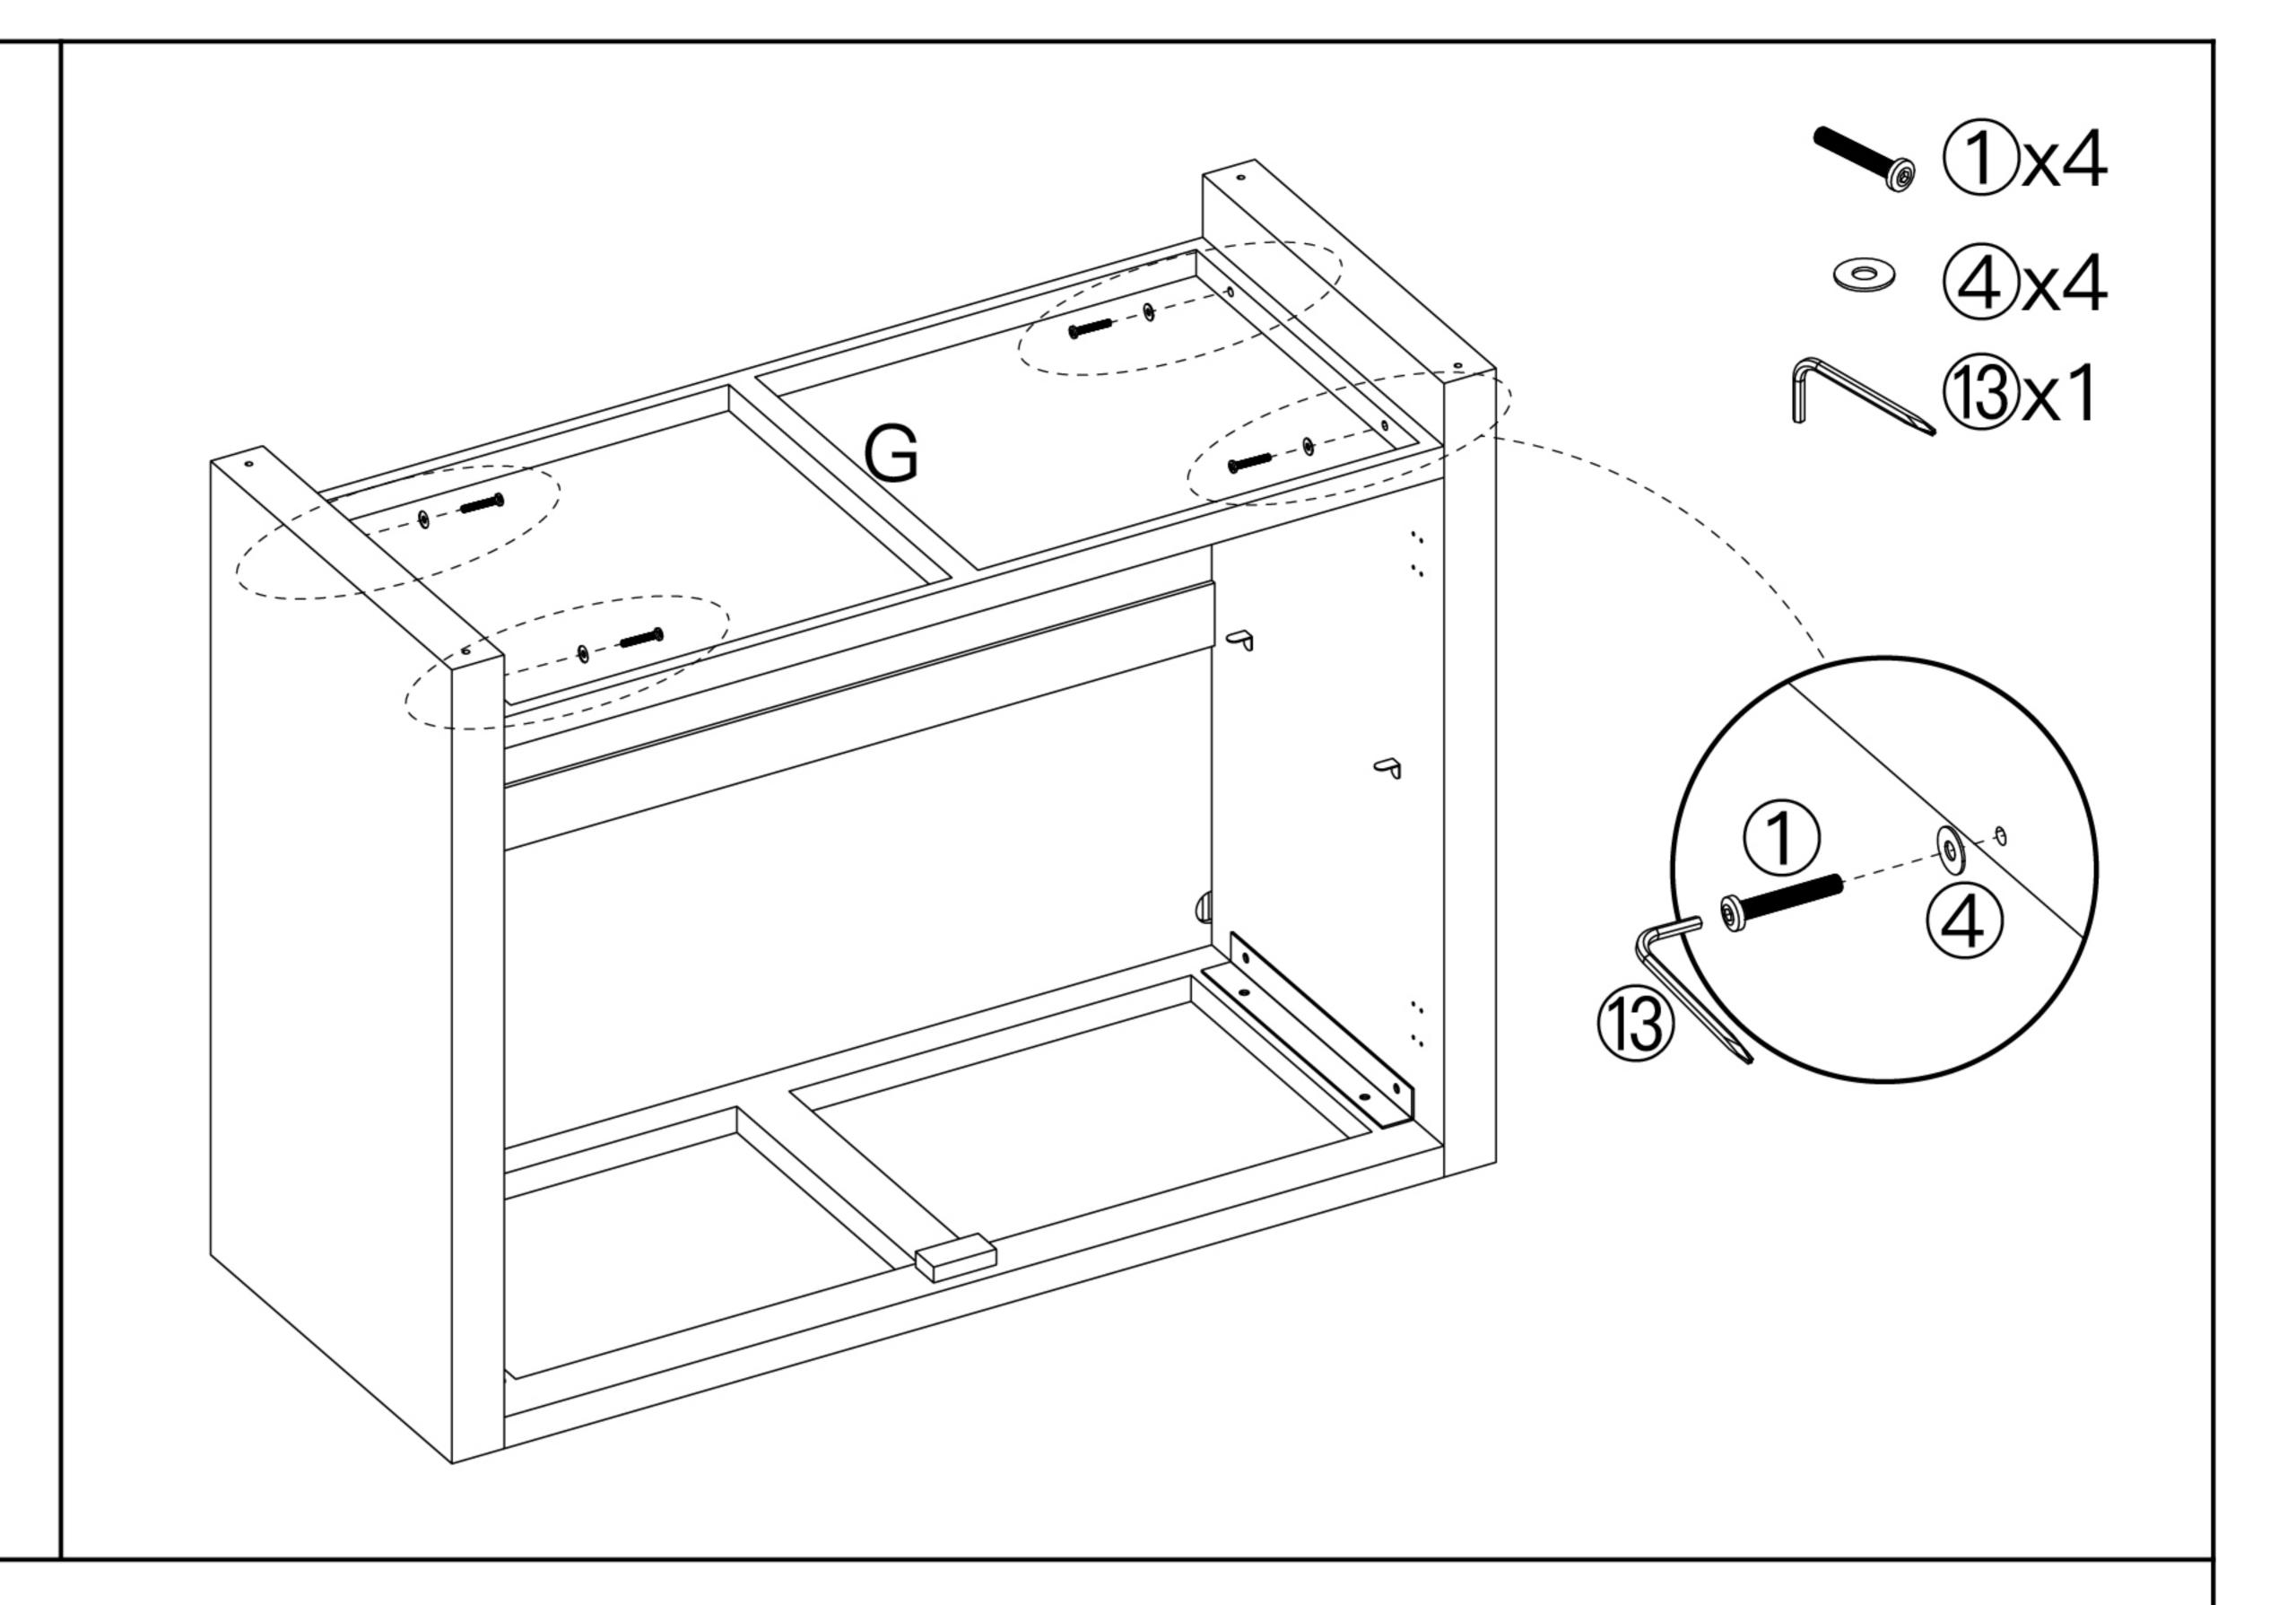

Insert upper back board (E) to the grooves. ATTENTION: Notch facing down.

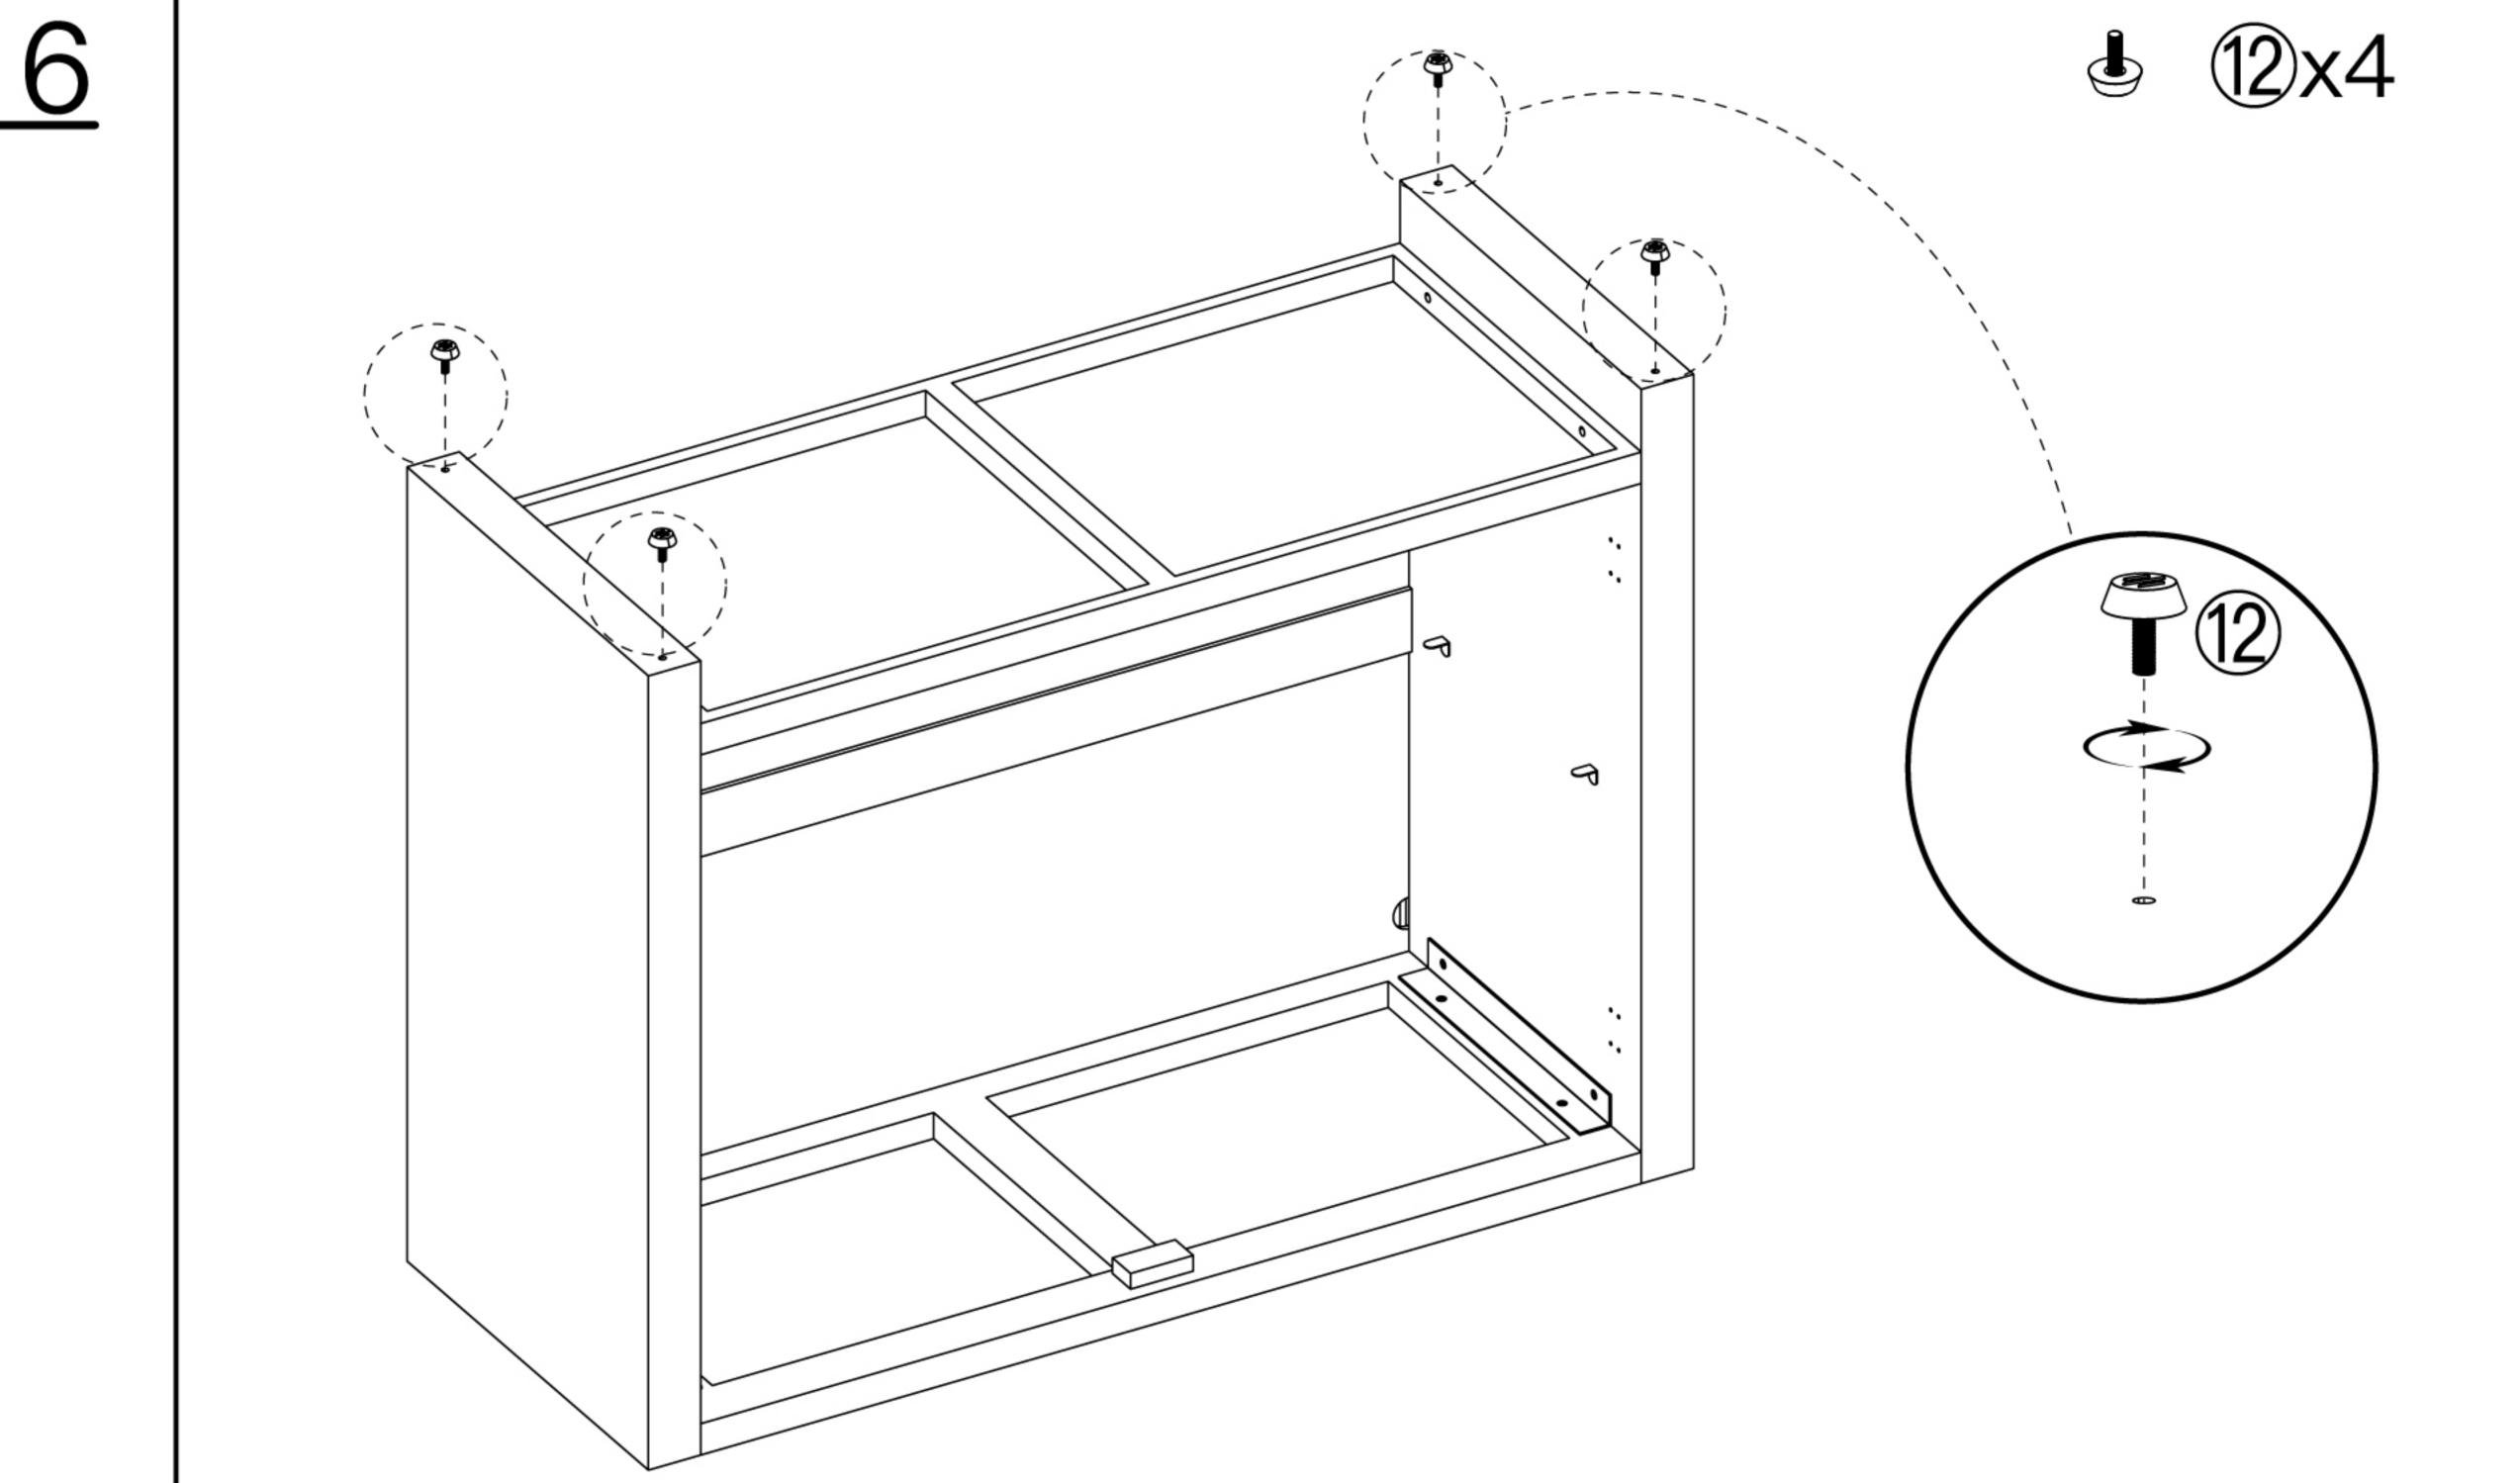

Insert the slot (F) and lower back board (D) to the grooves.

### Step 5

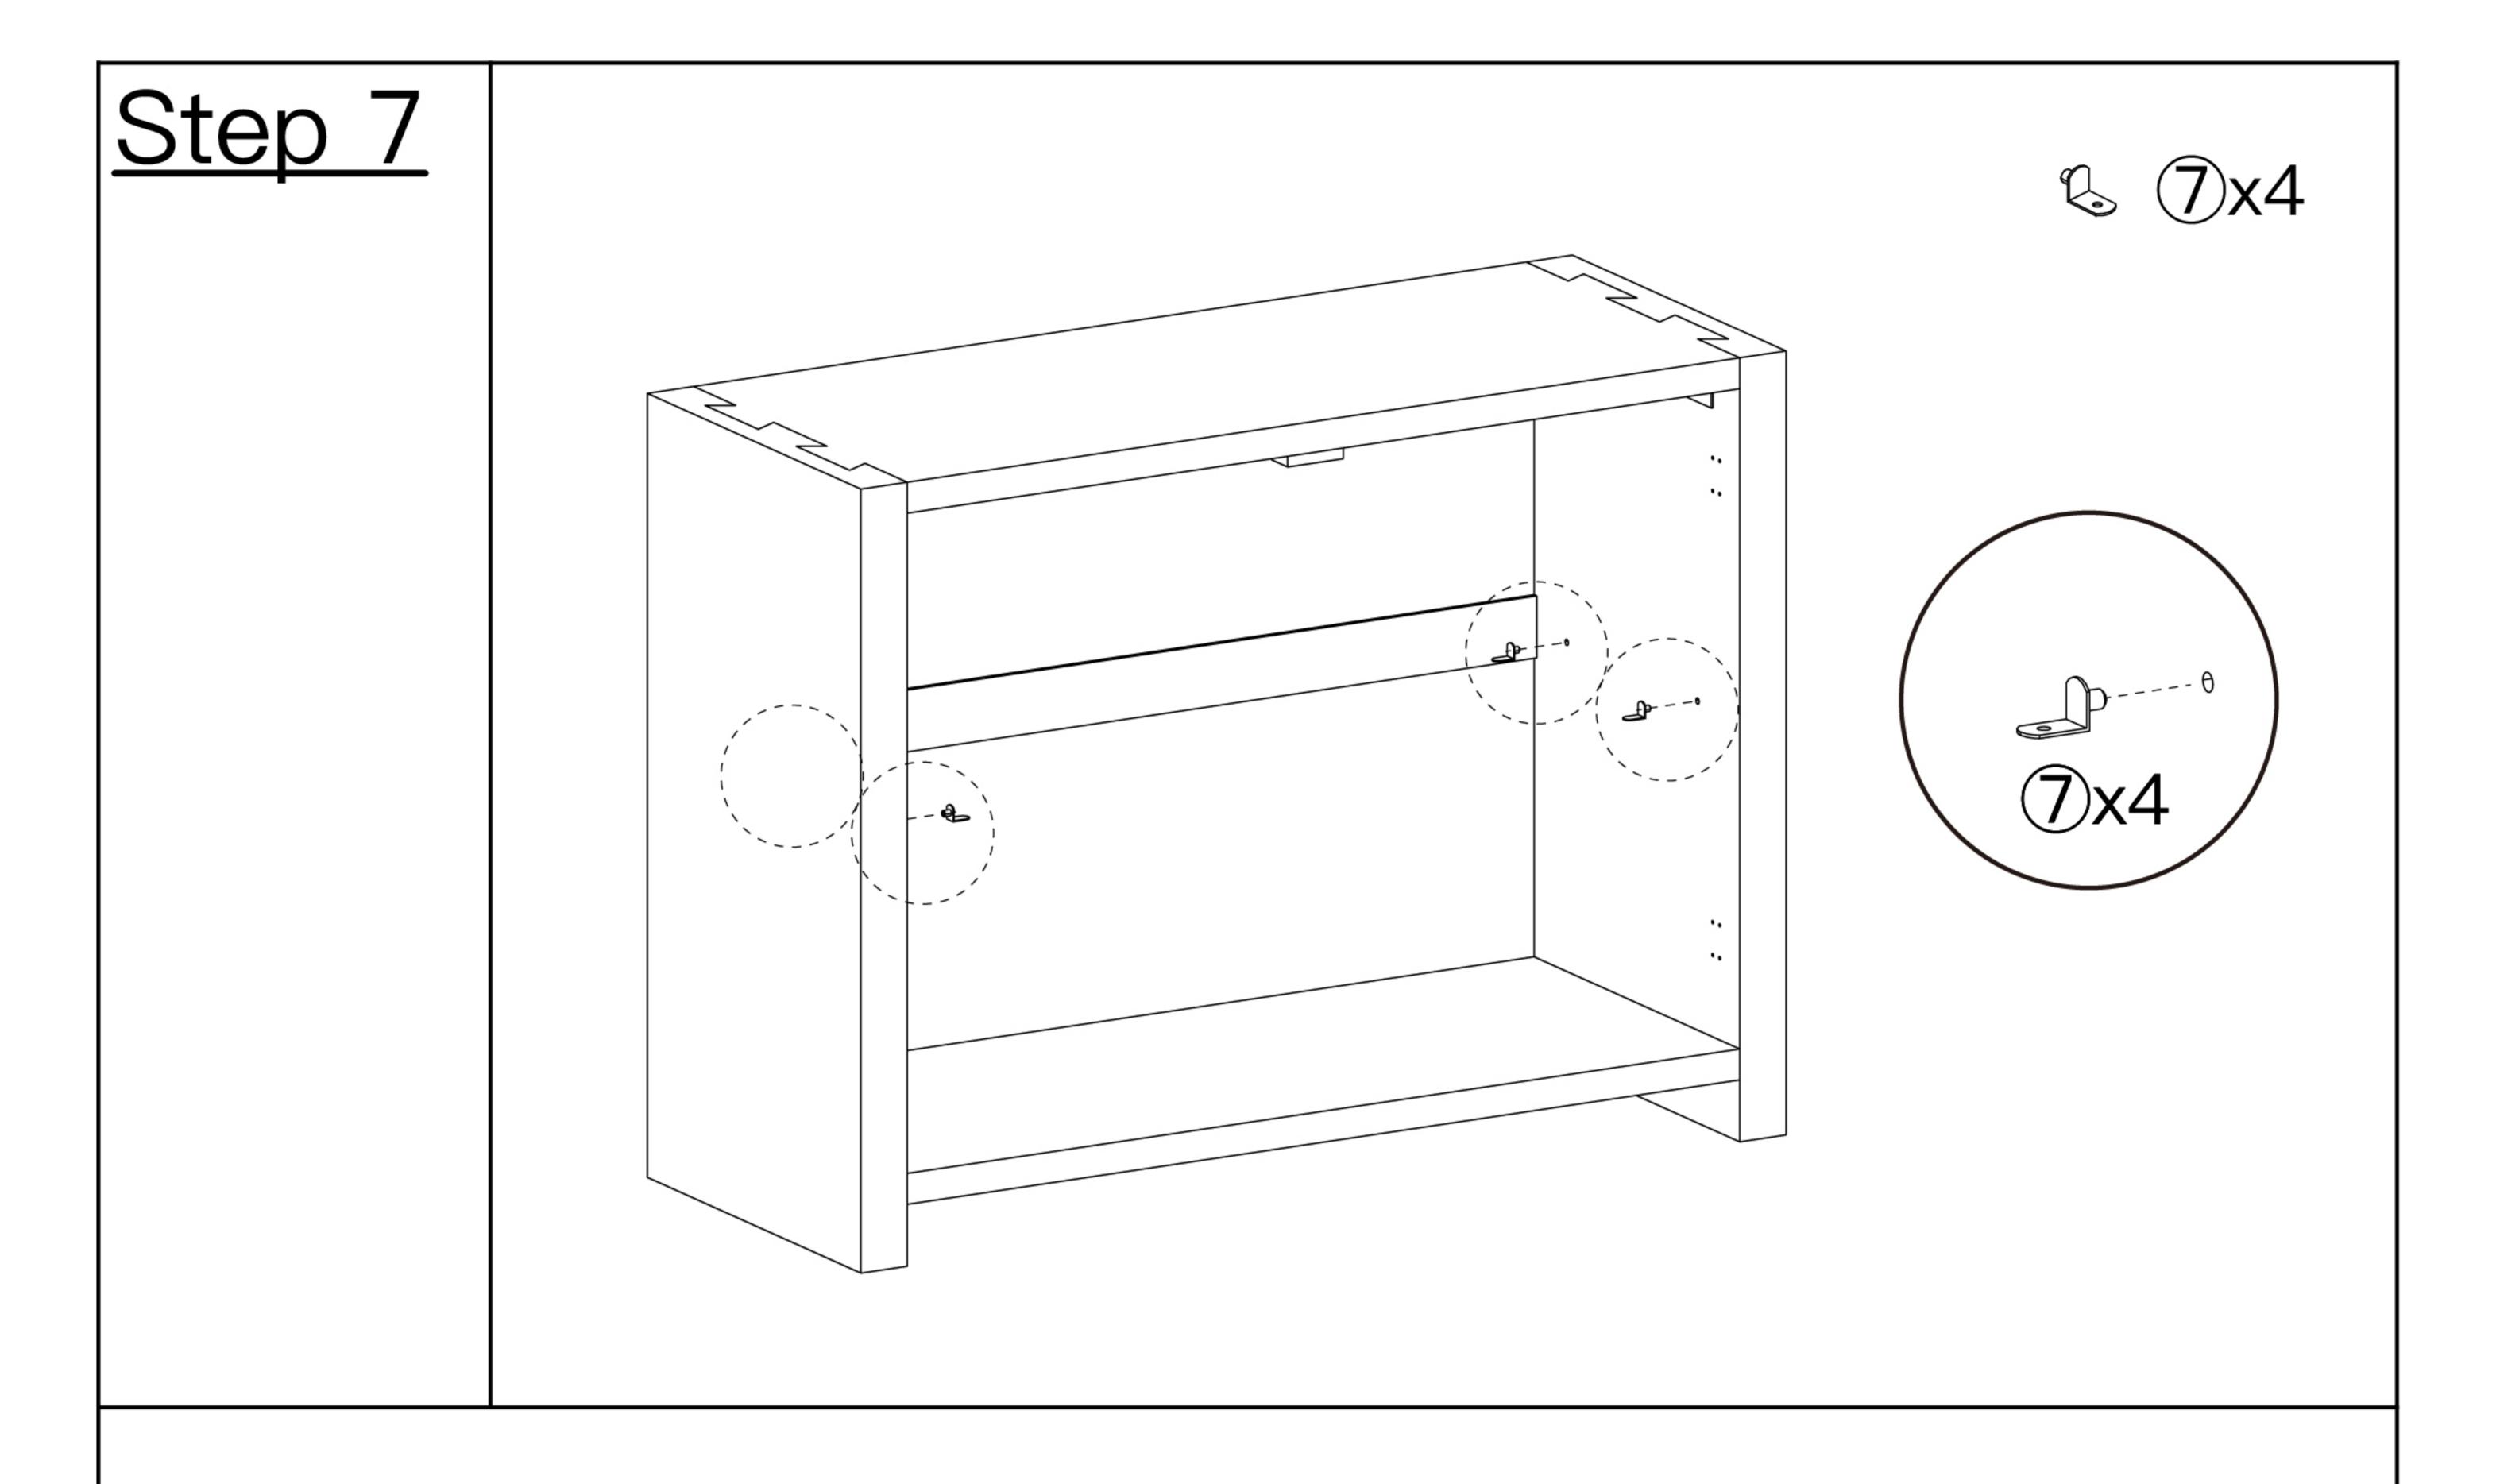

Attach bottom panel(G) to right side board (B), left side board (C)with bolt(1) and flat washer(4). Attention: Need to tighten up the bolt.

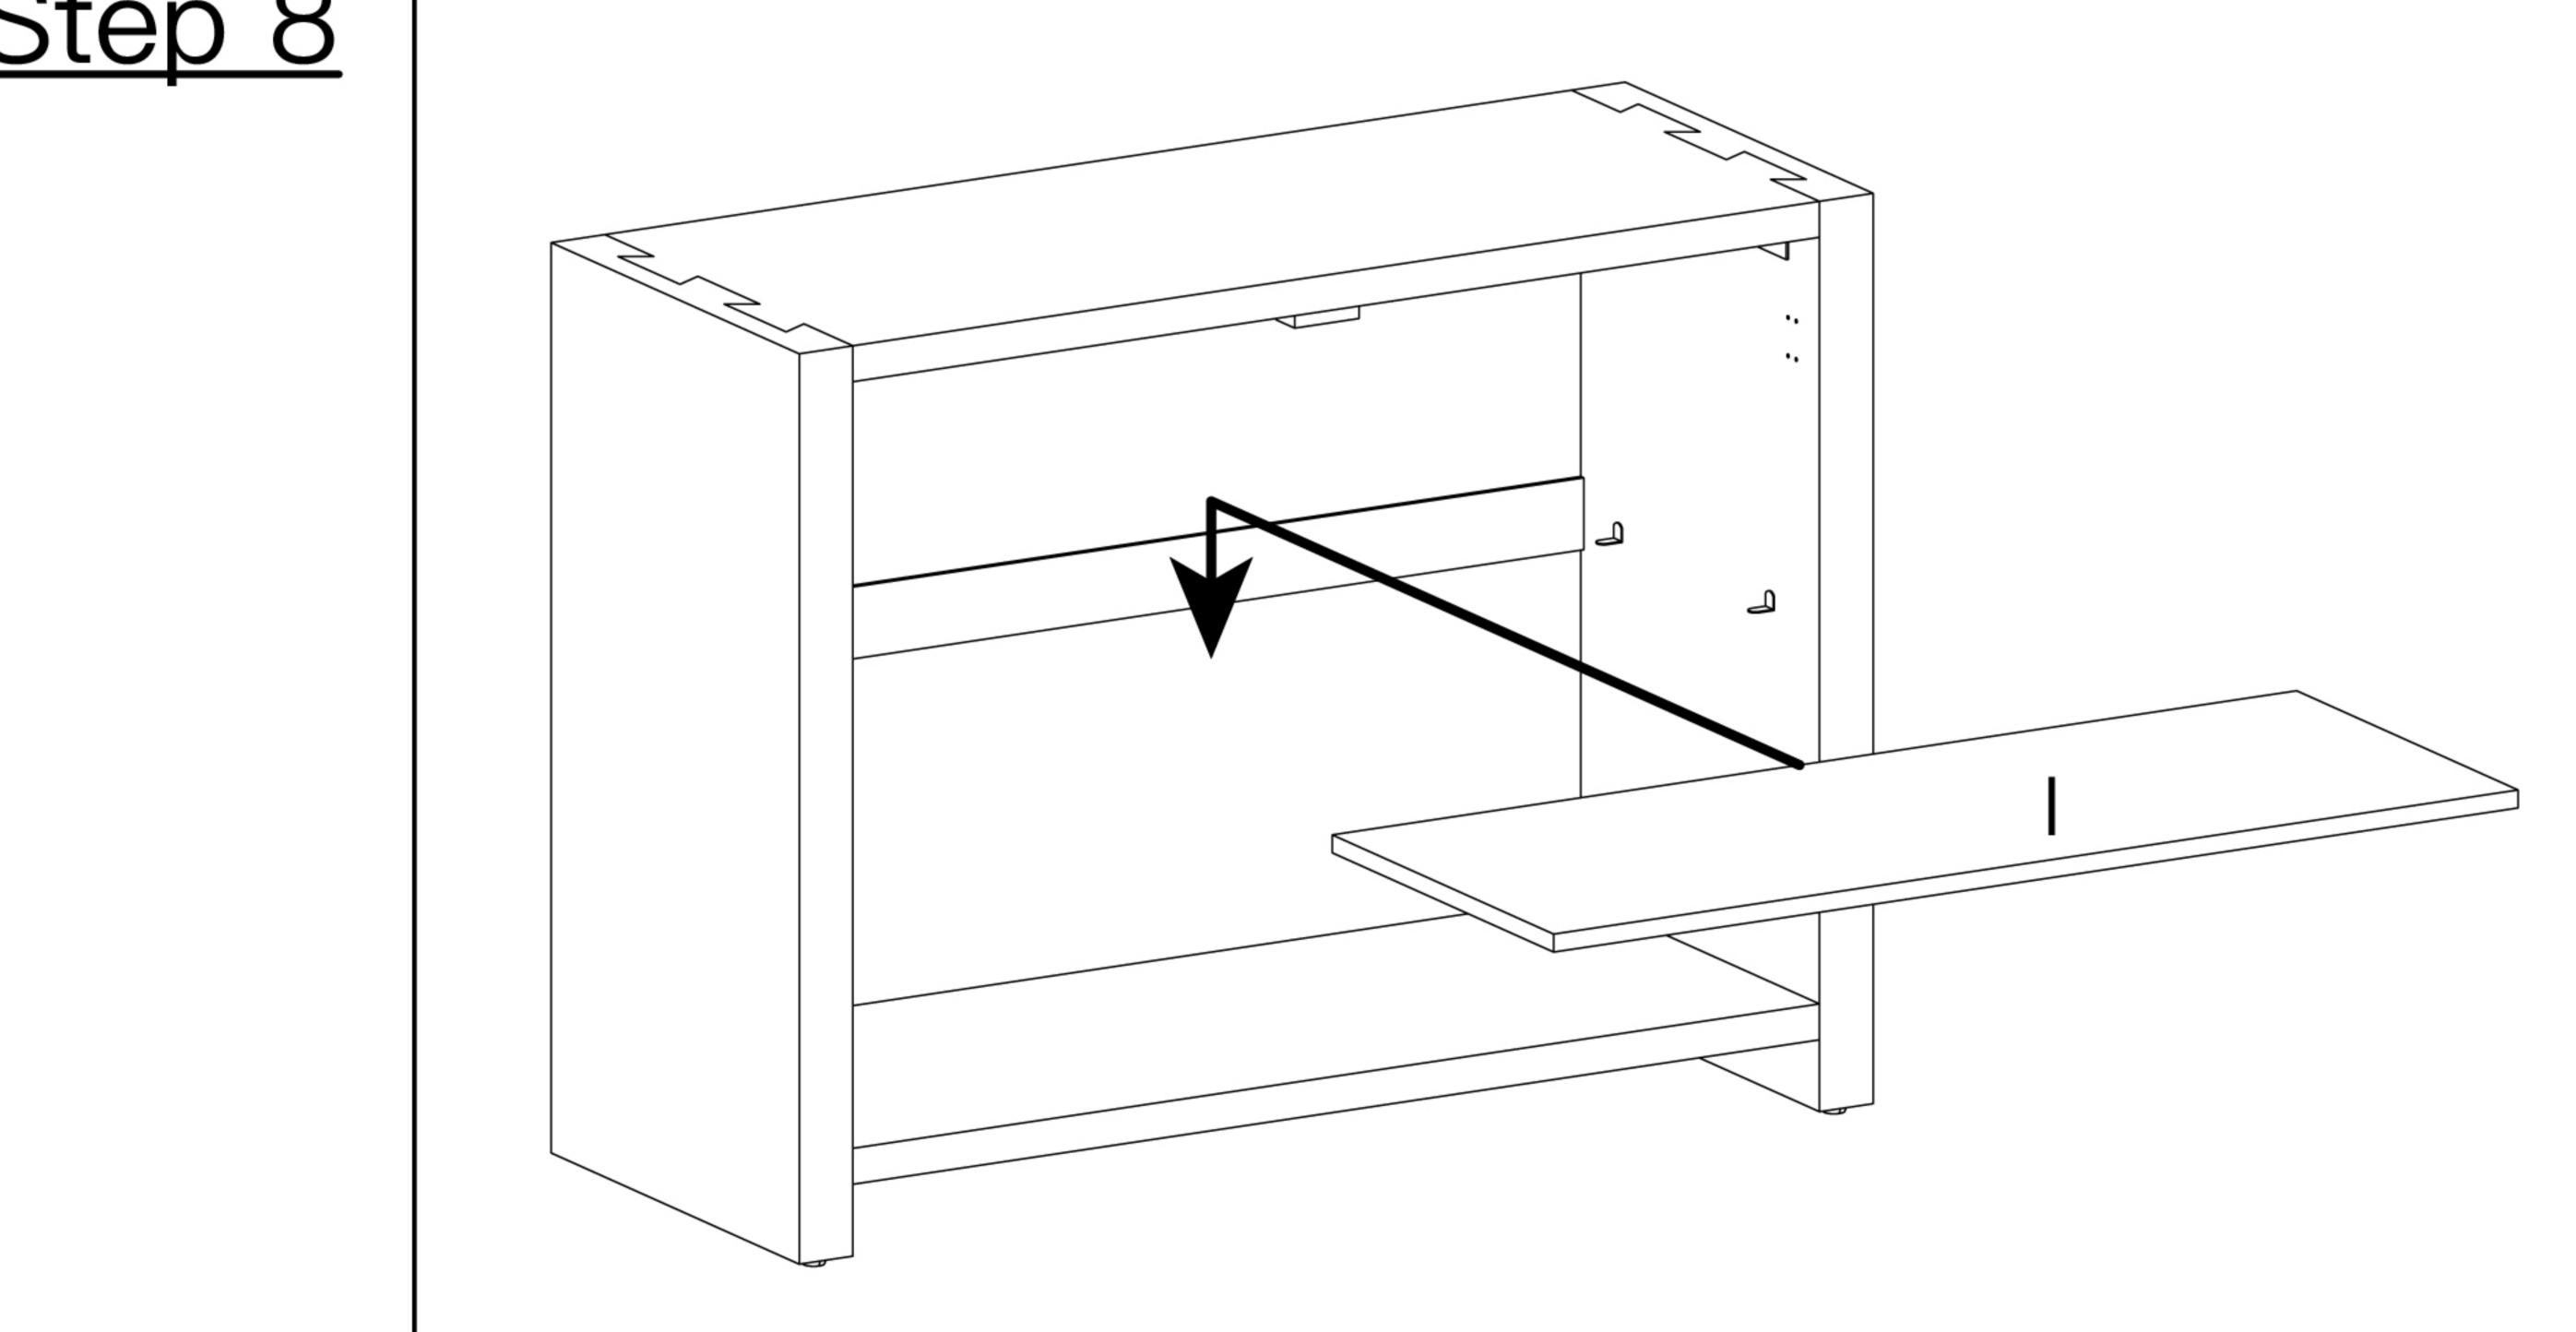

### Step 6

Screw adjustable leveling glide(12) to left side board(C) and right side board(B).

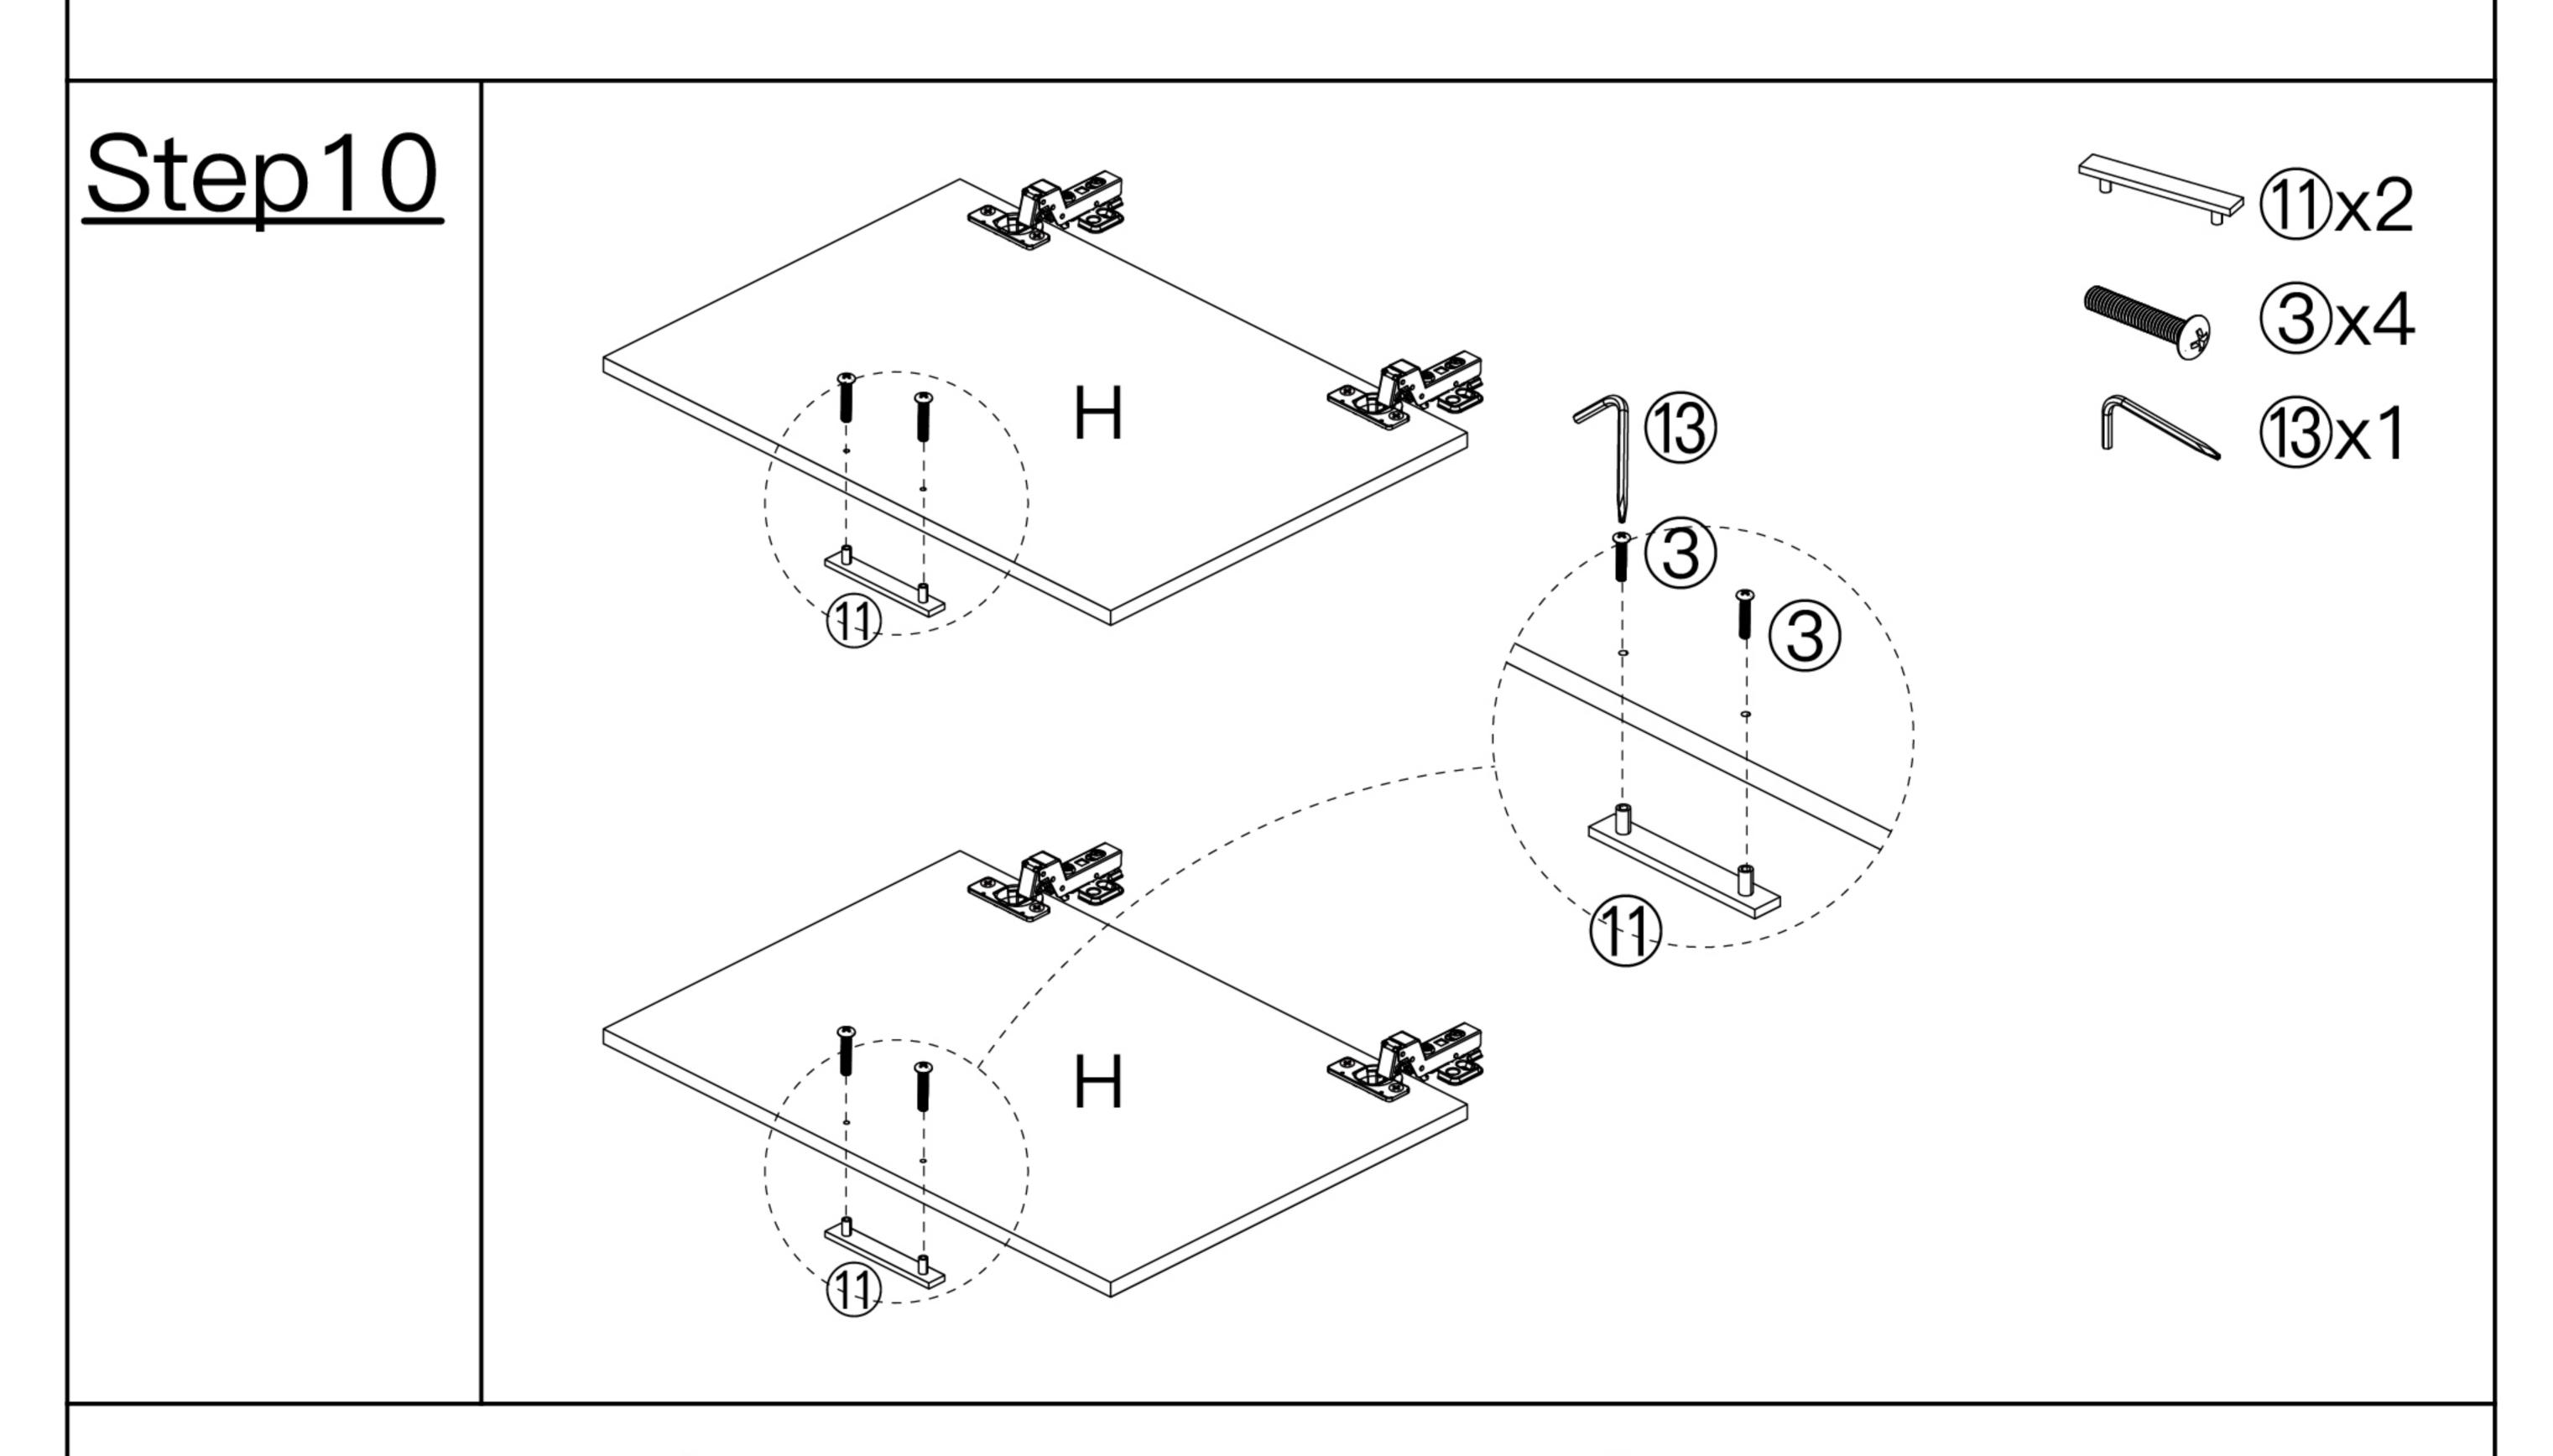

Stand the mounted cabinet up, and insert shelf support pin(7) into each panel hole.

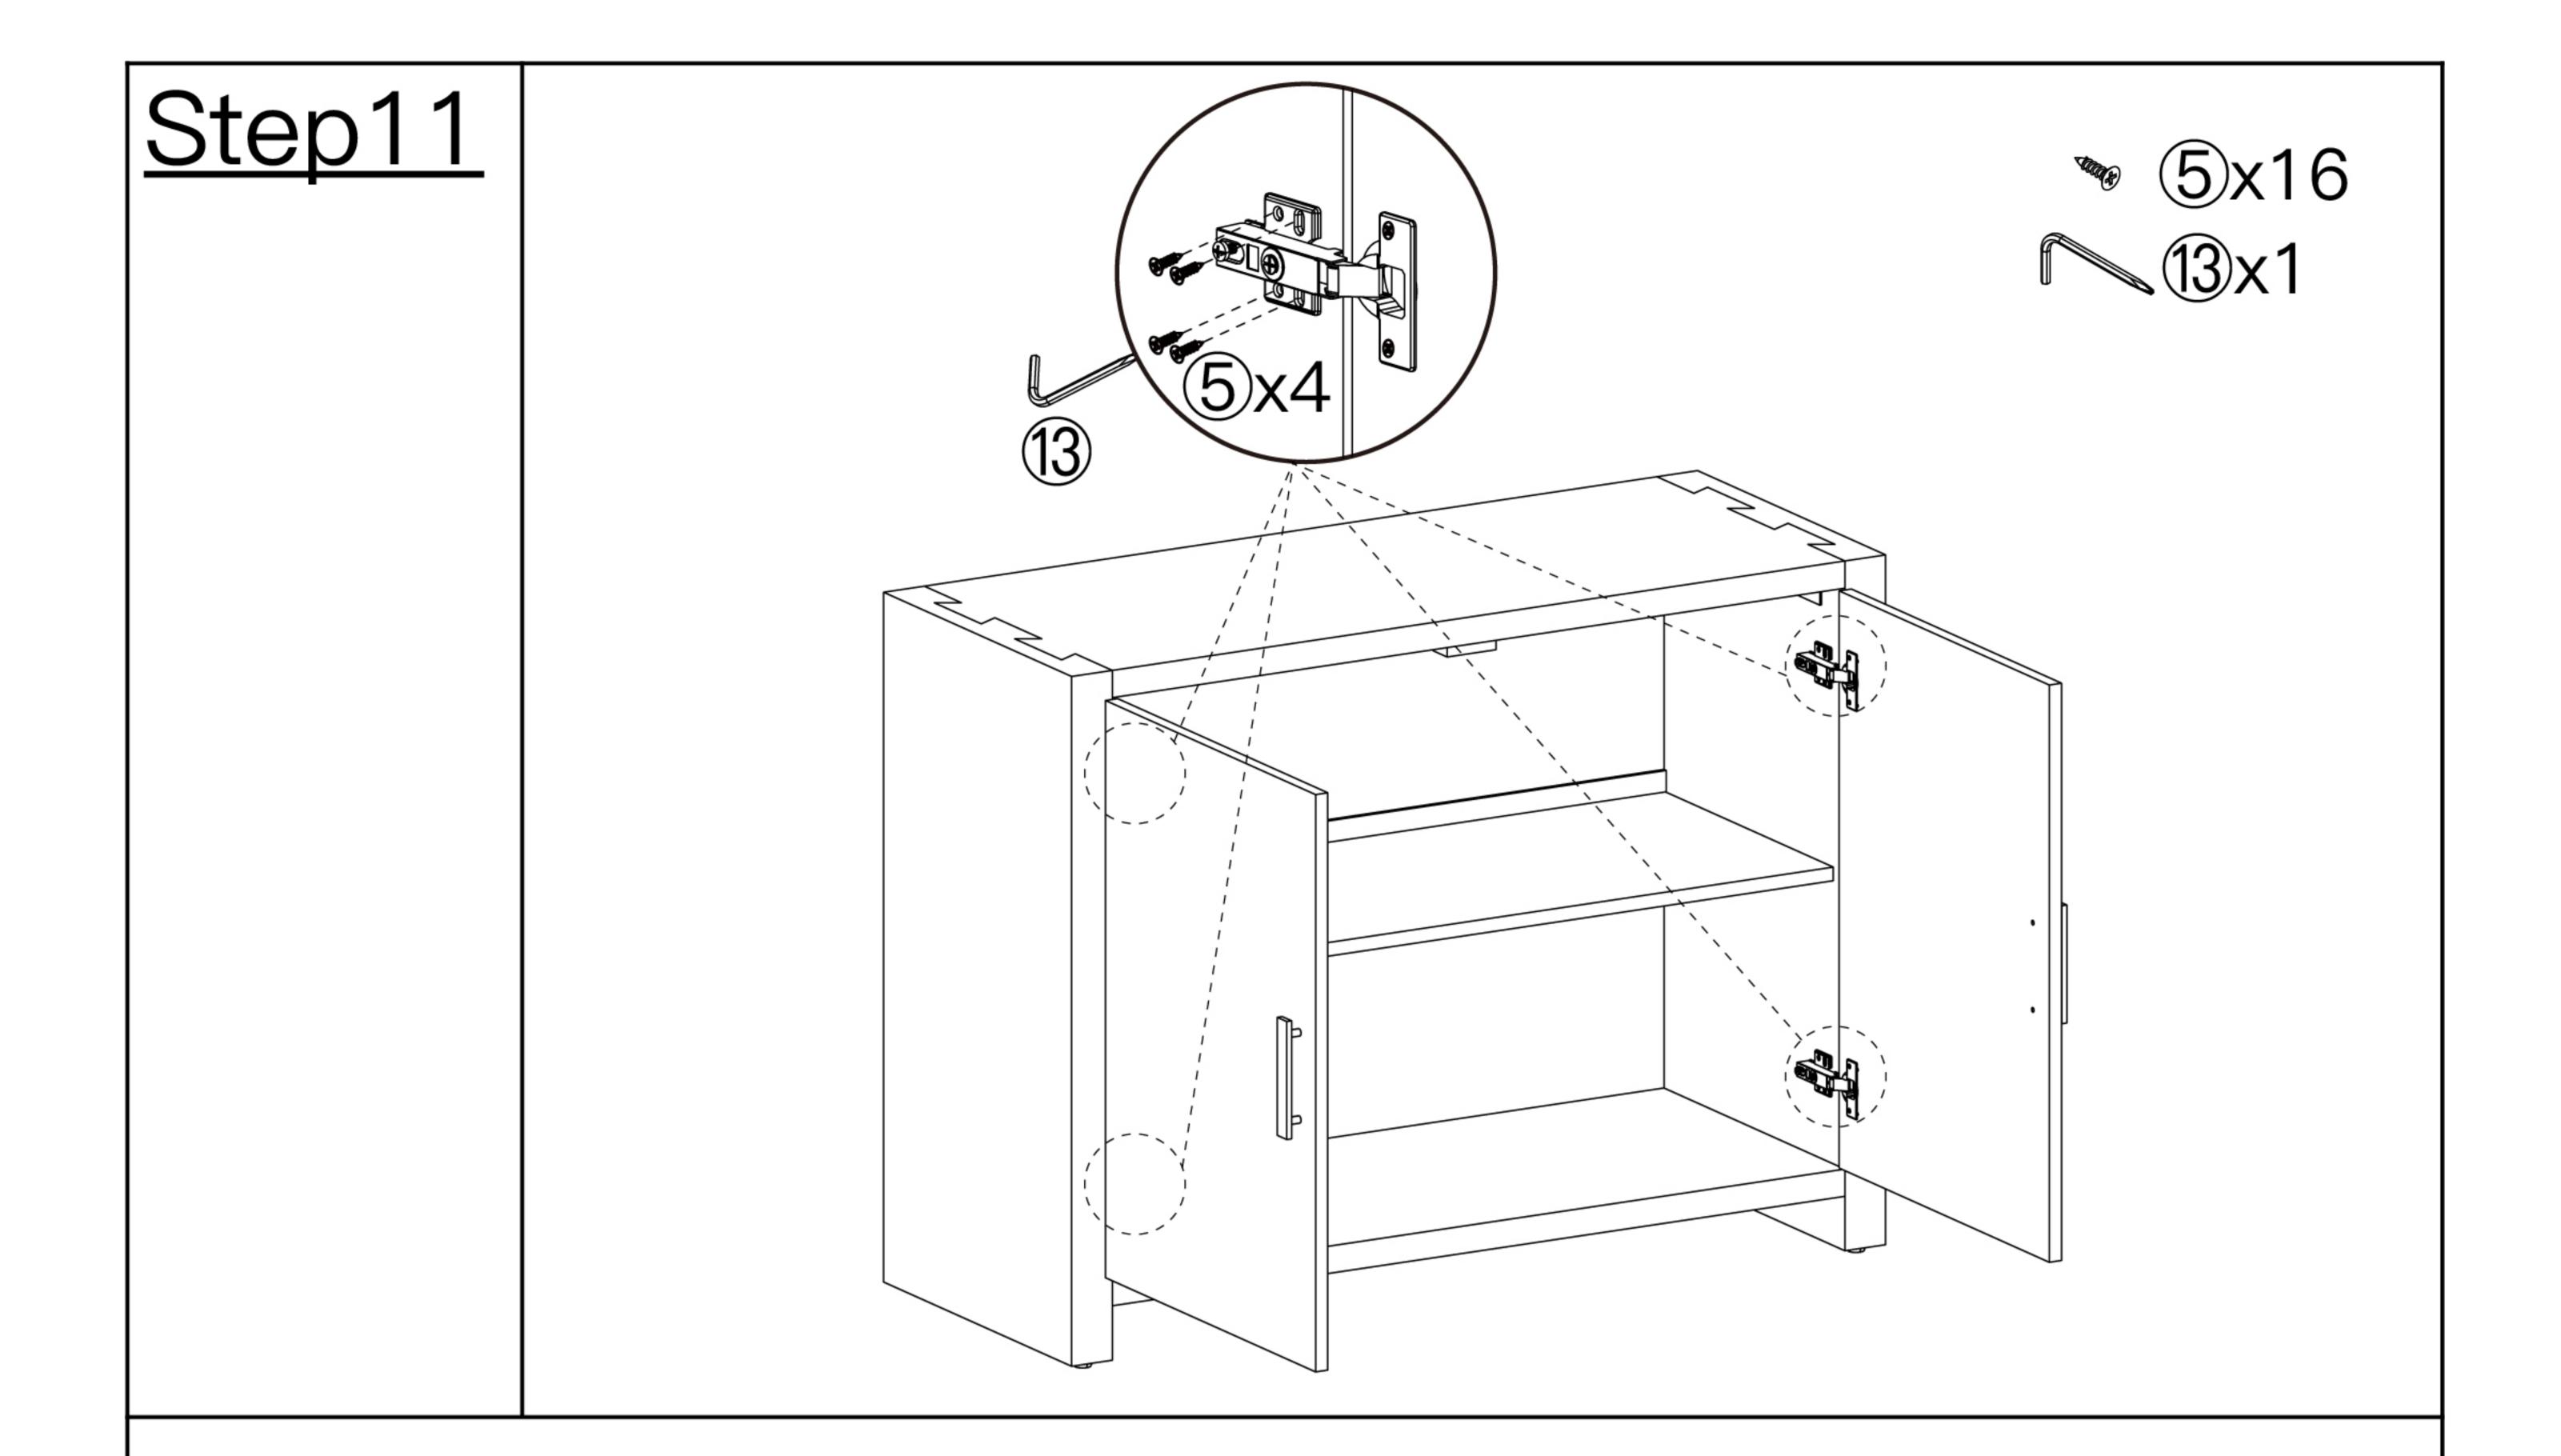

Put the Shelf Board(I) on the shelf support pin(7)

## 

Install the hydraulic door hinge(6) to door (H) with screw(5).

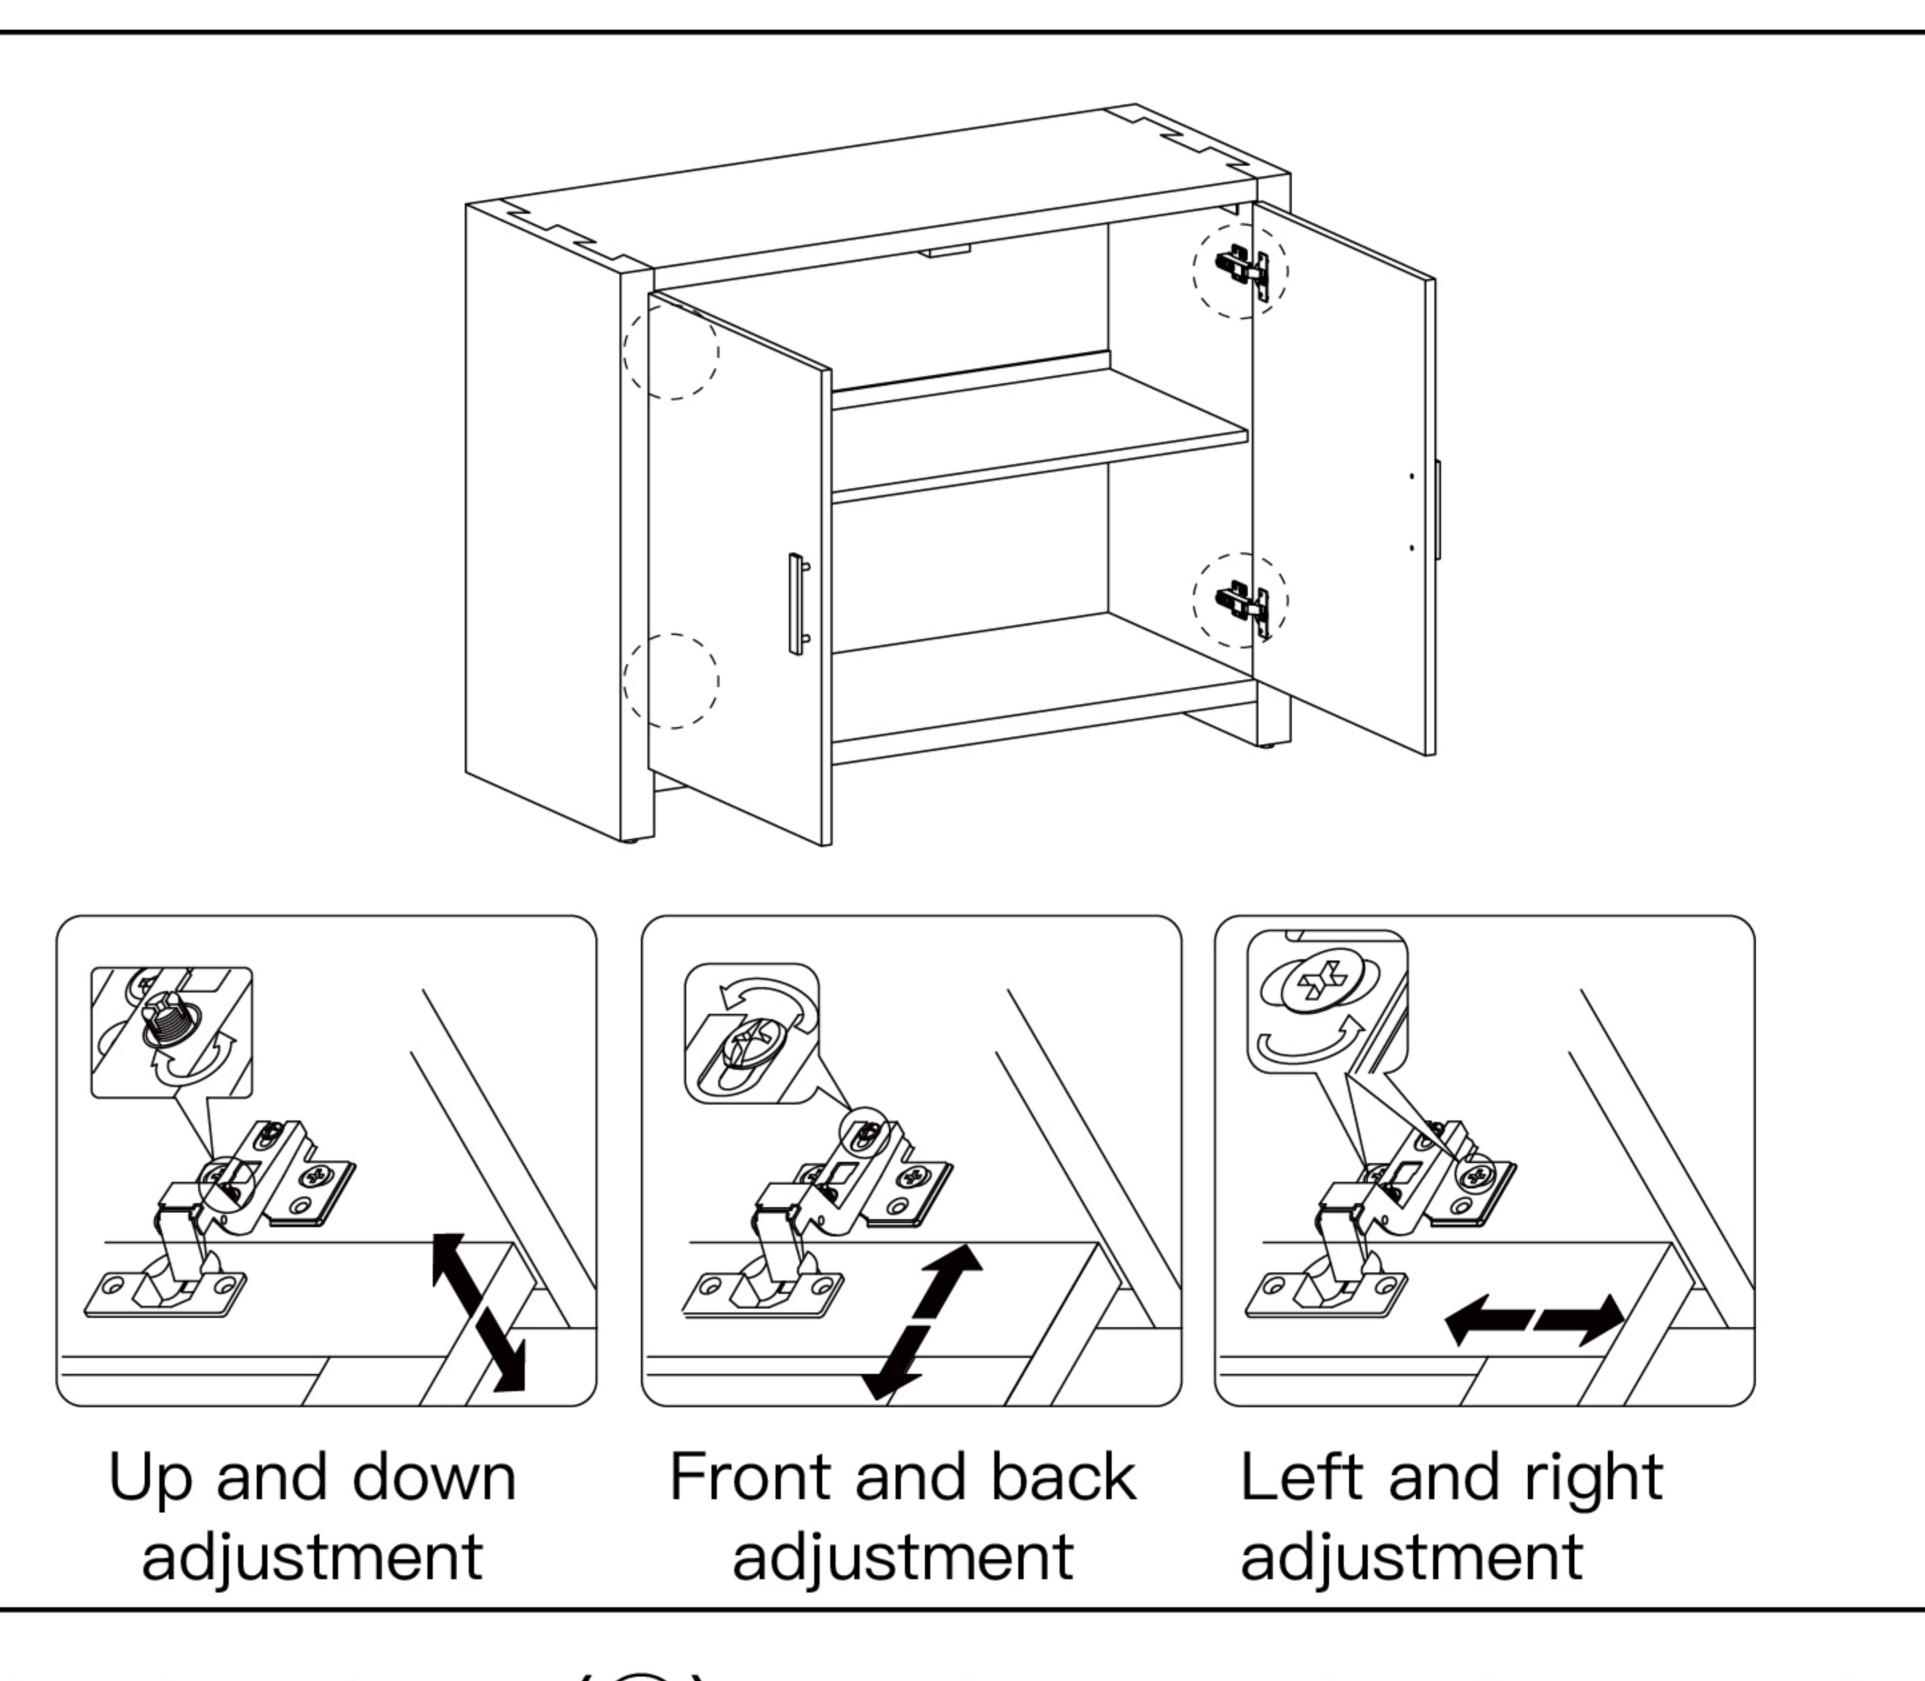

Install handle (11) to door (H) with screw(3).

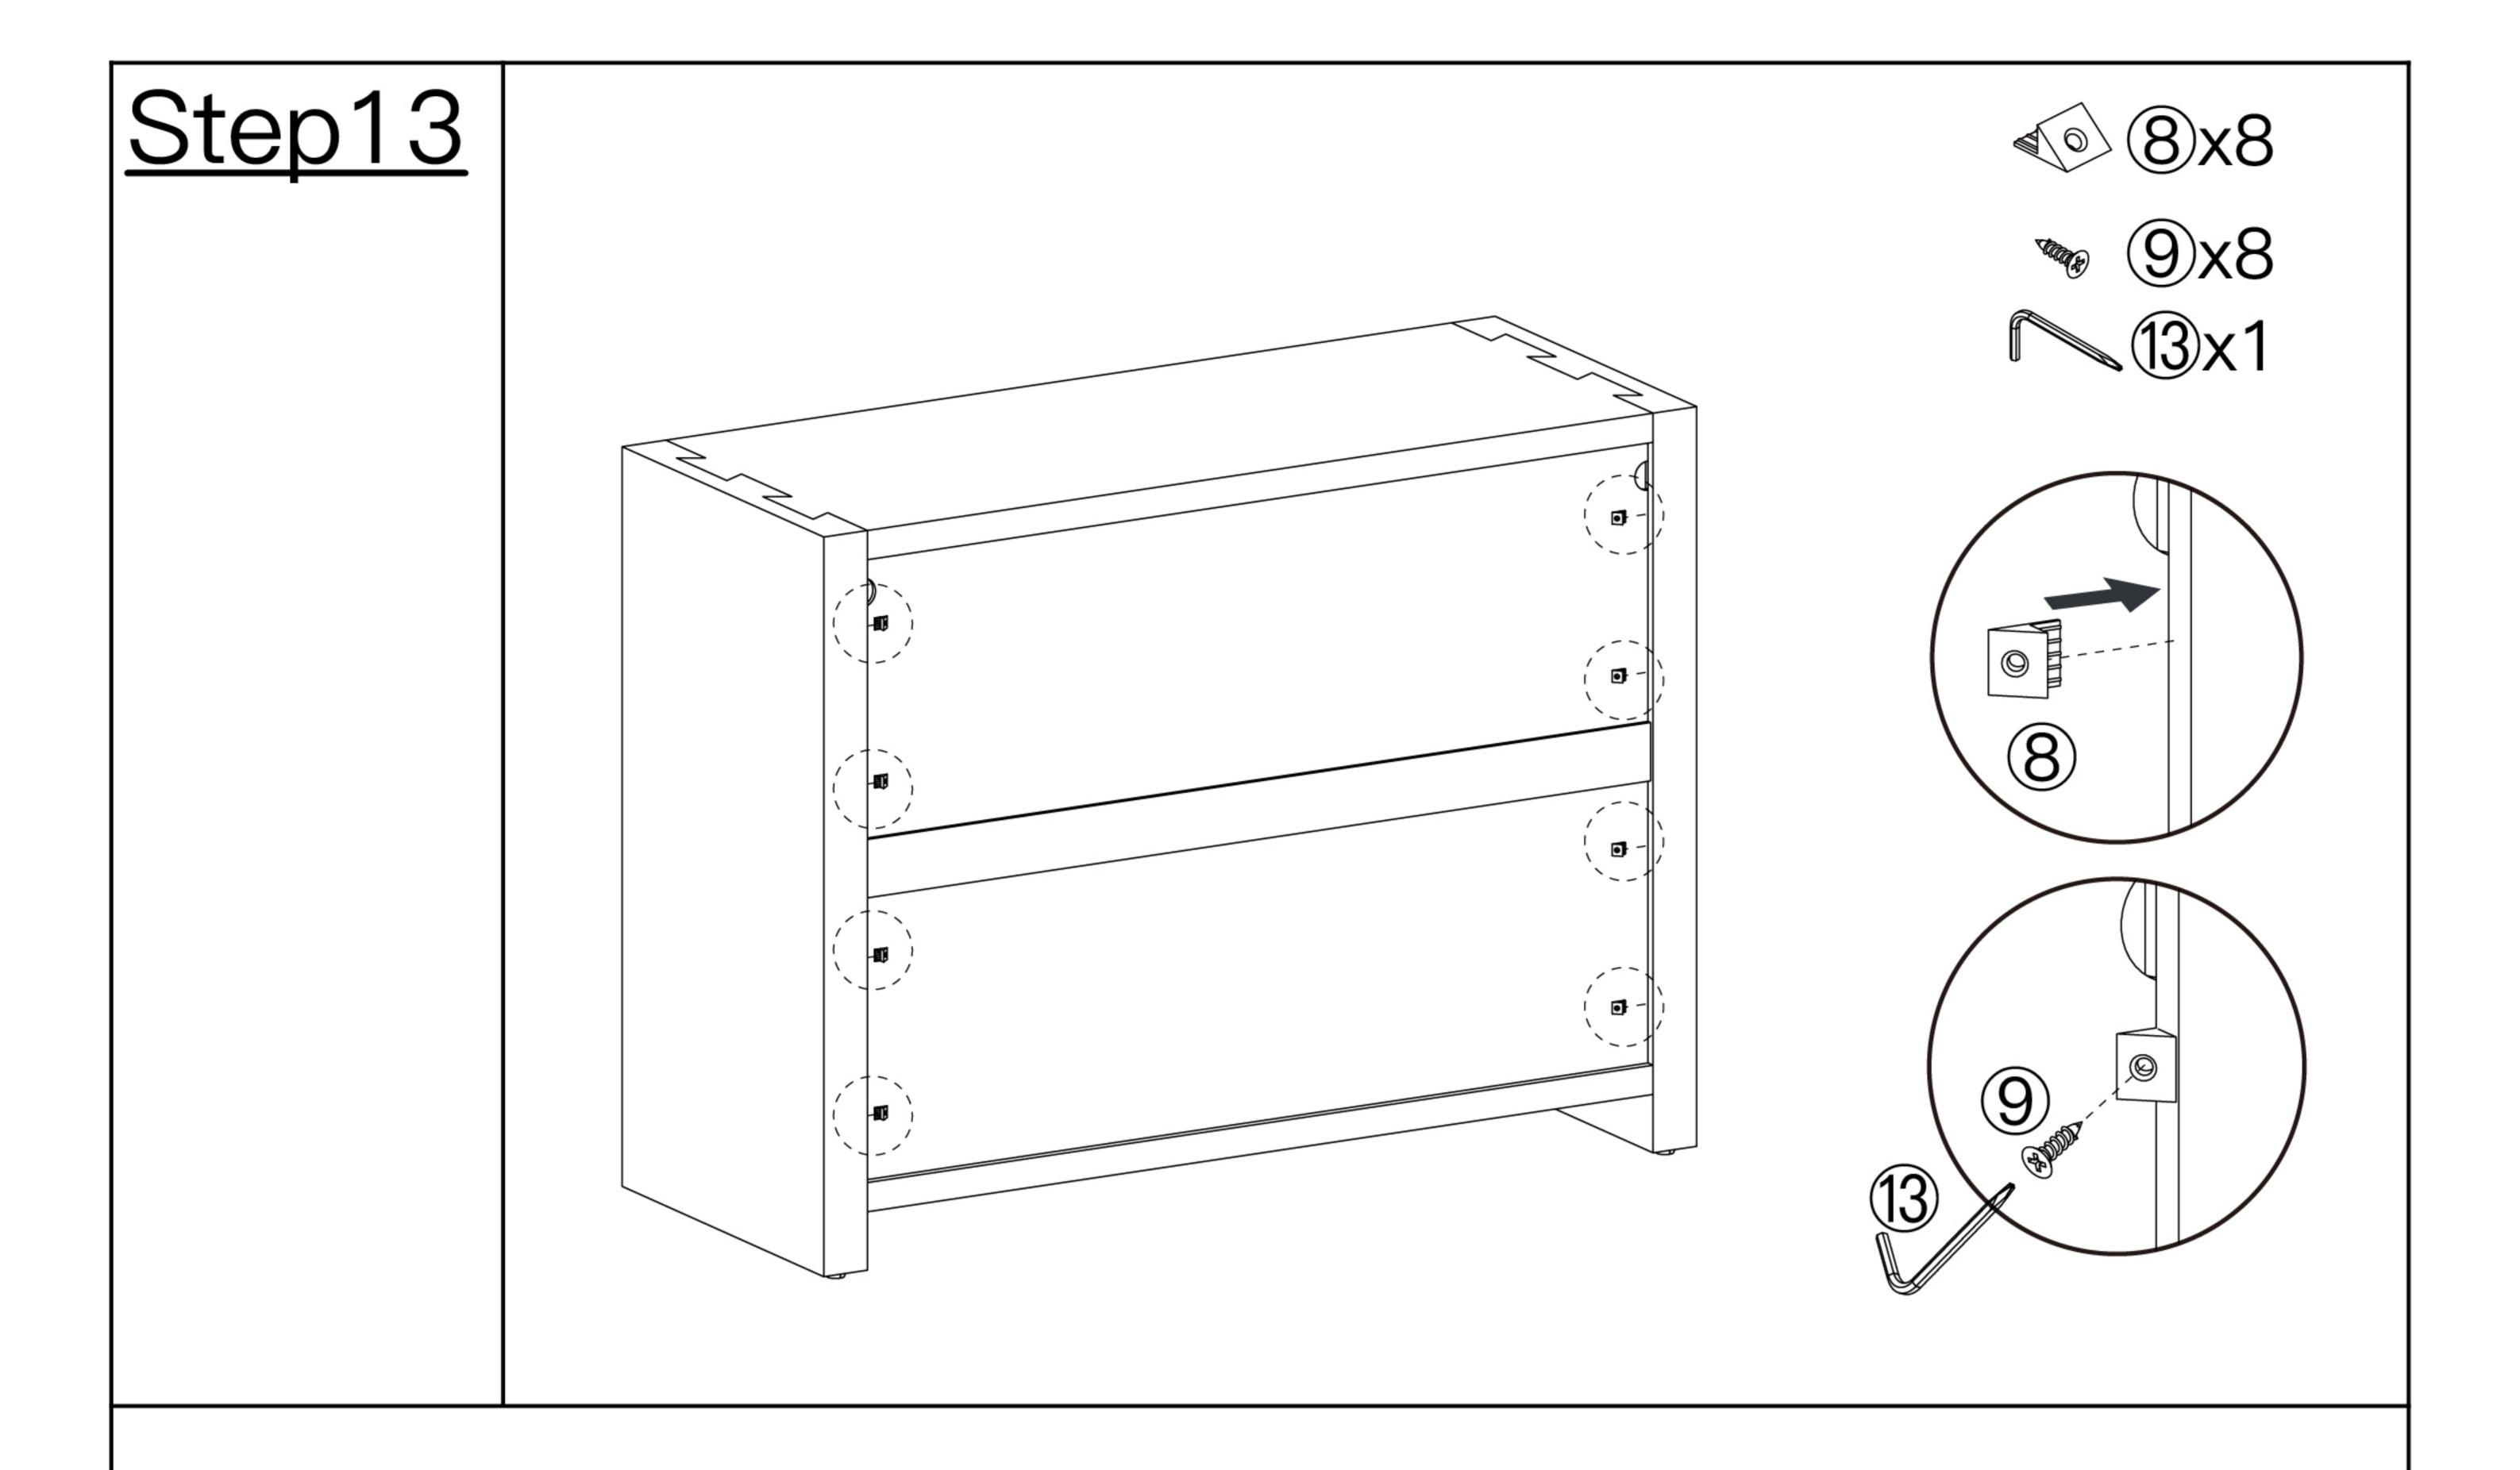

Attach door(H) to right side board(B), left side board(C) with screw (5).

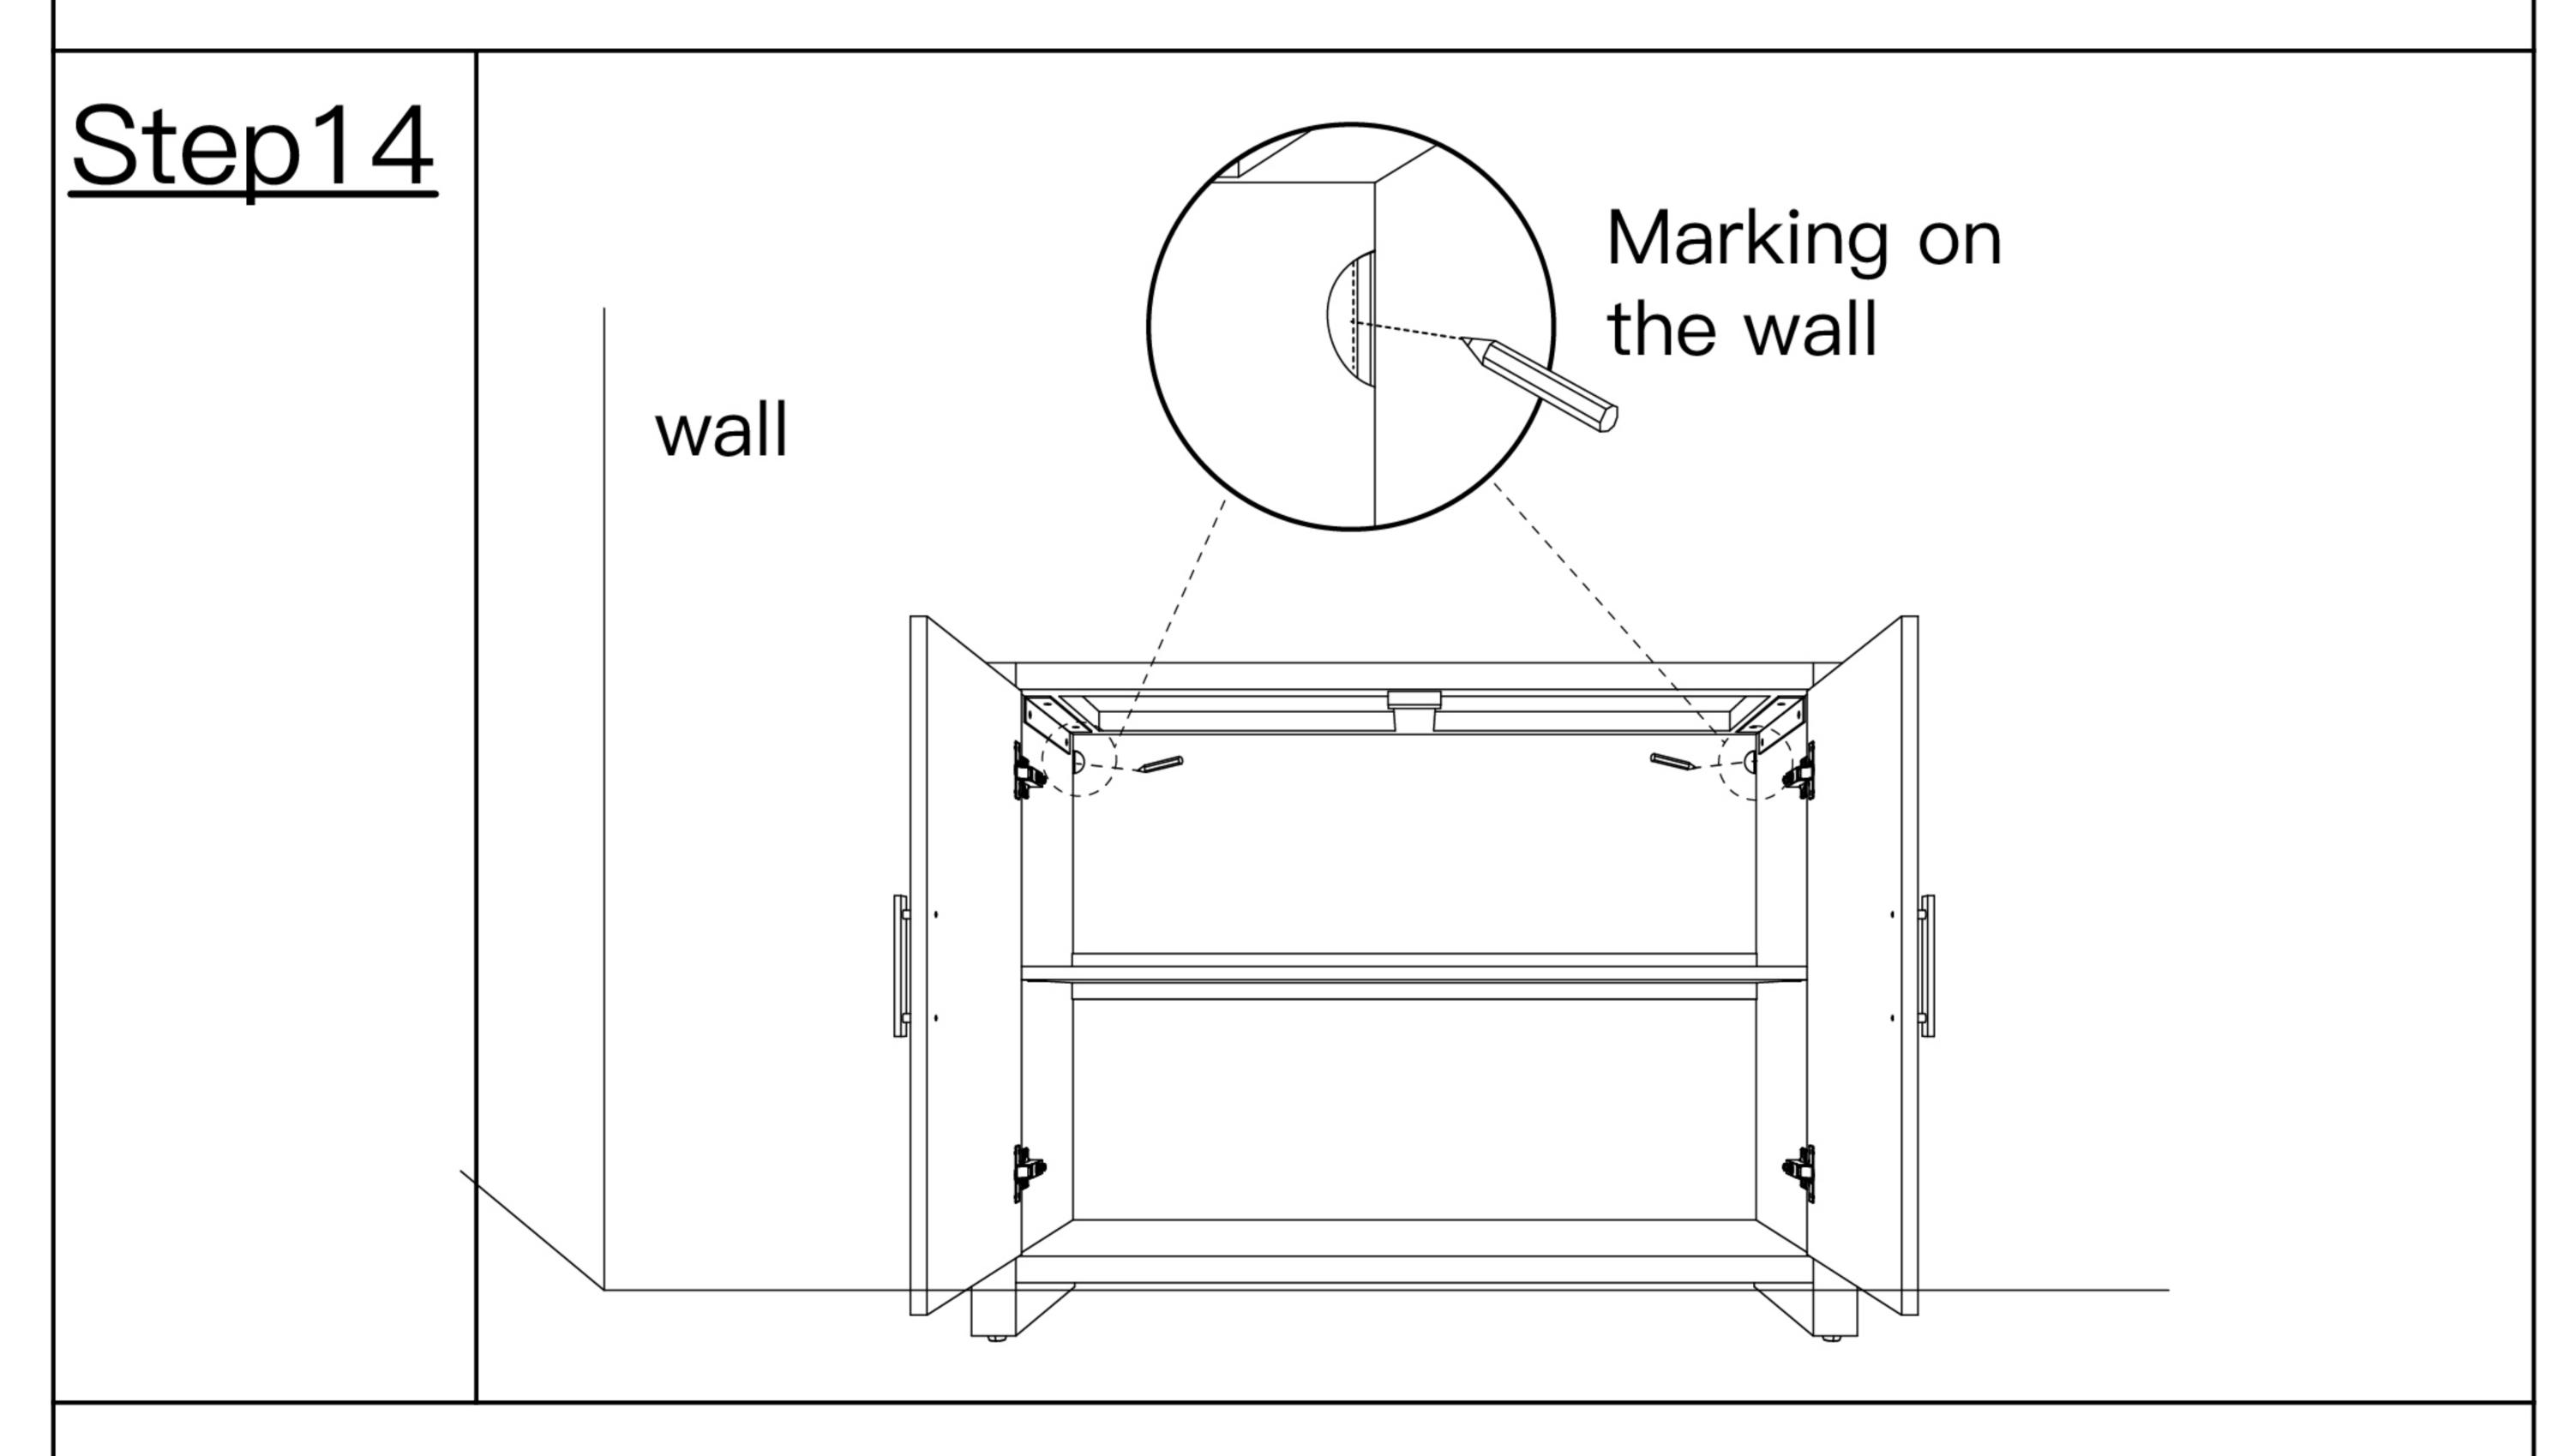

Adjust the hydraulic door hinge(6) to make sure the doors in the same level.

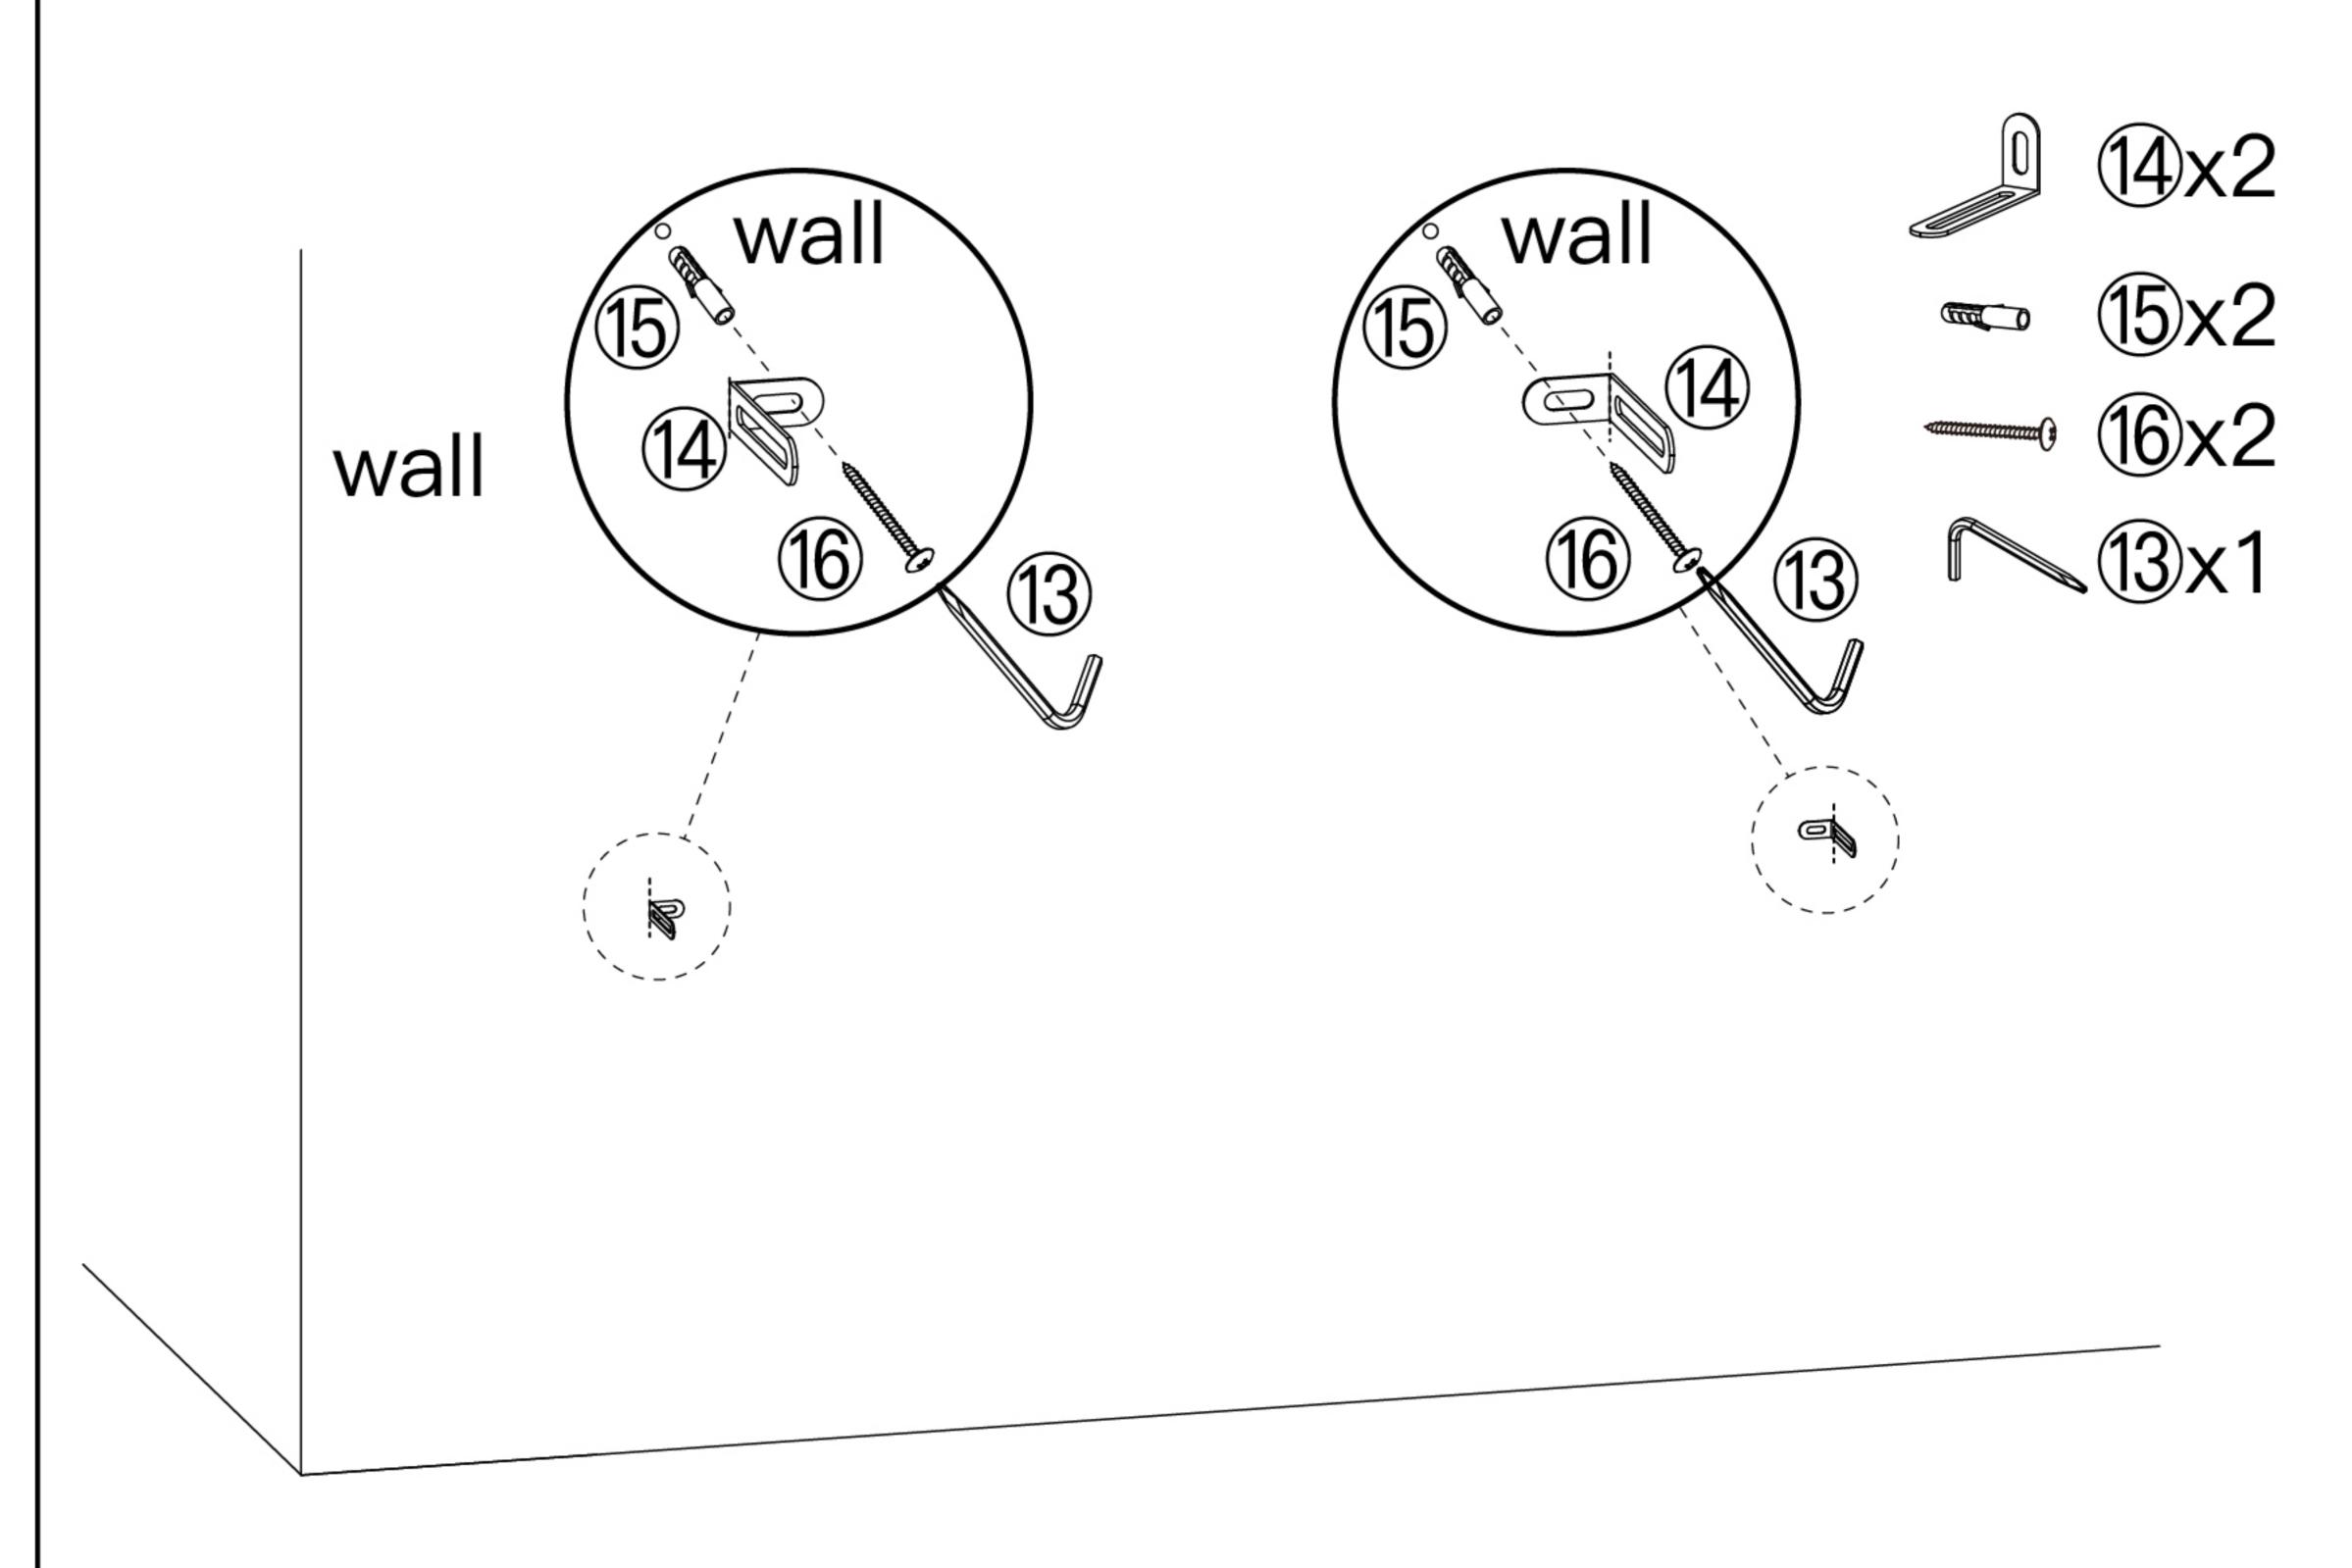

Insert backboard buckle (®) along the backboard and fix with screw(9).

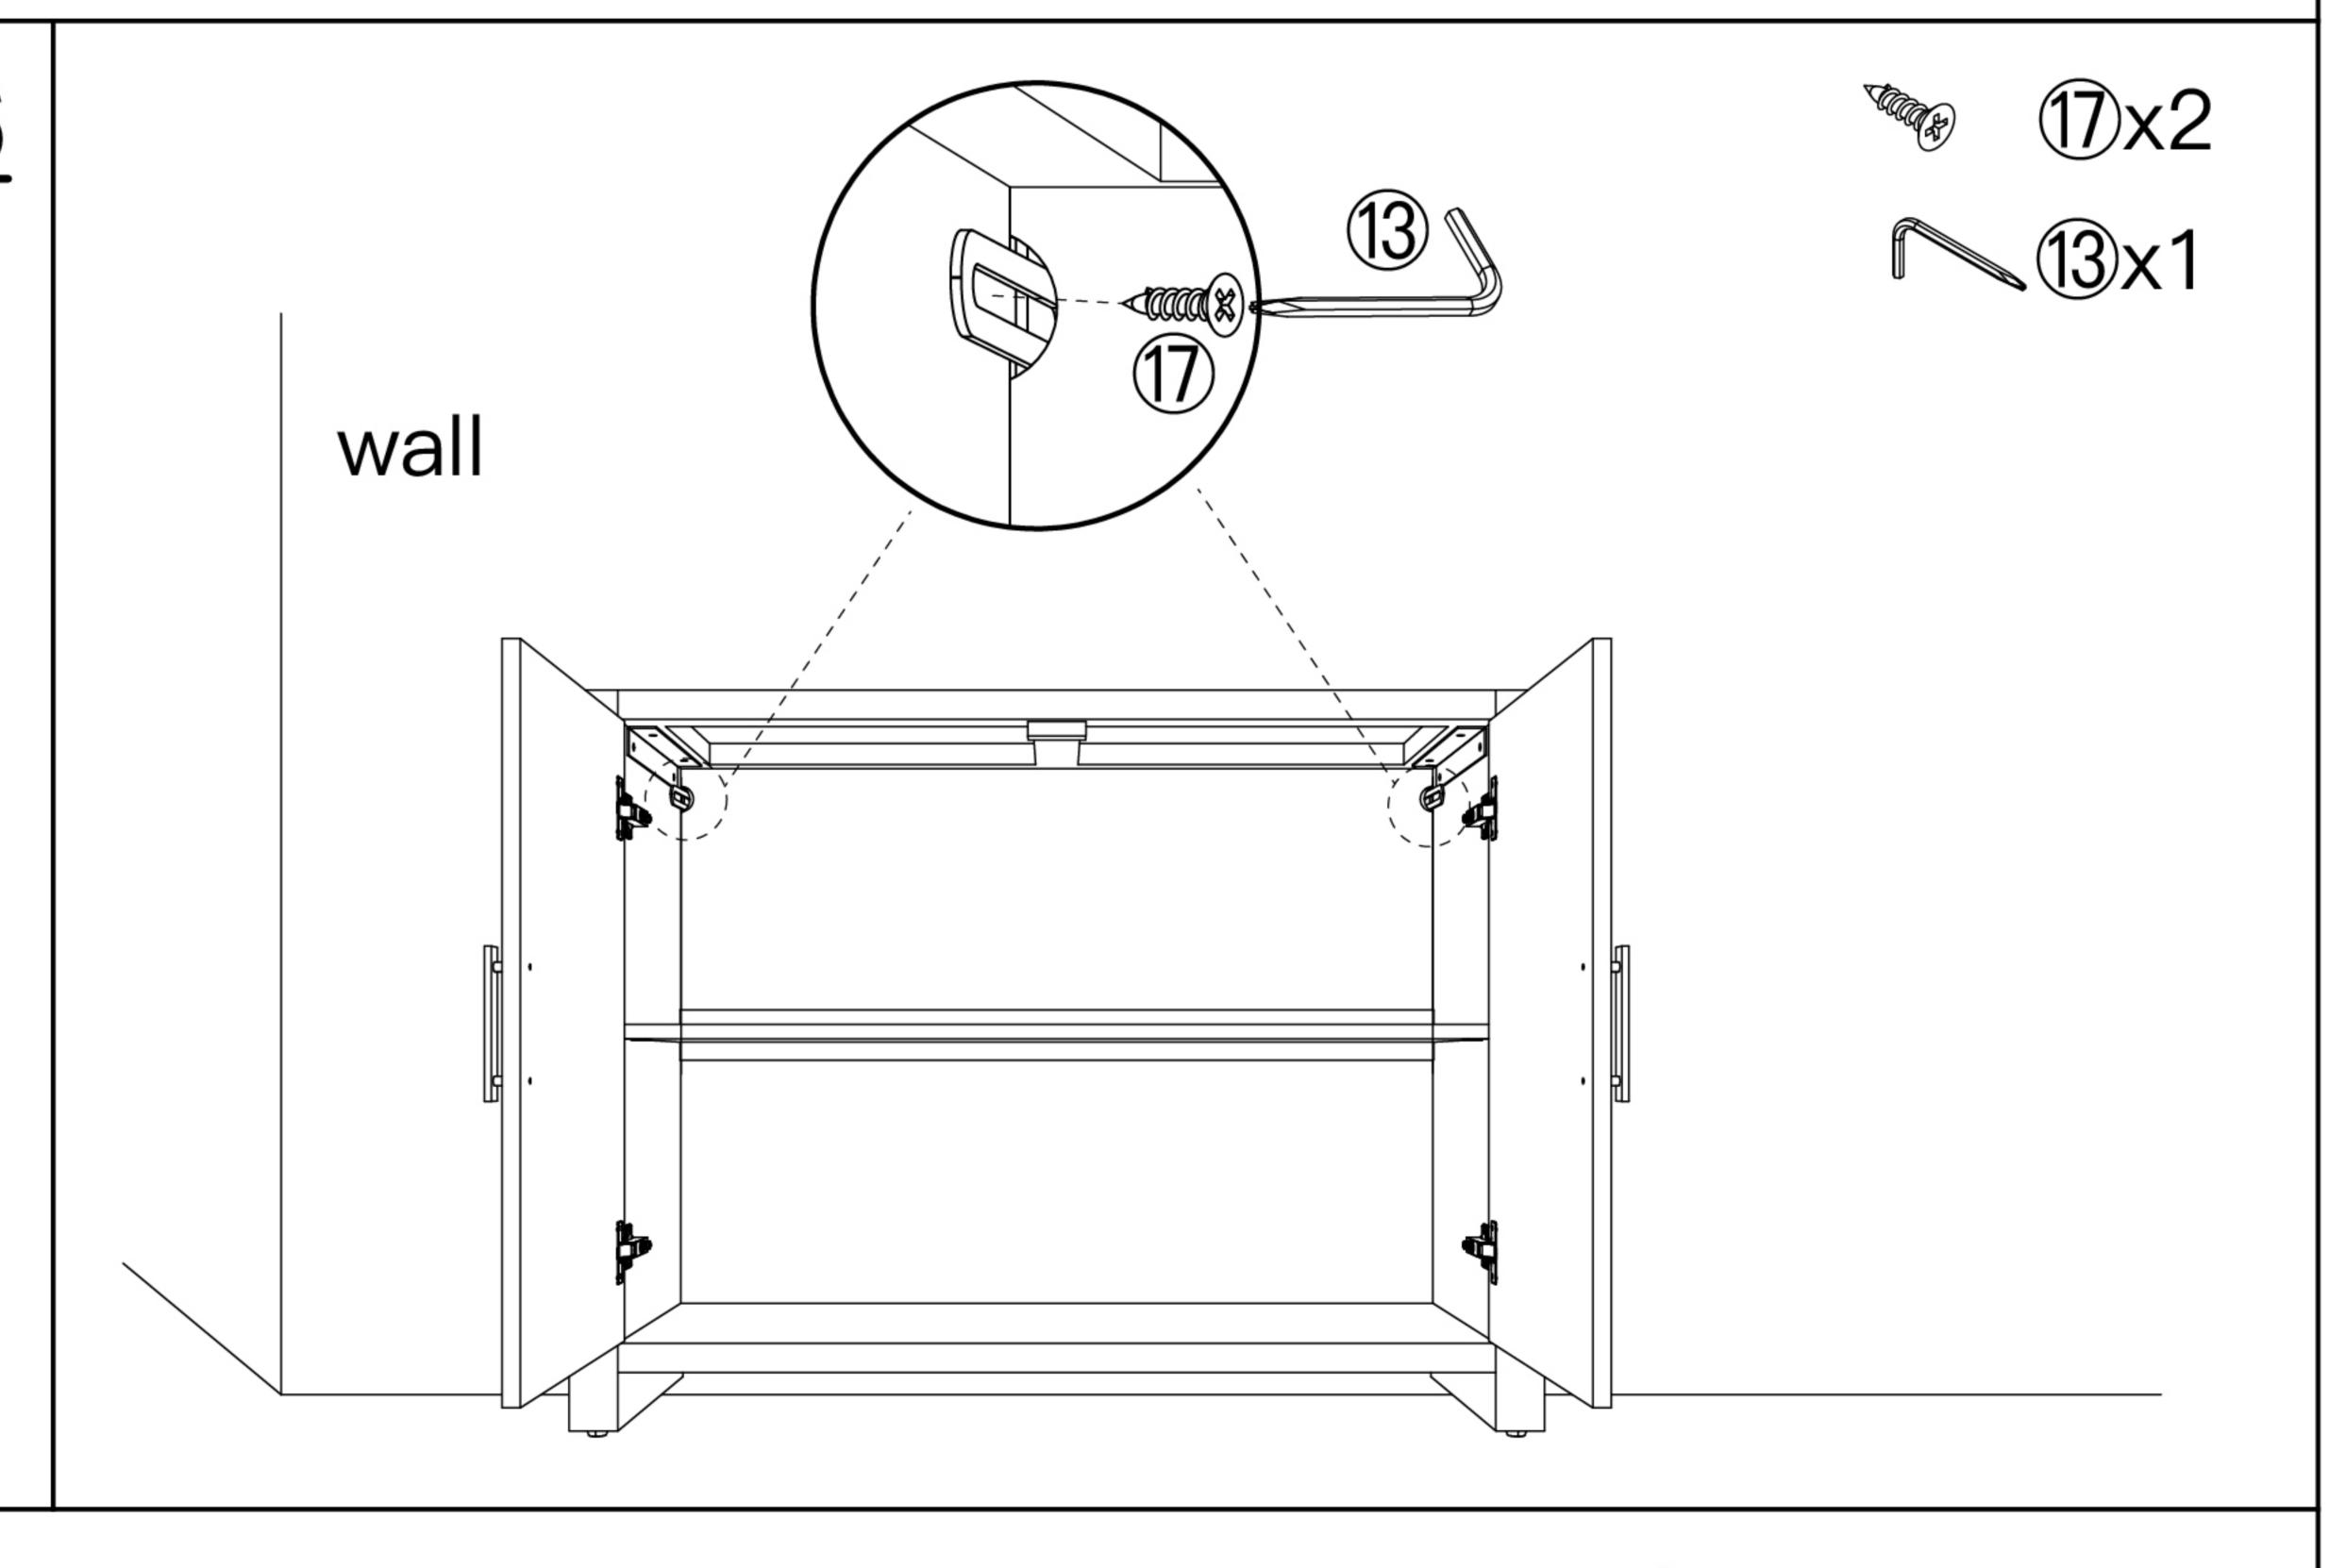

Place the cabinet against the wall. Mark the positions for the expansion screws on the wall.

### <u>Step15</u>

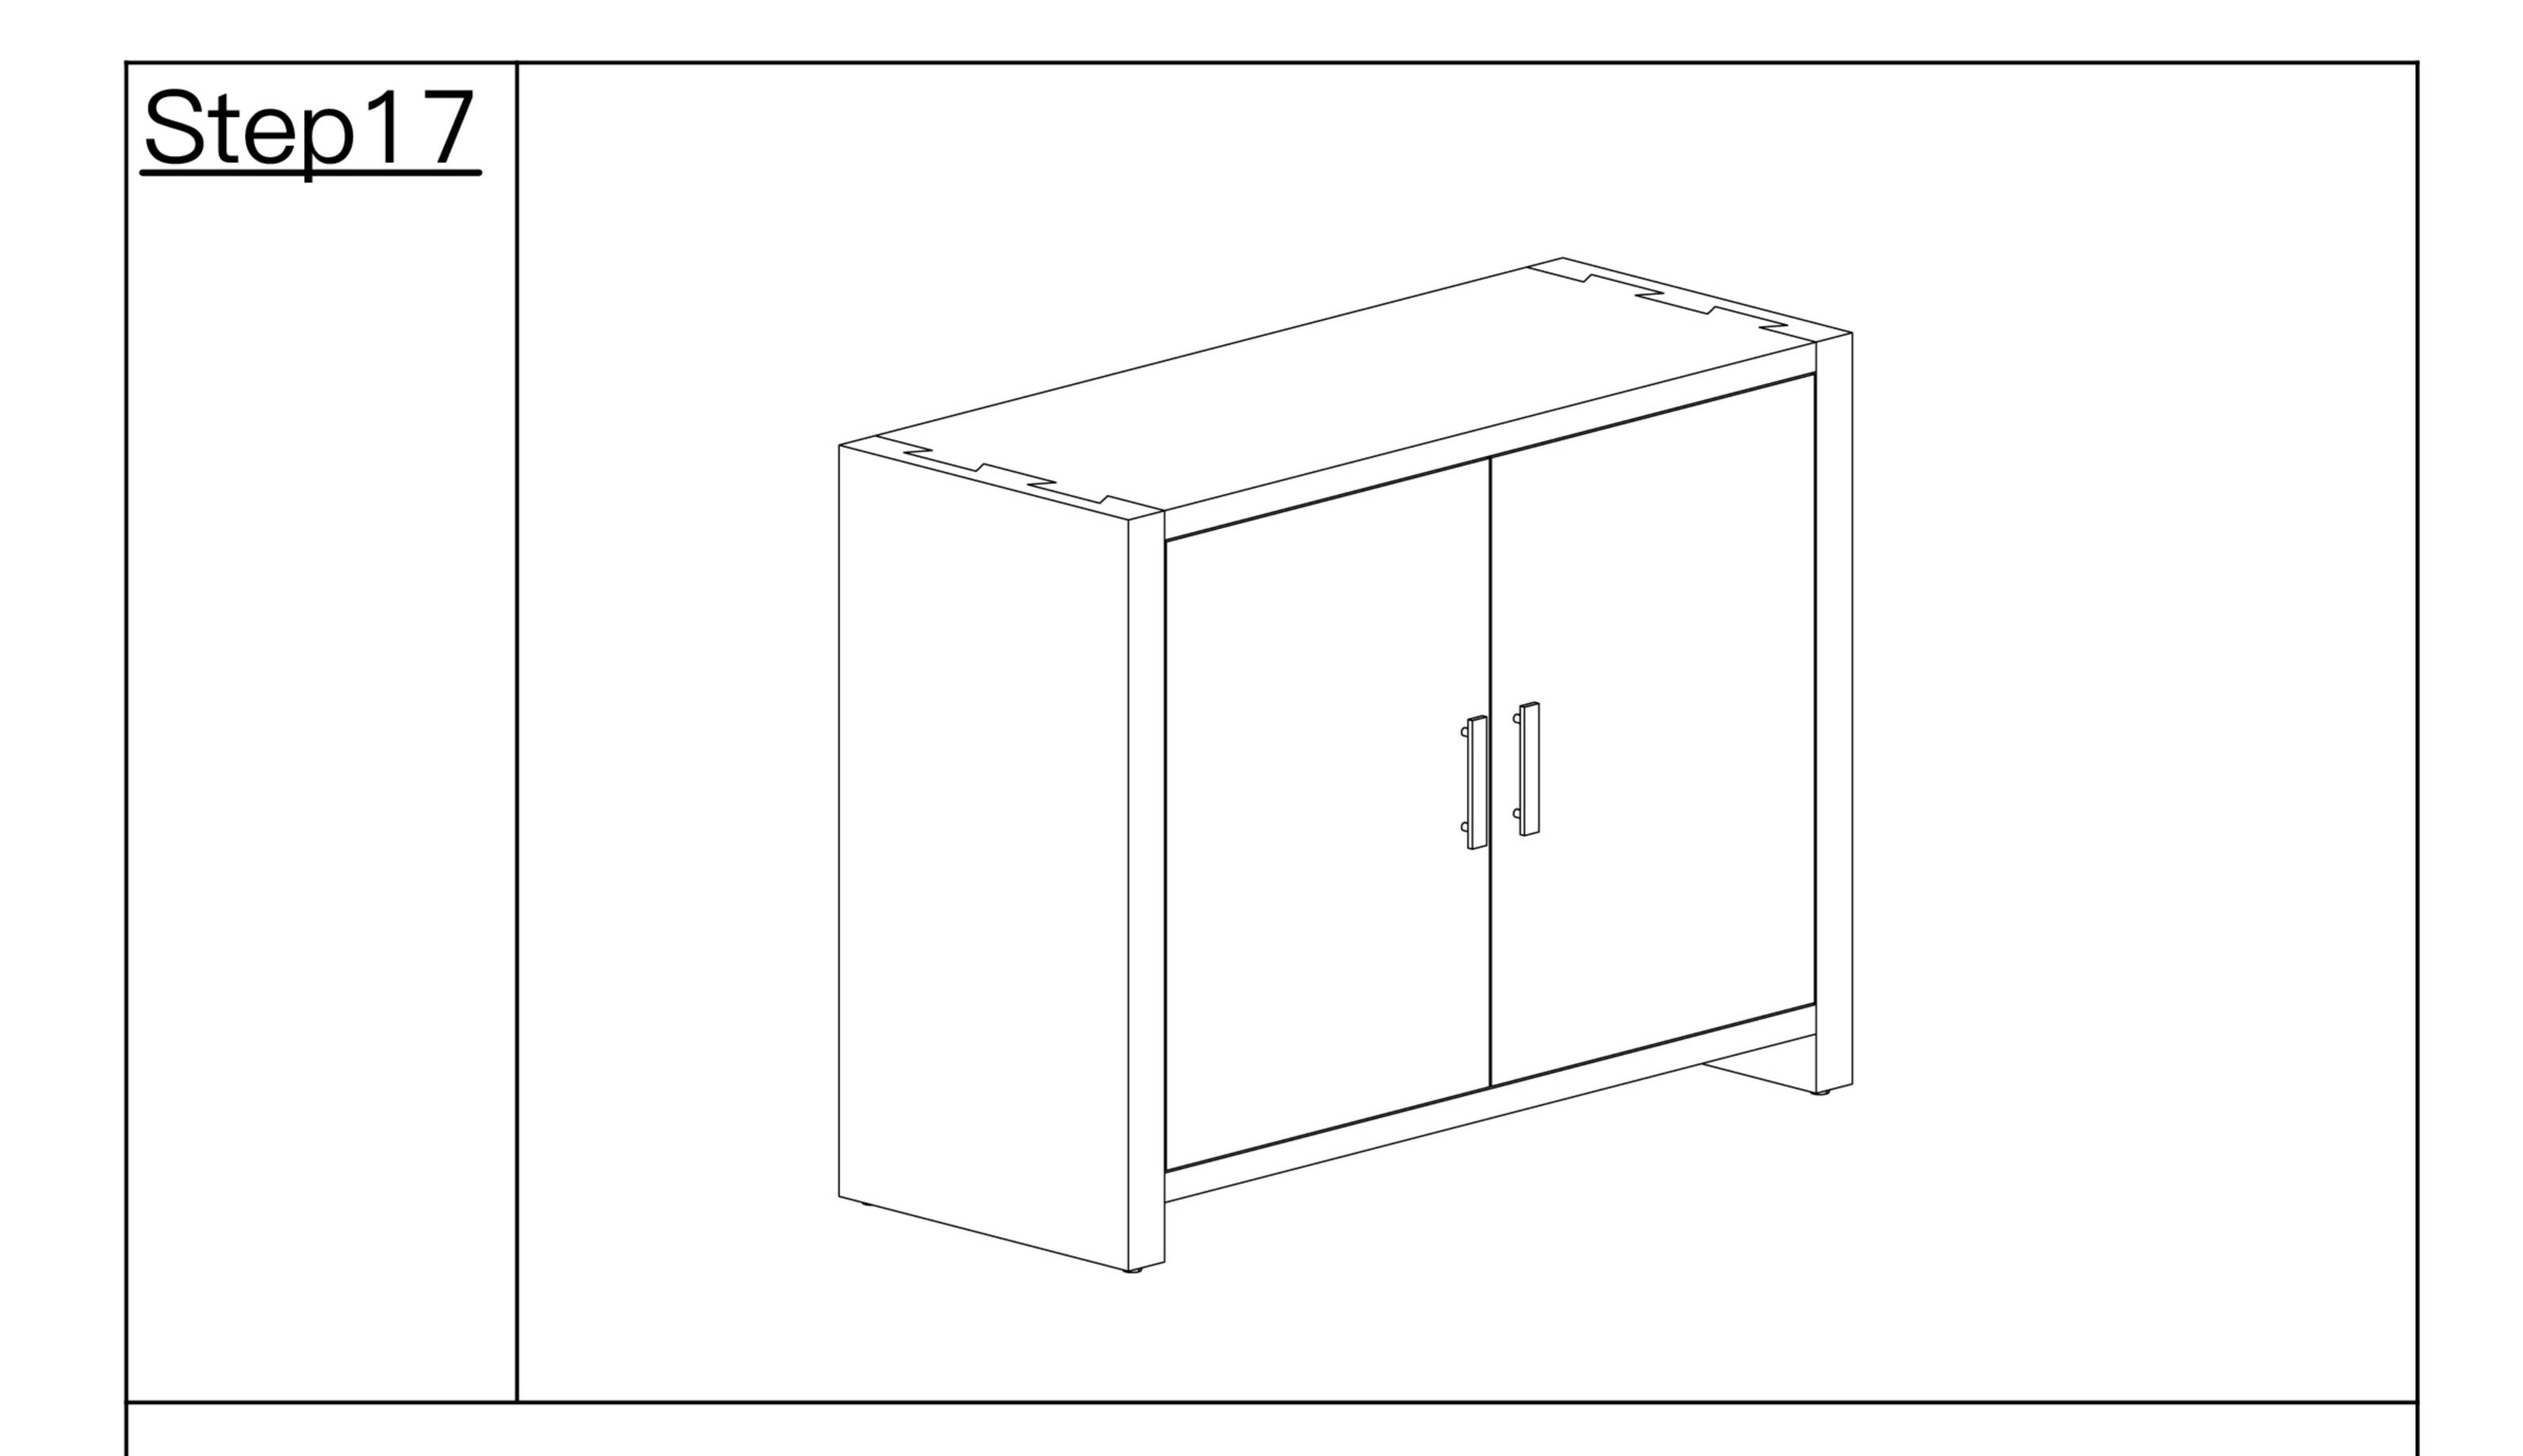

Drill holes on the wall in marking position, insert expansion plugs(⑤) into the holes, align with the expansion plugs (⑥), install the short side of Anti-Tip anchoring strap (⑥) with long screw(⑥).

### <u>Step16</u>

Attach the long side of Anti-Tip anchoring strap (4) to the right side board(B) & left side board(C) with short screw(1).

The cabinet is ready to use.

"Questions & Answers about Proposition 65

What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

• What types of chemicals are on the Proposition 65 list? The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust. "
