The goods

IMPORTANT

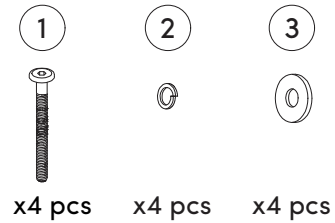

1. Do not tighten bolts / screws completely until all bolts / screws are lined up and inserted into holes.
2. Do not over tighten screws and bolts to avoid stripping.
3. Please use hand tools to assemble this product.

Step 1

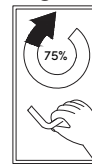

Let's get this thing fired up!

Secure the Back Leg Left (E) and the Back Leg Right (D) to the Seat Assembly (A) using four sets of 1/4" x 10mm Lock Washers (2), 1/4" x 19mm Flat Washers (3) and 1/4" x 60mm Hex Button Head Bolts (1).

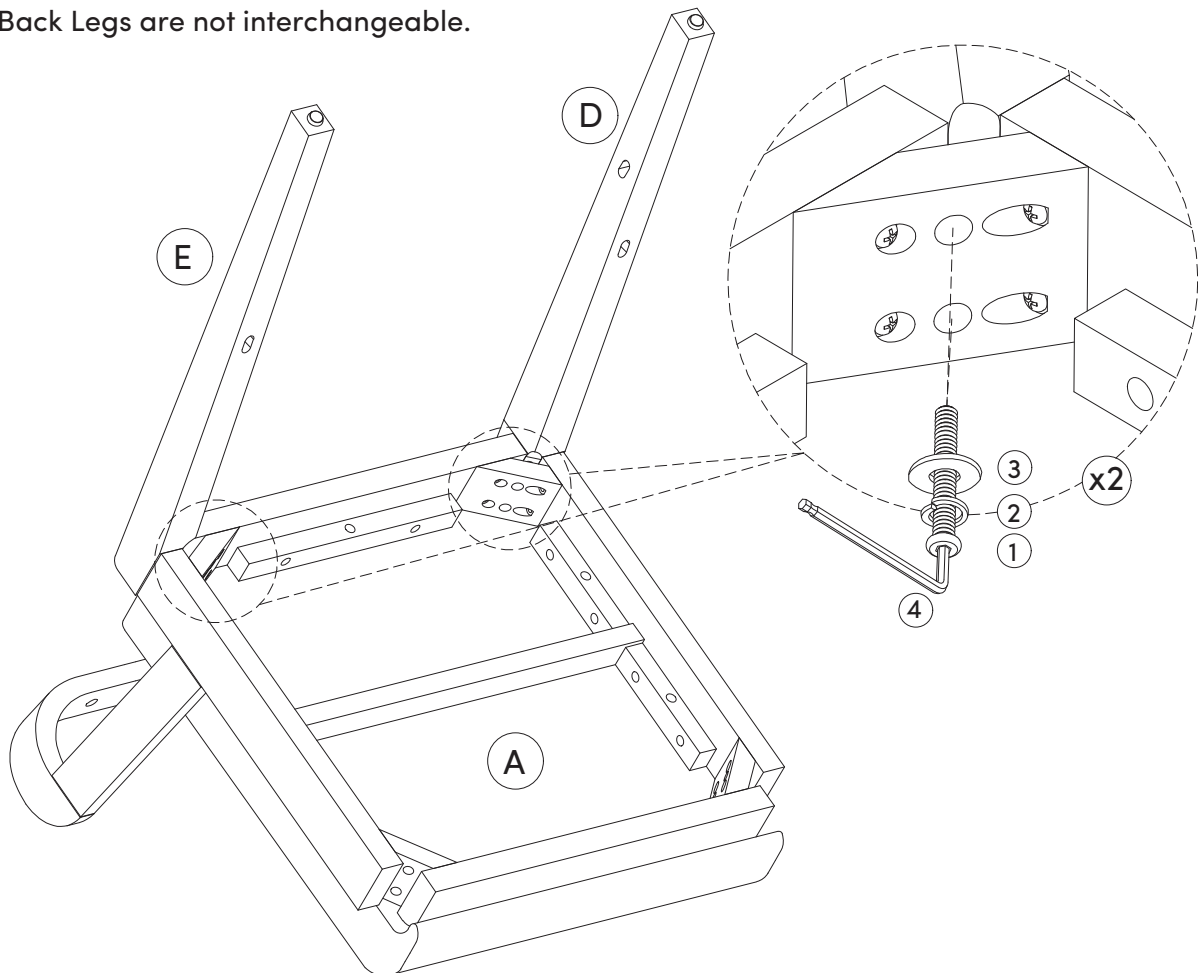

See, we told you this was going to be easy!

Do NOT overtighten hardware.
Tighten only to 75% for now.

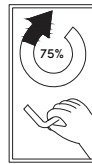

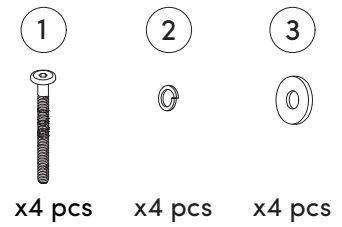

IMPORTANT NOTE:
⚠ Back Legs are not interchangeable.

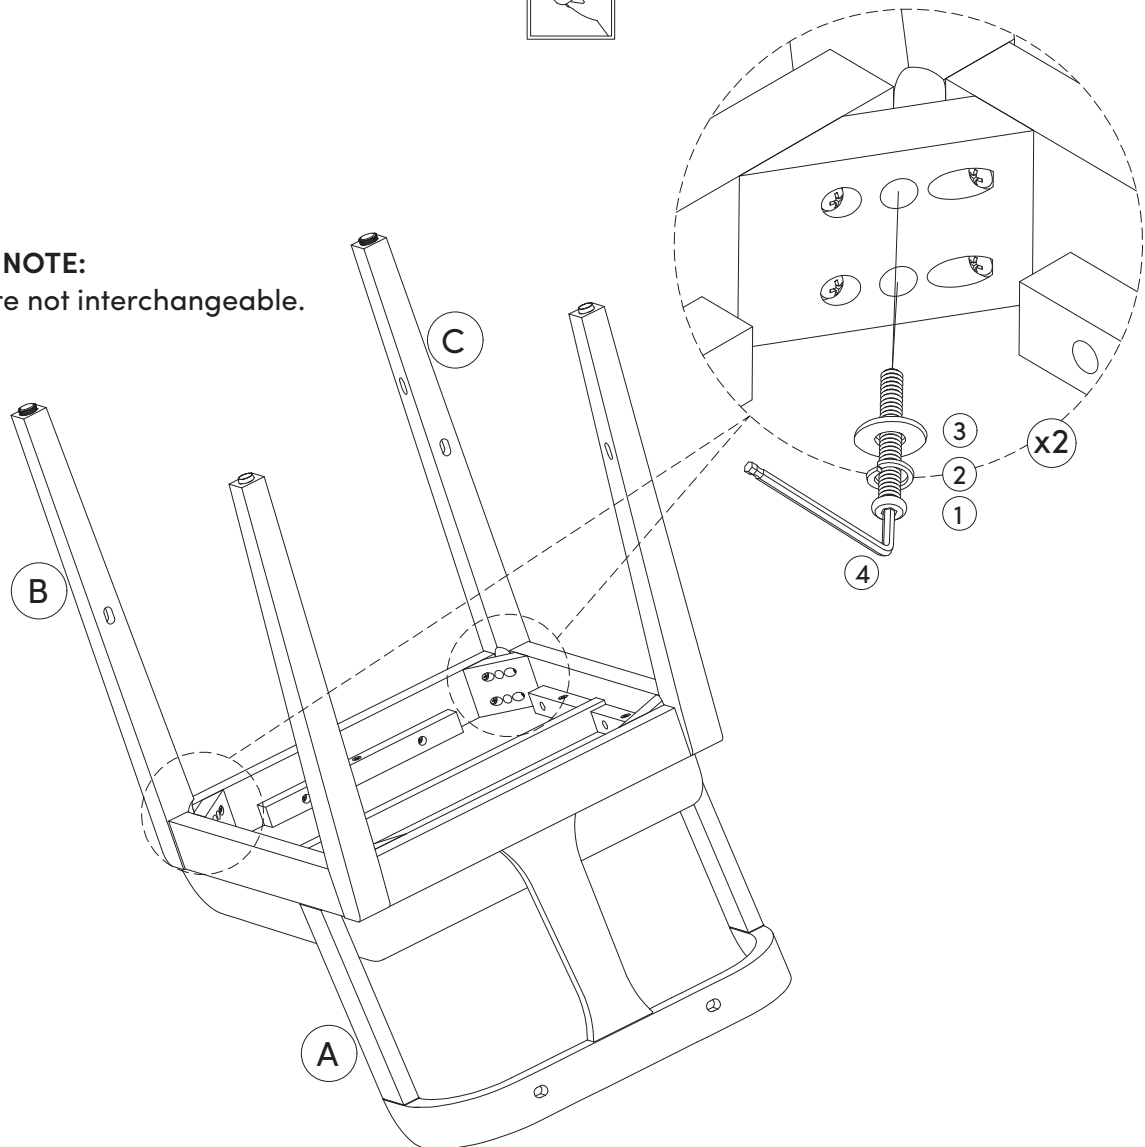

Step 2

Continue securing the Front Leg Left (C) and Front Leg Right (B) to the Seat Assembly (A) using another four sets of 1/4" x 10mm Lock Washers (2), 1/4" x 19mm Flat Washers (3), and 1/4" x 60mm Hex Button Head Bolts (1).

IMPORTANT NOTE:
Front Legs are not interchangeable.

Step 3

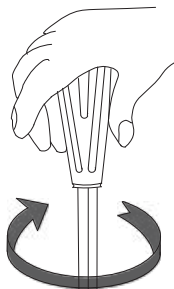

Secure the Footrests (G) and the Side Stretchers (F) to the legs using a screwdriver and M4 x38mm Phillips Head Screws (5).

We told you this was going to be easy!

x8 pcs

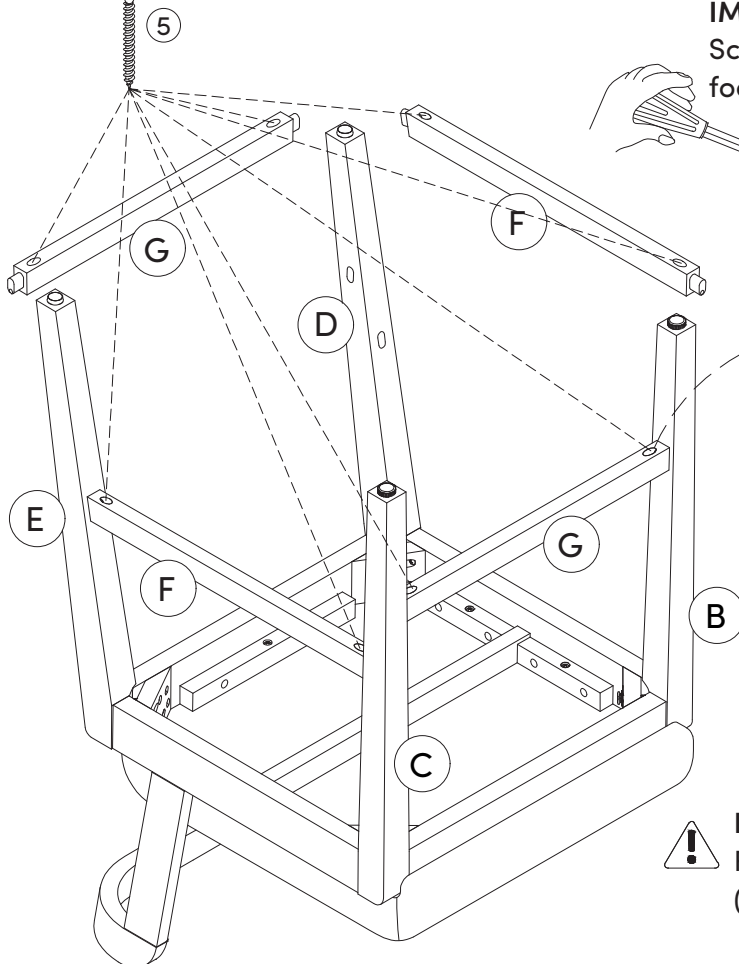

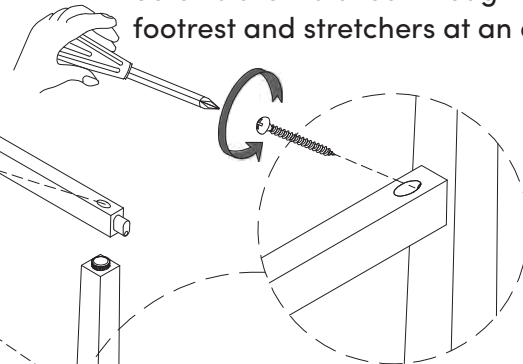

If you are having trouble getting the screws to catch, it is recommended to carefully use an electric screwdriver or drill with necessary bit for this step.

Do not over-tighten; holes may become stripped.

IMPORTANT NOTE:

Screws are installed through the footrest and stretchers at an angle.

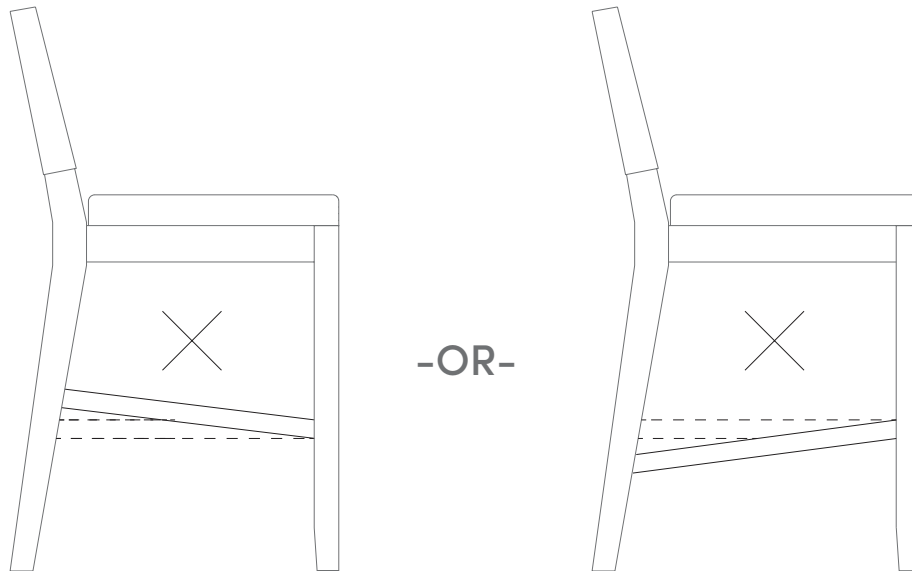

IMPORTANT NOTE:

Front Legs are not interchangeable.
(see following page)

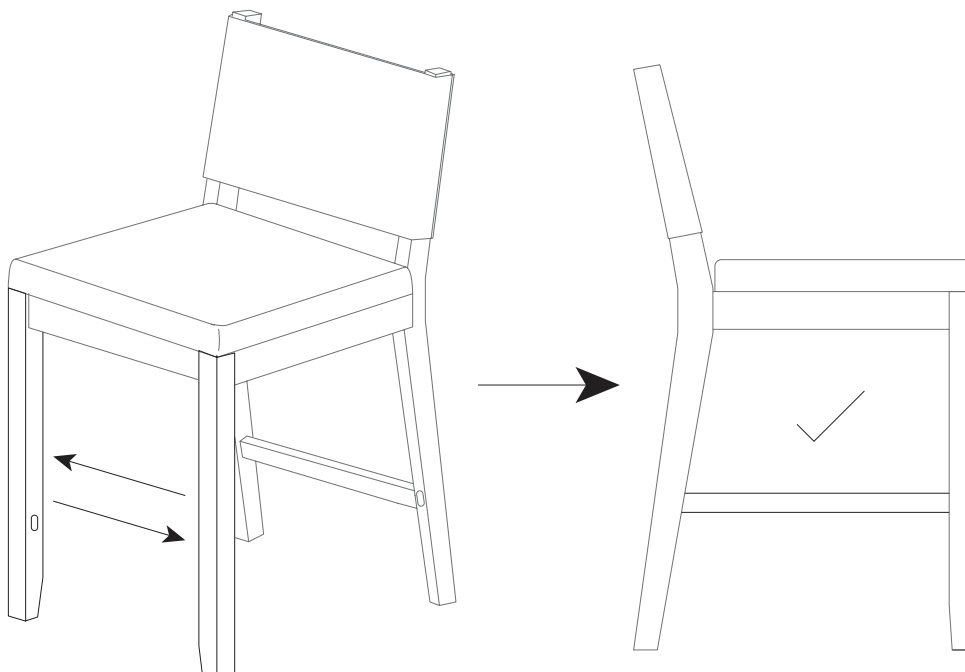

Issues with stretchers aligning at an angle?

If the stretchers are set at an angle when you are aligning them with their respective holes on the front & back legs, **you have likely assembled the front legs incorrectly.**

Re-check to confirm that the proper legs are installed in their intended position on the proper side of the stool.

The front legs are not interchangeable; therefore they may need to be rotated and swapped to the opposite side.

Step 4

Time to install the Back Cushion!

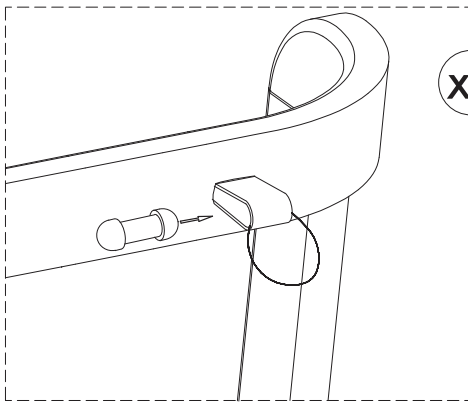

First, insert the ears of the Back Cushion (H) through the holes in the Seat Assembly. Then, secure it in place using the Wooden Toggle (6), as shown below.

Step 1

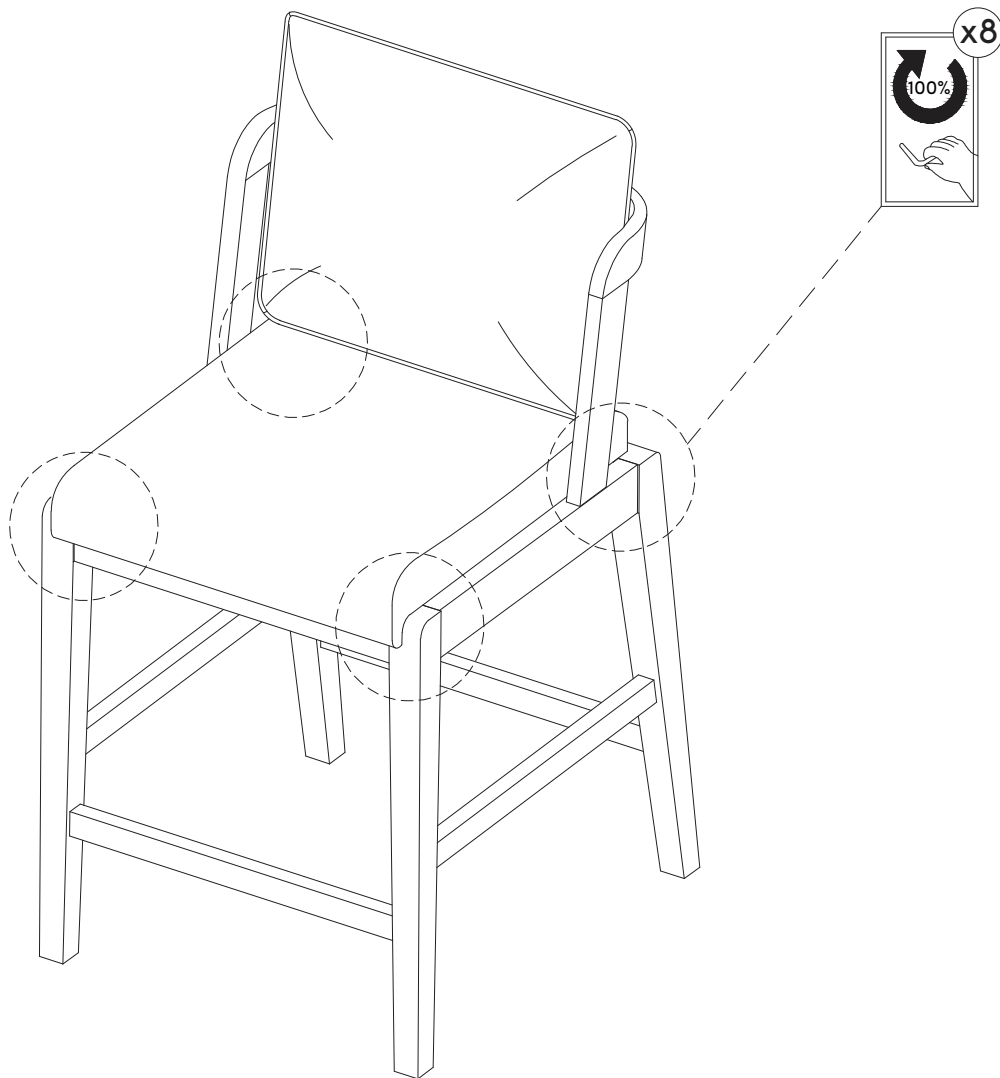

Step 2

Step 5

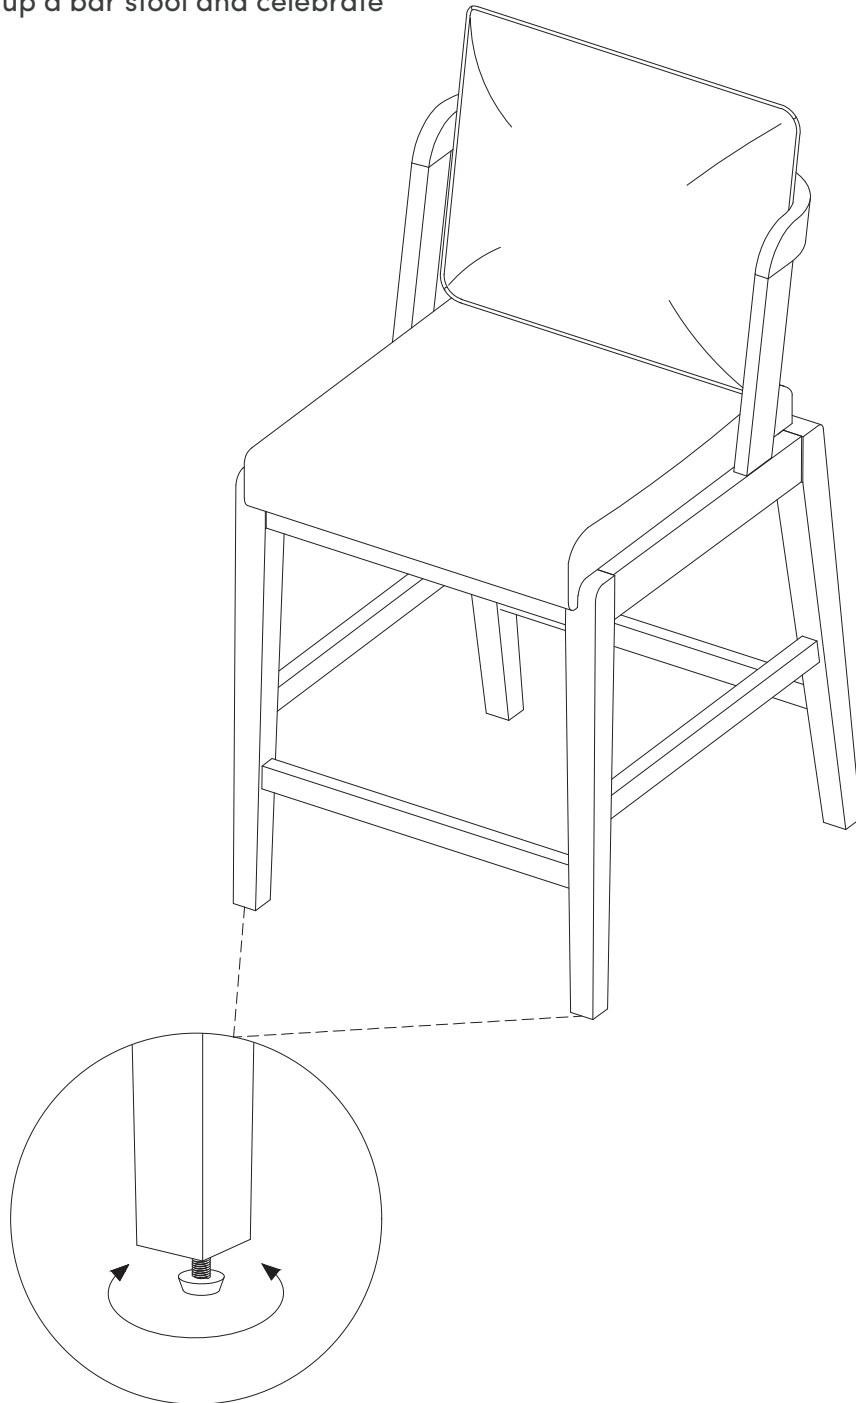

Carefully flip the stool over on a flat surface and make sure that the legs are touching the ground evenly before tightening everything to 100%.

Step 6

Now, for some final fine tuning, if your stool needs it. If it's still looking a little unlevel, adjust the levelers on the feet until it's nice and level.

You did it! Time to pull up a bar stool and celebrate with some pizza!

HELPFUL TIP:
Adjust the levelers to help further level the bar stool, if need be.
