# WARNING!!

Quote from CPSC:

"Abstract : This safety specification ASTM F2057-23, is intended to reduce injuries and deaths of children from hazards associated with tipover of clothing storage units."

Inline with this requirement, this Cabinet is shipped to you, **INCLUSIVE** with a Tip Restraining Device. It is highly recommended that you and or personally supervise for this device to be affixed to the cabinet before use.

Follow the instructions contained herein in the assembly of the Tip Restraint Device.

Take all precautions and **NEVER ALLOW** Children to climb or to hang on to any part of the furniture, including Drawers and cabinet Doors.

In addition to the installation of the Tip Restraint Device, your other actions to prevent tip-over(s) are :

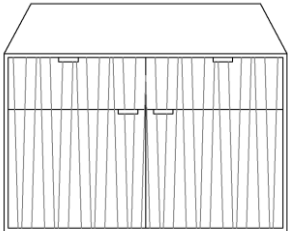

- 1.) **NEVER** place a TV or other heavy objects on top of this product.
- 2.) **NEVER** place Children Toys on top of this cabinet as this would attract your child to climb to the top of the Cabinet.
- 3.) **NEVER** place any Children Toys into any of the Drawers / Storage in this Cabinet where it would bring on a Child / Children to **CLIMB** and or **HANG** onto the Cabinet.
- 4.) **NEVER stand** on the Cabinet.

This Cabinet is **NOT DESIGNED and NOT INTENDED** to be used as a **CLOTHING STORAGE UNIT**.

# CABINET

## Parts List

③		Allen Wrench	1
④		Screwdriver (Not Provided)	1
⑤		Hammer (Not Provided)	1
⑥		Power Drill (Not Provided)	1
⑦		Washer	2
⑧		Wall Plug Screw (M8mmx28mm)	4
⑨		Product Screw (M3 x 12mm)	4
⑩		Metal Bracket	2
⑪		Wall plug (M5 x32mm)	2

# Assembly Preparation

Before Beginning Assembly:

A

B

• Read instructions, cover to cover-

• Have 2 adults on hand for assembly-

• Do not assemble on flooring or carpet-

• Assemble on a clean non-marring surface (packing foam)-

• Save all packaging until finished-

## Assembly Steps

### Overview

Cabinet (A)

Leg (B)

This Cabinet has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the cabinet parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below familiarize yourself with the parts and steps before assembly.

## Step 1

With assistance from your adult partner, place the Cabinet (A) face down as picture on clean surface. As shown in above picture, attach Leg (B) to Cabinet (A) using Washer (①) , Bolt(②) with Allen Wrench (③) . Repeat the same process to assemble remaining leg (B). DO NOT FULLY TIGHTEN THE BOLTS.

## Step 2

Turn the cabinet right side up.

Place the cabinet on a **LEVEL SURFACE**.

Inspect it and make sure all parts are adequately connected.

This would help to align all the parts at all the joint areas.

In a sequential manner, proceed to tighten all Bolts.

To tighten the Bolts at the base of the cabinet, do secure assistance from your adult partner(s). You may be required to turn the cabinet, to gain easy access to the secure points.

Turn the cabinet in a synchronized manner.

**CAUTION 1: When tightening these Bolts, tighten sequentially.**

**DO NOT** tighten any Bolts fully and then towards the next one.

**This would cause the frame to warp.**

**If there is still wobble, loosen the Bolts and execute this same process.**

**WARNING!! IF CABINET IS NOT STABLE , IT COULD LEAD TO**

**DAMAGING THE PRODUCT.** Ensure all Bolts are fully locked into position.

**CAUTION 2: This cabinet can only be used on a flat, level surface.**

# Tipover Restraint Device Installation Instruction

## WARNING

Serious or fatal crushing injuries can occur from tipping furniture.

**To help prevent tip-over : ALWAYS secure this furniture to the wall using tipover restraint device.**

See products instruction for more ways to help prevent furniture tip-over

## Usage For Tipover Restraint Device:

To secure Cabinet against wall, attach two Brackets (10) on wall and the Product.

## Step 3

3.1) Drill two holes on wall at same height as Bracket (10) on Cabinet (A) with Power Drill (6).

**You can mark these points in the ways as below:**

1) Move the Cabinet back to the wall. Mark two point same height and width as Cabinet on the wall.

**Note : The brackets need to be secured to solid ,load bearing surface. Please use a stud finder (not supplied) if needed to locate the wall frame.**

2) Measure the height of the Brackets (10) with ruler/measuring tape and mark on wall to keep them accurate and same height and width as the Cabinet.

3.2) Insert wall plugs (11) into drilled holes on wall with Hammer (5).

## **Step 4**

Attach Brackets (10) to Wall Plugs (11) using Wall Plug Screws (8) Washer (7) with Screwdrivers (4)

## **Step 5**

Move Cabinet to the wall, customer can use one of 3 holes for assembly same as other side.

Connect the Metal Bracket (10) to Cabinet with help of product Screw (9) and Screwdriver (4) same as other side.

This Cabinet is now ready to use.
