Antler Table Lamp

Easy Installation

1. Unpack all parts from cartons carefully.
2. Install the KD shade with bracket.
3. Squeeze harp together and insert into saddle.
4. Install bulb onto the lampholder.
5. Place the shade onto harp and tighten finial.

Antler Table Lamp

Note:

- You can grasp the finial and fastener together to adjust the shade to correct position if it is skew. Fastener is slightly rotatable by external force.
- Refer to the wattage caution label located.
- Do not attempt to replace the bulb while the lamp is plugged into a wall receptacle.
