## SKU N707P360278

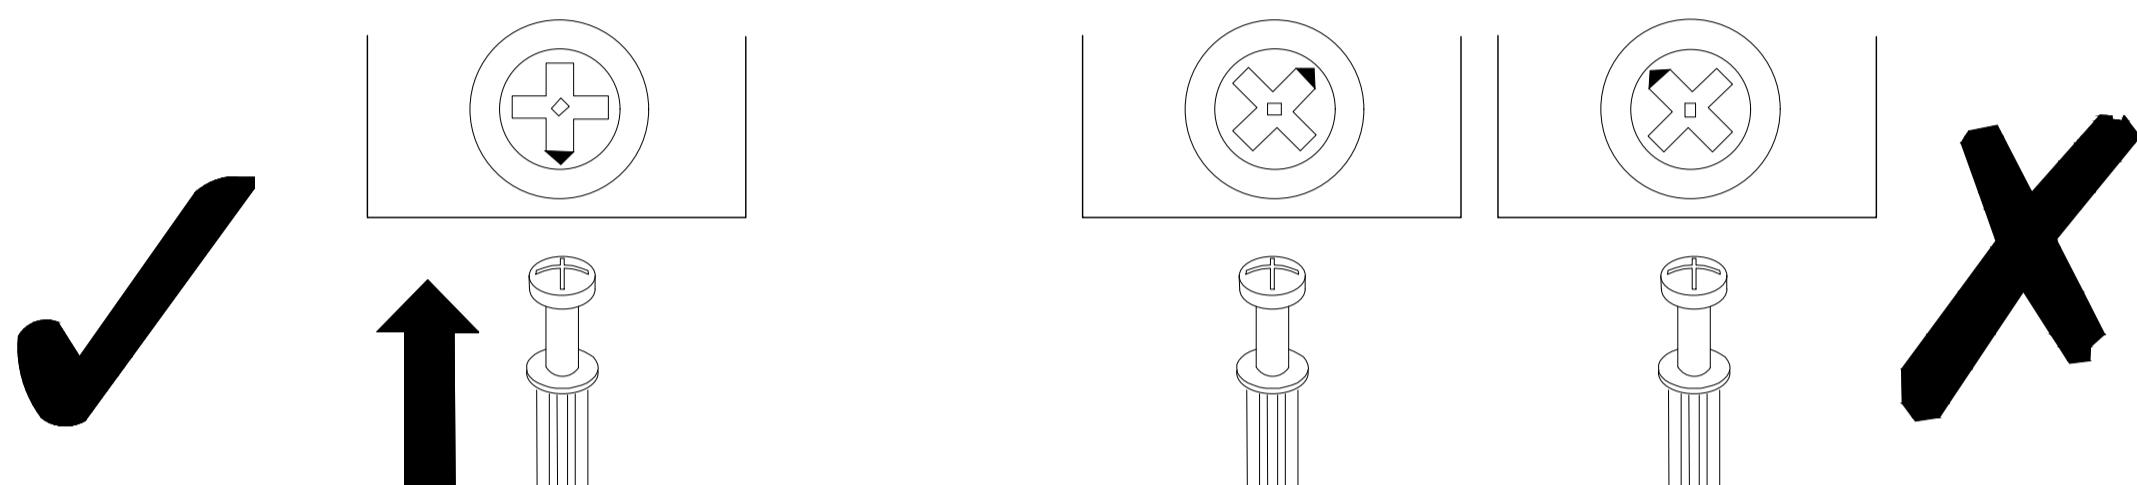

Assembly instructions-Please keep for future reference

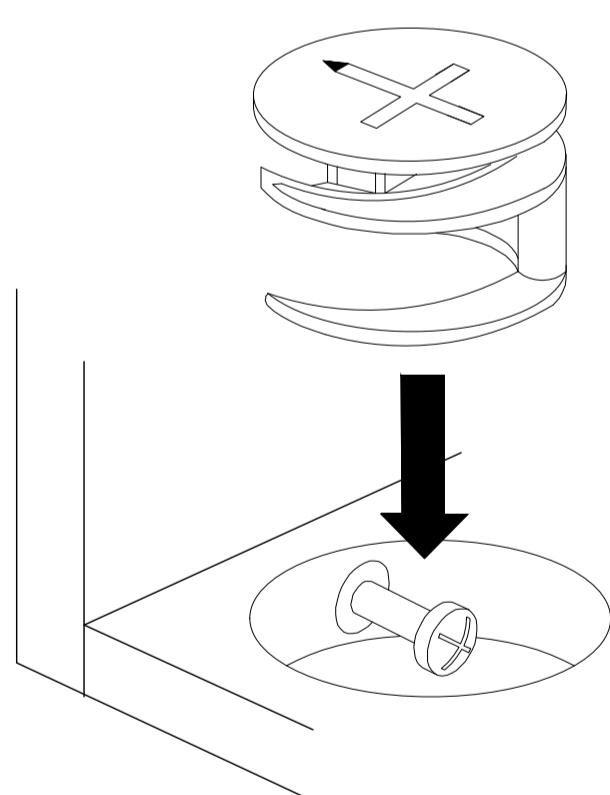

Important-Please read these instructions fully before starting assembly

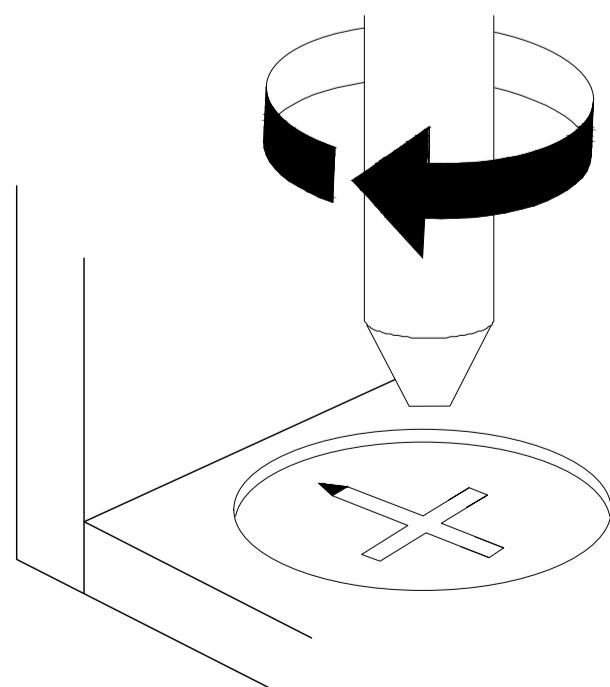

**QUICKFIT:** Tighten quickfit until shoulder is flush with panel.  
Do not overtighten or undertighten.

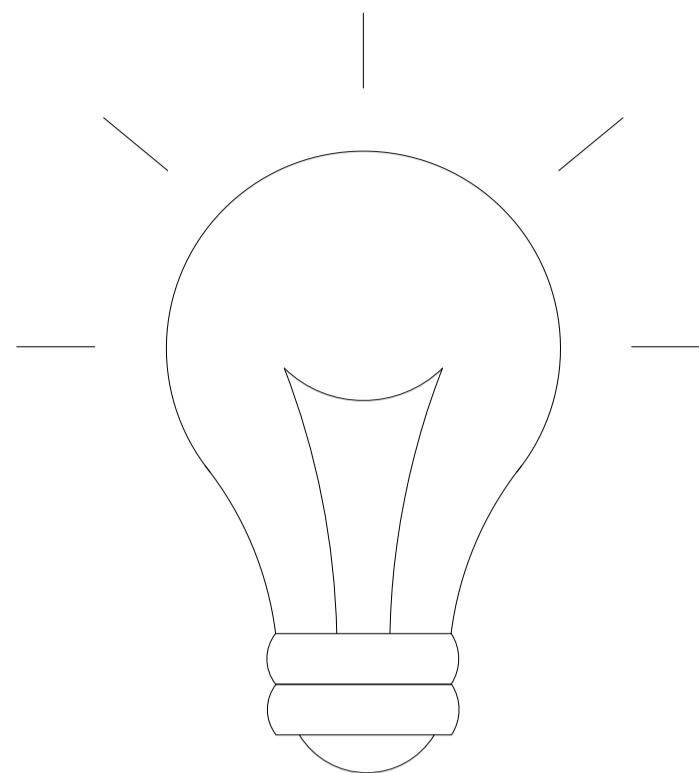

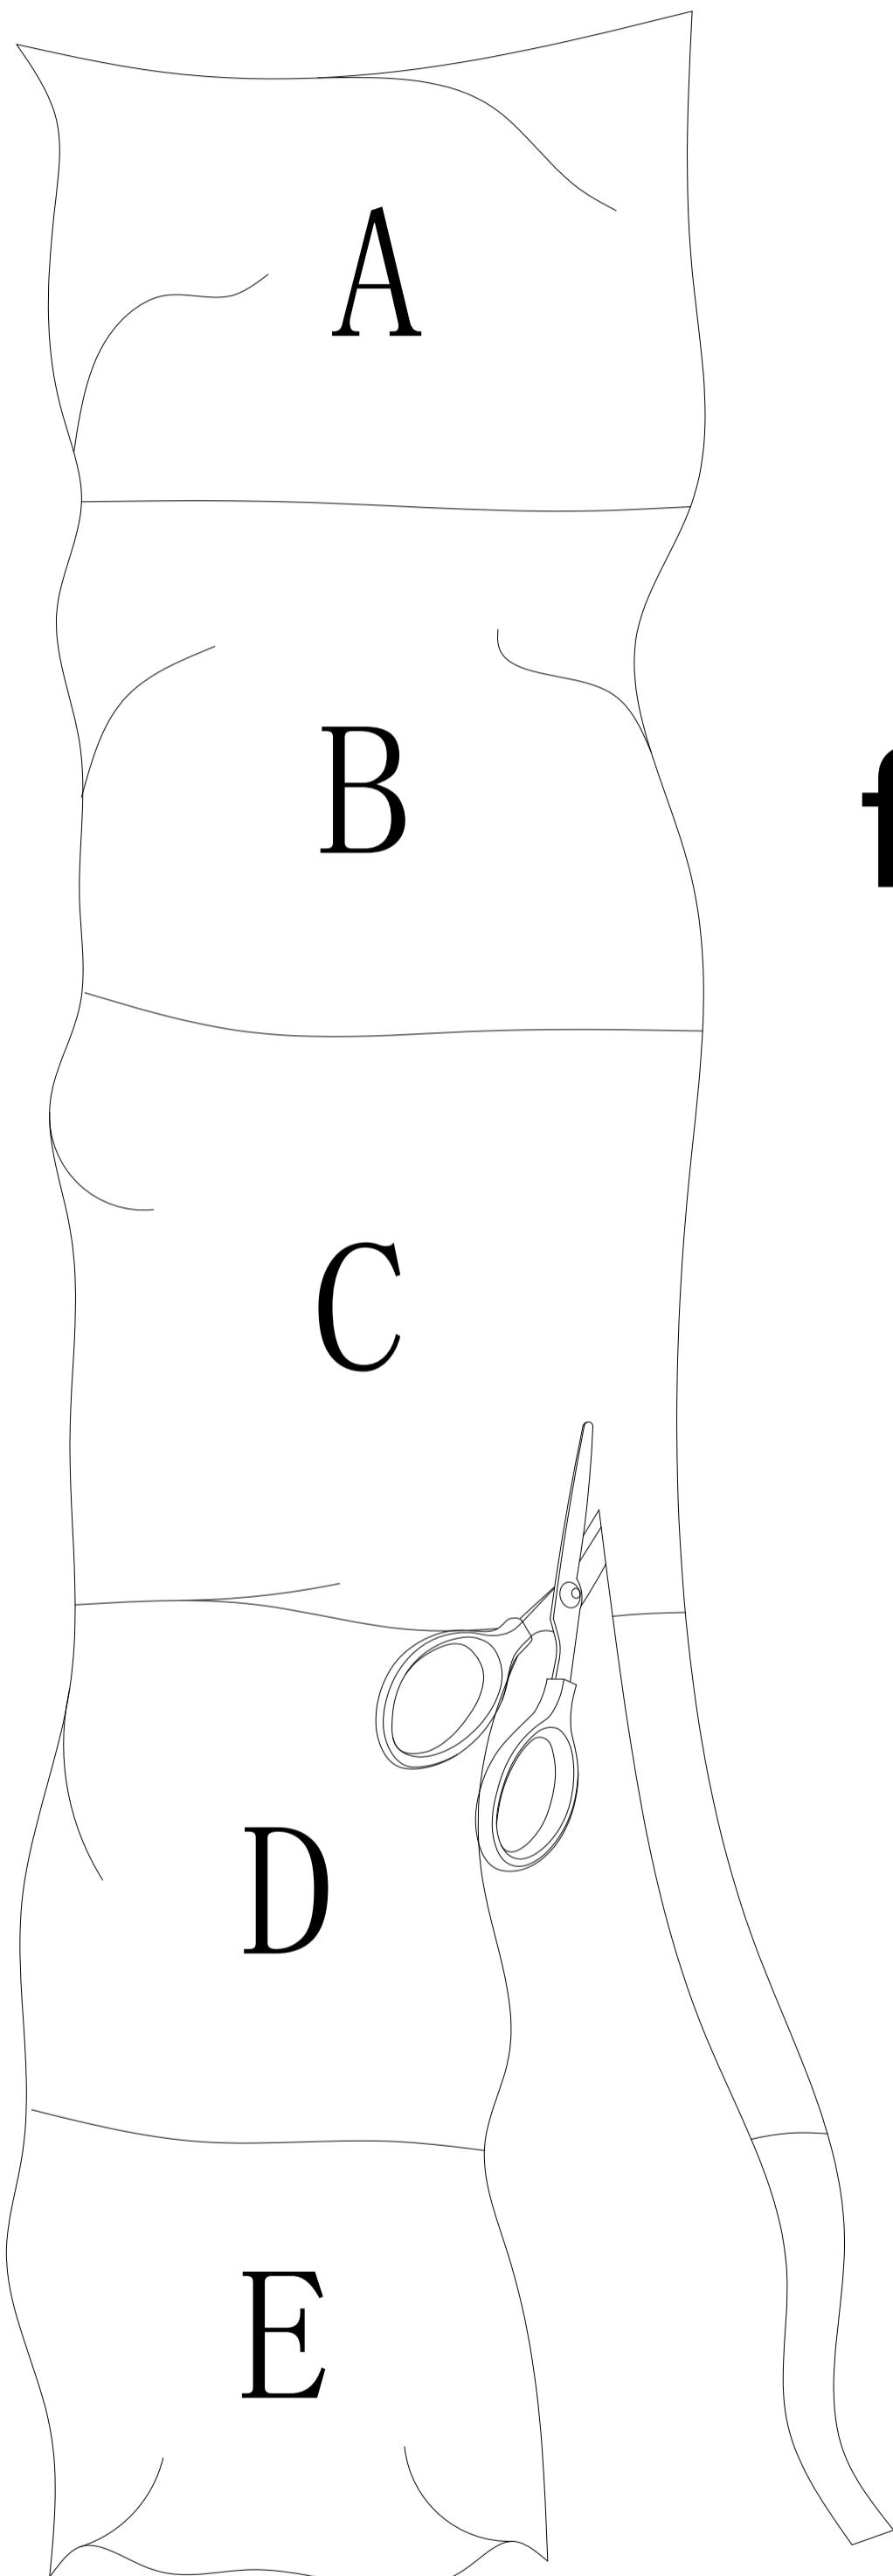

**LOCK:** When fitting cam lock, ensure starting position is correct before you insert connecting quickfit.

Quickfit head should be in the centre of the cam lock when the two panels are joined.  
Cam lock should be inserted before quickfit.

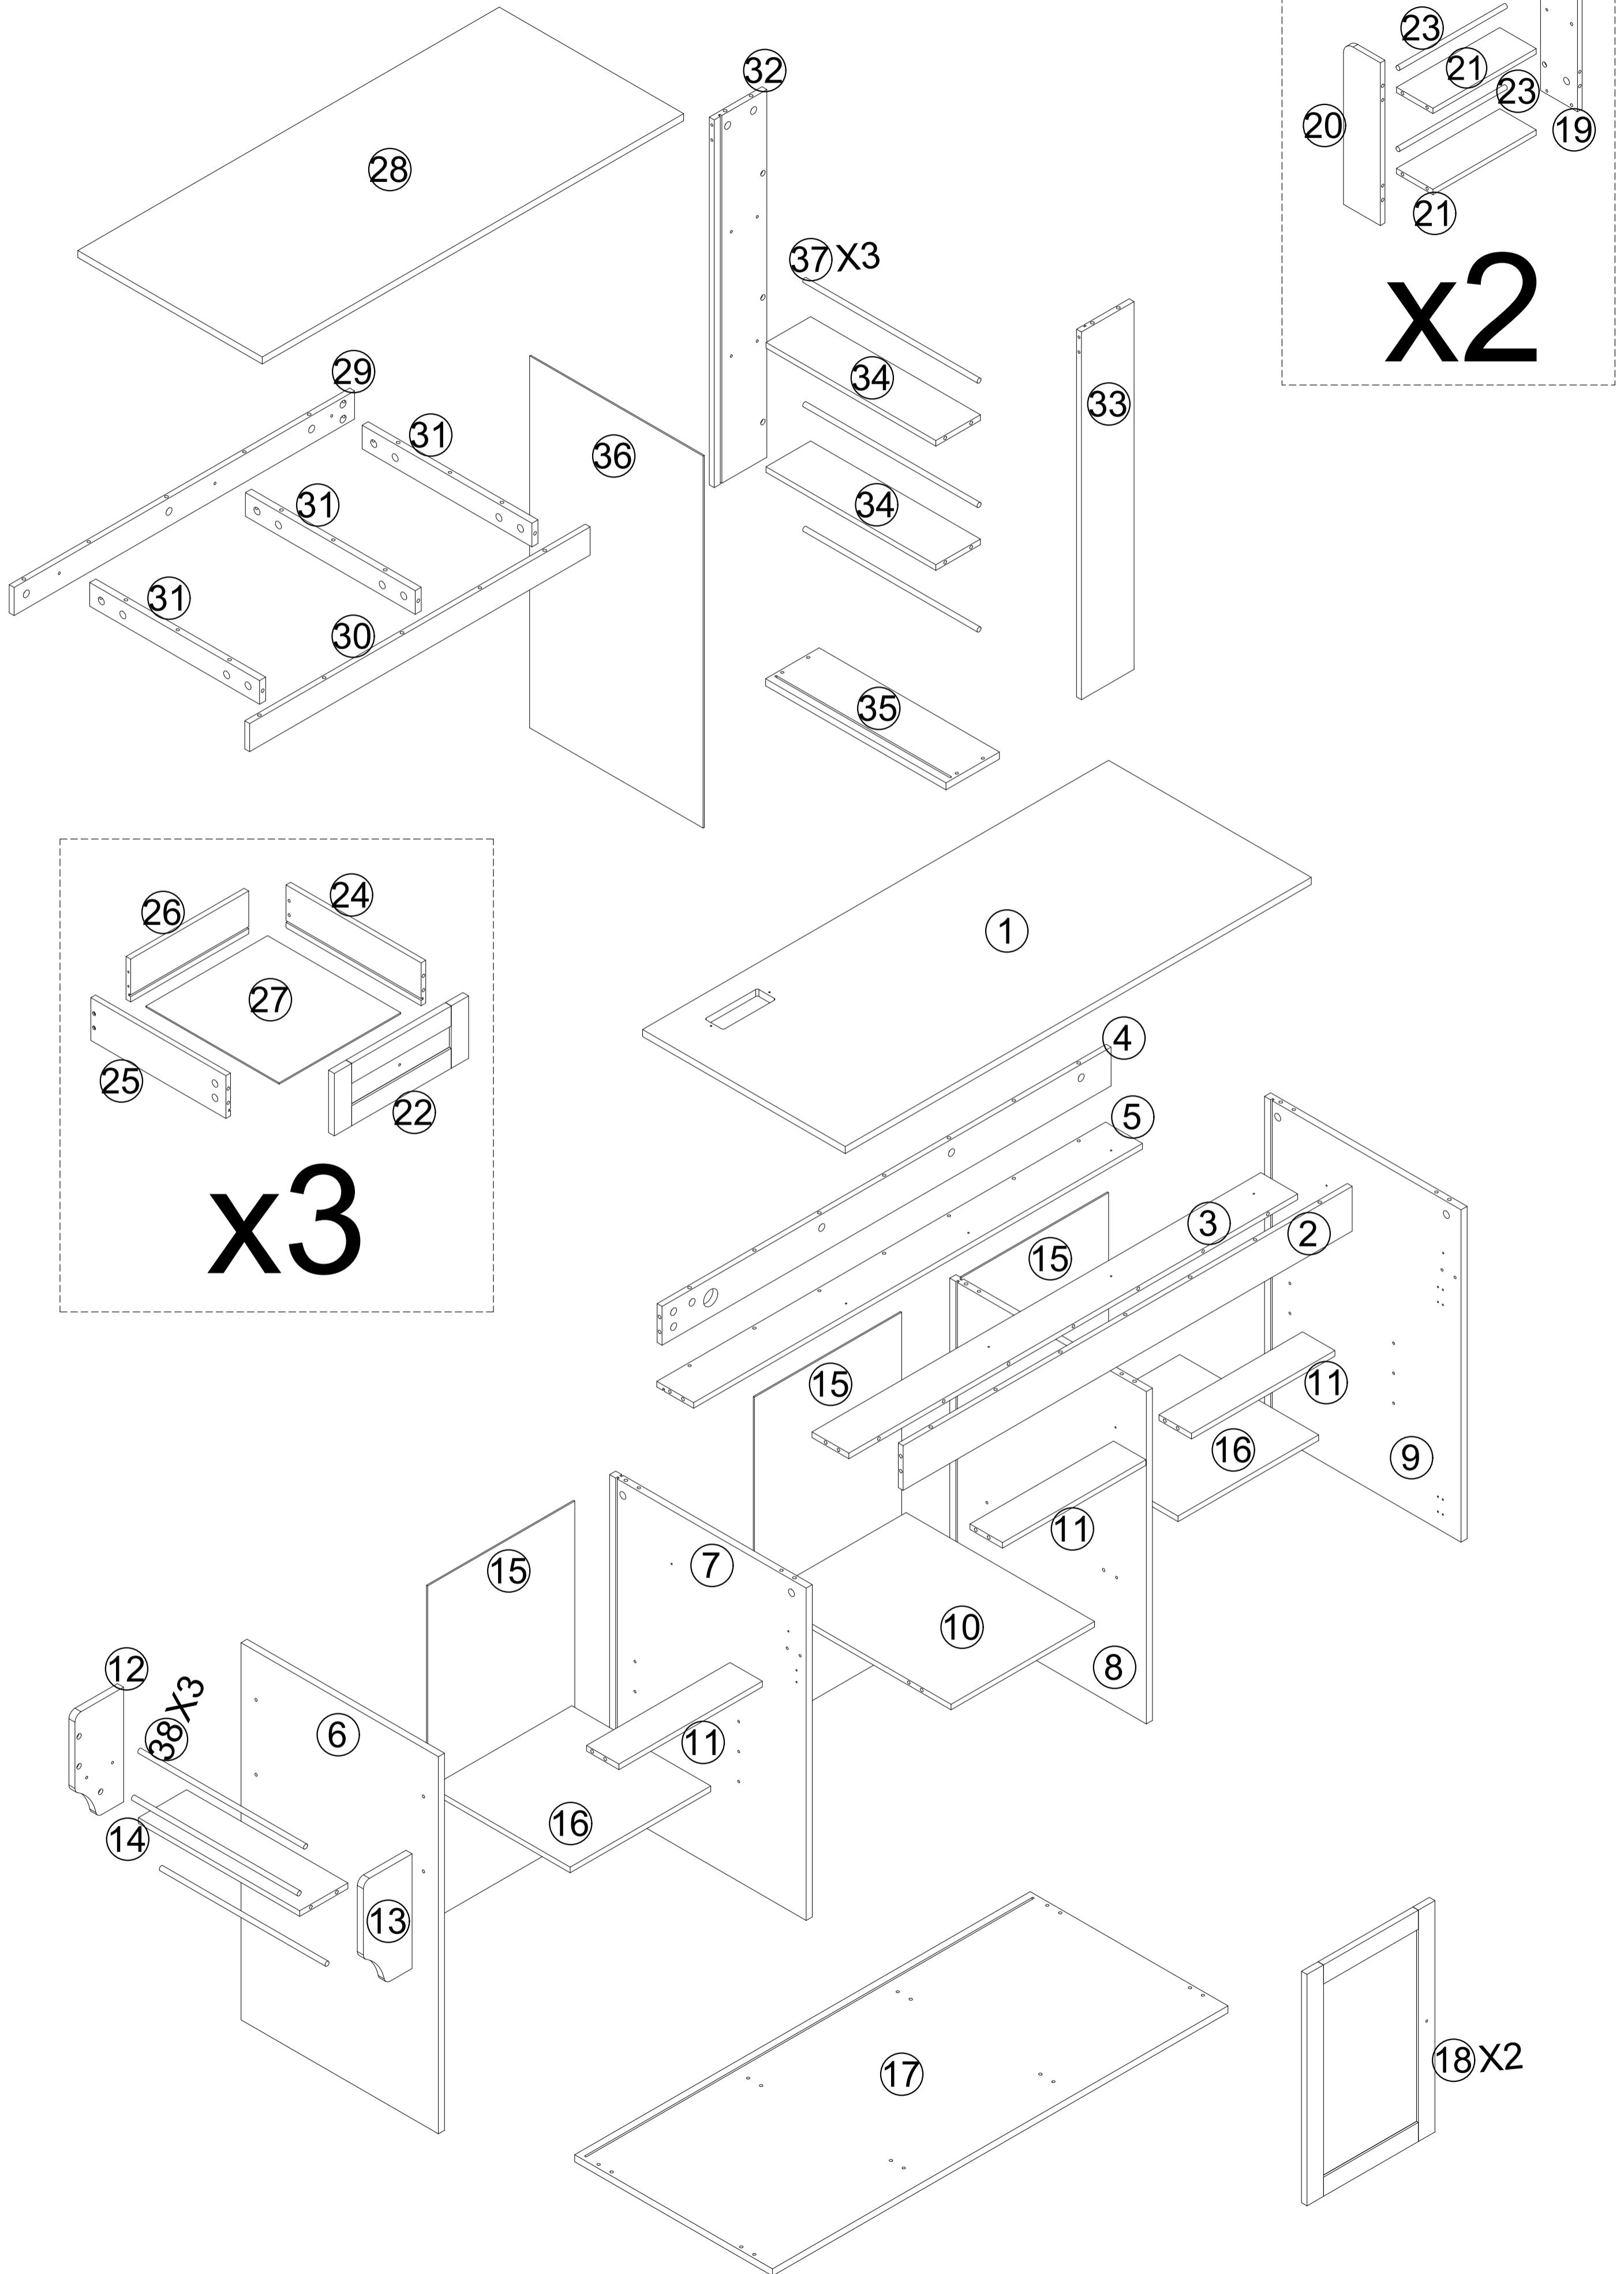

Turn cam lock clockwise to tighten.

## friendly reminder

To avoid errors and confusion during the installation of accessories, use the type and quantity of hardware accessories according to the installation procedure described in the instructions. First, unroll the accessories bag and lay out the hardware accessories, cut holes in the side, and take out the hardware accessories

# Assembly Steps

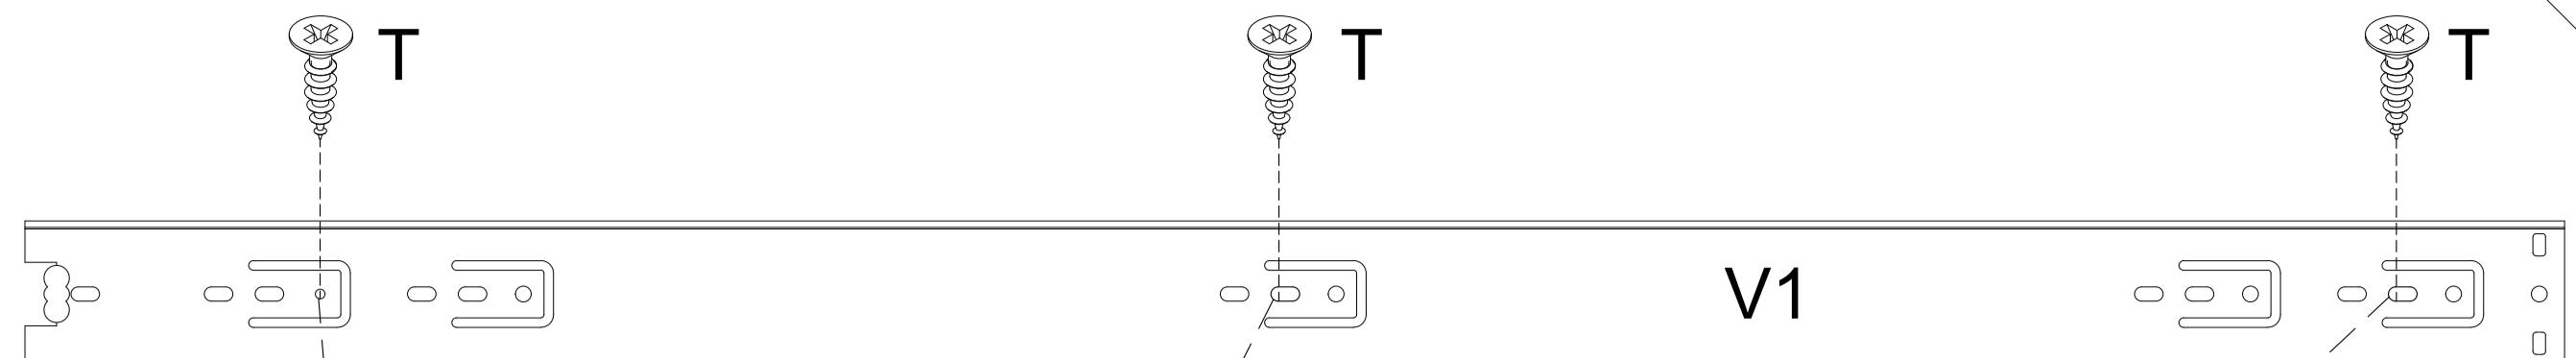

1

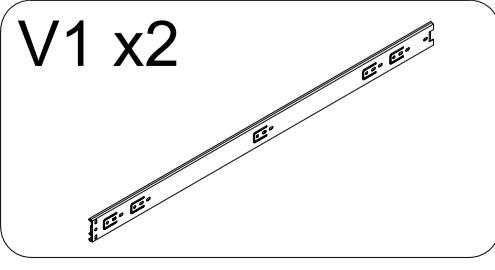

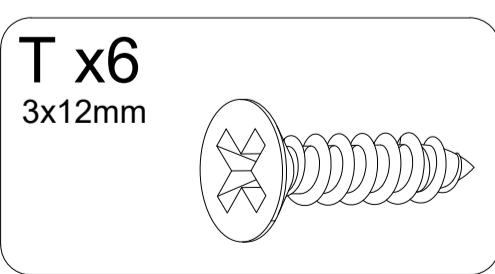

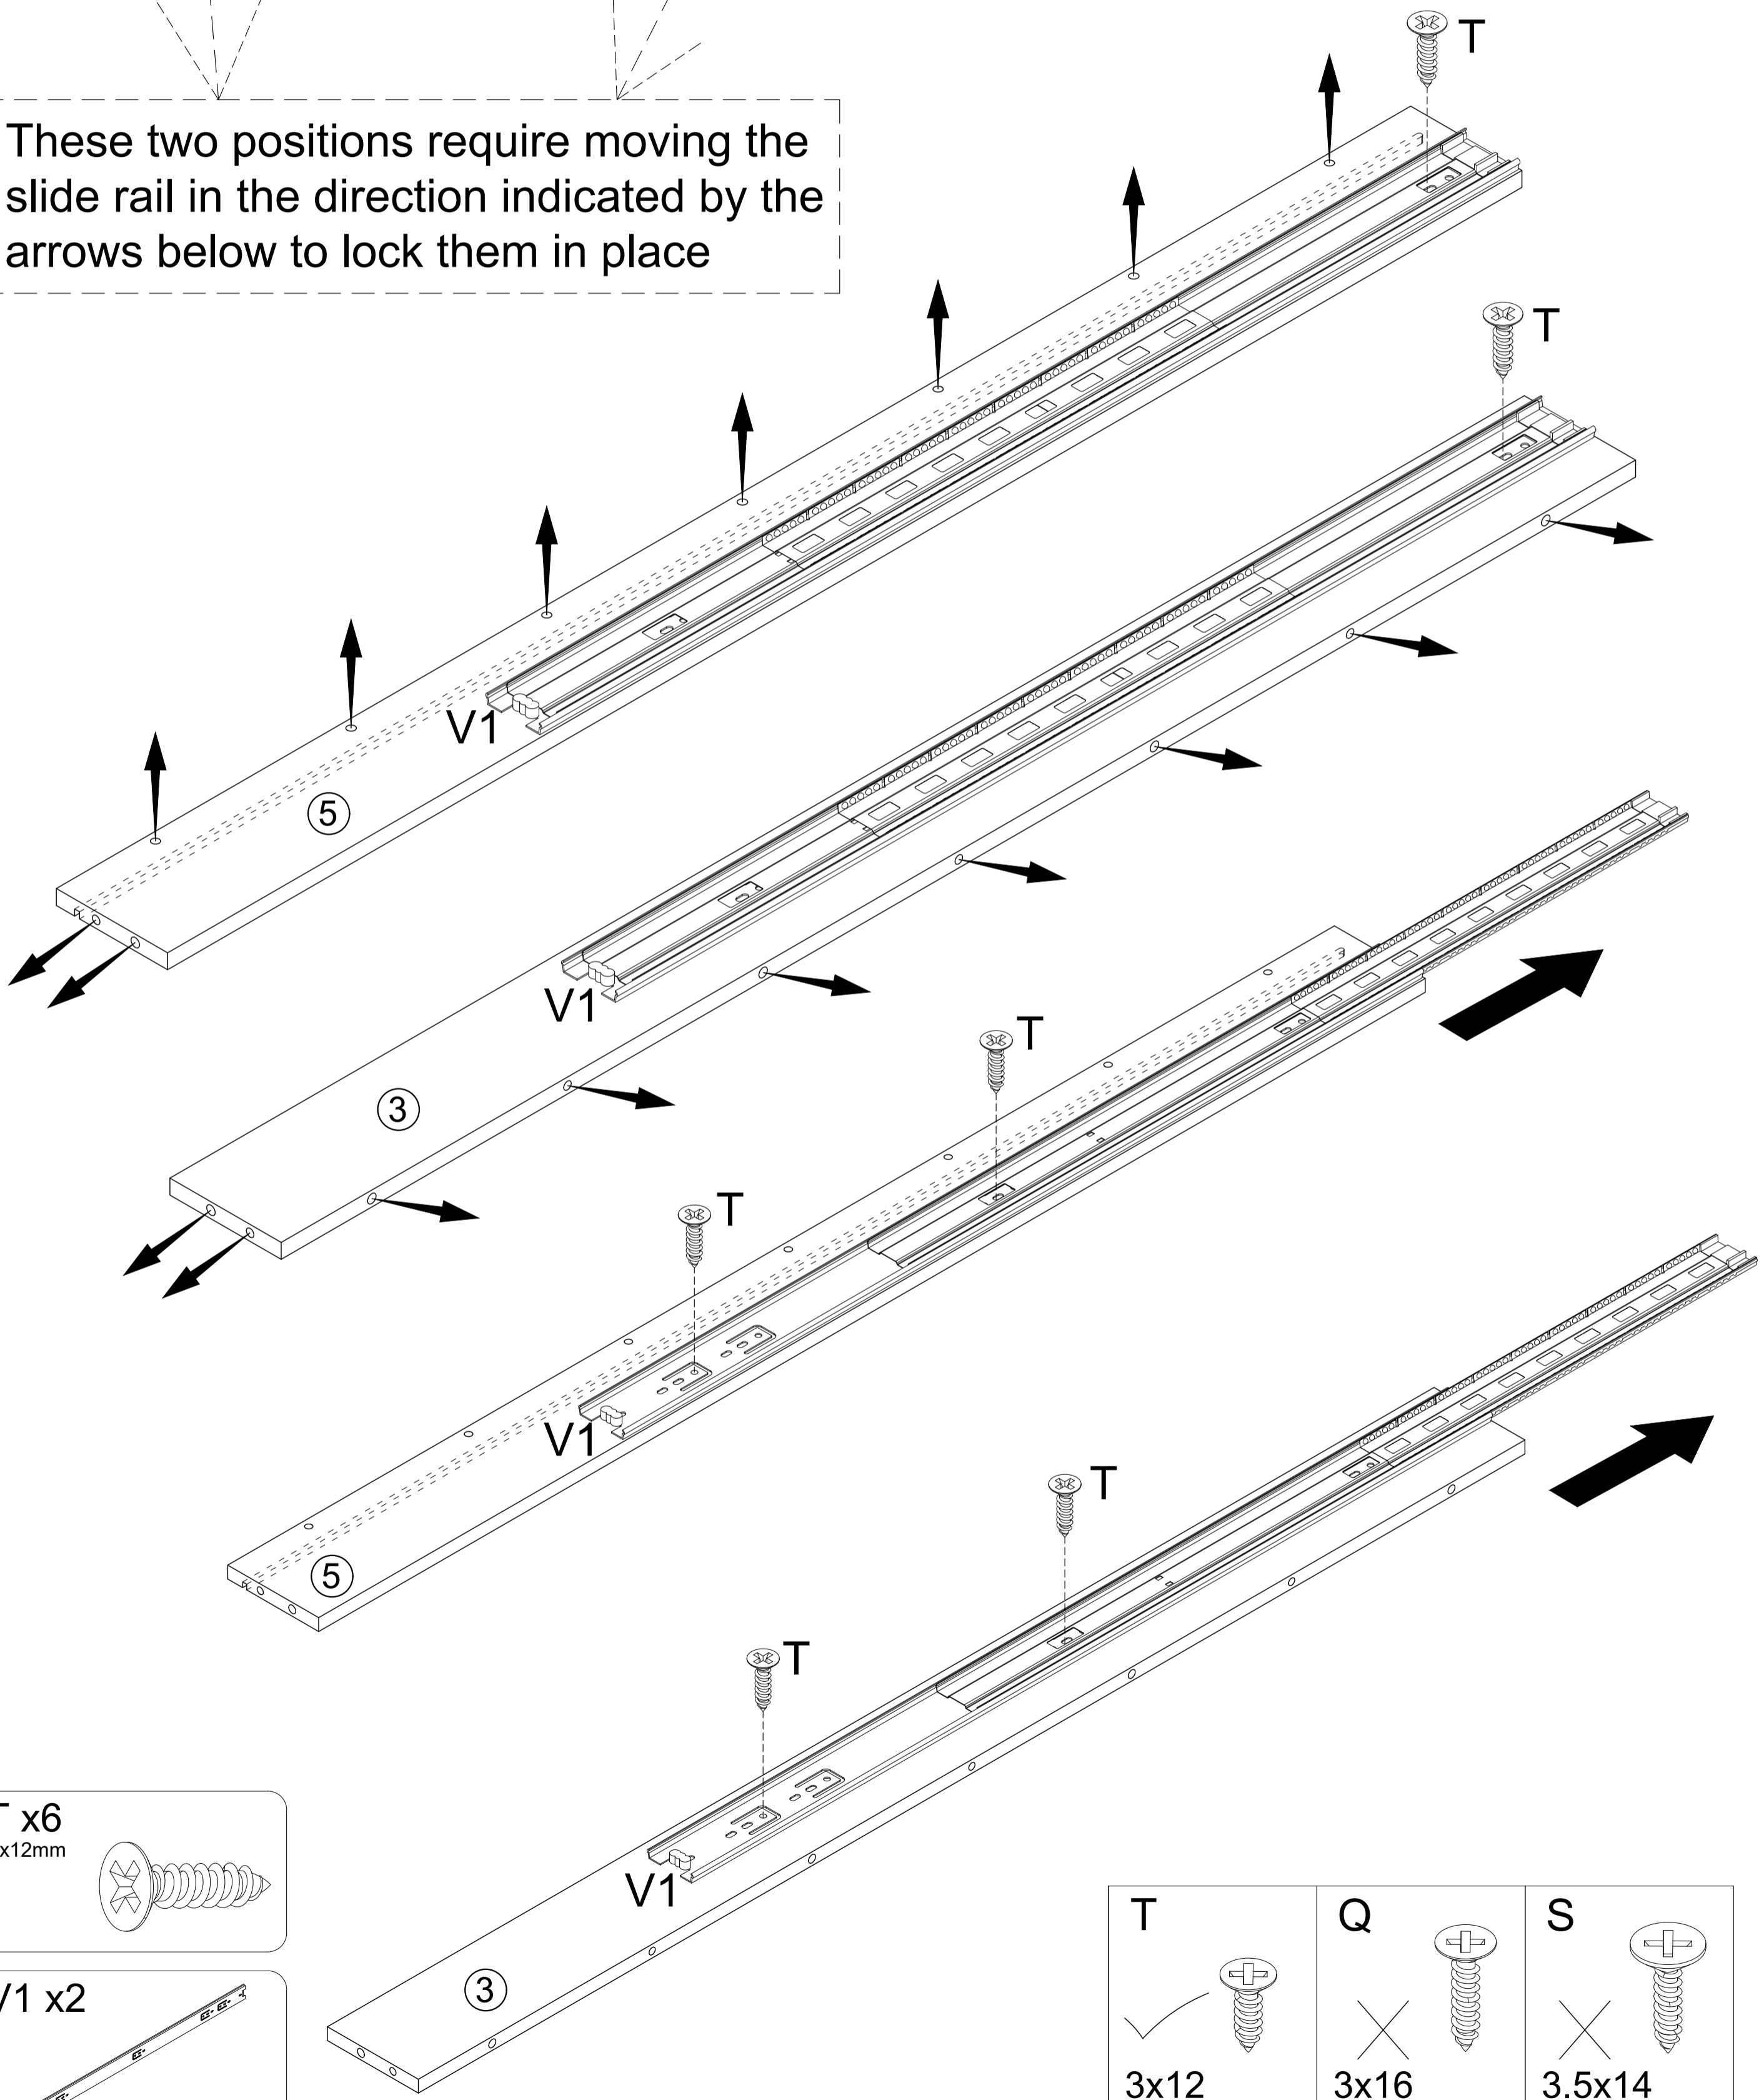

2

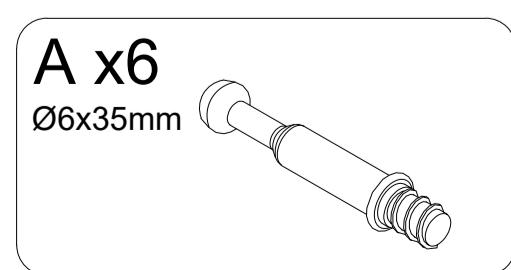

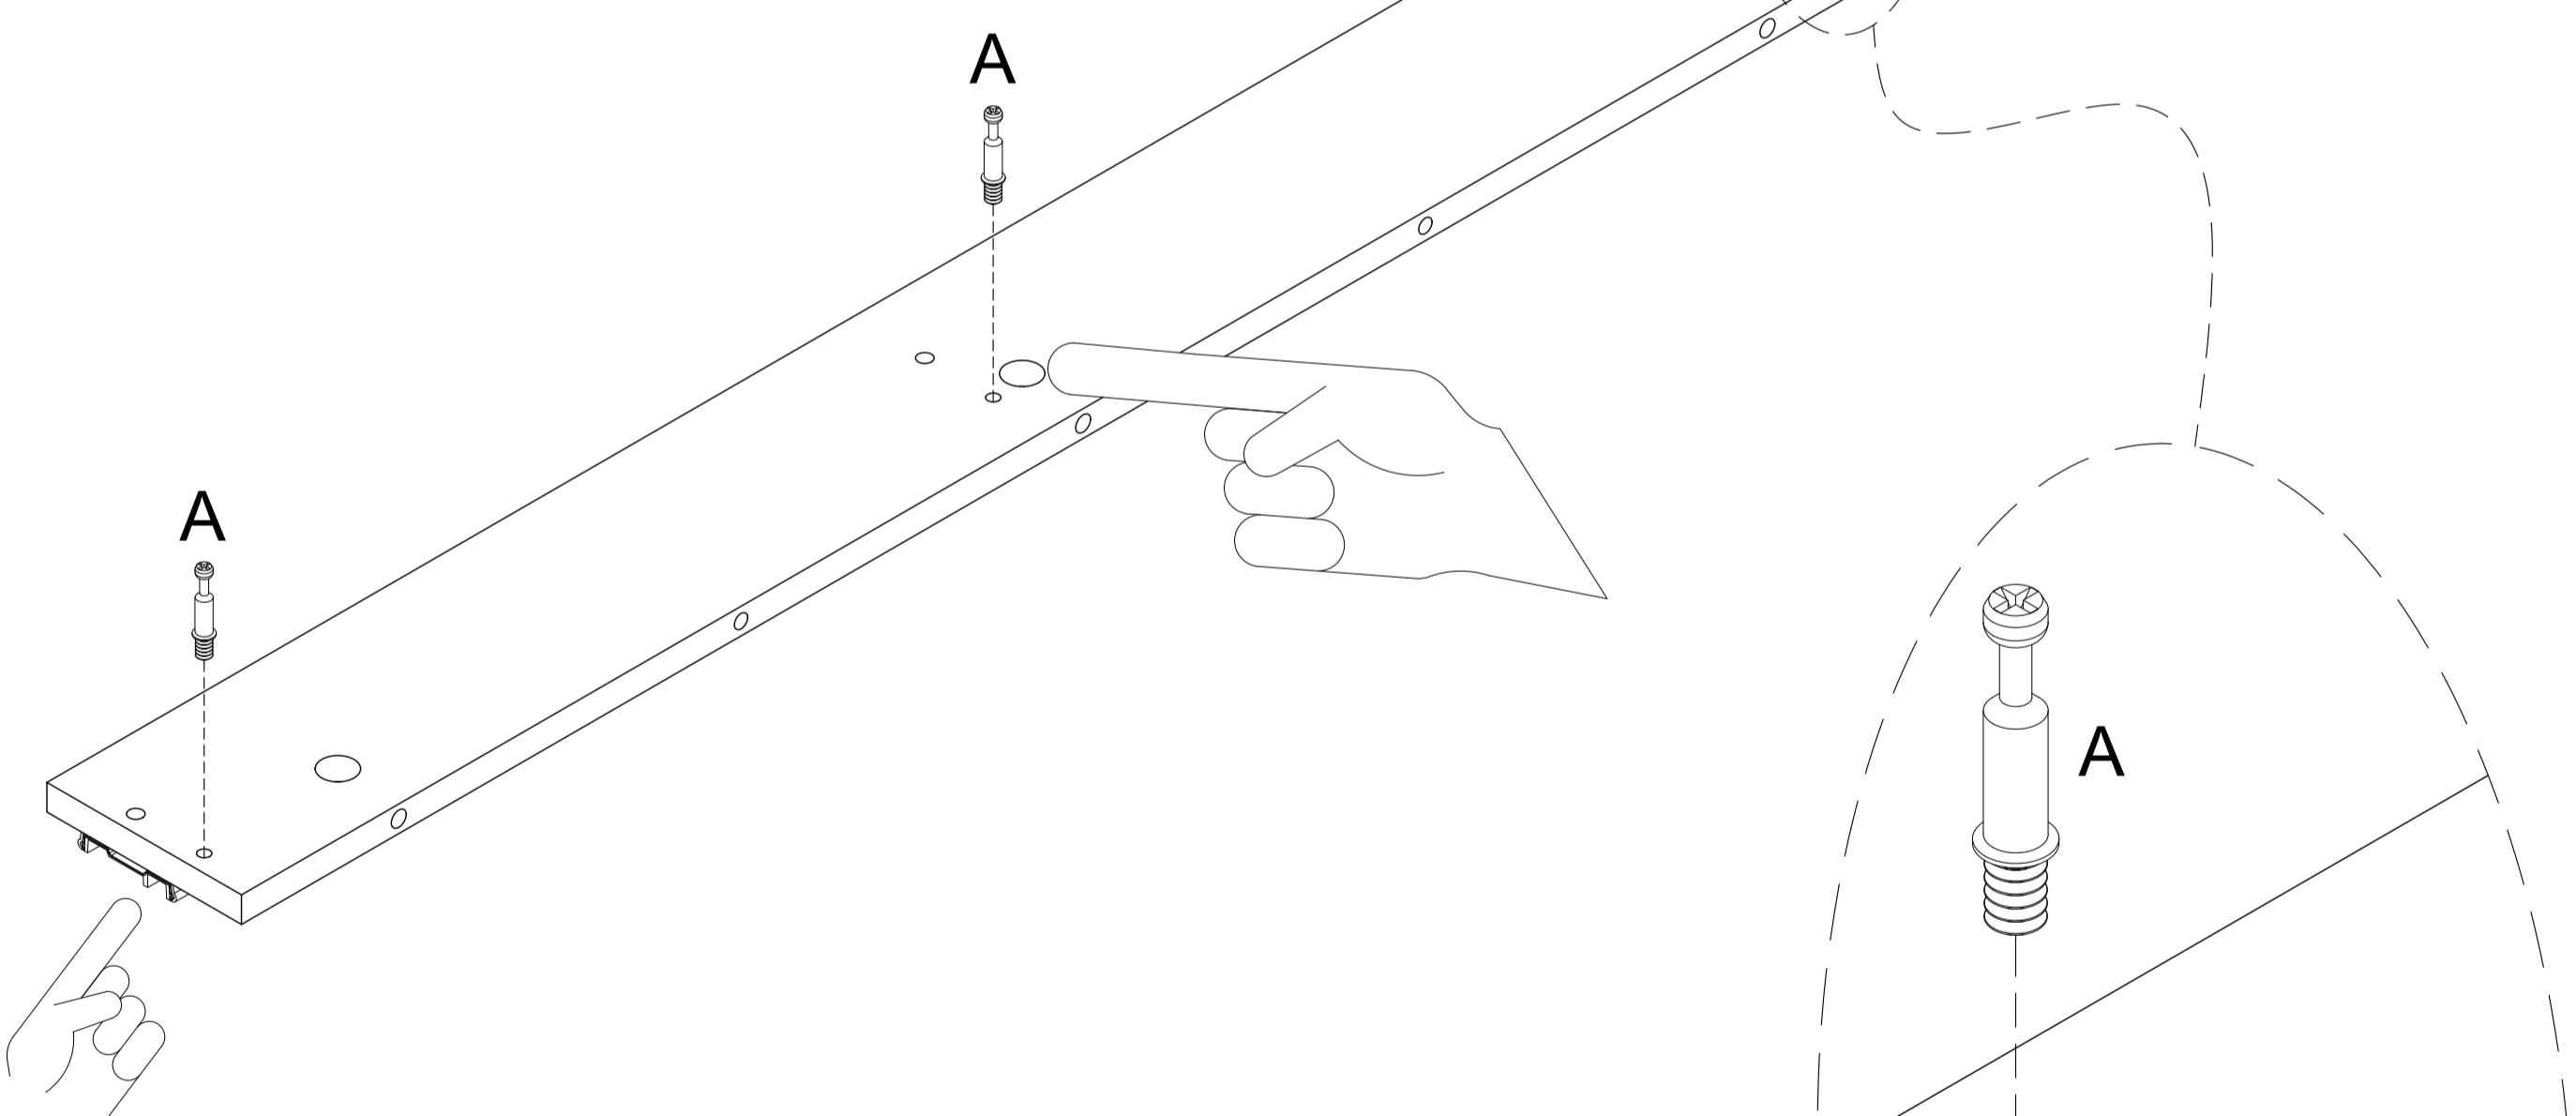

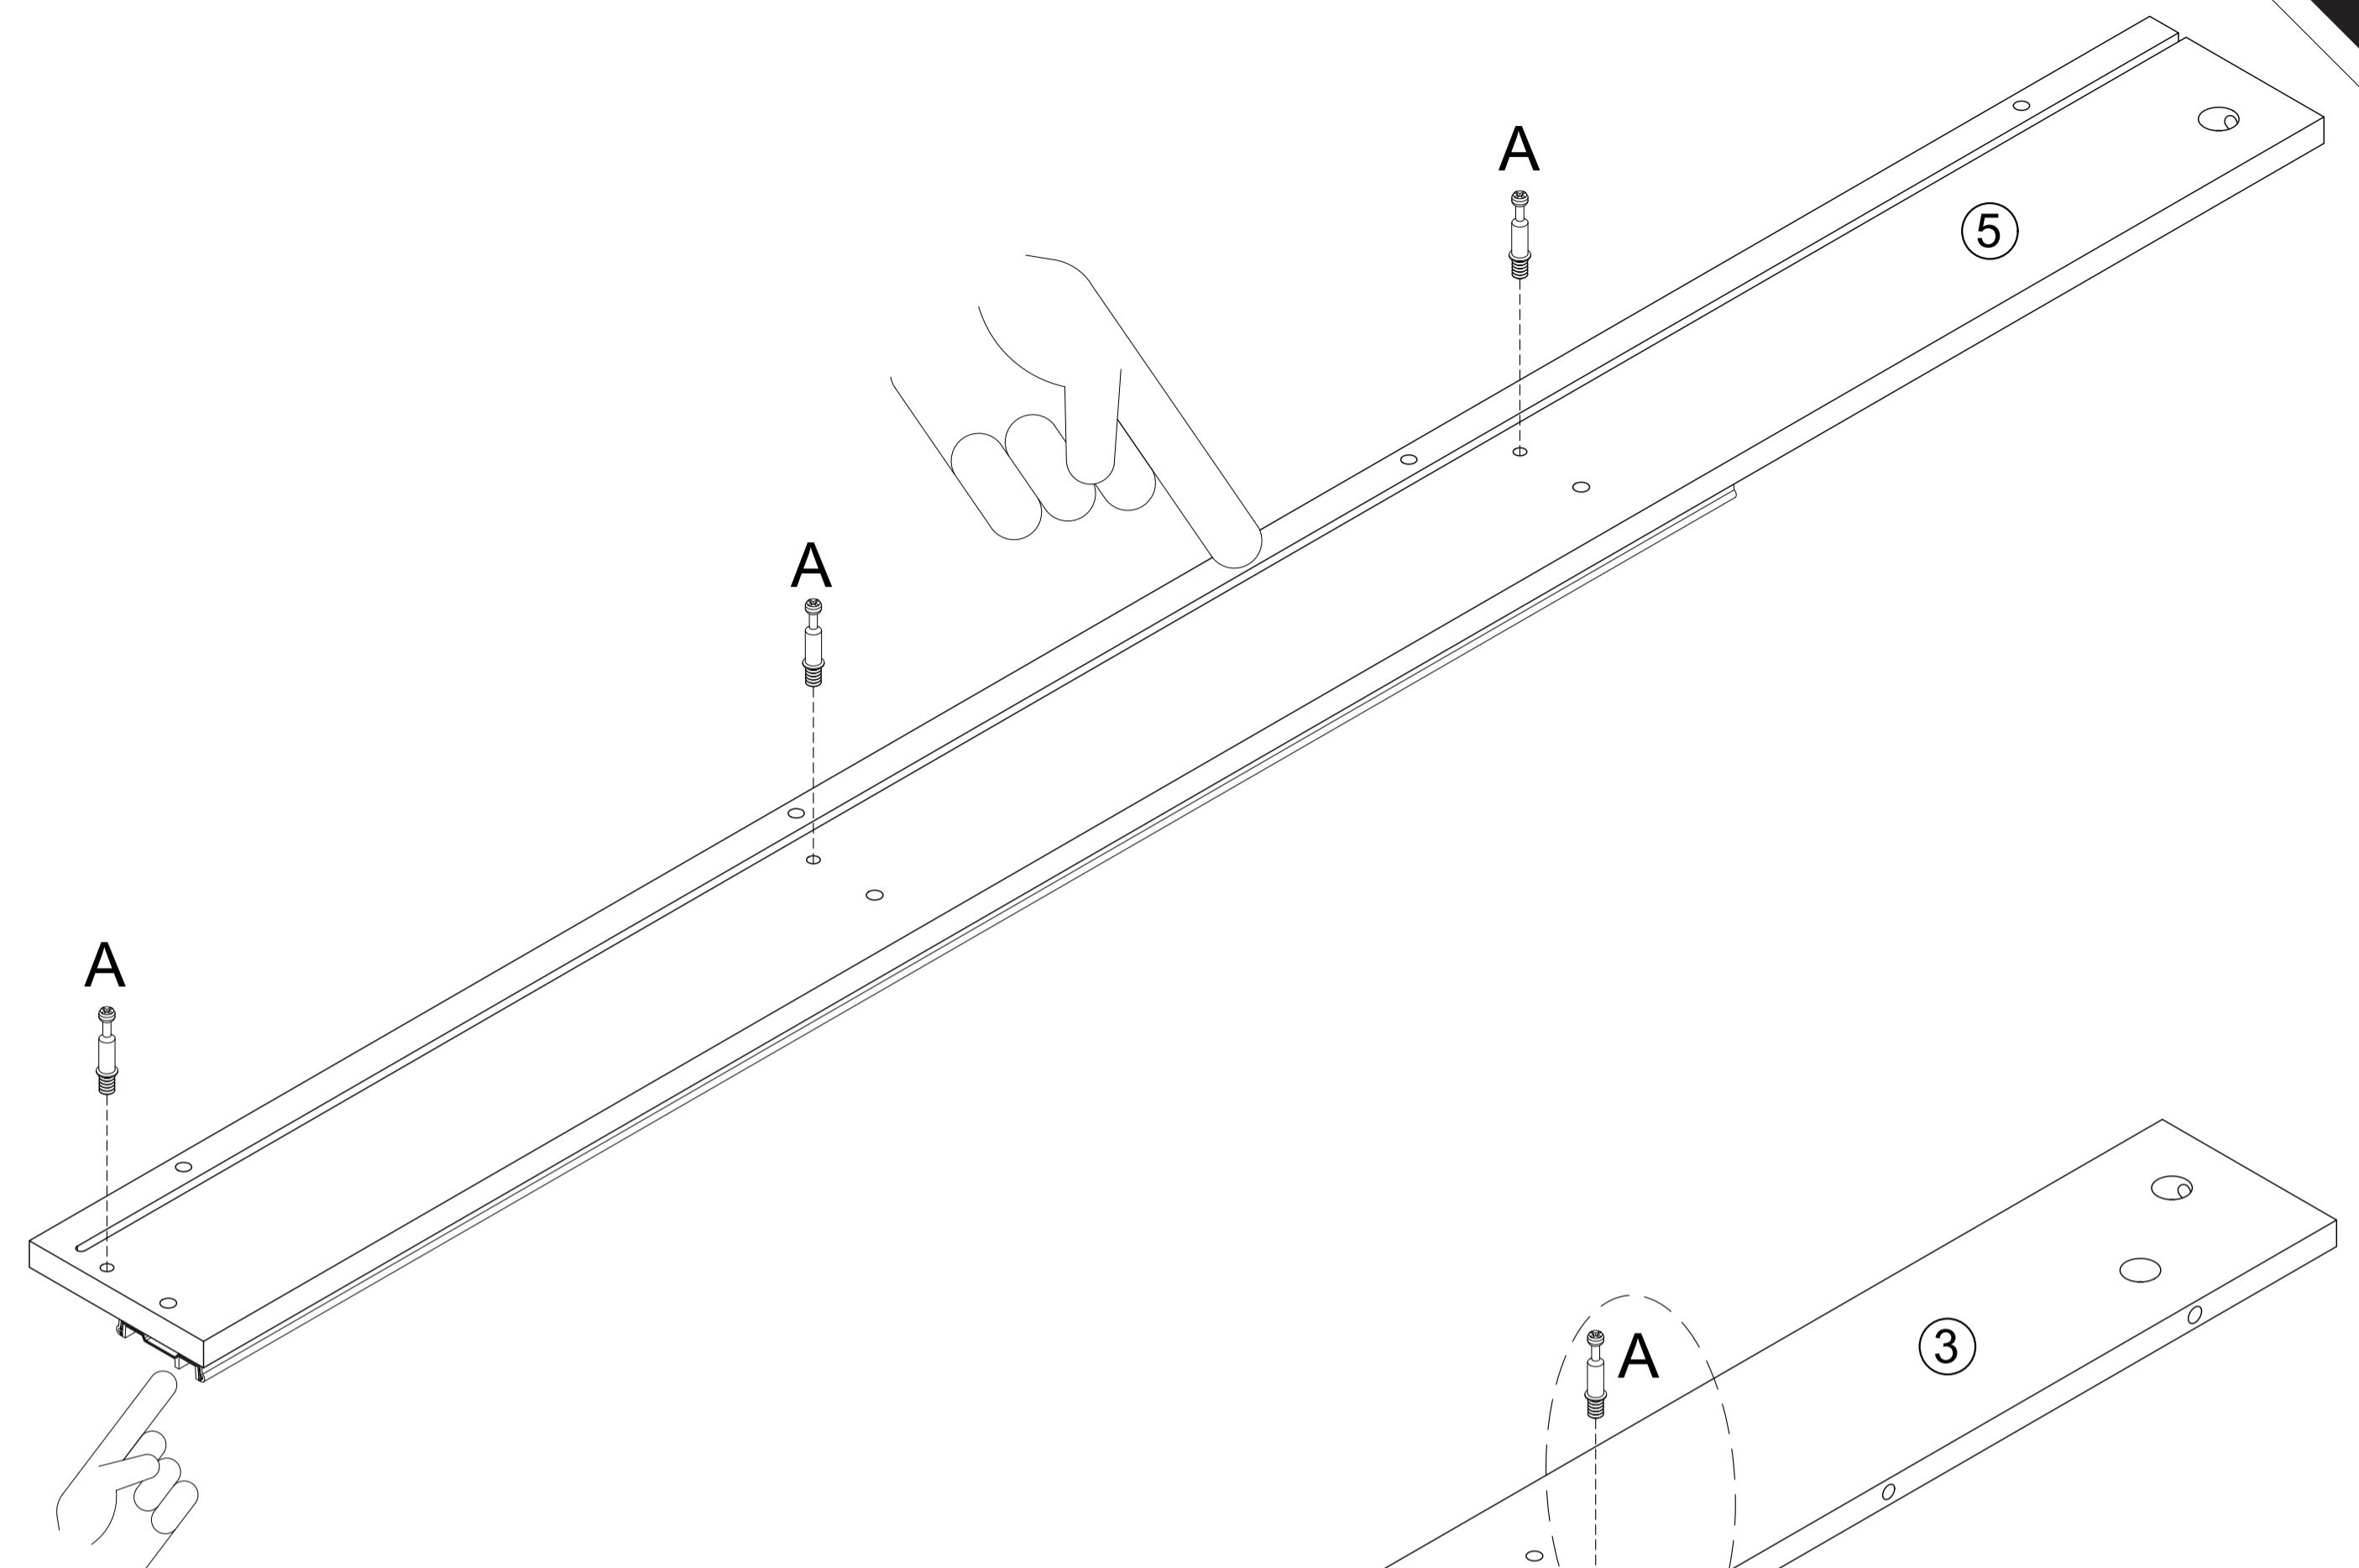

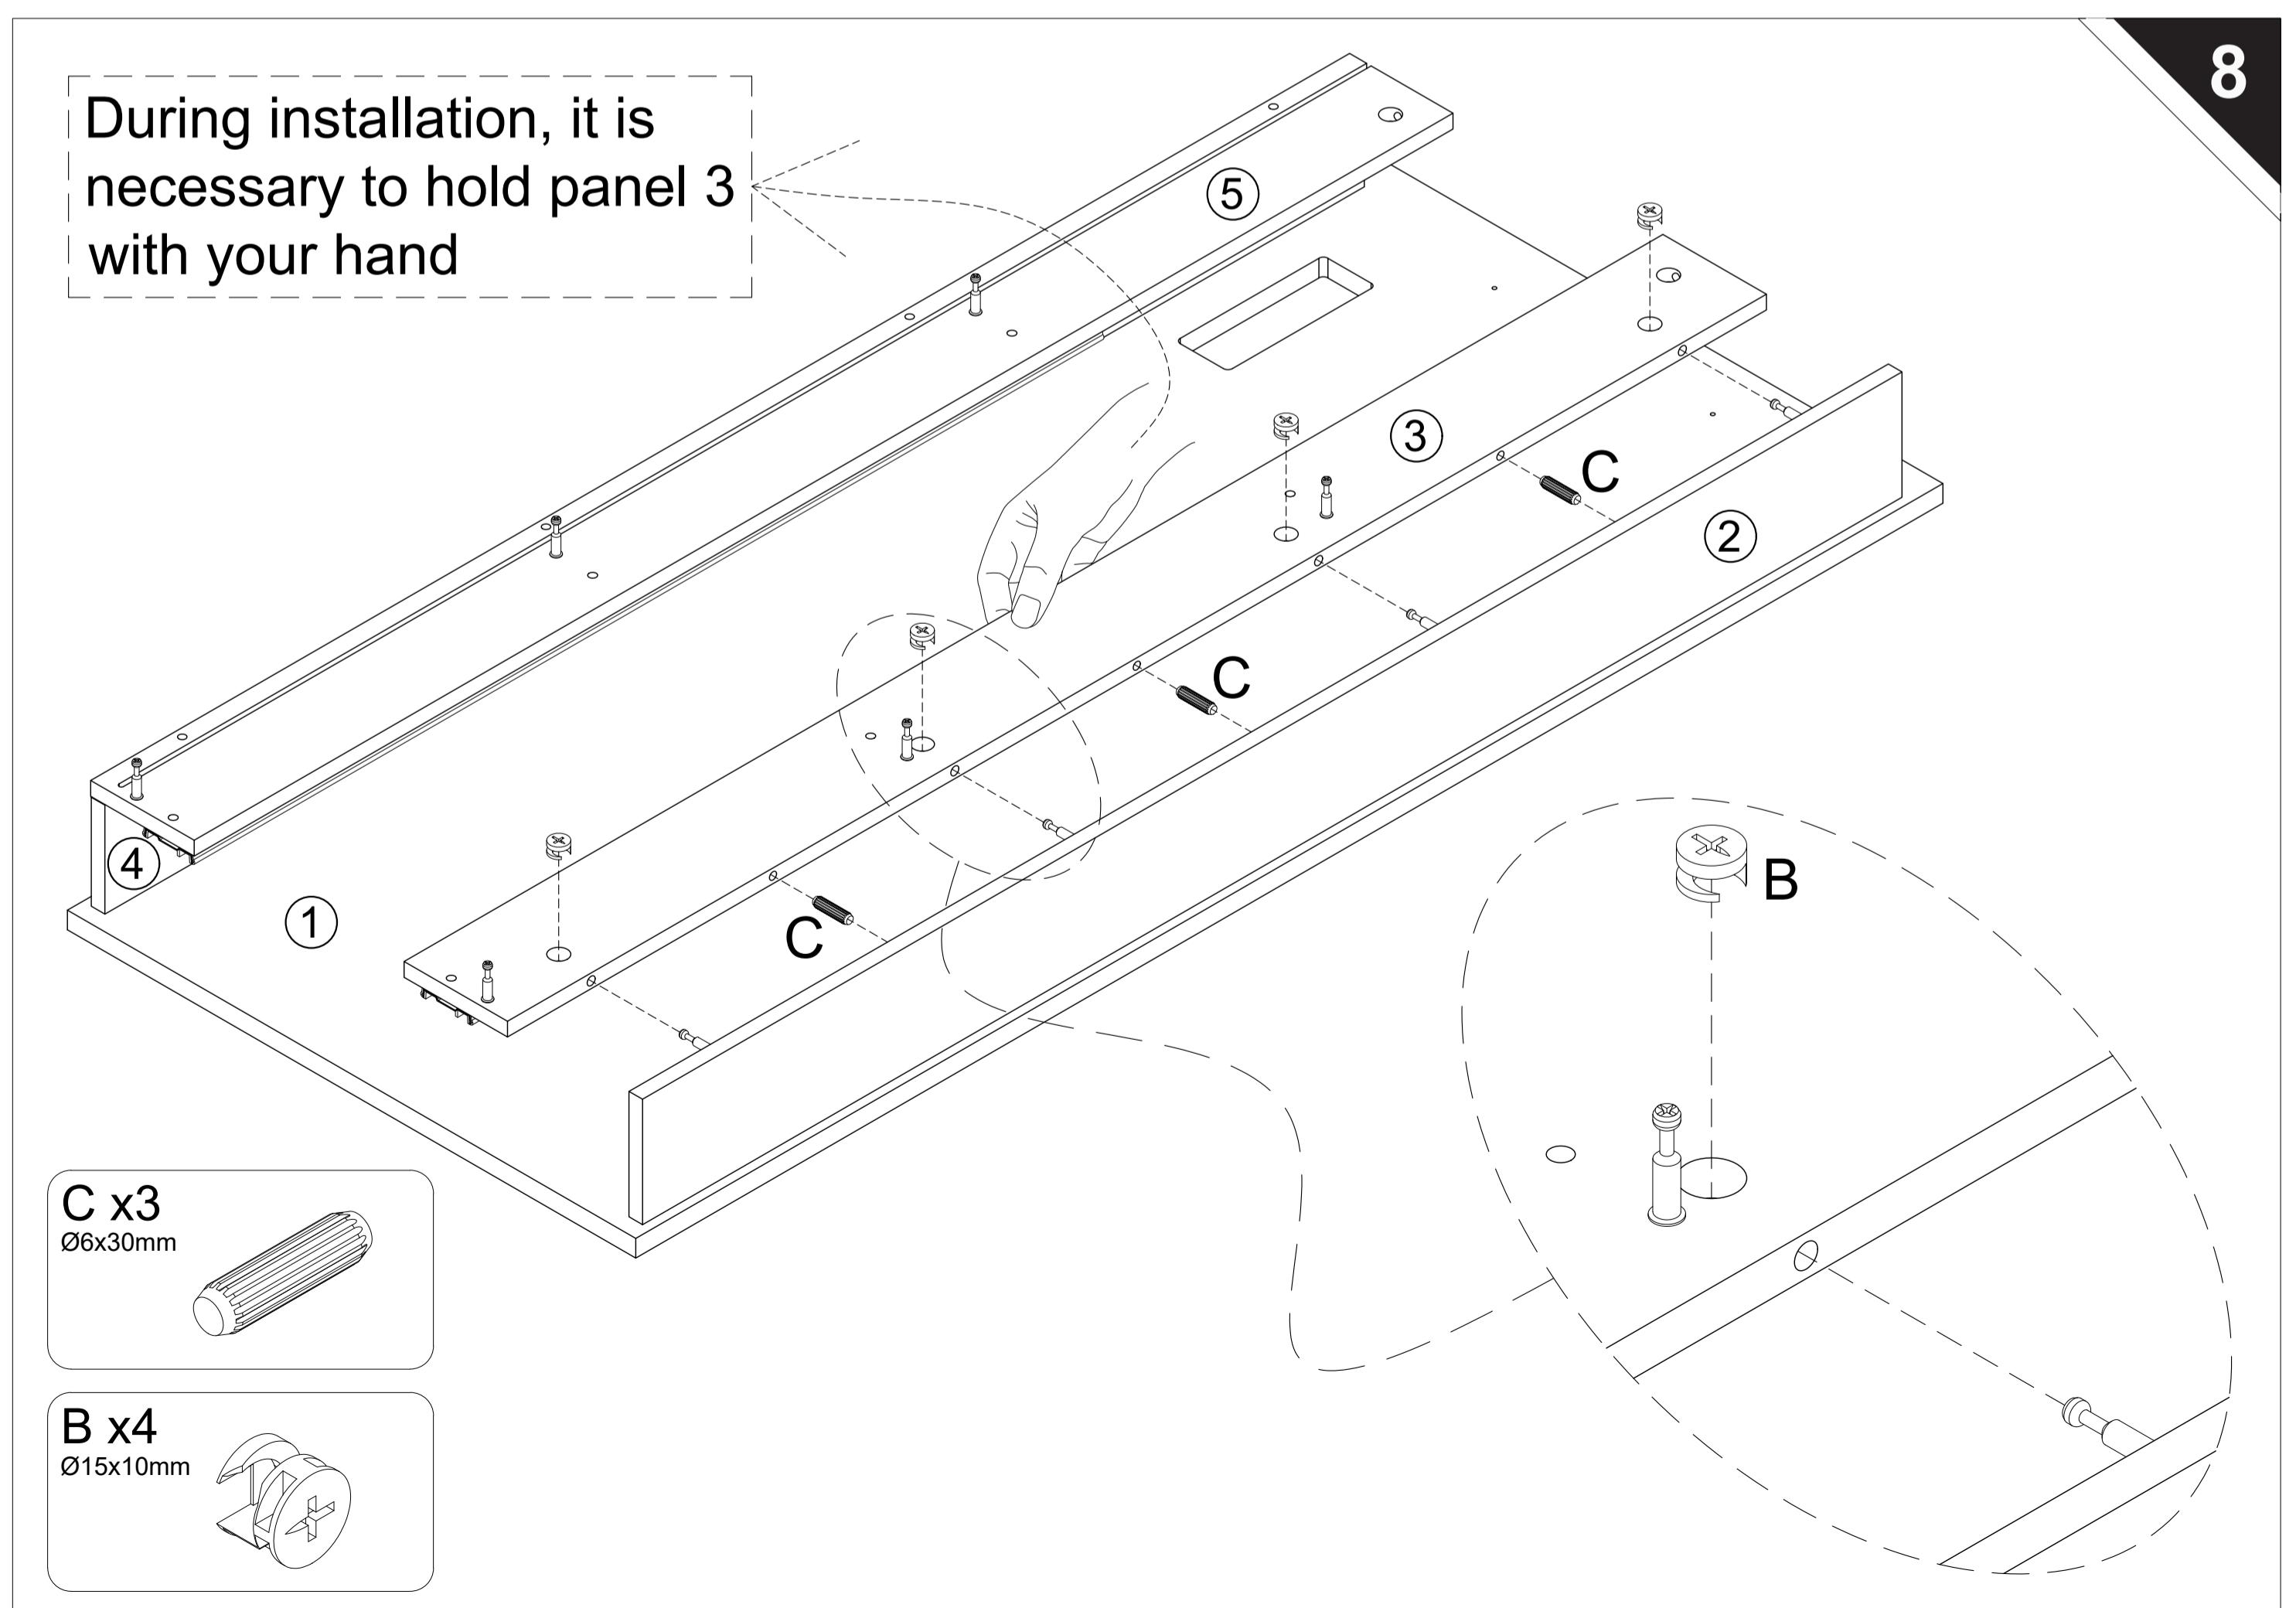

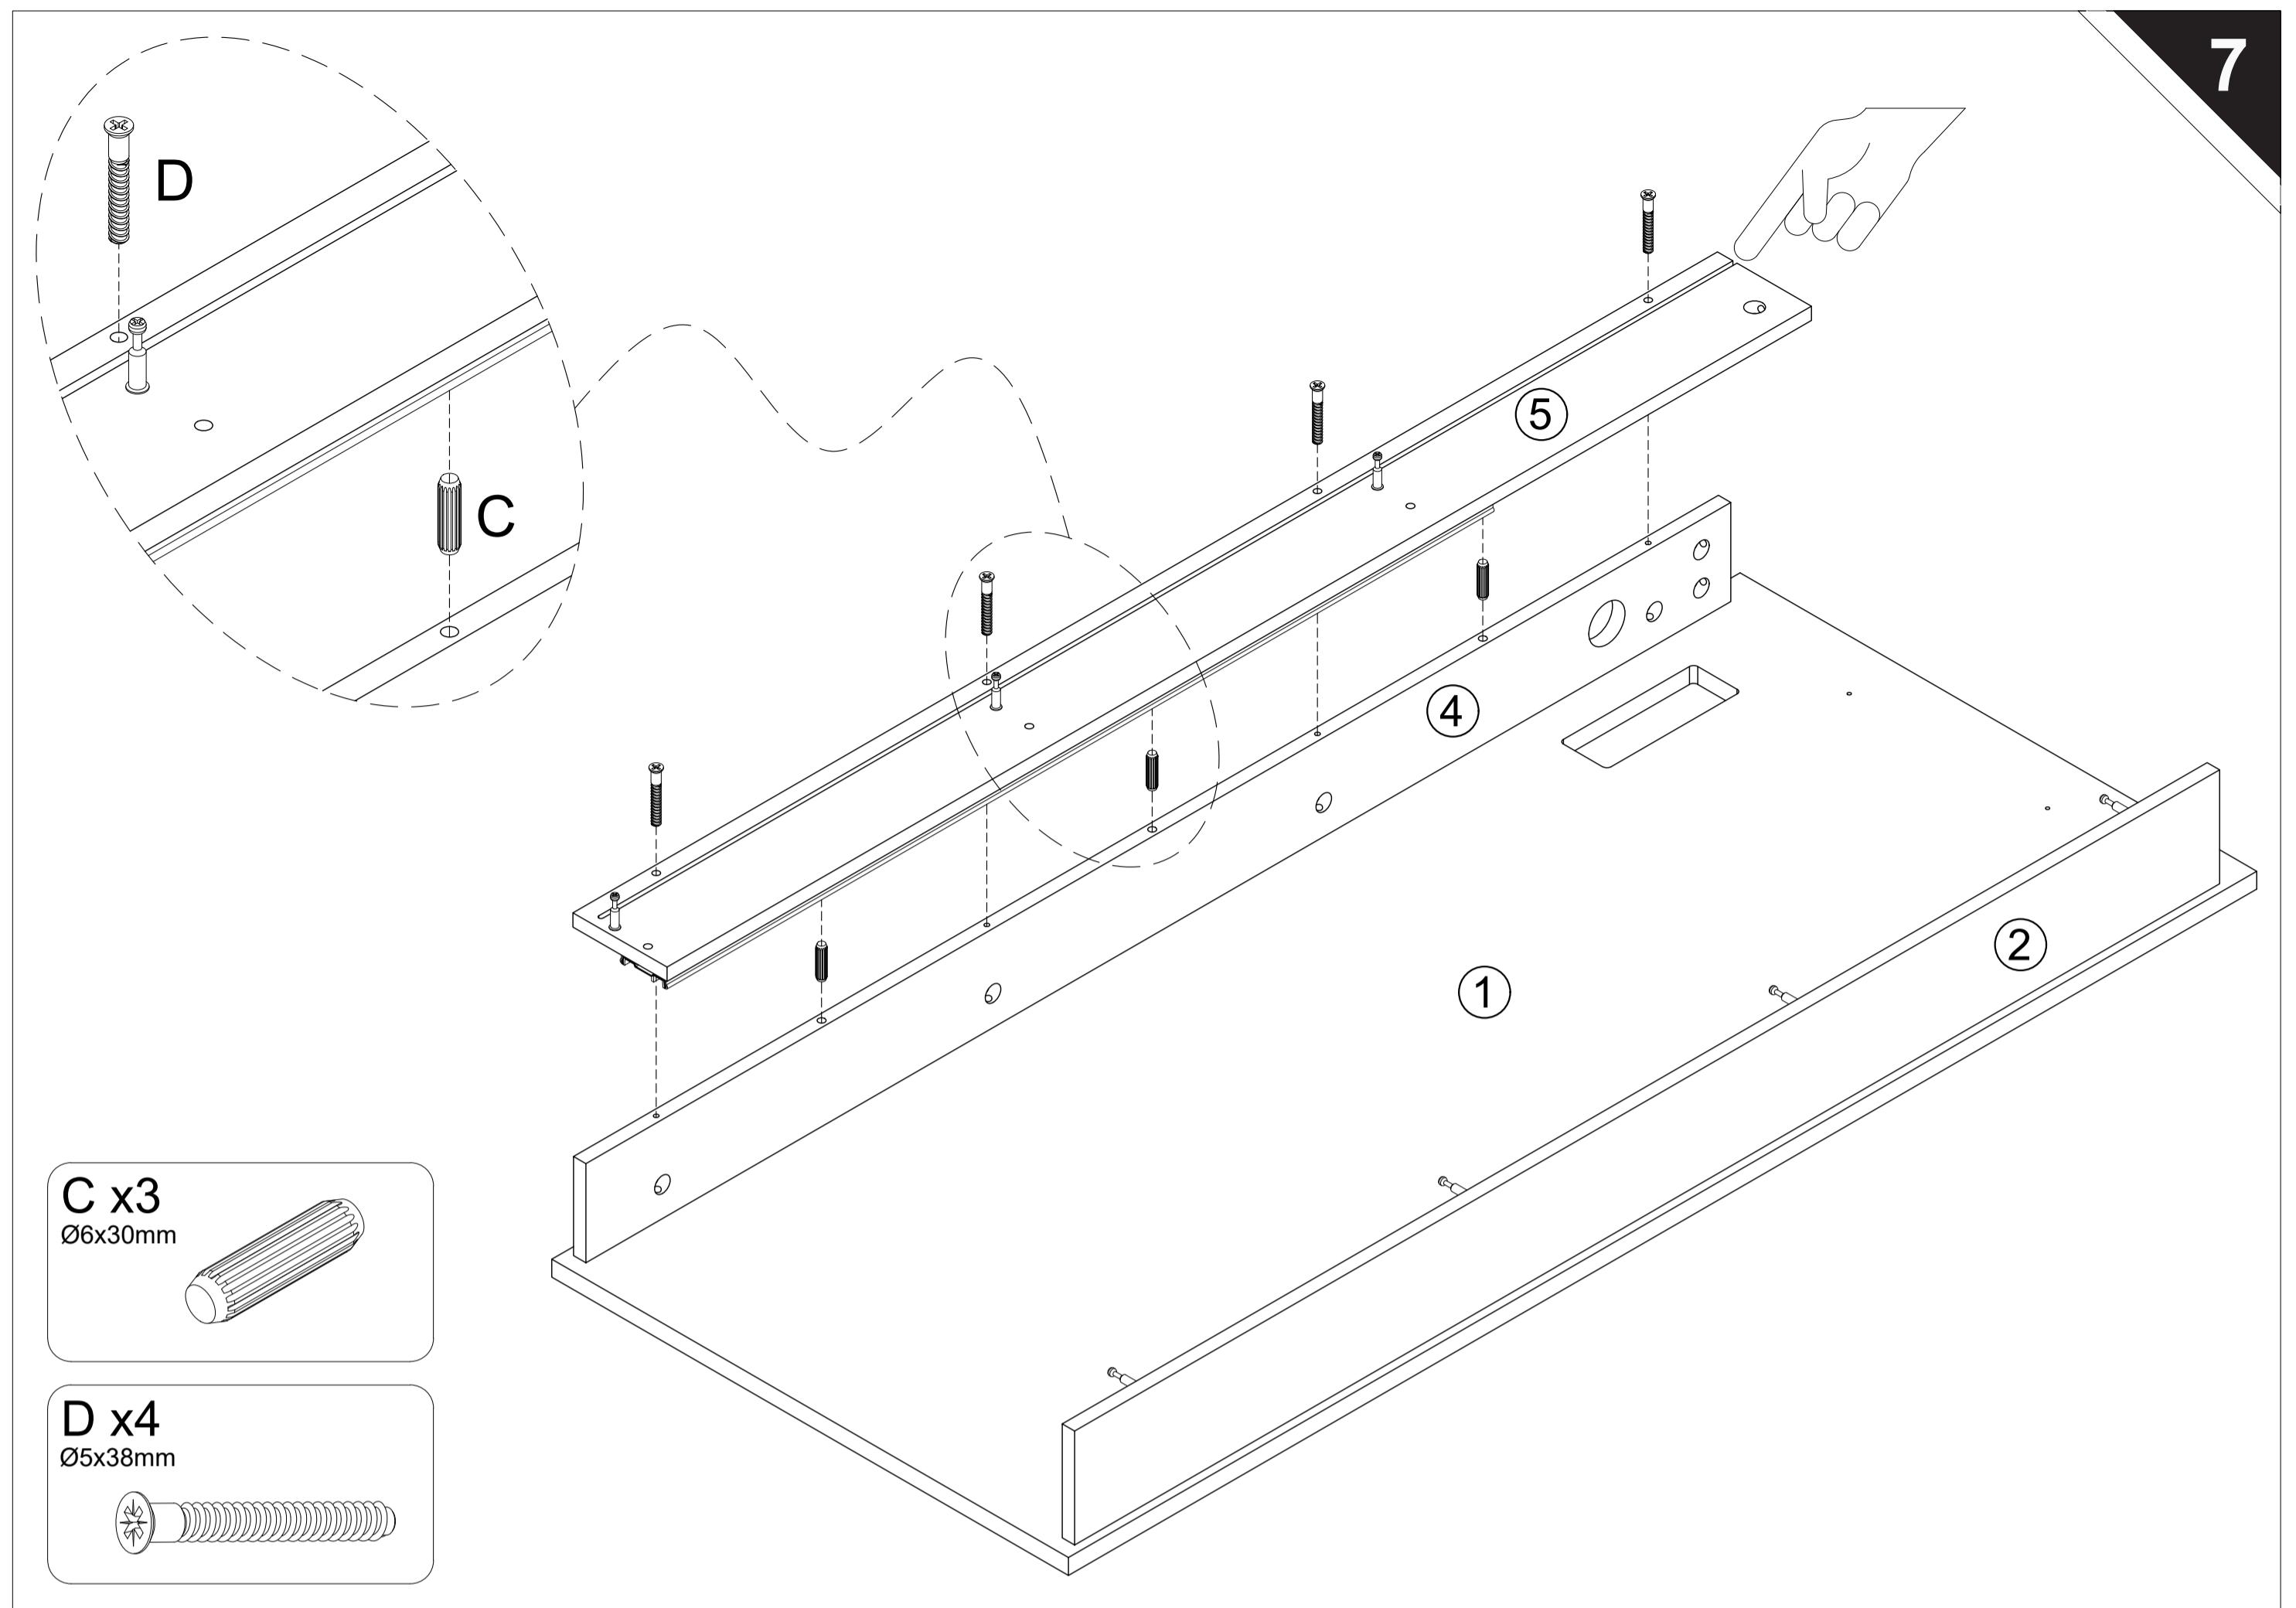

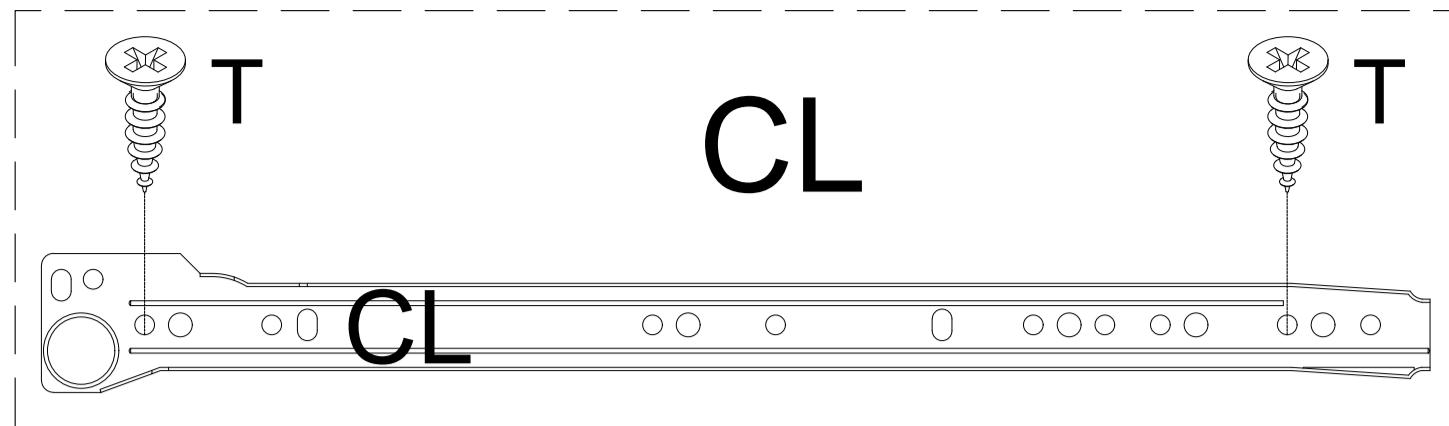

These two positions require moving the slide rail in the direction indicated by the arrows below to lock them in place

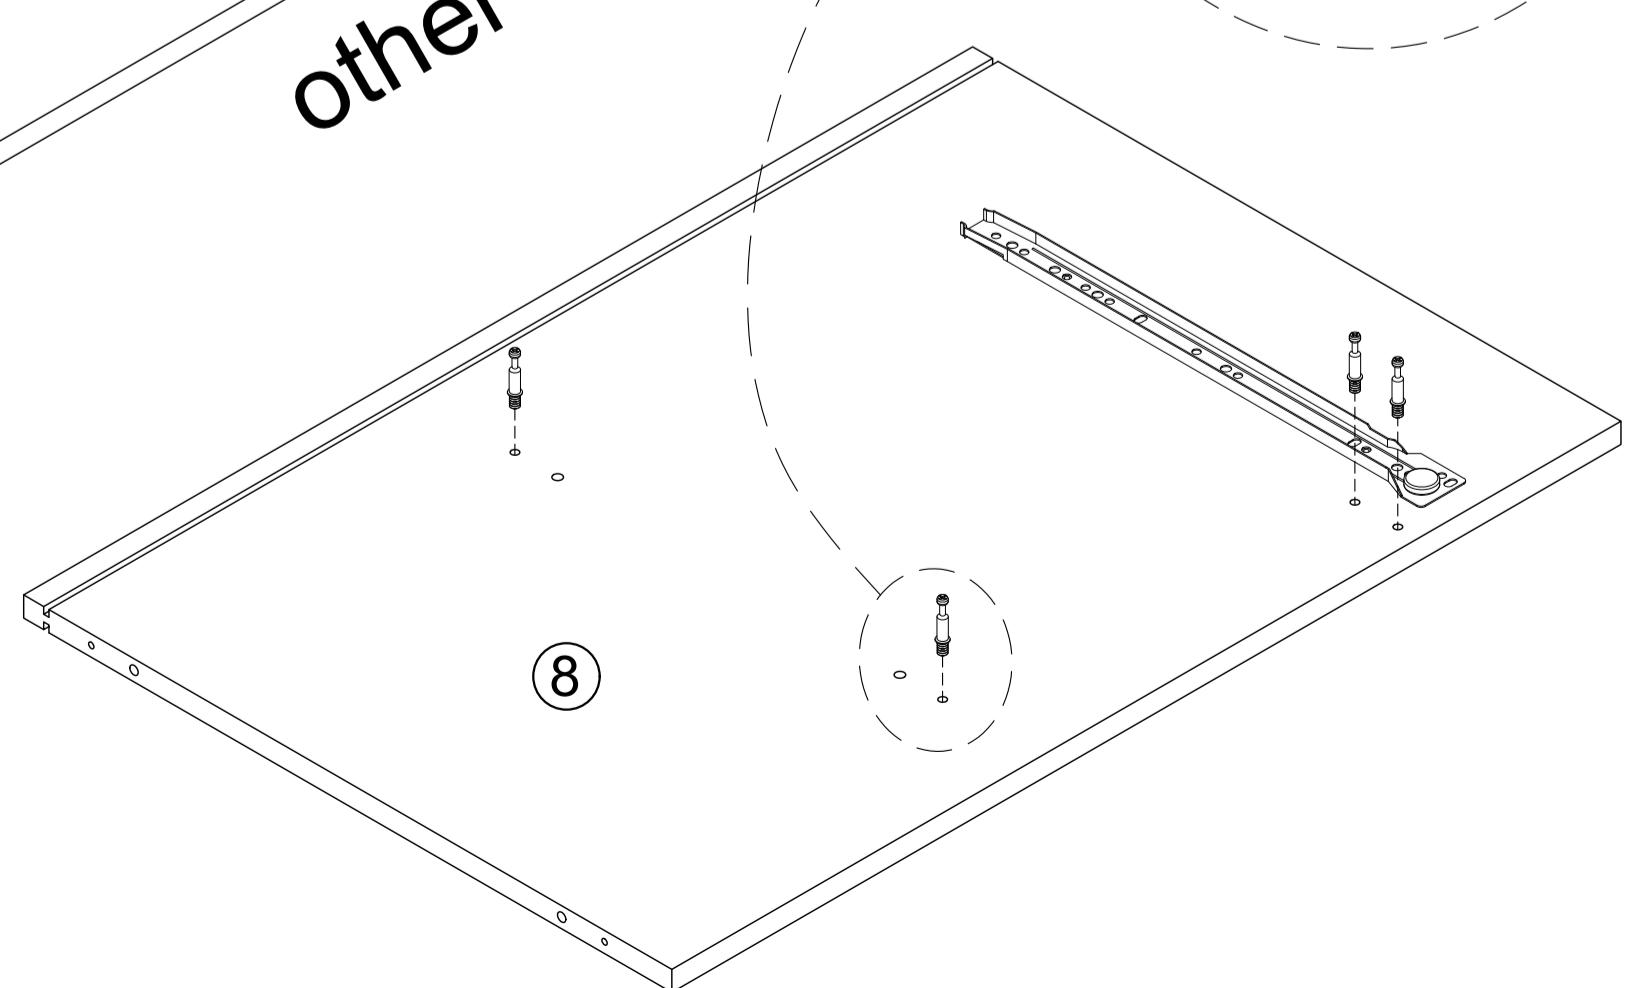

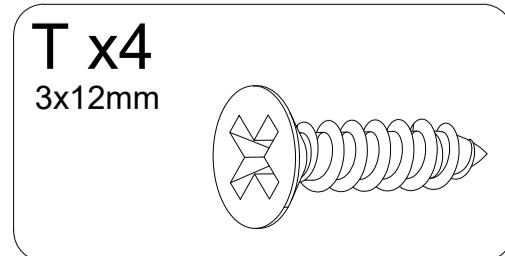

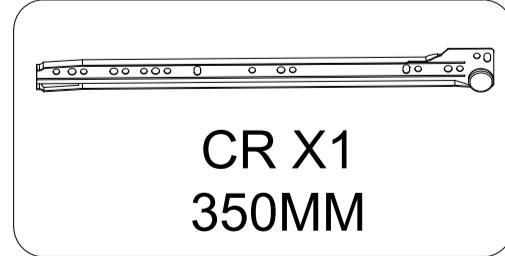

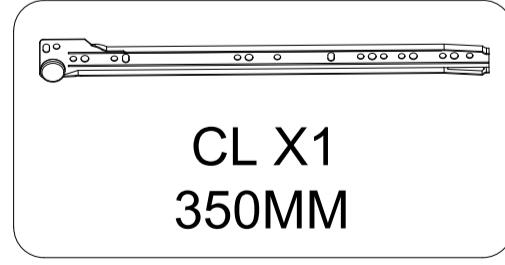

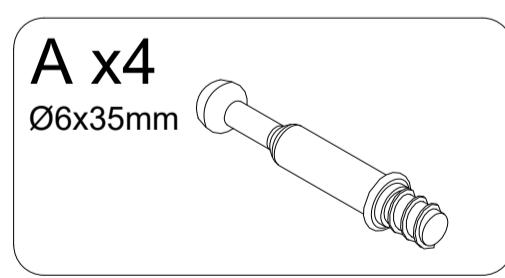

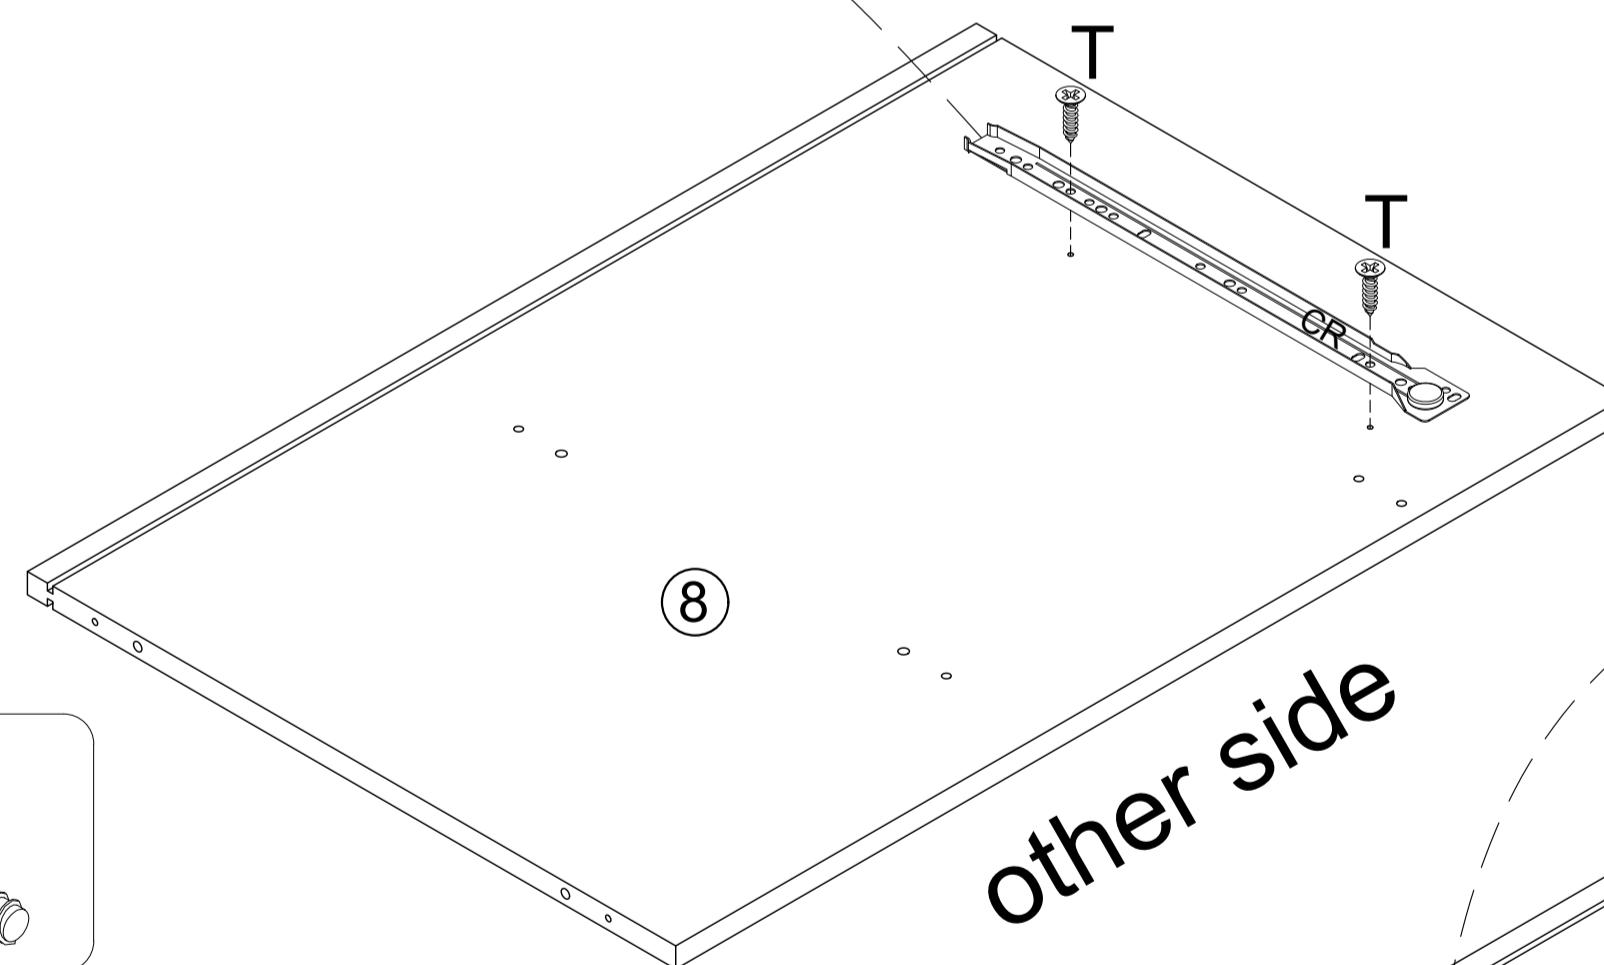

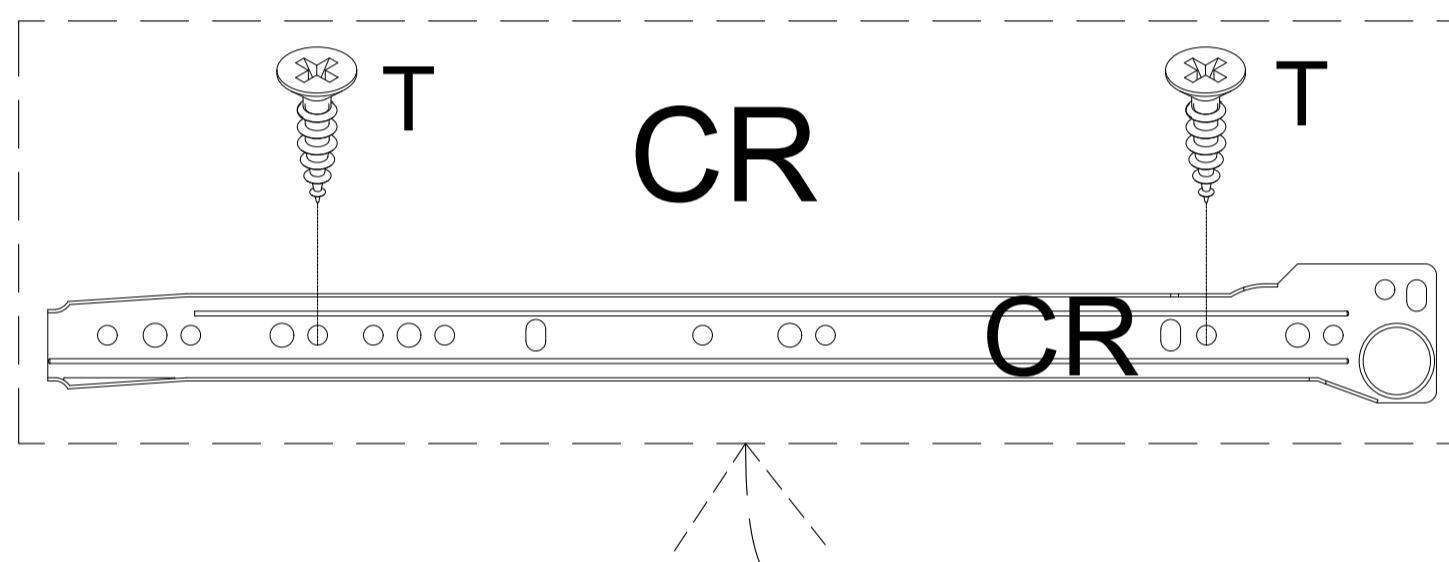

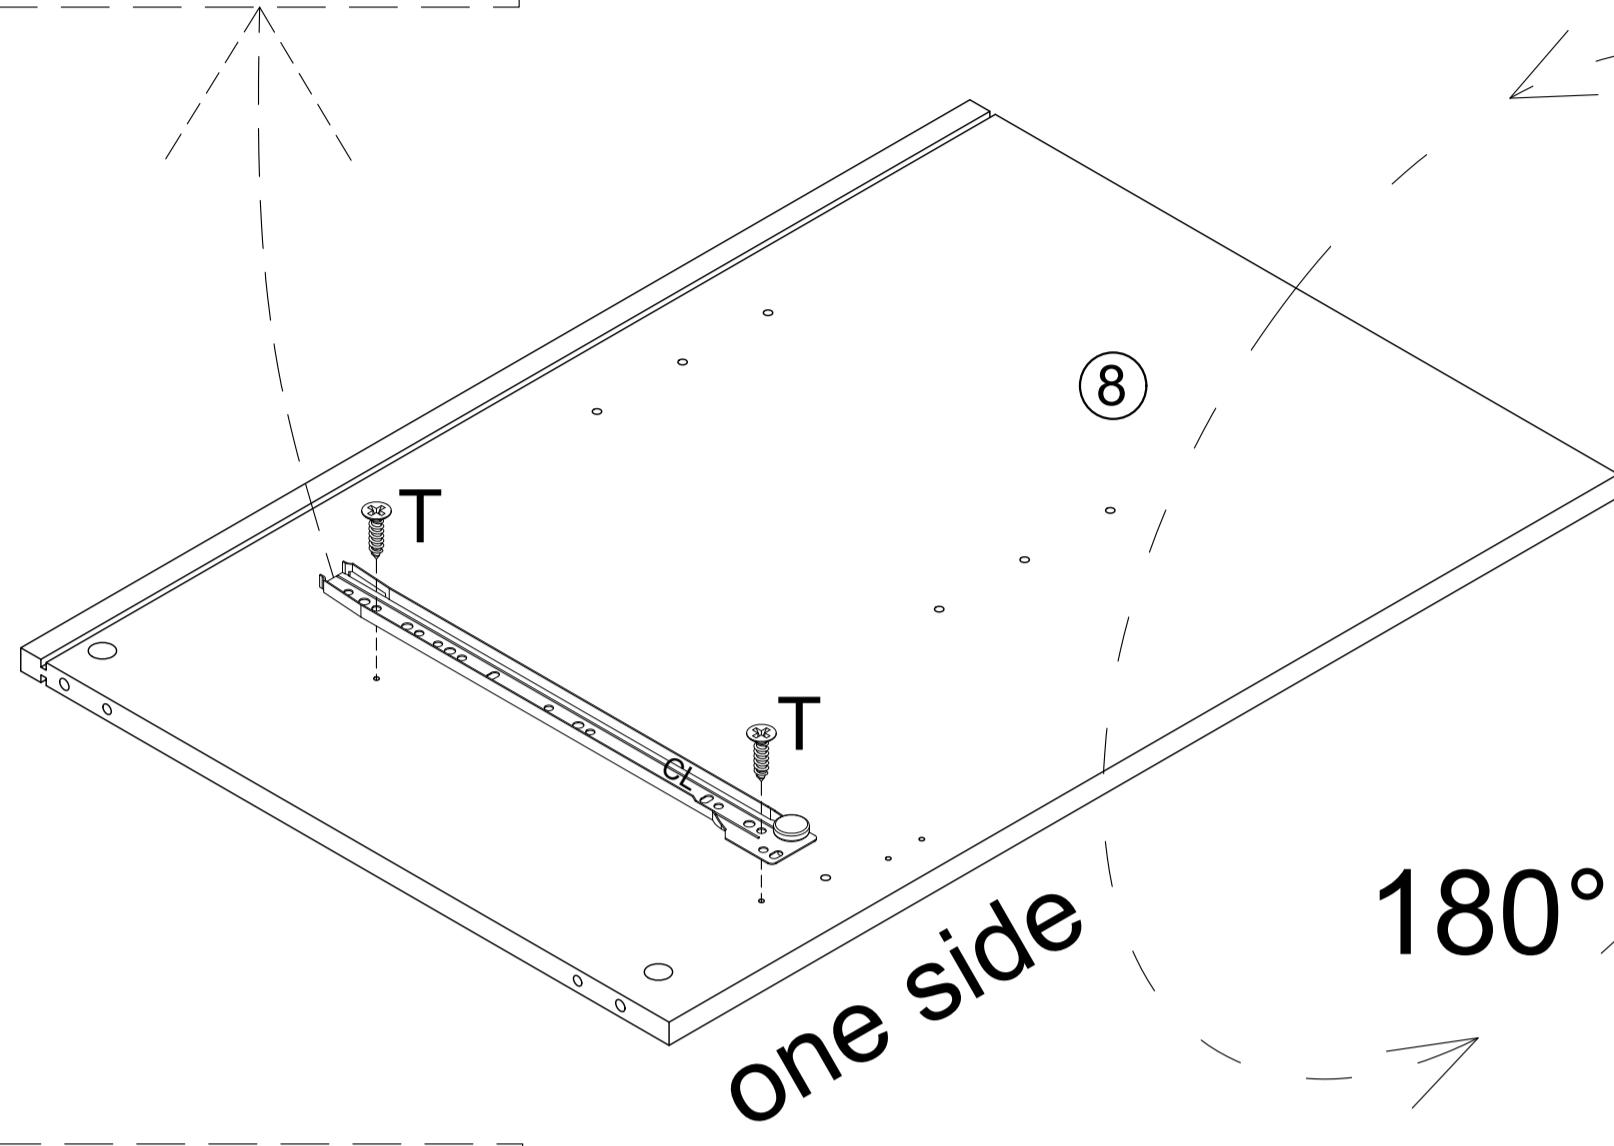

| T    | Q    | S      |
|------|------|--------|
| 3x12 | 3x16 | 3.5x14 |

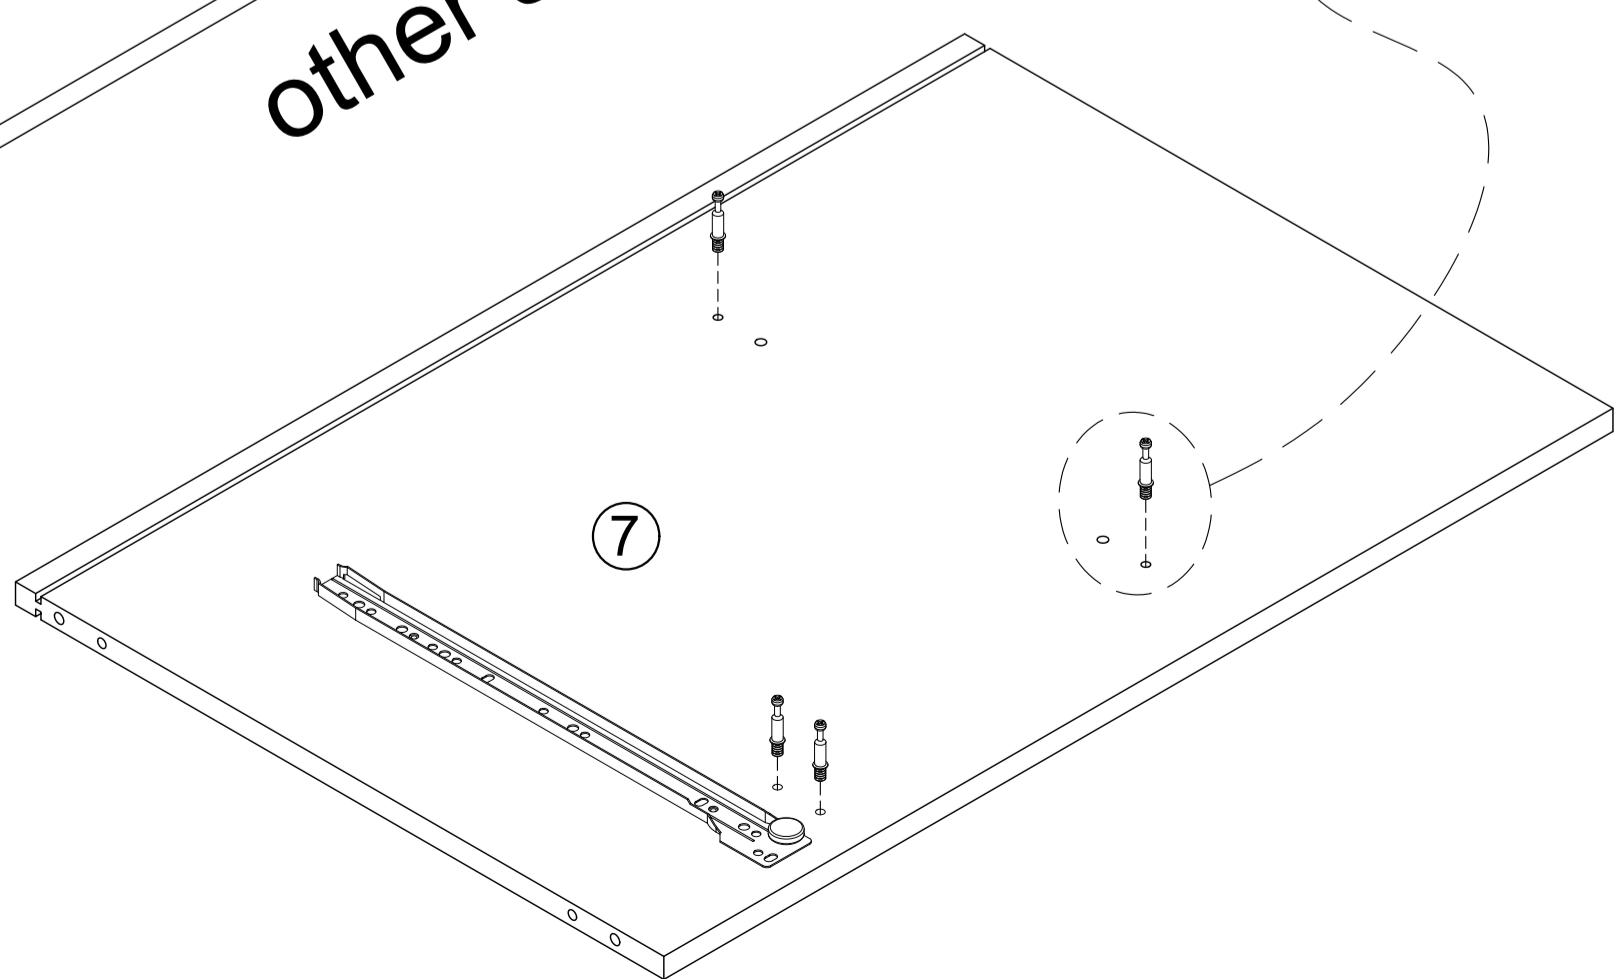

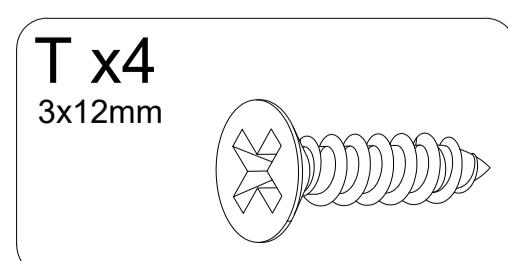

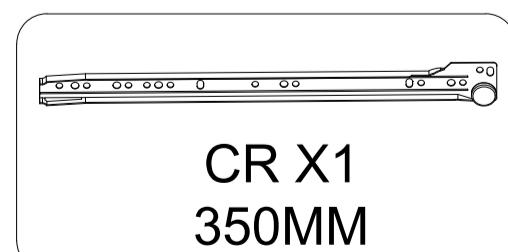

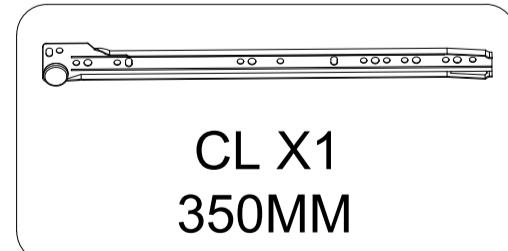

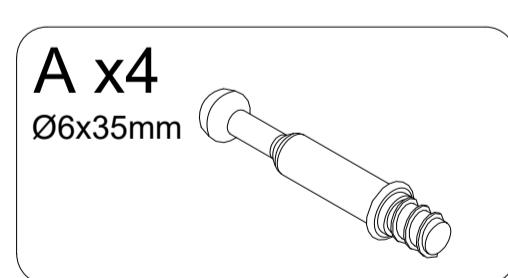

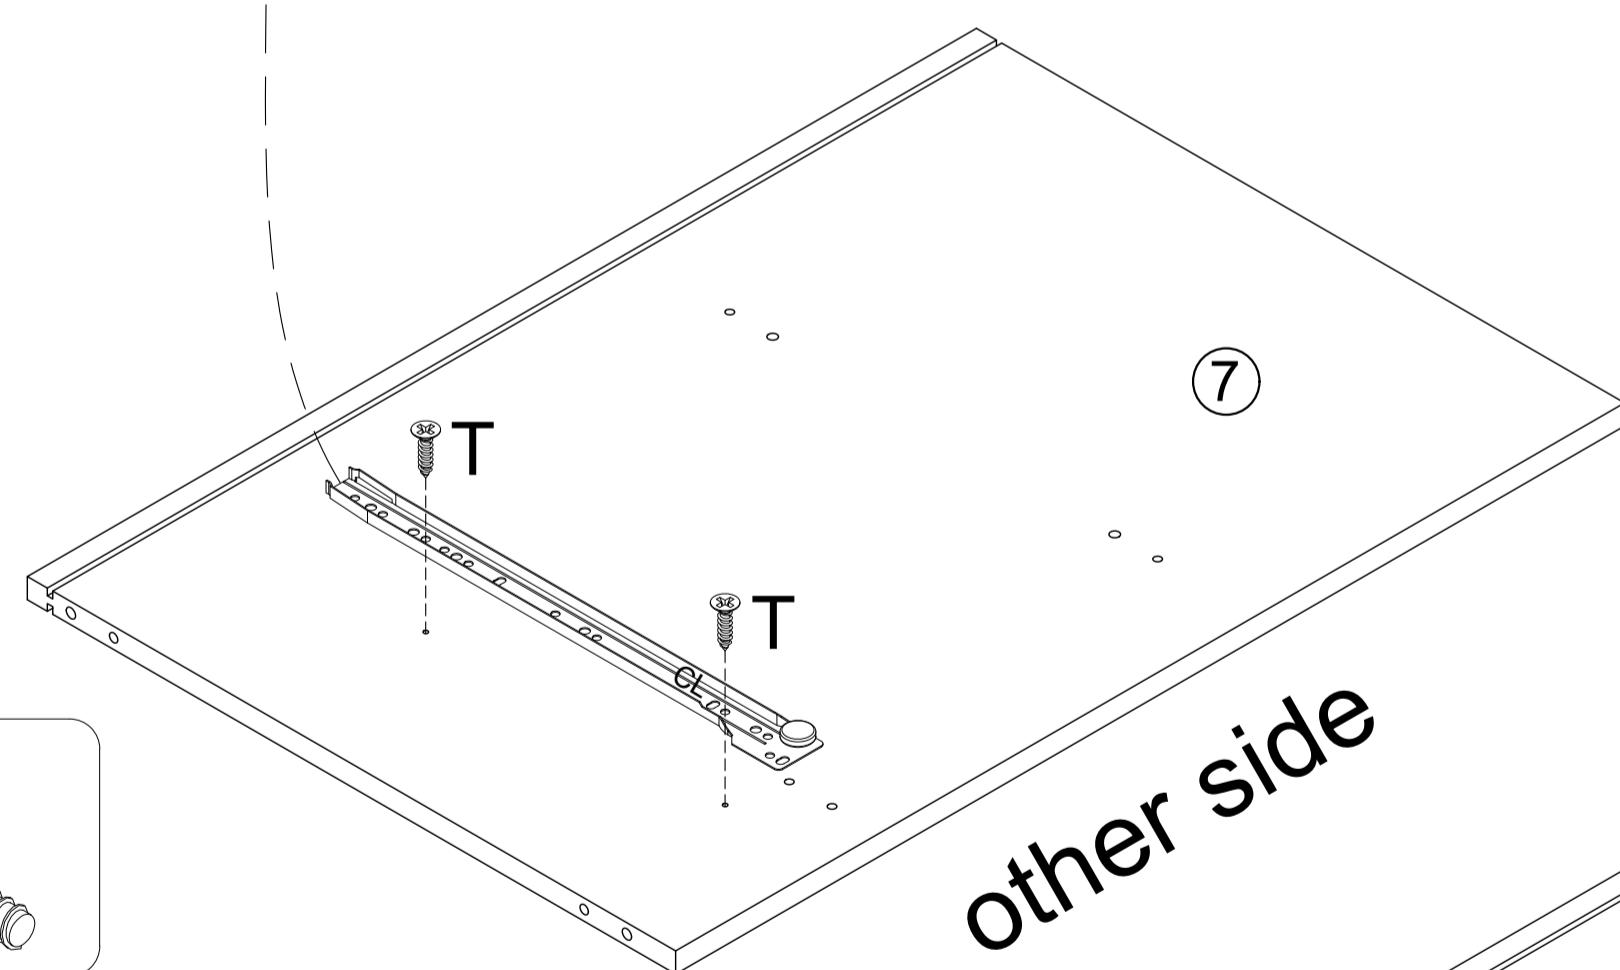

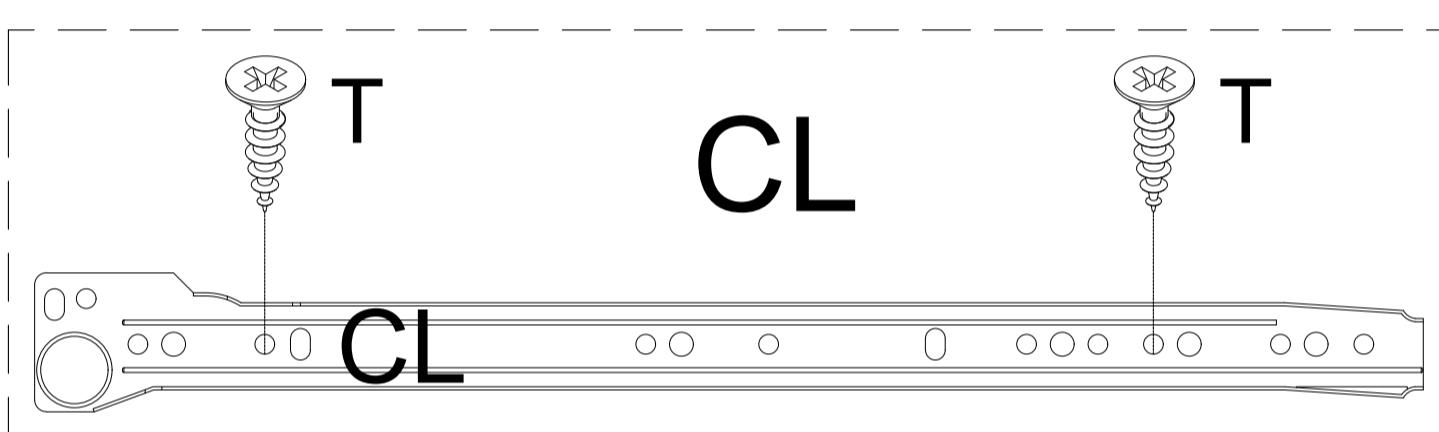

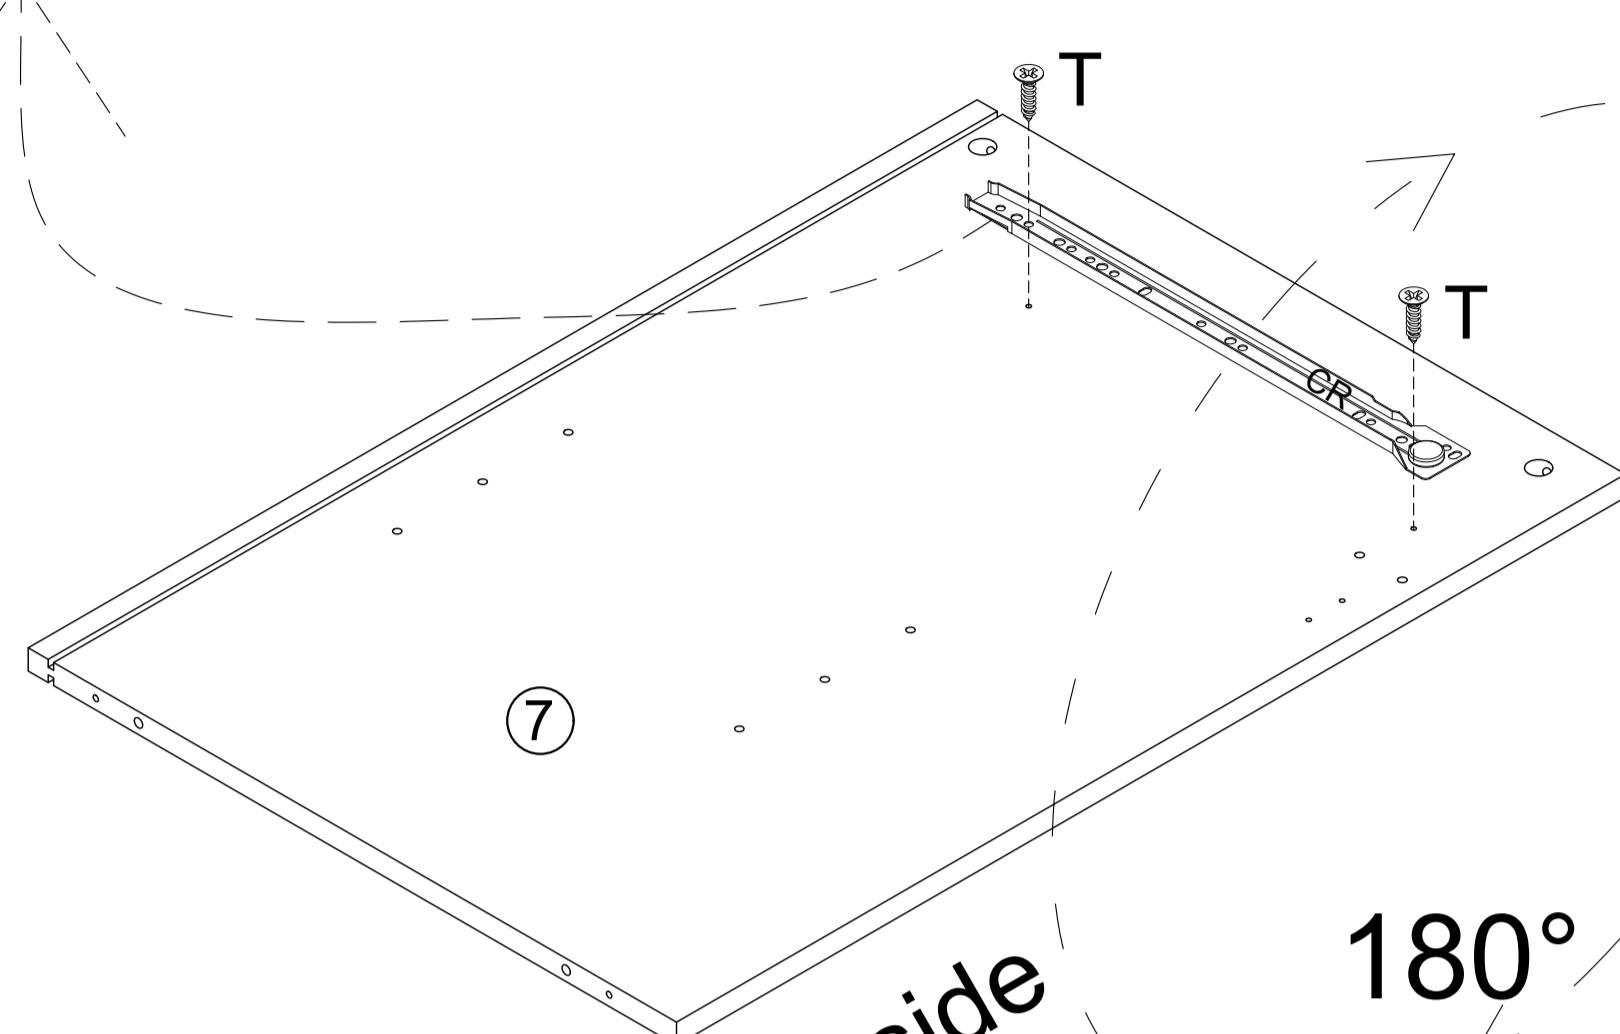

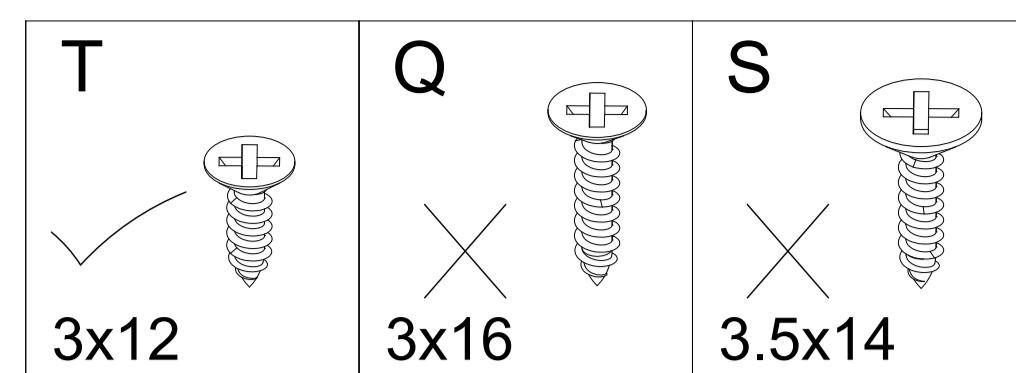

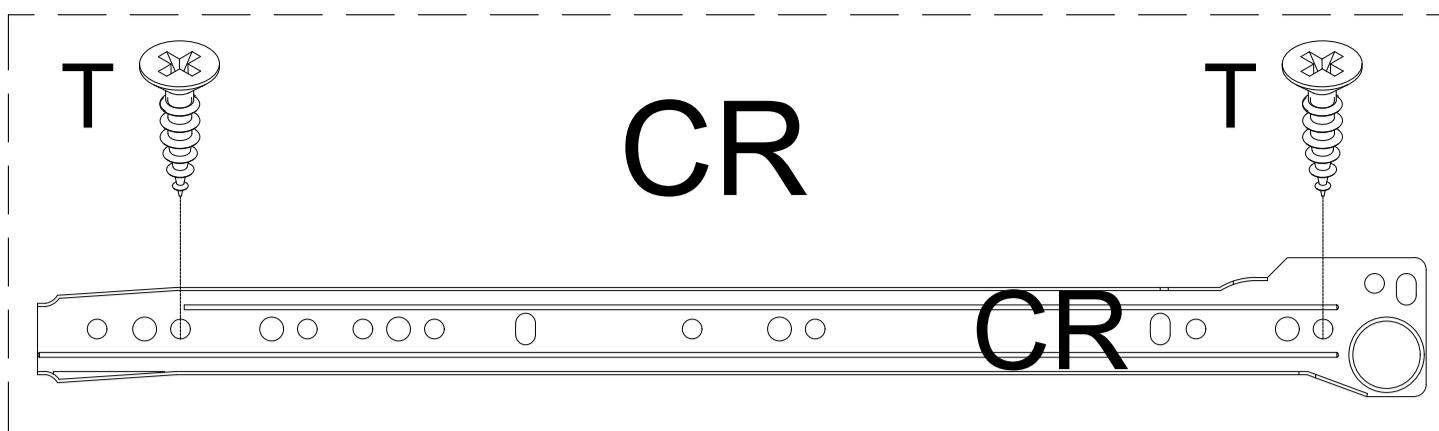

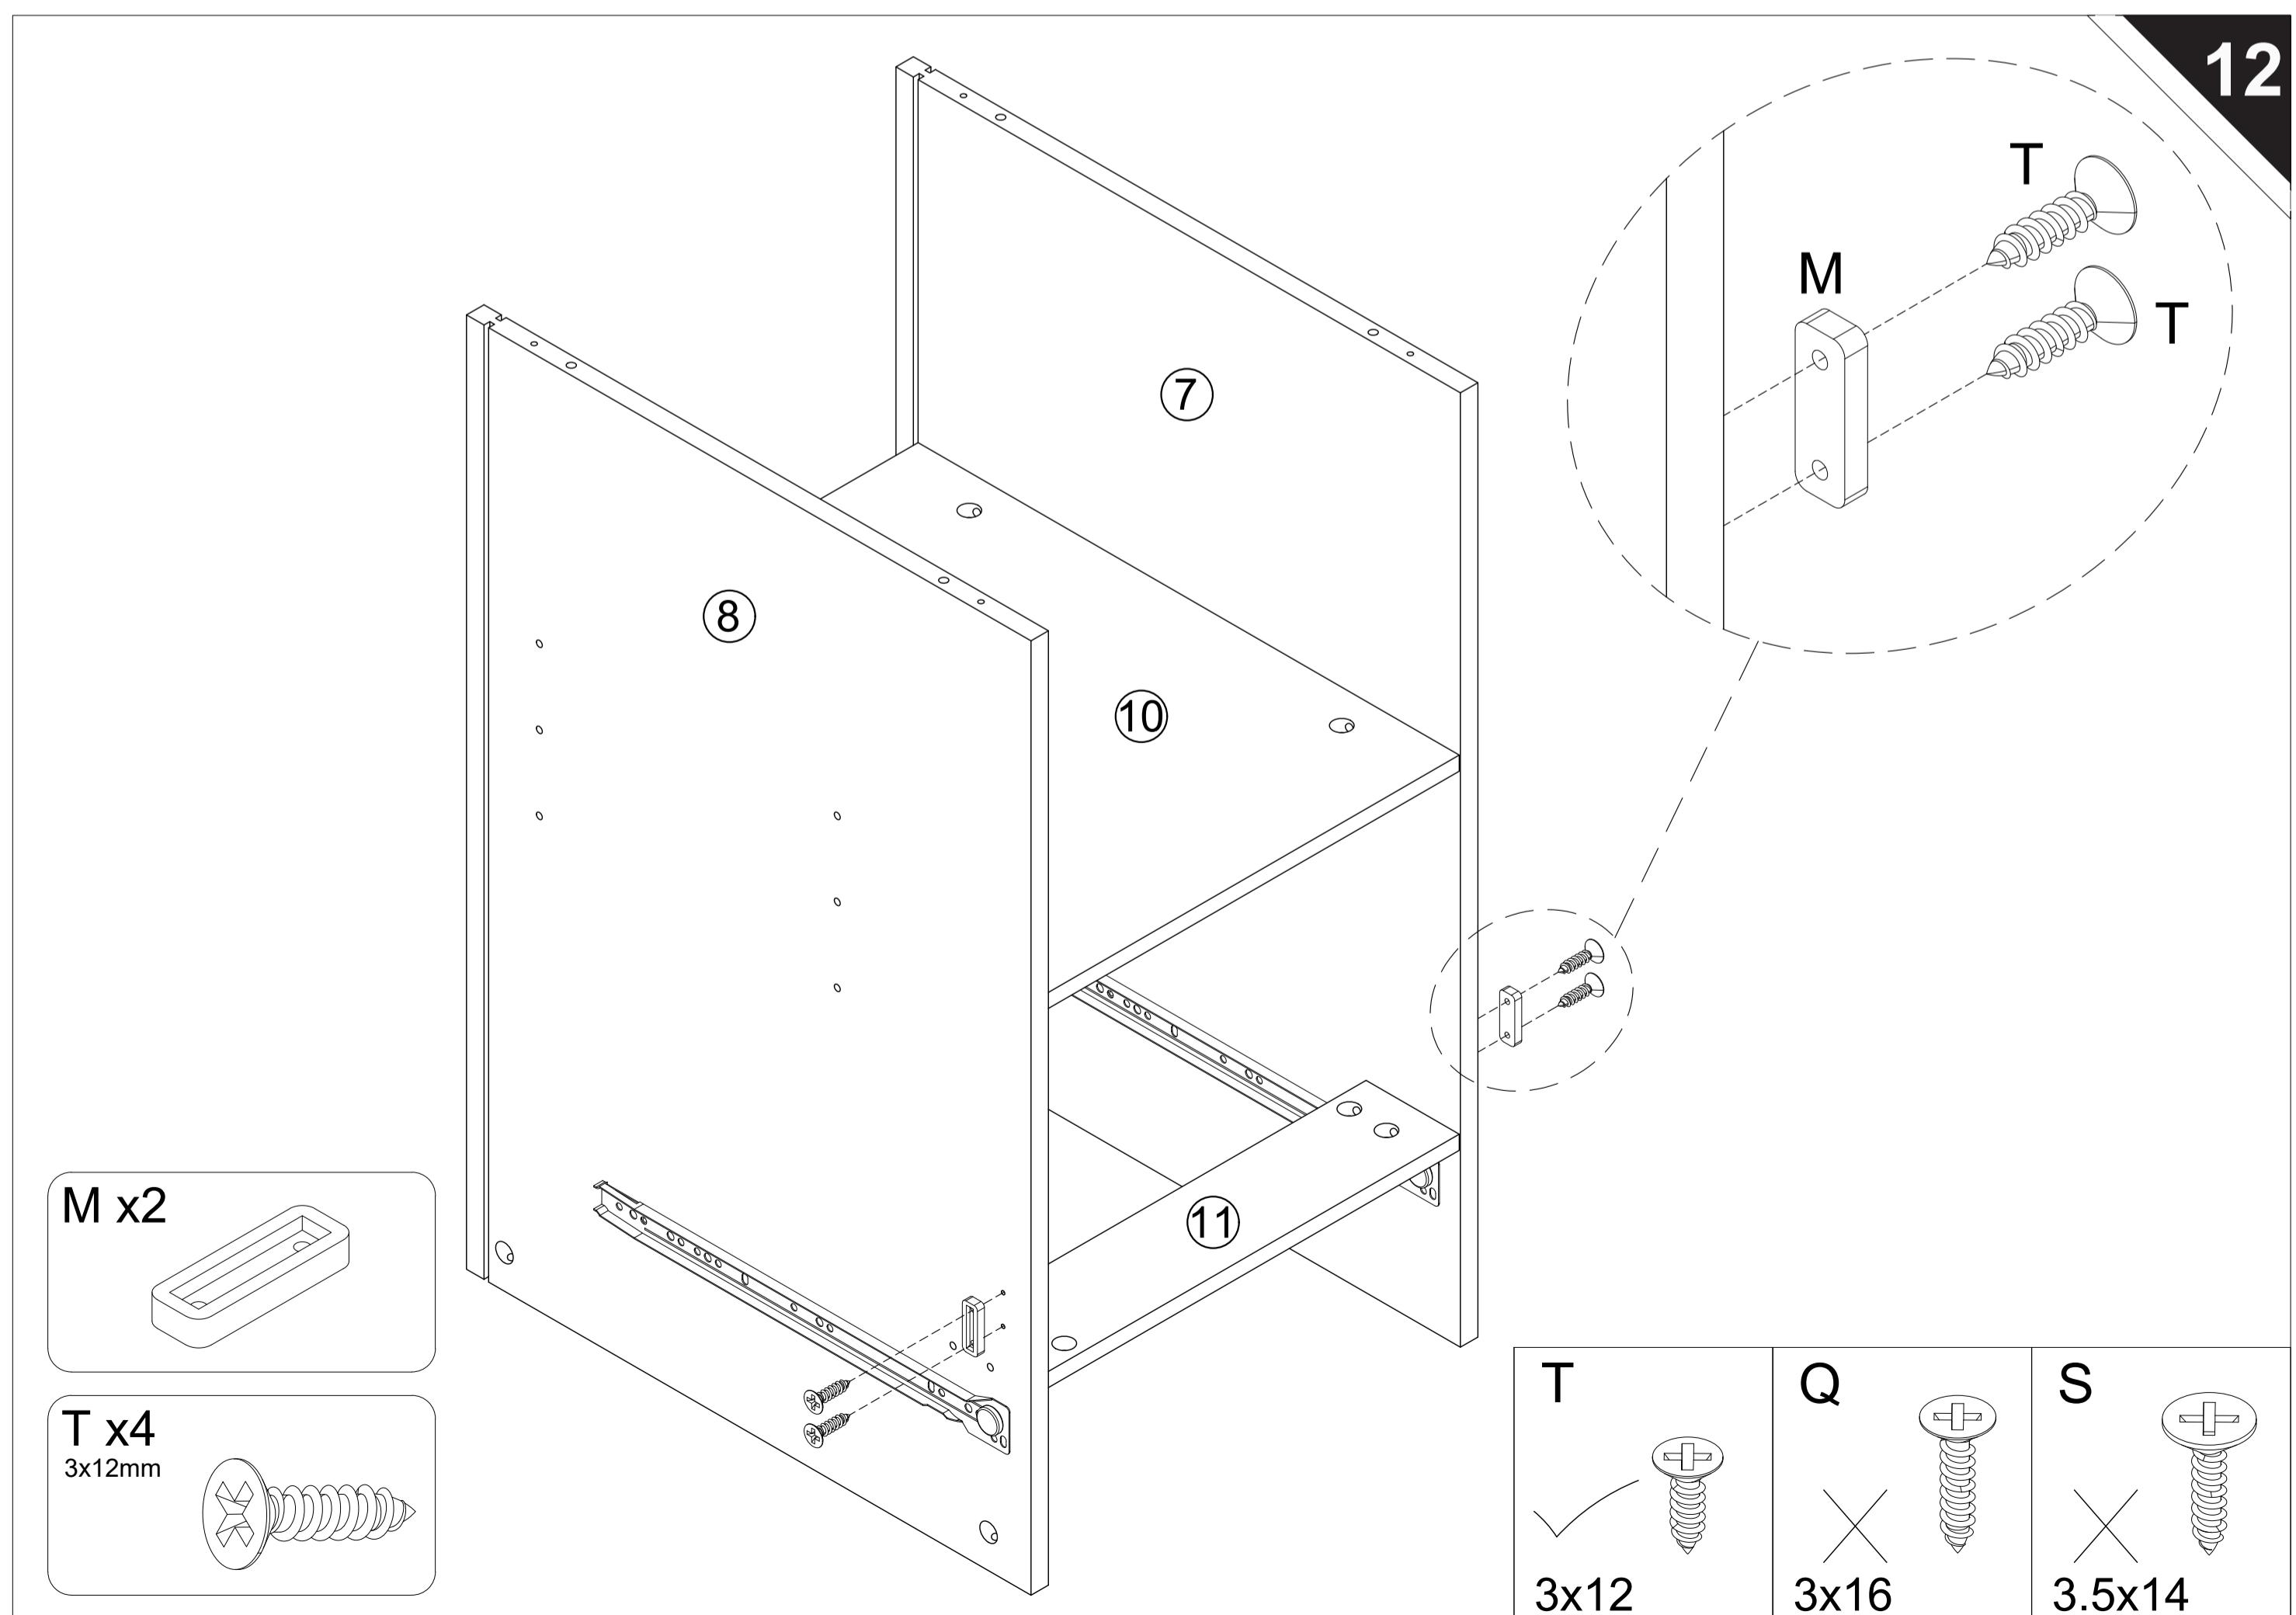

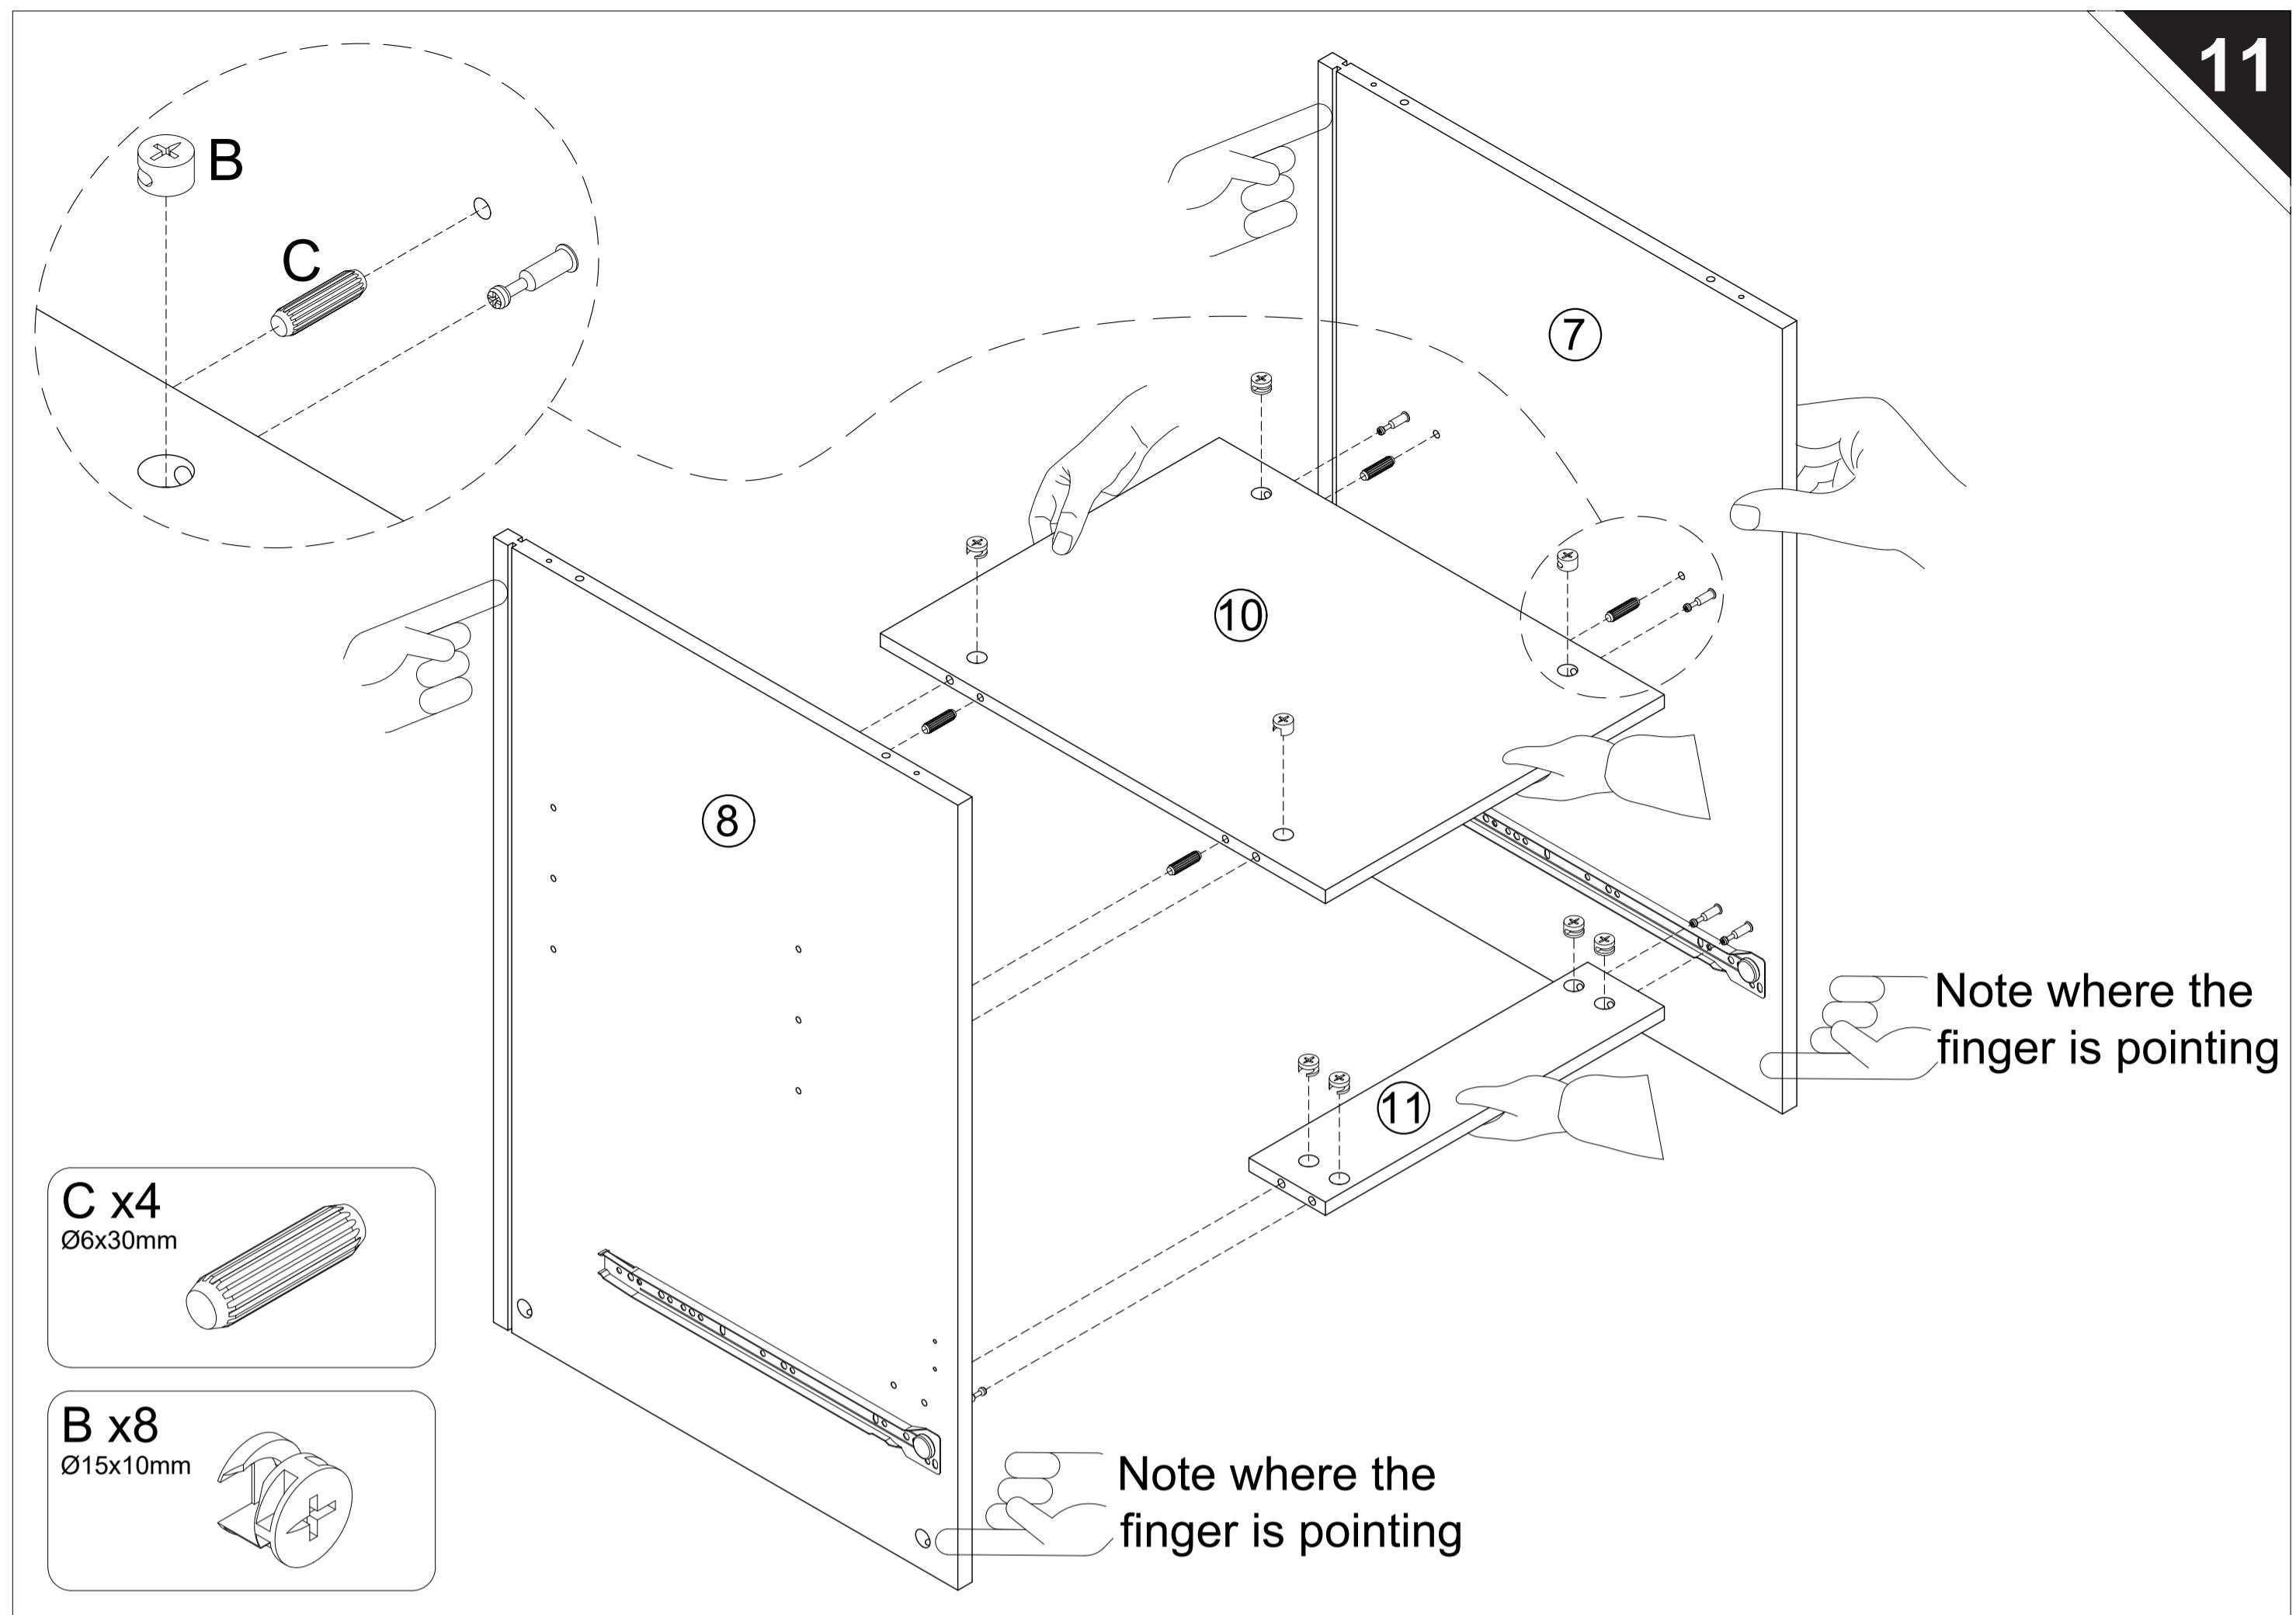

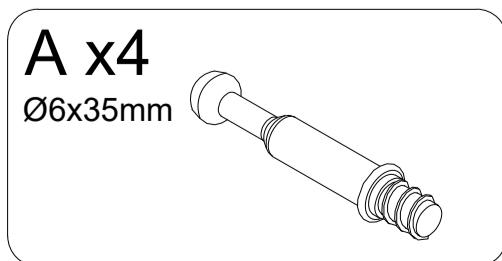

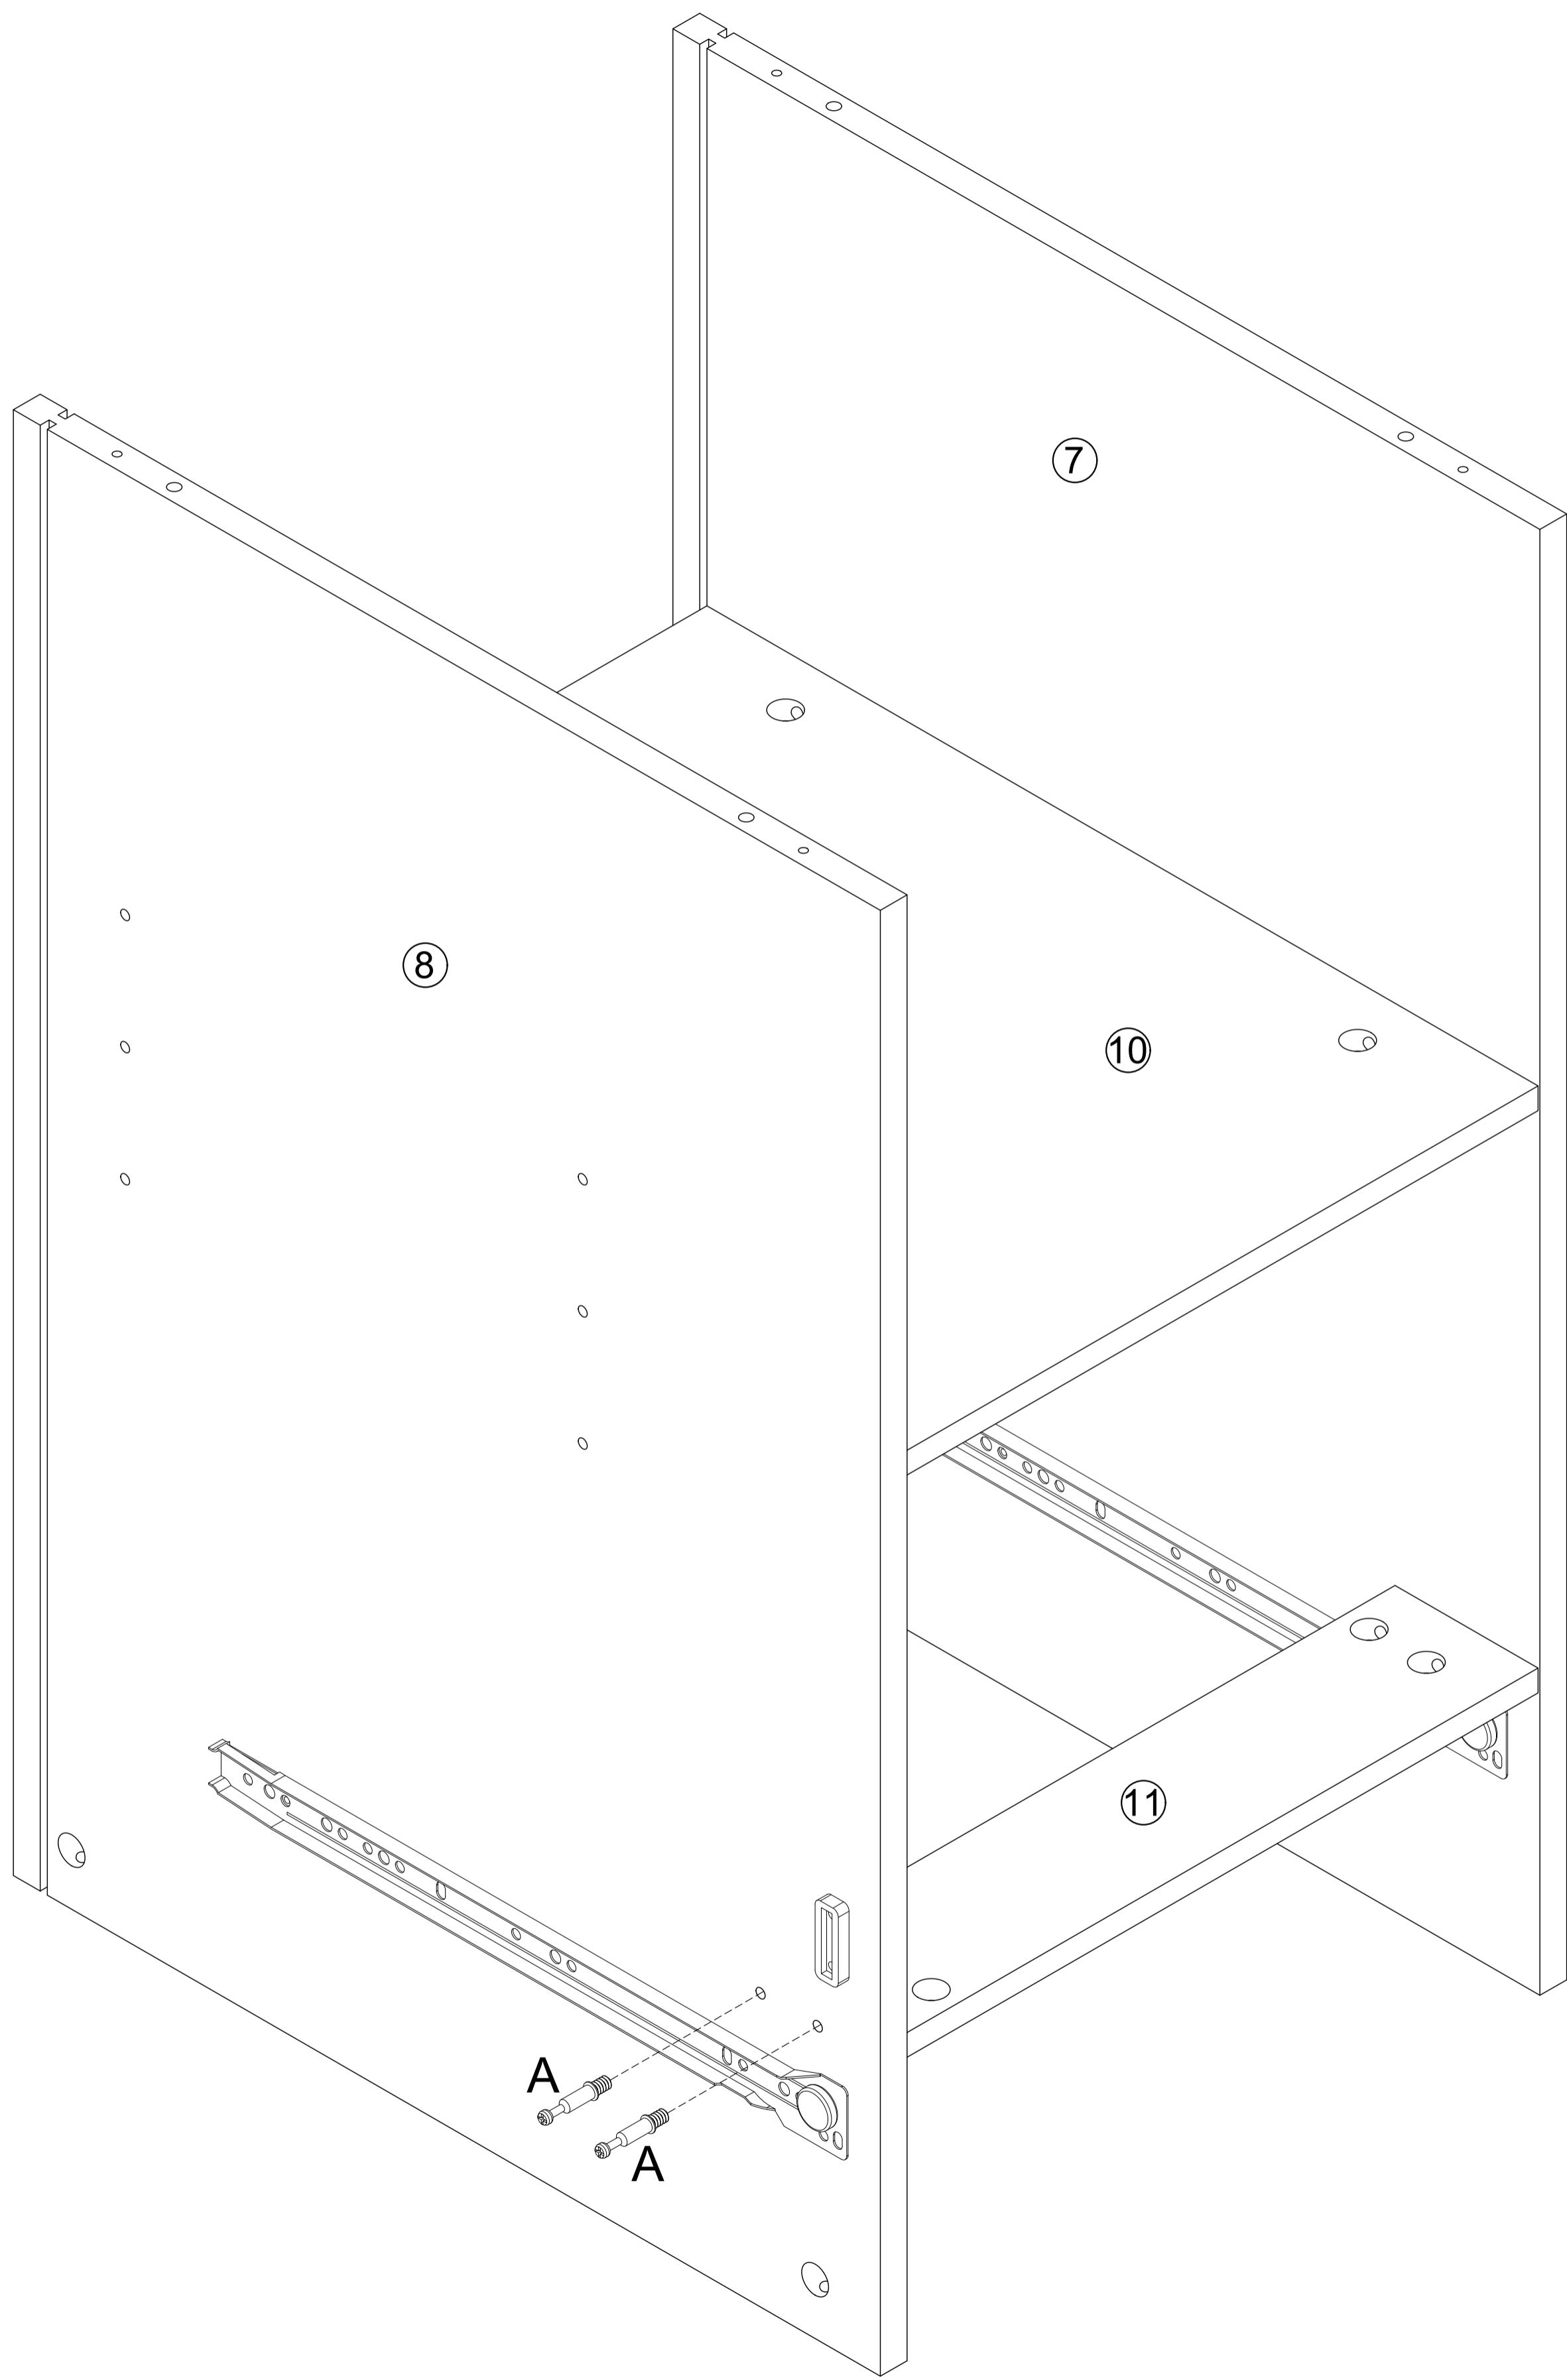

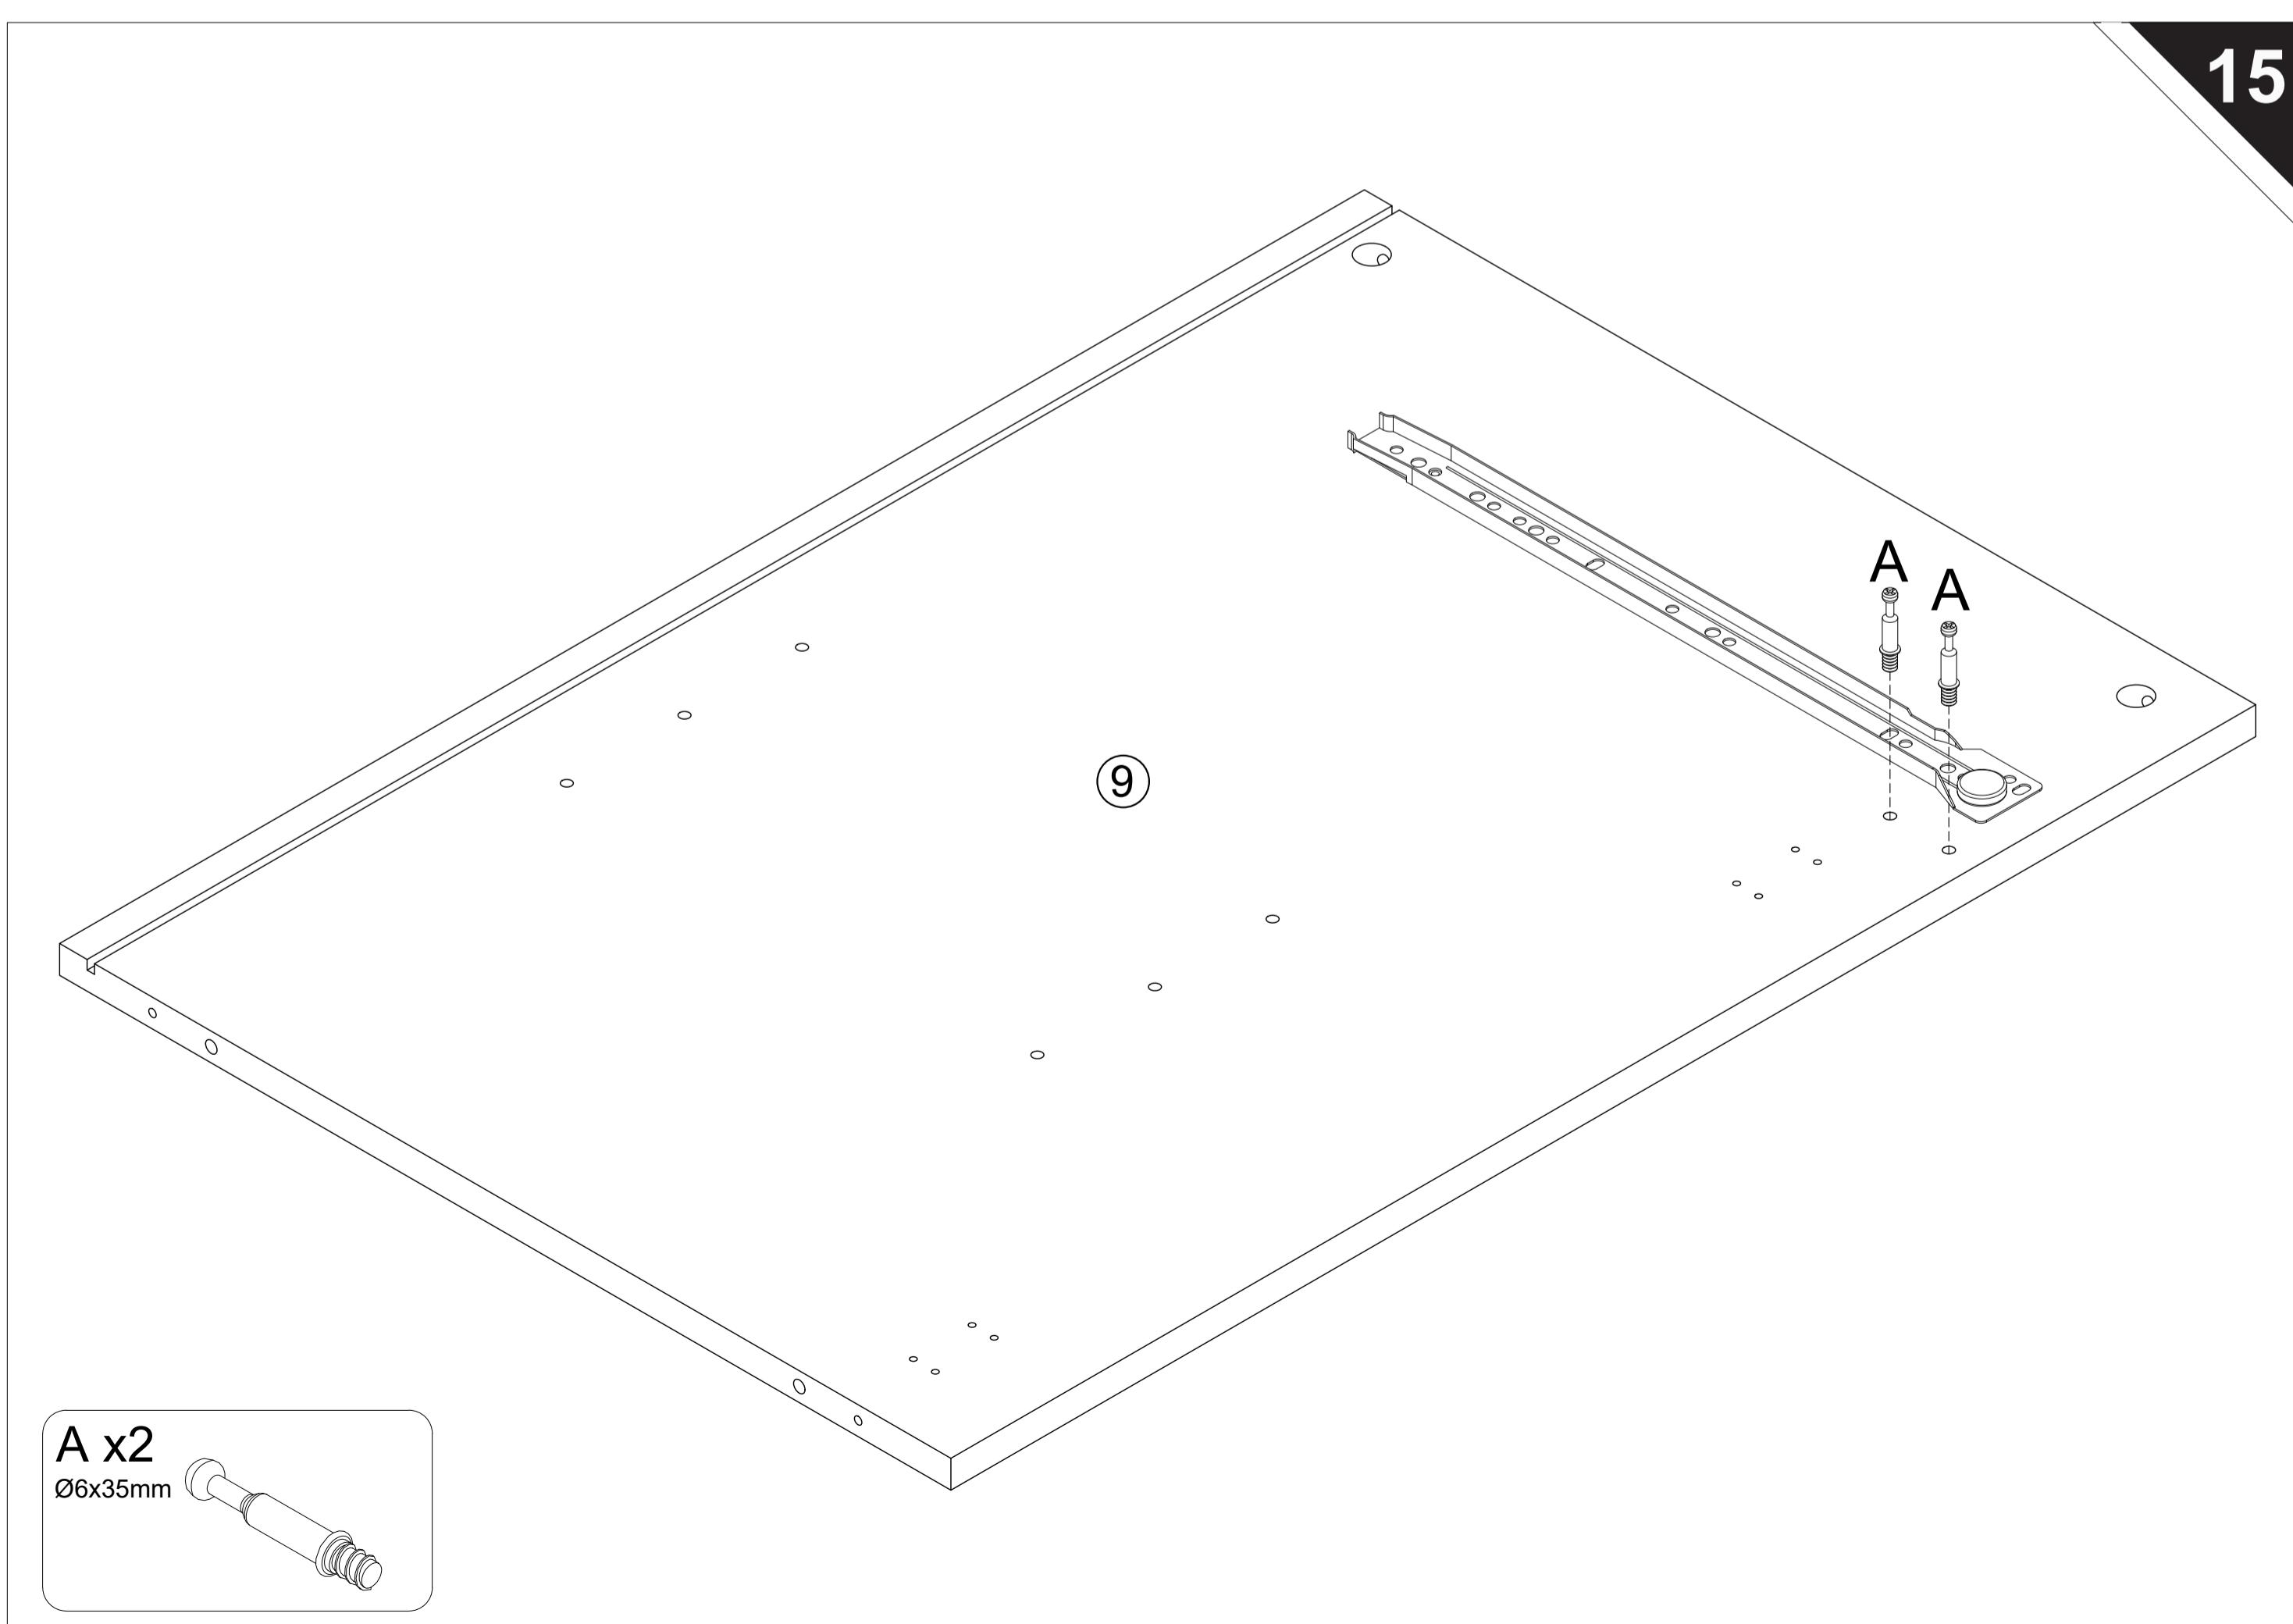

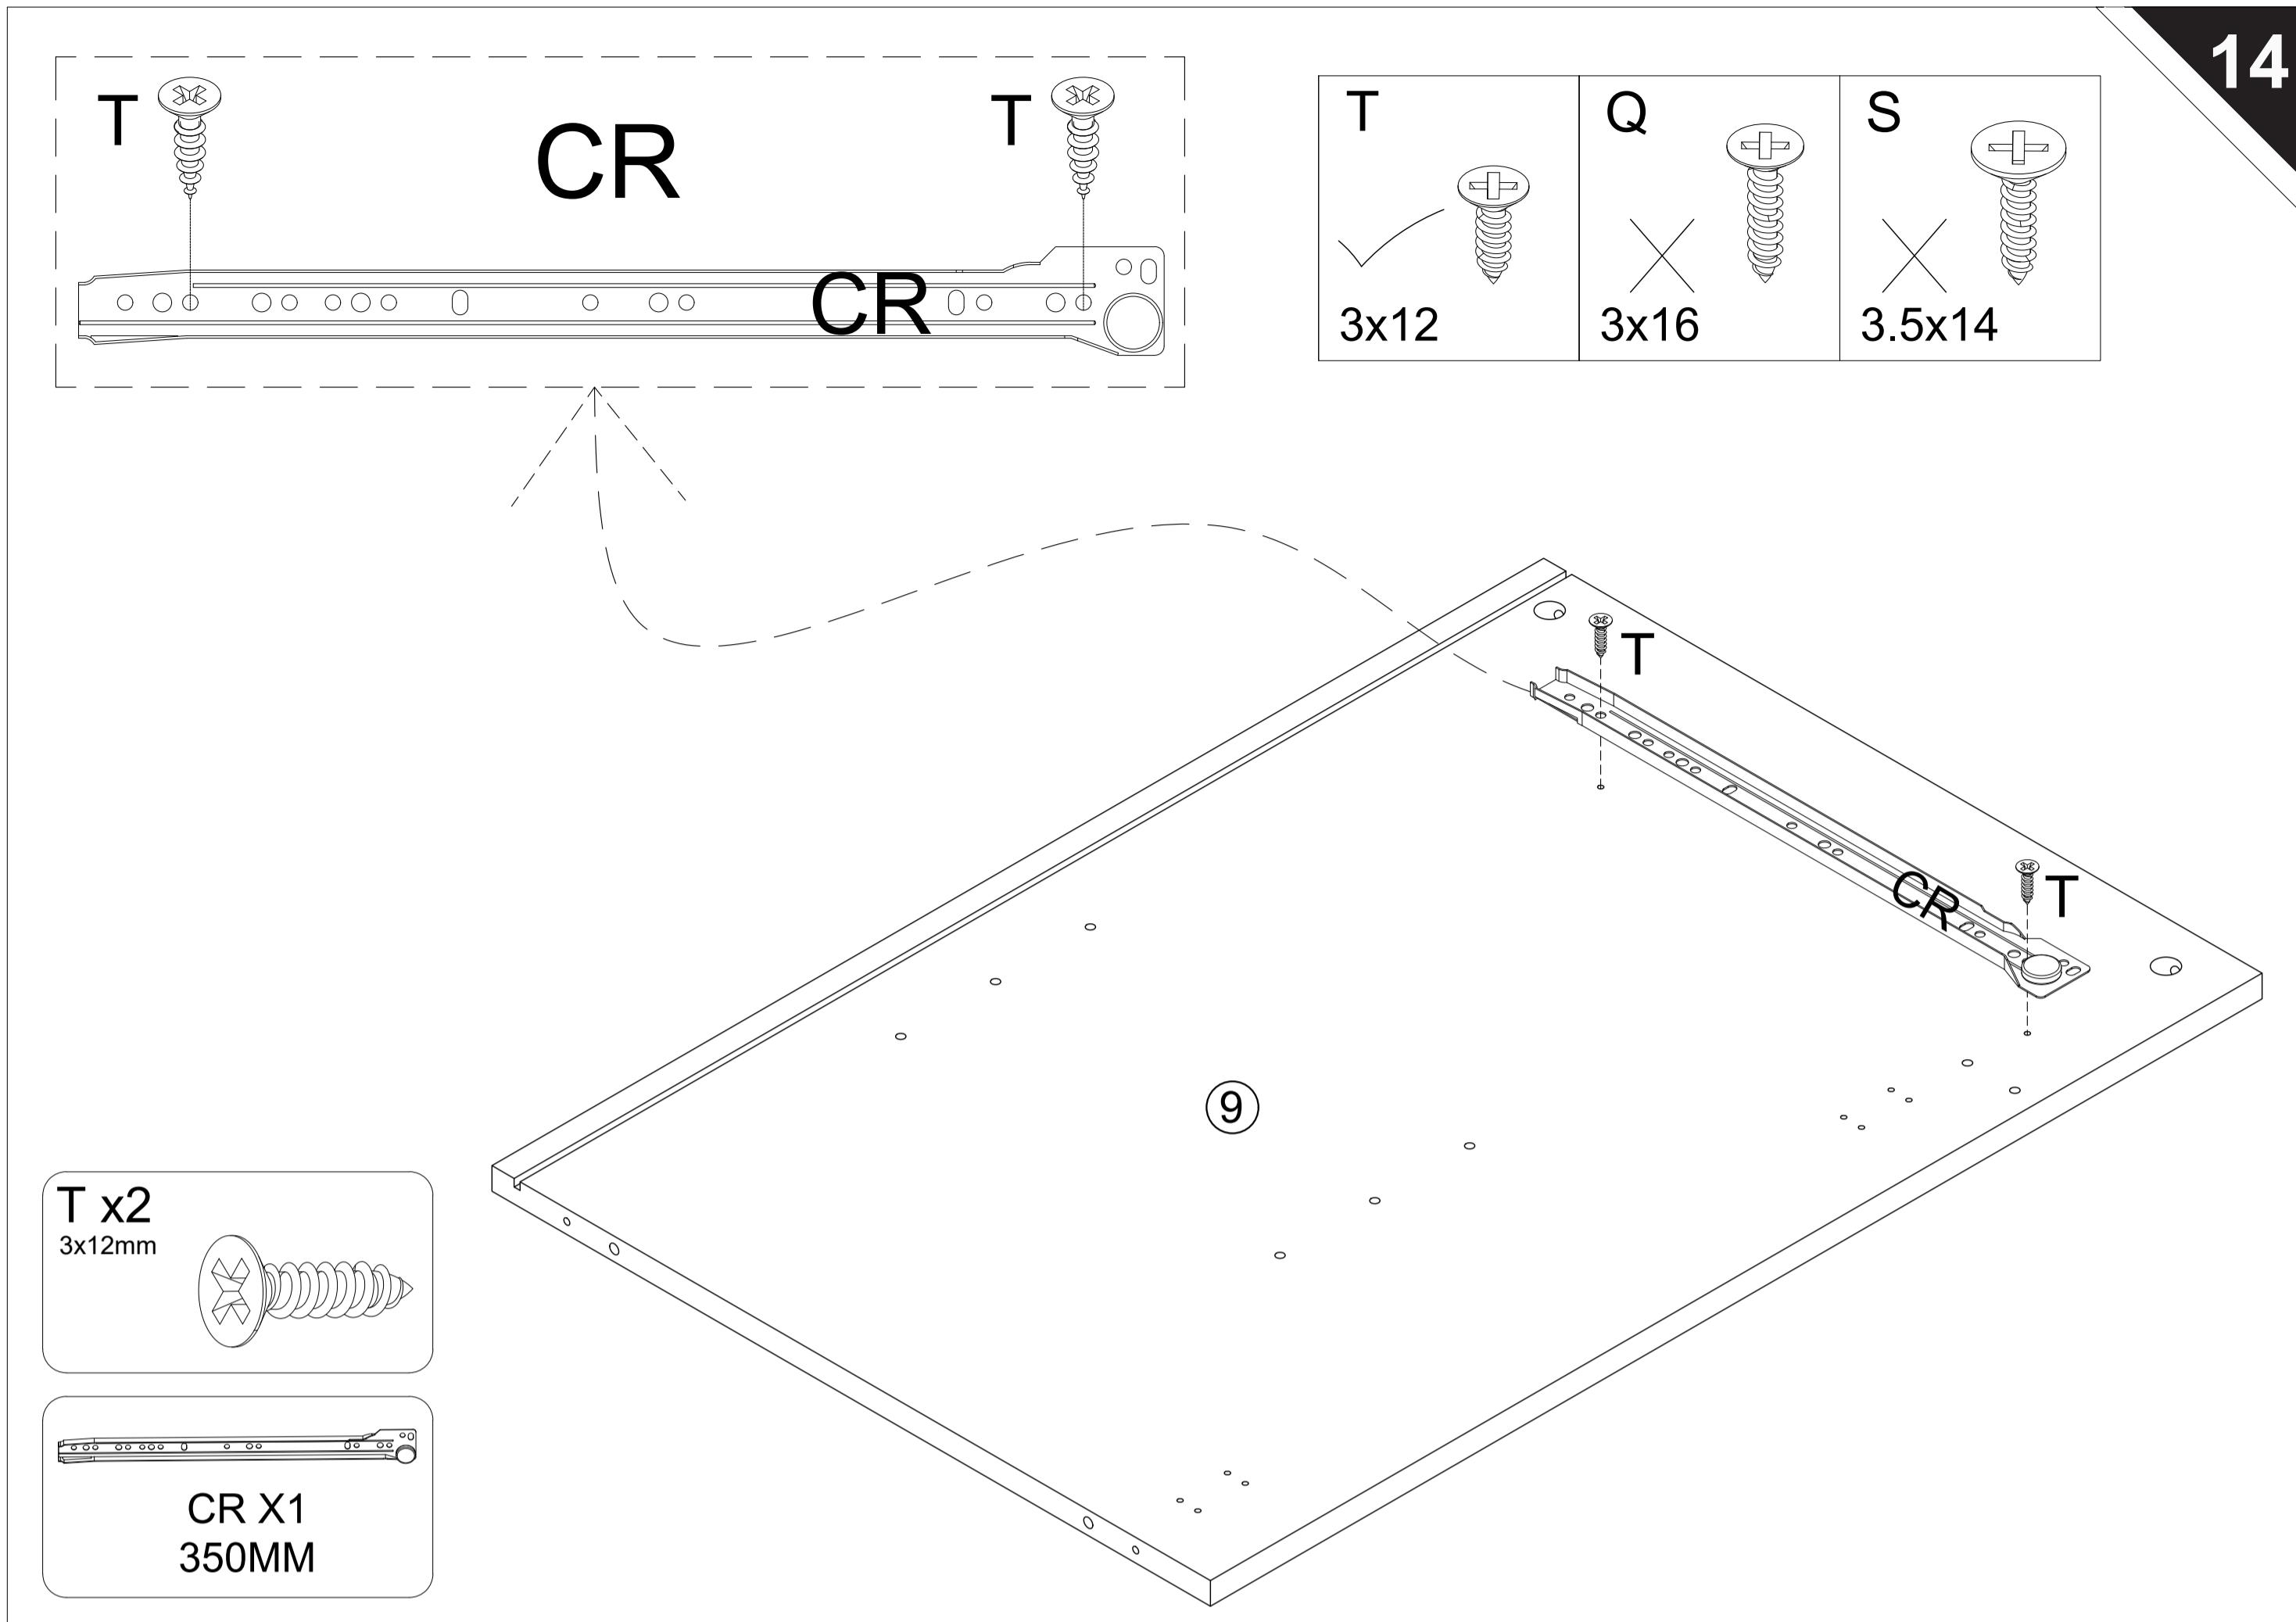

|      |      |        |
|------|------|--------|
| T    | Q    | S      |
| 3x12 | 3x16 | 3.5x14 |

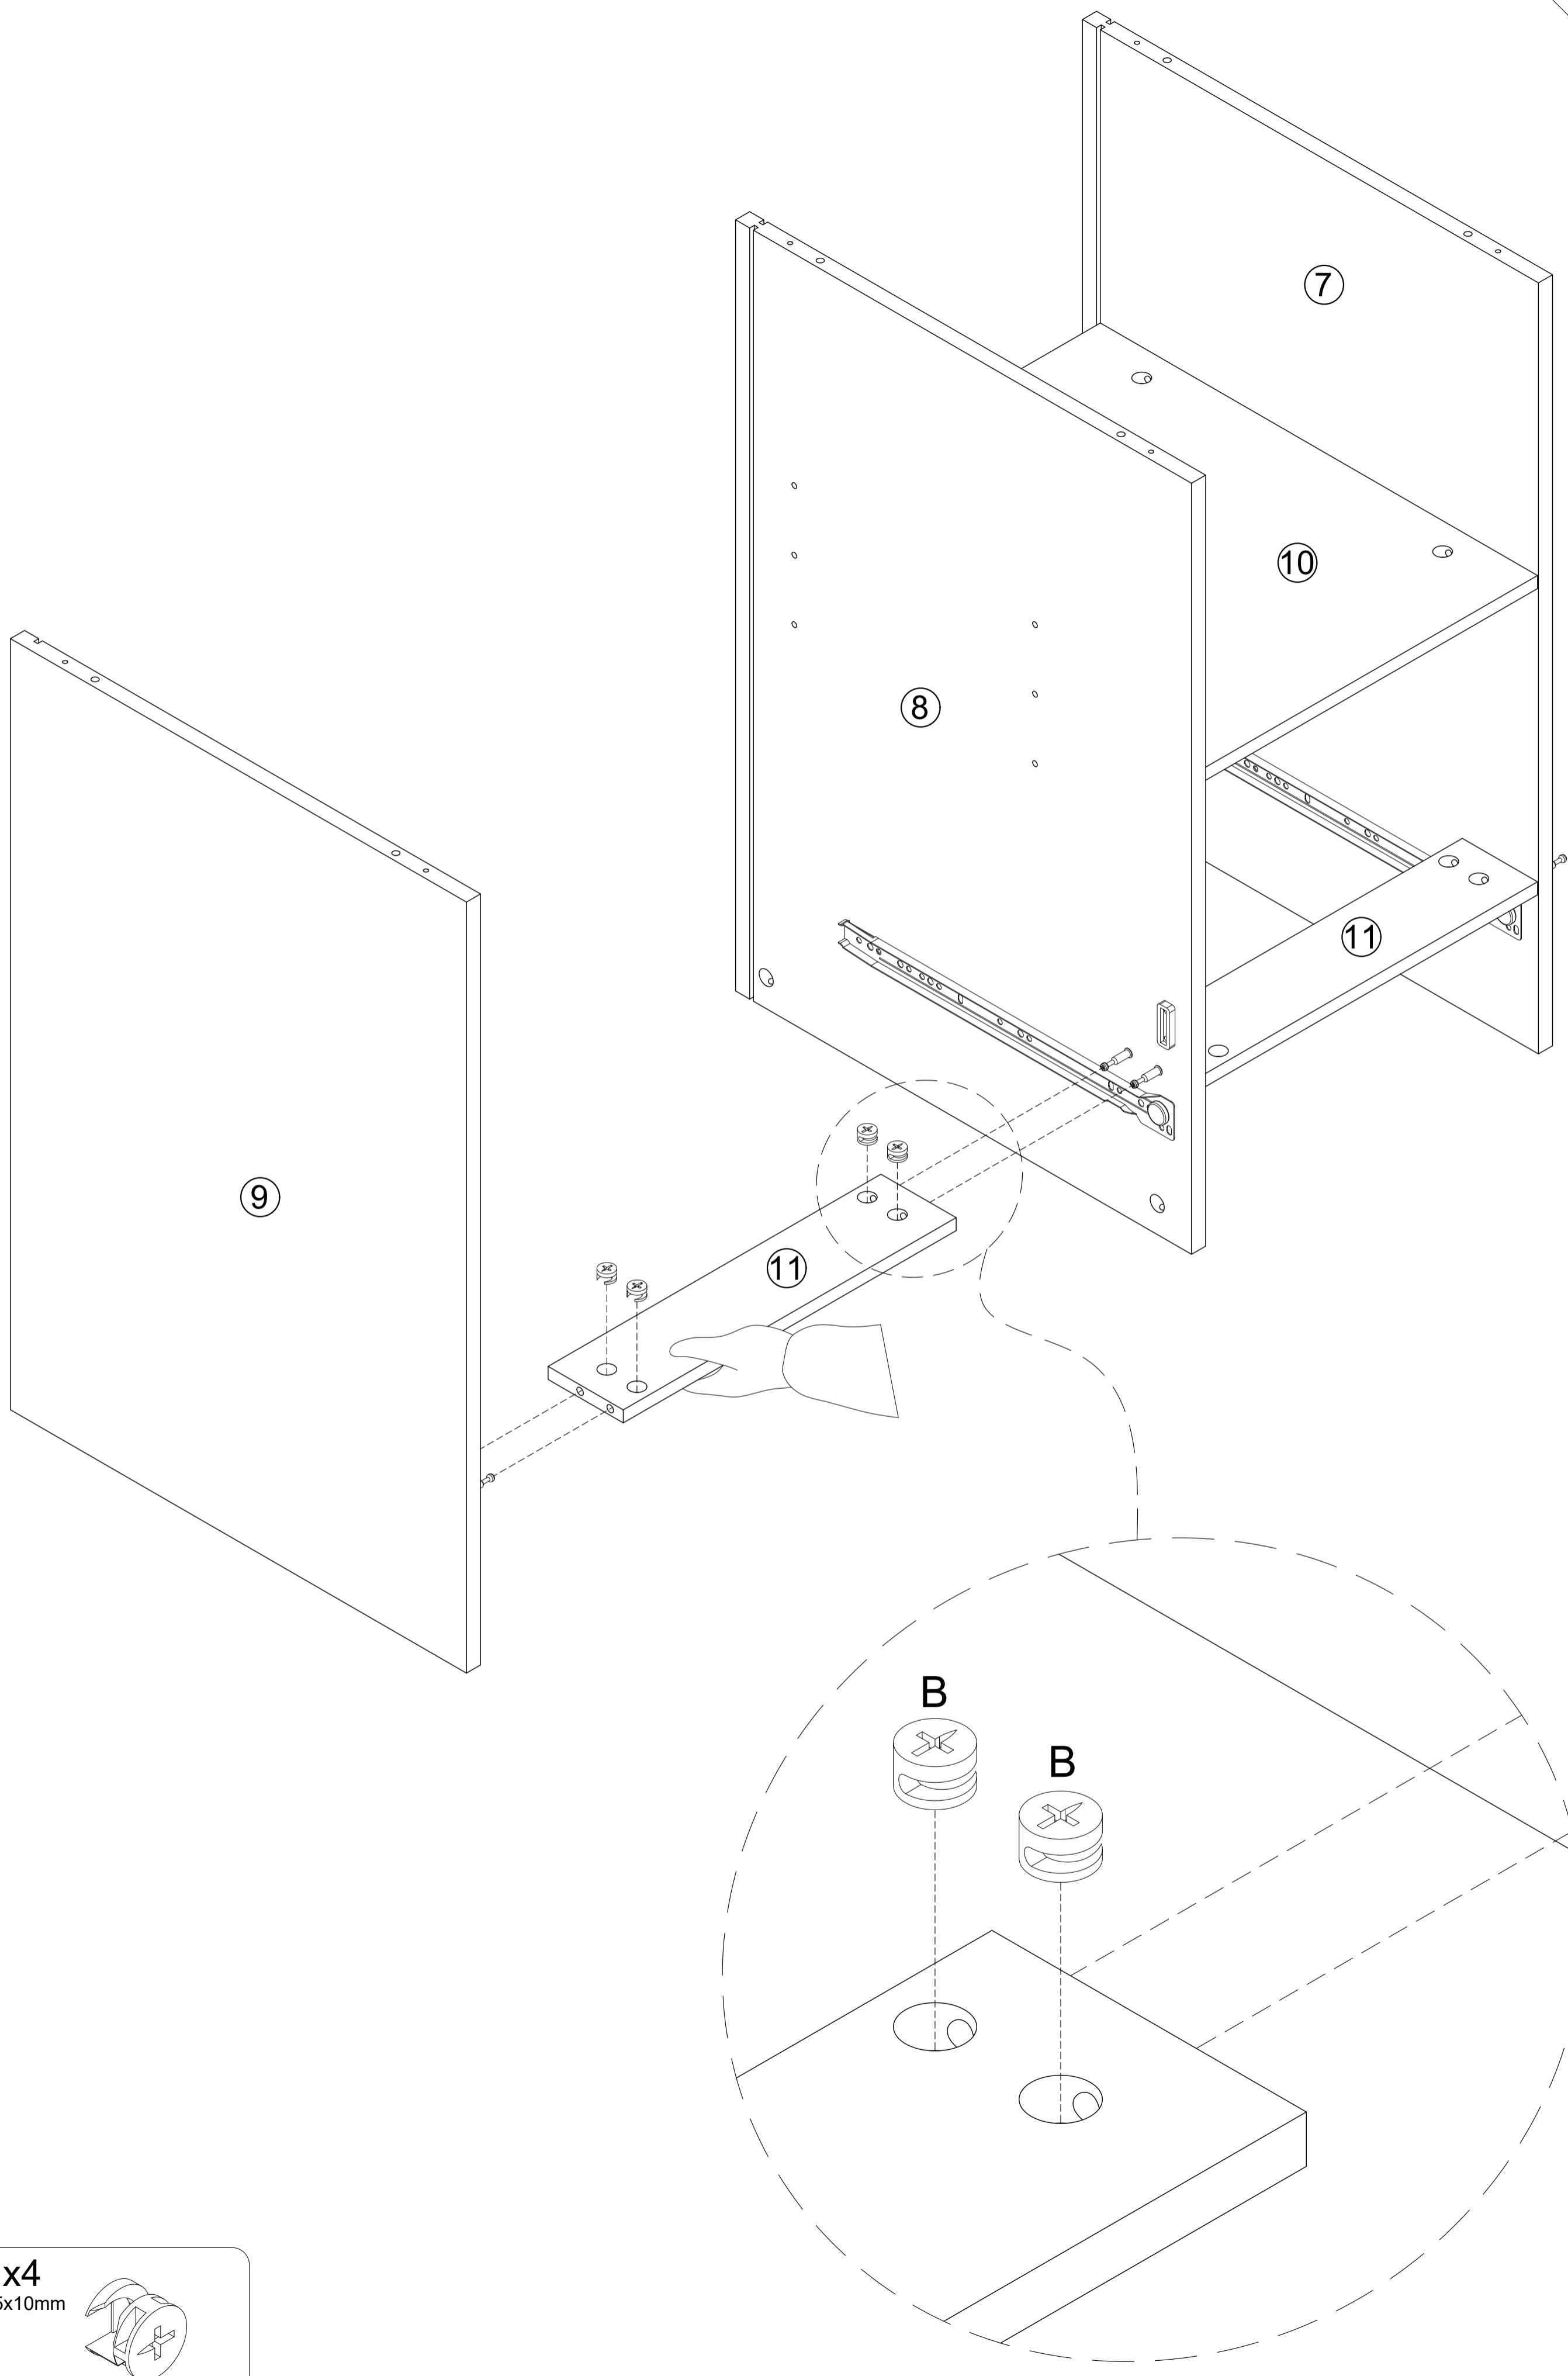

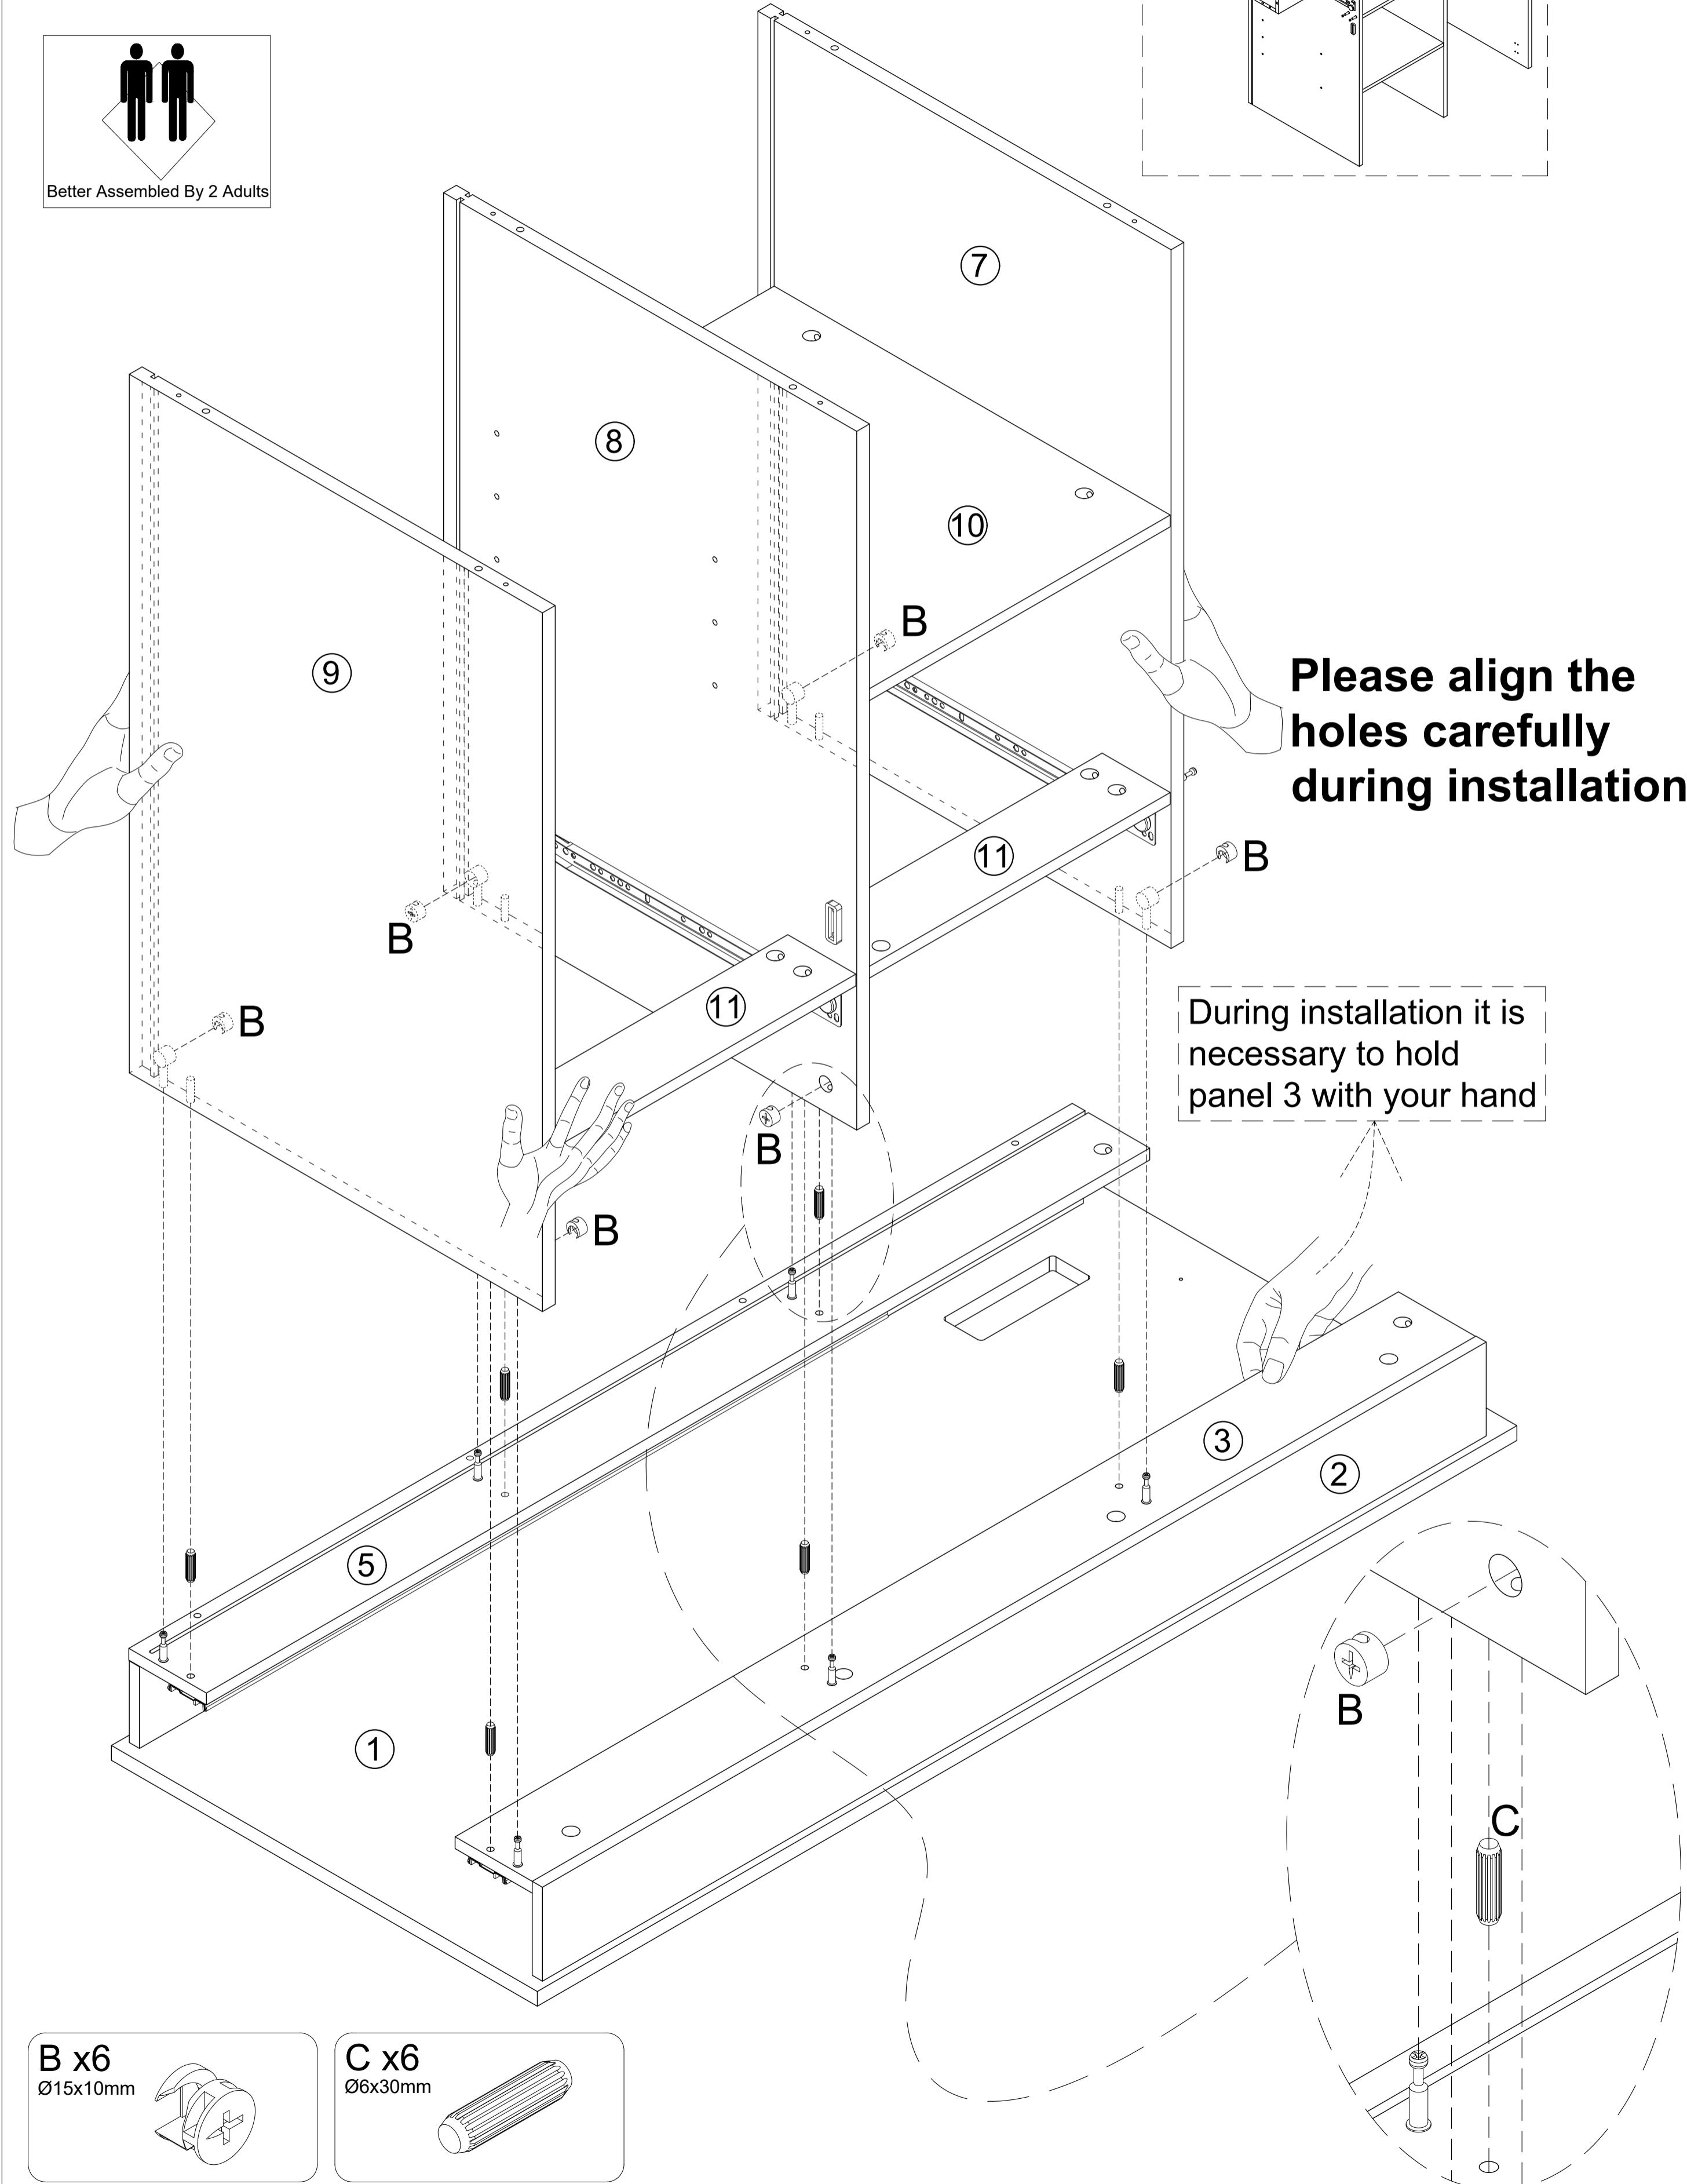

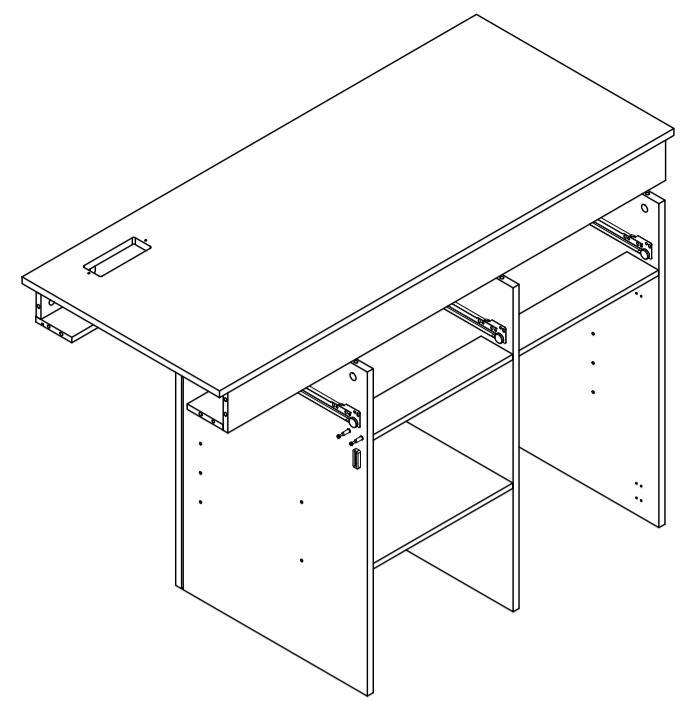

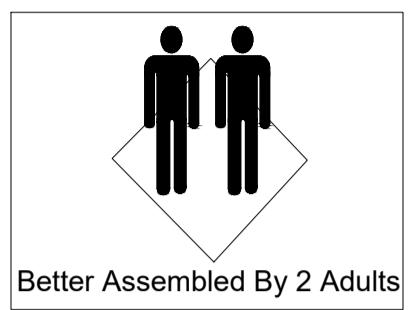

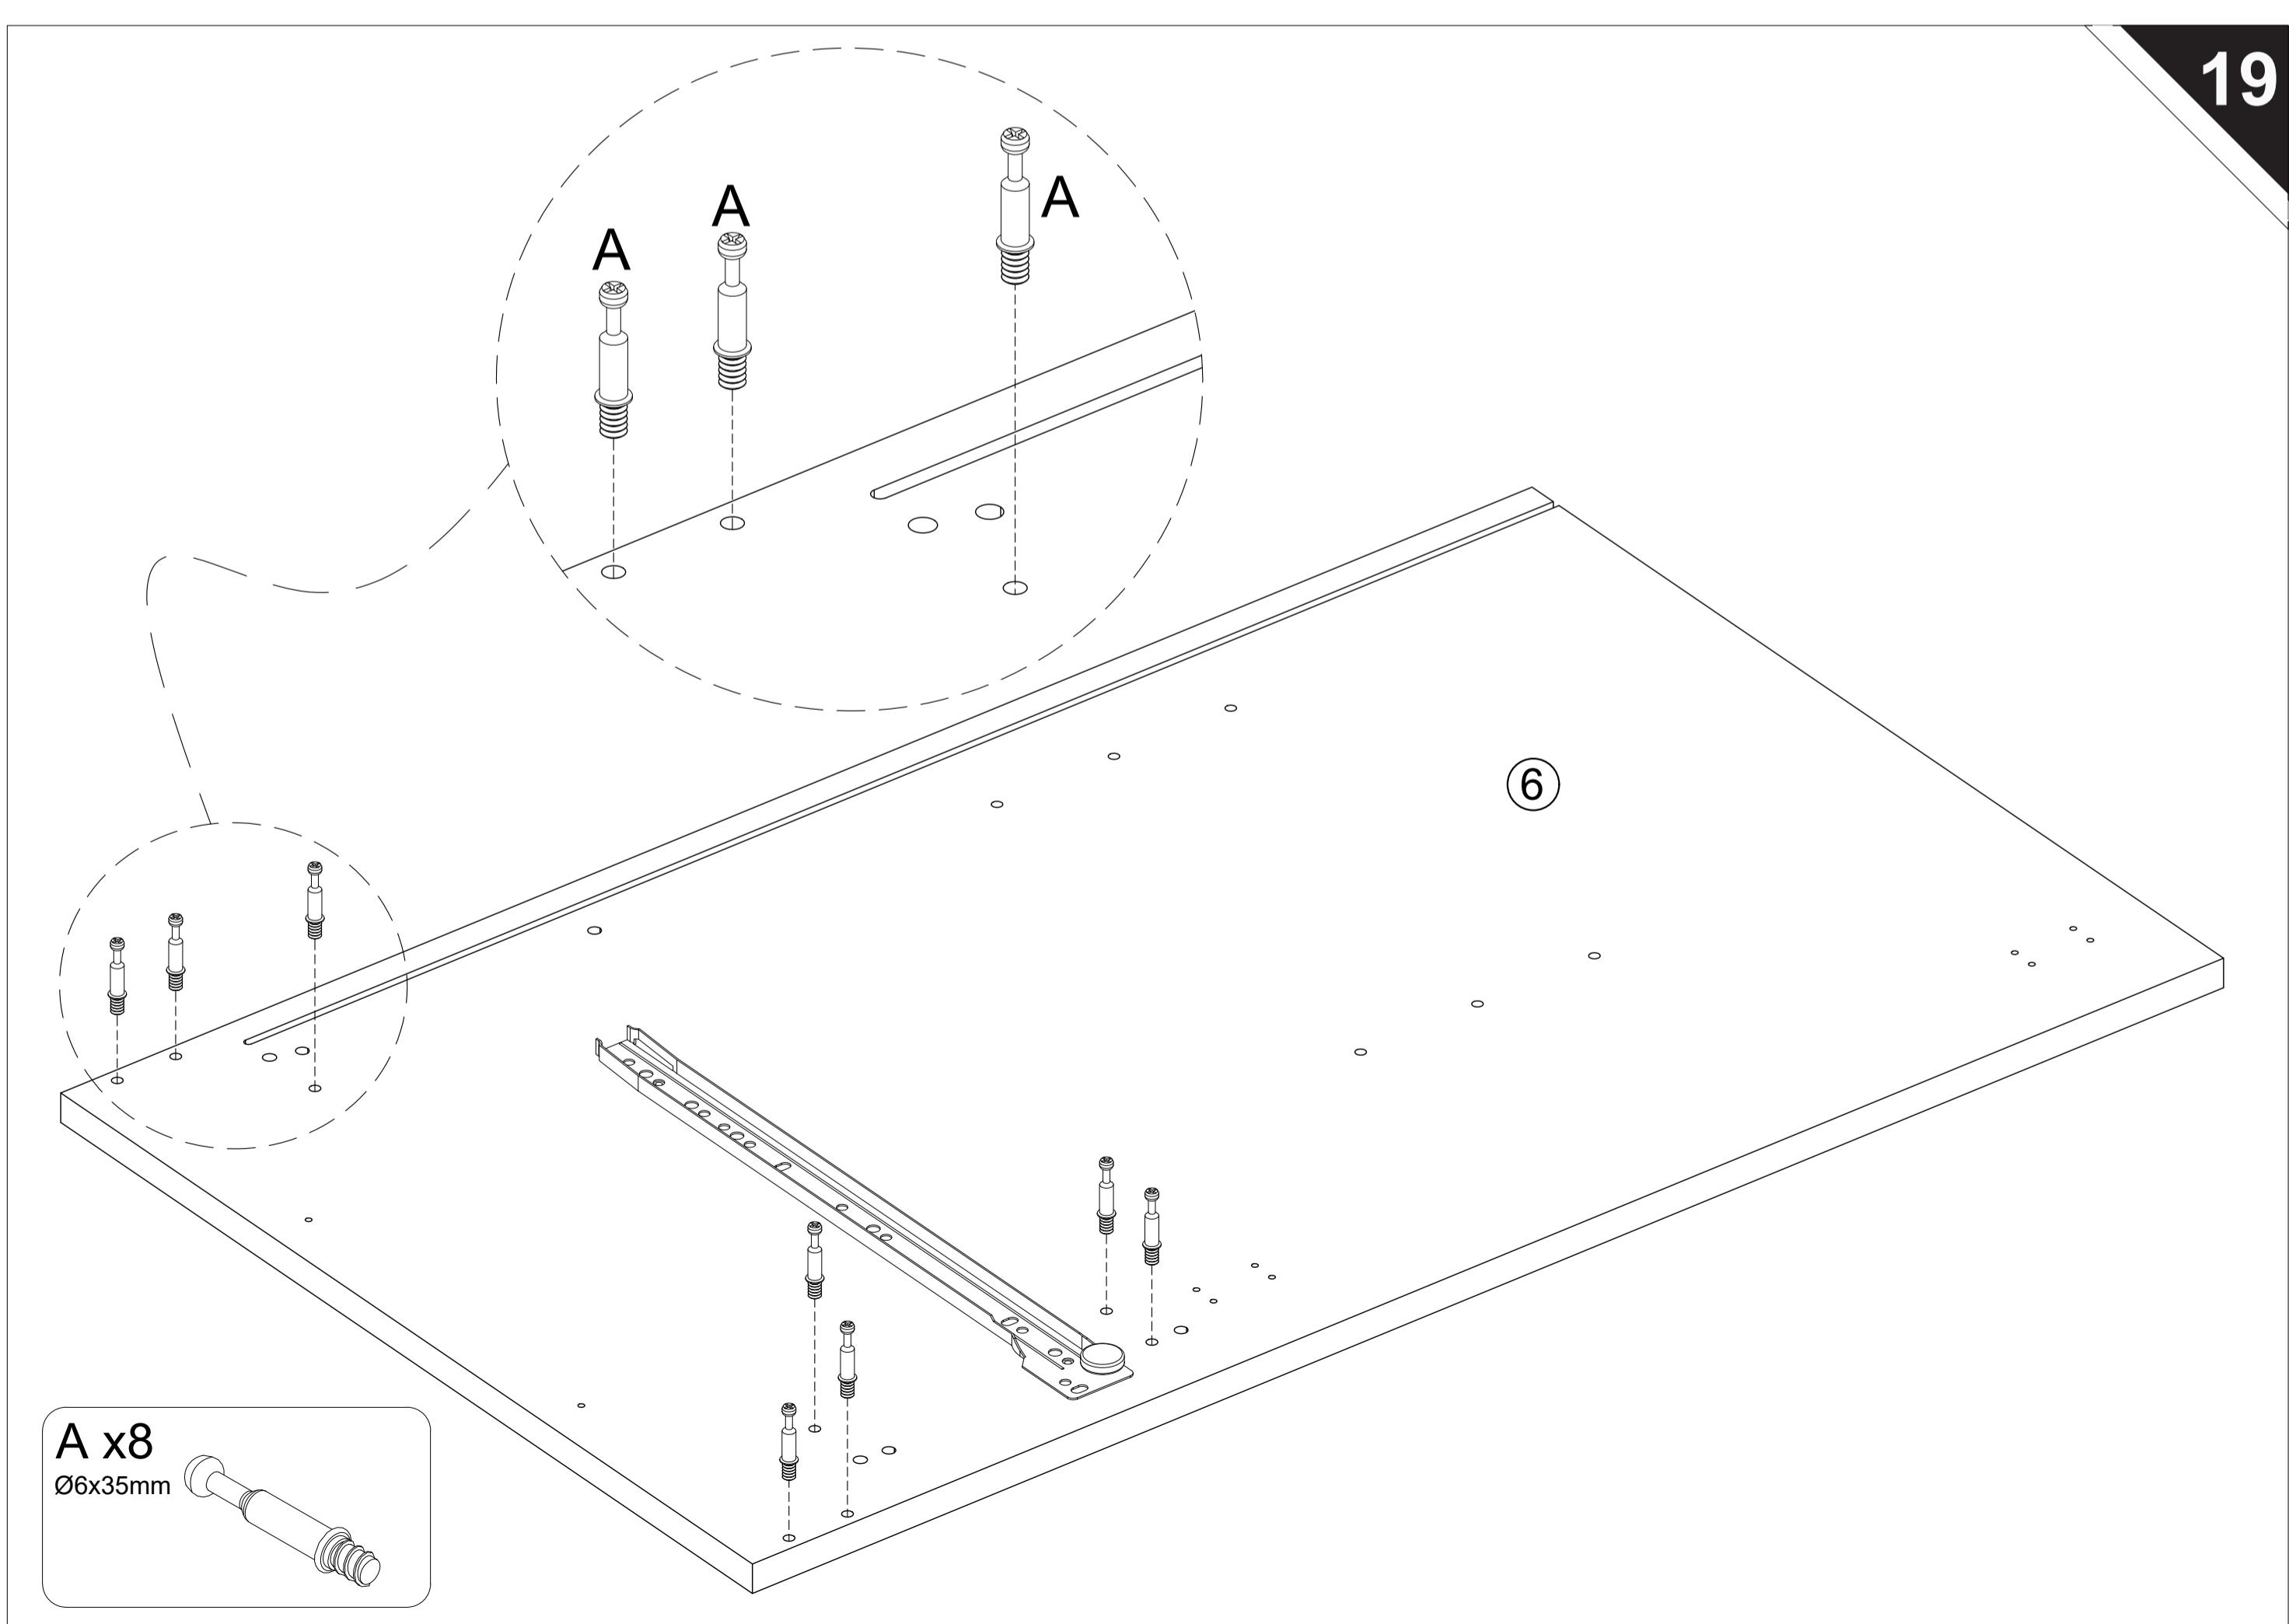

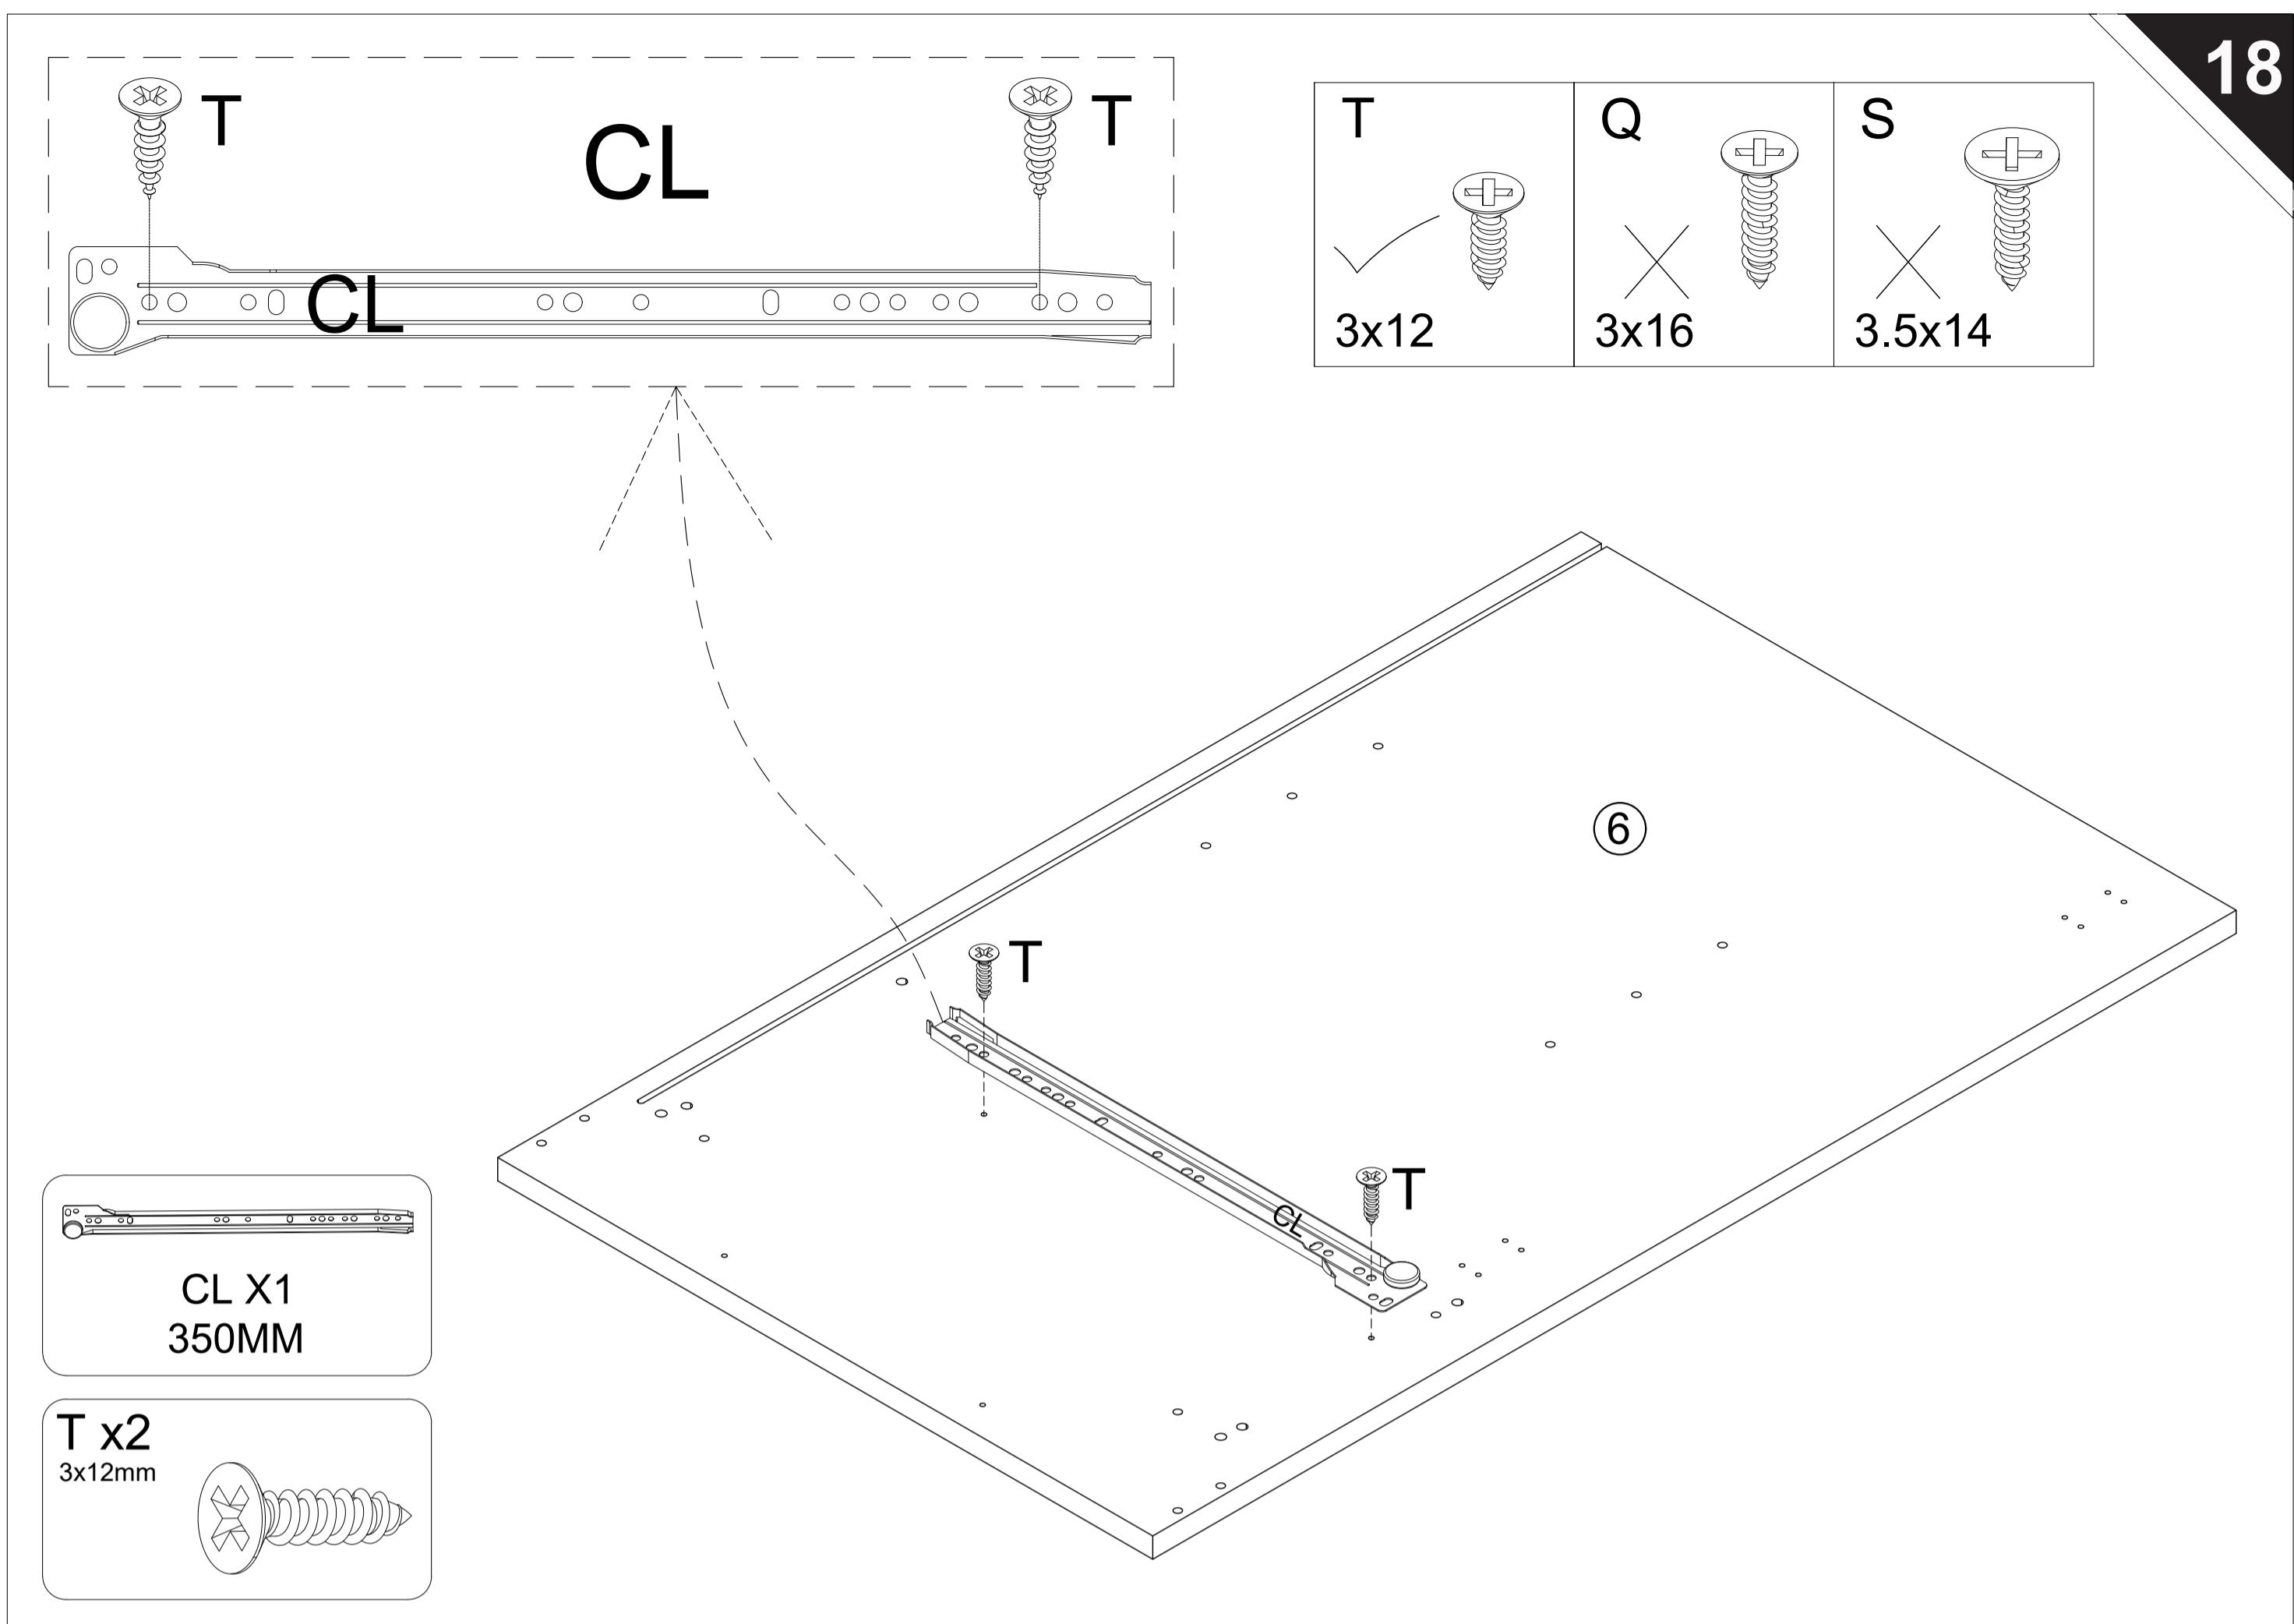

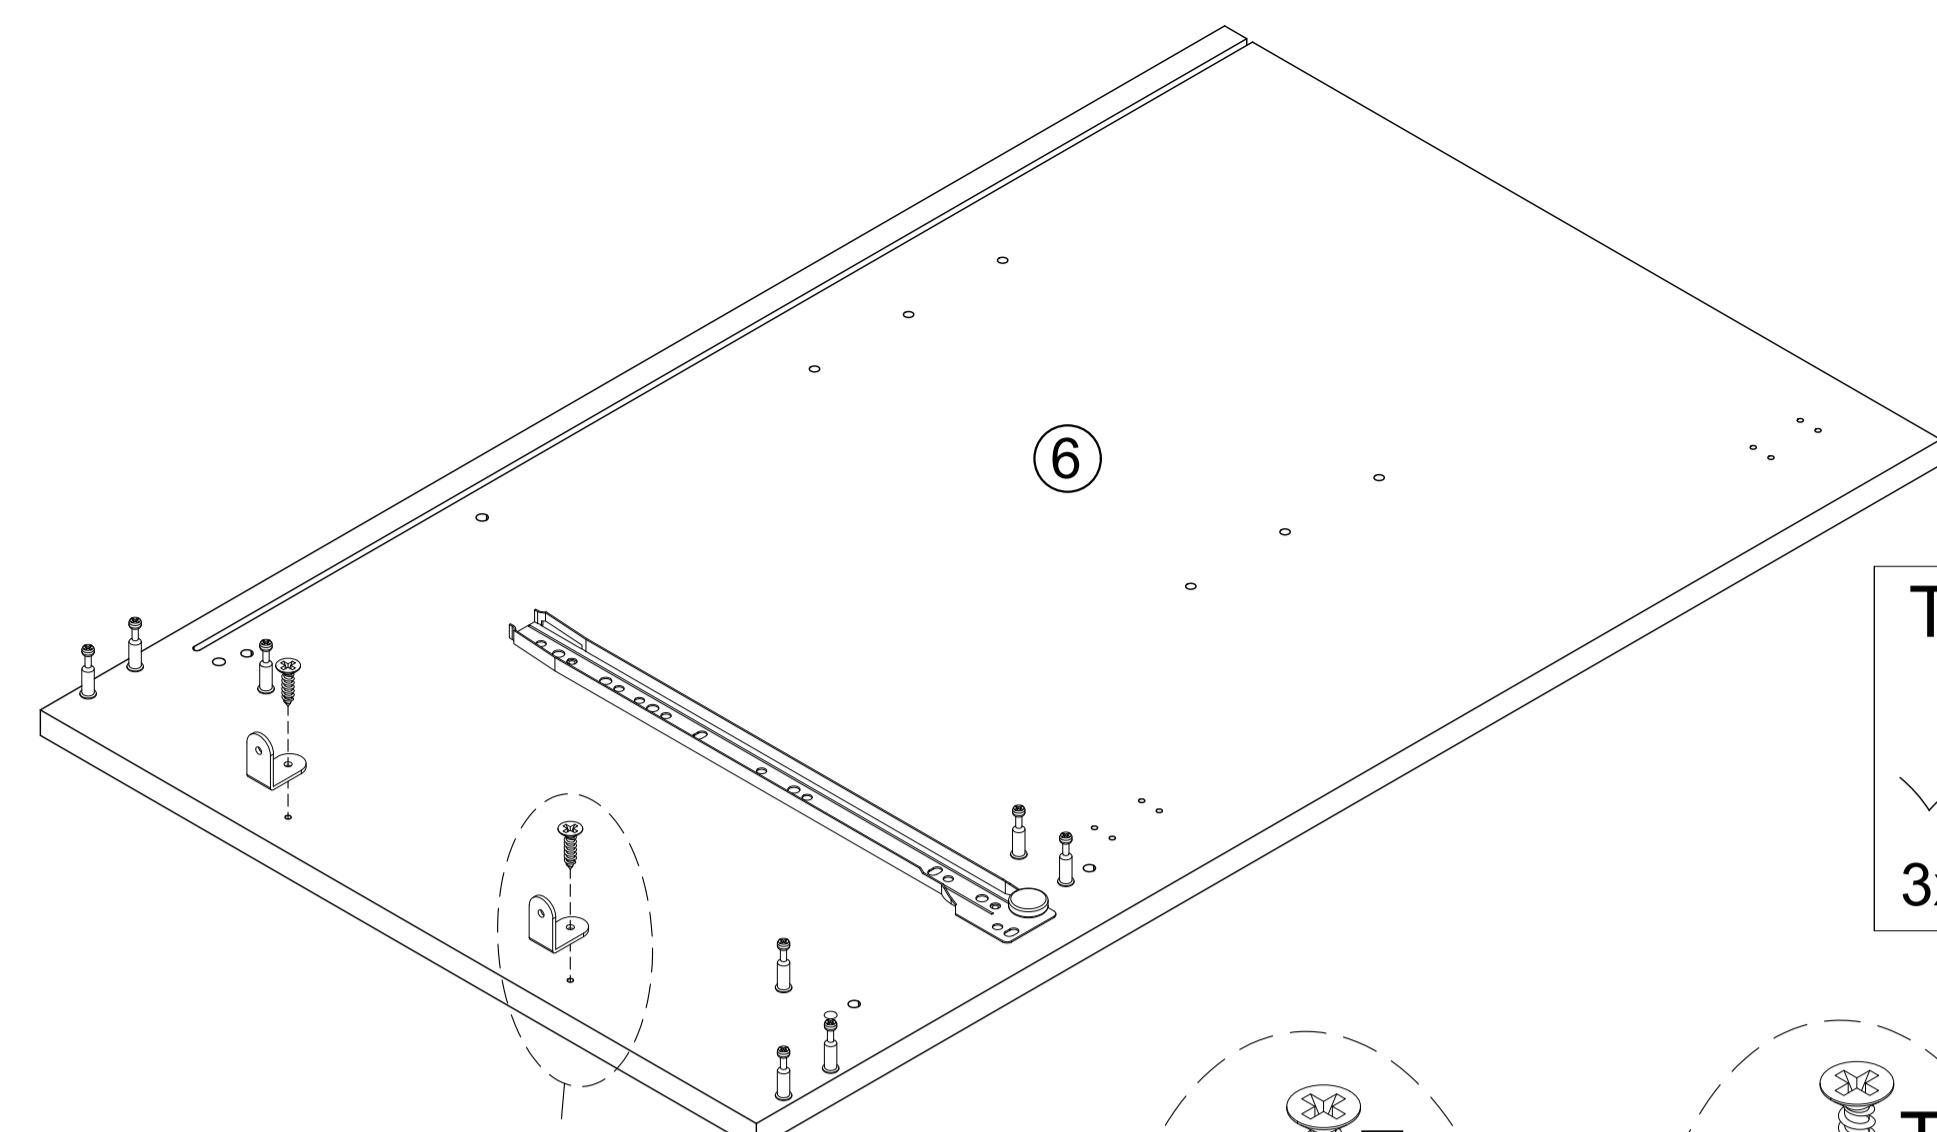

## Friendly Reminder

If installation is difficult, please install vertically as shown in the diagram  
After installation, flip it over

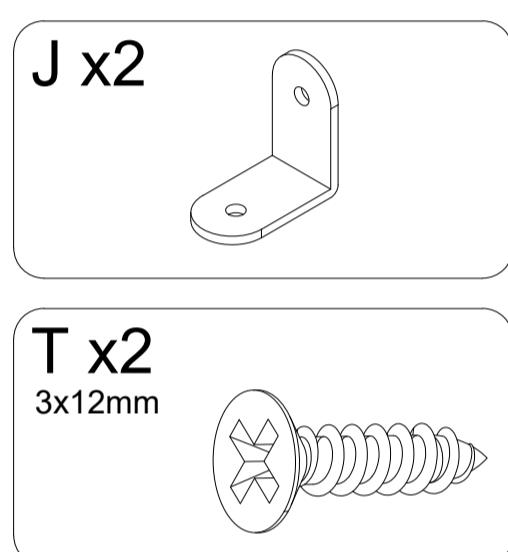

17

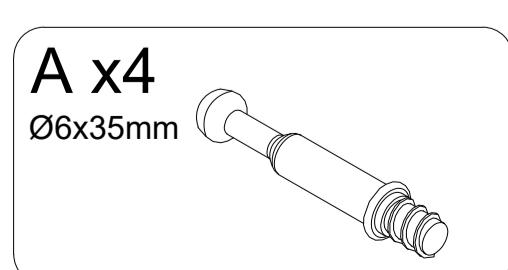

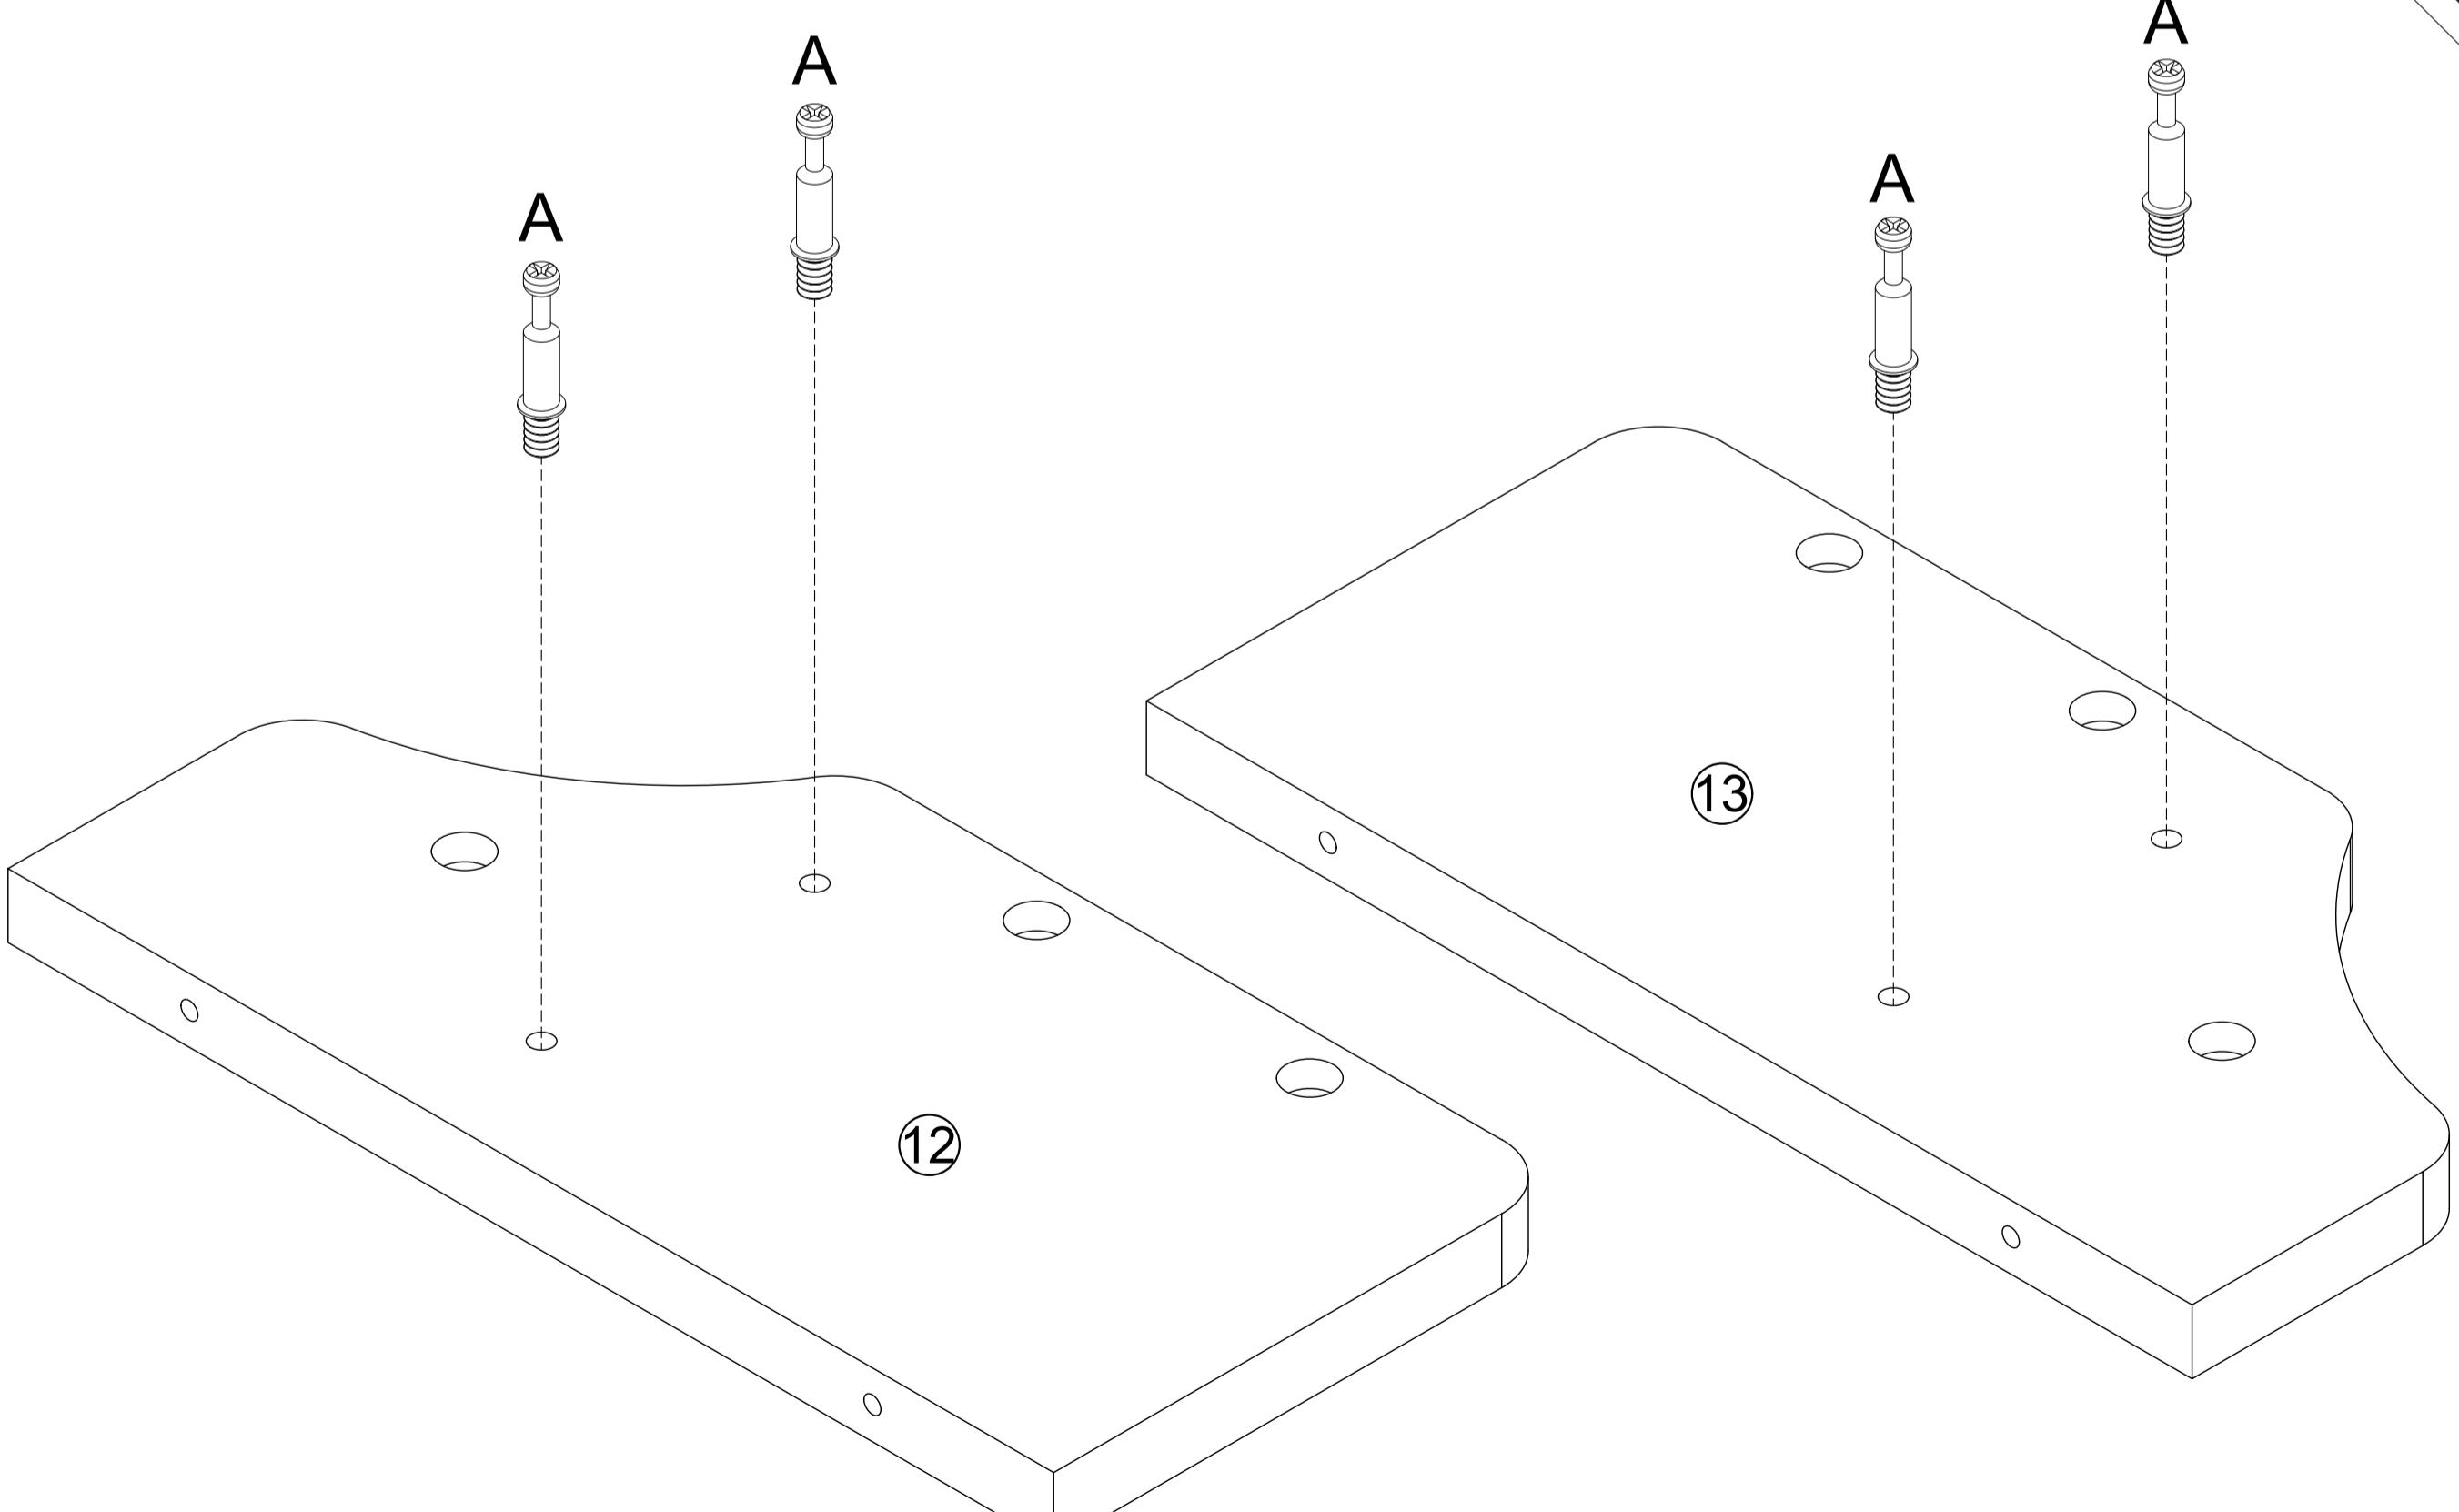

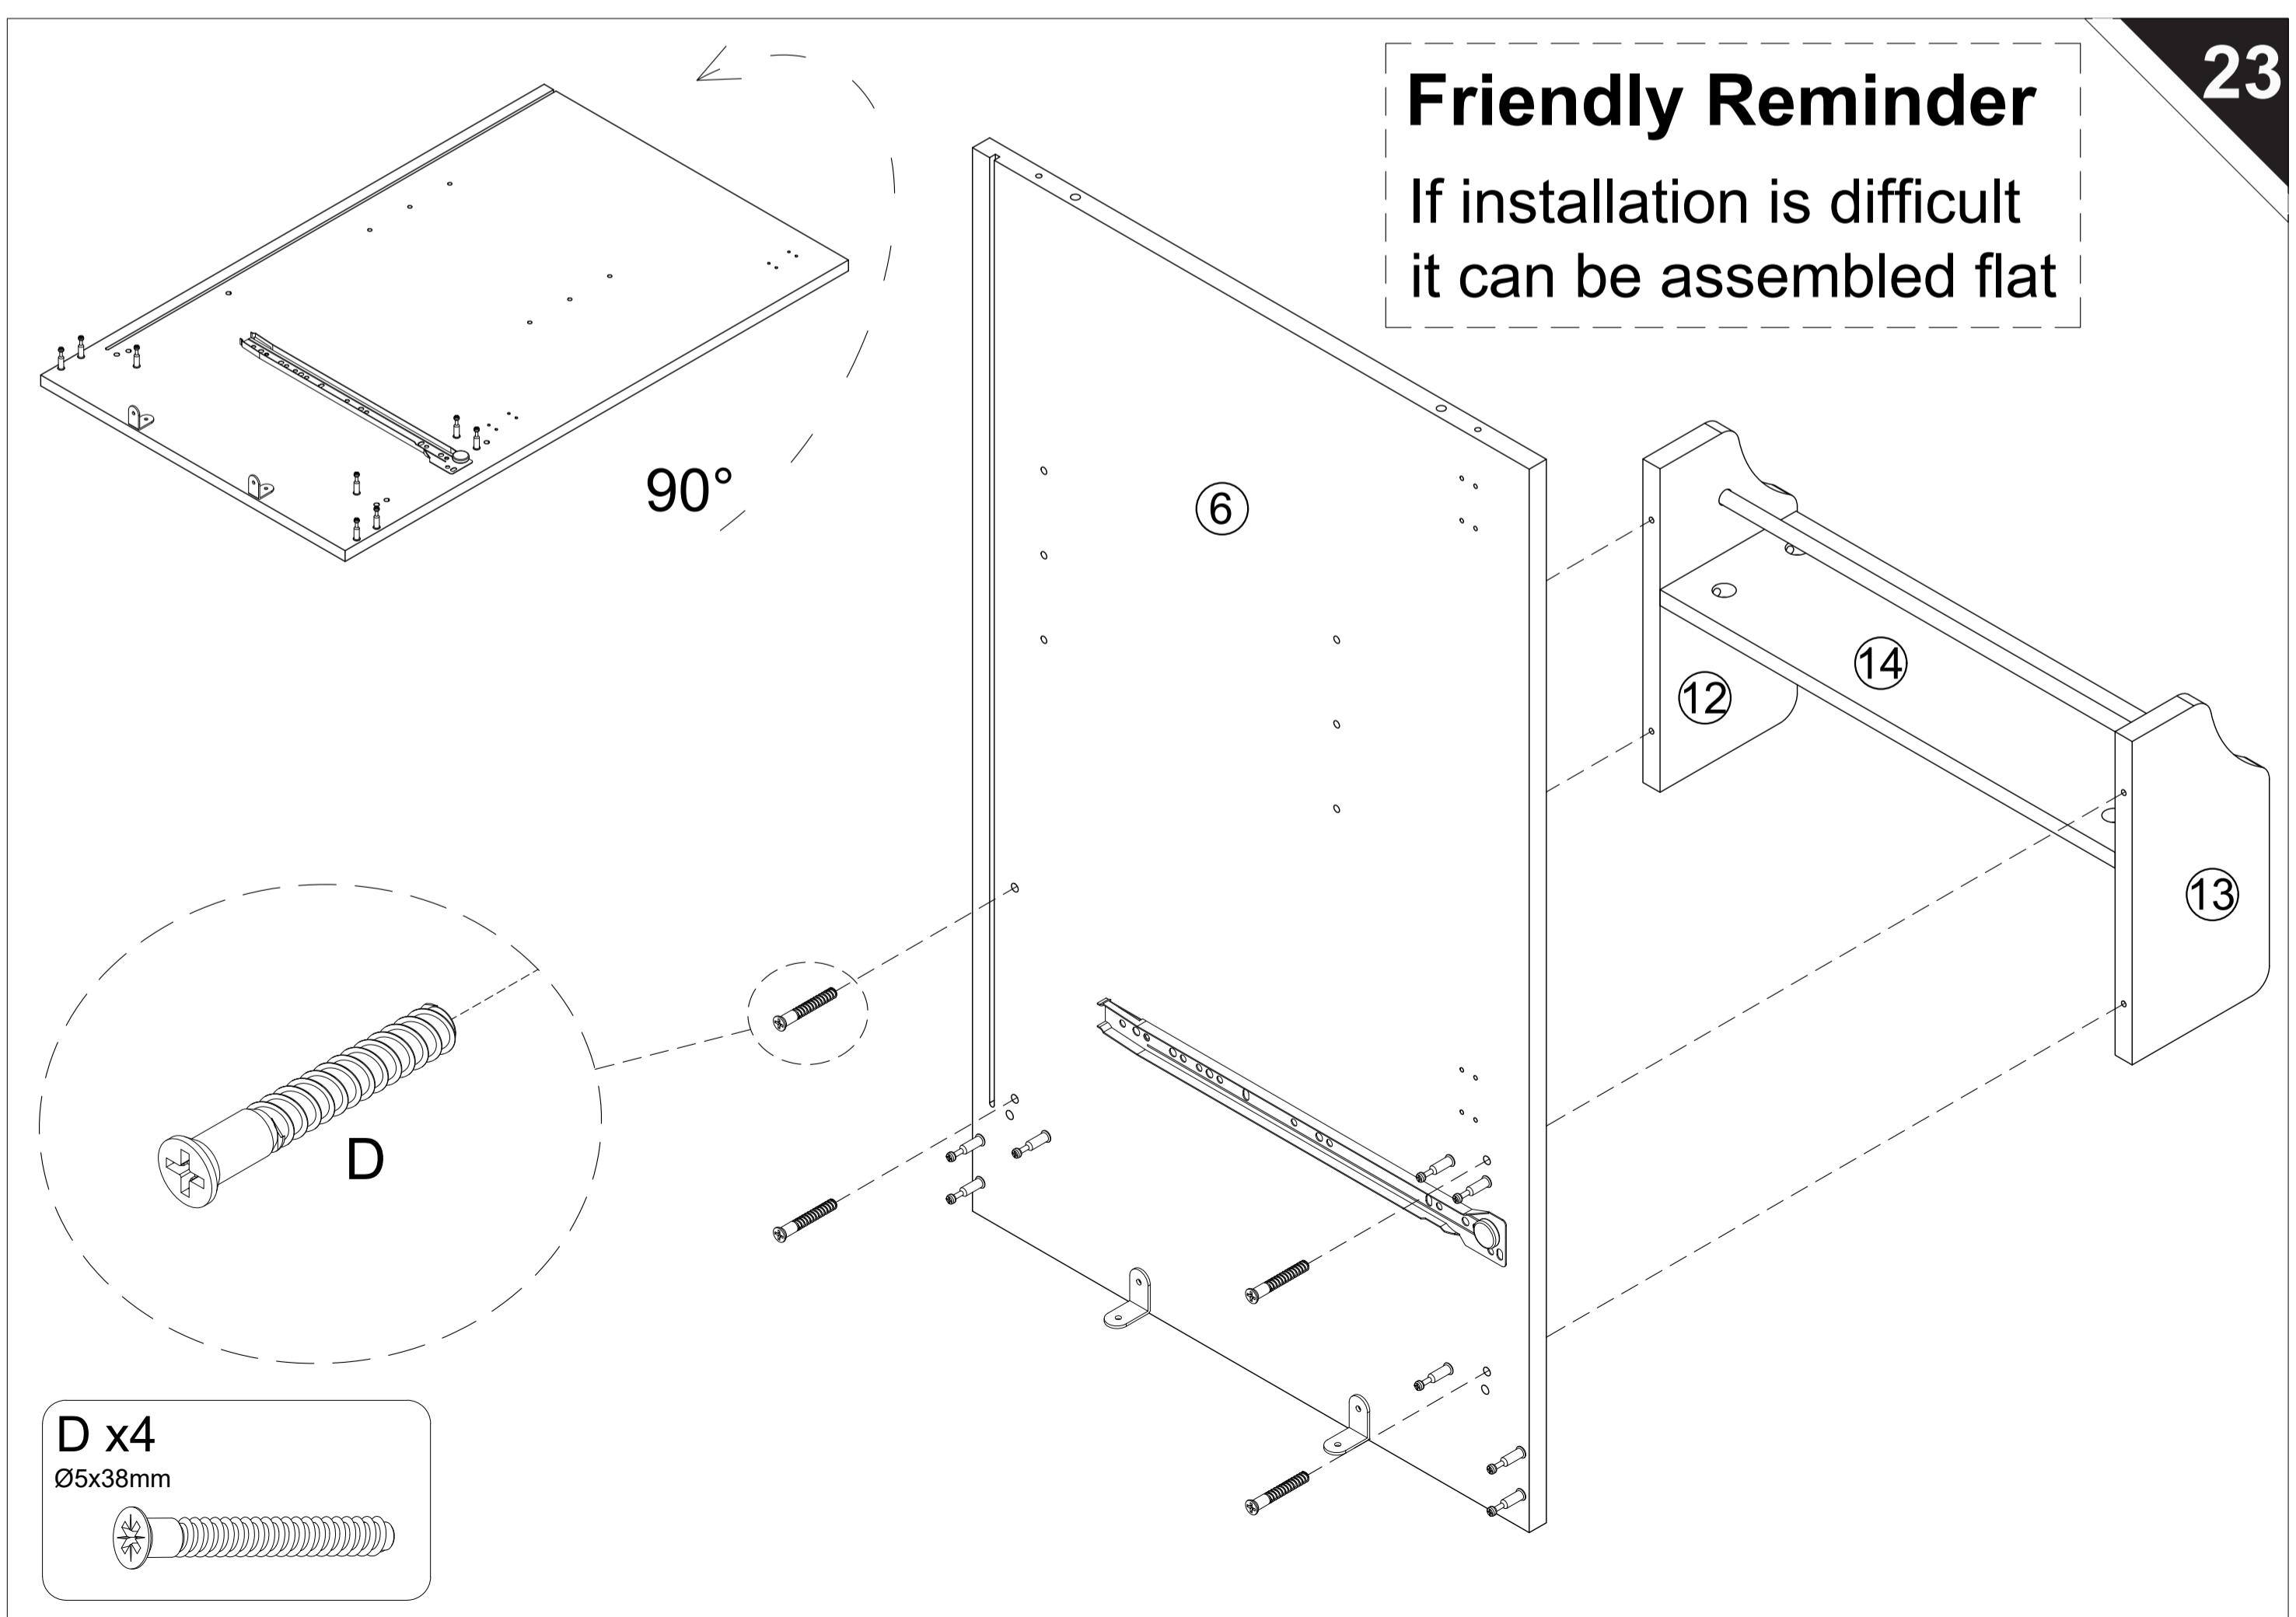

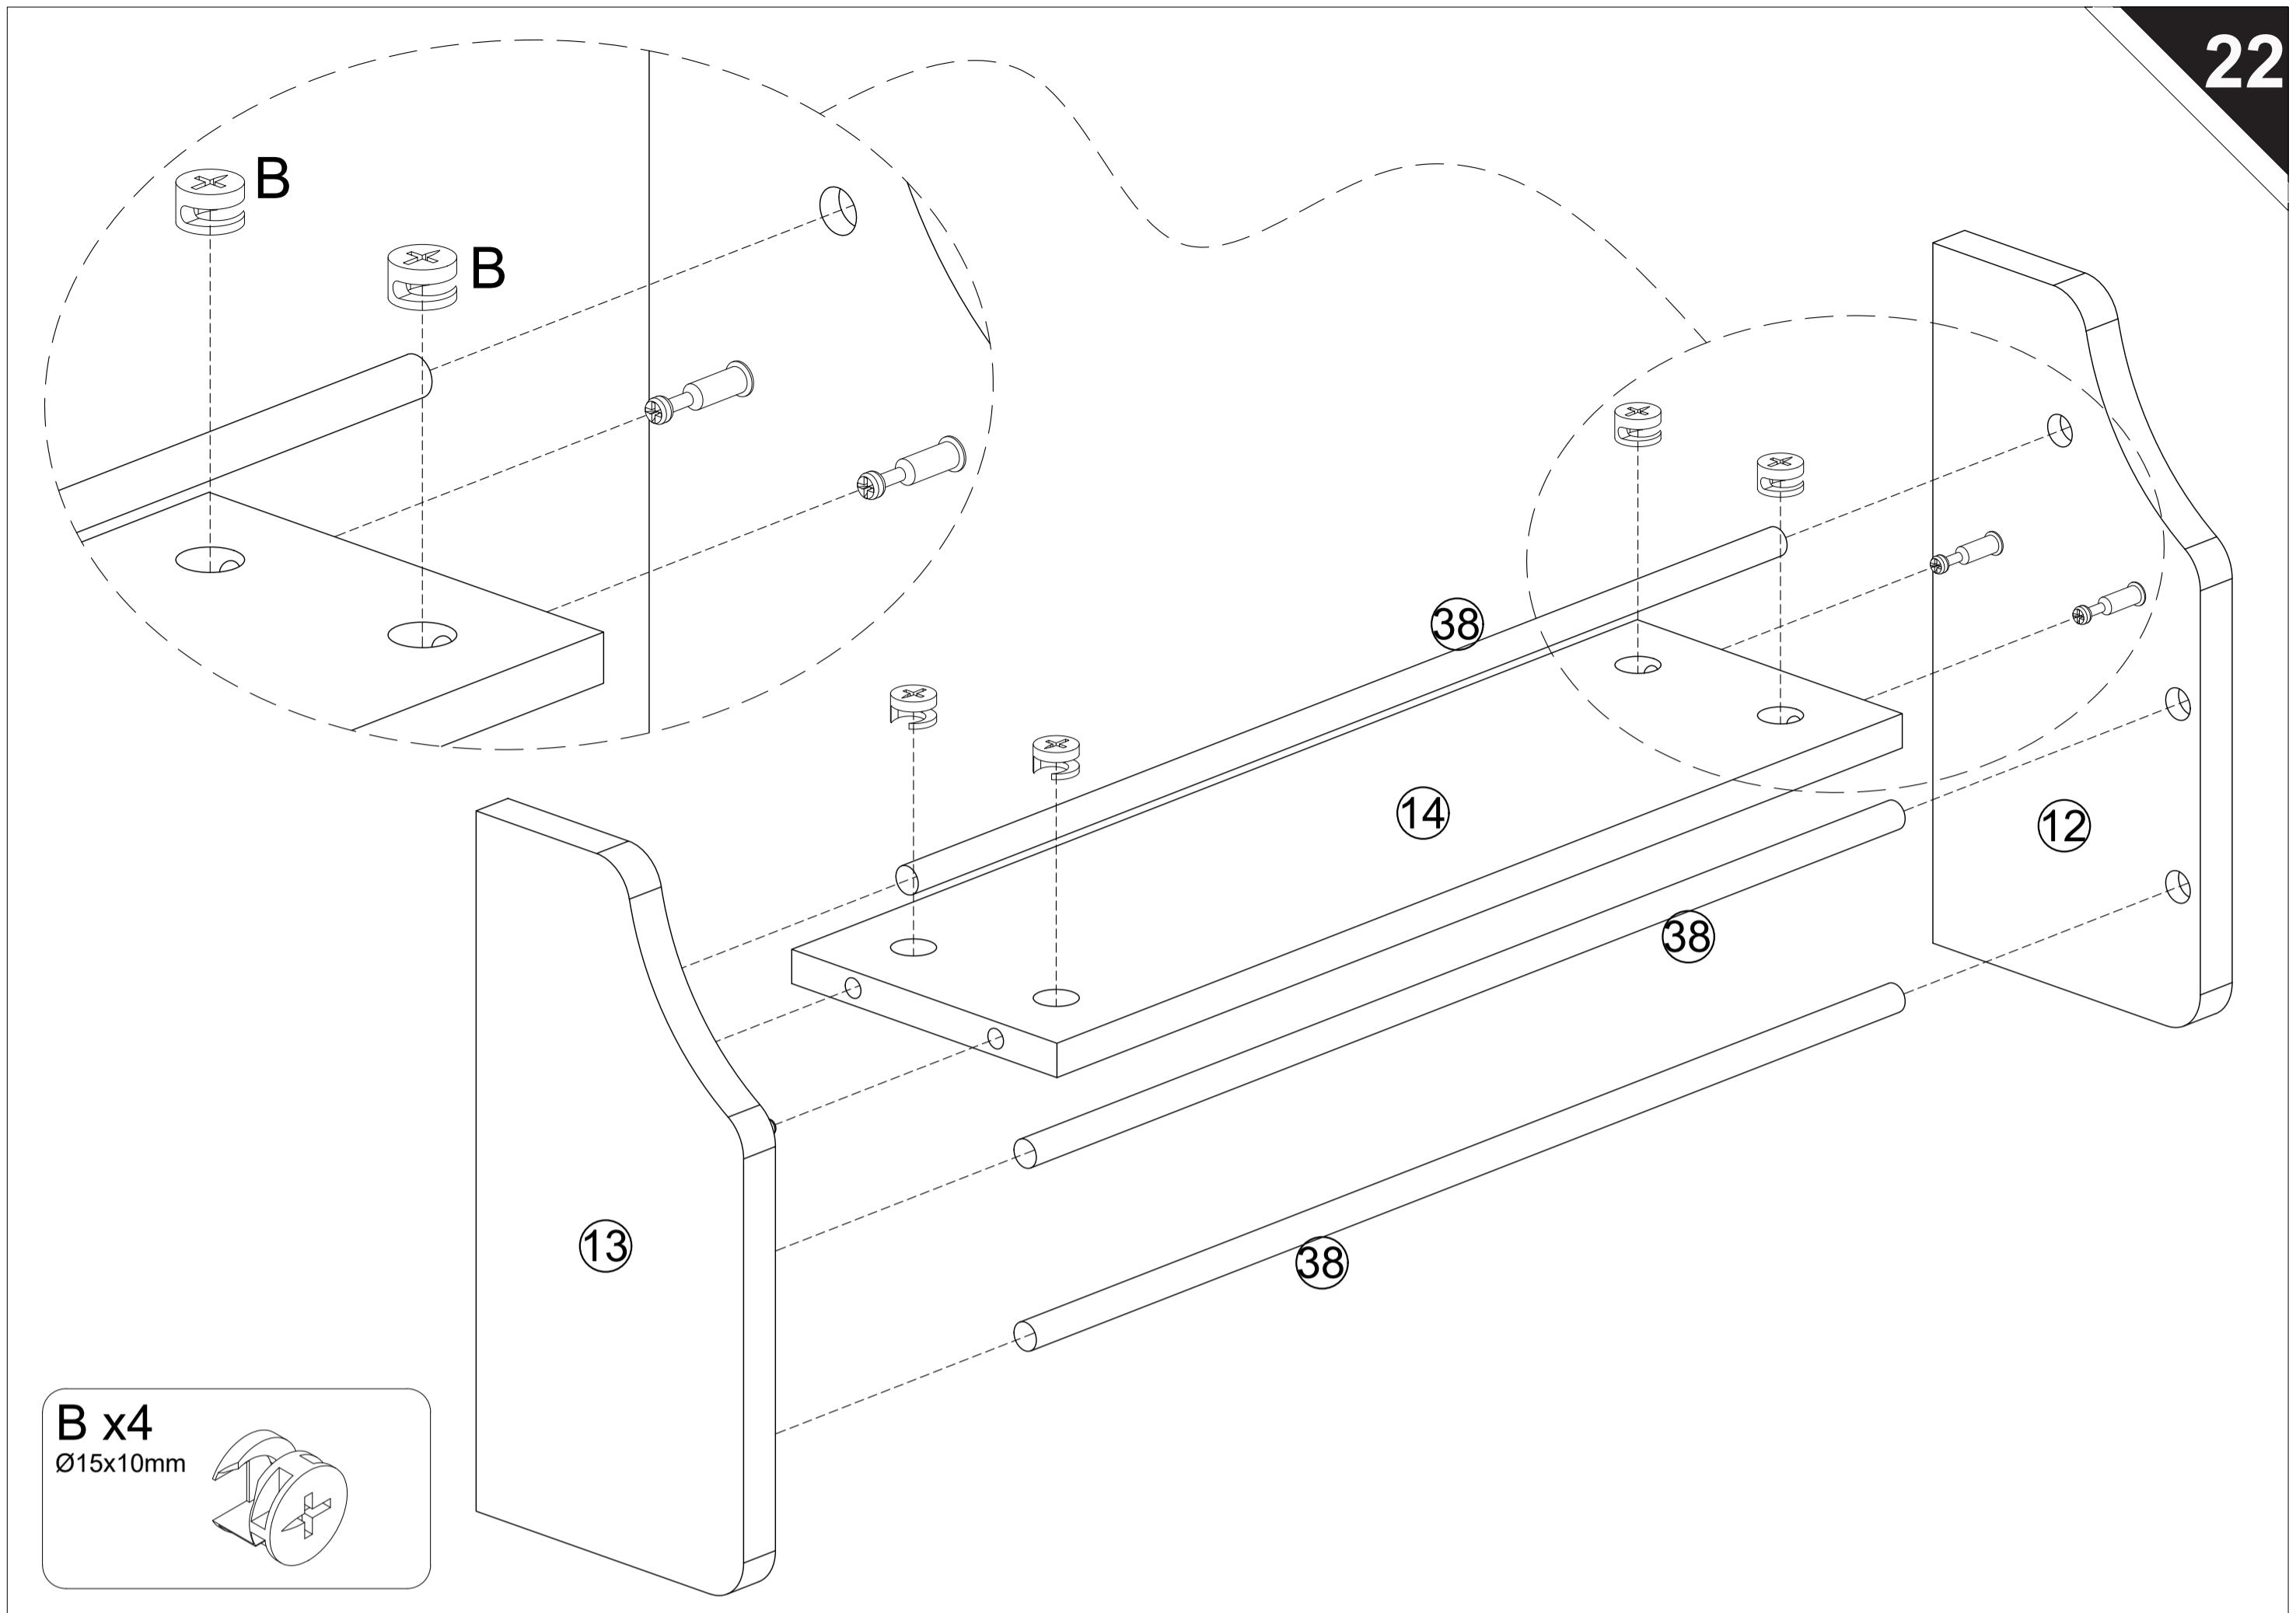

| T    | Q    | S      |
|------|------|--------|
| 3x12 | 3x16 | 3.5x14 |

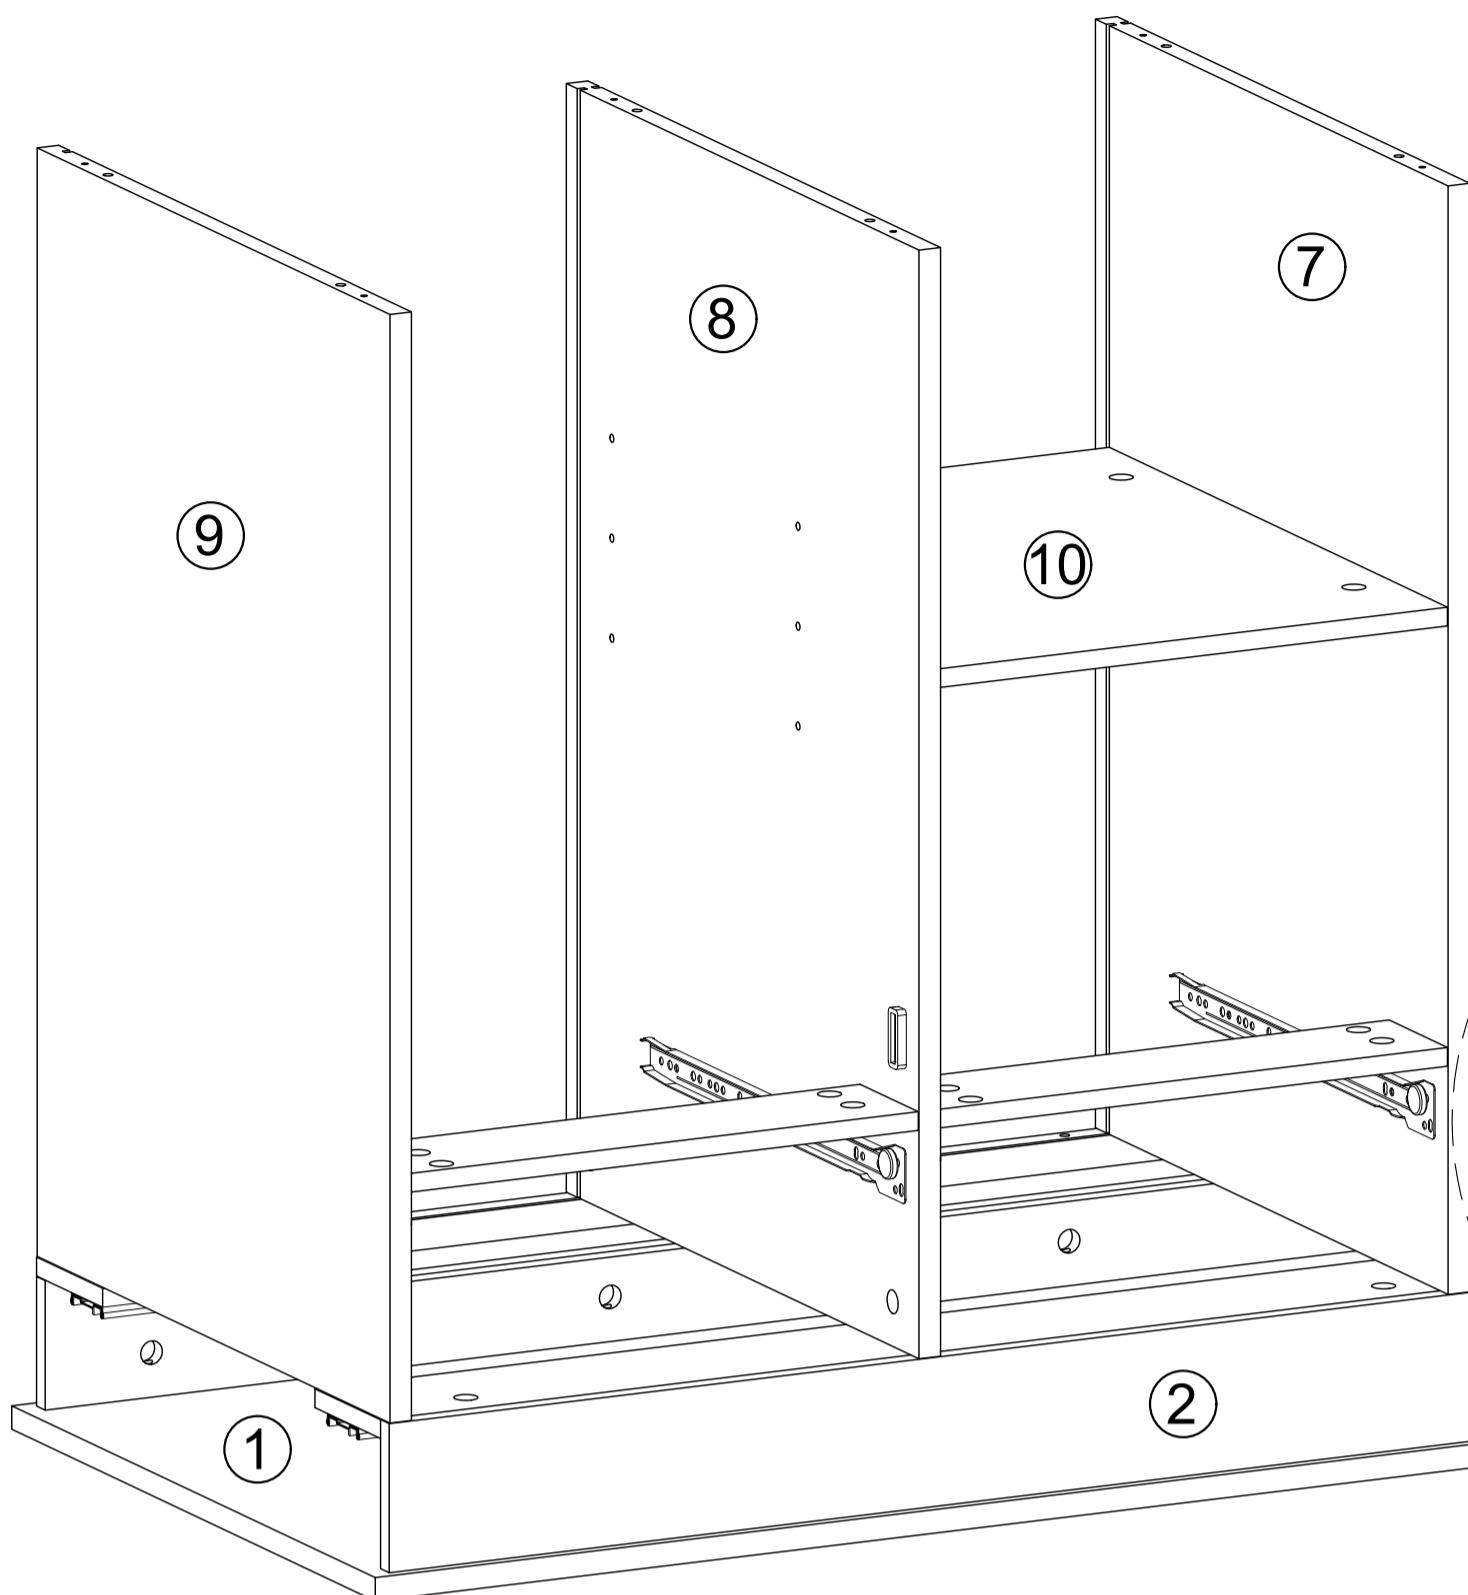

correct

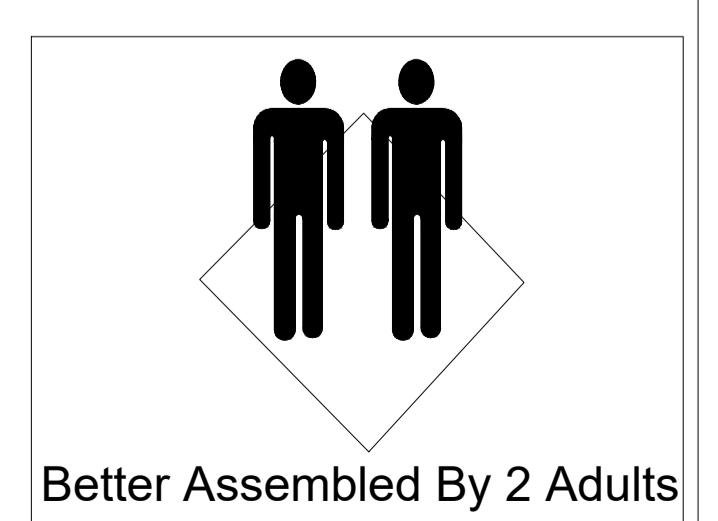

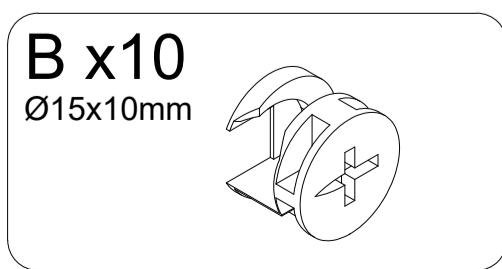

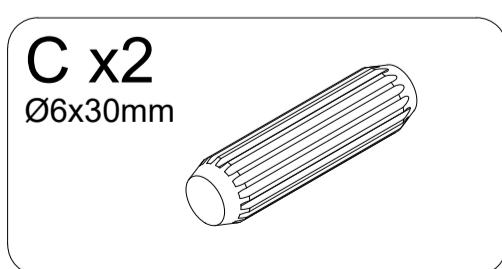

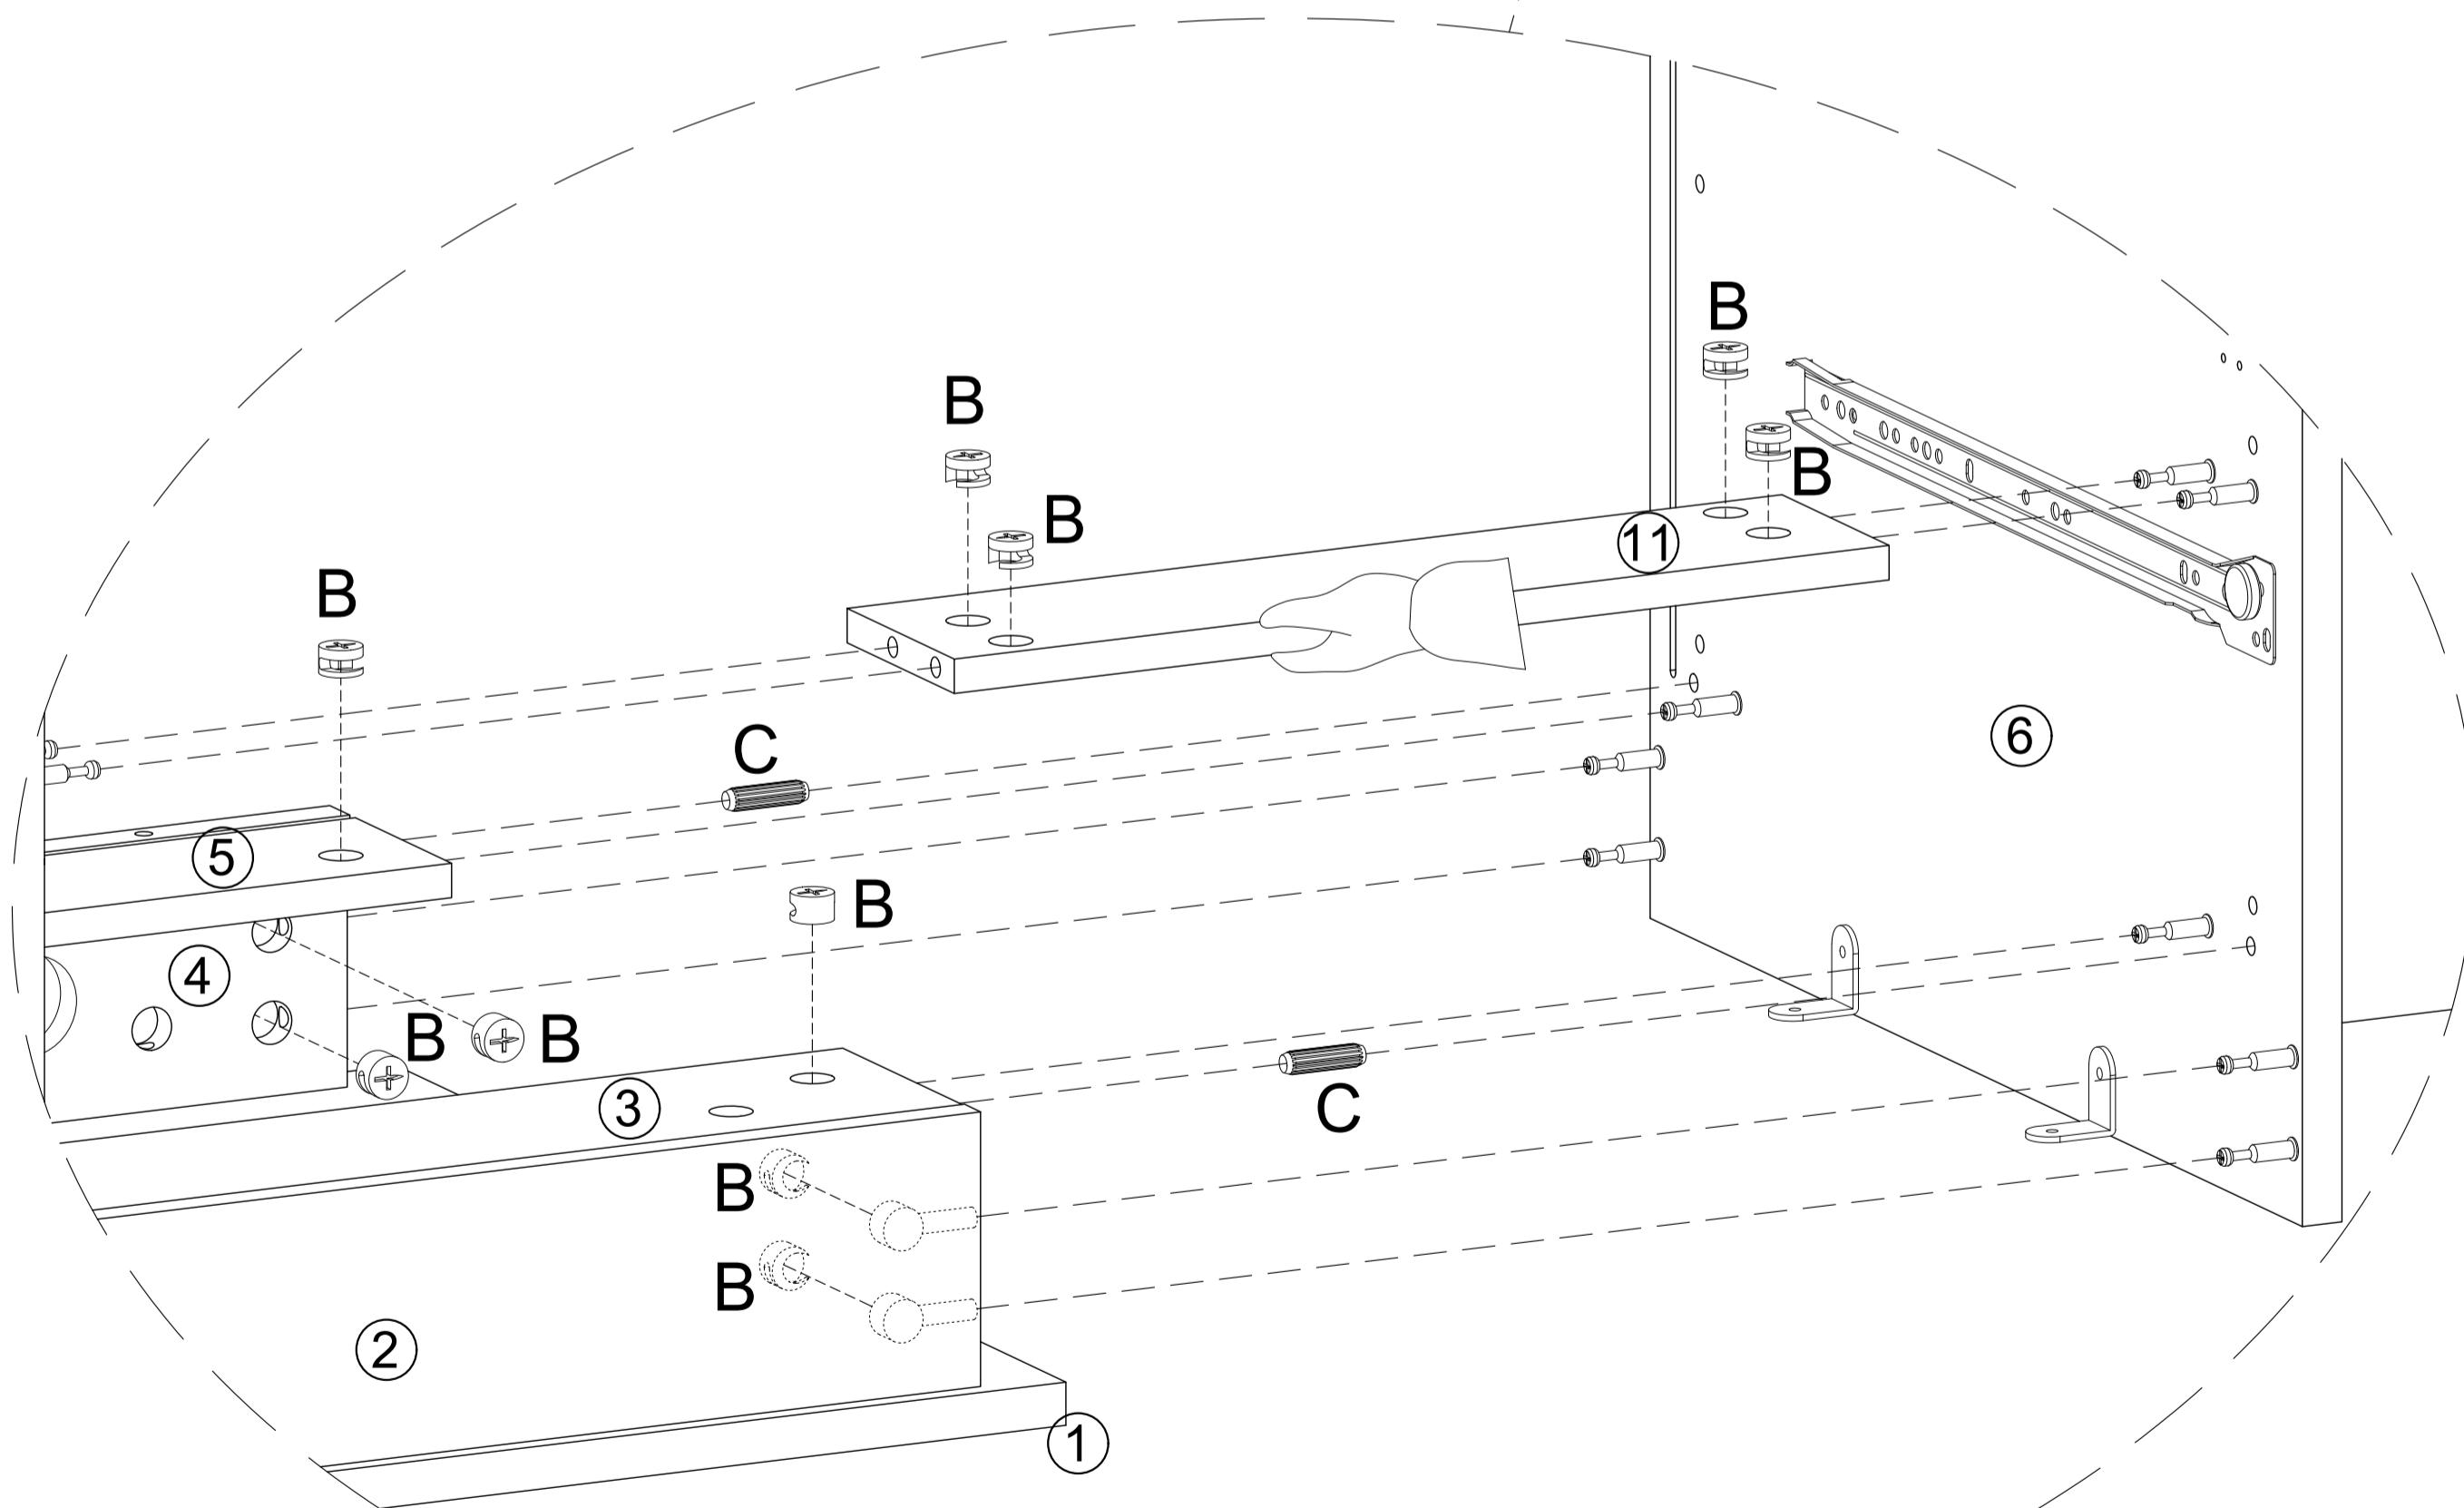

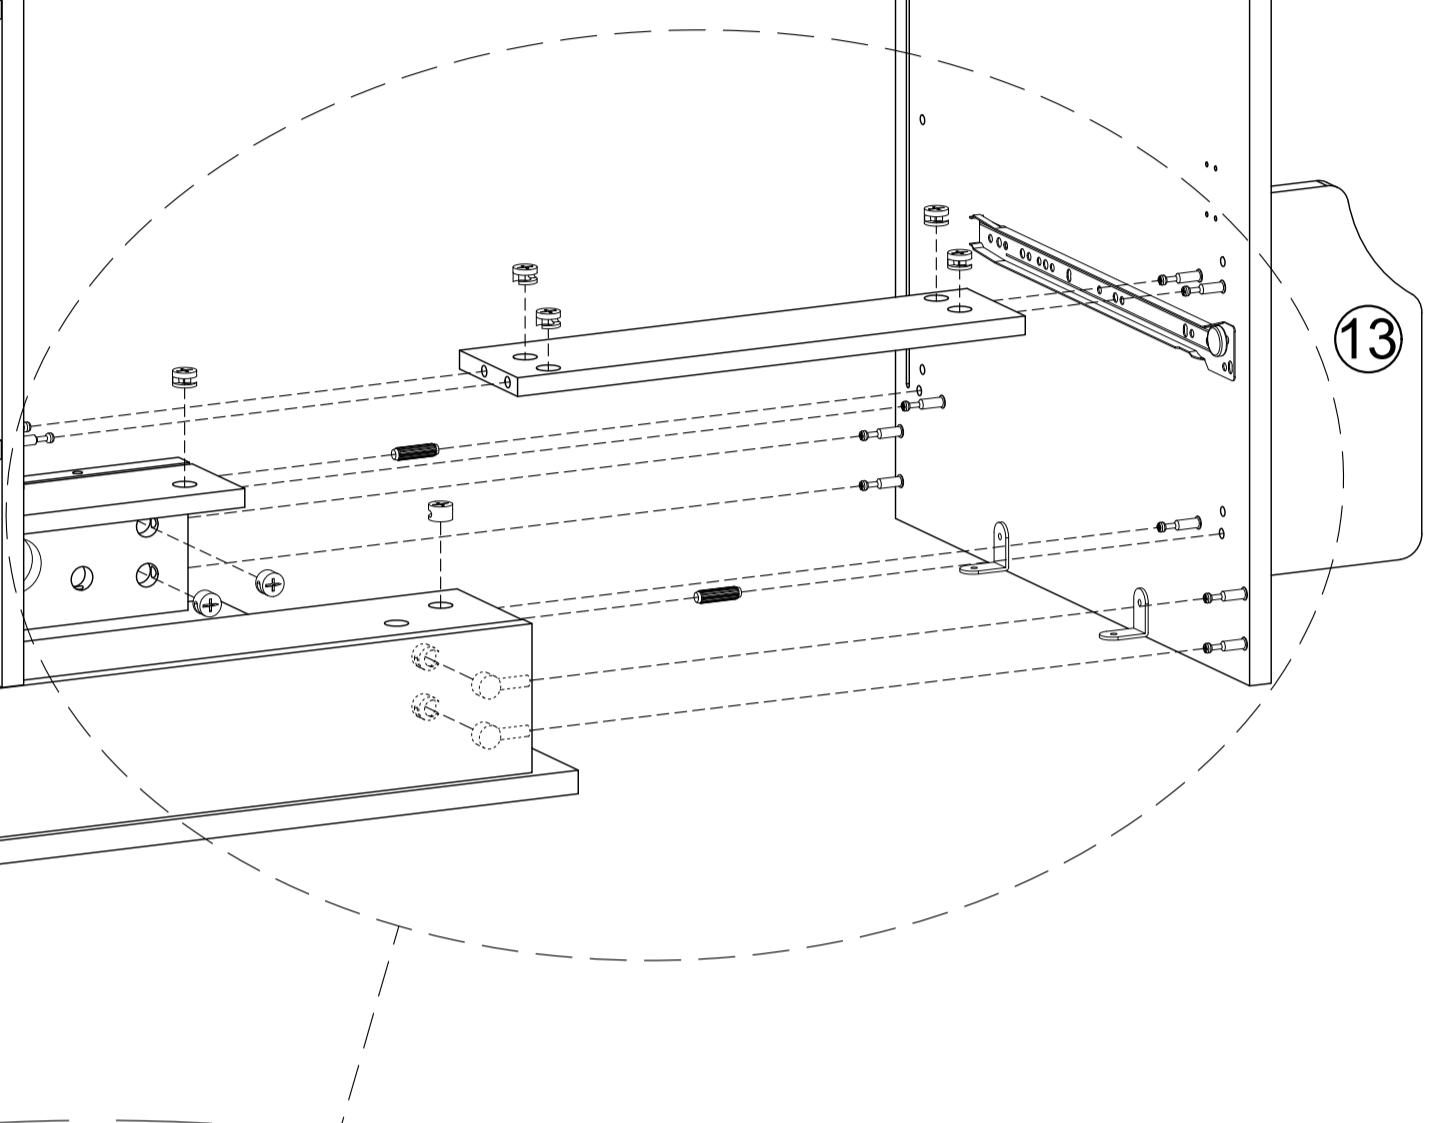

wrong

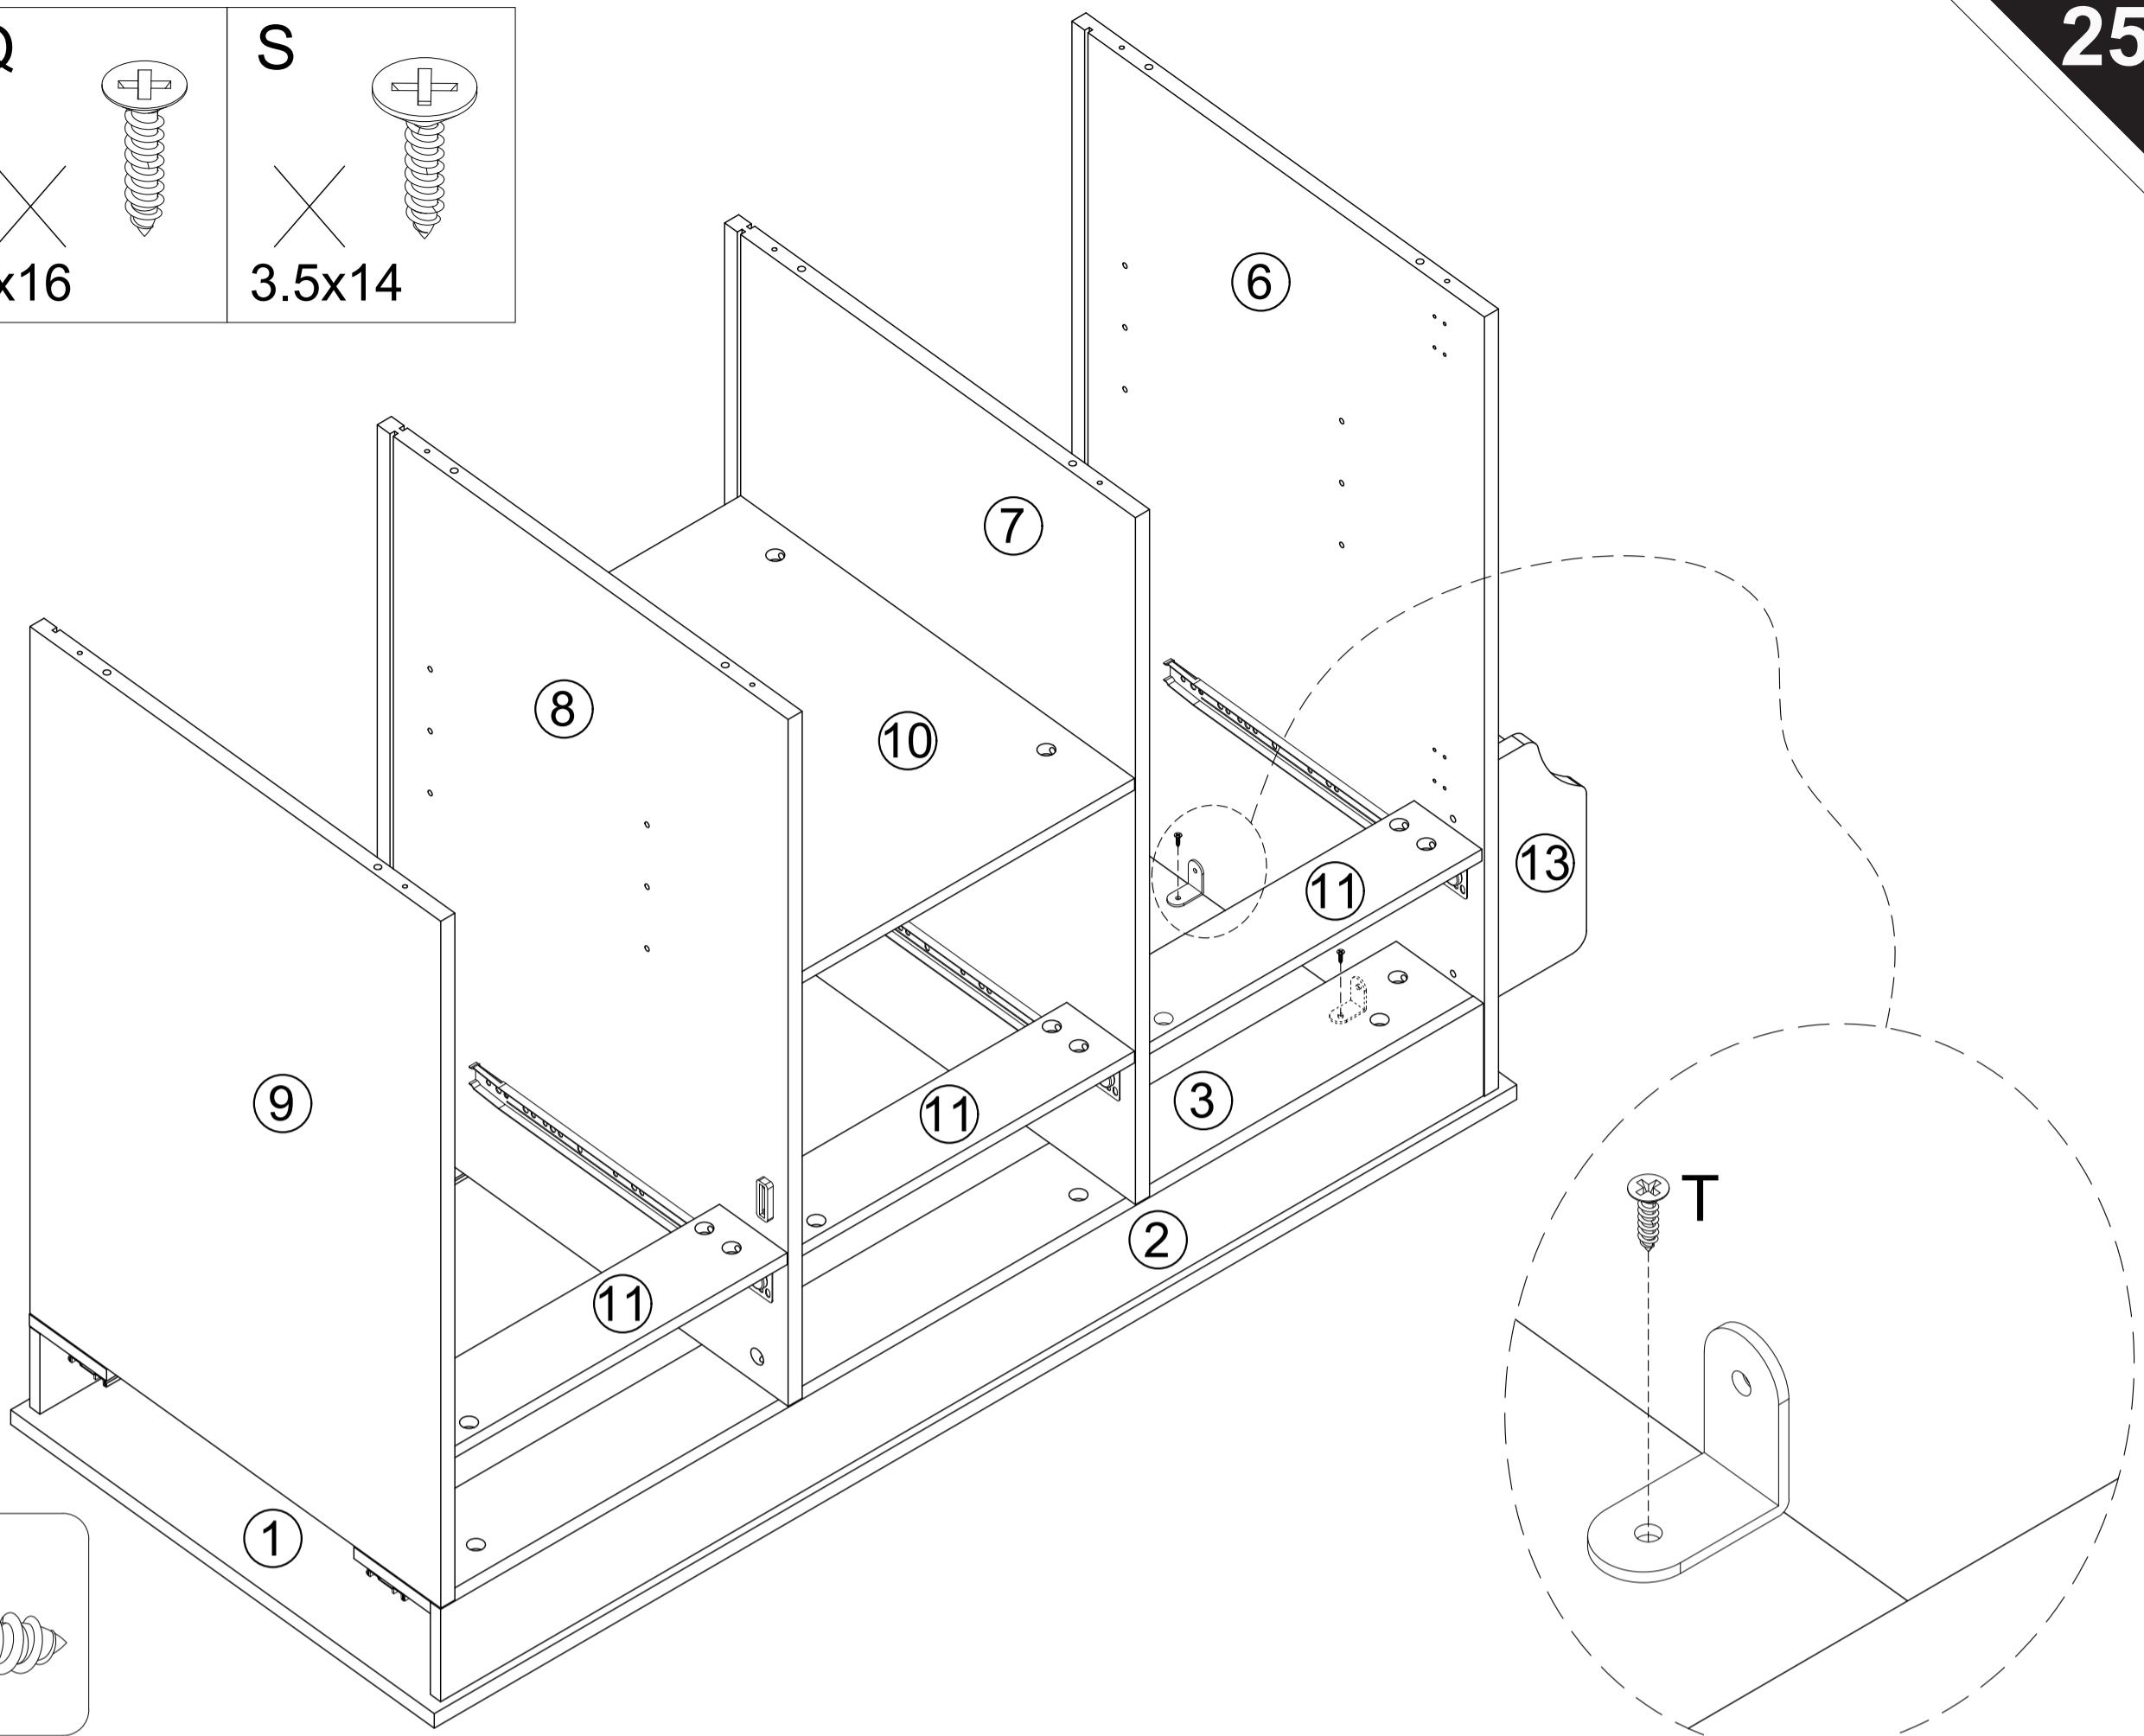

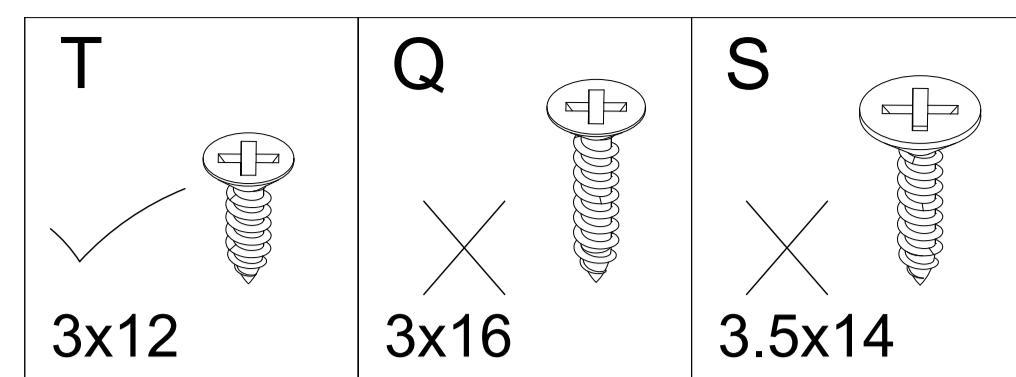

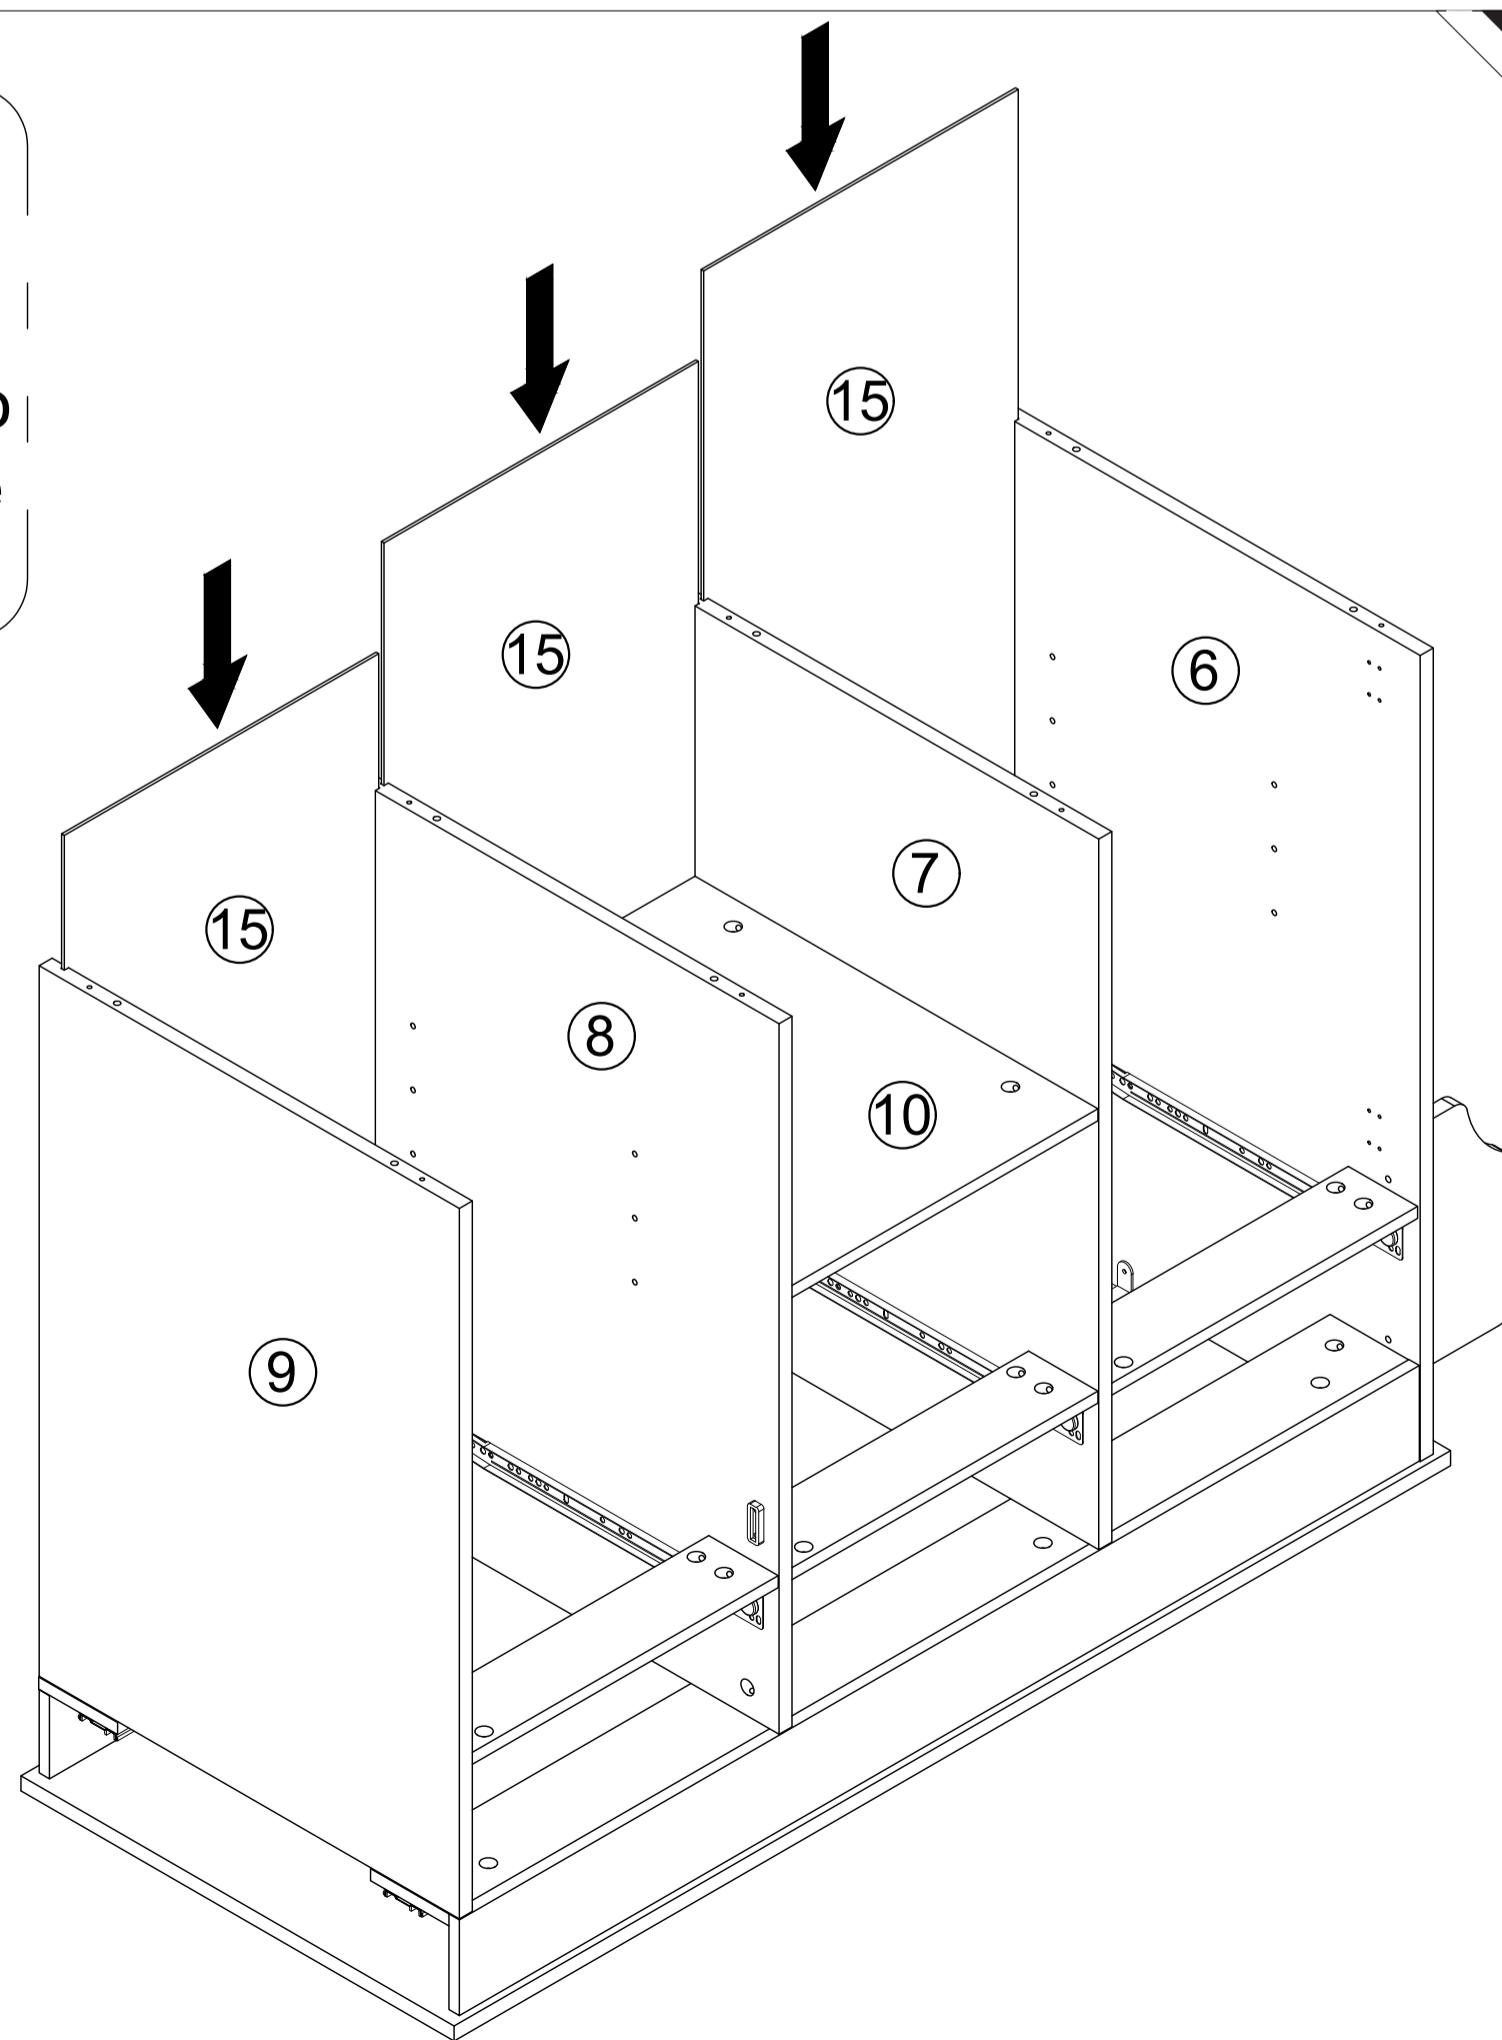

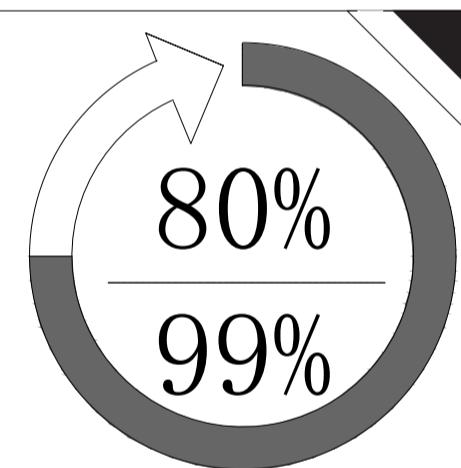

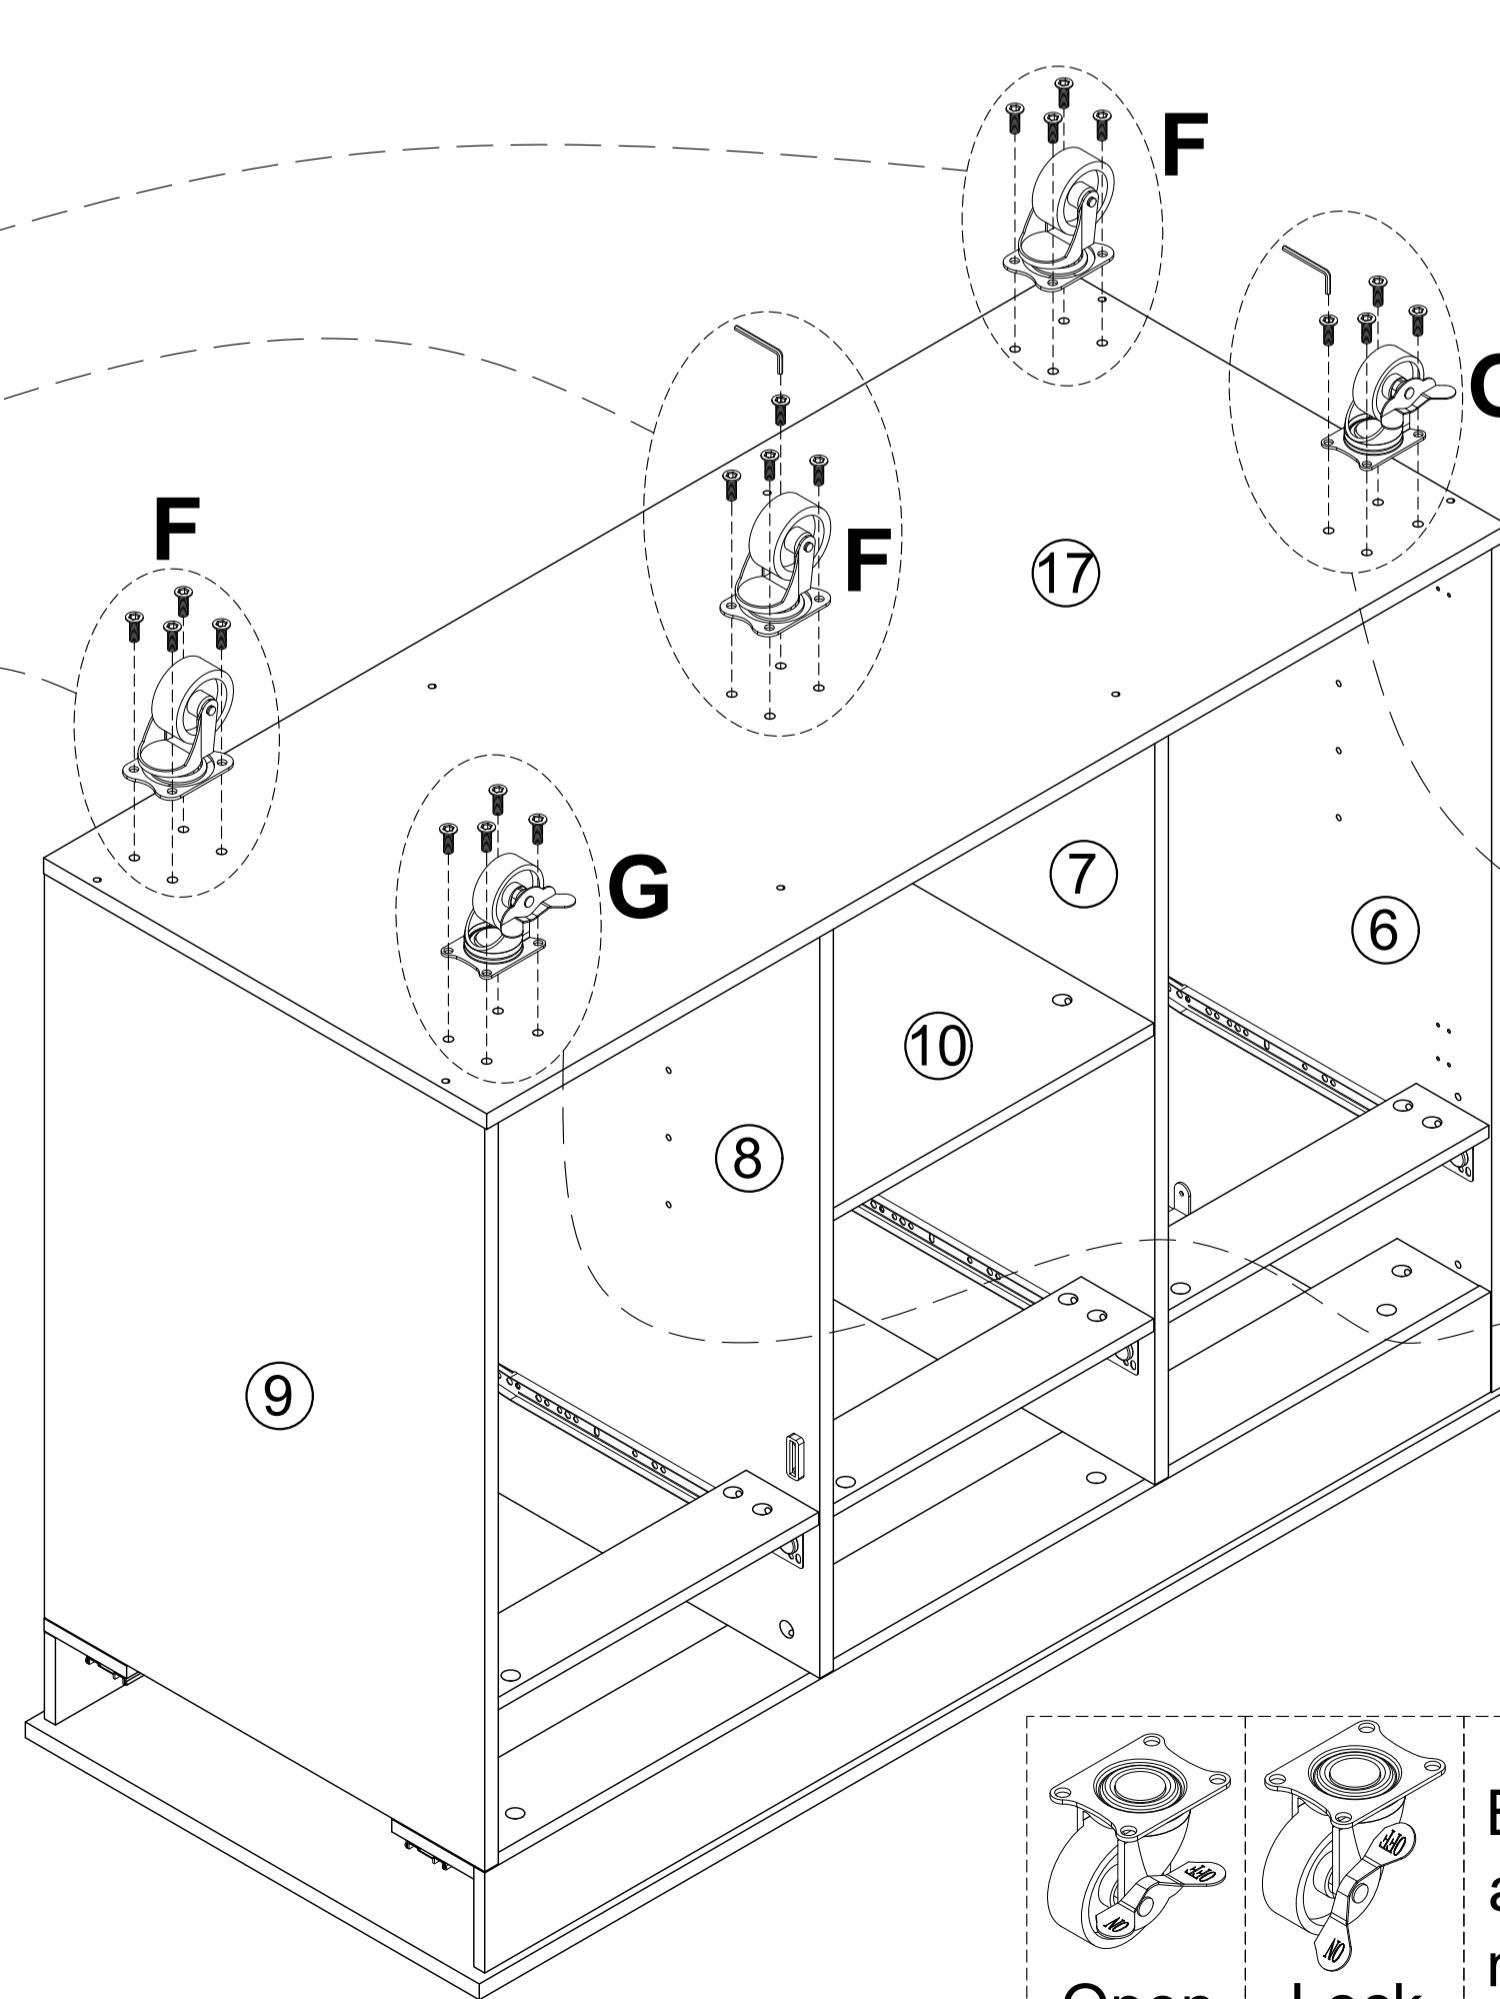

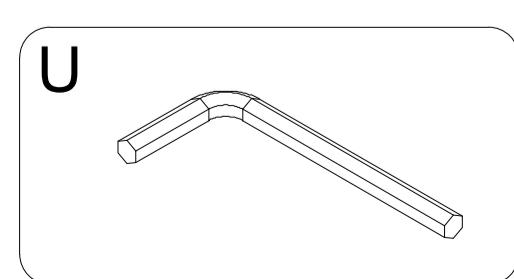

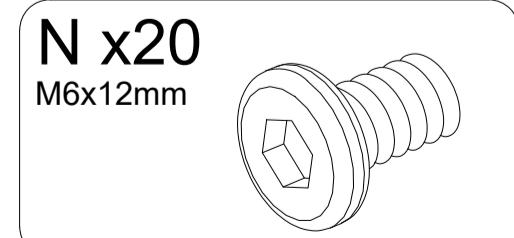

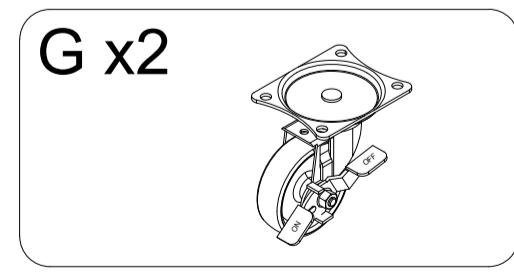

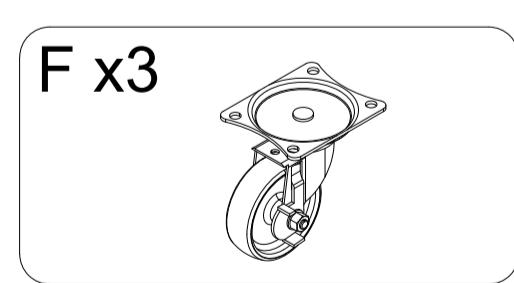

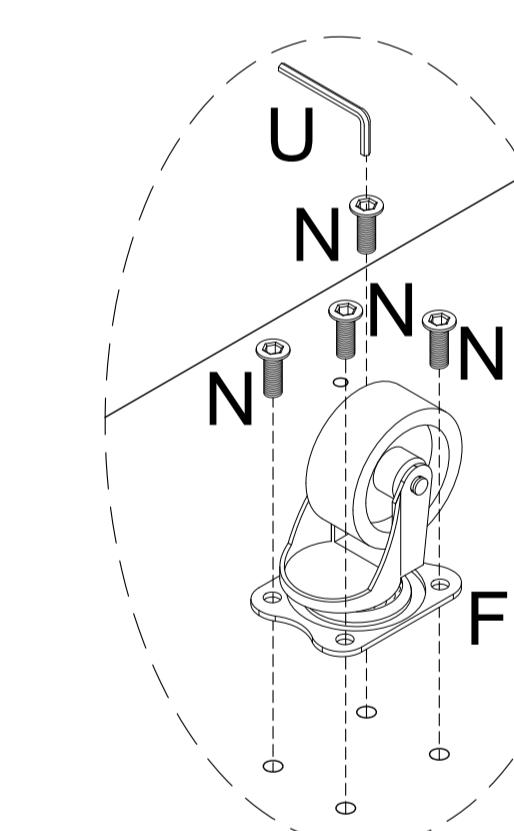

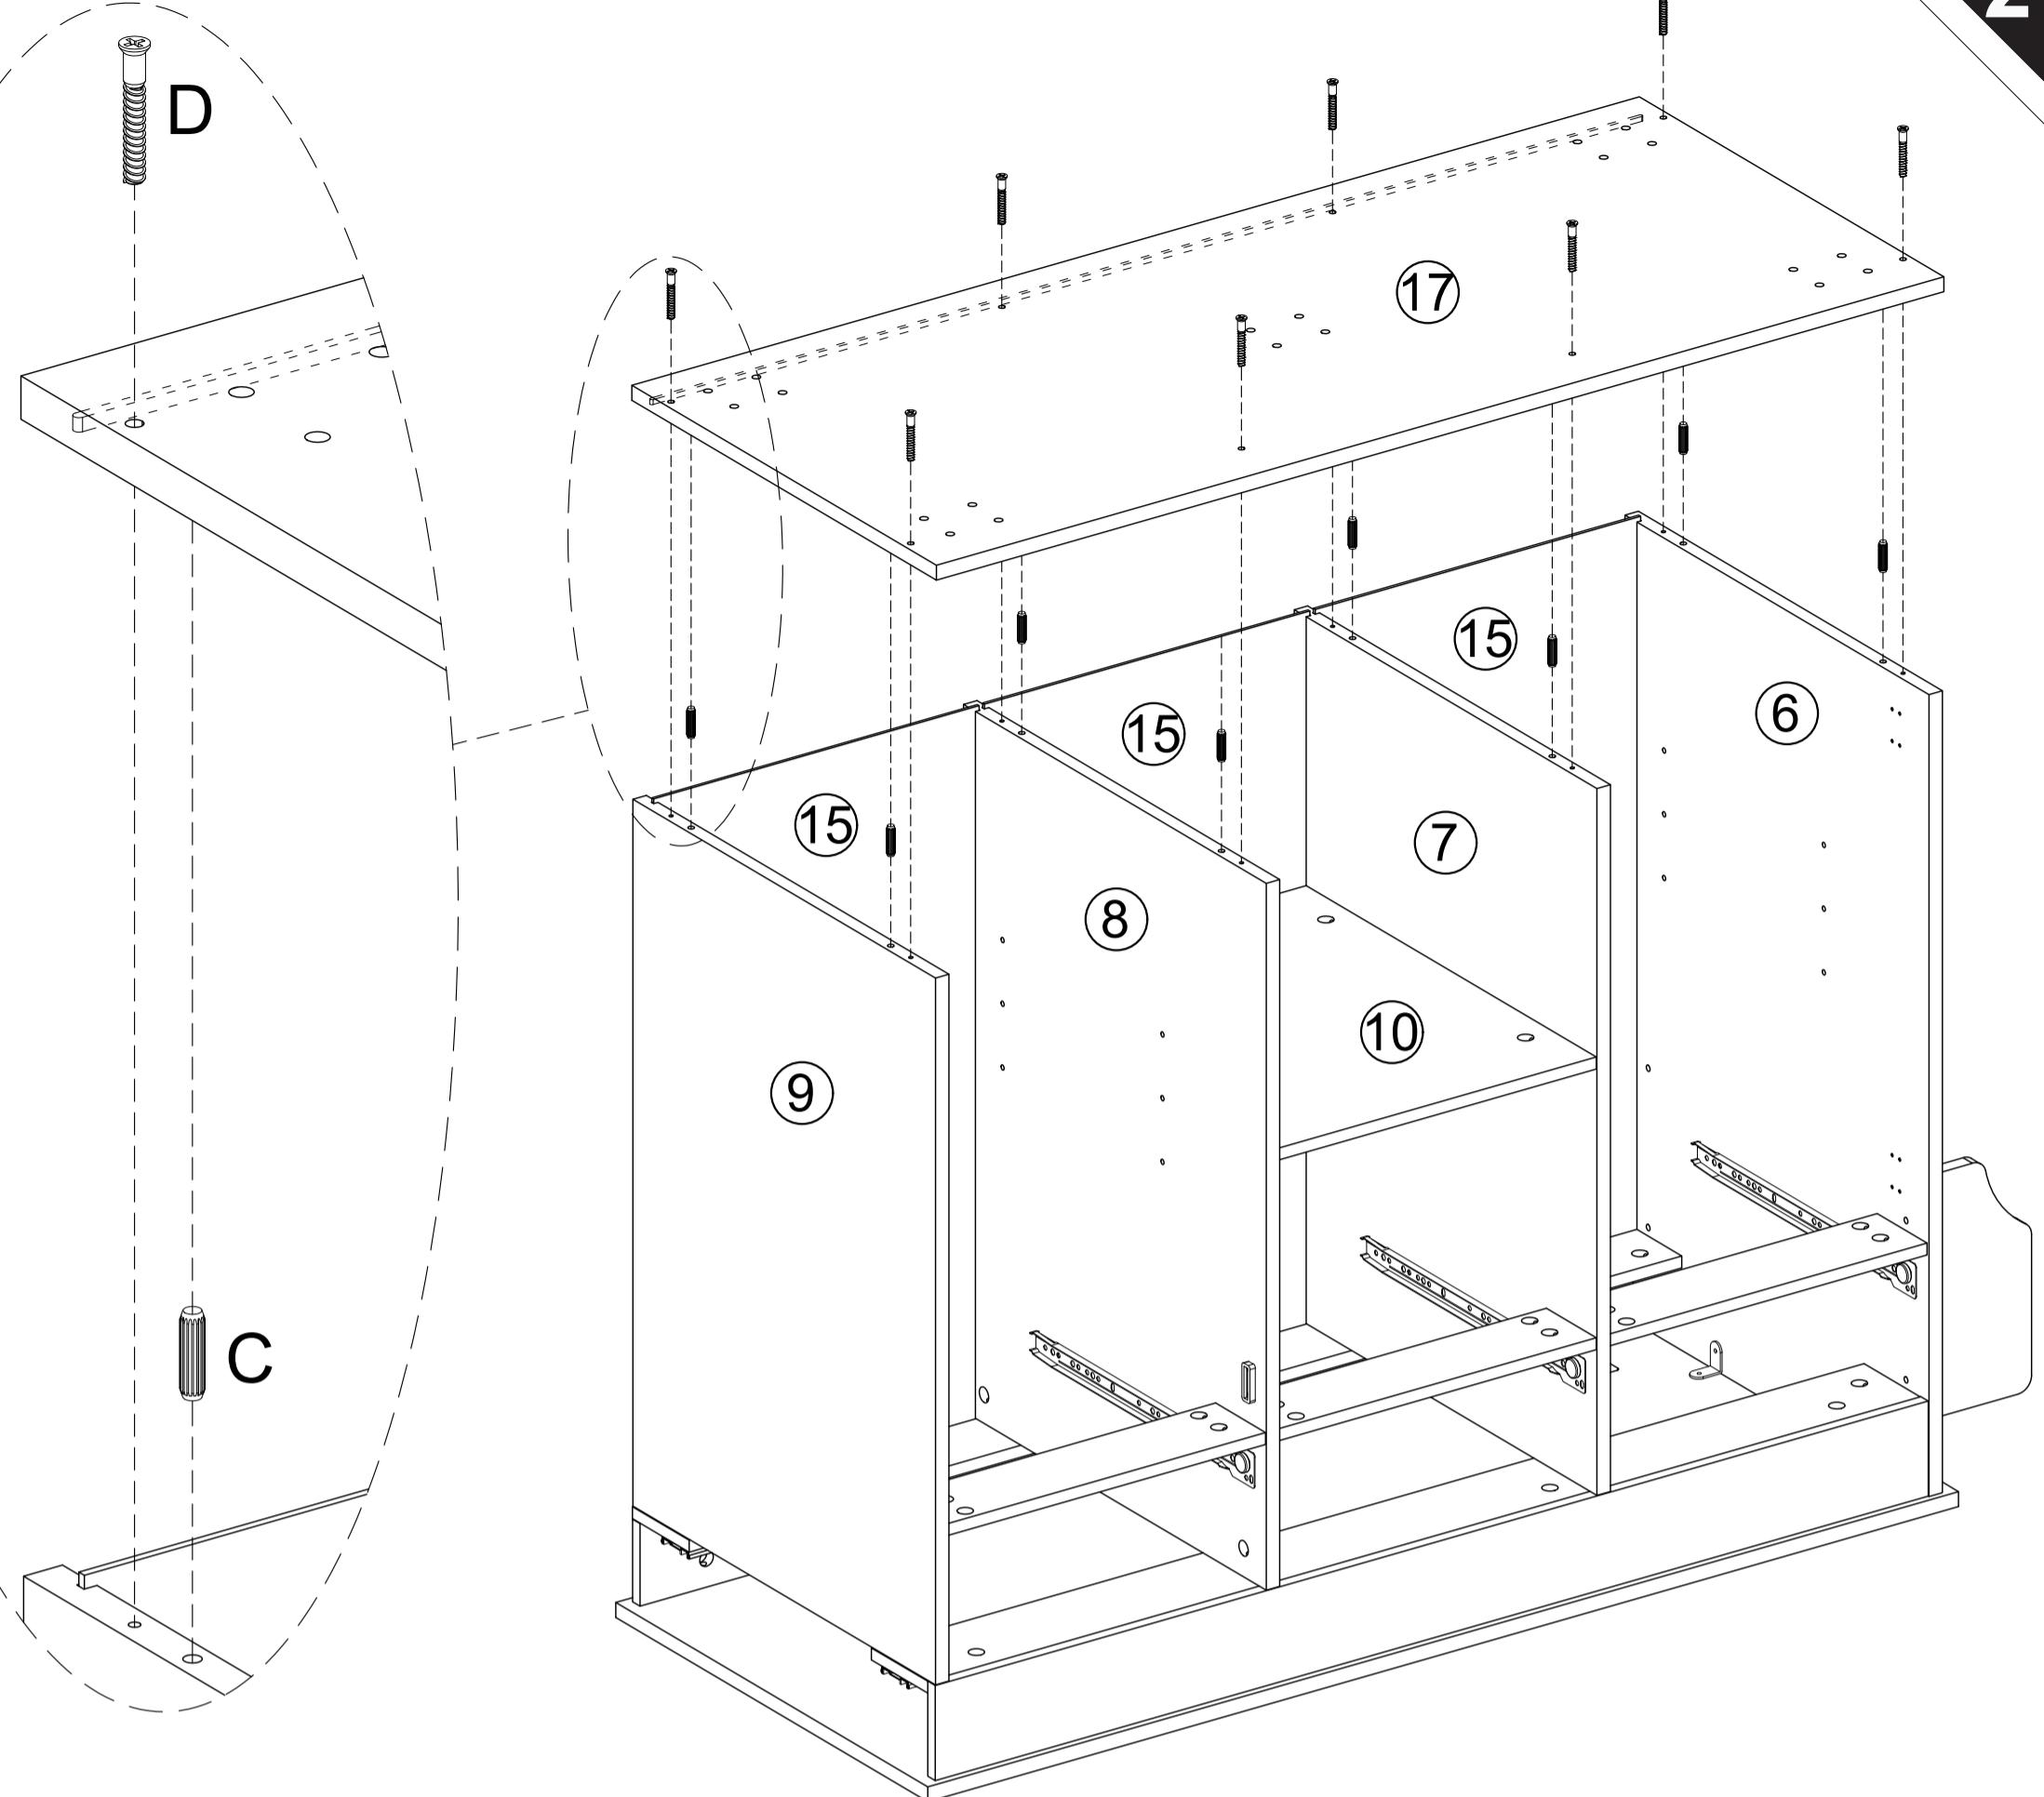

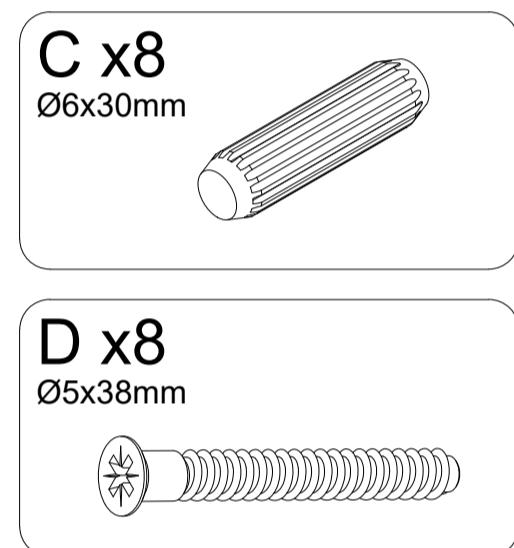

Please align the holes carefully during installation

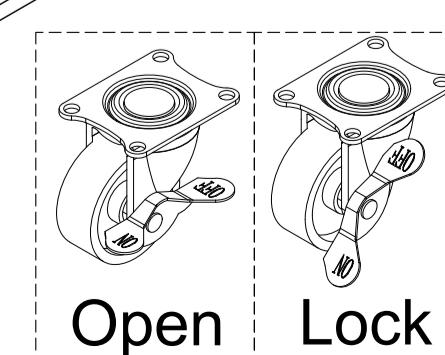

The thin plate needs to be fully inserted into the groove. If the insertion is not smooth, you can try pressing from the front or the back to make adjustments until the thin plate is fully inserted into the groove.

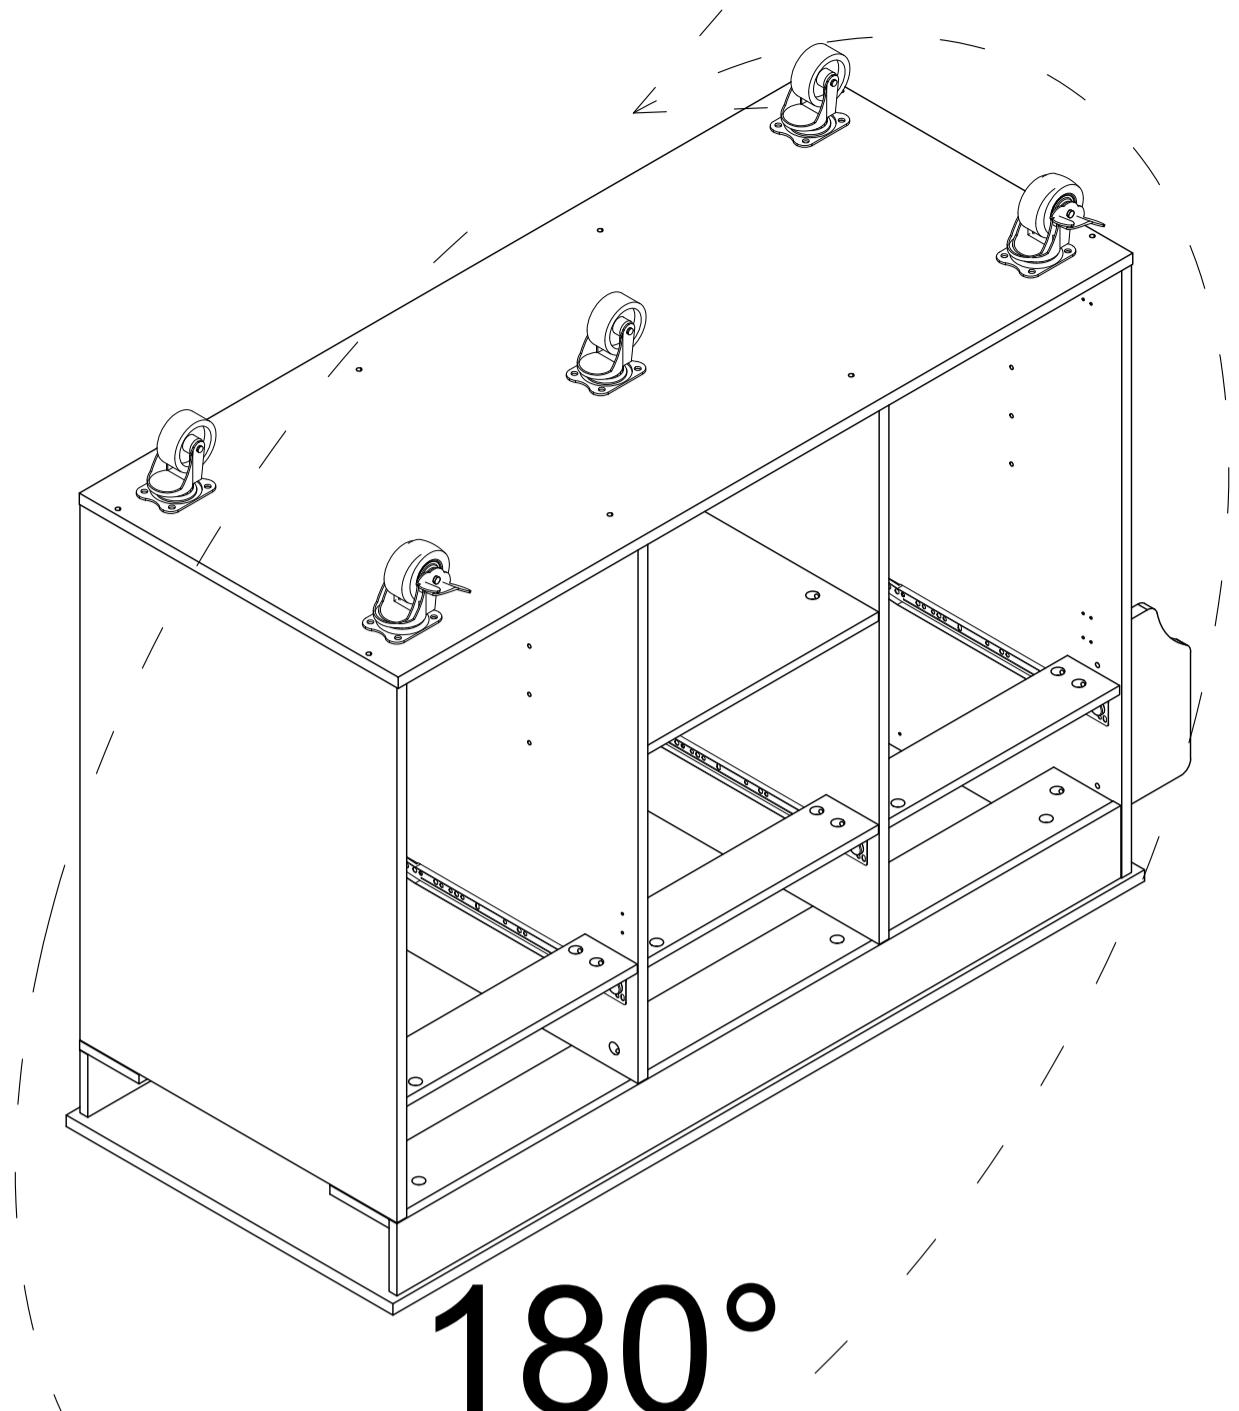

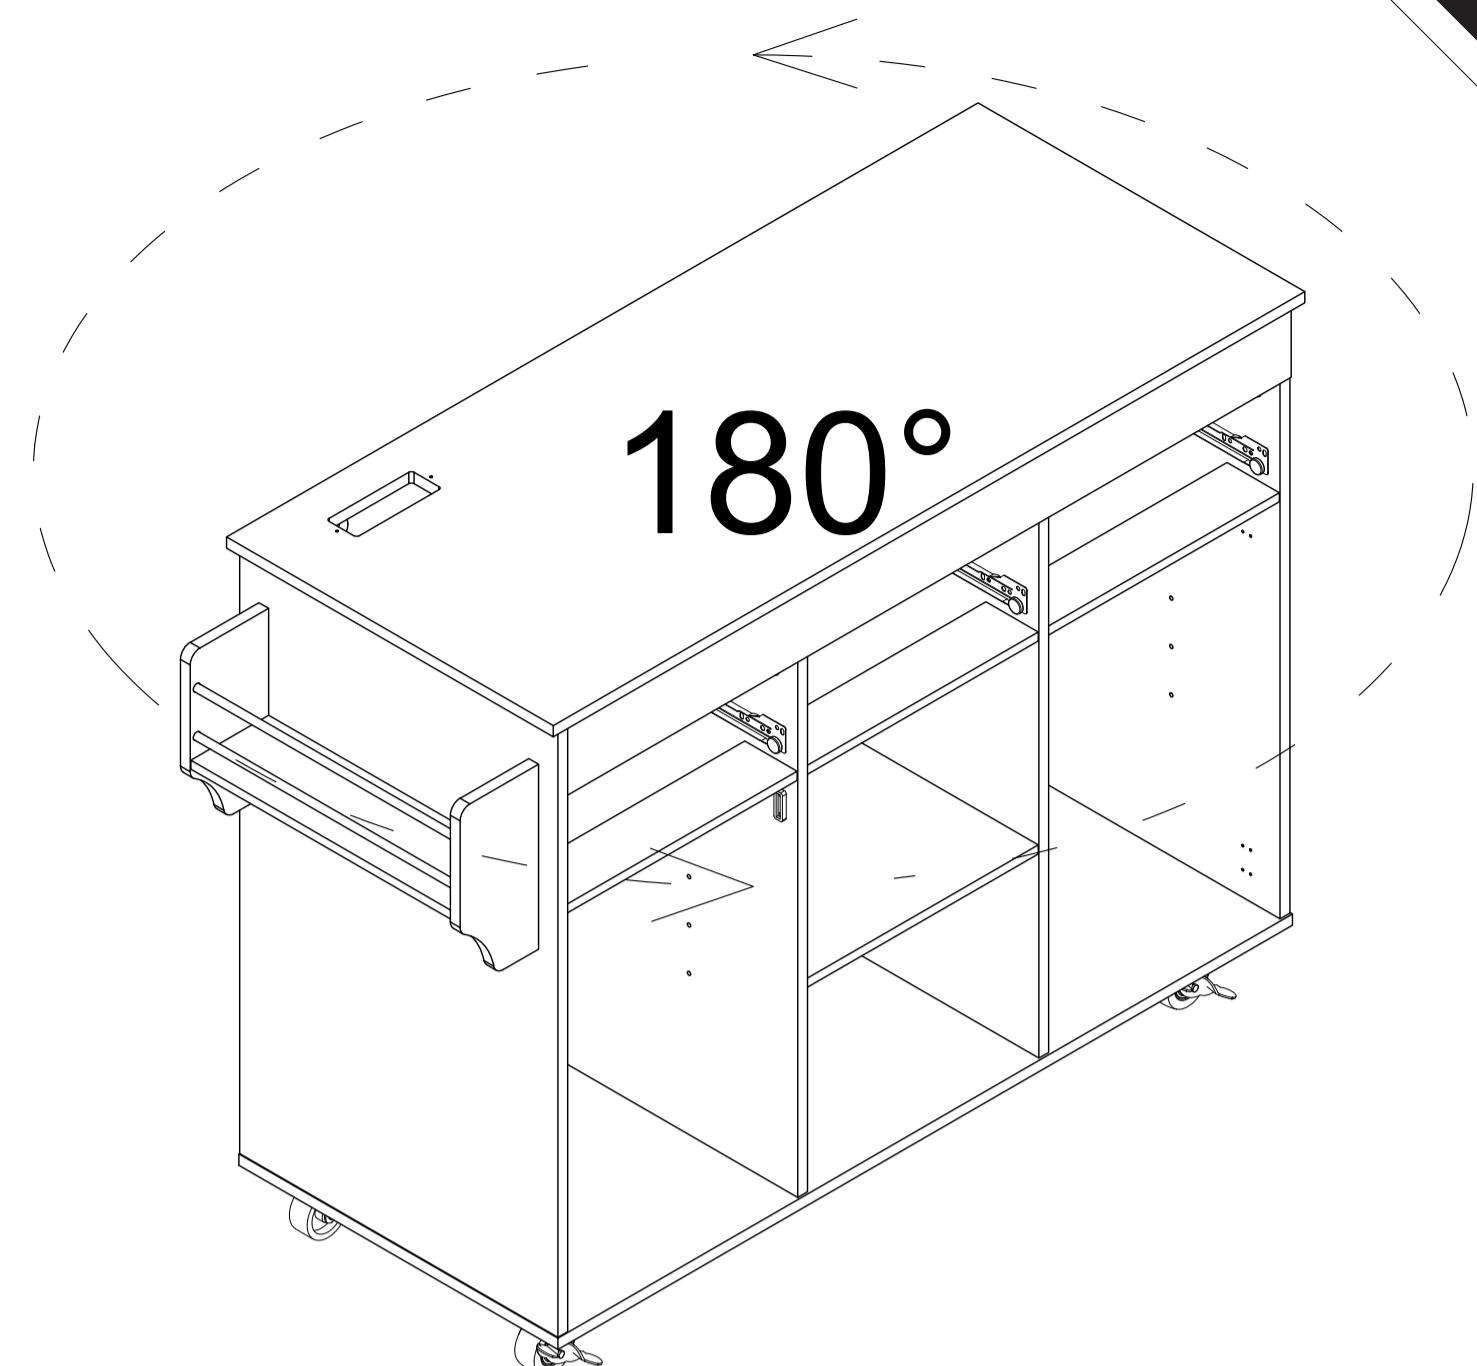

First lock all screw installations by 80%, then lock uniformly by 99%

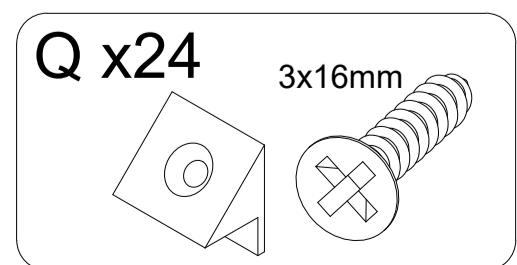

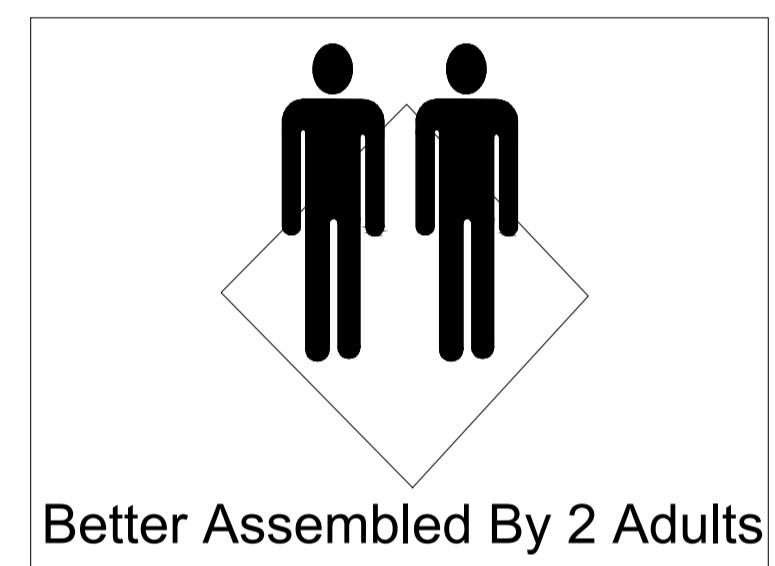

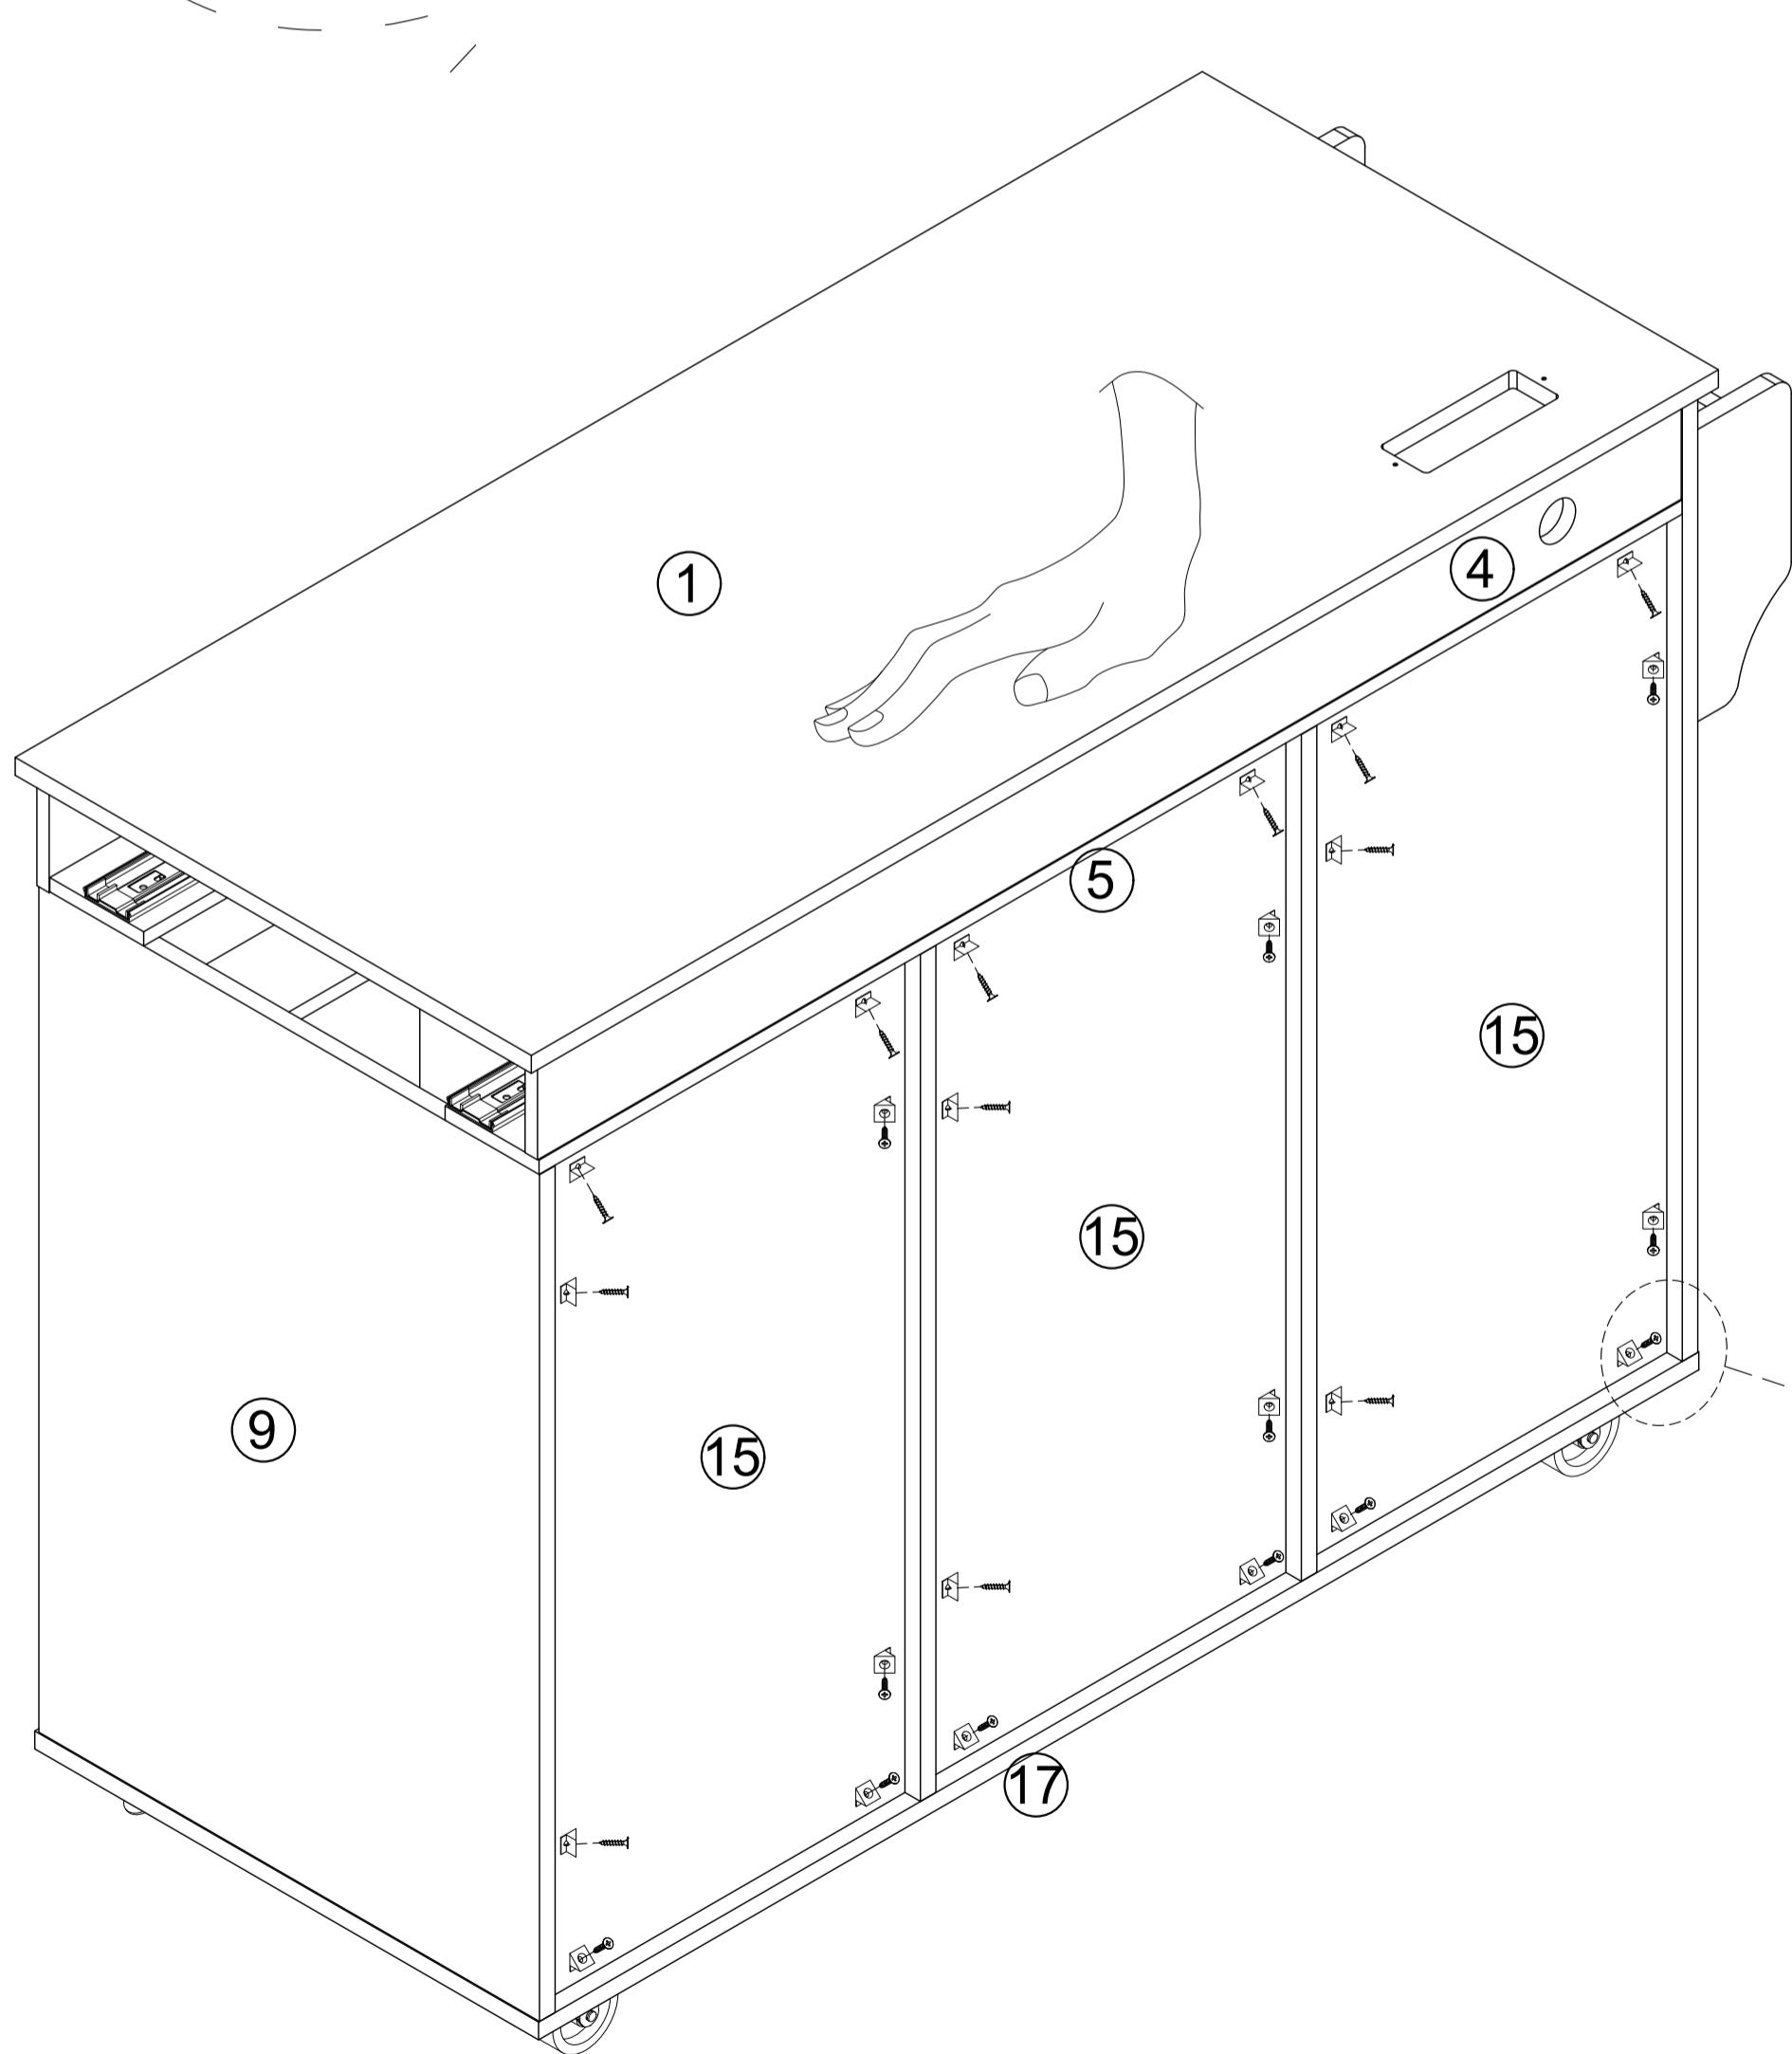

Before installation  
adjust the wheel to the  
non-braking position

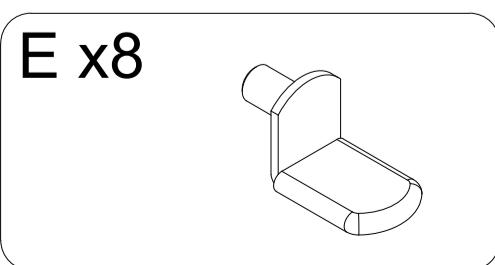

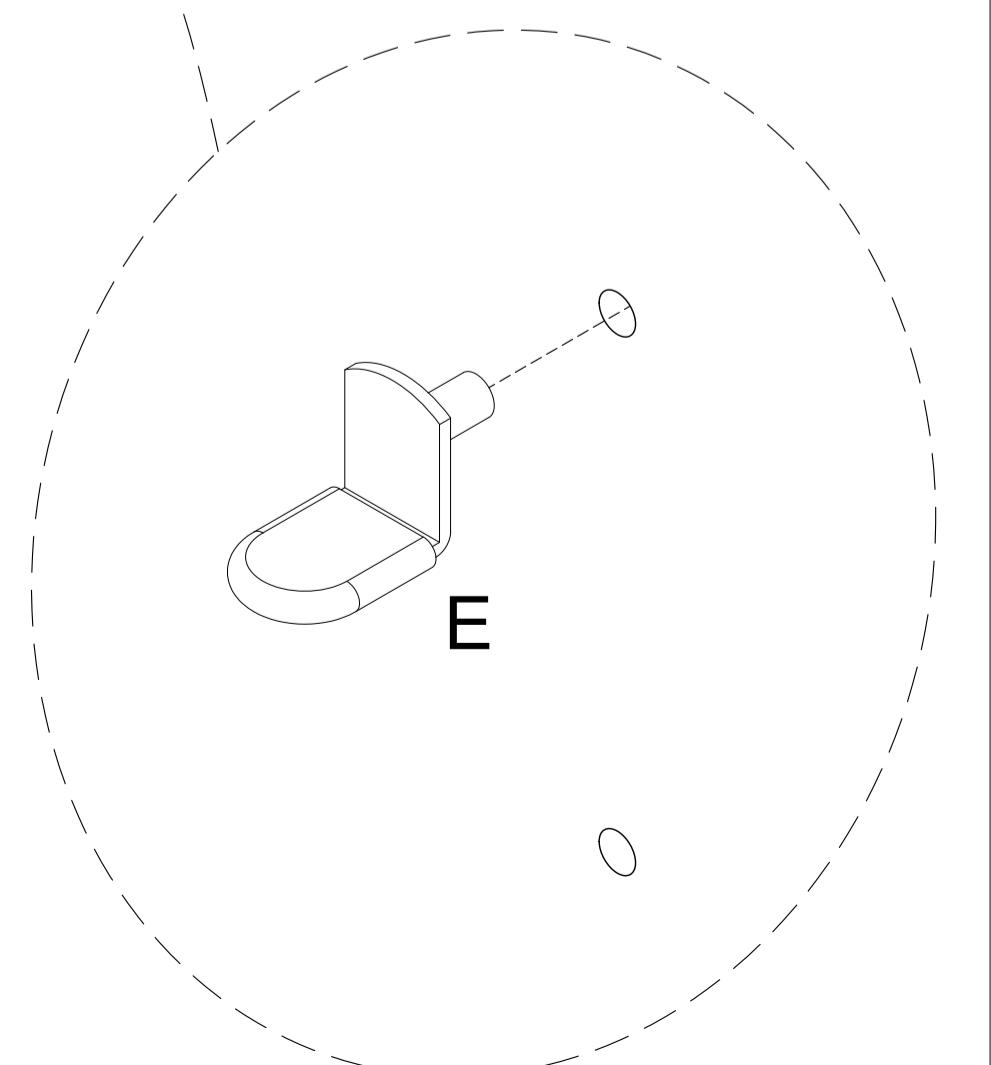

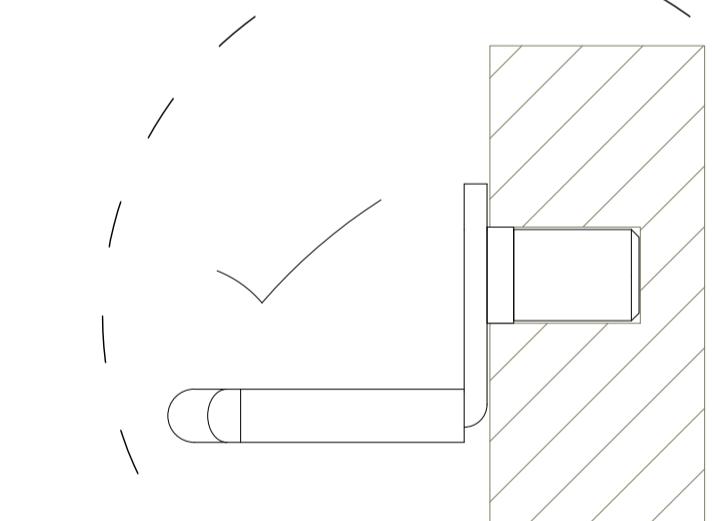

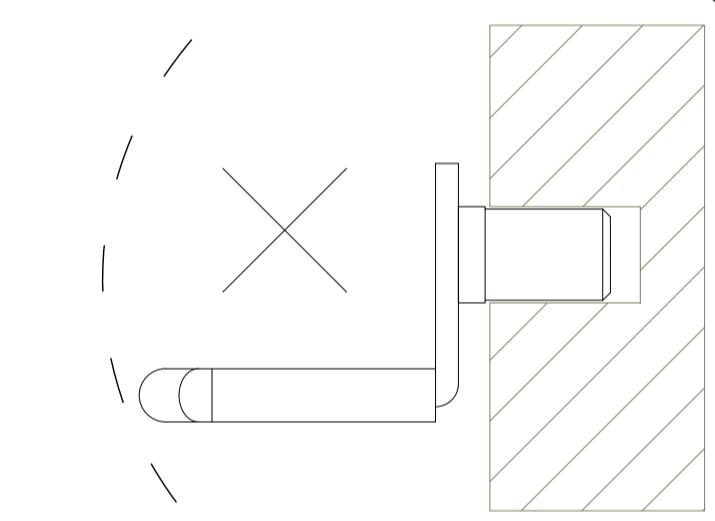

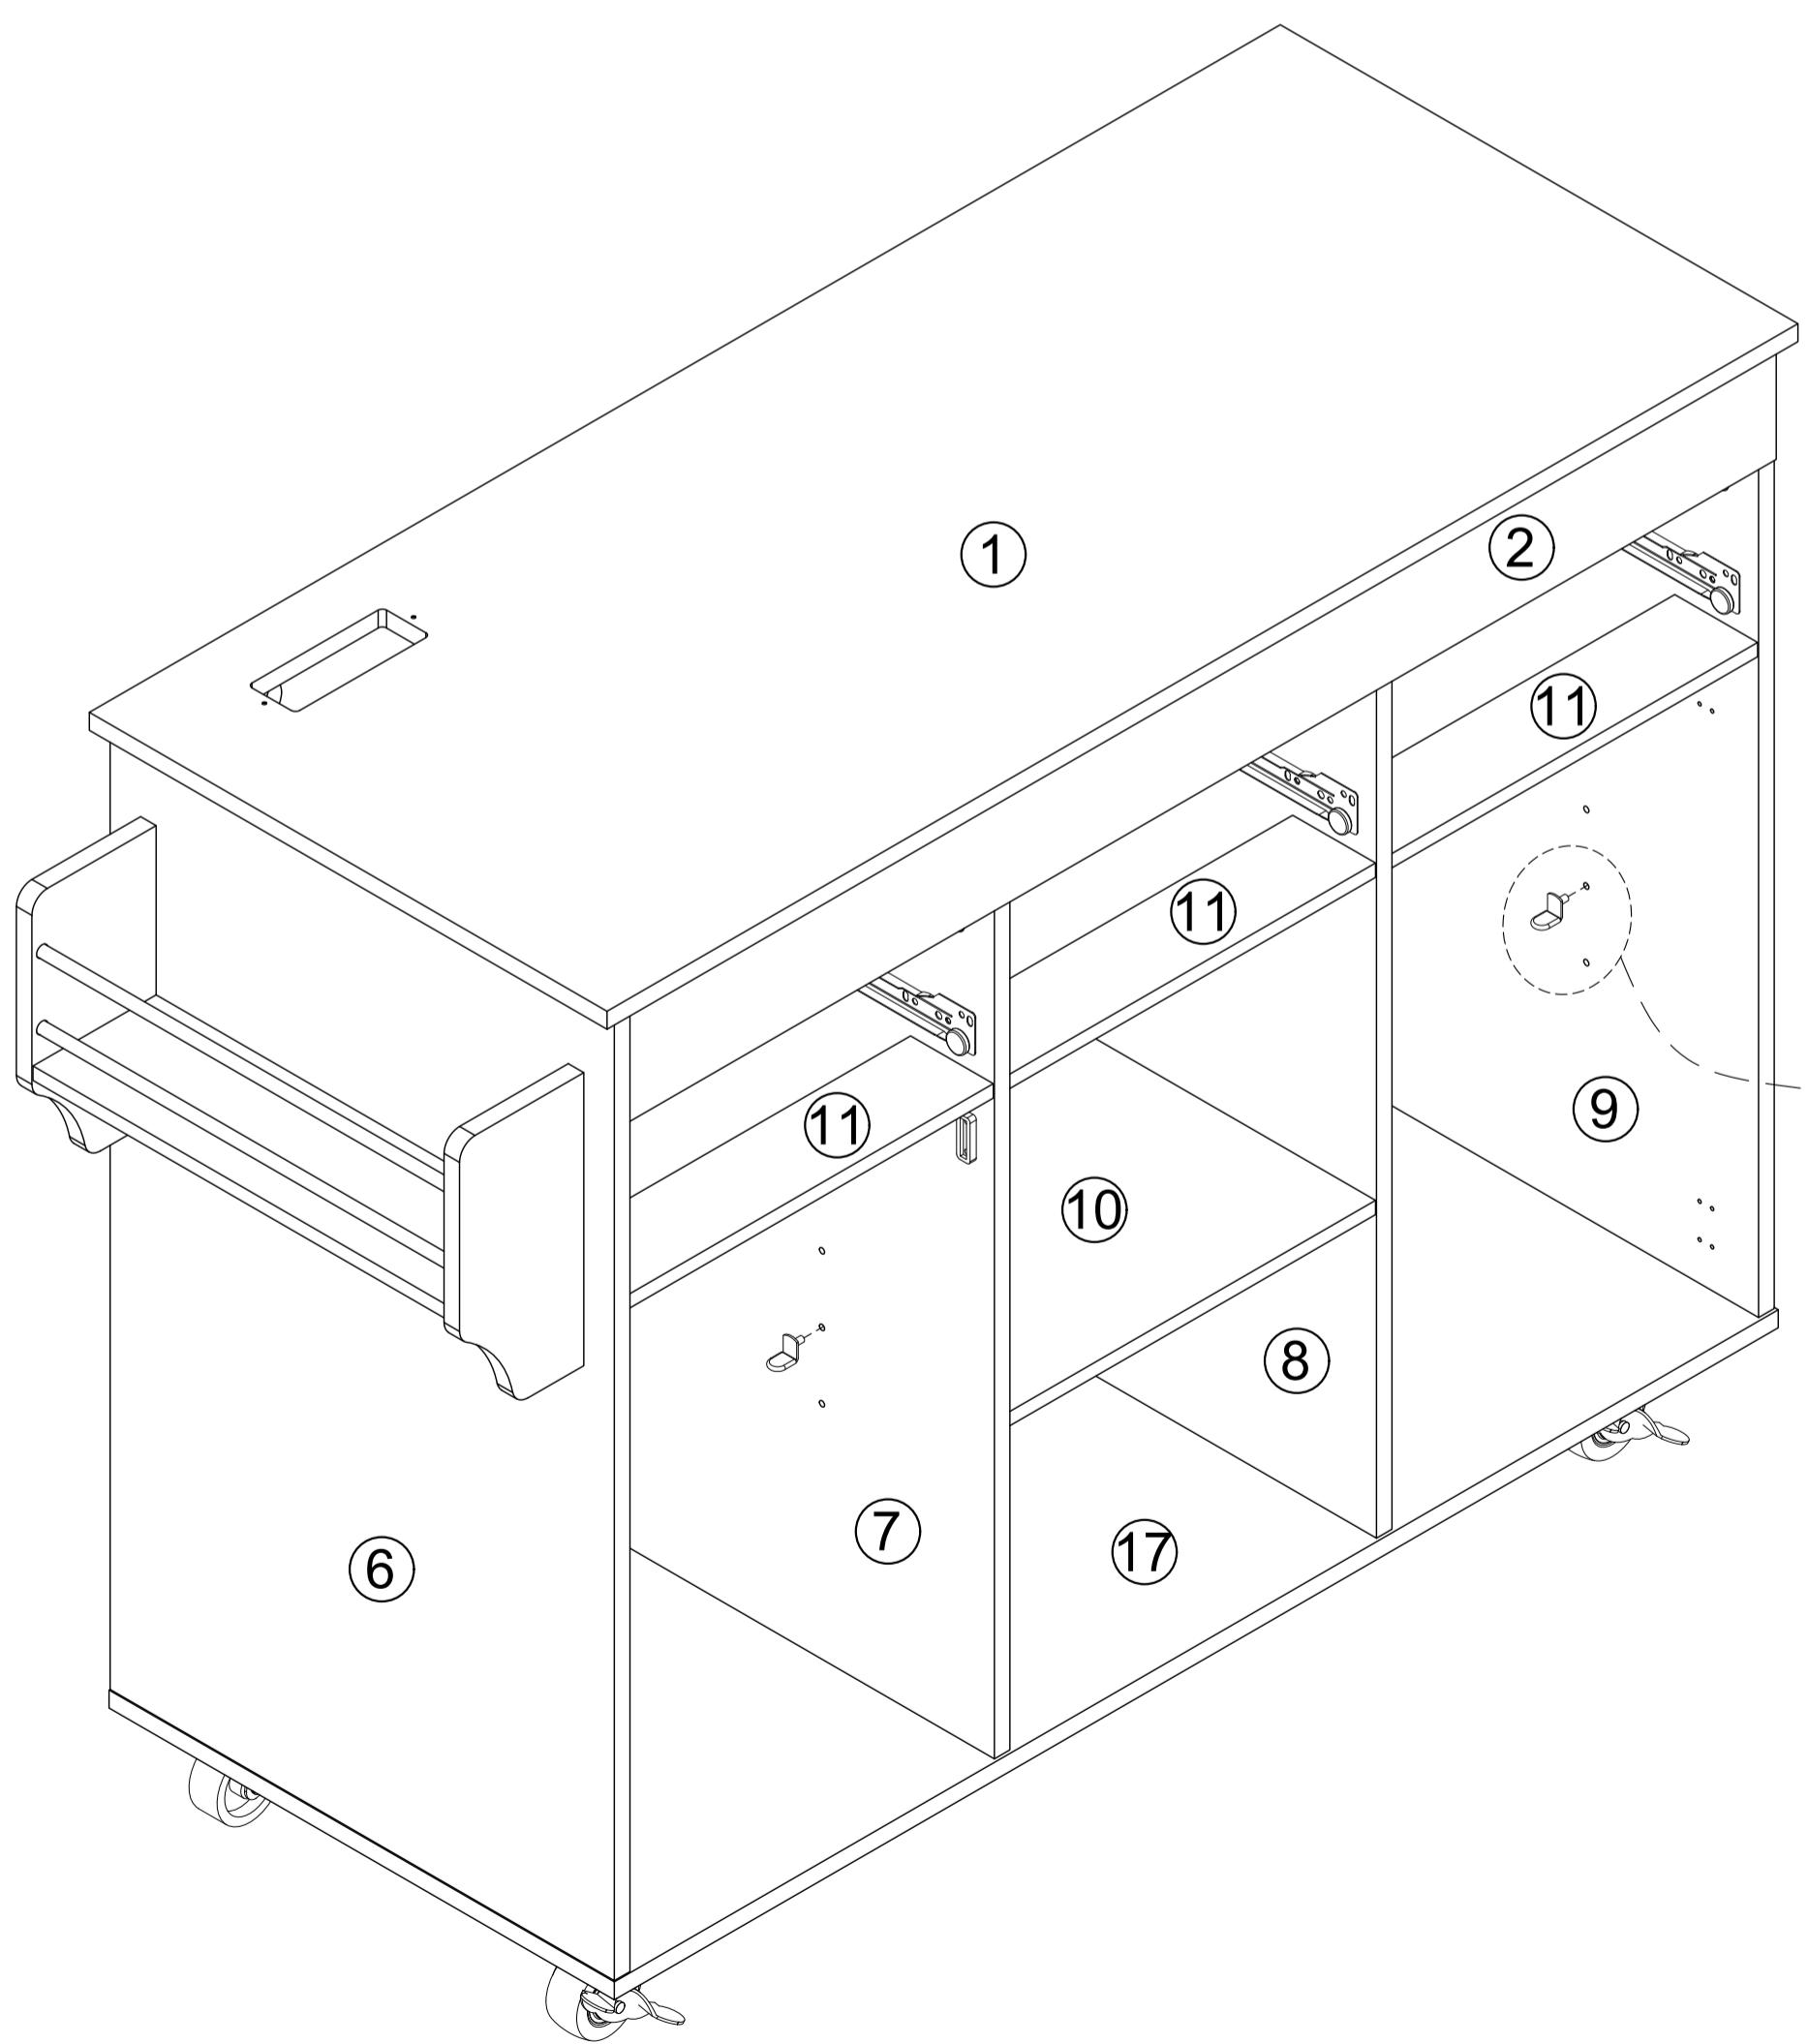

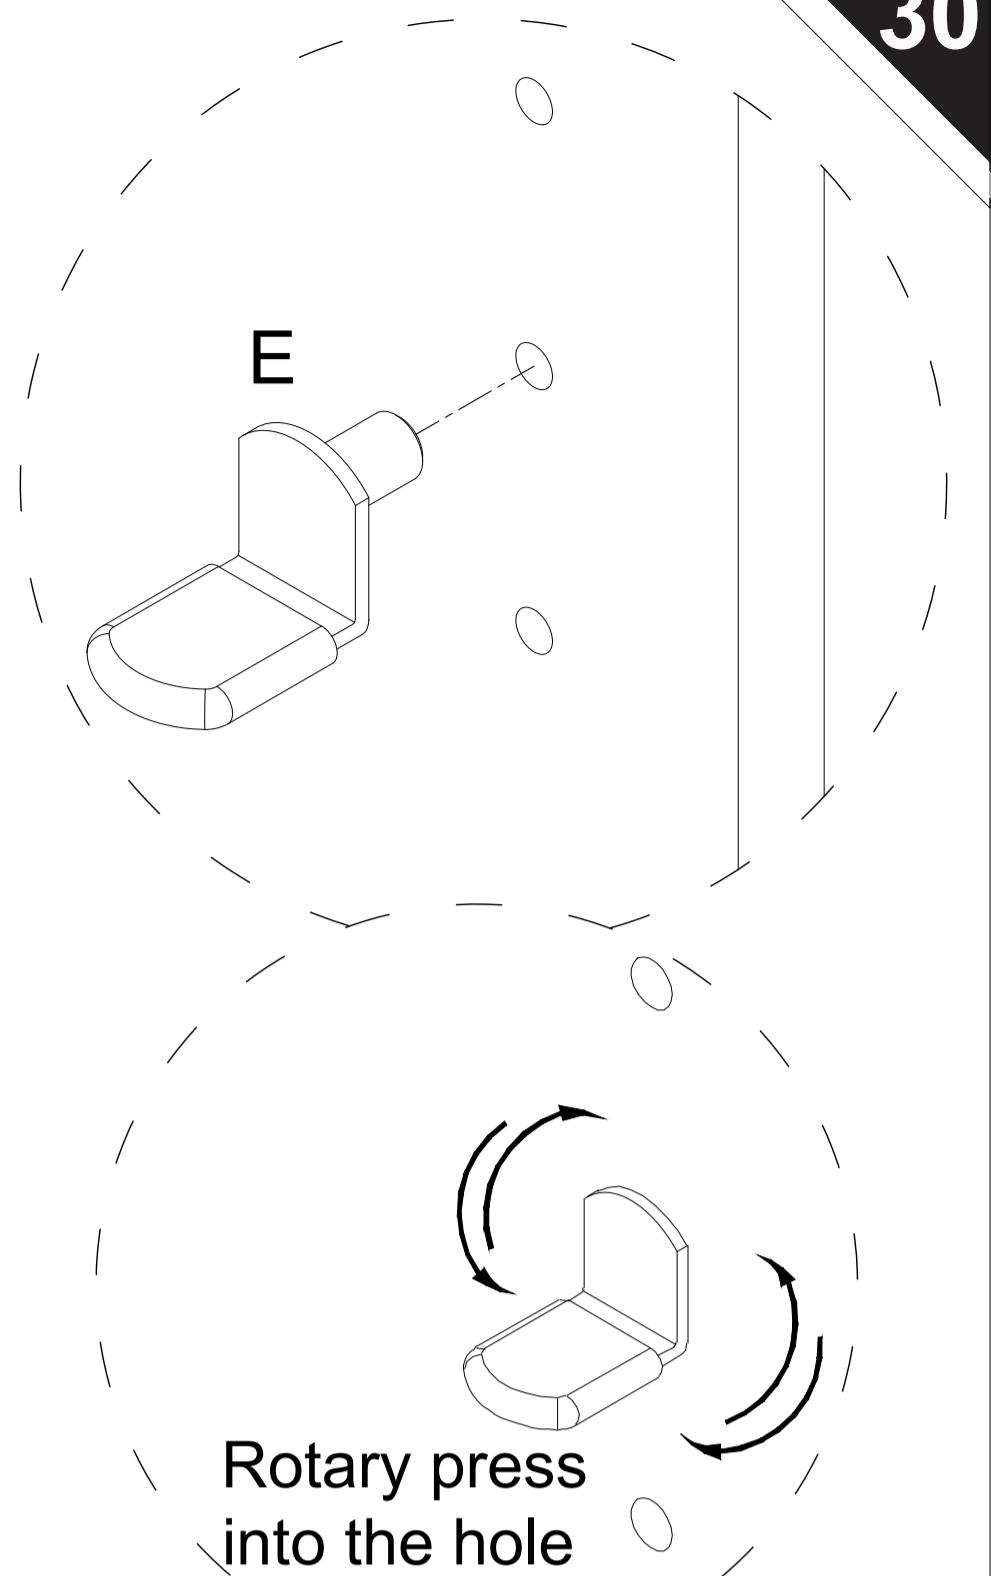

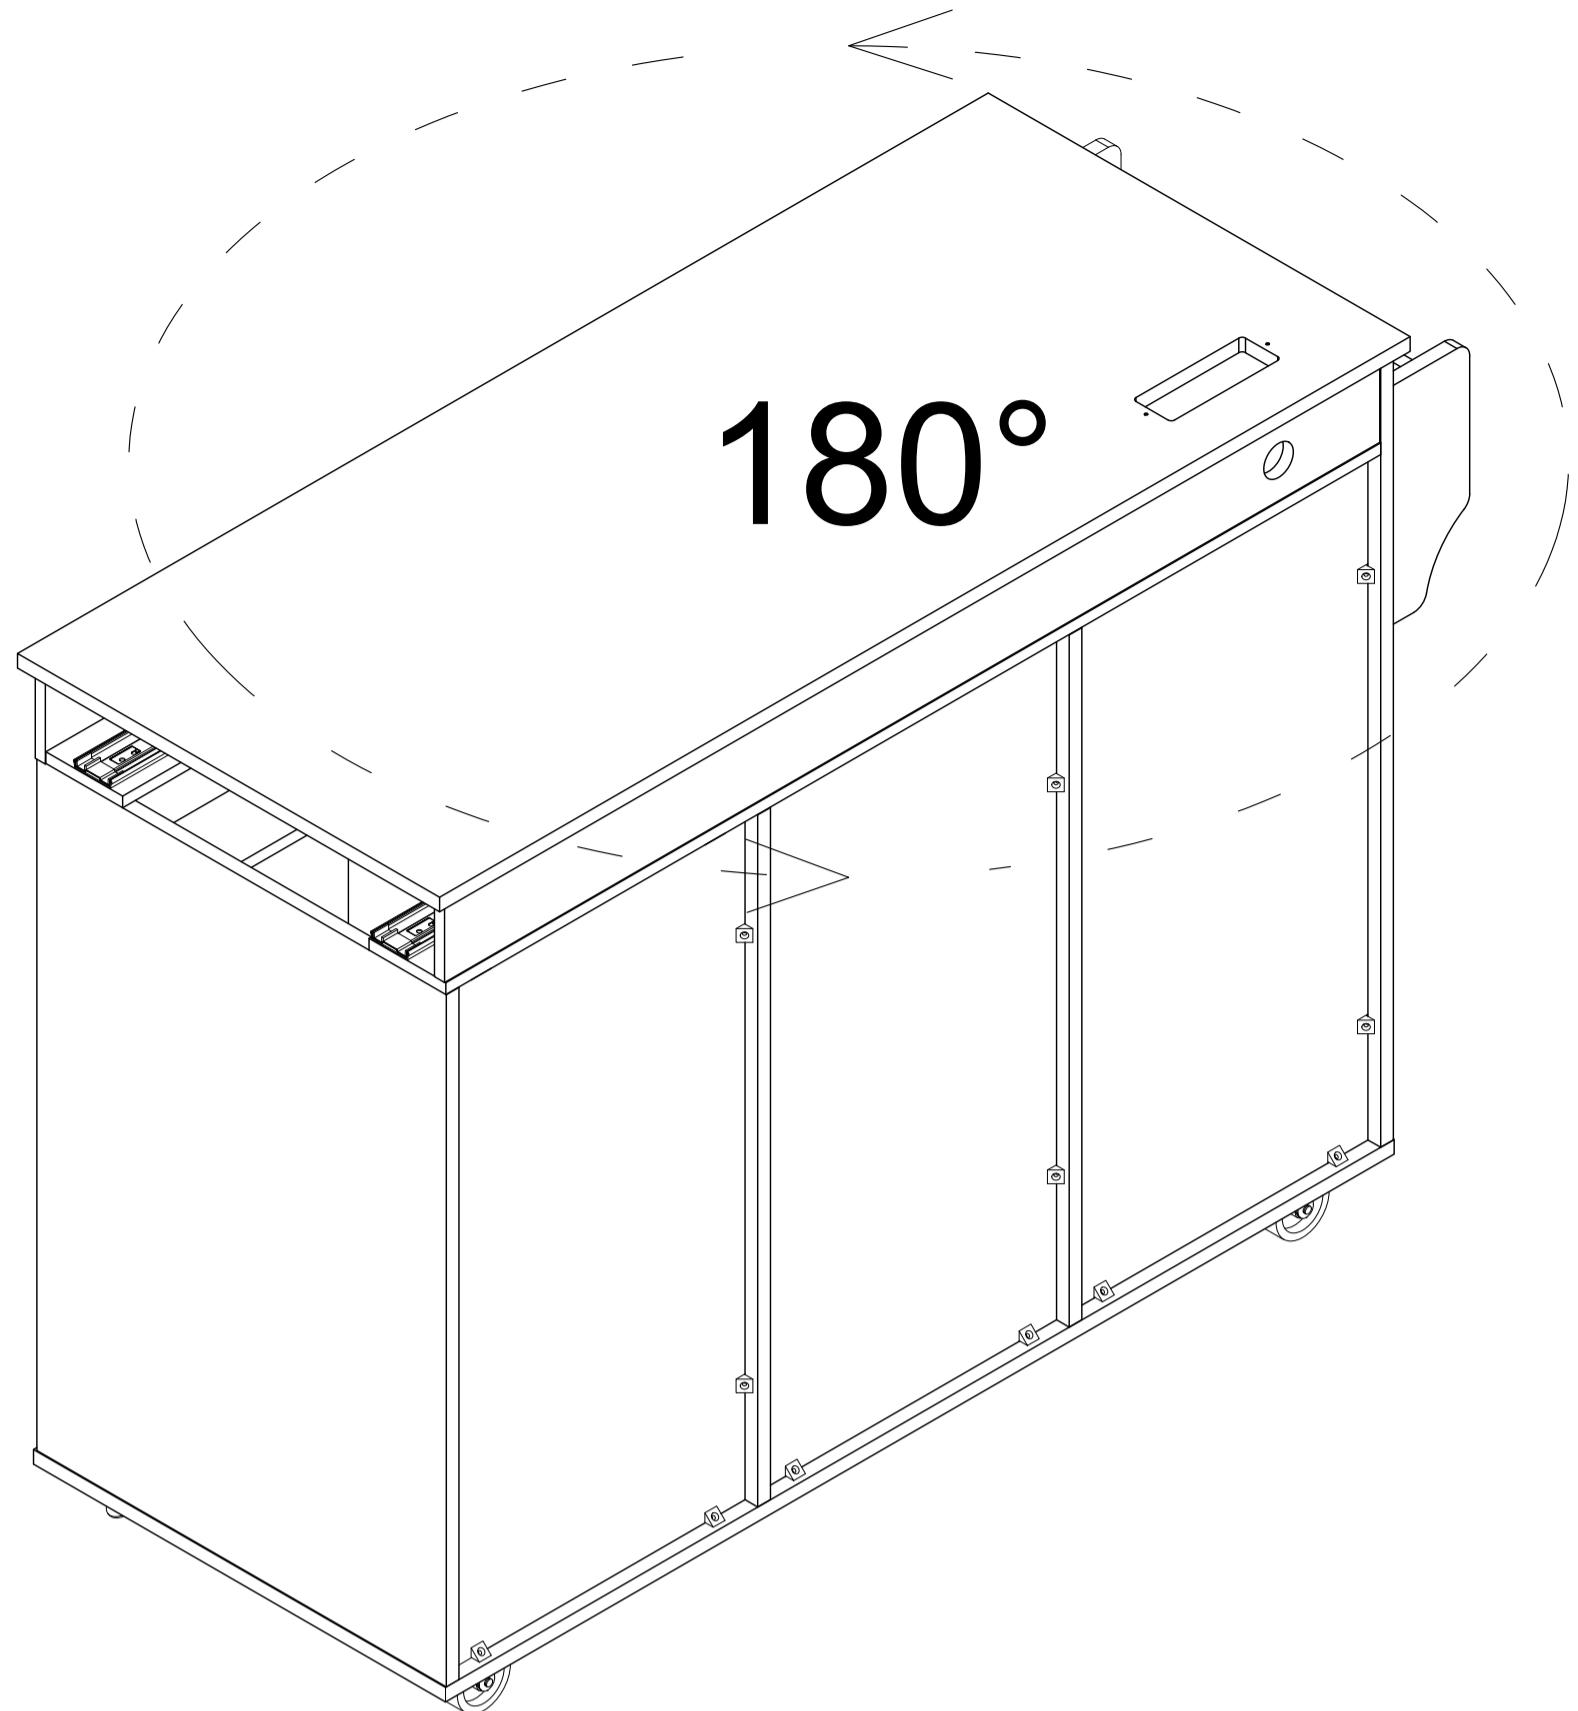

180°

Better Assembled By 2 Adults

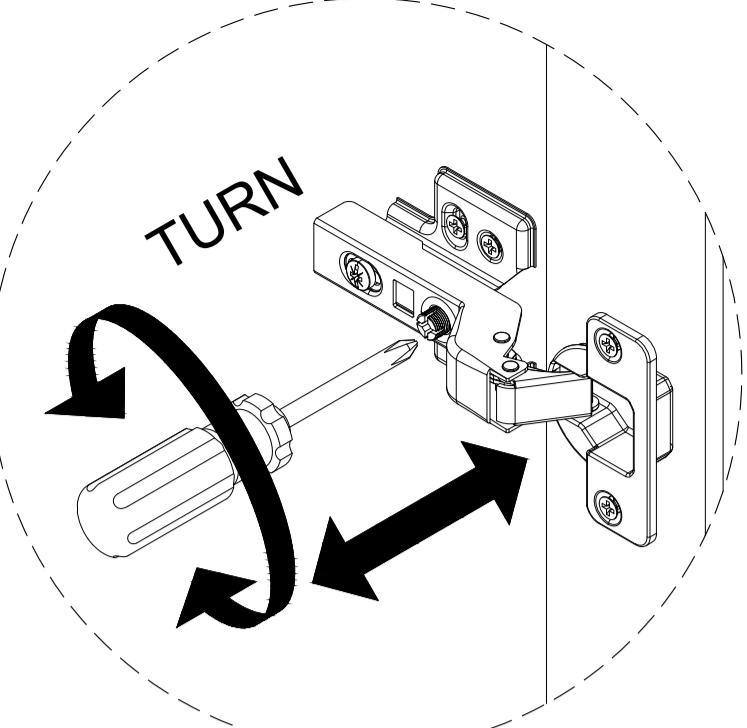

## Friendly Reminder

If installation is difficult  
it can be assembled flat

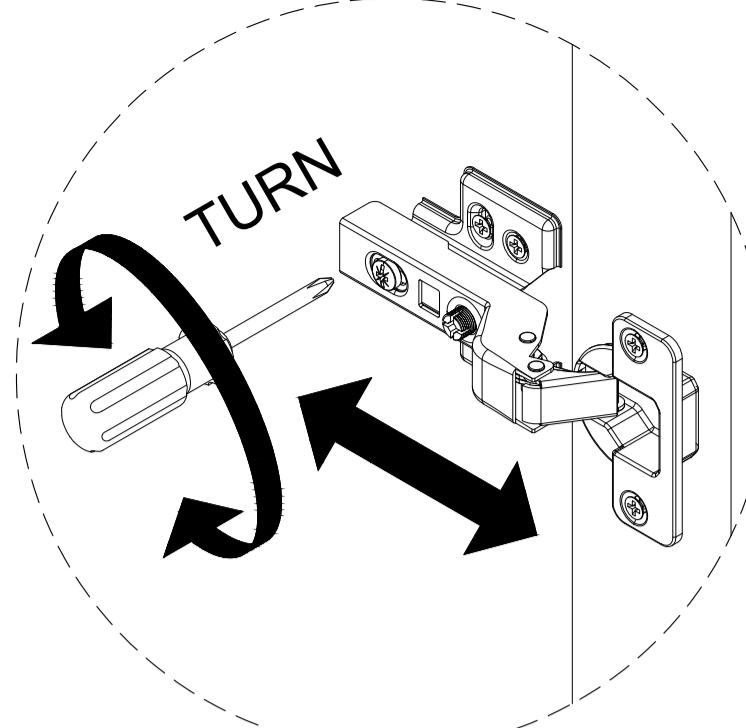

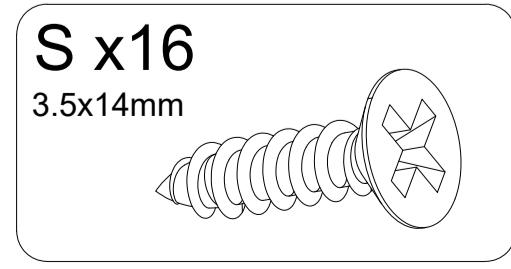

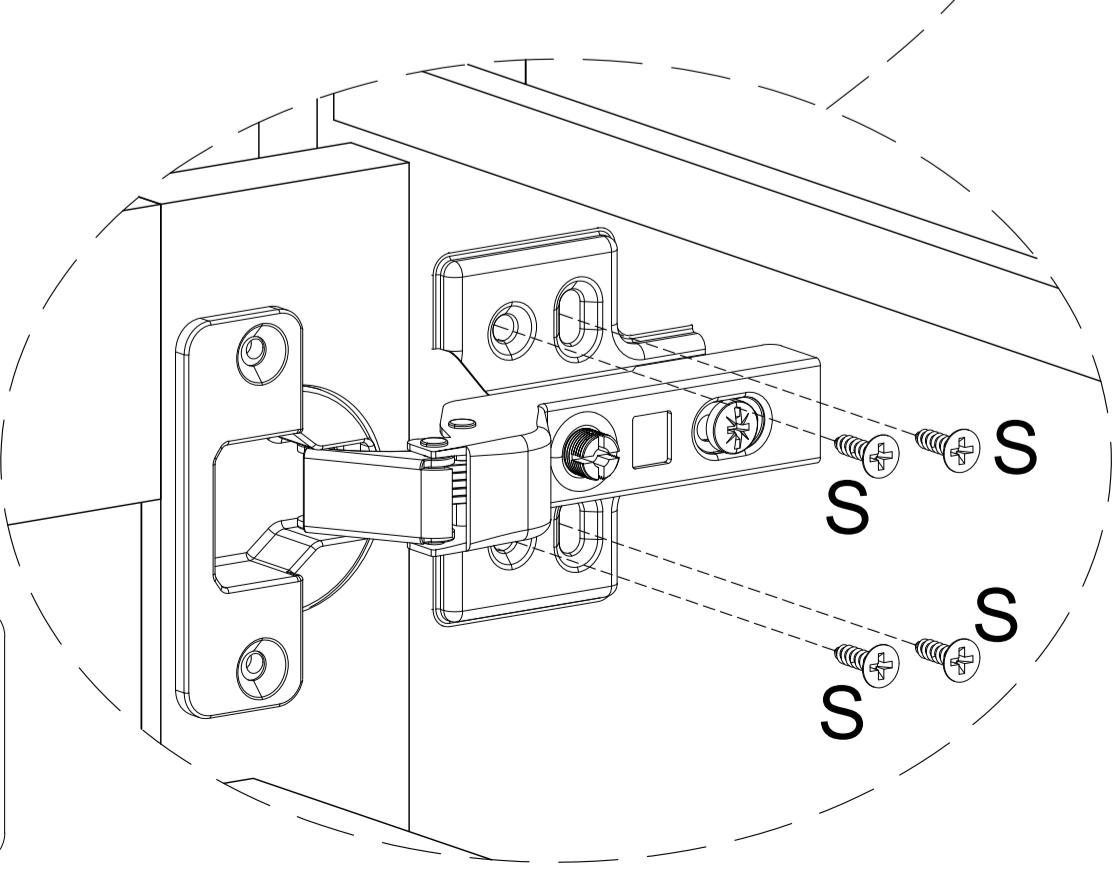

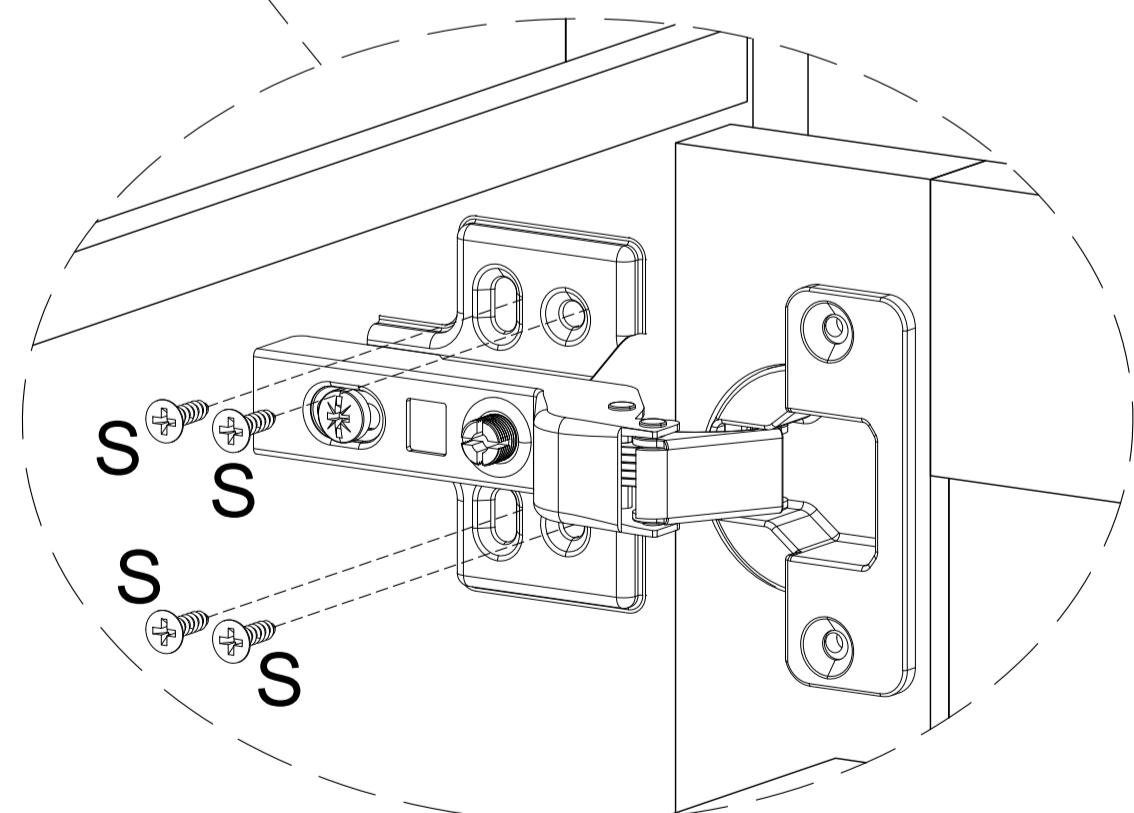

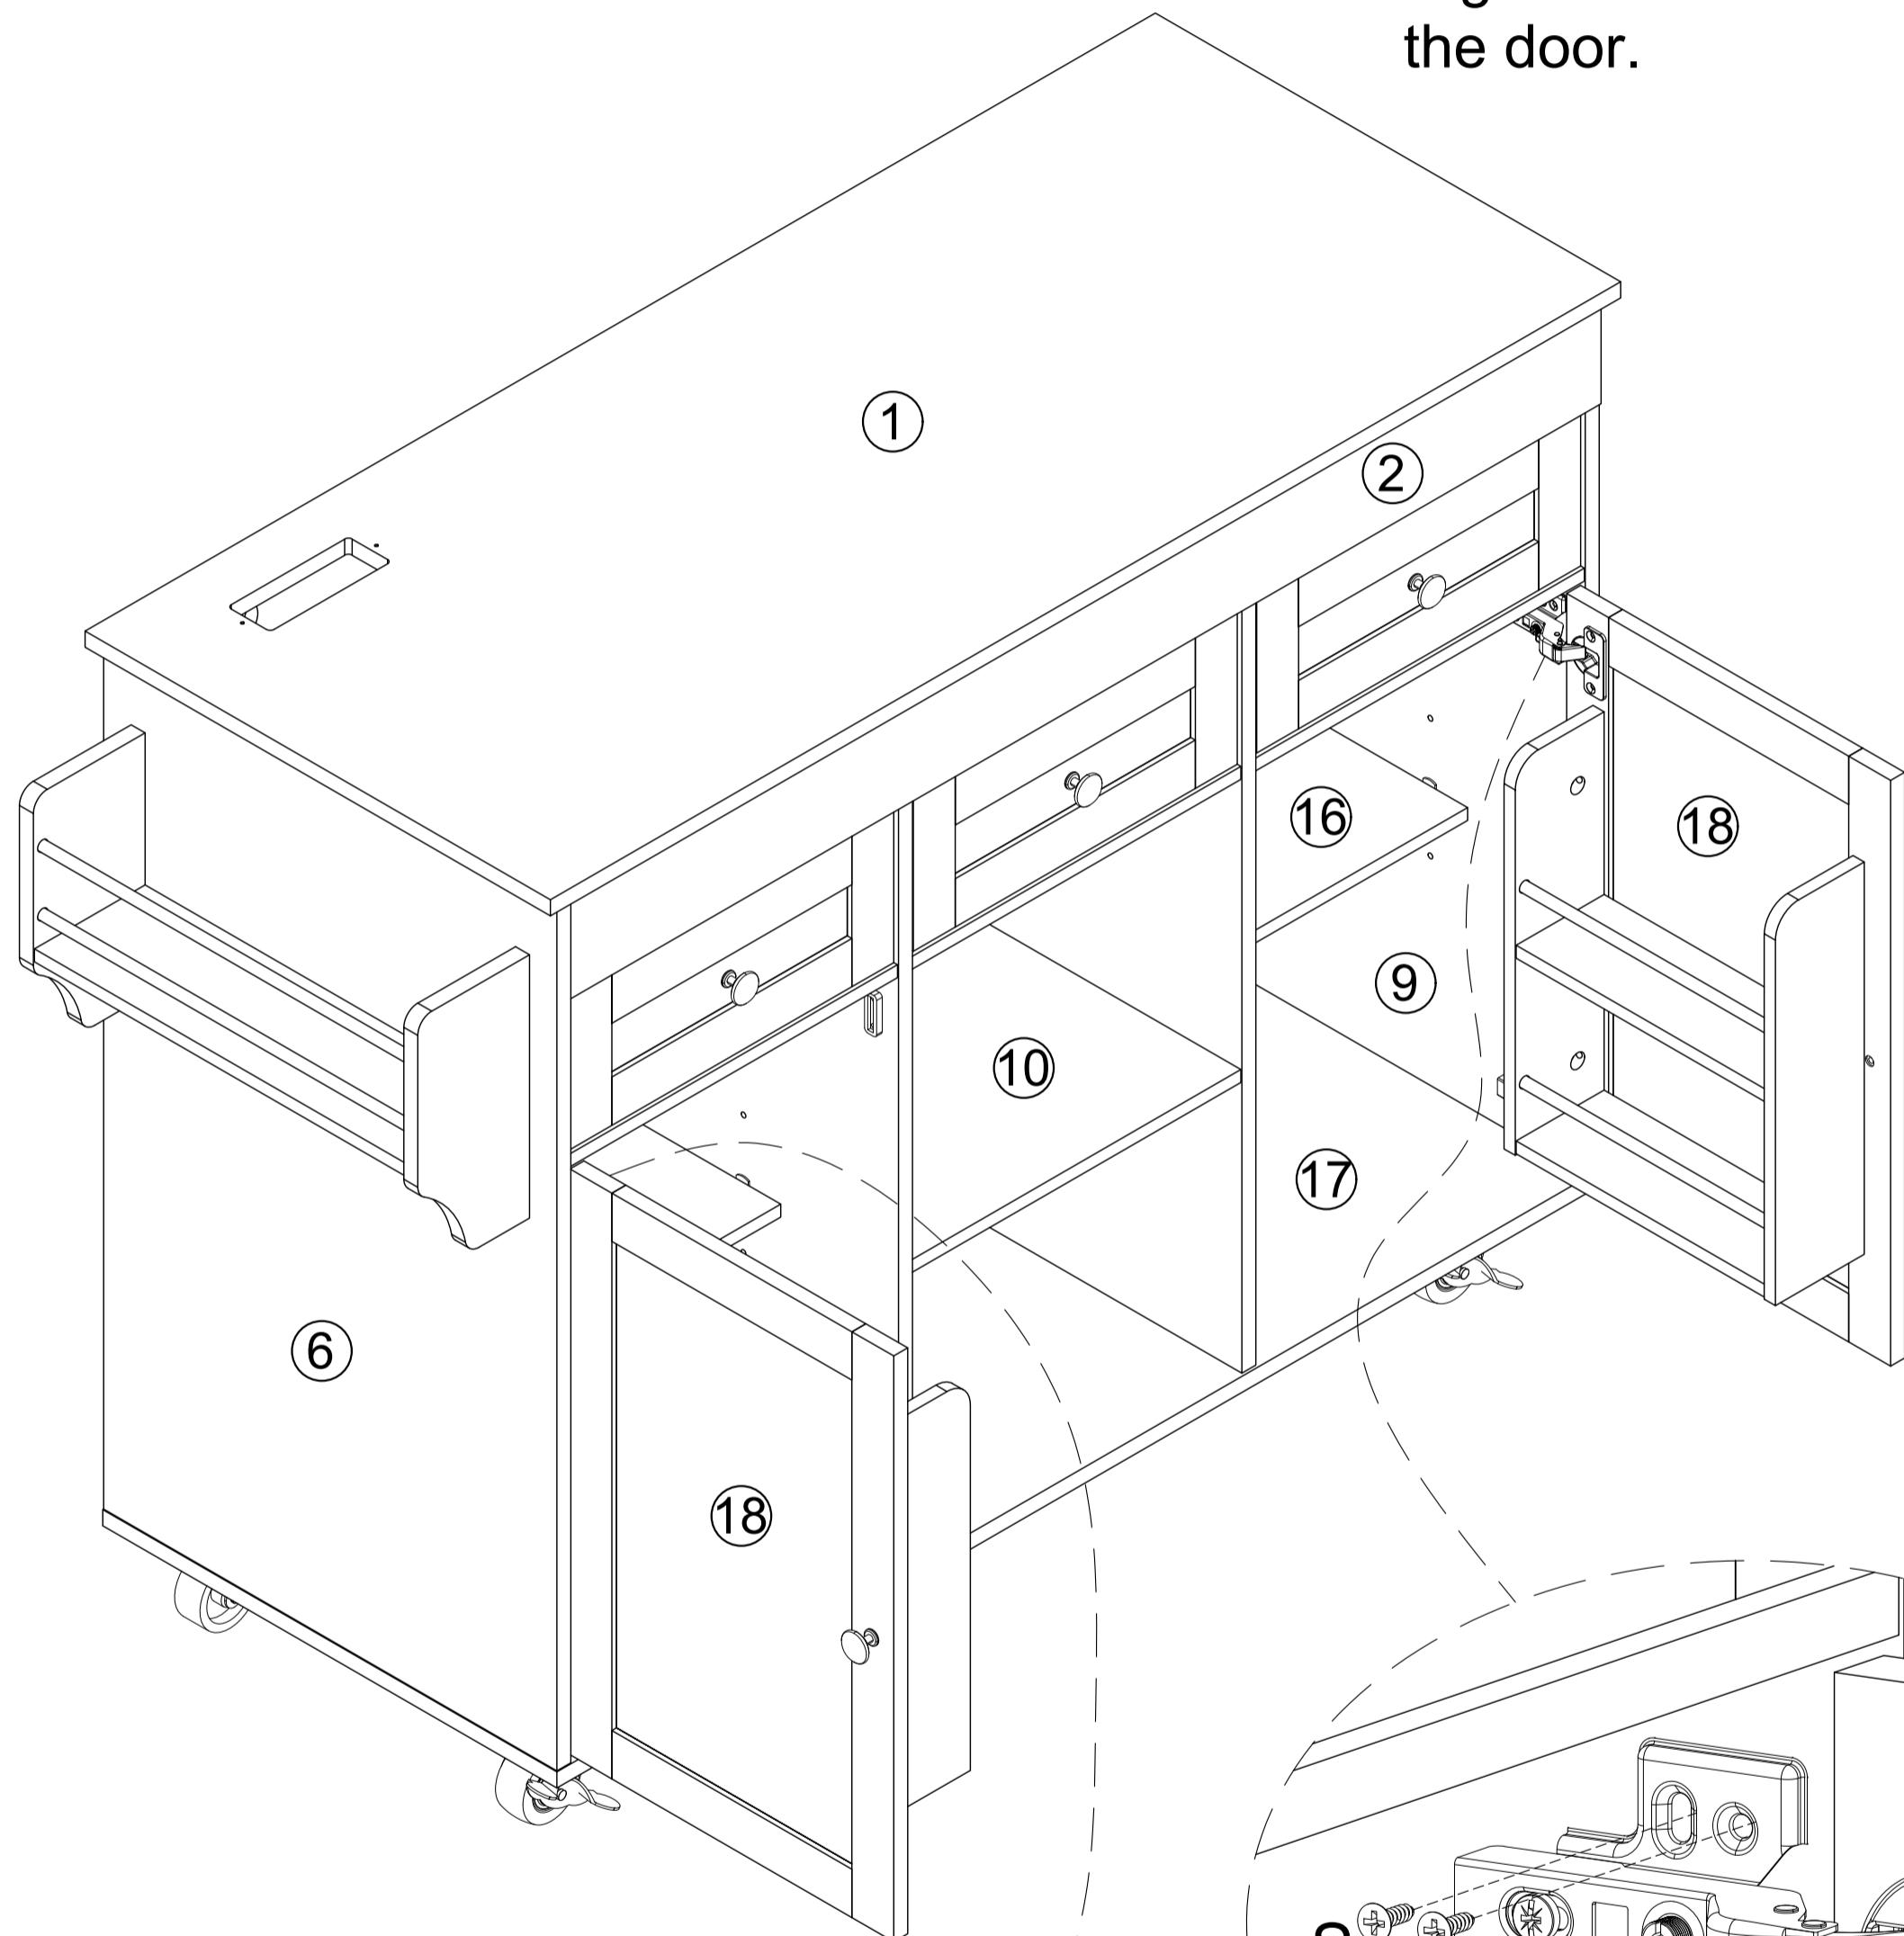

Loosen this screw and push up/down for a slight up-down adjustment of the door.

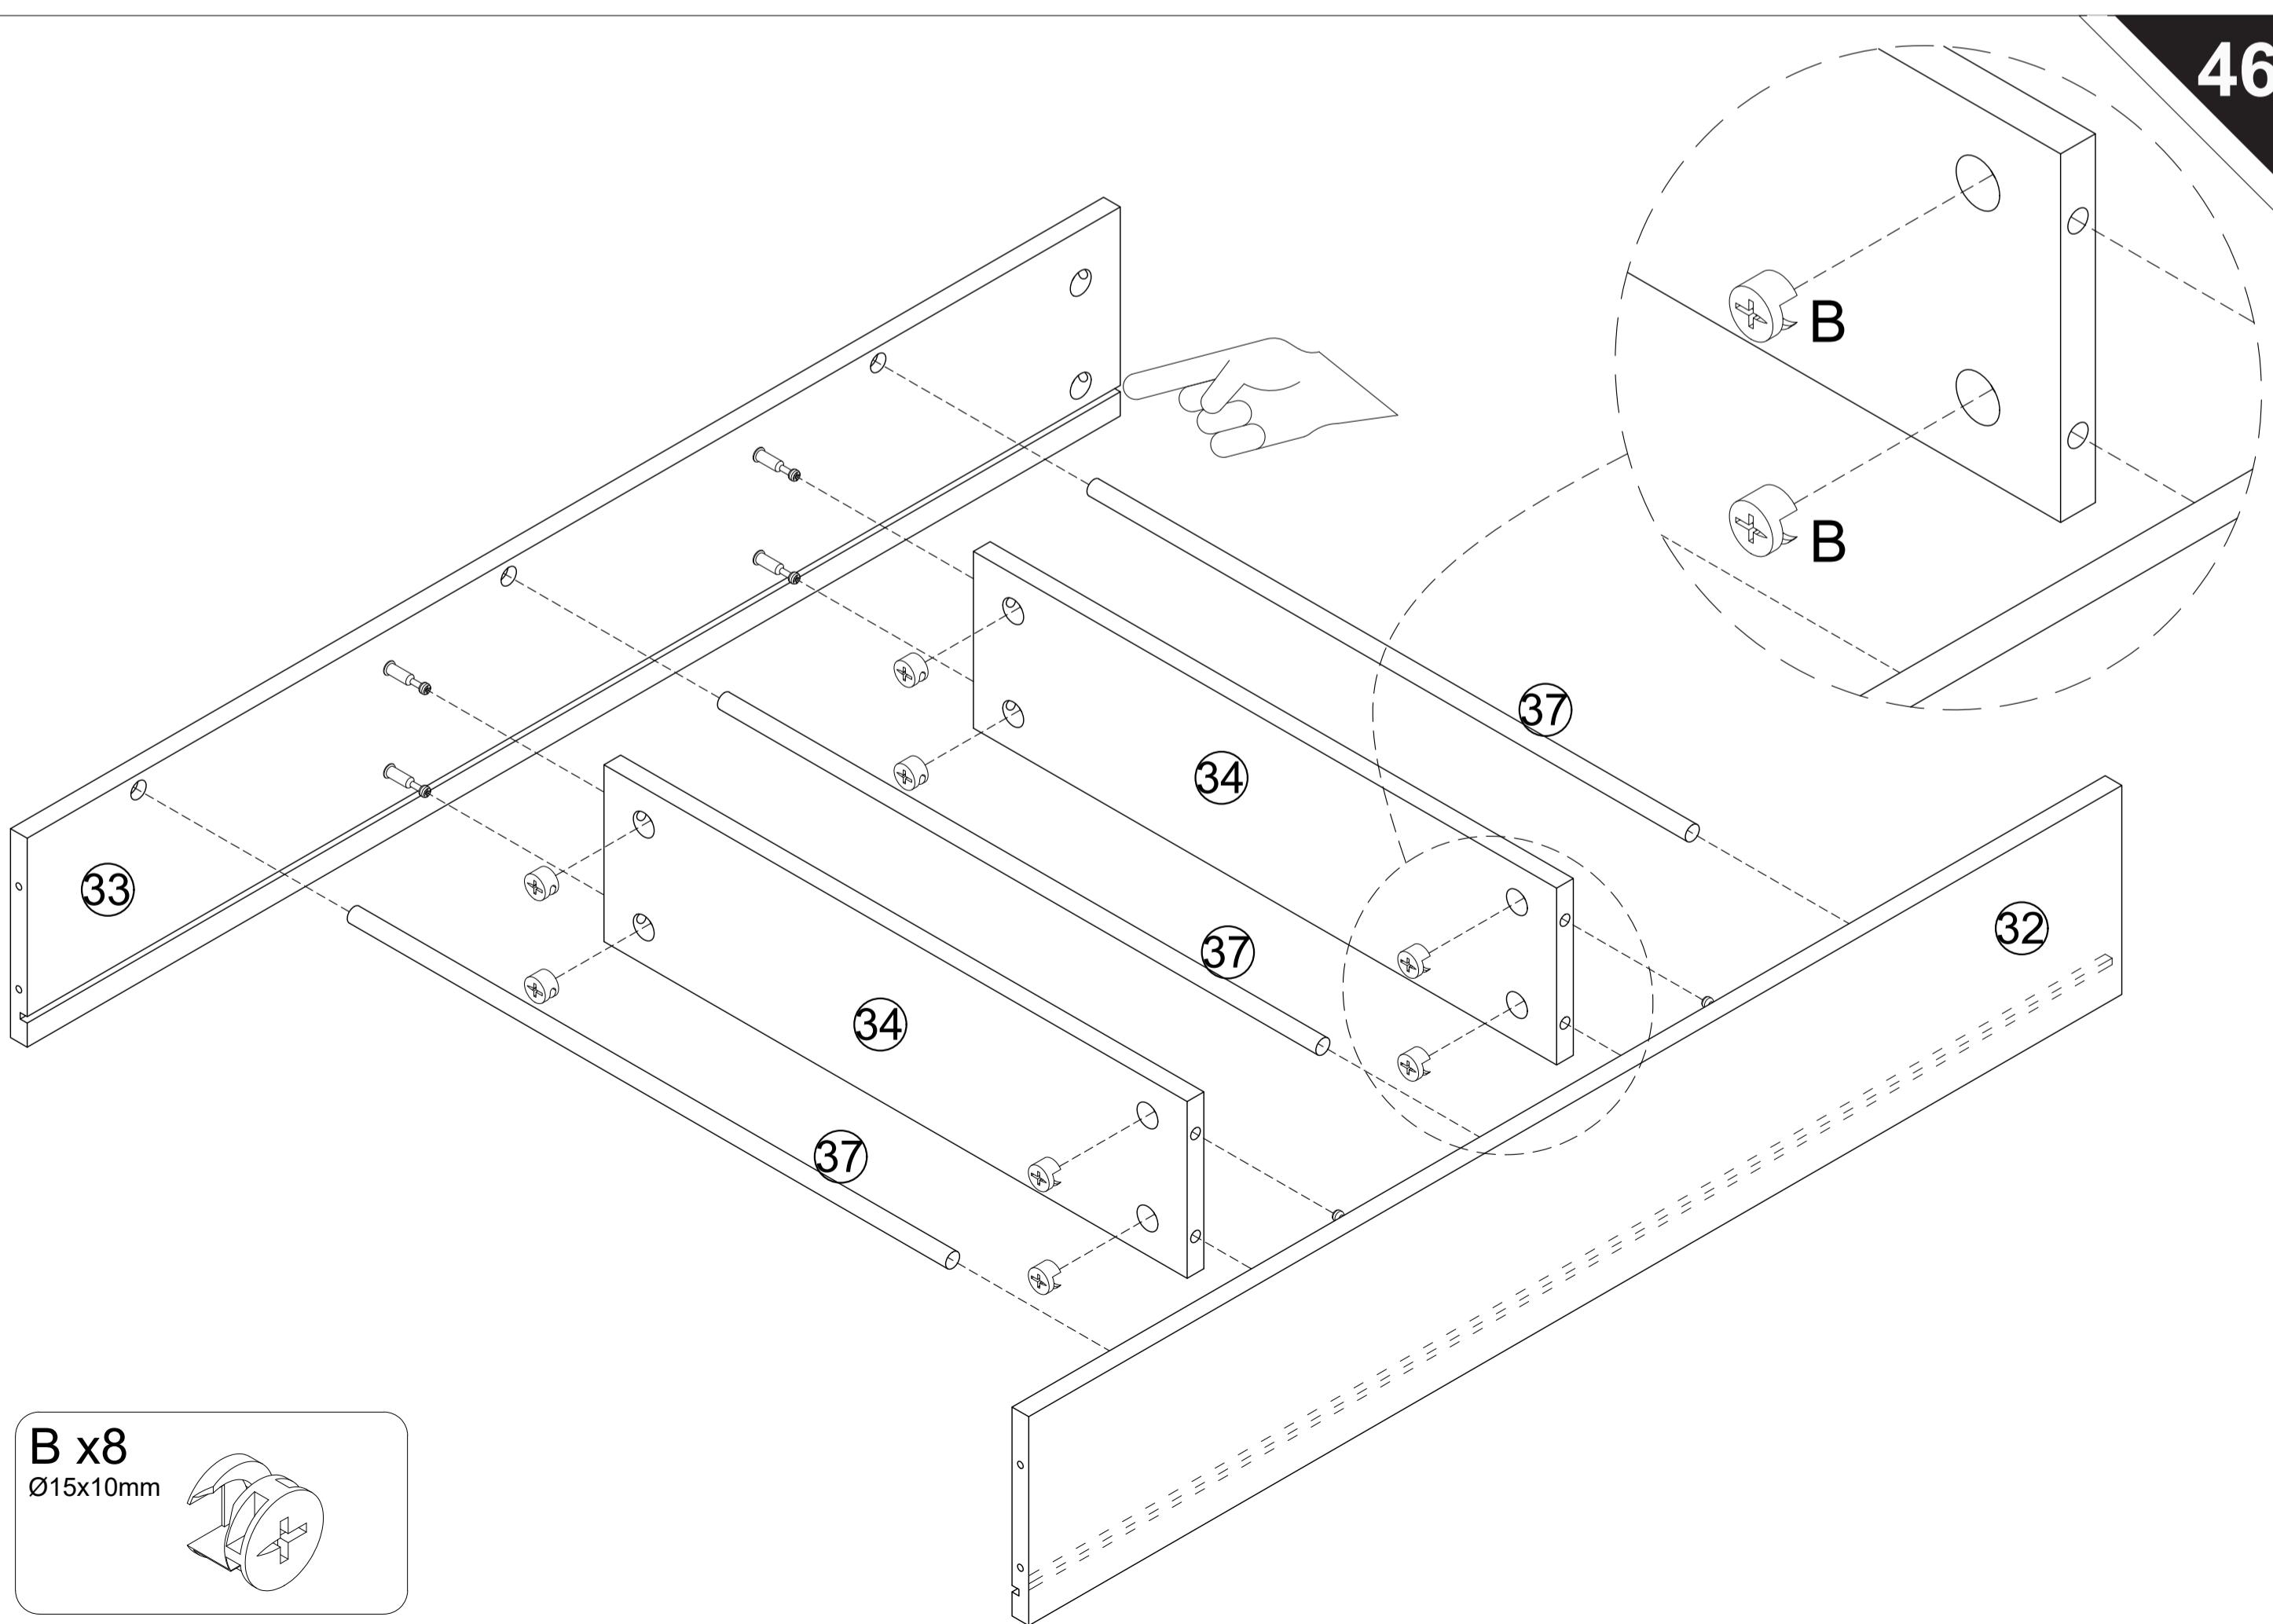

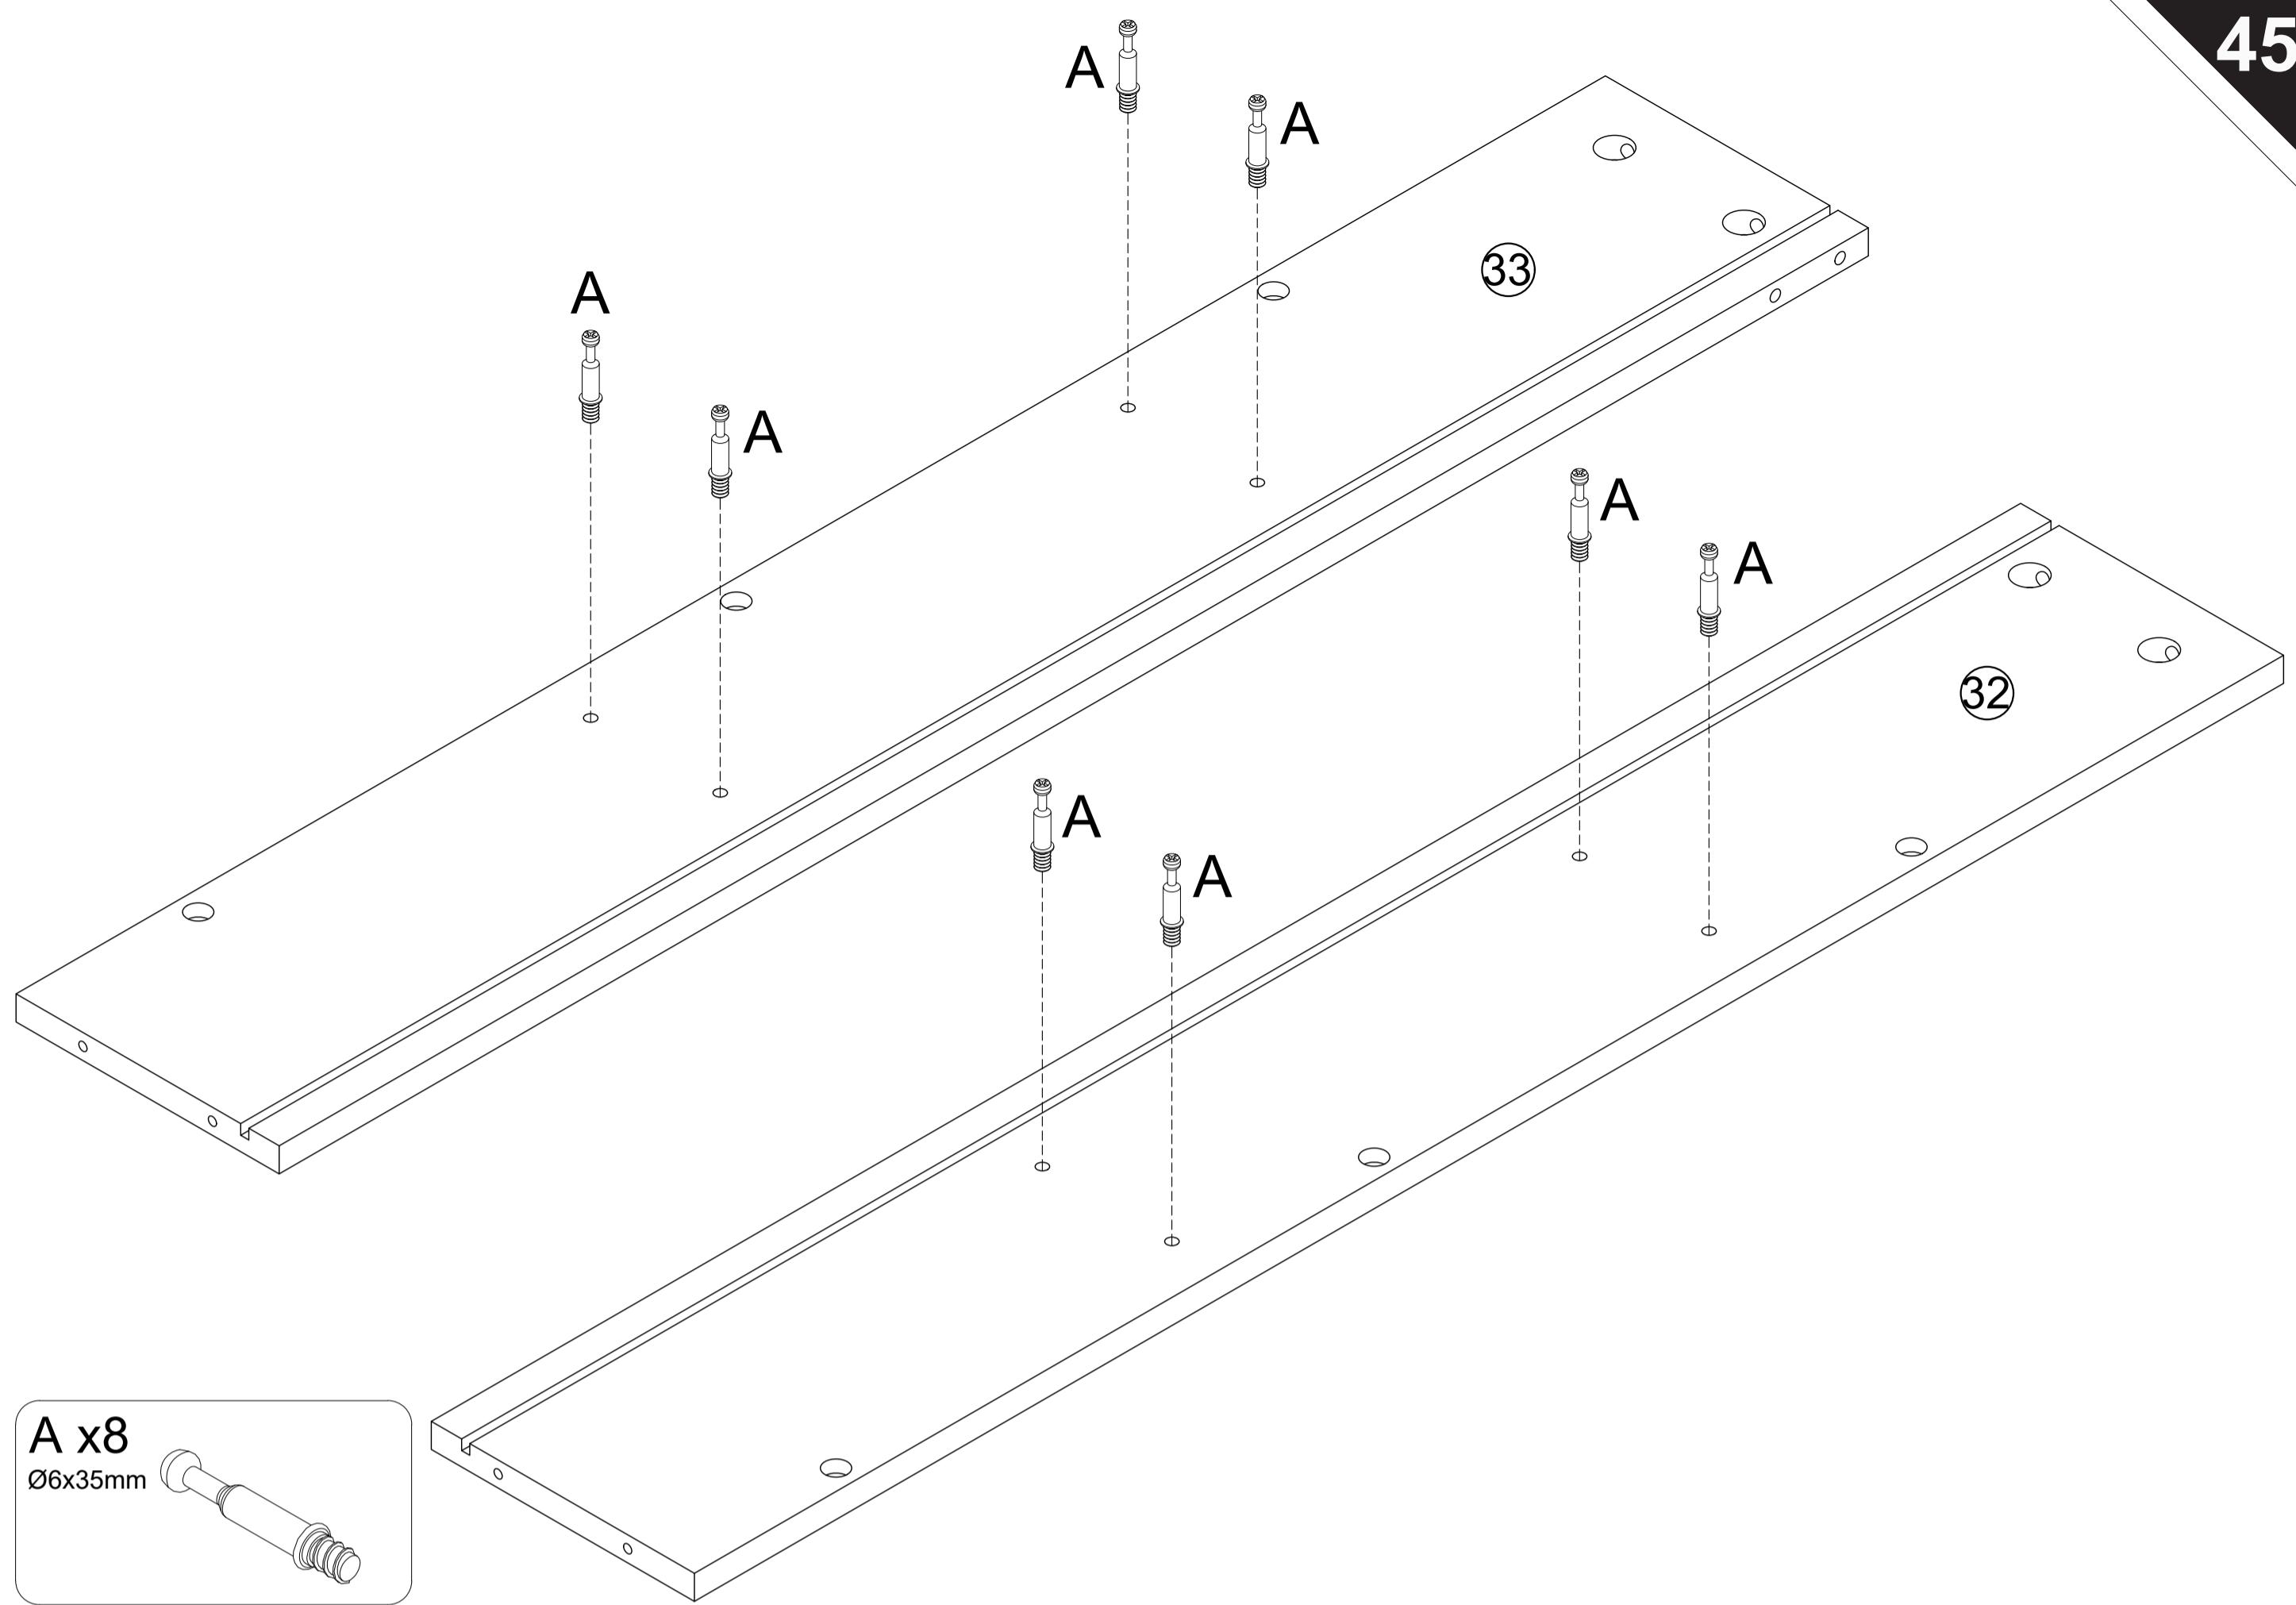

Loosen this screw for a slight left-right adjustment of the door.

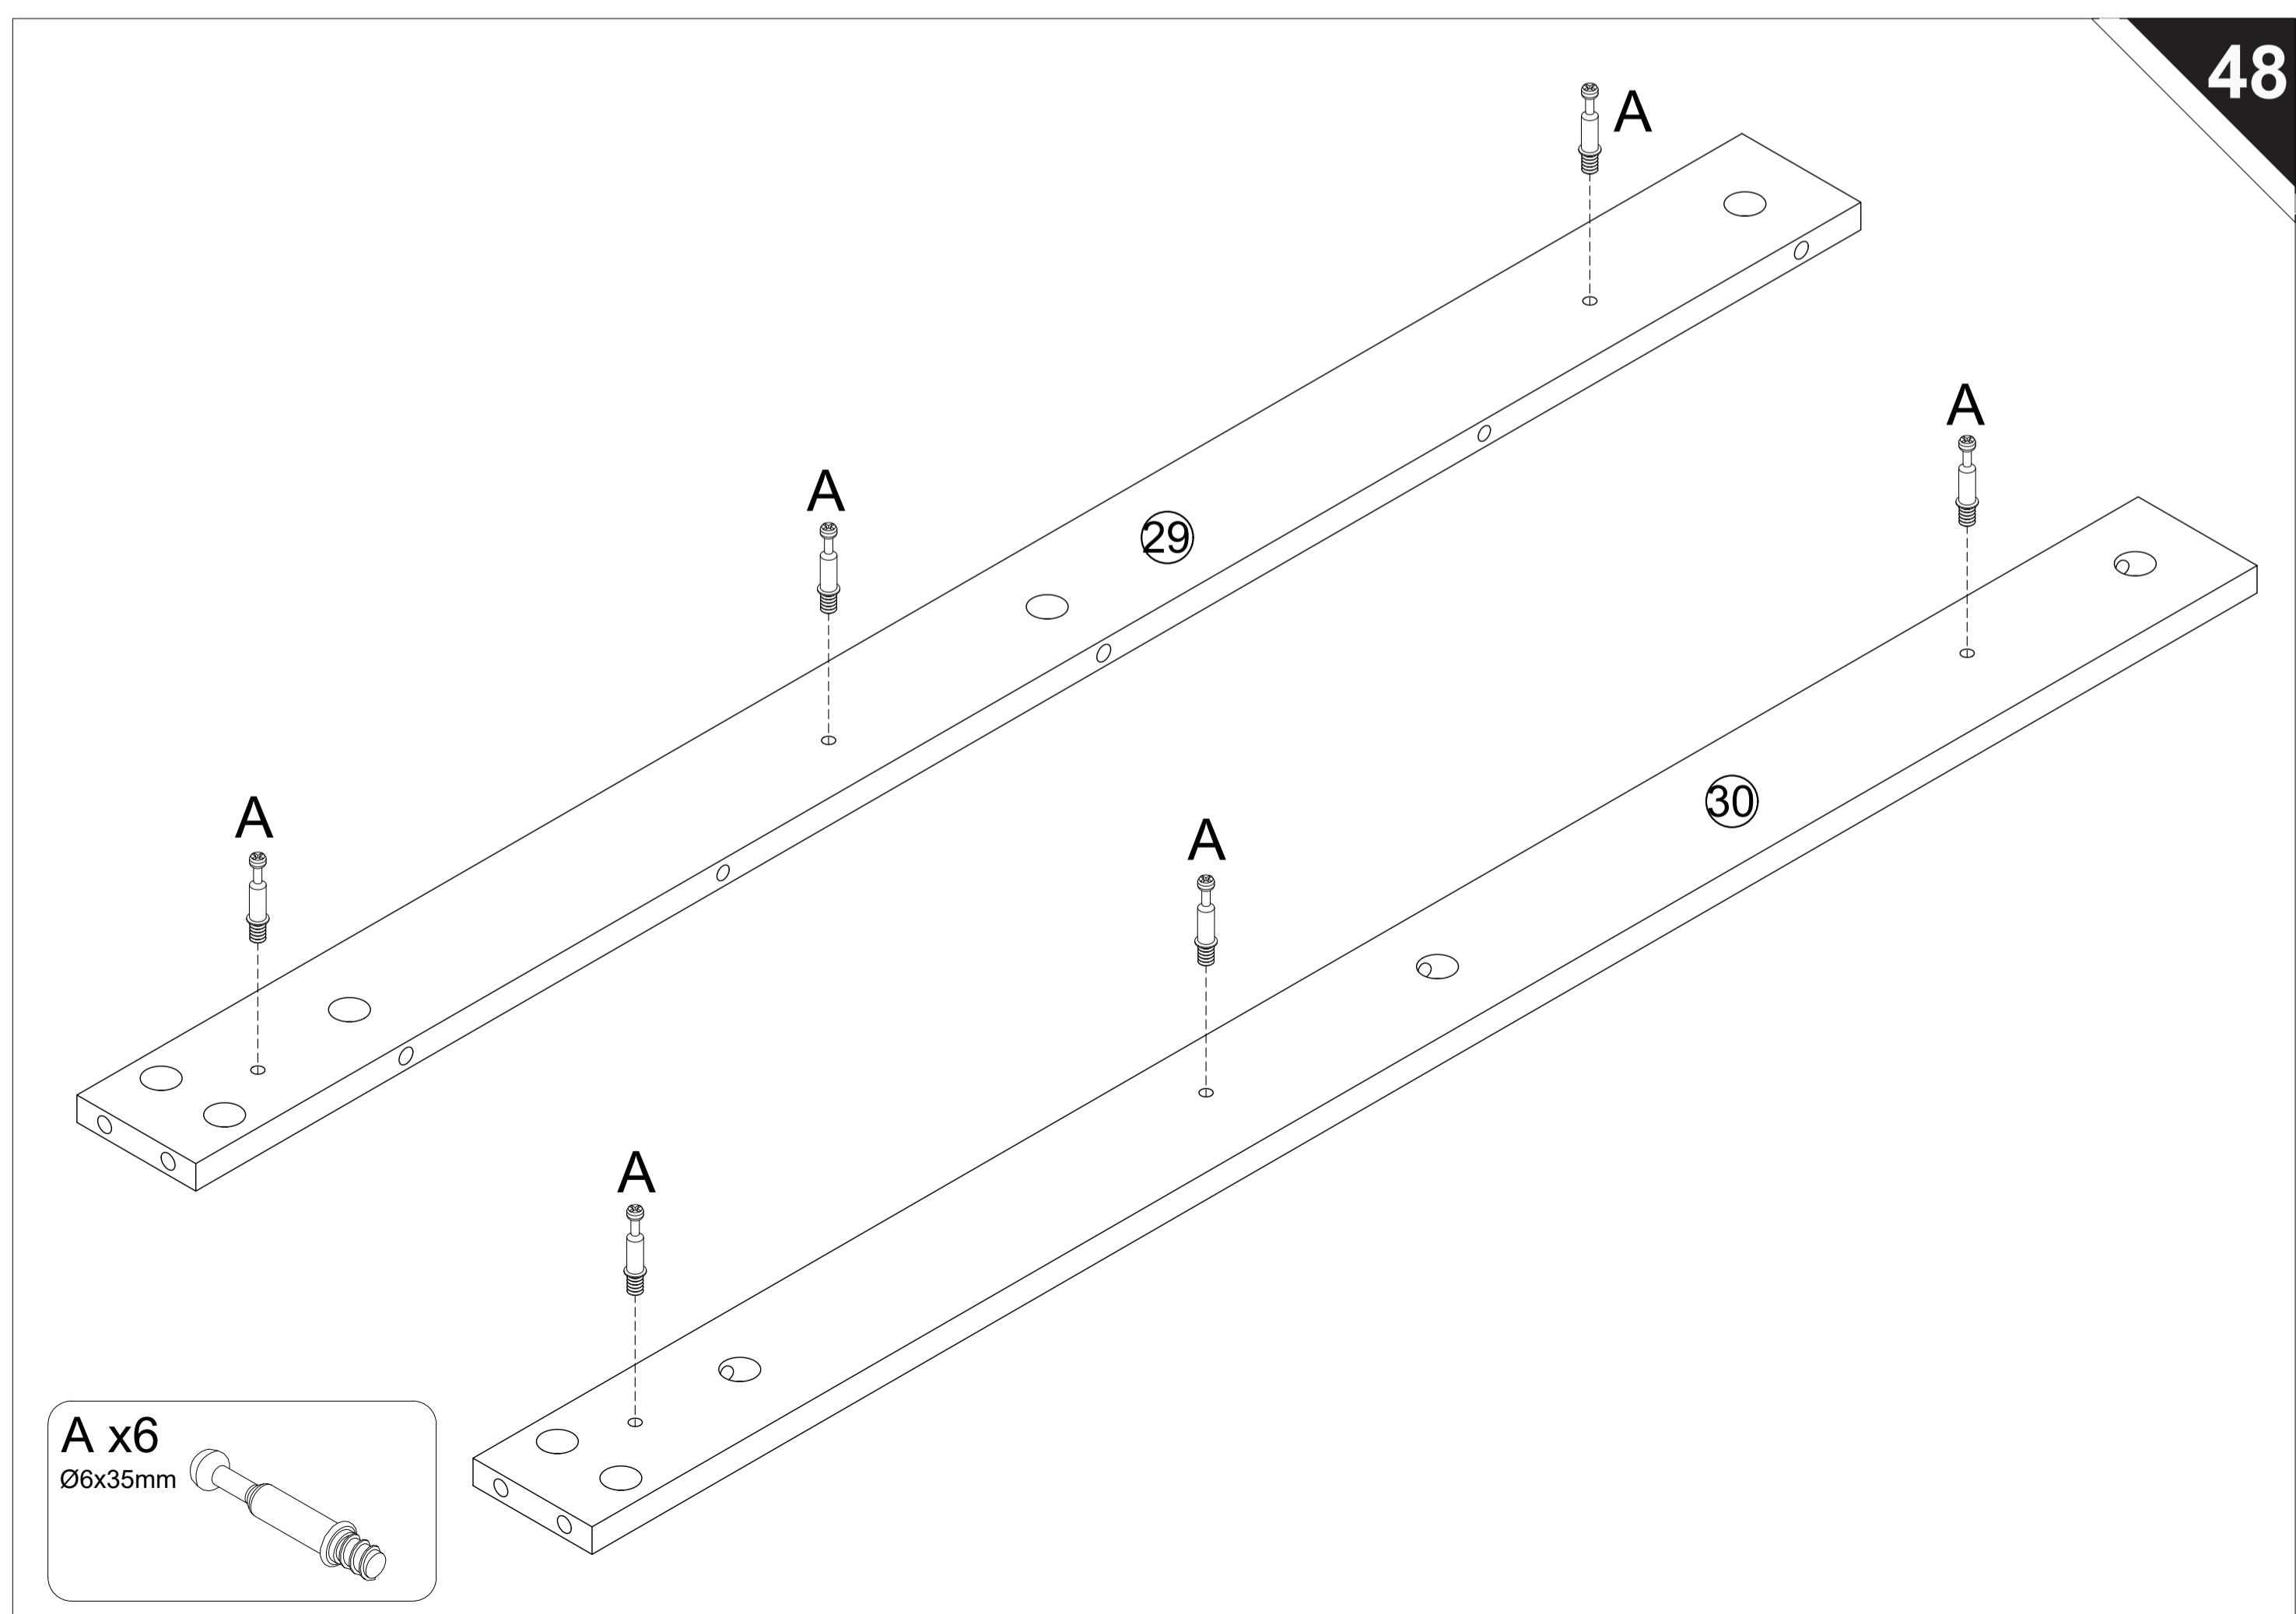

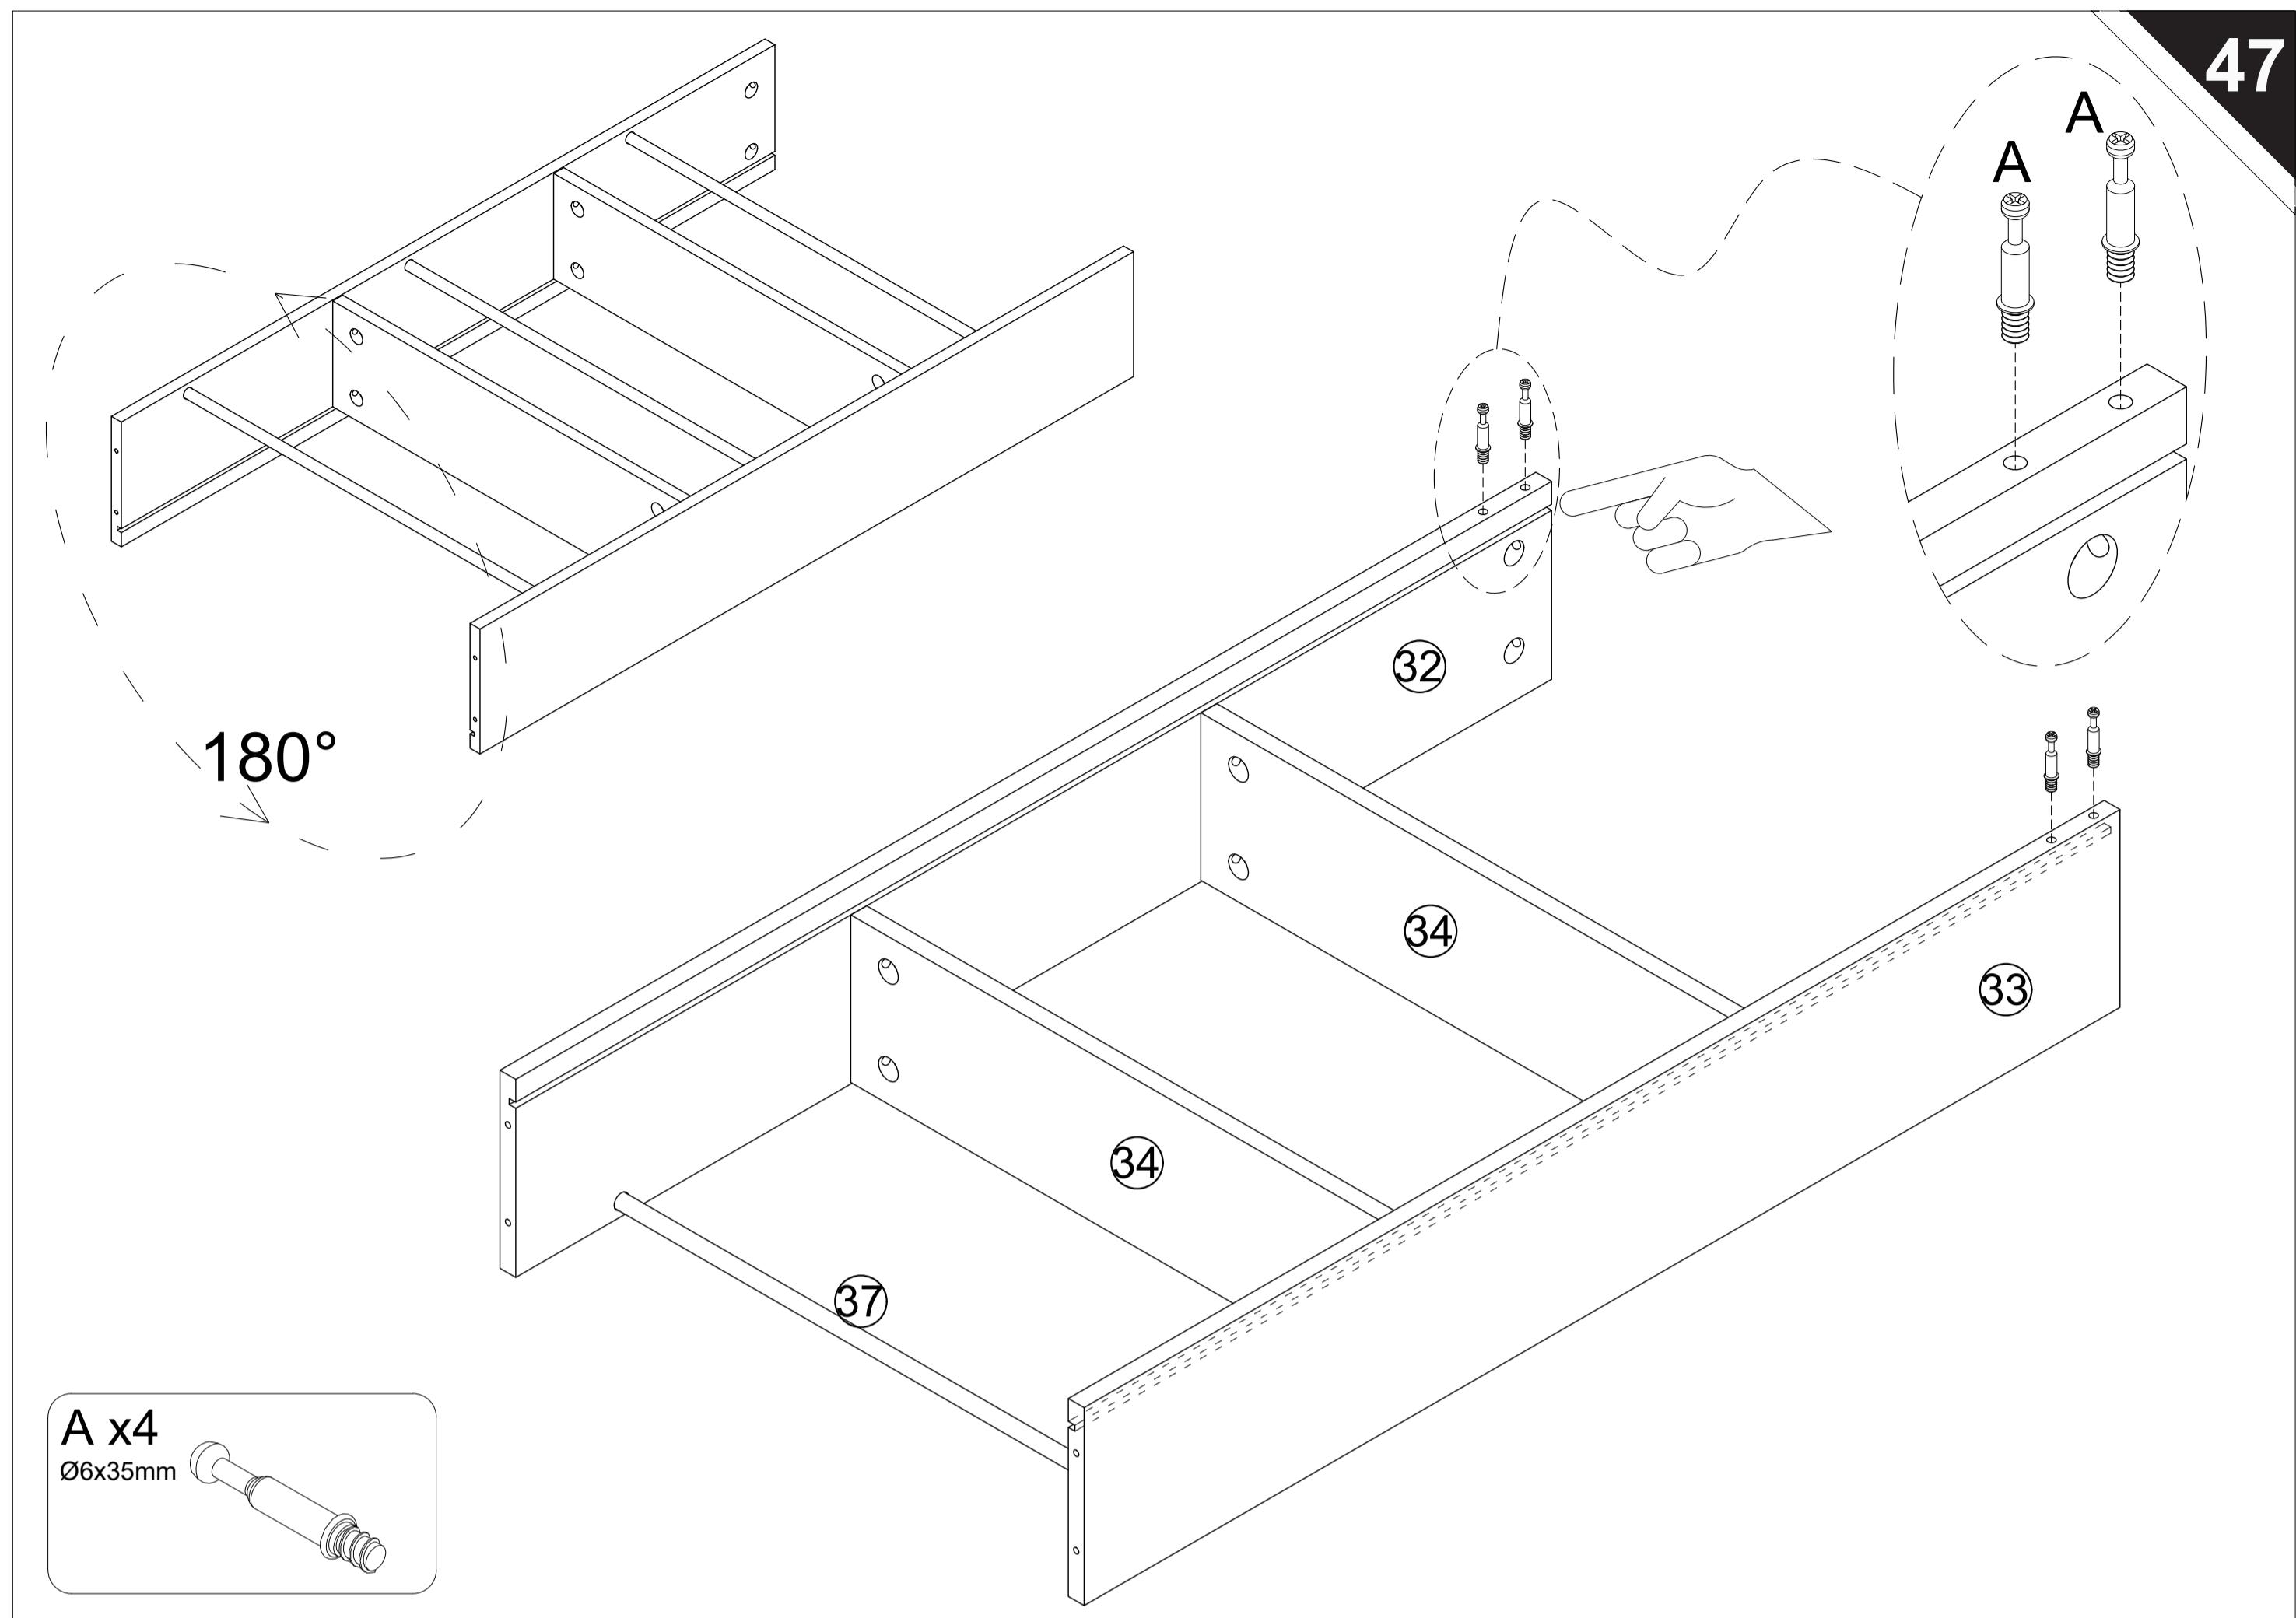

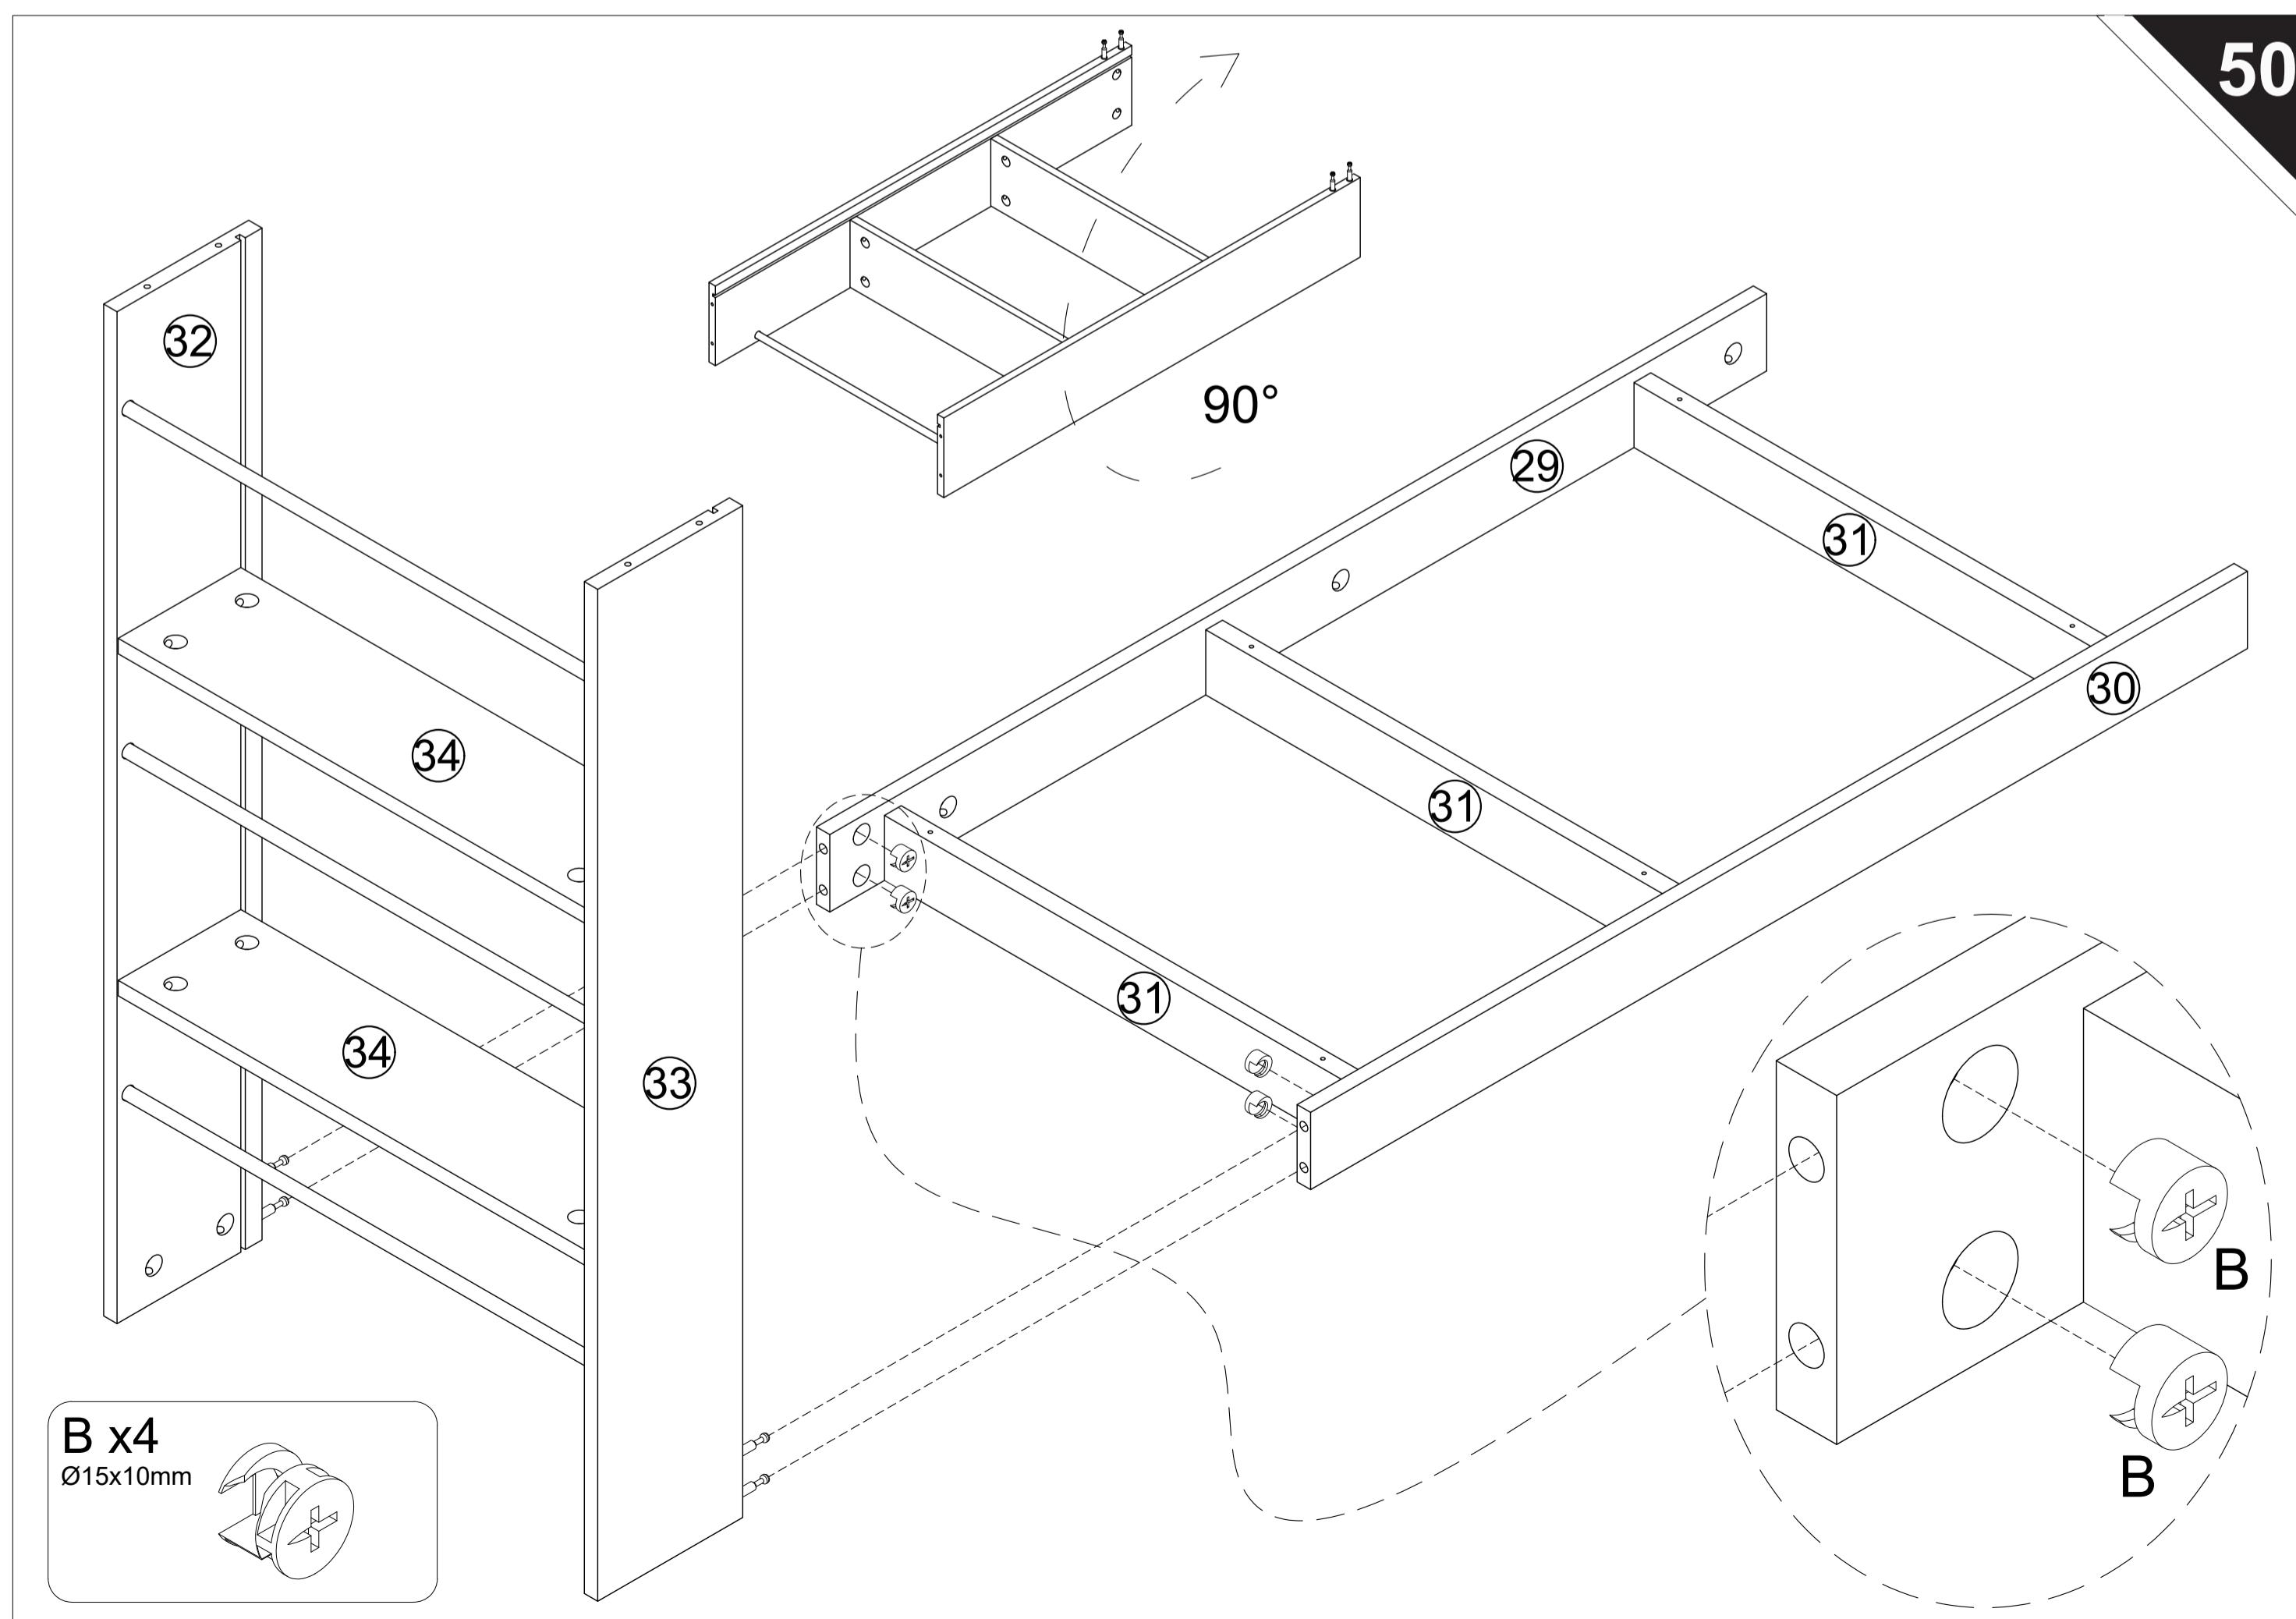

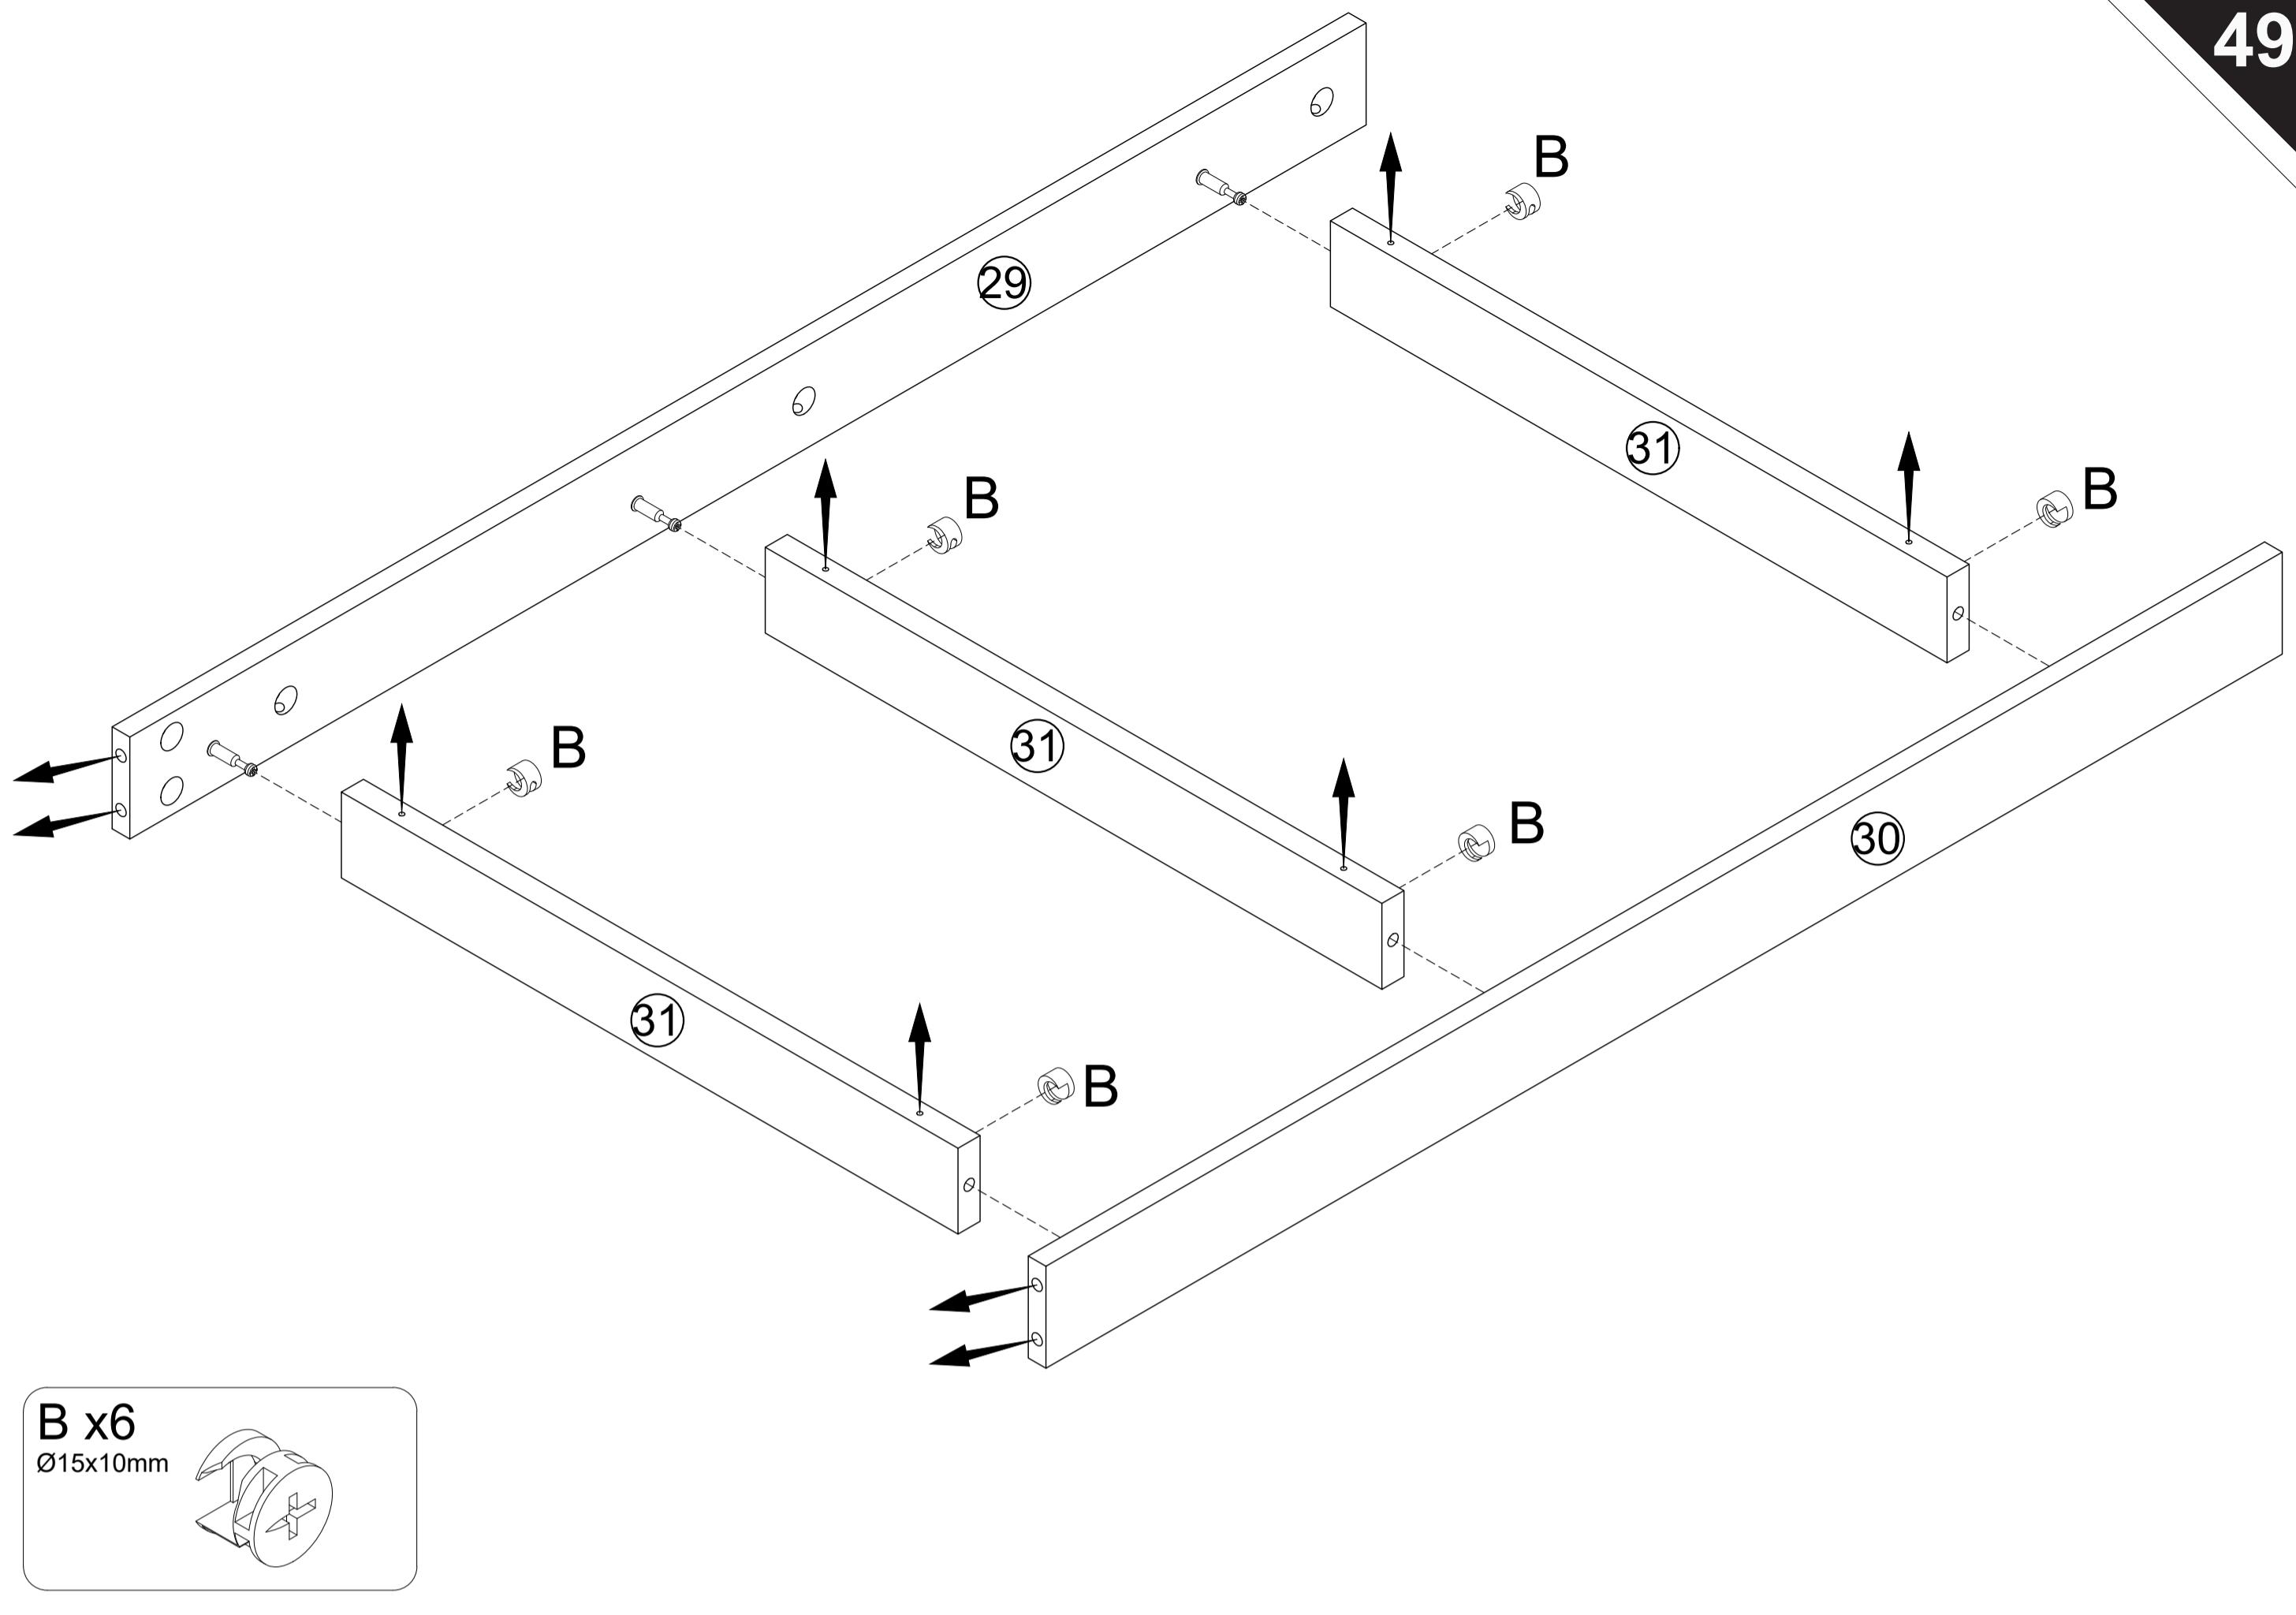

Loosen this screw and push forward/backward for a slight front-back adjustment of the door.

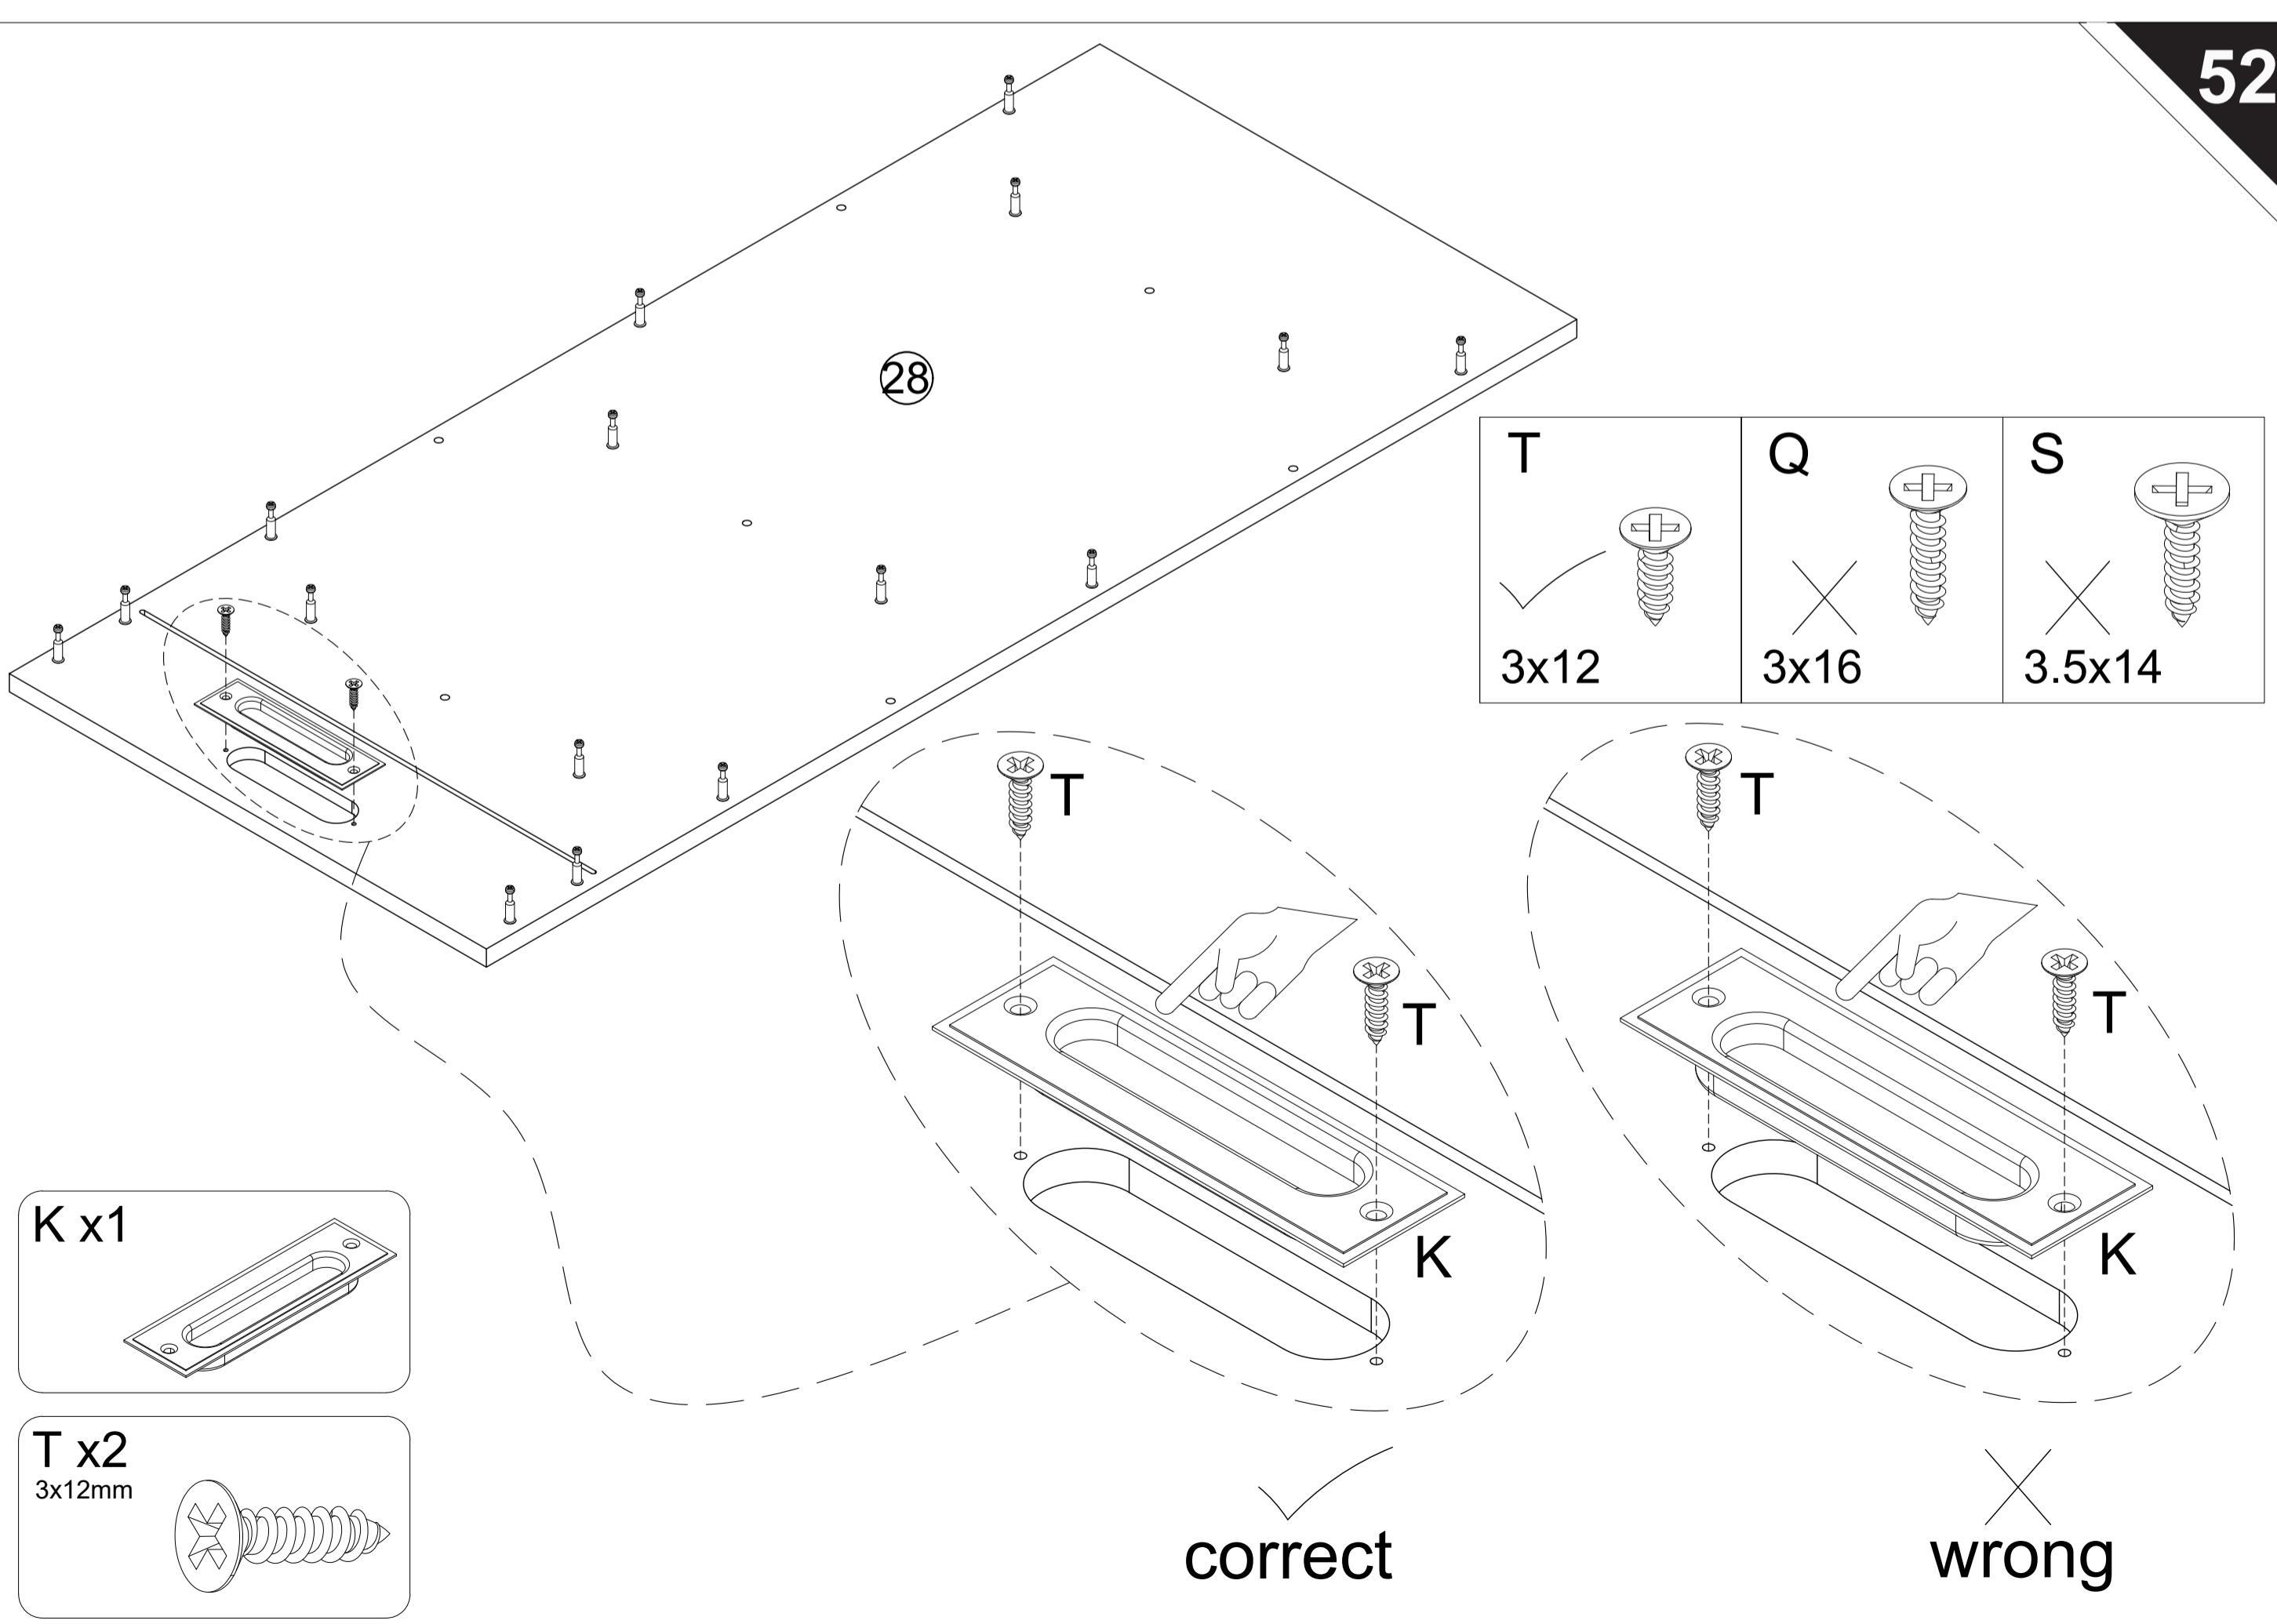

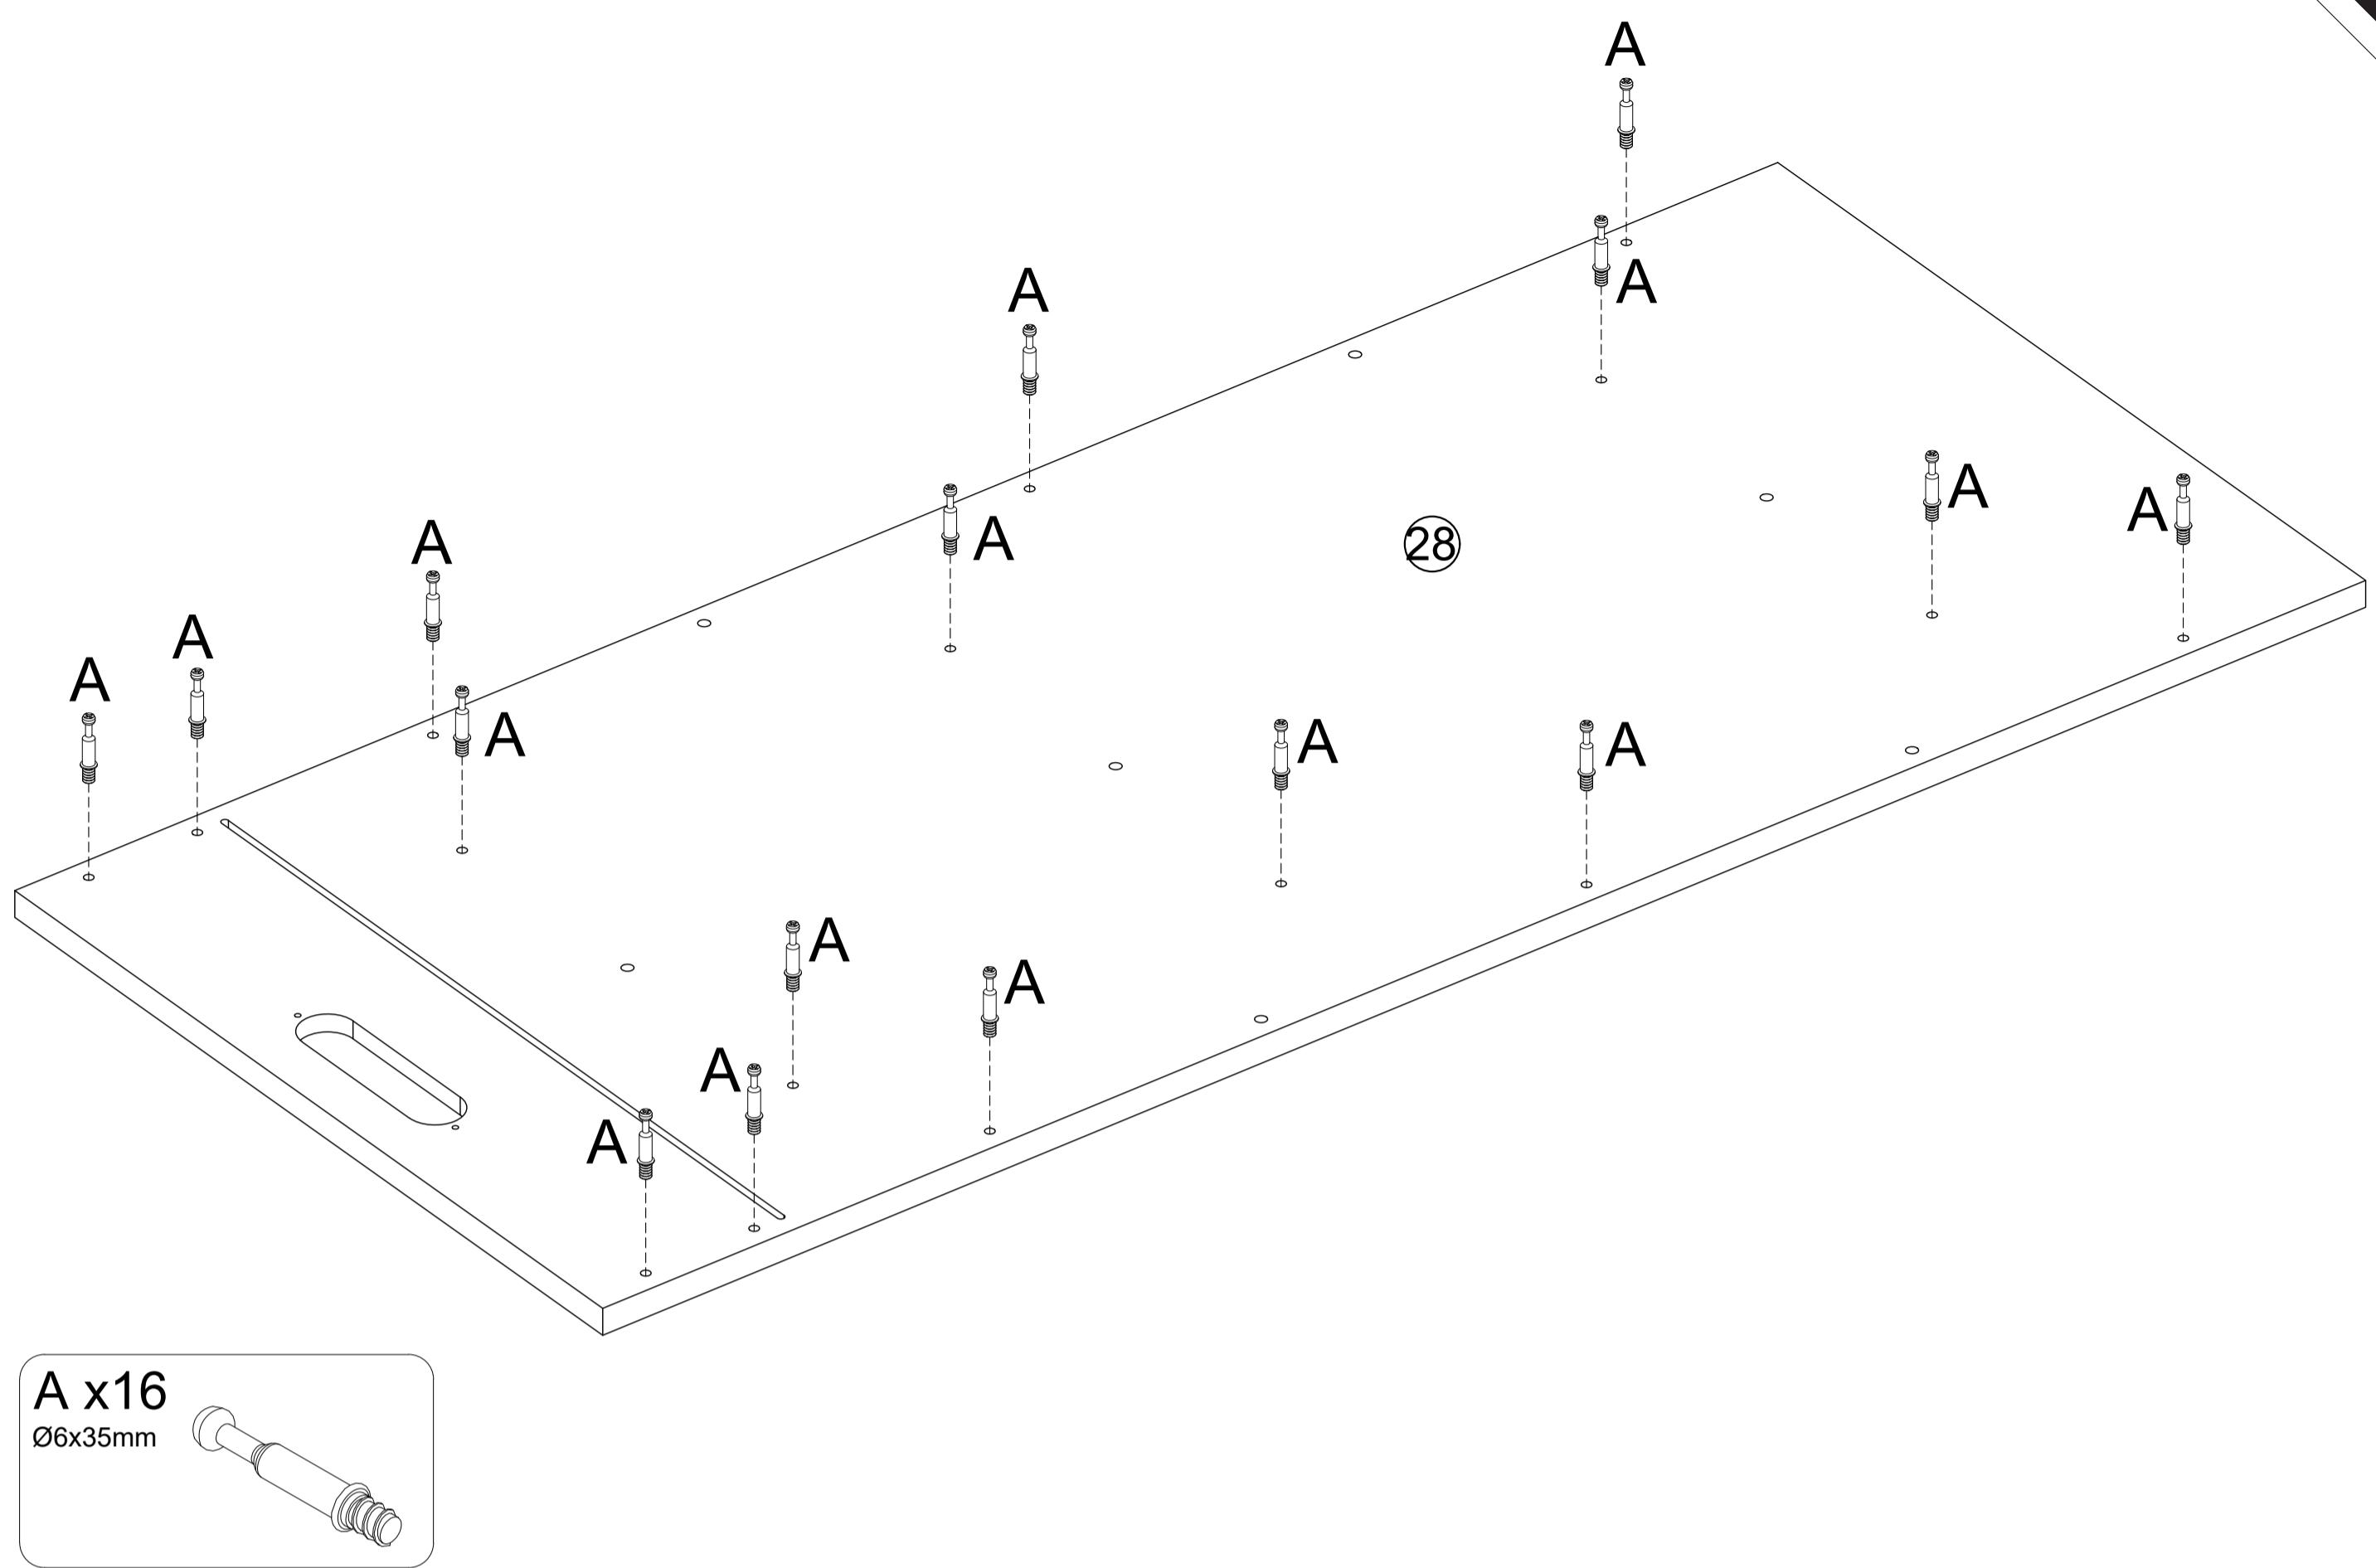

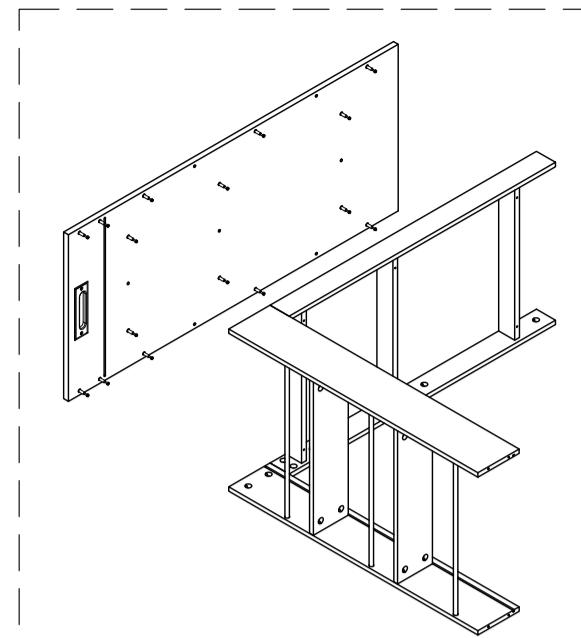

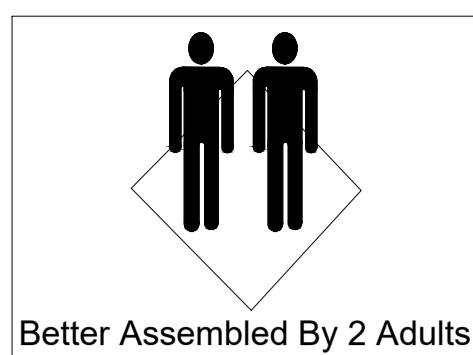

| T    | Q    | S      |

|----------------|----------------|------------------|

Pull out the slide rail as shown in the diagram

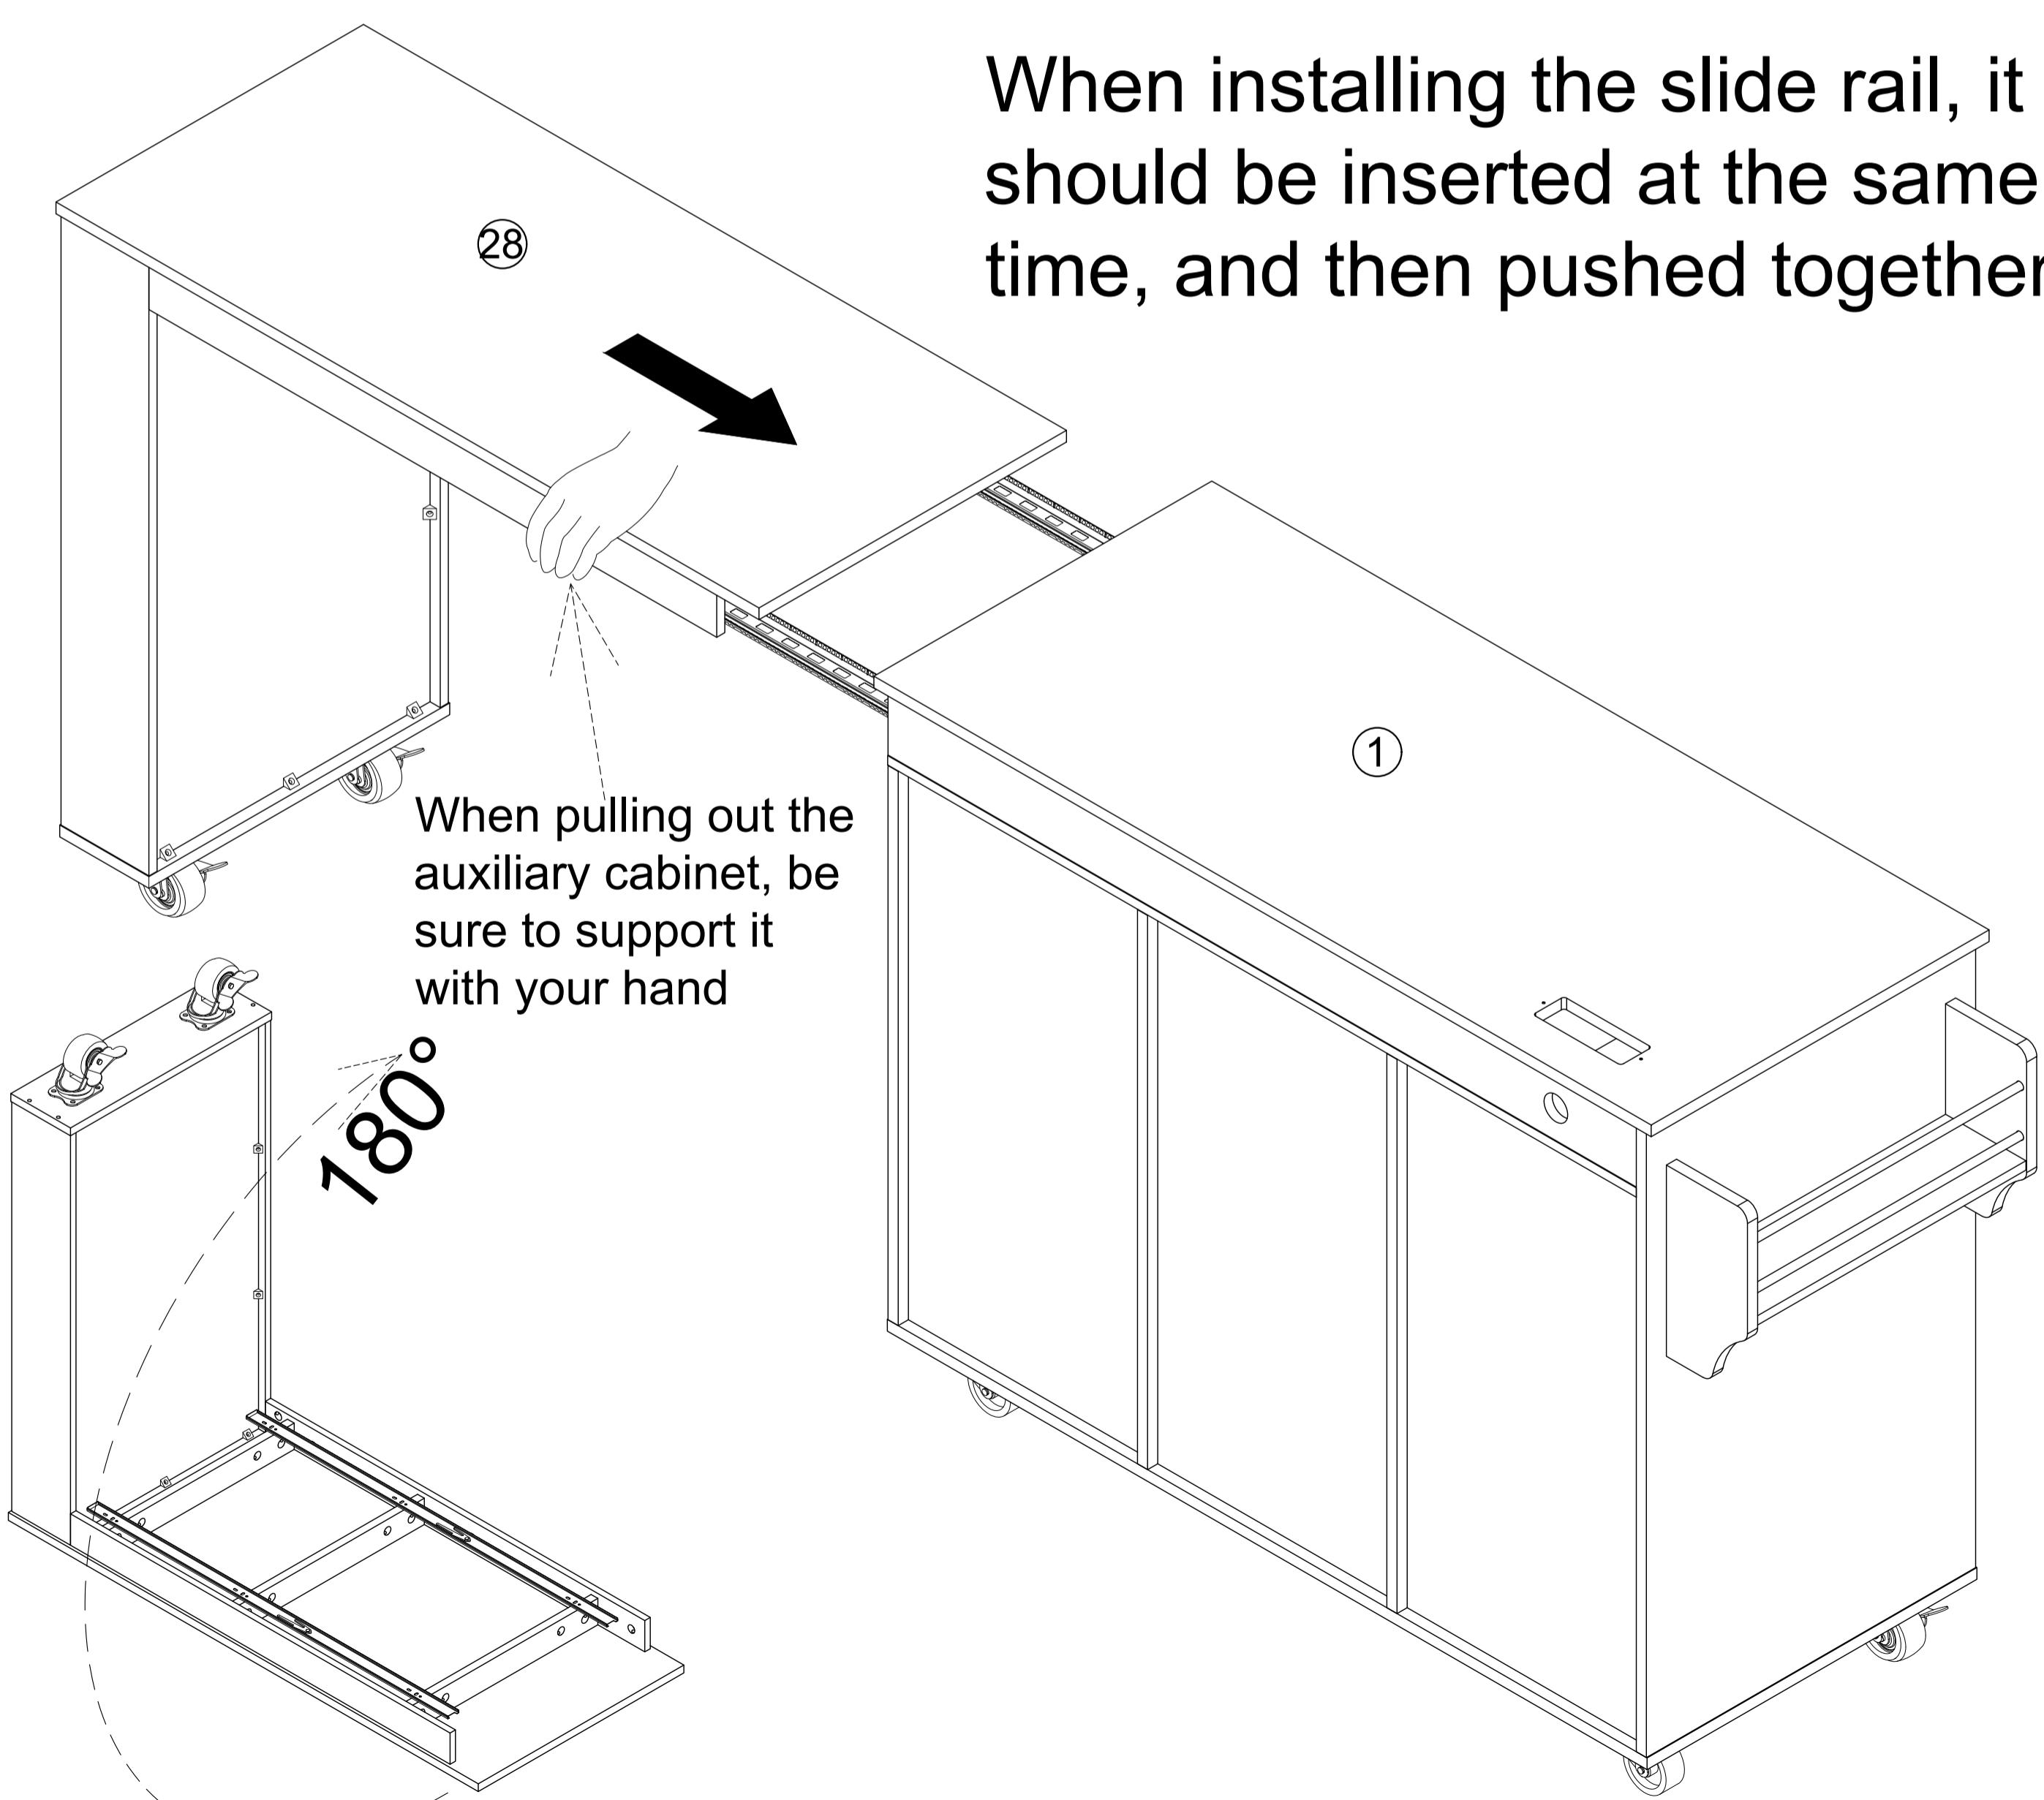

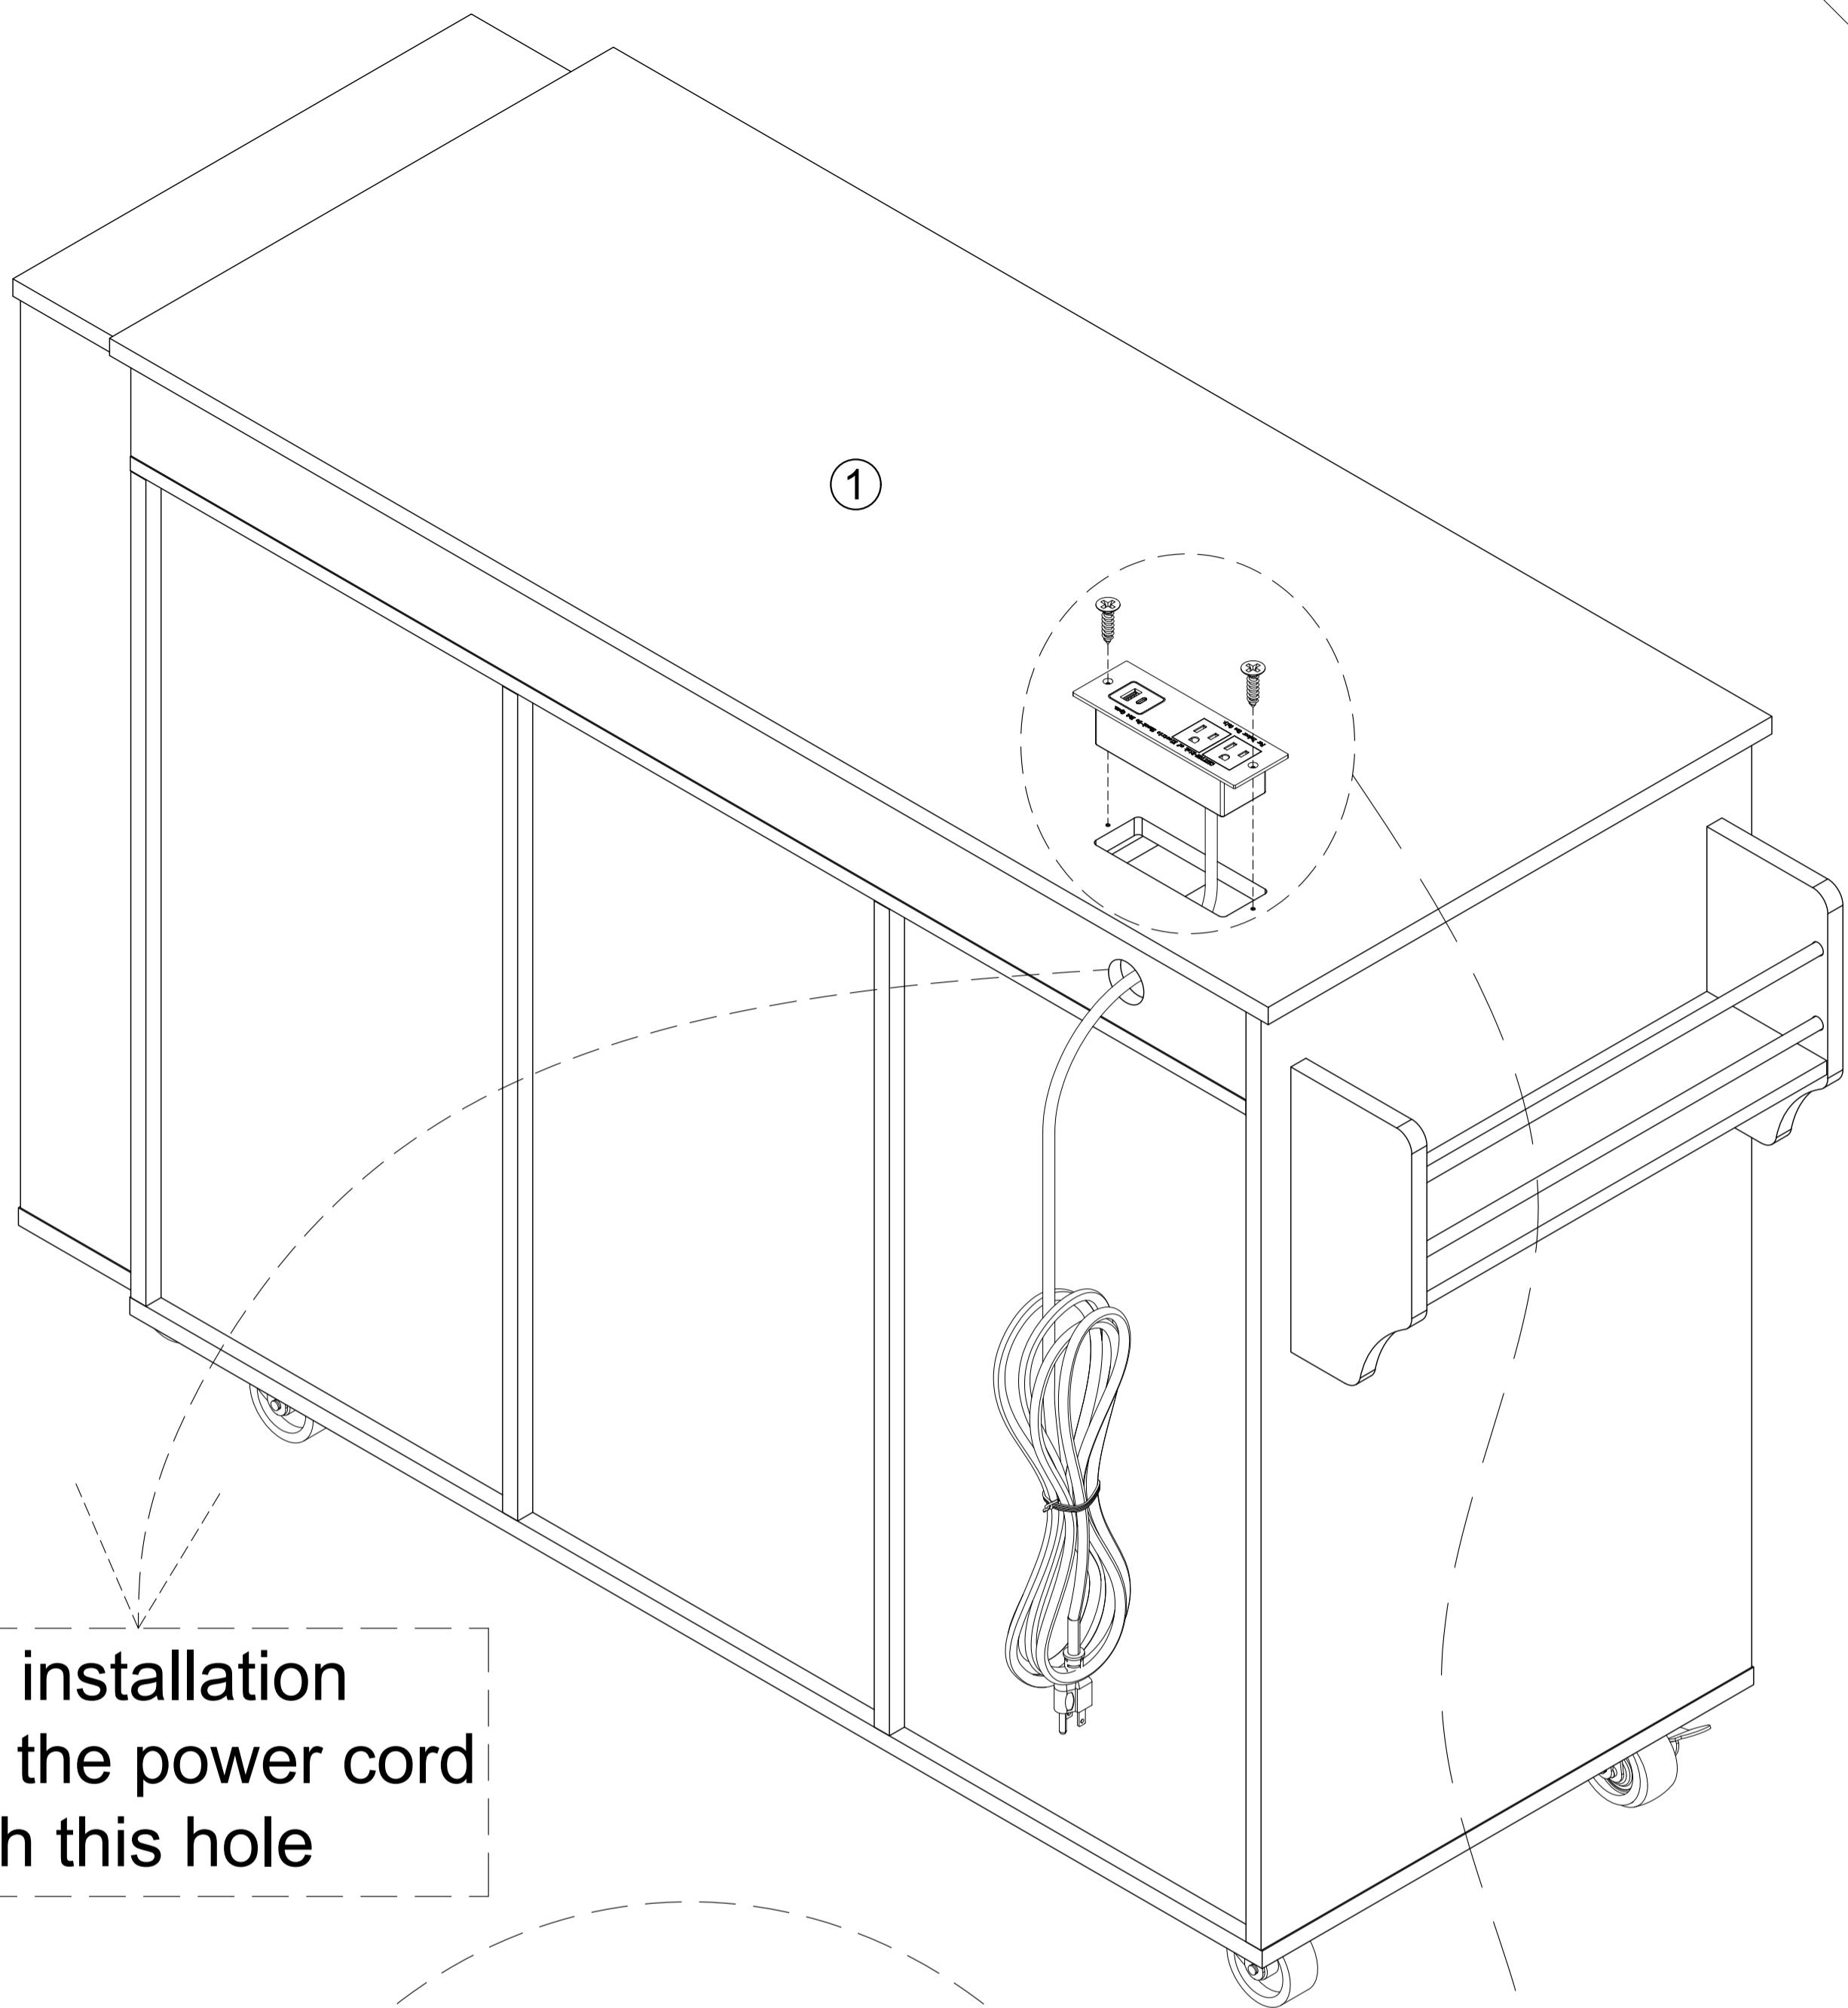

## Disconnect Levers

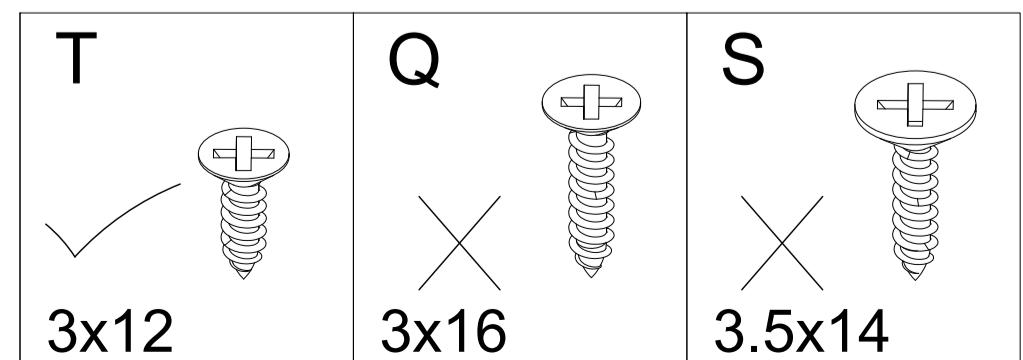

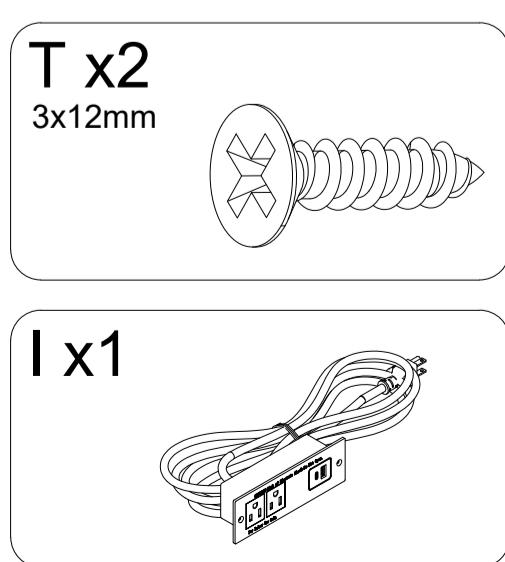

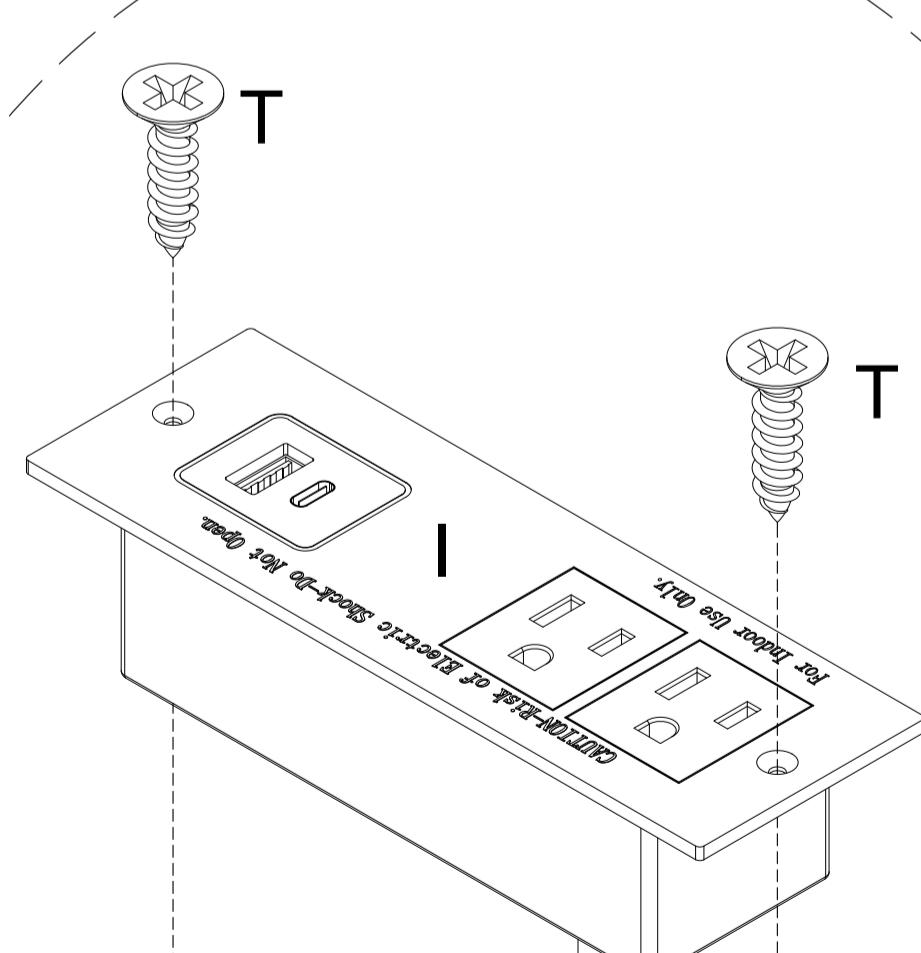

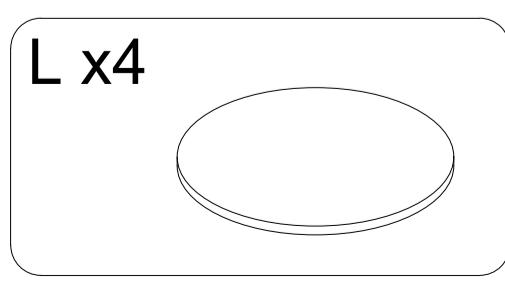

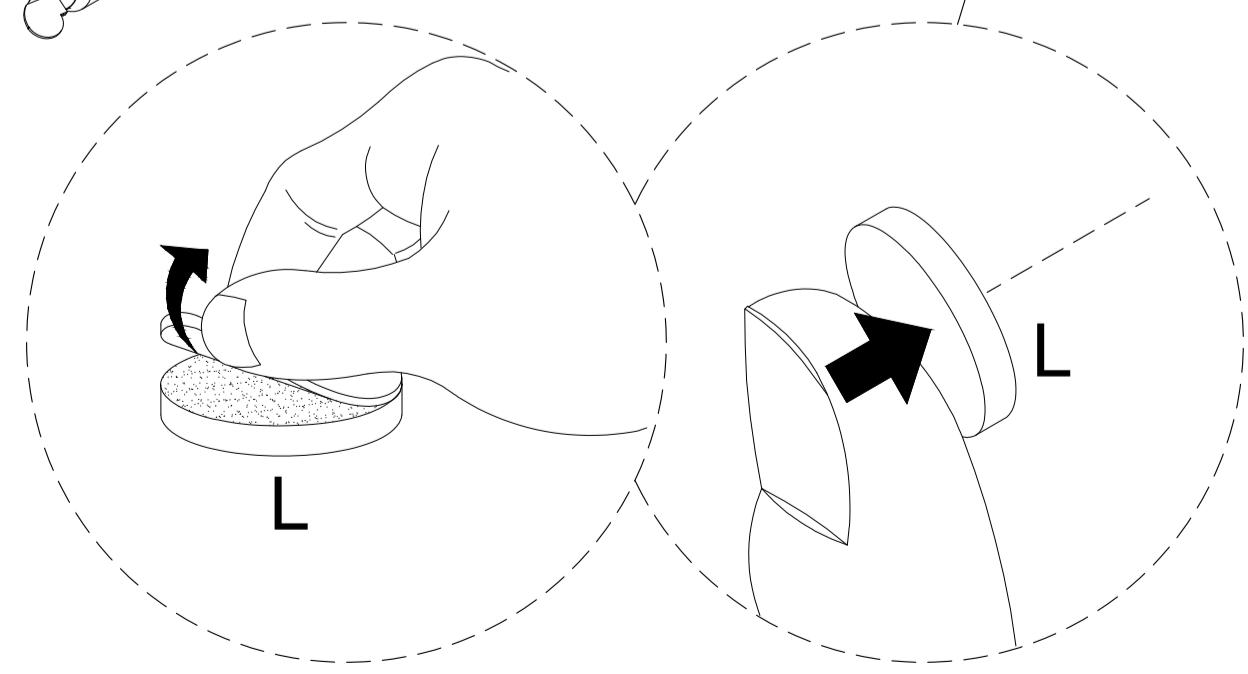

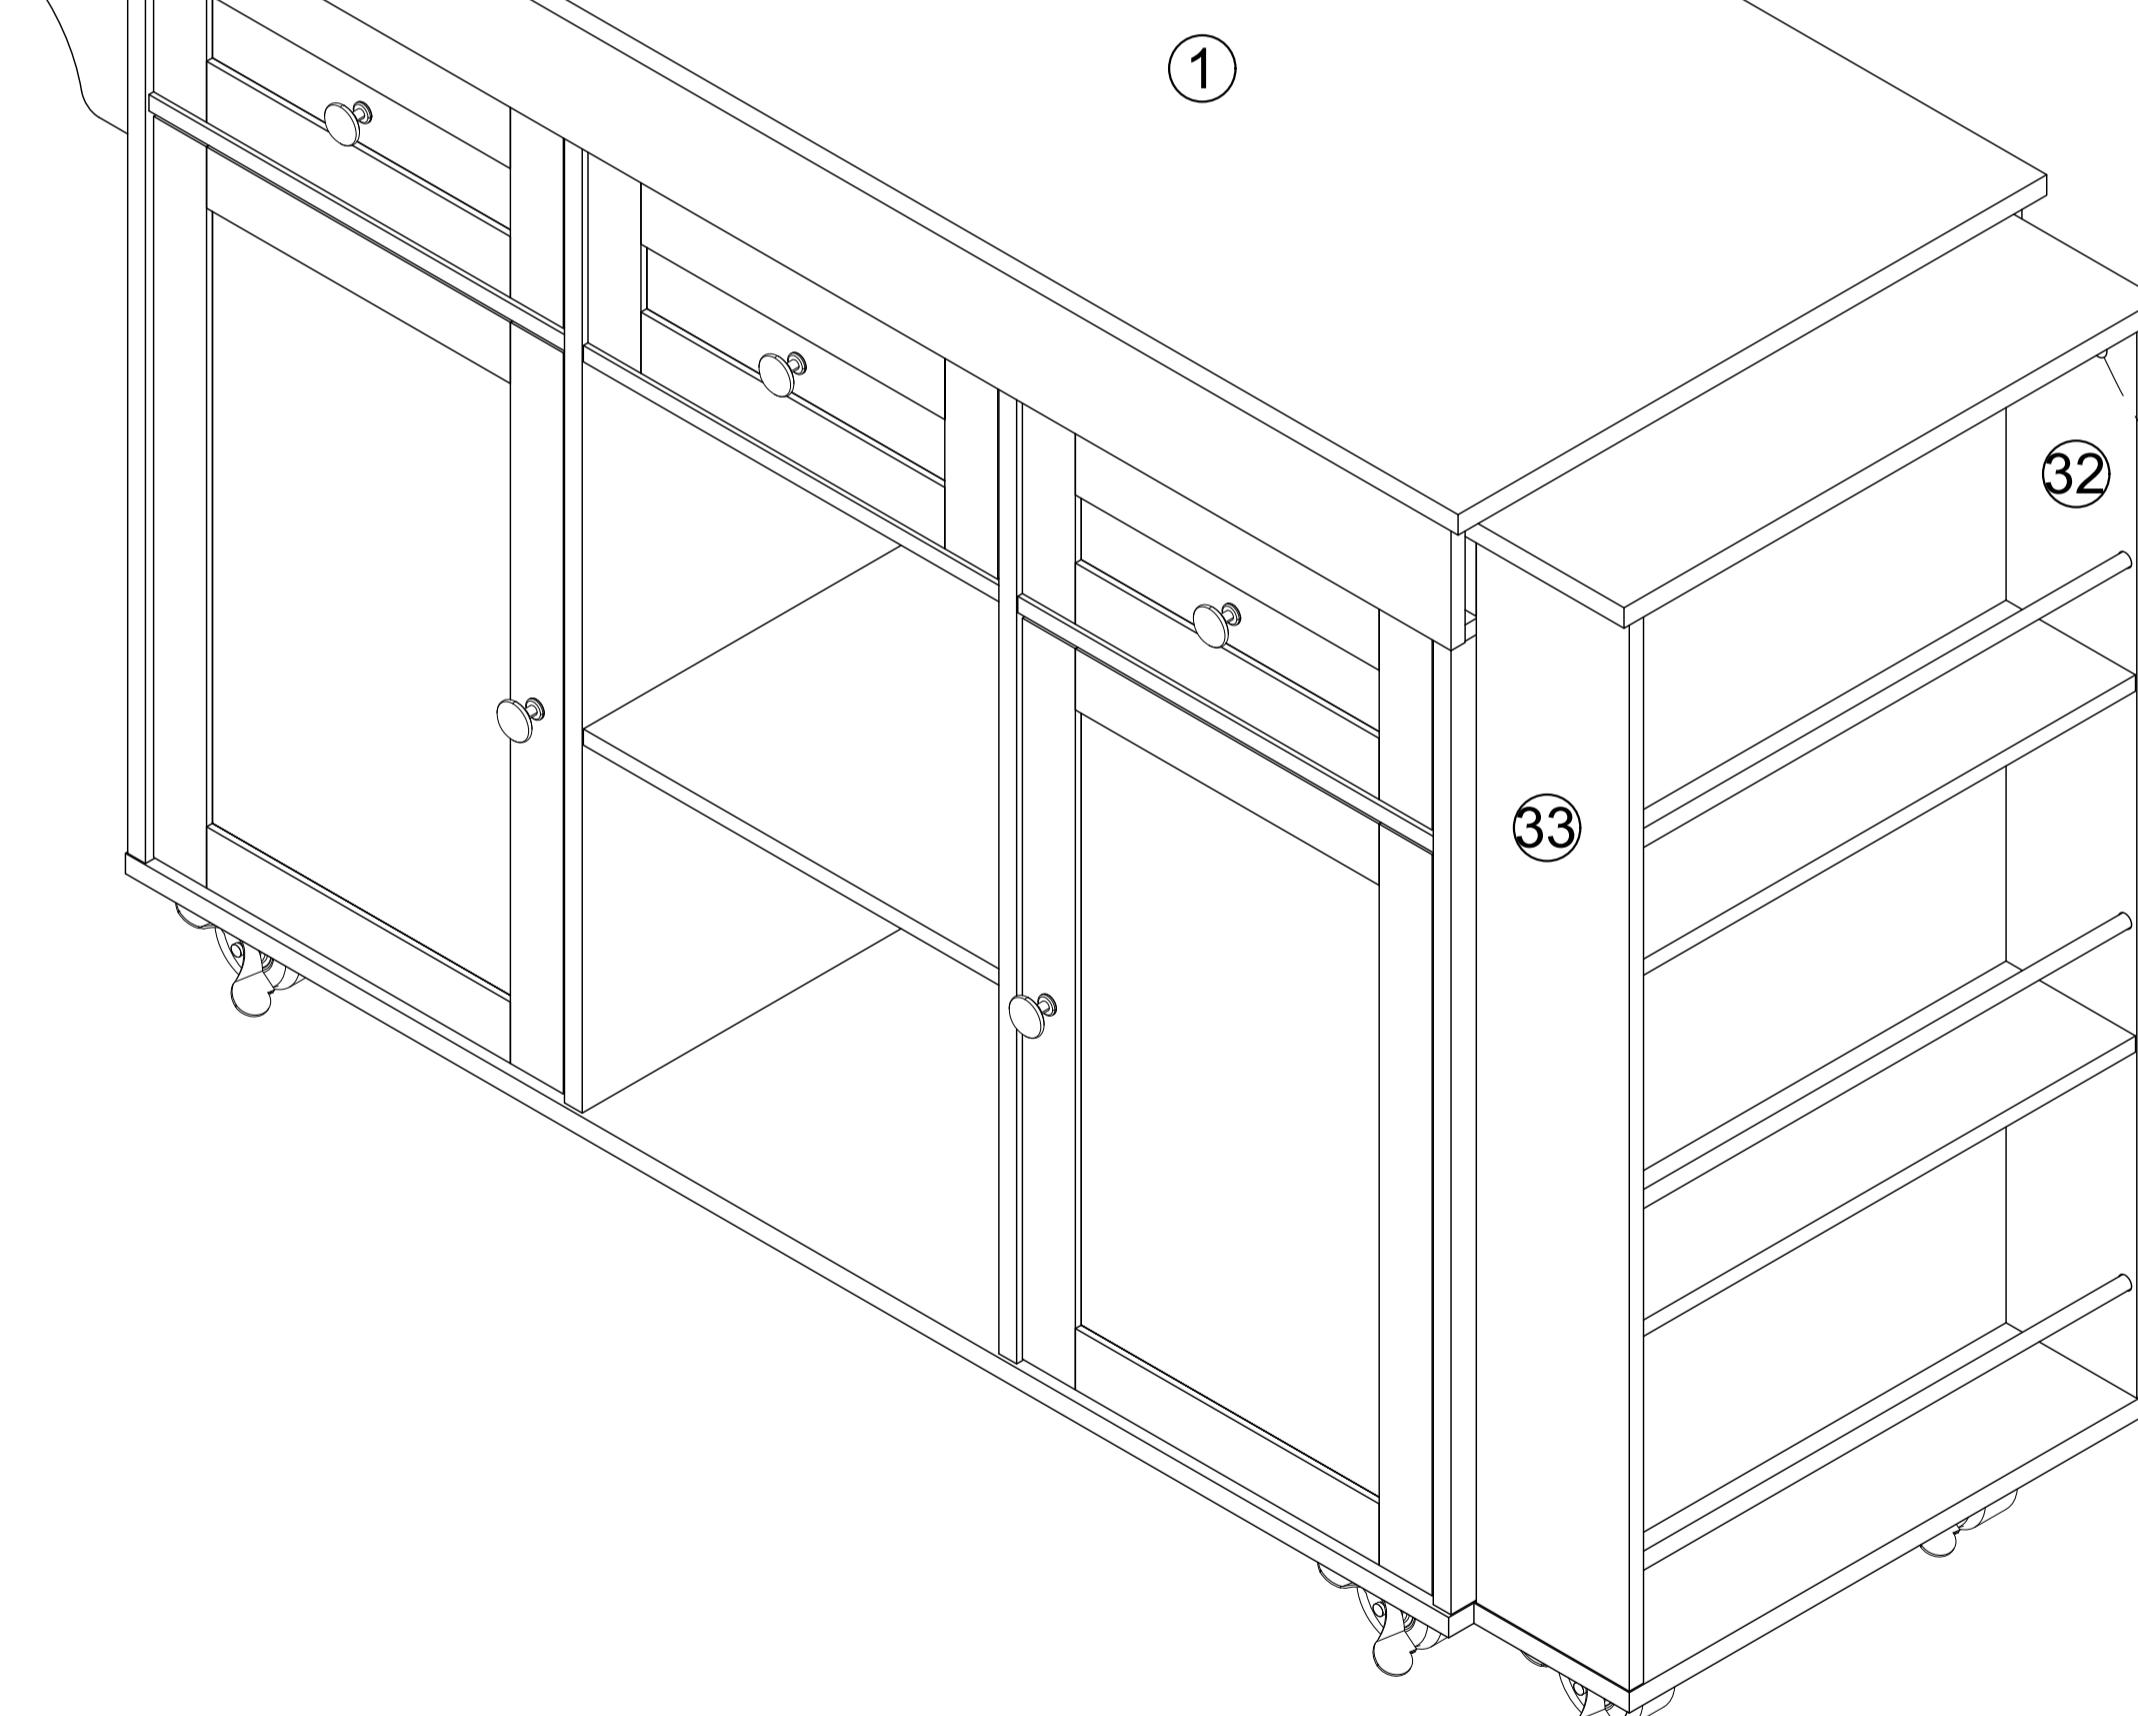

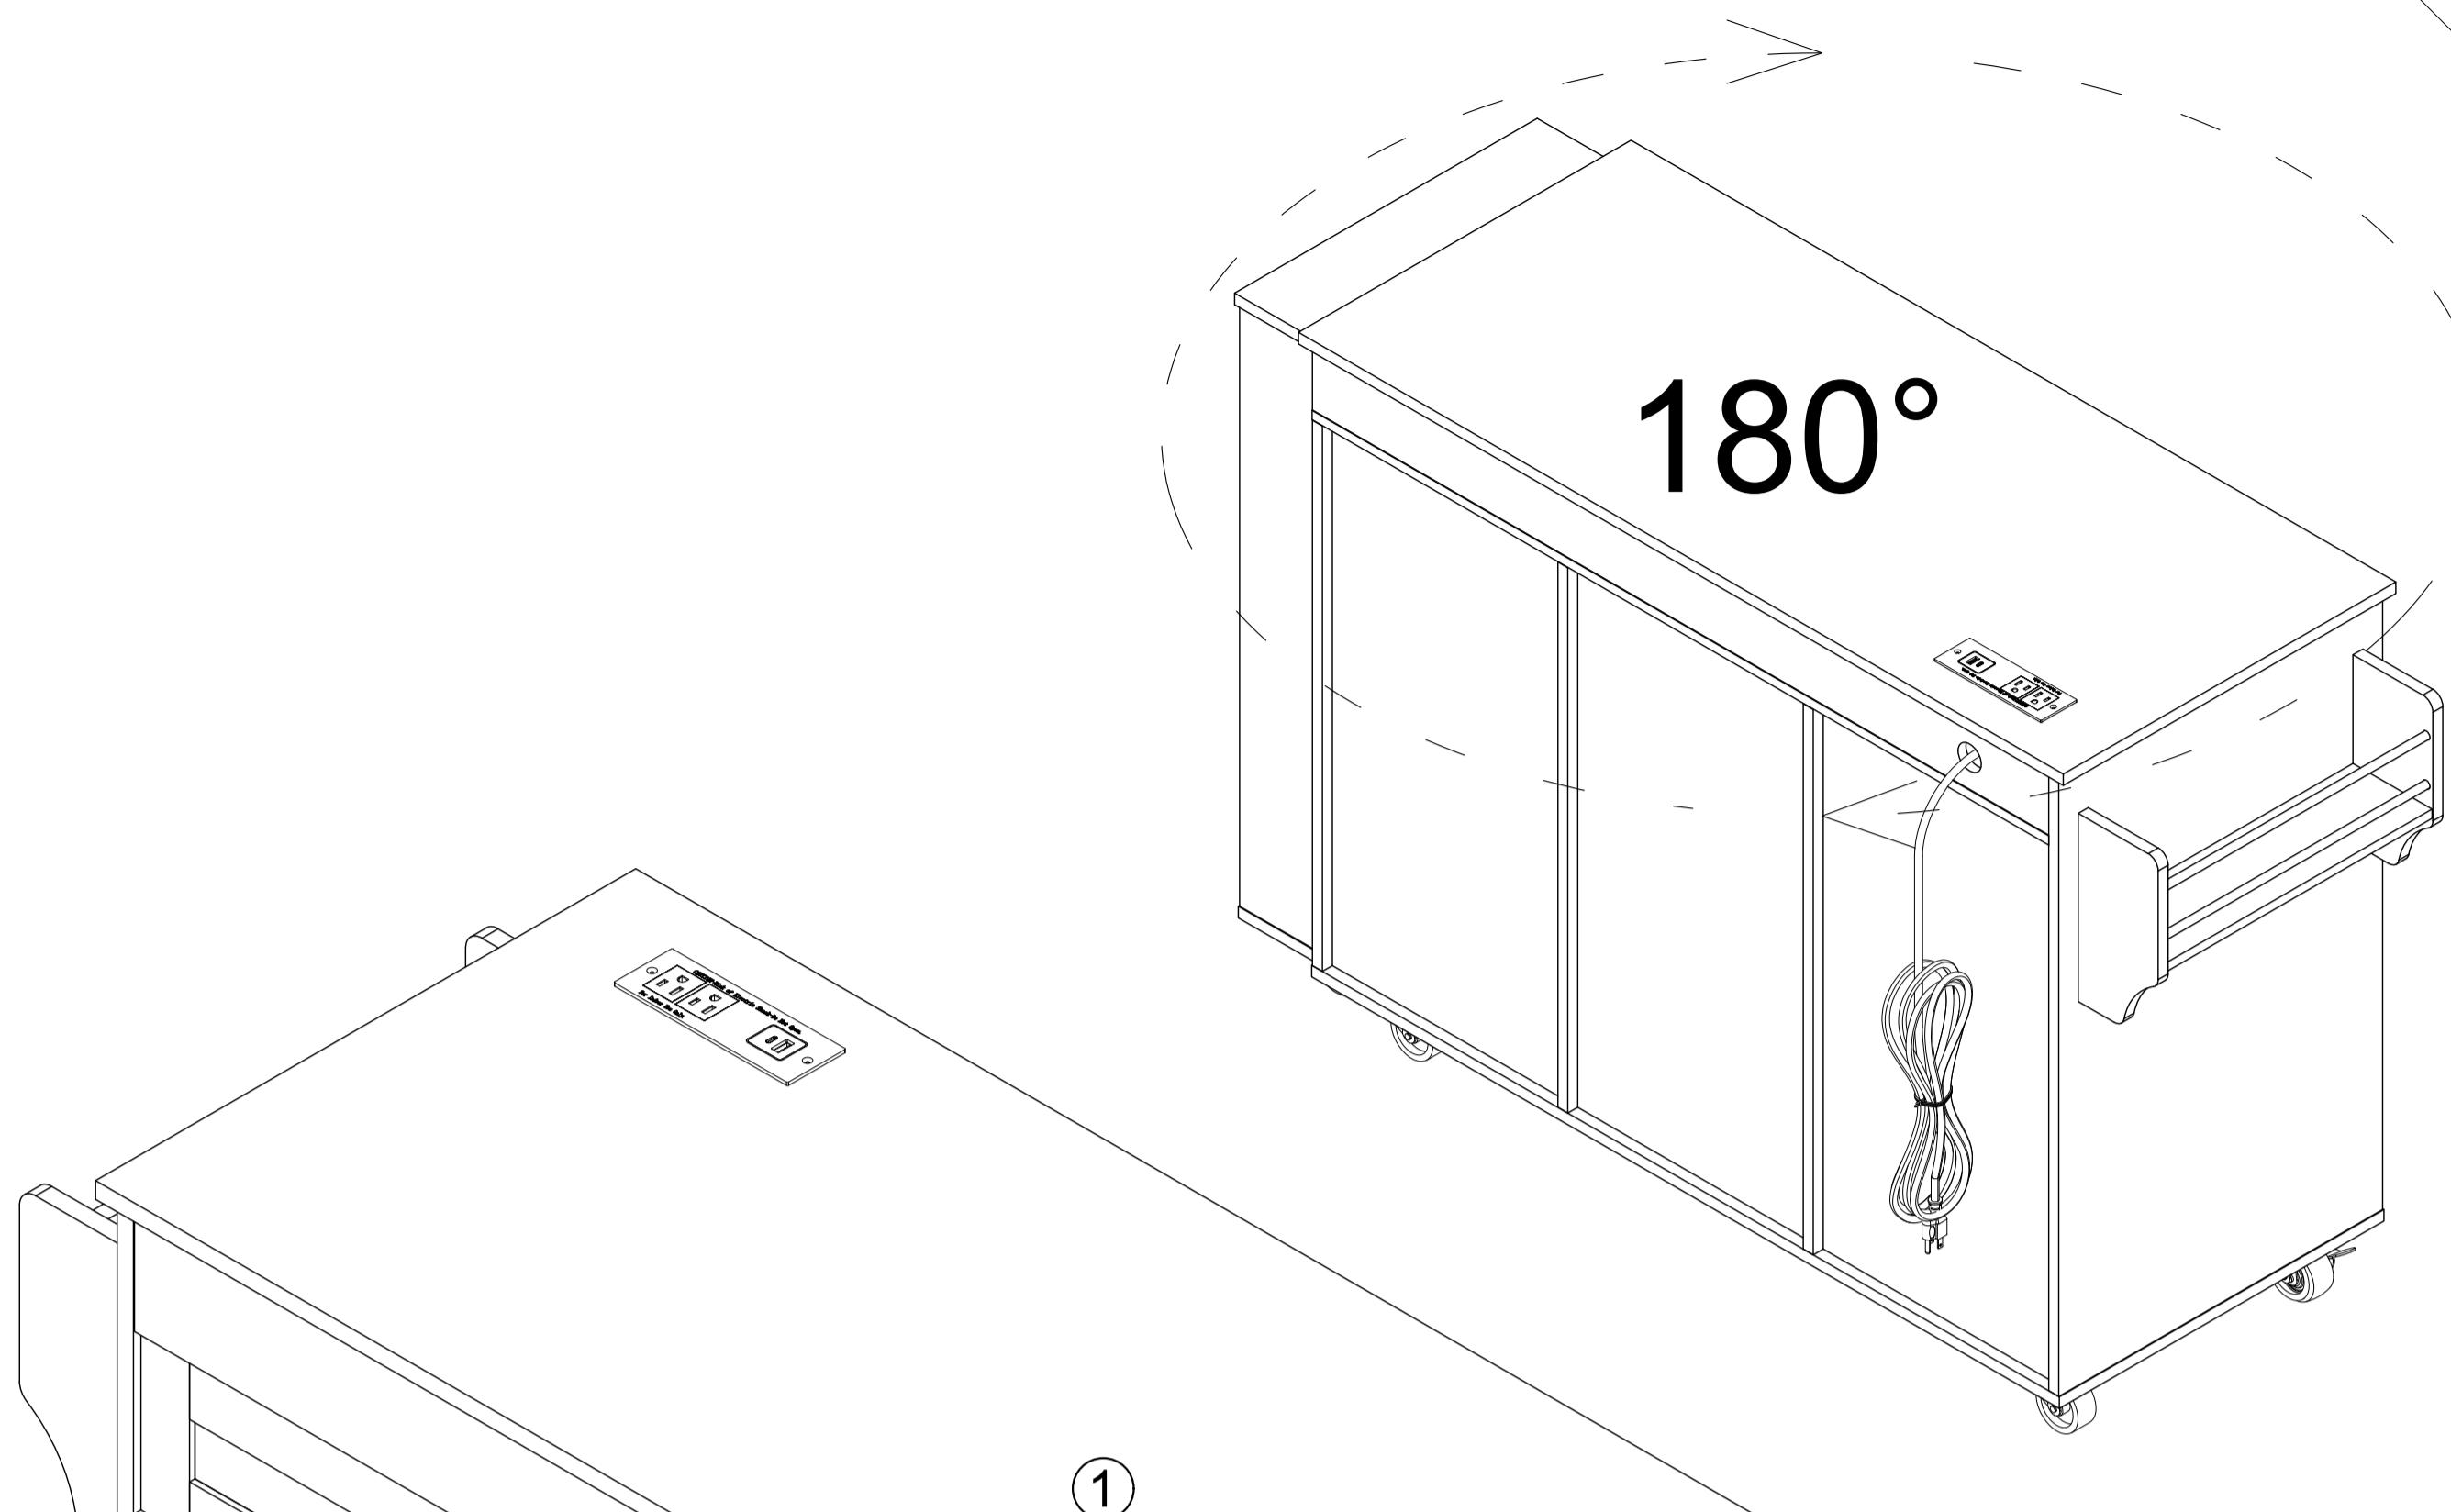

When installing the slide rail, it should be inserted at the same time, and then pushed together

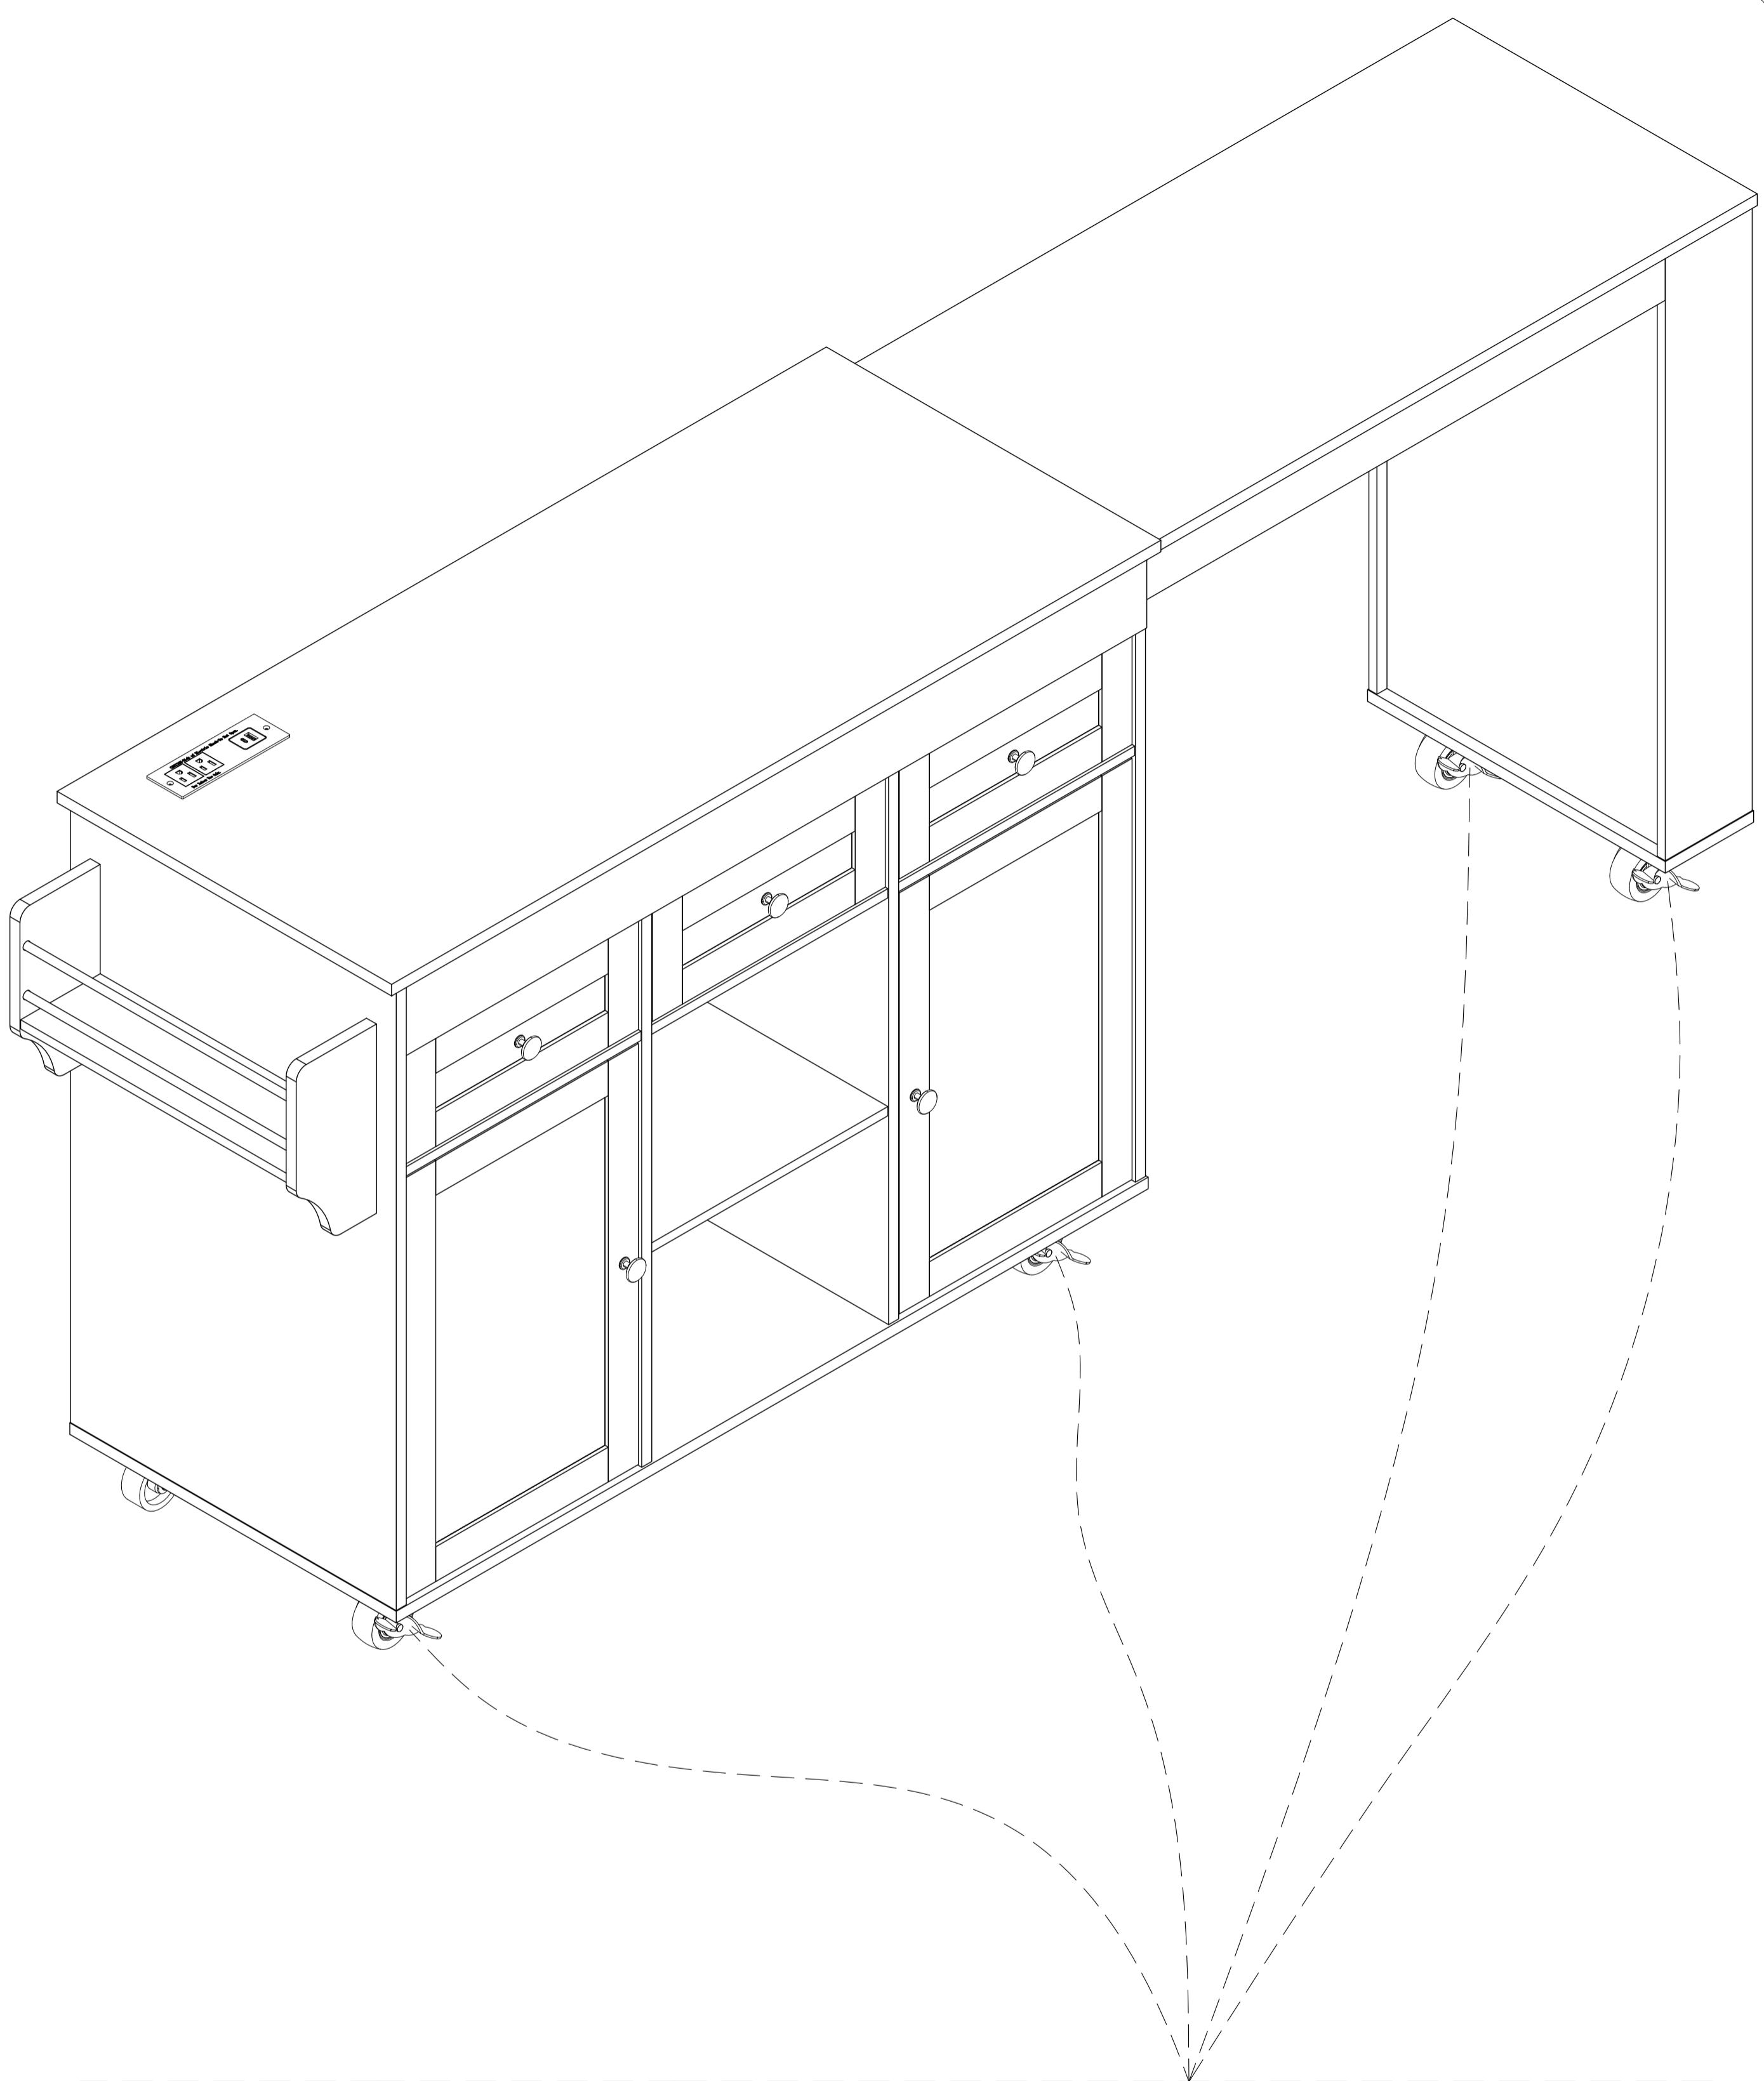

Before installation  
thread the power cord  
through this hole

**Cover the visible hole with a cap**

The table can be moved or secured by adjusting the wheel braking system

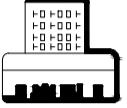

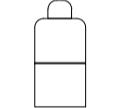

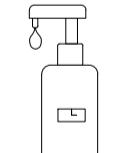

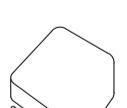

**Open**

**Lock**
