

Ceiling Light Installation Instruction

Please read the instruction manual carefully before using.

Dear Customer,

Thank you for choosing this lamp! To save your time and effort, please try to light up the lamp before installation to ensure the sockets are working correctly. If you have any issue when you receive it, please contact us.

Thank you for your understanding.

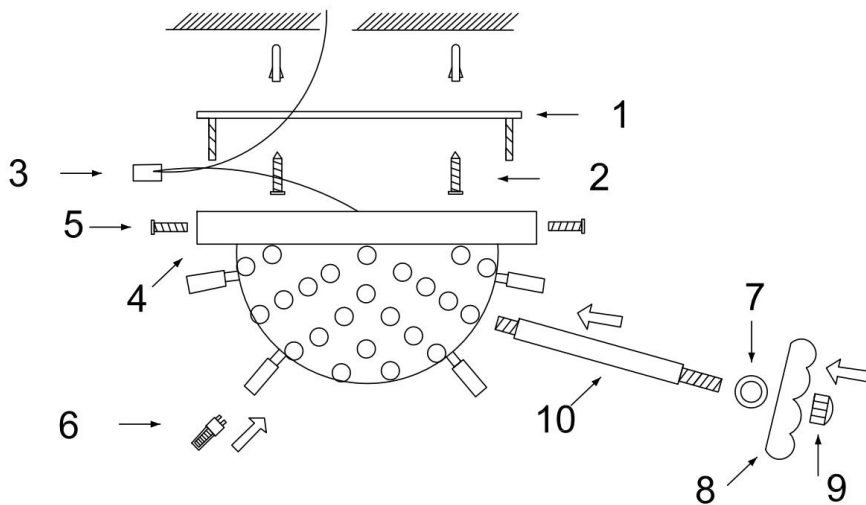

- Customer Support Team

Pack of Hardware	1
Instruction	1

Installation

- ① Attach the metal bracket(1) to your junction box with Phillips head screws(2). (Anchor screws are only useful for those customers who do not have a junction box).
- ② Connect the "L" wire to your "live" wire through the orange terminal caps and the "N" wire to your "neutral" wire, the copper wire needs to be wrapped around the green screw(3).
- ③ Assemble the canopy(4)to the metal bracket by canopy screws(5).
- ④ Insert the bulbs into the fixture(6).
- ⑤ Assemble the poles(10) and glass(8) with the caps(9) and washers(7). And then install the poles to the fixture.

Q: The lamp does not work?

A: First, make sure your bulbs are working well.
If your bulbs work, but not on the lamp, please pull the legs of the bulbs to the sides. This operation is to ensure that the bulb makes good contact with the copper in the bulb socket.
