

Assembling Guide

Thank you for choosing our product!  
If you're having difficulty, please give us a chance to make it right and do better! Replacements for missing or damaged parts will be shipped ASAP!  
Email: support@steelocker.com

Step 1

A  x 2   H  x 2   J  x 4

Insert H (Leg Tubes) into A (Side Panels), Then Use 4x J (M5 Screws) to secure. Make sure the small holes on the leg tube keep outward.

Step 2

B  x1   C  x1   J  x6

Use 6x J (M5 Screws) to secure B and C (Left & Right Back Panel) to A (Side Panel).

Step 3

D  x1   J  x8

Use 8x J (M5 Screws) to secure D (Top Panel).

Step 4

E  x 1

Put E (Shelf) into cabinet as a bottom shelf.

Step 5

F  x1   O  x 2

Put 2 O (Shelf Support Clip) into the back holes, then install the F (Base shelf), insert the front edge first then push down the back edge. If the shelf is unbalanced, simply adjust the clips to upper or lower holes.

Step 6

E  x 3   O  x 12

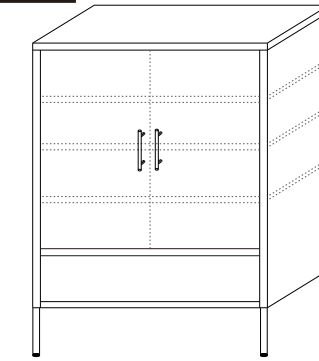

Insert O (Shelf Support Clip) into clip holes, then place E (Shelf). Make sure clips in 4 corners are at the same height for each shelf.

Step 7

G  x2   K  x2   L  x2  
M  x2   N  x2

First to insert K (Door Hinge) and L (Hinge Gasket) into the outward holes on F (Base Shelf). Then press down the door top axle spring to install the doors. Finally, use 4x N (M4 Screws) to secure M (Handle).

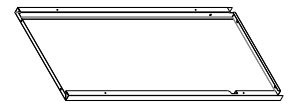

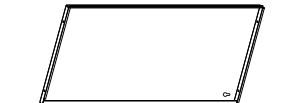

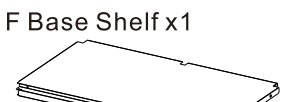

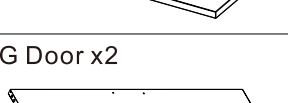

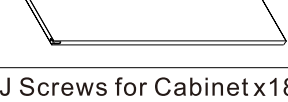

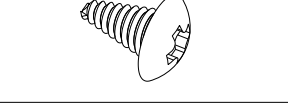

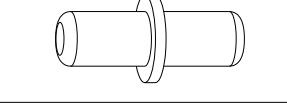

Step 8

If door gap is not even, simply twist the adjustment foot to balance it.  
**Congratulations! Enjoy your cabinet.**

**⚠ Important!**  
Remember to install the anti-tilt screws on the back to prevent it from tipping over.

- ★★★
- 1.Please confirm the completeness of parts according to the parts diagram on this page. If there are any missing, please feel free to contact us, we are happy to help!
  - 2.Please be aware that some parts may be sharp, please be careful!
