Before
Beginning
Assembly:

- Read instructions, cover to cover-

- Have 2 adults on hand for assembly-

- Do not assemble on flooring or carpet-

- Assemble on a clean non-marring surface (packing foam)-

- Save all packaging until finished-

Assembly Steps

Overview

This Bench has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Bench parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly

Step 1

Take out the Bench(A) and Armrest(B) and legs(C).

Step 2

As shown in the picture: secure the Bench(A) and Armrests(B) with Legs(C) rotation.

Step 3

Place the Bench on a level Surface to check for wobbles.

If it wobbles, lift the Bench some 30cm to 50cm high from the ground.

Keep your feet and toes well away from the drop zone.

Drop Bench freely and vertically, with all Bottom hitting the ground at the same time.

This Drop Test will help to ensure that all Bolts and gaps reach full alignment status.

Test again for evenness on a Level Surface.

If no wobbles are found, proceed to tighten all the Bolts.

When tightening the Bolts, tighten sequentially.

DO NOT tighten any Bolts fully and then towards the next one. This may cause the frame to warp.

If there is still wobbles, loosen the Bolts and execute this same drop test.

Step 4

Your Bench is ready for use.

This Bench can only be used on a flat, level surface.
