Flip the buckle of the front connector, then pull the drawer out to complete the disassembly
Retournez la boucle du connecteur avant, puis tirez sortir le tiroir pour terminer le démontage

- Please check your product packaging to make sure the included accessories etc.

Diagram Specifications

Vanity Care Guide

Vanity Care

- Avoid direct contact of sharp objects as they can cause exterior damage.
- Do not expose directly to the sun as it can cause aging and cosmetic damage.
- Avoid placing hot objects onto the vanity surface.

Countertop Care

- Kindly note that all our tops are sealed before shipping but may stain, scratch, or chip because they are porous by nature.
- Do not place hot items directly on the countertop as it can damage it.
- To prevent ring marks or staining, dry immediately.
- Place table mats beneath objects that can potentially scratch the surface.
- Use a clean, soft fabric to dust the vanity.
- Occasionally wash with a cloth dampened in warm water. If needed, apply a small amount of mild dishwashing liquid or stone soap to clean. Dry with a soft cloth.
- Refrain from using chemical cleaners, sprays, abrasive cleaners, or products that contain lemon, vinegar, or other acids.
- We advise to reseal top annually or when necessary.

For Minimal Stains:

1. Try gently cleaning with water and mild soap with a microfiber cloth.
2. If marks remain: Try gently scraping off the mineral build up with a brand new razor blade.

For Tough Stains or Cloudy Spots:

3. Try a pH-balanced cleaner safe for composite surfaces.
4. If marks remain:

- Lightly buff with water using ultra-fine steel wool (0000 grade) or high-grit waterproof sandpaper (1000+ grit).
- Follow with a stone-safe polishing wax to restore shine.
- Always test in a small area first.

★ Note: These steps should be done gently to avoid dulling the surface. Contact us if a polishing wax is needed.

Cleaning and maintenance

- Avoid using cleaning products that contain Bleach or Ammonia.
- Please use wood-friendly products on wooden base vanities.
- To adequately clean exterior surfaces, use natural cleaning solutions or soap
